Walgreens Data Source: **https://www.walgreens.com/topic/findcare/long-term-care-facility-covid-vaccine.jsp#stayinformed**

Managed Health Care Associates Source: MHA [email report]

Walgreens Facilities Assigned for Scheduling decrease includes an estimated 1200 facilities transferring to Managed Health Care Associates pharmacies for administration, as well as facilities that have opted out.

Previous data posted for Managed Health Care Associates Part B was reported in error by MHA.
The data posted today has been corrected by MHA to reflect the accurate numbers for Part B (Other Long Term Care Facilities).

At this time, Long Term Care vaccinations are not fully captured in the primary dashboard above. We are working on reconciliation and will update this note when complete.

CVS and Walgreens pharmacies plans to conduct three on-site clinics at each LTC facility to vaccinate as many residents and staff as possible. During the first clinic, the pharmacists will vaccinate all staff and residents on site. The second clinic will be held a minimum of 28 days later and the pharmacists will vaccinate staff/residents from the first clinic with their 2nd dose of COVID-19 vaccine and catch anyone they may have missed on first date with their first dose. The third clinic will occur 28 days after the 2nd clinic and pharmacies will vaccinate anyone from the second clinic that needs their 2nd dose.

**Why do the data from past days change and how often are data updated?**
Doses administered are reported by the date of vaccination. Providers have 24 hours to report vaccination to MDHHS. MDHHS pulls the data each morning for cleaning and then posting to the website by 3 pm, Monday through Friday. Previously reported numbers of administered vaccine doses may change as new data are received.

**Where can I get more information about COVID-19 vaccine?**
For healthcare provider information about COVID-19 vaccine, visit the MDHHS website COVID-19 Vaccine Provider Guidance & Educational Resources
For frequently asked questions (FAQs) related to COVID-19 vaccine, visit the MDHHS Frequently Asked Questions for the Public

**Where does the vaccination data come from?**
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

**Why do the data from past days change and how often are data updated?**
Doses administered are reported by the date the vaccination occurred. Previously reported numbers of administered vaccine doses may change as new data are received. Providers have 24 hours to report vaccinations to MCIR. MDHHS pulls the data each morning for cleaning and then posting to the website by 3 pm, Monday through Friday.

**How is COVID vaccination coverage calculated?**
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan). There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.) County is based on the county of residence.

**Is COVID vaccination administration required to be reported?**
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

*Status of 'done' includes visits scheduled for today; excludes facilities that 1) requested a later date due to a COVID-19 outbreak or other reason, 2) were rescheduled due to lack of responsiveness, or 3) requested to be added to the program after the start date or didn't meet original program criteria regarding distance from CVS locations, but that CVS has opted to support.

PUBLIC USE DATASETS
COVID-19 Vaccines Shipped to Providers

# README

**Where does the vaccination data come from?**
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

**How is COVID vaccination coverage calculated?**
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

**Is COVID vaccination administration required to be reported?**
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

**How often are these data updated?**
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

**NOTE: Total Doses Distributed are reduced because 30,000 doses were transferred from Federal Long Term Care Program into State's Allocation.**

**COVID-19 VACCINES SHIPPED TO PROVIDERS 2021-03-09**

# PUBLIC USE DATASETS
# COVID-19 Vaccine Doses Administered

## README

**Where does the vaccination data come from?**
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

**How is COVID vaccination coverage calculated?**
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

**Is COVID vaccination administration required to be reported?**
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

**How often are these data updated?**
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

**Contains two spreadsheets: COVID-19 Vaccine Doses Administered and Doses Administered Demographics.**

**COVID-19 VACCINE DOSES ADMINISTERED 2021-03-09**

| Data as of | Week Ending Date | Person's Residence in Preparedness Region | Person's Residence in Local Health Department Jurisdiction | Person's Residence in County | Vaccine Type | Facility Type | Dose Number | Number of Doses |

# PUBLIC USE DATASETS
# COVID-19 Vaccine Coverage

## README

**Where does the vaccination data come from?**
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

**How is COVID vaccination coverage calculated?**
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

**Is COVID vaccination administration required to be reported?**
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

**How often are these data updated?**
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

**COVID-19 VACCINE COVERAGE BY COUNTY 2021-03-09**

| Week Ending Date | Person's Residence in Preparedness Region | Person's Residence in Local Health Department | Person's Residence in County | Sex | Age Group | Administration Level | 2019 Census MI Population (16 years and Older) | Number of Doses | Coverage |

# PUBLIC USE DATASETS
# COVID-19 Vaccine Coverage State Level Metrics

## README

**Where does the vaccination data come from?**
This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

**How is COVID vaccination coverage calculated?**
Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.
MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).
There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)
County is based on the county of residence.

**Is COVID vaccination administration required to be reported?**
Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

**How often are these data updated?**
These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

## COVID-19 COVERAGE STATE LEVEL METRICS 2021-03-09

| Week Ending Date | Age Group | Sex | Race | Administration Level | 2019 Census MI Population (16 years and Older) | Doses Administered | Coverage |
|---|---|---|---|---|---|---|---|
| 3/8/2021 | 16-19 years | F | American Indian or Alaska Native | Initiation | 2907 | 1 | 0.03% |
