Why do the data from past days change and how often are data updated?

Doses administered are reported by the date of vaccination. Providers have 24 hours to report vaccination to MDHHS. MDHHS pulls the data each morning for cleaning and then posting to the website by 3 pm, Monday through Friday. Previously reported numbers of administered vaccine doses may change as new data are received.

Where can I get more information about COVID-19 vaccine?

For healthcare provider information about COVID-19 vaccine, visit the MDHHS website [COVID-19 Vaccine Provider Guidance & Educational Resources](#)

For frequently asked questions (FAQs) related to COVID-19 vaccine, visit the MDHHS [Frequently Asked Questions for the Public](#)

Where does the vaccination data come from?

This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

Why do the data from past days change and how often are data updated?

Doses administered are reported by the date the vaccination occurred. Previously reported numbers of administered vaccine doses may change as new data are received. Providers have 24 hours to report vaccinations to MCIR. MDHHS pulls the data each morning for cleaning and then posting to the website by 3 pm, Monday through Friday.

How is COVID vaccination coverage calculated?

Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.

MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan). There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.) County is based on the county of residence.

Is COVID vaccination administration required to be reported?

Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

Where does the vaccination data come from?

This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?

Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.

MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).

There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)

County is based on the county of residence.

Is COVID vaccination administration required to be reported?

Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?

These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

PUBLIC USE DATASETS

COVID-19 Vaccine Doses Administered

README

Where does the vaccination data come from?

This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?

Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.

MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).

There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)

County is based on the county of residence.

Is COVID vaccination administration required to be reported?

Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?

These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

***** Demographics Variables are not currently included in Public use Datasets due to small sample sizes. Additional data will be added as the amount of data increases. *****

COVID-19 VACCINE DOSES ADMINISTERED 2021-01-06

Data as of	Week	Activity	Preparedness Region	Local Health Department	County	Vaccine Type	Facility Type	Dose Number	Number of Doses
12/14/2020	51	2020-21	Region 1	Ingham County Health Department	Ingham	Pfizer	Hospital	First Dose	1
