

Board of Trustees meeting slated

The next meeting of the WMU Board of Trustees will be held Wednesday, April 9. Details and key agenda items will be posted online at wmich.edu/news closer to the meeting date.

Dunn makes student aid donation

Acting at a special March 19 meeting, the WMU Board of Trustees approved raising President John M. Dunn's base salary by 2.5 percent. As he does each time he receives a raise, Dunn will donate for student financial aid the cumulative total of his pay increase since his \$345,000 starting salary. That means that this year, he plans to donate back \$37,776.

Bookstore clearance sale ends March 28

The WMU Bookstore is holding a clearance sale through Friday, March 28. Visit the bookstore website at wmubookstore.com for hours and additional information.

Free employee photo sessions set

Employees as well as professionally active retirees are encouraged to have their official WMU photos taken from 9:30 a.m. to 4 p.m. April 4, May 29, July 17, Sept. 25 and Dec. 2 in Walwood Hall's Emeriti Lounge. Contact Sue Beougher at sue.beougher@wmich.edu or (269) 387-8402 to confirm your session or receive your photo.

Major award deadlines coming up

The WMU community has until Tuesday, April 1, to nominate eligible faculty and staff members for the Emerging Scholar, Distinguished Teaching and Distinguished Service awards. Visit wmich.edu/facdev/awards for more information.

Funds available for diversity projects

Faculty and staff are invited to submit funding proposals for projects related to health disparities and equity and academic readiness and success among populations from racially diverse, underserved communities in West Michigan. Contact Carla Koretsky with questions at carla.koretsky@wmich.edu. Visit wmich.edu/honors for details.

WMU opts out of property purchases

WMU will not proceed with its previously announced decision to purchase 10 homes immediately adjacent to the north edge of the East Campus. The University had said it would demolish the homes to create green space for the community and a more attractive entry point to that part of the main campus. Neither the city of Kalamazoo nor the University want to set what each side believes might be an inappropriate precedent regarding who would have jurisdiction over the homes if WMU owned them. The structures are not considered historic homes, but they do fall within the South Street-Vine Area Local Historic District.

Five engineering dean candidates to visit

Five candidates for the position of dean of the WMU College of Engineering and Applied Sciences will visit the campus in the coming weeks for a series of meetings and public presentations.

The successful candidate will replace Anthony J. Vizzini, who left WMU in mid-2013 to become provost and vice president for academic affairs at Wichita State University.

All presentations are in the Parkview Room of the College of Engineering and Applied Sciences building on the Parkview Campus. The candidates, the dates of their campus visits and the times of their public presentations are:

- Thursday, April 3, 9 to 10 a.m., Lizette R. Chevalier, associate dean for undergraduate education and outreach at the University of Southern Illinois-Carbondale's College of Engineering;

- Thursday, April 3, 2:15 to 3:15 p.m., Martha C. Mitchell, associate dean for research at New Mexico State University's College of Engineering;

- Friday, April 4, 2:15 to 3:15 p.m., Charles B. Fleddermann, associate dean for academic affairs and the Gardner-Zemke Professor of Electrical Engineering at the University of New Mexico's School of Engineering;

- Tuesday, April 8, 2:15 to 3:15 p.m., Jenna P. Carpenter, associate dean for undergraduate studies and the Wayne and Juanita Spinks Professor of Mathematics and Statistics at Louisiana Tech University's College of Engineering and Science; and

- Thursday, April 10, 2:15 to 3:15 p.m. Cerry M. Klein, Office of the Provost, professor of industrial and manufacturing engineering and the Lapierre Professor in

Final design plans for new alumni center revealed

A set of building additions refined to reflect the existing look and feel of East Hall were among the features unveiled March 25 when architects from TowerPinkster revealed the final design for the new WMU Alumni Center.

The renovation design has been done with a goal of achieving LEED Platinum certification. Construction will make use of salvaged materials, using locally sourced new materials, and incorporating geothermal heating.

The two small wings shown in earlier public presentations have been re-envisioned to be clad in brick similar to that on the original structure—possibly using salvaged brick from the building's south wing. Horizontal architectural lines will tie in the new wings to the details of the original building, as well.

"The additions will be carried out in a way that feels more balanced and

University garners two new grants related to water quality

Stormwater management and related efforts on campus received a big boost this month, when the Michigan Department of Environmental Quality announced that WMU has been awarded two grants totaling \$757,214.

Facilities Management applied for the funding from the state's Stormwater, Asset Management and Wastewater Program, which aims to accelerate the statewide use of asset management planning practices as well as to improve water quality.

The program only has \$97 million available for the 2014 fiscal year, but the environmental quality department received 673 applications seeking \$541 million. WMU's early submission of its applications put it in a lottery to receive a portion of the funds available.

Peter J. Strazdas, associate vice president for Facilities Management, says the University will use its \$516,061 and \$241,153 grants to create campuswide stormwater and wastewater asset management plans. These projects will involve inventory data collection, condition assessment, risk assessment, metering, computer modeling and mapping.

Work may start as early as this coming summer but must be completed by June 2017. Daniel J. List, geographic information systems manager in Facilities Management's Engineering Division, will be the point person for the plans.

"These projects will support a cost-effective approach and guide our stewardship role with

Around campus and beyond

Law school affiliation to be discussed

John M. Dunn, president of WMU, and Lawrence P. Nolan, chair of the Cooley Law School Board of Directors will discuss “The WMU and Cooley Law School Affiliation” Friday, March 28, as part of the Keystone Community Bank Breakfast Speaker Series. The free event begins with breakfast at 7:30 a.m. in 2150 Schneider Hall. Reservations are required at wmich.edu/business/keystone-rsvp or (269) 387-6059.

Events to focus on sexual assault

“The Art of Surviving” is the theme for a series of events in the Trimpe Building’s Multicultural Center to raise awareness about sexual assault. They kick off Friday, March 28, with “FUNctional Relationships” from 7 to 9 p.m. and include Take Back the Night activities Friday, April 4. More information is available at wmich.edu/healthcenter/healthpromotion/fireplace/april-2014.

Brain Awareness Fair to be held

Students of all ages are invited to take part in fun, neuroscience-focused activities during the Brain Awareness Fair from noon to 4 p.m. Saturday, March 29, in Haenicke Hall.

Labor strike is subject of readings

The WMU chapter of the American Association of University Professors will present a free faculty reading of “Strike

Parade,” a new play by Steven Feffer, English, that commemorates the 100th anniversary of the 1913-14 Michigan Copper Miners’ Strike. The event is set for 7 to 10 p.m. Monday, March 31, in the President’s Dining Room of the Bernhard Center. Visit wmich.edu/sites/default/files/webform/StrikeParade_flier_1.pdf for details.

Medical pioneer visiting campus

Christina Puchalski, director of the George Washington Institute for Spirituality and Health at the George Washington University School of Medicine, will present a free lecture and webinar at 4 p.m. Thursday, April 3, in the Fetzer Center’s Kirsch Auditorium. To register, visit wmich.edu/online/webinar or call (269) 387-4200.

State Geographic Bee coming up

WMU will host the Michigan State Geographic Bee starting at 12:30 p.m. Friday, April 4, in the Fetzer Center’s Kirsch Auditorium.

Business speaker to address parity

Gloria Castillo, president and CEO of Chicago United, will present “Inclusion: Culture in Action in the Corporate Environment” at 3:30 p.m. Wednesday, April 9, in 2000 Schneider Hall. For registration and other details, visit wmich.edu/business/rsvp-dss or call Cyntia Reeves at (269) 387-5069.

Chair elected to international group

Said Abubakr, chair of chemical and paper engineering, has been elected a commissioner for the Engineering Accreditation

Abubakr

Commission of the Education and Accreditation Committee of the American Institute of Chemical Engineers.

Abubakr is one of seven commissioners representing the institute. As such, he will serve for five years

as team chair for site visits of the Accreditation Board for Engineering and Technology. ABET is a nonprofit, non-governmental organization that accredits college and university programs in the disciplines of applied science, computing, engineering, and engineering technology. It accredits more than 3,100 programs at more than 670 colleges and universities in 24 countries.

ABET’s four accreditation commissions lead and conduct the organization’s accreditation activities. The commissions make the final decisions about all program accreditation actions, except for appeals, and are responsible for the continuous review and enhancement of their particular criteria, policies and procedures.

Professor named outstanding mentor

Jessica Frieder, psychology, will receive one of three Outstanding Mentor awards from the Association for Behavior Analysis

Frieder

International during its 2014 convention Friday through Tuesday, May 23-27, in Chicago. The award is a high honor, especially for mentors who are still at the early stage of their careers.

Frieder joined the WMU

faculty in 2011.

The association is a nonprofit membership organization that seeks to contribute to the well-being of society by developing, enhancing, and supporting the growth and vitality of the science of behavior analysis through research, education and practice. It has 87 affiliated chapters worldwide and accredits behavior analysis undergraduate and graduate training programs as well as publishes three scholarly journals.

Emerita’s new book focuses on Iran

Erika Friedl Loeffler, Meader Professor Emerita of Anthropology, has written a new book that examines several facets of Iranian culture. The book, “Folktales and Storytellers in Iran: Culture, Ethos, Identity,” was published in January by I.B.Tauris & Co. Ltd. for its International Library of Iranian Studies series.

In addition, a lengthy article Loeffler co-wrote with her husband, Professor Emeritus of Anthropology Reinhold Loeffler, was recently published.

Her book highlights the role of the fairytale and folklore in the creation, transmission and manipulation of regional and national identities. Having carried out anthropological research in Iran since 1965, Loeffler is uniquely placed to analyze the ways in which the folklore and fairy tales—both the stories themselves and the telling of the stories—have an impact on the idea of what it means to be “Iranian.”

Disability services for students office providing testing sites

Due to the increasing number of students who require test accommodations, disability services for students will offer overflow testing sites for final exam week, Monday through Friday, April 21-25.

In a change from the fall semester, the location will be 113 Bernhard Center. The site will provide space for a maximum of 20 students requiring extended testing time accommodations at 8 a.m., 11 a.m. and 2

p.m. during the week. Disability services for students also provides testing accommodation services with a reader/scribe and adaptive technology by appointment during its set office hours.

Instructors interested in volunteering as exam proctors at the overflow testing location should contact Jayne Fraley-Burgett at (269) 387-2120 or jayne.fraley@wmich.edu. More information is available at wmich.edu/disabilityservices.

Western News

Volume 40 Number 13

EDITOR: Jeanne Baron. CONTRIBUTORS: Cara Barnes, Paula M. Davis, Deanne Puga, Cheryl P. Roland and Mark E. Schwerin. GRAPHIC DESIGN: Tammy M. Bonebrugh. DISTRIBUTION AND MAILING: Teresa Ventimiglia.

WESTERN NEWS (USPS 362-210) is published by the Office of University Relations, Walwood Hall, Western Michigan University, 1903 W. Michigan Ave., Kalamazoo, MI 49008-5433, every other week during the fall and spring semesters and Summer I session. Periodicals postage paid at Kalamazoo, MI 49008-5165.

POSTMASTER: Send address changes to *Western News*, Office of University Relations, Western Michigan University, 1903 W. Michigan Ave., Kalamazoo, MI 49008-5433.

DEADLINE: Items to be considered for publication should be submitted to the Office of University Relations by 5 p.m. Friday the week preceding publication. Spring publication dates are **Jan. 9 and 23; Feb. 6 and 20; March 13 and 27; and April 10.** Items may be submitted to Jeanne Baron via: email, jeanne.baron@wmich.edu; mail, Campus Mail Stop 5433; phone, (269) 387-8433; or fax, (269) 387-8422.

WMU is an equal opportunity/affirmative action employer consistent with applicable state and federal laws.

Reserve now for awards event

The deadline to make reservations for the Administrative Professional Association’s Awards Reception is Thursday, April 10. Keep checking wmich.edu/apa/ for details.

Correction

The years of continuous service were incorrectly reported in the Feb. 6 issue of the *Western News* for Peter Judd, social work. Judd will retire after 24 years of service to the University.

Jobs

Current job opportunities at WMU are announced daily on the Human Resources website at wmich.edu/hr/jobs. Please note that applications must be submitted online by the stated deadline. Complete application procedures are included with each posting.

Dunn elected to national higher ed board

President John M. Dunn was elected March 10 to serve as a member of the board of directors for the American Council on Education, the major coordinating and advocacy body for all of the nation's colleges and universities.

He was elected at the 96th annual ACE meeting that attracted some 1,500 American education leaders to San Diego for the March 8-12 gathering. Dunn is one of seven new board members who will serve three-year terms expiring in March 2017.

"I am deeply honored by the faith and responsibility my colleagues have entrusted in me," Dunn says. "Their vote provides a significant opportunity for me to be deeply involved in the higher education policy issues confronting our nation. I'm looking forward to serving with my fellow board members—all of whom bring experience

Dunn

in leading colleges or universities that, like WMU, play an important role in the national higher education environment."

Additional new three-year members of the ACE board include the leaders of Case Western Reserve, Drexel, West Virginia and Washington State universities as well as the leaders of the Massachusetts Institute of Technology and California Community Colleges. The board is led this year by the president of Allegheny College, James H. Mullen Jr.

Membership in the Washington D.C.-based organization is made up of representatives of more than 1,800 organizations that collectively promote, protect and advocate for students, faculty and administrators in higher education.

ACE represents the presidents of U.S. accredited, degree-granting institutions, including public and private as well as profit and nonprofit institutions. It is the most visible and influential higher education association in the nation and is at the center of federal policy debates concerning legislation that affects campuses across the country.

Applications for tuition remission due April 30

It's time for eligible employees to apply for undergraduate tuition remission for dependent children, spouses and designated eligible individuals for summer II 2014 through summer I 2015.

WMU remits 75 percent of tuition and required fees, including the Extended University Programs Technology Fee.

To take advantage of the tuition remission policy, submit a completed application by Wednesday, April 30, to Human Resources in 1300 Seibert Administration Building or by fax to (269) 387-3441.

The application is posted online at wmich.edu/hr/forms under the Benefit enrollment and changes section.

Community partnership to be part of WMUK spring fundraiser

The spring fund drive for WMU's public radio station, WMUK, begins on-air pledging Saturday, April 5.

Featuring "The Partnership for Fair Food," the campaign will raise funds for WMUK and trigger gifts from the Kalamazoo Community Foundation to Fair Food Matters, an organization seeking to improve access to healthy, local food by educating, connecting and empowering the Kalamazoo community.

Pre-drive, mail-in contributions to WMUK and online giving at wmuk.org will play a significant role in helping WMUK raise the funds necessary to purchase NPR programs like "Morning Edition" and "All Things Considered" as well as produce lo-

cal programs such as "Grassroots," "West Southwest" and "Arts & More."

A Web ticker at wmuk.org will feature up-to-date results of the station's fundraising effort now through the end of the drive.

Special workshops slated

Faculty and staff members are invited to a day of workshops from 8:30 a.m. to 3:30 p.m. Friday, April 4, in 2000 Schneider Hall.

The workshops are presented by Hilary E. Kahn, Indiana University-Bloomington, and the day's topic is "Internationalizing the Curriculum." Lunch is provided. Register at wmich.edu/international/register.

services; and Kelly Michelle Randol, building custodial and support services.

10 Years—Pamela Jean Jones, College of Aviation.

Five Years—Rhonda Alrick, development and alumni relations; Laurie Jean Brooks, Valley II Dining Service; Jonathan M. Collier, Haenicke Institute; Kristi Ann Corradini, WMU Dining Services; Tamara J. Davis, Haworth College of Business; Kelley S. Groth, Bernhard Center Dining Service; and Christine M. Warner, Registrar's Office.

Spring 2014 outstanding staffers to be honored

Fifteen staff members will be honored as outstanding employees during a reception at 2 p.m. Monday, April 14, in 157 Bernhard Center.

The University community is invited to attend the event, which recognizes the spring 2014 recipients of WMU's semiannual Make a Difference award. The recipients will each receive \$300, before taxes, and a commemorative certificate.

The spring 2014 winners are: Bonnie Ayers, student financial aid and scholarships; Mary Lou Brooks, geography; Shona Drake, Haenicke Institute; Elena Gaudio, president's office; Kevin Hinds, public safety; Tracey Kauppila, College of Aviation; Nancy Landsberger, civil and construction engineering; Edward Maring, maintenance services; James Oswalt, maintenance services; Gerald Schulz, maintenance services; Tammi Smith, College of Arts and Sciences advising; Debbie Uldriks, Haenicke Institute; Mariann Vorva, Center for Academic Success Programs; Paige Warner, First-Year Experience; and Carolyn Wiley, Valley I Dining Service.

BEST OF THE BOSSES—

Darin Leigh, University Recreation, is the 2014 Supervisor of the Year. He and Michelle Geric, the 2014 Belleville Student Employee of the Year, were honored at a celebration Feb. 20 during the 28th annual Student Employee Appreciation Week. (Photo by Brenda Case-Parris)

Obituary

Baskerville

Walden A. Baskerville, associate professor emeritus in the Counseling Center, died Feb. 11. He was 87. Baskerville retired in 1993 after nearly 15 years of service.

To make a memorial gift or sign the memorial

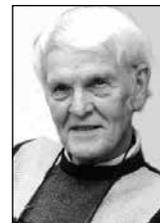

guestbook, visit rogersmortuarynm.com.

Mann

Wayne C. Mann, former WMU archivist, died March 19 in Portage, Mich. He was 81. Visit langelands.com to make a memorial guestbook entry and wmich.edu/library/legacy to make a memorial gift to the

Zhang Center's "WMU Legacy Collections-Athenaeum" project.

Williams

Richard R. Williams, whose death Feb. 5 was previously reported, will have his life celebrated during a memorial event at 1:30 p.m. Sunday, April 13, in the Parkview Hills Clubhouse, 3707 Greenleaf Circle in Kalamazoo. A reception will follow. RSVP at drrichardwilliams.com.

Service

The following faculty and staff members are recognized for 35, 25, 15, 10 and five years of service during March.

35 Years—Terri J. Culver, accounting, and Suzanne M. Davenport, Faculty Senate.

25 Years—Sherrie Y. Fuller, Division of Multicultural Affairs, and Craig E. Wolford, accounting.

15 Years—Sheila Atherton, accounts receivable; Jeffrey J. Benton, building custodial and support services; Karen Dean, College of Aviation; Emily L. Kilian, Sindecuse Health Center; James C. MacMillan, maintenance

On Campus with Marilyn Johnson

WORLD OF TALENTS, INTERESTS
(Photo by Jeanne Baron)

An eclectic liberal arts graduate, Marilyn Johnson enjoys learning. She serves as administrative assistant for the Upjohn Center for the Study of Geographical Change, and despite the variety inherent in her job, always finds opportunities to don more hats.

In addition to arranging special events, Johnson takes care of payroll, purchasing, inventory and some budgeting as well as paperwork such as invoices and maintenance contracts. But she also does the design and photography for the center's publicity materials and works directly with clients, doing high-resolution scanning and digital restoration.

"Our main focus is enhanced digital maps," Johnson says, noting that the Upjohn Center has developed thousands of these maps. "What we want to do now is market them because they're really a superior product. But I've had the opportunity to work on other projects and help clients who want to preserve their art or photographs."

Johnson has served in administrative assistant posts at WMU since 1998. She began in the College of Education and Human Development, then moved to the Haworth College of Business and in 2007, came to the Upjohn Center.

"It's a really nice place to work. The people here are wonderful," she says. "My position has sort of evolved, so I don't know what might be on the horizon."

Johnson earned a bachelor's degree in English and a master's degree in educational technology from WMU. She has a graphic arts background and early on saw the digital direction printing was taking. Through volunteer and professional work, she decided to learn as much as she could, and she continually keeps stretching herself.

She maintains a website at sites.google.com/site/myphotosandstuff where she can display her photography and the photo restorations that she does for family and friends. Johnson also is interested in homeschooling, and her master's thesis involved developing English literature and Shakespeare materials for homeschoolers. When no longer working full time, she hopes to create a website for such materials, as well as become more involved in animal rescue efforts and get back into civic theatre, an arena in which she used to act and design costumes.

Johnson and her family came to the United States from England in 1961. She and her husband, Greg, live in Grandville, Mich. The couple have one son, an Afghanistan veteran.

Rare trees officially named state champions

One of WMU's 29 dwarf hackberry trees has been declared the Michigan State Champion, and two others have been designated Michigan Co-champions.

So says Andy Sawyer, the state's official representative for the Big Tree Registry, who on March 14 measured three of the campus' largest specimens of rare dwarf hackberrys.

WMU's state champion tree earned 99.1 overall points after measurements were recorded in several categories. It beat the national record holder, a specimen in Alexandria, Va., in all but one of those categories.

Notably, WMU's top tree stands over 50 feet (as does one of the University's co-champions) yet has a girth of only 36 inches. The Alexandria tree is a mere 41 feet tall but has a 60-inch girth, which pushes its point total to 111.

Andrew Sawyer (Photo courtesy of landscape services)

Final design plans for alumni center revealed

in keeping with the original," says Tower-Pinkster's Jason Novotney, who outlined the changes and final design.

External plans call for preserving the center part of the North Hall portico to become a landscape focal point, and site work on the east side of the building overlooking the city will extend the usable space near the portico with a retaining wall and outdoor platform.

Interior details were showcased by renderings of a main floor library that features the fireplace salvaged from North Hall, a ballroom with a seating capacity of 180, historically correct light fixtures, and a lobby and public area that reinforce the building's current axes.

The building's interior spaces will be heav-

ily devoted to WMU's history. Alumni and community members are invited to help by sharing their personal stories about East Hall and the University.

"If I think of East Hall as a sacred place, and I do, the best way to capture that spirit is through storytelling," says Jim Thomas, vice president for development and alumni affairs. "We need to get the very best stories to rotate through the building in years to come."

Those wishing to share such stories about campus life or East Hall, can go online to mywmu.com/alumnicenter. The page includes a way to share stories, make a gift to the Alumni Center, post comments about the center and view the architects' March 25 presentation.

Continued from page 1

University garners two new grants

the University's stormwater and wastewater districts. They also are in alignment with the sustainability priorities established in the University's Strategic Plan," Strazdas says.

"We'll be enhancing our infrastructure stewardship responsibilities and supporting improved water quality for the next generation in Kalamazoo. Clean and safe drinking water is becoming a big issue in our society. The actions we take today through our plans will have a significant and lasting effect for our children and grandchildren."

Strazdas notes that over the past several years, WMU has greatly enhanced the campus stormwater system with the aid of several grants totaling more than \$1 million.

As a result, he says the majority of the campus is stormwater neutral and uses best management practices that are helping to improve the local region's overall water quality. In the process, he adds, WMU has become a recognized leader in stormwater management and campus sustainability.
