

WINTER BRONCO BOOSTER—For all this Bronco Booster cares, all sports could be played outdoors no matter how cold it might get and it wouldn't bother him one shiver. Wonder if he won his letter in skiing, or perhaps ice hockey or even in ice fishing, which might require the ultimate disregard for cold winds, snow and zero temperatures and a resolve not to move. Two students get rewards

Two students at Western Michigan University have been presented with rewards of \$50 each for information they provided that led to the identification of another student who had caused damage in a residence hall.

The rewards are granted as part of the University's residence-hall reward program. The student who caused the damage was removed from the residence-hall system, placed on disciplinary probation and required to make full restitution.

Senate president, V-P nominations due Tuesday

The deadline for the return of nominating petitions for president and vice president of the Faculty Senate is 5 p.m. Tuesday in the Senate office at A-225 Ellsworth Hall.

The general election for the president, vice president, representatives-at-large and the runoff election for departmental representatives will begin on Friday, Feb. 13.

Faculty are reminded that the deadline to return nominating petitions for representatives-at-large and ballots for preliminary departmental elections is 5 p.m. Friday, Jan. 30.

Student-teaching deadlines

The deadline for students to apply for student teaching is Feb. 2 for the spring session, which is reserved for special-education students in their regular classroom setting and for special cases; and Feb. 27 for the fall semester. Summer is reserved for special cases. Applications are available at the Office of Professional Field Experiences, 2504 Sangren Hall, telephone 3-1840.

Campus reception well-received; to be annual event

Due to the success of last Friday's campus reception for all faculty and staff members, Board of Trustees Chairman Maury E. Parfet and President John T. Bernhard have announced that it will become an annual event to coincide with the Board's annual business meeting each January.

"More than 500 persons attended and we received many favorable comments about the reception," they said. "We were gratified with the enthusiastic response and pleased with the warm rapport and the friendship everyone brought to the reception. This sense of community was a most fitting way to begin the new year together."

CAMPUS RECEPTION—Among the more than 500 persons who attended last Friday's campus reception, hosted for faculty and staff members by the Board of Trustees and President Bernhard were, from left, Larry Osborn, Student Center, and Nancy Kube, auxiliary enterprises, who visited with Trustee J. Michael Kemp, vice chairman of the Board.

"PARTNERS IN PROGRESS" PHONE-A-THON—Five graduates of the College of Business will lead more than 250 volunteers in a phone-a-thon for the University's "Partners in Progress" capital campaign, starting next week. Participating in a planning session are, from left, Ben Smith, '55, president of the First National Bank and Trust Co.; Dick Hewey, '52, an attorney with Deming, Hewey and Benson; Ted McCarty, '59, president of the American National Bank and Trust Co.; and Bud Norris, BA '50, MA '54, president of Upjohn Health Care Services Inc. December gifts and grants total \$2.3 million

Headed by a grant of \$2,197,078 from the U. S. Department of Education, December gifts and grants of \$2,365,345 to the University were reported Friday to the Board of Trustees.

Of the total, all but \$94,908 represents grants awarded for instruction, research, student aid and academic support.

The Department of Education money was a supplemental grant for continued support during the 1980-81 fiscal year of the Basic Educational Opportunity Grant Program.

Another major grant for the month was for \$21,781 from the U. S. Navy, office of Naval Research, to the Department of Mathematics for a continuing project dealing with statistical methods. Included in the report is a \$19,800 grant from the National Science Foundation to buy equipment for the Computer Center that will be used for research by various departments within the University.

Among the new grants was one for \$1,500 to engage Terry Allen, a Fresno, Calif., artist, to serve as artist-in-residence the

week of April 6 to 10 to work with graduate students in the production of a print and to conduct critiques of student work here. The grant is from the Michigan Council for the Arts.

The Michigan Department of Mental Health, Western regional office gave Western \$3,412 to conduct a three-day workshop for mid-level administrators of community mental-health boards in this area. It will be directed by William A. Burian, dean of the College of Health and Human Services.

Of the cash gifts, the largest was \$5,867 from the Korean Ministry of Education to the Center for Korean Studies.

In the category of non-cash items, the Department of Geography received \$141 worth of black-and-white photographs (1,300 prints) of Alaskan villages from North Pacific Aerial Surveys Inc. Also, the Department of Art benefited by \$3,710 from art works donated by department faculty for a recent art auction.

'Stability' is word for winter enrollment here

Reflecting continued stability, enrollment figures show that a total of 19,295 students registered for classes here for the winter semester that began Jan. 5.

That figure represents a slight decrease of 75 students from the winter semester a year ago, a drop of less than half of one percent or .38 percent.

"Stability once again is the word to describe the enrollment pattern at Western this winter," said Dennis Boyle, registrar. "We expected no significant increase in enrollment this semester and none occurred."

Here is a breakdown of the enrollment total by category, with last winter's figures in parentheses: Freshmen, 3,427 (3,649); sophomores, 3,609 (3,756); juniors, 4,223 (4,031); seniors, 4,500 (4,385); graduate students 3,259 (3,341); others, 277 (208).

First 'Open Office Hours' session is 2-4 p.m. today

The first of this semester's "Open Office Hours" sessions with President John T. Bernhard is from 2 to 4 p.m. today in his office in Room 3062 of the Seibert Administration Building. The other dates for the sessions this semester, all Thursdays, are Feb. 5, Feb. 26, March 12, March 26 and April 9.

Trustees authorize signing contract for Business Development Center

The University administration has been authorized to sign a contract with an architect firm that is a first step in building the privately funded University Center for Business Development (UCBD) here.

The authorization came from the Board of Trustees Friday.

The firm, Ellis/Naeyaert/Genheimer Associates Inc., of Troy, will design the structure, assist in supervision of construction and provide other services, explained William J. Kowalski, assistant vice president for facilities engineering.

The center, to be located on a knoll overlooking Goldsworth Valley on the west edge of the campus, is being built with a portion of the proceeds of the University's "Partner's in Progress" capital campaign.

The campaign, announced publicly in November, seeks \$6.8 million for programs and equipment in all of the University's academic colleges with emphasis in the College of Business. The UCBD is expected to cost \$3.2 million, with all of the funds coming from the capital campaign.

"We plan to begin construction of the center within the current calendar year," said Kowalski.

The center, with 35,000 square feet of space, is expected to attract leaders in business, industry, government and education for a wide variety of programs, seminars and conferences provided by the College of Business. Other Academic disciplines at the University also will be able to make use of the facility.

The center will have a number of unique physical components, among them a 250-seat auditorium with U.N.-style seating, flexible rooms for large and small meetings, and observation facilities to permit students and others to watch programs without interrupting them.

Business development

This is an architect's rendering of the University Center for Business Development, a \$3.2-million structure to be built in 1981 through the "Partners in Progress" capital campaign. The building, to be located in the northwest corner of the West Campus on Wilbur Street, will include a 250-seat auditorium with U.N.-style seating, two executive suites for visiting speakers and a large exhibit and lounge area along with several meeting and observation rooms. The building will have about 35,000 square feet.

ASG constitution changes approved

The Board of Trustees Friday approved two amendments to the constitution of the Associated Student Government (ASG) that were passed by the student body in an election Nov. 11, 1980.

One amendment spells out an expanded role for the Student Senate, the legislative branch of student government. It adds language to the ASG constitution stating that the Senate will "serve as a forum for debate on issues pertinent to student life."

The amendment also states that the Student Senate is to promote beneficial student activities and make recommendations to other University groups. "The amendment is intended to clarify the role of the

Student Senate within student government at Western," said Charles E. Stroup, director of student activities in the Division of Student Services. "The constitution had been more general in its description of the Student Senate's role."

Trustees name auditor

Alexander Grant and Company of Kalamazoo was reappointed Friday by the Board of Trustees as external auditor for the purpose of conducting an annual audit of the University's 1980-81 financial statements.

Sanitary sewer easement with Kalamazoo approved

The Board of Trustees Friday approved the request of the City of Kalamazoo for a sanitary-sewer easement on University-owned property at the east end of Asylum Lake.

The city sought a 20-foot easement to connect a new sanitary sewer in the Parkwyn plat to an existing sewer on the Asylum Lake property. "The city has agreed to reconstitute the land and vegetation to its present condition after installation is completed," said William J. Kowalski, vice president for facilities engineering.

Policy statement

University Closing Policy

Policy and procedures guide for the suspension of University operations due to weather conditions, physical damage or other emergency conditions that prevent normal operation:

The decision to close all or part of the University for reasons of weather, building conditions or disruptive actions, will be made only by the President or his designate. The President's Office and the University Personnel Department will be the coordinating offices for handling details and questions dealing with this policy.

In cases of complete or near complete shut-down, local news media will usually be used for notification purposes. If only selective operations are involved, or if the closing occurs after the beginning of the work day, each of any affected departments will be individually notified. The lack of specific notification to the contrary should be interpreted to mean that normal operations are to be maintained.

Specific cases and varying conditions or circumstances may require special action or decisions. However, some basic policy statements regarding close-down decisions are presented in this statement in an effort to provide as much understanding and communication as is possible on these matters.

1. In the absence of notification to the contrary, all normal operations will continue as scheduled. If there is any doubt as to whether the University will be in operation, a message will be available on 383-6171, WMUK or WIDR. Closing announcements will be on these same sources as well as the general public media.

2. In the event that emergency conditions are so severe that **on-campus classes** must be cancelled, the University will close except for essential services.

3. The Dean of Continuing Education is authorized to cancel **off-campus classes** in accordance with policy established by that office.

4. Essential services will be maintained during a period in which the University is closed. These include:

- Food Services—consolidation may be required.
- University Information Center
- Grounds—for snow removal.
- Police.
- Libraries
- Recreation Facilities—e.g., Gary Center, University Student Center, Recreation Building
- University Health Center

5. When a decision is made to close the University, the following notification steps should be taken:

- President**
 - Notify Information Services
 - Notify Vice President for Academic Affairs
 - Notify Vice President for Finance
 - Notify Vice President for Student Services
 - Notify Vice President for Governmental Relations

- Notify Secretary of Board of Trustees
- Information Services**
 - Notify Information Center
 - Notify area media
- Vice President for Academic Affairs**
 - Notify Academic Deans
 - Notify other major academic units
 - Notify Library
- Academic Deans**
 - Notify Departmental Chairpersons
- Vice President for Finance**
 - Notify major unit heads
- Vice President for Student Services**
 - Notify major unit heads
- Vice President for Governmental Relations**
 - Notify major unit heads
- Secretary of Board of Trustees**
 - Notify Trustees
 - Notify major unit heads.

6. In order to protect unavoidable income losses to employees, whenever the "University is closed" all faculty and staff not required for essential operations during the period of closing will be excused from work and be paid as though the period of closing were a holiday.

However, it is the University's sole judgment as to who is required to work and who is not. Whenever the University is closed from normal operations, employees will fall into several groups for the purpose of determining pay.

a. Employees who are required to work to continue essential services will be paid for the time worked in the same manner as though the period of closing were a holiday. Thus, they will receive holiday pay plus time and a half.

b. Employees who report for their regular work period prior to the announcement of closing, but who are not required to maintain essential services, will be released from their work station by their supervisor at the effective time of closing and will be paid for the balance of their work period as though it were a holiday.

c. Employees who, for whatever reason, are unable to report for their regular work period prior to the announcement of closing may use Annual Leave for the time from the beginning of their regular work period to the effective time of closing, without requirement of prior approval for Annual Leave. They will be paid for the balance of their work period as though it were a holiday.

d. Any employee who has reported in as "sick" or was scheduled to be on Annual Leave prior to the announcement of closing will be paid as though there was no closing and thus will be charged for Sick Leave or Annual Leave for the period not worked.

(Approved: Office of the President, March 23, 1978; *Handbook Up-Date June 1, 1978.)

'Accounts Payable' seminar to be Tuesday

A seminar titled "Accounts Payable" will be presented at 9 a.m. Tuesday in 159 Student Center by Jean Goodenough, accounts payable.

FINE ARTS BUILDING SELECTED—The Fine Arts Building under construction will be one of about 15 entries in the 1981 exhibition of school architecture in Atlanta next month during the annual joint meeting of the American Institute of Architects and the American Association of School Administrators. Harley Ellington Pierce Yee Associates of Southfield, the architect firm that designed the Fine Arts Building here, was one of about 100 architect firms to submit building designs for the exhibit. Their display will feature a large board of drawings and photos of the

building and other information on its design components. The structure will have 157,340 square feet of floor space and house the School of Music, the Department of Dance and offices of Robert H. Luscombe, dean of fine arts here. It will contain classrooms, a music library, a large recital hall, music practice rooms, dance studios, and rehearsal halls. This new photo shows a portion of the building with a snow-covered roof. Completion is slated for mid-1982. (Western News photo)
