Coronavirus

CORONAVIRUS / MICHIGAN DATA

Long Term Care Data

Key

--	No data reported
0	Zero cases reported

MDHHS has established a regional hub strategy to assist in reducing the spread of COVID-19 within nursing facilities. COVID-19 Regional Hubs have established units dedicated to treating COVID-19-affected individuals and have established appropriate staffing levels and protocols to support this level of care.

Regional Hub Data

Regional Hub	Number of C-19 Positive residents
Medilodge of Grand Traverse County	4
Medilodge of Frankenmuth	17
The Lodge at Taylor	42
Advantage Living Center Northwest	--
Advantage Living Center Redford	27
Samaritan Manor	0

These case counts reflect current cases of COVID-19 among facility residents reported to the Michigan Department of Health and Human Services as of April 23, 2020. These totals do not include patients or staff who have recovered or passed away prior to this report. It is important to note that the presence of COVID-19 at a facility is no way an indicator of a facility that isn't following proper procedures. Several facilities are supporting local hospitals by accepting confirmed COVID-19 positive residents and going forward will be noted as such.

This information does not replace a thoughtful conversation with facility staff about their current infection control practices and mitigation strategies. Questions that families might ask a care facility include:

- What are you doing currently to protect residents from COVID-19?
- What precautions do you take when you do identify a person who is symptomatic of COVID-19?
- How are families kept apprised of changes related to your infection control policies?

Families should always feel free to ask questions of the facility where their loved one resides, and if not satisfied, contact their local ombudsman.
