CORONAVIRUS / MICHIGAN DATA

Long Term Care Data

On Friday, April 24, data about COVID-19 cases at long-term care facilities was posted for the first time at [Michigan.gov/Coronavirus](https://www.michigan.gov/Coronavirus). On Monday, April 27, a change was made to the process in how the data was pulled. This led to data being posted on April 27 that did not reflect the information self-reported by facilities into EMResource. We were notified by several facilities and local health departments about this issue on Tuesday and a manual review of the information was conducted.

Providing accurate data is very important to the Michigan Department of Health and Human Services and we have established a process that will help ensure data posted to the website going forward will accurately reflect the data inputted into EMResource by long-term care facilities in our state.

Key

--	No data reported
0	Zero cases reported

MDHHS has established a regional hub strategy to assist in reducing the spread of COVID-19 within nursing facilities. COVID-19 Regional Hubs have established units dedicated to treating COVID-19-affected individuals and have established appropriate staffing levels and protocols to support this level of care.

These case counts reflect current cases of COVID-19 among facility residents reported to the Michigan Department of Health and Human Services **as of May 1, 2020**. Please note that the data will be posted daily, Monday-Friday. These totals do not include patients or staff who have recovered or passed away prior to this report. It is important to note that the presence of COVID-19 at a facility is no way an indicator of a facility that isn't following proper procedures. Several facilities are supporting local hospitals by accepting confirmed COVID-19 positive residents and going forward will be noted as such.

This information does not replace a thoughtful conversation with facility staff about their current infection control practices and mitigation strategies. Questions that families might ask a care facility include:

- What are you doing currently to protect residents from COVID-19?
- What precautions do you take when you do identify a person who is symptomatic of COVID-19?
- How are families kept apprised of changes related to your infection control policies?

Families should always feel free to ask questions of the facility where their loved one resides, and if not satisfied, contact their local ombudsman.
