The Middle English Texts Series produces scholarly texts designed for research and classroom use. Its goal is to make available to teachers, scholars, and students texts that occupy an important place in the literary and cultural canon but have not been readily available in print or online editions. The series does not include authors, such as Chaucer, Langland, or Malory, whose English works are normally in print. The focus is, instead, upon Middle English literature adjacent to those authors that are needed for research or teaching. The editions maintain the linguistic integrity of the original work but within the parameters of modern reading conventions.
