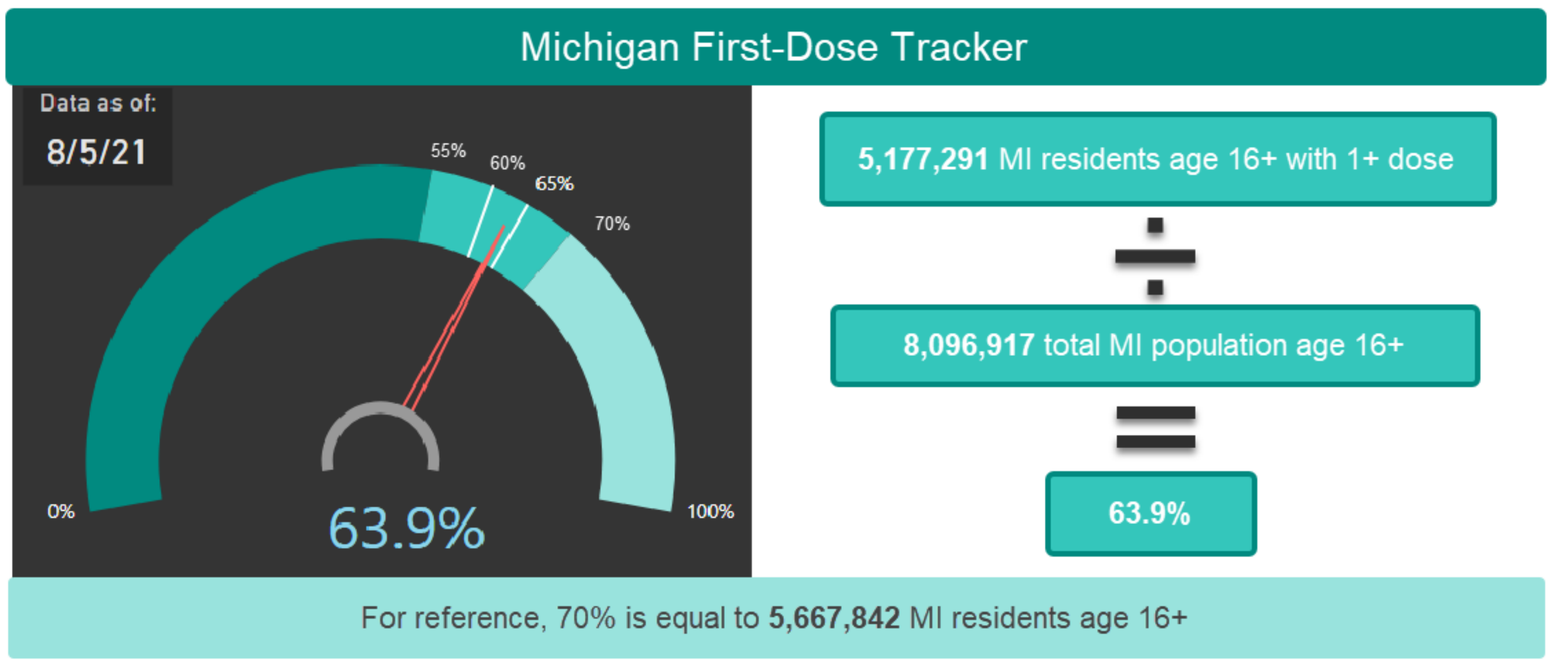
It has been accepted for inclusion in Michigan COVID-19 Vaccine Data by an authorized administrator of ScholarWorks at WMU. For more information, please contact wmu-scholarworks@wmich.edu.

COVID-19 Vaccine Dashboard

Looking for COVID-19 Case Data? Click here.



The dial tracker was not updated because the CDC data tracker on which it is based was not updated by 3pm.

Progress is based on the **CDC data tracker**, which includes MI residents vaccinated by providers not currently reporting to the state dashboard below: Veterans Affairs, Department of Defense, Bureau of Prisons, and most out-of-state providers. **Data provided in the Michigan COVID-19 Dashboard below slightly undercounts the true number of doses administered to MI residents.** See the "Learn More" tab below for details.

First-dose tracker above updated 3pm daily, except when CDC's data tracker updates later; then it is updated the following morning.

First-dose tracker above is for age 16+. Coverage maps below are for age 12+.

The Federal Long-Term Care Facility (LTCF) Pharmacy Partnership Program ended on 5/25/2021. There will no longer be updates to Federal Long-Term Care Facility (LTCF) Pharmacy Partnership Program Data. Some facilities were able to vaccinate all residents and staff by the second clinic and did not require a third clinic date.

Federal Long-Term Care Facility (LTCF) Pharmacy Partnership Program Data through of 5/23/21

Pharmacy Phase	Activation Date	Facilities Assigned for Scheduling	Facilities with First Clinic Completed	First Dose Clinics Completed %	Second Dose Clinics Completed %	Facilities with Third Clinic Completed	Total Vaccines Administered (Residents & Staff)	Additional Clinics Scheduled Over Next 7 Days (includes today)

CVS Data Source: **https://cvshealth.com/sites/default/files/cvs-health-covid-19-vaccination-data.pdf ***CVS data reported through 3/30/21.**

Managed Health Care Associates Source: MHA [email report]

Walgreens Facilities Assigned for Scheduling decrease includes an estimated 1200 facilities transferring to Managed Health Care Associates pharmacies for administration, as well as facilities that have opted out.

Previous data posted for Managed Health Care Associates Part B was reported in error by MHA.
The data posted today has been corrected by MHA to reflect the accurate numbers for Part B (Other Long Term Care Facilities).

At this time, Long Term Care vaccinations are not fully captured in the primary dashboard above. We are working on reconciliation and will update this note when complete.

CVS and Walgreens pharmacies plans to conduct three on-site clinics at each LTC facility to vaccinate as many residents and staff as possible. During the first clinic, the pharmacists will vaccinate all staff and residents on site. The second clinic will be held a minimum of 28 days later and the pharmacists will vaccinate staff/residents from the first clinic with their 2nd dose of COVID-19 vaccine and catch anyone they may have missed on first date with their first dose. The third clinic will occur 28 days after the 2nd clinic and pharmacies will vaccinate anyone from the second clinic that needs their 2nd dose.

Vaccination of detained individuals in Michigan Department of Corrections facilities 8/6/21

Why does Michigan present two sets of information on vaccine coverage?
The Michigan Dial Tracker posted above this dashboard provides the most complete estimate of the number of Michigan residents over 16 who have received their first doses of COVID-19 vaccine. This visual tracks the date when 55%, 60%, 65% and 70% of Michigan residents 16 years or older have received their first dose of vaccine, using data from the CDC COVID Data Tracker.

The Michigan COVID-19 Vaccine Dashboard provides more detailed information on doses administered and coverage, including detail on time, county, age group, race/ethnicity and provider type. This dashboard relies on data from the Michigan Care Improvement Registry or MCIR, which only collects doses from providers who have enrolled in the MCIR.

Why do statewide administration and coverage numbers not match what is on the CDC data tracker?
CDC has access to administration data from providers who are not currently reporting to the Michigan Care Improvement Registry including federal entities (i.e., providers at Veteran's Affairs hospitals, Department of Defense facilities, and Federal Bureau of Prisons) and out-of-state providers who administered vaccine to Michigan residents. This means that the Michigan COVID-19 Vaccine Dashboard undercounts the true number of doses administered to Michigan residents.

By default, the Michigan COVID-19 Vaccine Dashboard reports the proportion of *eligible* Michigan residents who have received the vaccine (currently people age 12 or older). In contrast, the Dial Tracker posted above this dashboard reports coverage for ages 16 and up.

Why do the totals on the Coverage Page not match the numbers on the Mi Vacc to Normal Milestone Tracker?
The Mi Vacc to Normal Milestone tracker includes Michigan residents who had their first dose of vaccine in federal facilities (e.g., federal prison or Veterans Administration Hospital) or out of state. The Michigan Department of Health and Human Services does not yet have access to those records. The data here provide an estimate of coverage rates for each county by age groups.

Why did the number of doses distributed increase so sharply?
As of 4/15/2021 the dashboard now reports doses delivered directly to providers in federal programs, including the federal Retail and Long-Term Care Facility Pharmacy programs, HRSA, and Indian Health Services. These deliveries include 426,460 doses that were transferred into federal programs from the State of Michigan's allocation. The

PUBLIC USE DATASETS
COVID-19 Vaccines Shipped to Providers

README

Where does the vaccination data come from?
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

Is COVID vaccination administration required to be reported?
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

PUBLIC USE DATASETS
COVID-19 Vaccine Doses Administered

README

Where does the vaccination data come from?
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

Is COVID vaccination administration required to be reported?
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

Contains two spreadsheets: COVID-19 Vaccine Doses Administered and Doses Administered Demographics.

COVID-19 VACCINE DOSES ADMINISTERED 2021-08-06

Week Ending Date	Data as of	Person's Residence in Preparedness Region	Person's Residence in Local Health Department Jurisdiction	Person's Residence in County	Vaccine Type	Facility Type	Dose Number	Number of Doses

PUBLIC USE DATASETS
COVID-19 Vaccine Coverage

README

Where does the vaccination data come from?
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

Is COVID vaccination administration required to be reported?
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

COVID-19 VACCINE COVERAGE BY COUNTY 2021-08-06

Week Ending Date	Person's Residence in Preparedness Region	Person's Residence in Local Health Department	Person's Residence in County	Sex	Age Group	Administration Level	2019 Census MI Population (12 years and Older)	Number of Doses	Coverage

PUBLIC USE DATASETS
COVID-19 Vaccine Coverage State Level Metrics

README

Where does the vaccination data come from?
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

Is COVID vaccination administration required to be reported?
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

IMPORTANT NOTE REGARDING COVERAGE DATA FOR ARAB INDIVIDUALS
Coverage for Arab individuals is listed as "NA" because the denominators for Arab ethnicity by gender and age group are not currently available.
Coverage will be calculated as soon as this information becomes available.

COVID-19 VACCINE COVERAGE STATE LEVEL METRICS 2021-08-06
