About the Center for the Study of Ethics in Society: The Center was founded in 1985 by Michael Pritchard and other interested faculty to encourage and support research, teaching and service to the University and community in areas of applied and professional ethics. Bioethics has been a major focus thanks to the leadership of Shirley Bach. Bach has worked closely with the local medical community for many years and established the Shirley and Michael K. Bach Quasi Endowment for the Ethics Center.

Other focus areas for the center over the years have included engineering ethics, research ethics, and ethics in pre-college science education, all supported by grants from the National Science Foundation. Besides sponsoring a lecture series every semester, the center has held workshops for faculty interested in teaching ethics, co-sponsored a number of conferences, sponsored teams for a national undergraduate ethics competition, and published the journal Teaching Ethics. To learn more, visit our website at www.wmich.edu/ethics. A SelectedWorks™ page has been created to highlight Pritchard’s body of work at https://works.bepress.com/michael-pritchard/
