From Kalamazoo to Detroit and everywhere about the State

(Continued from Page 1)

are the spearhead of the entire organization planning for the financing of the Waldo Memorial Stadium. They cannot fail.”

President Sangren says: “The alumni will do their part in this project.”

Professor Floyd Moore says: “The alumni are carrying the baton in the last lap of the relay. They are giving the last $10,000 to complete the $270,000 project.

Carl Cooper, the Alumni Secretary, says: “The alumni are an important link in the chain which is to bind the memory of Dwight B. Waldo about the new Memorial Stadium.”

Alumnus Seeks Office of Supt. of Public Instruction,

Dr. Eugene Elliott Candidate for Re-election

Fortunate, indeed, is the electorate of Michigan in having two candidates for the office of Superintendent of Public Instruction so well qualified as are Dr. Eugene B. Elliott, and T. Thomas Thatcher. Both of these men have taught in the public schools of Michigan and both of them have had administrative experience in public school organization, Dr. Elliott having served as Superintendent of Schools at Ovid, Michigan, and Mr. Thatcher as Principal of the High School at Ravenna, Michigan. Mr. Thatcher taught at Cassovia and at Shelby before returning to Ravenna, and Dr. Elliott was a teacher in Lansing before going to Ovid.

Besides being graduates of Michigan colleges, both Mr. Thatcher and Dr. Elliott have served the State of Michigan in public office for a number of years. While Mr. Thatcher was still Principal of the high school at Ravenna, he was elected to the House of Representatives from the second district of Muskegon County in 1932. He was re-elected to the same position in 1934. During 1937-38 he served as Clerk of the House of Representatives.

Perhaps Mr. Thatcher is best known to the parents, teachers, and taxpayers of Michigan because of his personal interest in legislation which has become known as the (Continued on Page 14)
Dear fellow Alumni and Alumnae:

What an inspiration you have been to me as I have called on you to serve as chairman of districts and then later had the privilege to sit with you and your key workers to help plan your campaign for funds in your various districts. I am sure you can never know how you have encouraged your Alumni Secretary, Mr. Carl Cooper, along with myself, through your expression of loyalty to your Alma Mater. Yours is not a lip service but a service backed up with effort.

In all eight districts of the State I did not have a refusal to serve as district chairman and busier folks I have found nowhere. But this is a task that can be done only by busy folks. The chairmen then reported to me that, outside of two or three cases, they had had no refusals of key workers when asked to help set up an organization for contacting Western State Teachers College Alumni in the various areas. Of course the concrete evidence, reports of subscriptions, have only begun to come in, but how can an Alumni Campaign fail with folks like you?

We just won’t accept defeat. If at first we do not get enough funds, we will try again. But I do not expect to have to try again, for so many alumni feel it a great privilege to have the opportunity to express, through their contribution to this splendid Waldo Memorial Stadium, an appreciation to so fine a friend as D. B. Waldo. All of the eight districts have been organized and are at work. It is hoped that the campaign will be finished not later than May 1st.

I hope all of you have had an opportunity to give some of your time in helping find every alumnus so he or she may have had an opportunity to do his bit in memory of Western State’s Founder, as well as to make your own subscription. But if for some unforeseen reason you personally have not been solicited, I solicit you now to send in your subscription to Carl Cooper in order that no one will be missed. And may I add this note of warning. One dollar subscriptions will not put the Alumni over the top. If you have subscribed only the $1.00 won’t you send at least another $1.00 to your district chairman or Carl Cooper.

The spirit of Western State seems to be—“All for One and One for All.” The dedication game will be played November 4, 1939. Your medallion will be your token of admission on that occasion. What fun we will have sitting in this great Memorial Stadium congratulating each other for having had the privilege of being a part of it all.

Let the history of Western State Teachers College Alumni be written in the building of this Waldo Memorial Stadium. “Every Alumnus accepts his or her assignment.” “They do not fail.”

Judson Hyames
Occasions to Honor Retiring Faculty Members

Dr. William McCracken, Dr. Smith Burnham, Dr. Henry Goddard

With the close of the present college year three members of Western State Teachers College faculty, Dr. William McCracken, head of the department of Chemistry, Dr. Smith Burnham, head of the department of Social Sciences, and Dr. Henry N. Goddard, Professor of Biology, will retire, in accordance with the ruling of the State Board of Education whereby instructors in Teachers College faculties are retired at the age of seventy.

To honor these three retiring members, Western State’s faculty will give a dinner Friday evening, April 14 in the ball room of Walwood Hall. On Saturday April 15 two large organizations of Southwestern Michigan educators including many alumni, holding their annual meetings at Western State on that date will dedicate their programs to these three men. Dr. William McCracken and Dr. Goddard will be honored by the Southwestern Michigan Science and Mathematics Association whose program will center about the theme “Broad fields of Science Education.”

Program theme will be “Education Against Propaganda.”

Dr. McCracken has been a member of Western State’s faculty for the past thirty-two years and for forty years has been engaged in teacher training in Michigan. Prior to coming to Kalamazoo he was a member of the faculty of Northern State Normal School, Marquette from 1899 when it was organized by President Emeritus Dwight B. Waldo until 1907 three years after Mr. Waldo had come to Kalamazoo to organize Western. For seven years previous to coming to Michigan Dr. McCracken was head of the Science department of Geneva College, Beaver Falls, Pennsylvania. He graduated from the University of Michigan with a Bachelor of Arts degree in 1886 and received his Ph. D. from the University of Chicago in 1905.

One of the earliest members of Western State’s faculty, Dr. McCracken has been closely associated with its growth and development. During the year 1922-23 when Mr. Waldo was at Bellingham, Washington on leave of absence Dr. McCracken very ably served as acting president of Western State.

Dr. McCracken

Dr. Smith Burnham has been a member of Western’s faculty for twenty years. He came here from Westchester Pennsylvania where for twenty-one years he was a member of the faculty of the West Chester, Pennsylvania Teachers College. For six years from 1892 to 1898 he was a member of the faculty of Albion College. Earlier he taught at Vicksburg and for one year he was principal of the school at Climax.

Dr. Burnham took his undergraduate work at Albion College and in 1898 received a Masters of Arts degree at Albion. An honorary degree of LL. D. was conferred upon him by his alma mater in 1932. Dr. Burnham continued his studies at the graduate school of the University of Chicago and the University of Pennsylvania. He has traveled extensively in this country and abroad. Last year with Mrs. Burnham he made a trip around the world. Dr. Burnham is the author of four text books in history which are widely used. For several years he has been a trustee of Albion College.

Dr. Burnham

Dr. Goddard

Dr. Goddard joined the faculty of Western State sixteen years ago coming here from Madison, Wisconsin.

(Continued on Page 12)
Summer Schedule of Graduate Work Announced...

The January number of the Alumni Magazine carried an article on the subject of graduate work at Western State Teachers College in cooperation with the University of Michigan. Since that time the second semester has opened and the work has begun. Five classes are being conducted, four on Saturday and one on Tuesday evening. The classes, times of meeting, enrollments, and instructors are as follows:

Saturday, 9:00-11:00 A. M.
B105a—The Construction of the Elementary School Curriculum; taught by Dr. George H. Hilliard; enrolls 38 students.

281—Studies in Modern European History; taught by Dr. Nancy E. Scott; enrolls 30 students.

Saturday, 11:00-1:00 P. M.
102—The Modern Novel; taught by Dr. William R. Brown; enrolls 18 students.

Tuesday, 7:00-9:00 P. M.
C102—Educational Psychology; taught by Dr. Manley M. Ellis; enrolls 47 students.

C105a—Psychological Tests; taught by Dr. Manley M. Ellis; enrolls 37 students.

As will be seen from the above enrollment figures, the work has been very popular. We have at present a total of 111 graduate students; 64 of whom are taking one subject; 46, two subjects; and one, three subjects. Two-thirds of our enrollment are graduates of Western State. However, the other third come from twenty colleges and universities located in various states. The work is conducted on a bonafide residence basis and carries residence credit at the University of Michigan. All instructors teaching the courses have been appointed members of the faculty of the Horace H. Rackham School of Graduate Studies of the University of Michigan.

The Graduate Division is administered jointly by the Graduate Advisory Council of Western State Teachers College and the Horace H. Rackham School of Graduate Studies. The chairman of the Graduate Advisory Council serves as Director of the Graduate Division. The Graduate Advisor (Dr. Clifford Woody of the School of Education, University of Michigan) is the coordinating officer. He visits us frequently, and has been indispensable in the work. The Advisory Council consists of President Sangren (ex-officio) and Drs. Ellis (Chairman), Berry, Robinson, Rood, Scott (Secretary), Van Riper, and Wilds.

A student may take all or part of the work for his Master's Degree here. Our policy is to offer a wide variety of work from semester to semester, especially in Education, to enable as many students as possible to complete all or nearly all of their work here. This policy means that we shall seldom offer the same courses two consecutive semesters, and also that we shall offer as many and varied courses each semester as the demand will justify. To determine the demand we make use of questionnaires. Possibly a number of readers of this article have received these questionnaires. A number of people who might be interested in doing graduate work.

In addition to varied offerings in Education each semester, we plan to keep our program balanced by offering as large a number and variety of courses in subject matter fields as the demand will warrant. We wish to encourage the student who wishes his degree in a subject matter field such as History, Psychology, Political Science, et. al., by allowing him to complete as large a proportion of his work here as is possible. It is probable, however, that such students would at the present status of the work expect to spend some time at Ann Arbor in order to complete the requirements for the Master's Degree.

The admission requirements for graduate study in our Graduate Division are the same as for entrance to the Graduate School at the University of Michigan. All students desiring to enroll must submit credentials of undergraduate work to the Dean of the Horace H. Rackham School of Graduate Studies at the University of Michigan for his approval for admission to graduate study. This should be done well in advance of the semester or summer session the student plans to attend. It is not too early to apply now if you plan to attend the 1939 summer session.

The student, after receiving such approval, will enroll in the same fashion as regular students in the Graduate School of the University, although the place of enrollment will be at the Teachers College at which the Graduate Division is located.

The 1939 Summer Session of graduate work has been arranged. The numbers, courses, instructors and hours respectively are as follows:

B250 Prin. of Ed. Administration, Willett. 9:00
B156 Supervision of High School Subjects, Bryan. 11:00
C120a Mental Hygiene of Adolescence, Ellis. 10:00
241 Sociology, Kercher. 1:00
C105a Psych. of the El. Instruction, Willett. 11:00
C102 Educational Psychology, Ellis. 8:00
B251 Supervision of El. Instruction, Willett. 11:00
C175 Psychology of Child Development, Coppens. 2:00

(Continued on Page 15)
It is said of him—

"Frank E. Ellsworth loved children and he liked books."

"Children from big to little loved, admired, and respected Mr. Ellsworth and they felt free to consult him singly, and in delegations, as they would consult a good father."

"His love for boys and girls expressed itself in intelligent and persistent efforts to secure for them the finest opportunities of education for rich living and for the development of character marked by high ideals and altruistic service."
The new Health and Personnel building, just recently started, will,
for the first time, permit the centralization of the student personnel
activities, and permit satisfactory quarters for the Health Service and
Clinical Laboratories, which have been previously forced into crowded
and otherwise unsatisfactory quarters. It will also aid to some extent
in relocating and furnishing additional needed room for some other
departments.

LOCATION
This new structure is to be located west of the Administration building.
It will face the east thus assisting to form an extension of the quad-
rangle and on the same grade level.

The Personnel Center will have three floors—ground, first, and sec-
ond with the main entrance at the right, or northeast, corner. Entering,
a few steps down will take you to the ground floor with its class rooms
and offices. This floor is, primarily, for student advisory service: Dean of
Men, Dean of Women, Class Advis-
ers, Visual Education, a special room
for the Curriculum Service Library
which has long outgrown its meager
space at the Training School, and
the seminar and lecture rooms for
the newly instituted, Graduate
School.

DESCRIPTION CONTINUED
A few steps up from the main en-
trance, you may reach the first floor,
or Health Service. There will be a
waiting room, and a porch on this
level. There are also offices for doc-
tors and for nursing consultants;
examining rooms and a dental office;
rooms for minor surgery, for x-rays,
for physiotherapy, a dispensary, a
work room, and a kitchen. There are
wards available for resting as stu-
dents feel so inclined, and rooms in
which faculty members may rest.
There are infirmary accommodations
where students may be kept under
observation until their own rooms
again welcome them, or hospitaliza-
tion seems advisable. There is a room
for the nurse who will be added to
the staff and who will be the most
important part of the infirmary
equipment.

The second floor will accommodate
special test and educational efforts:
the Psycho-educational Clinic;
Speech Correction laboratories and
class, rooms; audio-visual center;
psychological offices and lecture
rooms; sound recording laboratory,
and rooms which are adapted to
group discussions and for demon-
stration purposes. With definitely in-
dependent laboratories, easily acces-
sible each to the other, data can be
acquired independently and, through
conferences, conclusions reached
jointly where debatable problems are
concerned.

PURPOSE
The Student Personnel Center will
facilitate those departments devoted
to personality development and ad-
justment. Departments are entities
each basically devoted to their own
purposes. But the time has come
to create a bigger whole with one
purpose as its hub. The Student Per-
sonnel Center at Western State
Teachers College is this bigger whole.

Certainly personality development
and adjustment are all important in
the building of men and women. This
new unit on the campus will meet
a real need.
Residence Hall for Men Ready in September
Mr. and Mrs. Towner Smith to Live in Residence Hall

Since the publication of the last issue of the Alumni Magazine, much progress has been made on the new Men's Dormitory. Yards and yards of reinforced concrete have been poured, and the framework of the structure has reached the roof level.

Mr. and Mrs. Towner Smith are to be among the faculty residents. Mrs. Smith is to be house mother and hostess. They will reside in an apartment at the south end of the structure where Mr. Smith will also have an office. Mr. Smith will be in general charge as director of the entire dormitory.

The director of the residence hall, with the assistance of the hostess and house mother, is already collaborating with the Dean of Men and Manager of the Men's Union, Ray C. Pellett and Cornelius MacDonald respectively, in formulating plans for the management and organization of student government in the hall. Tentative plans already include an organization of a hall council which will consist of the proctors and the representatives from each precinct who will see that regulations and rules of the hall are observed.

Other faculty members are to be in residence. Mr. Frank Hinds of the Science Department will reside there, and Mr. Charles Starring of the Social Science Department will also live in the dormitory. Thus it may be seen that counseling services will be immediately available to the dormitory residents which should assist them in meeting and making desired social and scholastic adjustments.

With living conditions such as are being planned in the new Men's Residence Hall, there is every possibility of bringing to the students of (Continued on Page 12)
WSTC to Have Booth at M.I.E.S. in Grand Rapids April 27-28-29

Western State Teachers College is planning to maintain a booth at the time of the Michigan Industrial Education Society meeting in Grand Rapids at the Pantlind Hotel, April 27, 28, 29. The floor space in the ball room at the Hotel is to be sectioned and alumni of Western with their friends are invited to booth number 16. This space is planned for their accommodation and it is hoped that they will use it for a meeting place during the convention. Faculty members will be coming and going, some materials worth seeing will be on display, and the usual hospitality of Western State Teachers College will be in evidence.

Friday noon a WSTC luncheon has been arranged. The Pantlind Hotel management is planning to screen such a portion of the floor space in the cafeteria as will be needed and a self served luncheon is to be in vogue. "A daily special is featured at 39c and other articles of food may be selected."

Dr. Manley Ellis has consented to be present and speak to the group, or, if you please, answer questions on graduate study. Of course, all members of the Industrial Arts Department will be present and among other faculty members who have been invited is "Juddy" Hyames of the Department of Physical Education.

Detroit Trip for Music Department Planned April 19

Wednesday, April 19, the Western State Teachers College Choir will be in Detroit. As has been planned in former years, a two day trip has been arranged and Wednesday evening the Choir will provide a part of the program in the auditorium studio of WWJ. Following the practice of former years, the Detroit News has invited Michigan colleges to provide entertainment for audiences invited (Continued on Page 14)

1939 Industrial Arts Award Winners

The Craftsman-Scholarship award in the Industrial Arts Department this year had to be made in duplicate. Two seniors, Elmer Brune, Coloma, (right) and Preston Bilz, Spring Lake (left) tied for the honors. Marion Sherwood, (center) Industrial Arts Department faculty member, made the presentation at the annual banquet of the Industrial Arts Union.

Award of Plaque a Tradition . . .

If anyone should ask Mr. Sherwood how the custom of awarding a plaque in his department originated, he would probably answer somewhat as follows: some students got together about a dozen years ago and out of their discussion the idea developed. As a result the boys suggested that a rating scale be set up and that marks in academic subjects, honor points, and recognitions in the Department of Industrial Arts be accumulated during the four years of college and the man having the top rating as indicated by the accumulation be presented with an award. This award took the form of a plaque which is made in the department with a design symbolic of curricular content.

In 1932 Marvin Beekman who is now teaching in the public schools of Lansing was recognized as the outstanding man in the department. During these first years spent in the profession he has fully justified the selection of the judges in that year. He is well known in Michigan and beyond the boundaries of the state as one of the outstanding men in special education.

In 1933 Erwin Woods was winner. While on the campus, Erwin Woods was interested in two departments, the Department of Physical Education as well as of Industrial Arts. He is a "W" Club member and at the present time is teaching at Milwood. Some of his time is taken in coaching and he also does officiating.

In 1934 Avery Aten won the plaque. Immediately after graduating he was employed in the Hastings Public Schools. His reputation in general shop work, special work with boys, handicraft, and hobby interests is well known.

In 1935 Harold Nichols rose to the top. His recognition has been equally substantiated and he went im-
In the February number of the Automotive Merchandising magazine is a $25.00 prize winning story written by Owen P. Morton of Kalamazoo. The same excellence is characteristic of him as was in evidence when he was on campus.

* * *

In the morning mail comes an invitation from Beryl Flym, B. S., '38, to attend the Jackson County WSTC Alumni Association Thursday evening, April 20. Dr. Ernest Burnham is also going to be present. Miss Flym says that the occasion is to be a victory banquet culminating the complete collection of contributions among themselves to the Waldo Stadium Fund.

* * *

Thanks to Lucille Sanders, A. B., '31 for calling the attention of this office to a splendid article in the Rural Alumni News Letter which contains a resume of content of the last issue of the Alumni Magazine.

* * *

Fine effort, Oscar Johnson, '34, of Muskegon Heights! We were all pulling for you Saturday night, March 18, at the Industrial Mutual Association Building in Flint when your well coached team came up to the last game in the Michigan High School Basketball Tournament.

* * *

Speaking of Flint will not permit us to pass by the mentioning of the privilege of seeing so many Western men at the luncheon Saturday noon and at headquarters complimentar-
Western University at Oxford, alumni of Mrs. responsible for directorship in the upper floors. There is a lobby unit on the campus are graduates at each entrance on the ground floor. Other coverings and window hangings. For sitting include a coffee shop, a barber lounge will be provided on each dormitory and the Union Building, the comfort of those living in the will also color combinations in floor sign of the furnishings will be in keeping with a men's residence as for Biology no successor to Dr. God- graduate work this year will return to Western Merrill Wiseman who has been doing to Western State. Dr. Burn- formerly head of the Chemistry de- the appointment of Dr. koten, formerly head of the Chemistry department of Battle Creek College, to succeed Dr. McCracken as head of the Chemistry department. Dr. Burnham's successor has not yet been announced. Because of the fact that Merrill Wiseman who has been doing graduate work this year will return to Western State in the Department of Biology no successor to Dr. Goddard will be named.

MEN'S RESIDENCE HALL

(Continued from Page 9) Western State more pleasant social life, closer friendships, and greater loyalties.

Keeping pace with the construction of this new building are the plans for interior decorating. Miss Lydia Siedschlag, who so ably planned the decorations for the Women's Dormitory and the Union Building, is also giving her attention to this unit on the campus. Masculine design of the furnishings will be in keeping with a men's residence as will also color combinations in floor coverings and window hangings. For the comfort of those living in the hall a lounge will be provided on each of the upper floors. There is a lobby at each entrance on the ground floor. Other features of the building planning include a coffee shop, a barber shop, and a recreation room.

An interesting observation to the alumni of Western State Teachers College is that those who are responsible for directorship in the new unit on the campus are graduates of Western with the exception of Mrs. Smith, who is a graduate of Miami University at Oxford, Ohio.

Hilltoppers to Be Known As Broncos

Nickname Result of Contest; John Gill Winner

The Athletic Board of Western State Teachers College has adopted a new nickname for the athletic teams. Hereafter they are to be known as the "Broncos."

The former name of "Hilltoppers" was often confused with a similar name used by other colleges and uni-

Scheduling of meets away this spring was necessary as the Bronco tracksters are orphans as far as having a home track is concerned this spring. With the new track still a matter of the future as the new stadium, which will enclose an eight lane track, is still under construction, difficulties for a home schedule were encountered by Coach Smith, so Illinois Normal University, Toledo and Butler will be met in dual meets away from home.

The schedule:
April 22—Chicago at Kalamazoo
April 27—Illinois Normal U. at Bloomington
April 29—Penn Relays at Philadelphia
May 6—Butler U. at Indianapolis
May 13—U. of Toledo at Toledo
May 20—State Meet at East Lansing
May 27—Buckeye Conference Meet at Oxford, O.
June 2—Central Collegiate Conference at Milwaukee

The team, or some of its more prominent members will compete in the Penn Relays, the State Intercollegiate meet, the Buckeye meet and the Central Collegiate meet.

Coach Towner Smith is hopeful that the Bronco track forces will prove considerably stronger outdoors than during the recent indoor season.

GOLF

The newest of Western's intercollegiate sports, golf, will see a greatly strengthened schedule this year with two invasions of Ohio to meet half a dozen Ohio university teams, five of which are members of the Buckeye Conference. A match with Michigan is a standout affair and marks the first time that the Bronco golfers have been carded to meet a Western Conference team.

(Continued Bottom Next Page)
In baseball Coach Charles Maher’s diamond team will play eighteen contests and assumes perhaps the most prominent place of all of the spring sports with the Broncos inaugurating play this spring on the diamond in Western’s new baseball park, which will rank with the finest collegiate baseball parks in the midwest.

Prominent on the schedule as usual are Notre Dame, Michigan, Northwestern and Wisconsin, while the names of Ohio University, Ohio Wesleyan and Miami are indicating that the Broncos, who have been hoping for years to swing more to the east for competition, have apparently been more than successful in this respect.

Michigan, one of the oldest of the Western Conference institutions on the Bronco diamond cards, has been selected by the athletic board as the team to play Western in the dedicatory game of the new baseball diamond on Tuesday, May 2.

The schedule:
April 11—Notre Dame at Kalamazoo
April 14—Northwestern at Kalamazoo
April 17—Ball Teachers at Muncie, Ind.
April 22—Notre Dame at Notre Dame
April 28—Miami U. at Kalamazoo
April 29—Miami U. at Kalamazoo
May 2—Michigan at Kalamazoo
(Dedicatory game, new $50,000 baseball field)
May 6—Ohio Wesleyan at Kalamazoo
May 9—Michigan at Ann Arbor
May 12—Ohio U. at Kalamazoo
May 18—Iowa Teachers at Cedar Falls, Ia.
May 19—Iowa Teachers at Cedar Falls, Ia.
May 23—Northwestern at Evanston, Illinois
May 29—Wisconsin at Madison, Wis.
May 30—Wisconsin at Madison, Wis.
June 3—Ball Teachers at Kalamazoo
June 6—Michigan State College at Kalamazoo
June 10—Michigan State at East Lansing

Coach Huff is expecting a stronger team this year, but the greatly strengthened schedule will send the team against much better competition than in any previous year so the season record may not prove better in the matter of contests won and lost when the season ends.

The schedule:
April 15—Loyola at Chicago
April 27—Toledo at Toledo, Ohio
April 28—Ohio at Athens, O.
April 29—Ohio Wesleyan at Delaware, O.
May 1—Michigan at Ann Arbor
May 4—Xavier at Cincinnati, O.

May 15—Olivet at Olivet
May 20—Detroit at Kalamazoo
Other contests pending.

TENNIS SCHEDULE GOOD
A three match southern trip, now over, and five contests with five leaders of the Big Ten, feature the tennis schedule this spring, along with a trip into Ohio where the Broncos will meet two members of the Buckeye Conference, Ohio University and Ohio Wesleyan. Naturally the Michigan Intercollegiate Mixed Tennis Tournament to be played on Western’s courts, June 1, 2 and 3, is another big feature of the season when the Broncos will attempt to continue their domination of this tournament and its championships.

The team has three veterans in Milton Ruehl, Willis Judd and Jack Sims—a fourth being lost when Olin (Continued on Page 14)
WSTC ATHLETICS

(Continued from Page 13)

Vandenberg recently cracked a wrist bone for the second time this year. Sophomores on the squad include Ralph Linder, Indianapolis; John Vander Meiden, Grand Haven, and Bill Taylor, South Bend. The schedule:

March 27—Mississippi at University, Mississippi
March 29—Louisiana at Baton Rouge, La.
March 30—Centenary at Shreveport, La.
April 28—Grand Rapids at Kalamazoo
May 1—Notre Dame at Notre Dame
May 3—Indiana at Kalamazoo
May 5—Chicago at Chicago
May 6—Northwestern at Evanston, Illinois
May 9—Michigan at Ann Arbor
May 12—Ohio Wesleyan at Delaware, Ohio
May 13—Ohio U. at Athens, Ohio
May 19—Purdue at Kalamazoo
May 20—Detroit at Kalamazoo
May 26—Michigan State at East Lansing
May 27—Wayne U. at Kalamazoo
June 1, 2, 3—Michigan Intercollegiate Tournament at Kalamazoo

RESIDENCE HALL

(Continued from Page 9)

where she took work in the Department of Home Economics. Before her marriage she taught in the public schools of Amhurst, Ohio, and in Miami, Florida.

To date eighty applications for residence in the dormitory have been filed in the office of the Dean of Men. Those desiring information relative to planning for next September when occupancy will be possible for the first time should communicate with Mr. Ray Pellett, Dean of Men, Western State Teachers College.

CHOIR TRIP TO DETROIT

(Continued from Page 10)

to their auditorium, and it is under their auspices that Western State Teachers College is privileged to have the evening hour at 8 o'clock, April 19.

Following the program at the Detroit News Auditorium, the alumni of Western State Teachers College and their friends are invited to a social gathering in the ball room of the Fort Shelby Hotel. Programs of announcement have been mailed to the alumni in and around Detroit and they are cordially invited to attend. Members of the Choir will be there, some faculty members are planning to be in attendance and the Detroit alumni will be present to welcome their members to an evening of visitation and social dancing.

SEEK STATE OFFICE

(Continued from Page 3)

Thatcher-Sias Act and the Thatcher-Saur Act. While a member of the House of Representatives, he was also interested in school laws having to do with such items as equalization of opportunity for the rural school child, greater consideration for disabled teachers in the Retirement Fund privileges, proper allocation of funds, etc.

In 1935 Dr. Elliott was appointed Superintendent of Public Instruction to fill a vacancy caused by the death of Dr. M. R. Keyworth. In 1937 he was elected to the position which he now holds and for which he is a candidate for re-election. Prior to his appointment he served for two years as Director of Finance and Research in the State Department. Several articles on school finance and taxation problems have been written by Dr. Elliott and are available to Michigan readers in magazines which may be found in libraries generally.

In 1933 the Michigan Education Association published his book on "The Supply of and the Demand for Teachers in Michigan."

The voters of Michigan are always interested to know of the home life of candidates for office. Dr. and Mrs. Elliott have one daughter, and Mr. and Mrs. Thatcher have a son and a daughter.

PLAQUE AWARDS

(Continued from Page 10)

Immediately to a position in the public schools of Buckley, Michigan.

In 1936 Maurice Overholt came to the front. Until the end of this school year he has been employed in the public schools of South Haven. He enjoys a rating from the State Department in Smith-Hughes work and has done some pioneering in the teaching of automobile mechanics.

Completed Careers

Marion Magdelene Brown, A. B., '31, passed away at Blodgett Hospita, Grand Rapids Tuesday morning, March 7. Marion's home was in Lowell, Michigan, and she was teaching in the fourth grade of the Grand Ledge Public Schools where she was held in highest esteem by her colleagues, the public school's children and the patrons of the school. The schools of Grand Ledge were closed the afternoon of the funeral in honor of her memory and in the Grand Ledge paper is to be found a very fitting tribute and appreciation written by her close friend and fellow teacher, Florence Fuller.

Gertrude LeNette McAllister, B. S., '37, passed away at Bronson Hospital in Kalamazoo Friday morning, March 17. Miss McAllister's home was in Osseo, Michigan and this year she had been teaching at Durand. Prior to going to Durand to teach she was employed in the public schools in Bloomington. Miss McAllister's final illness came when she was in Kalamazoo to visit the campus and be present at the annual Mid-Winter play. While she was a student at Western State Teachers College she had leading roles in three successive presentations of the Players. In 1937 she was accorded first place in the State contest in interpretative verse speaking. She also enjoyed and was very active in athletics at Western.

Yours very truly,
Name ..........................................................
Street & No. .................................................
City & State ................................................
This unusually fine aerial photograph taken exclusively for the Alumni Magazine is truly an alumni picture. It is Western State as we, the Alumni, knew it.

Due to the recent program of building and expanding many changes in the campus have been and are taking place.

Such well remembered places as the hill next to the temporary building, the shady grove west of the Training School, and the old athletic field, show the marks of progress and the passing of the campus of our student days.

There are those of us who wish to preserve the campus in our memory as we knew it—"The campus of 1937 and before." It is with this thought in mind that this picture has been prepared.

Through arrangement with the Aerial and Commercial Photo-Service, Hanselman building, Kalamazoo, Michigan, this graphic representation of the "Alumni Campus" is made available to you in glossy prints suitable for framing at the following special prices . . .

8 by 10 $1.00
11 by 14 $2.50
16 by 20 $5.00
