Students urged to seek loans quickly

Students who expect to need a federal Guaranteed Student Loan (GSL) or a Pell Grant to attend a college or university this fall have been urged to apply as soon as possible.

Dr. Edward W. Harkenrider, director of the WMU Office of Student Financial Aid and Scholarship, noted that many students will still be eligible for federal aid for this fall despite possible cutbacks in programs.

Harkenrider indicated that about 90 percent of the WMU students who have qualified for the GSL program in 1982-83 would still be eligible for such loans in 1982-83 under new criteria established by the federal government. Current proposals call for a reduction of 50 percent for 1983-84.

He added that high school and community college students should not be discouraged from applying to a four-year college this fall and should determine what student aid and work opportunities are available at the schools they are considering.

Students and others may obtain more information on this program at the WMU Office of Student Financial Aid and Scholarships, 3306 Faunce Student Services Building, or by calling (616) 383-1856.

Board expresses concern over proposed federal aid cuts

Noting that the current depressed state of the nation's economy is particularly evident in Michigan, the Board of Trustees approved a resolution at its May meeting decrying proposed federal cuts in student financial aid programs.

In its resolution, the Board noted that Western "serves many students from families of middle and modest incomes" who would be among the hardest hit if proposed cuts are enacted.

Reagan administration proposals for aid programs for 1982-83 would reduce by 12 percent the number of awards to eligible students at Western, affecting 700 students. In 1983-84 proposals call for a 50-percent reduction in programs, affecting more than 3,000 students at Western.

Automotive sleuths assist police with accident probes

Southwest Michigan police agencies are getting valuable assistance from faculty and students in the Department of Transportation Technology when investigating serious, and usually fatal, vehicle accidents.

Working much as a medical examiner would—with except with automobiles and other vehicles—Western's "automotive sleuths" try to locate malfunctions that may have contributed to an accident.

"We check the brake and the steering systems and the engine and then try to analyze the inferences of what we find," said James VanDePolder, associate professor of transportation technology. "We're often called upon to testify in court cases."

In addition, police agencies ask VanDePolder and Richard B. Hathaway, an assistant professor in the department, to inspect new police cars as a team. "While checking them over," VanDePolder said, "sometimes we find aspects of a car's design demonstrating that some models just weren't built to be police cars."

He added that Western has supplied useful data to the engineering department of a major manufacturer of police cars.

In another instance, the Michigan State Police asked the WMU "experts" to check out the effectiveness of a new lubricant being considered for use in squad cars. It was tested this past winter in the Upper Peninsula, where the oil's maximum advantage over other lubricants could be evaluated in the fleet. It was found to be no better than other lubricants available.

Similarly, faculty members and students have been asked to test the quality of a brand of gasoline that is purchased under contract for all Michigan patrol cars and to check the value of fuel additives. The information obtained is useful in getting the state's best fuel dollar value, VanDePolder observed.

MACB honors students, faculty members

Two faculty members and two students at the University were recognized for outstanding achievement by the Michigan Association of Governing Boards at a convention this summer.

Those recognized were Dr. Gary T. Chartrand, professor of mathematics; Dr. H. Byron Earhart, professor of religion; Brian A. Berger, a senior from West Allis, Wis.; and Kathryn L. Nelson, a senior from Detroit.

Two students and two faculty members from each of Michigan's 15 public four-year colleges and universities were honored at the convention in East Lansing.

The convention is "an effort to offer public recognition to the best teachers and best students in Michigan's public higher education system," said Katherine Halshead of Harbor Springs, MACB chairperson. She said she hopes the convention will become an annual means of "celebrating the excellence of public higher education in the state."

Chartrand is an international authority on graphs and graph theory and has been managing editor of the Journal of Graph Theory, an internationally published journal, since 1975. It was named "the outstanding new journal for 1977 in the scientific, medical and technical category" by the American Association of Publishers.

In 1979 Chartrand received the Distinguished Faculty Scholar Award from WMU. His teaching abilities were recognized with an "Excellence in Teaching" award from graduate students in the WMU Department of Mathematics. The author of more than 75 published research papers, Chartrand has written four books and has directed three international conferences on graph theory.

Chartrand has been at Western since 1964. He is a graduate of Michigan State University, where he earned master's and Ph.D. degrees.

Earhart has been a student of Japanese religions for most of his academic career, beginning in 1962 with a three-year Fulbright Fellowship for study and travel in Japan, the (Continued on page 2)
The newly issued "Hydrogeologic Atlas of Michigan" produced by the Department of Geology at Western, "probably the most comprehensive publication of information on the geology and groundwater resources of Michigan to become available in many years," according to Dr. Lloyd J. Schmaltz, chairperson of the department.

The 26-inch by 39-inch hardcover atlas of 100 pages and a companion 800-page softcover text, "Hydrogeology for Undergraduate Inspection Control", were compiled over the past two years by a team of four Western faculty members and 28 students under grants from the U.S. Environmental Protection Agency that totaled $645,000.

"With water looming as a critical resource for years to come, such information will be invaluable," Schmaltz said, noting that Gov. William G. Milliken has identified Michigan's abundance of fresh water as a key natural resource for the state's economic recovery.

The atlas, unique in Michigan, has more than 100 maps, cross sections and tables that synthesize current and historical information on the hydrology and geology of the state.

Dr. Richard N. Passero and Dr. W. Thomas Straw, professors of geology and chairpersons of the project, pointed out that the atlas has 15 maps in color. Dr. Thomas W. Hodler, a former member of the department of Geography faculty here, also assisted in the early stages of the project.

Schmaltz said the atlas contains several maps that are the first such compilations of vital information on Michigan's underground water resources and the influences that pose a threat to their integrity.

"This map, very important to persons and communities planning to use underground water, pinpoints the 800 known or suspected surface pollution sites that have been identified by the Michigan Department of Natural Resources [DNR]. "It is the only complete mapping of these 800 sites now available," Straw noted.

Passero added to these sites as comparable to the state "being faced with putting out 800 brush fires," or correcting that many individual pollution sites, rather than facing a "forest fire of pollution." This information can be used by governmental agencies to plan totally for the best rules and regulations to control pollution of Michigan's underground water resources.

Another map locates places where the oil field brine (salt water) has been disposed, either by piping it into pits or by injection into underground formations. It marks the first time that such comprehensive data has been made available in a single compilation for government or public use in Michigan, Passero said.

"We are dealing with scattered and different types of contamination sites, including chemicals as well as brine," Passero said. He noted that such pollution usually "is small and tends to travel slowly with the underground water flow, rarely moving more than a mile or two from the contamination site."

"With industry now poised to resume the surface mining of coal in the Lower Peninsula, the atlas could serve as an important planning tool in this respect," Passero said, adding that the current poor national economy has led to a de-emphasis of water pollution controls, which "must not become a long-term attitude."

Straw noted that if water pollution regulations had not been developed in Michigan over the past 10 years, the state could have more serious underground water pollution problems than it has. These problems would eventually threaten critical areas of the state's water resources.

"Some 650 copies of the atlas and the text have been printed, and distribution has begun to governmental agencies, universities, geological consulting firms, oil companies and well-drilling businesses."

Saw the publications will become the basis for the state to evaluate future requests to inject liquid and other waste materials into rock formations and to predict the possible impact of such injections on groundwater resources in the state.

-Robert G. Rubom
In a few words . . .

- Applied Sciences changes its name
  The name of the College of Applied Sciences has been changed to the College of Engineering and Applied Sciences. The action, effective immediately, was approved May 21 by the Board of Trustees "to provide a greater visibility of the professional area of engineering within the University."

- More than two-thirds of the college's 3,000 plus students are enrolled in its engineering programs. The Division of Engineering is comprised of the departments of electrical engineering, industrial engineering, mechanical engineering, paper science and engineering and transportation technology.

- Student housing rates increased 5.9 percent
  A 5.9-percent rate increase in room and board rates is effective with the start of the fall semester on Sept. 1, according to Robert B. Wetnig, vice president for finance. The increase has been kept relatively low due to the University's plans to close Walwood Residence Hall. The building's size (115 students and its age [built in 1938, it was the first residence hall on campus) make its operation inefficient to continue.

  The increase is $120 for two students, raising the present rate of $2,011 to $2,131 for the fall and winter semesters. A 9 percent increase for summer session board was also approved, along with a monthly boost in family housing apartment rates, ranging from 7.5 to 7.6 percent. The premium for a single room remains unchanged at $2 per day.

  Wetnight pointed out that the rate increases were necessary to offset increased costs of food, wages and other expenses.

- Western ranks second lowest in utility costs
  Western ranks second lowest in the state among public colleges and universities in its utility costs per square foot for 1980-81, according to figures provided by the state.

  Western, with a cost of 76 cents per square foot, is only 2 cents per square foot behind the leader, Michigan State University. It is the second consecutive year that Western ranked second lowest behind Michigan State.

  "Western's costs were substantially below the state average of $1.18 per square foot," said William J. Kowalski, assistant vice president for utilities engineering. "We're delighted with that standing, absolutely tickled about it. That means our energy-saving and cost-cutting efforts over the past several years are continuing to pay off for us and for the State of Michigan."

Whitney Young conference—Levin W. Chestang (left), dean of the Wayne State University School of Social Work, was the keynote speaker at the Whitney M. Young Jr. Scholar's Award Conference held here this spring. His speech focused on Reagonomics and its impact on the quality of life for many Americans. Joining him are Mary A. Edmund, president of the Kalamazoo Association of Mental Health Workers (KABSW), a Western alumnus, and Philip H. Kramer, director of Western's School of Social Work, who co-chaired the conference with KABSW. Winners in the scholar's award competition were Aubrie C. Gordon of Grand Rapids, graduate division, and Lawrence D. Nowell, an Inkster senior, undergraduate division. Both are social work majors.

In 1980-81 Western spent $2.6 million on utilities, primarily steam, and electricity, excluding local services, on a total of 3.4 million square feet of space. Michigan State spent $7.4 million on just over 10 million square feet. Previously Western ranked third in 1978-79 and 1977-78 and fourth in 1976-77.

Western recently won the Governor's Energy Management Award for innovation in converting incandescent lighting fixtures to the more efficient high-pressure sodium fixtures in campus gymnasiums. The award included a grant of $12,500 from the Michigan Department of Commerce.

- Mott Foundation grants
  Two grants from the Charles Stewart Mott Foundation in Flint, Mich., totaling more than $100,000 for programs in Western's Community Leadership Training Center, are among the more than $1.5 million in grants and gifts received by the University in recent months.

  The Mott Foundation grants are $57,968 to renew community-based research projects ways to improve training of community leaders and $43,600 for a training program of leaders at the graduate level for positions in community service agencies.

  The center, under the direction of Dr. Donald C. Weaver, is a part of the WMU College of Education.

  Other grants to Western included $125,122 from the Kalamazoo County Mental Health Board for activity and training to maintain skills of developmentally disabled adults in Kalamazoo County. The grant is under the direction of Dr. David J. Shyter, director of the Center for Developmentally Disabled Adults in the WMU College of Health and Human Services.

  Another large grant was for $65,096 from the Saudi Arabian Mission in Houston, Texas. The amount provides for tuition and tutoring of graduate students from Saudi Arabia who are attending the University.

  "This supplemental grant," said Dr. Owen B. Middleton, professor of education and assistant professor and director of the program at Western, "brings the total received from this source to more than $45,000 in the past two years. It is intended to prepare these students to work in institutions of higher learning upon their return to Saudi Arabia."

A public service grant of $60,677 was awarded to Western through the combined efforts of the Greater Kalamazoo United Way, Kalamazoo County and the City of Kalamazoo ($10,000 each) along with the Kalamazoo Foundation ($25,877) and smaller amounts from several public service agencies. The fund is for the WMU Center for Human Services to provide the agencies with information on the number of people they serve, how the services are used and the needs and community conditions.

  The Michigan Department of Public Health gave grants totaling over $33,500 to the University to continue a fellowship program for developing and editing training tracts. It will be used for the instruction of apprentice level substance-abuse counselors by the Specialty Program in Alcohol and Drug Abuse.
Among Alumni

Homecoming '82 is 'Under the Bronco Big Top'

A festive, circuslike atmosphere will prevail over Western's campus Saturday, Oct. 16 when alumni and students join together to celebrate Homecoming 1982.

"Under the Bronco Big Top" is the theme for this year's celebration. The Homecoming parade, to begin at 10 a.m., will be filled with a variety of circus characters of all ages.

An "Under the Big Top" alumni luncheon will be held on campus from 11:30 a.m.-12:30 p.m. Then it's on to the 1 p.m. Bronco football game against Miami University.

The circus atmosphere to prevail over Western's campus during Homecoming has no limits and will indeed fill Miller Auditorium Oct. 15-17 with four presentations of the hit musical "Barnum." Performances are scheduled for 8 p.m. on Friday night, 4 and 9 p.m. Saturday and 3 p.m. on Sunday. "Barnum" pays musical tribute to America's definitive showman and self-proclaimed "Prince of Humbug" P.T. Barnum. There'll be marching bands in the aisles, calliope music in the lobby, clowns in the auditorium and all the paraphernalia of the big top. New York critics have proclaimed "Barnum" as "a big bonanza of a show" and "a feast for the eye and ear."

Tickets for each of the four performances are priced at $16.50, $13.50 and $10.00. They can be purchased by calling the auditorium ticket office at (616) 383-9363. VISA and MasterCard are accepted.

Distinguished Alumni Awards dinner added

A new star will appear on the WMU Homecoming scene this fall with the advent of a Distinguished Alumni Awards dinner Saturday evening, Oct. 16, in the University Student Center. For several years such presentations have been made at the August commencement, but at the behest of the board of directors of the Alumni Association, a change will come about this fall and the honorees will be cited at a dinner.

Usually there are three such presentations, although selections for 1982 have not yet been made.

Charles A. Smith, longtime professor of English, now retired, will be the master of ceremonies for the evening. James W. Goss heads the committee for the alumni board, with Marian Ludlow as co-chairman. Also serving on the committee are Miriam DeHaan, Robert Welborn, William Maze, Thomas Coyne, Dr. John Lore, Harry Contos, Larry deMink, Sterling Breed and Russell A. Strong.

'Grease' provides nostalgia

Homecoming is a time for nostalgia. What more perfect time than for the presentation of a superb musical spoof that gleefully brings back the look and sound of the teenage world of the 1950s. The University Theatre's Homecoming production of "Grease" is sure to rekindle memories for many alumni.

"Grease" will be presented on Oct. 14, 15 and 16 in the Laura V. Shaw Theatre. Curtain time is 8 p.m. on Oct. 14 and 15. Curtain time on Oct. 16 will be 7 p.m.

Ticket prices will be $4.50 for adults on Friday and Saturday and $3.50 for students and senior citizens. Thursday evening tickets are priced at $3.75 for adults and $2.75 for students and senior citizens.

Alumni wishing to order tickets may do so by calling the Shaw Theatre ticket office at (616) 383-1760.

Alumni directory completed

The first-ever alumni directory for Western Michigan University has just been published, according to Russell A. Strong, director of alumni relations. A book of 1,376 pages, it contains about 72,000 names and has been in a drawn-out production process for about nine months. "It proved to be a bigger job than the publisher had realized," says Strong, and delays in its appearance have caused many purchasers to become concerned that it might never appear.

"Many people do not make a decision by both geographical and class listings by name only. The University Theatre's production of "Grease" offers a feast for the eye and ear."

"It is unfortunate that it is not for sale, but that is the arrangement we made with the publisher," adds Strong. "Many people do not make a decision to purchase until they see the completed book, and now that is too late. Had we had to make an investment to assure quantities for sale upon completion we would never entered into such a venture."

The main part of the book is an alphabetical listing of all members, followed by both geographical and class listings by name only.

Alumni Gatherings

Detroit alumni meeting-WMU alumni from the Detroit area gathered May 10 at the Recess Club to hear WMU alumnus W. Bruce Thomas, '49, vice chairman of U.S. Steel and John R. Edman, vice president of the financial staff at General Motors, discuss the topic, "How Can Industry Function in a Depressed Economy and Turn a Profit." Alumni Richard Chormann, '59, president of the Wayne Oakland Bank, served as master of ceremonies for the meeting. Thomas (left), Chormann and Edman discuss the evening's program, the first of a series of professionally oriented meetings to be offered Detroit alumni on a semi-annual basis.
1923
Angie Wheeler Crandall, TC '23, BA '53, retired in 1966 after 30 years of teaching at Niles Public Schools and recently the library in the Vera Wilste school which has been named for her.

1934
Dr. Robert Boyle, BS '34, retired at the end of 1981 as administrator of the Federal programs at Pontiac Northern high school.

1938
Alfred Phillips, BS '38, March 5 as district forester in Lee County for the Department of Natural Resources. He had served as forester, Sac, Muscatine, and last, Mascot and Oakland County for 34 years in this post.

1940
Lawrence J. Brink, BA '40, for whom the Battle Printing Services Building at WMU was named following his retirement in 1968, has spent five years of craftsmanship, 1957-82, for the Kalamazoo Valley Club of Printing House Craftsmen.

1943
Mary Ellen Nolan Delsipe, BS '43, retired June 1 from MSU's Cooperative Extension Service in Dorr County. She was home economist there for nearly 28 years.

1949
John H. Fleming, BA '43, has been appointed to the Michigan Public Health Advisory Council by Governor Milliken. Fleming is chairman of environmental quality programs at Ferris State University.

1950
Lois L. Hamlin, BS '50, retired as OT professor at WMU, is the author of a new paperback book, "Easyway Ceramics," designed for OT practitioners.

1953
Al Horn, BS '53, recently graduated from a 30-week program to become a sales representative for Burroughs Wellcome Co. He lives in Sherman, Texas.

1954
Paul Harding, BS '54, has been transferred to Los Angeles by Western Airlines and is now vice president-passenger sales, having formerly been vice president of its western division. Harding is also a member of the WMU Alumni Association board of directors.

1958
Ronald Kirshman, BBA '58, MBA '66, retired from the ROTH commandant's post on the WMU, has been appointed friend of the court for Kalamazoo County.

1961
Robert Gordon, MA '61, RdD '76, has received a $1,200 grant from the Michigan Council for the Arts to complete a book and museum exhibit, "Detroit's Pre-World War I Immigrants." Dr. Gordon is assistant dean at Sienna Heights College, Adrian, and is also associate professor of general studies.

1966
Charles Laas, BS '66, has been appointed vice president-marketing of Techmark Corp., Newport, R.I. He had been with the Artex Group, Inc.

1970
Raymond J. Rau, president and owner of Oscar Rau, Inc., a furniture store in Frankenmuth, has expanded his operation with the purchase of a large competitor and now has four stores.

1975
Dr. John Caldwell, BS '75, MA '78, is the new assistant medical center director of the VA Hospital at Roseburg, Ore., a position he was appointed to following his completion of the VA's assistant director training program at Memphis, Tenn. He is now a professor in the American College of Hospital Administrators.

1976
Stephen C. Brown, BA '68, is the new administrator of the Life Care Center of Morgan County at Warburg, Tenn. He had formerly been in Marshall, Wis.

1978
Donald Hayes, '50, Paul Kleis, '50, Margaret Perry, '54, and John Richardson, '69

John Marshall, BBA '63, MBA '65, has been named director of sales and marketing for the Marine Industrial Products Co., Washington, Mich. A lawyer, Marshall had been vice president for Microdot Fastening Systems, Inc.

Roger L. Sellow, BA '64, was a speaker in February during the Community Mental Health Discussion Series at Grand Haven. He is a social worker for the Dune wood Counseling Services, and his subject was the Mid-Life Crisis.

Donald N. Aultberg, BS '64, is the new superintendent of schools at Merrill, taking over Jan. 13 after serving as the business officer for the schools.

Mark Becker, BA '64, MA '66, last December received his doctor of philosophy degree from the University of Michigan in biochemistry. He lives in Olivet.

Edward S. Young, BS '64, is one of the four newest members of the Cleveland, Ohio, school board, elected last November from a field of 15 candidates. Young is a financial analyst for the Cleveland Trust Bank.

Clifford Barr, academic dean at De Anza College in Ohio since 1978, has been named professor of French as well.

1980
Donald J. Crossman, BBA '65, is a trustee of the Battle Creek Area Chamber of Commerce. He heads his own CPA firm in Battle Creek and is also vice president of the WMU Alumni Association.

1981
John Ackley, BS '66 is area sales manager for Business Incentives, Inc., with offices in Arizona, Atlanta, and Los Angeles.

Dr. John B. Hall, MA '66, has been appointed assistant dean, School of Library and Information Science at Drexel University, Philadelphia. In 1977, Hall received the Libbey Award for "Distinguished Teaching," having joined the Drexel faculty in 1972.

Dr. Dennis Rittenmeyer, BS '66, MA '67, in January was named dean, School of Graduate, Professional and Lifelong Learning of the State University College of Arts and Science at Potsdam, N.Y. He had previously been associate vice president for special programs of Old Dominion University.

Raymond J. Rau, president and owner of Oscar Rau, Inc., a furniture store in Frankenmuth, has expanded his operation with the purchase of a large competitor and now has four stores.

Daniel A. Ries, BBA '67, Allege officer manager for First National Bank and Trust Co., of Kalamazoo, has been promoted to vice president. Ries is also vice president of the Allegan Area Chamber of Commerce, treasurer of the Allegan Economic Development Corp., and a trustee of Allegan General Hospital.

1982
Dr. Robert Boyce, WMU, has authored a booklet, "The Cross Connection," which is a perfect gift for friends who attended or are attending WMU.

1983
Gerald Page, BS '53, received an honorary degree from Albion College April 8. Fry is district superintendent for the Central District of the United Methodist Church, headquartered in Mt. Pleasant. He is responsible for 82 churches and two Wesley Foundation units.

Robert C. Miller, BS '51, will become acting principal of the Pleasantview Elementary school for six months on Jan. 1.

1969

John P. Richardson, BBA '69, has been promoted to vice president and assistant investment officer in the trust department, Manufacturers National Bank, Detroit. He lives in Birmingham.

Viola Renthin, BS '69, MA '76, was a teacher of the week in January at the Beach School in Cedar Springs.

Duane Knapp, BBA '69, has been named vice president of Western Enterprises Co., Seattle, Wash., moving from there Kansas City. He is responsible for implementation of the corporate diversification program.

Lorna Gian, BA '69, MA '77, was named "outstanding young educator" by the Marshall Jaycees and Jaycettes in February. She has taught at the Marshall Middle School since 1973.

Nancy Calkins, MA '69, has joined the staff of The Brokerage House, Jackson City. He is responsible for implementation.

W. Haydn Ambrose, MA '68, is the new religion in April held in Dubrovnik, Yugoslavia.

Robert A. Haines, BBA '75, has been promoted to assistant vice president by First National Bank of Chicago.

William Hamilton, BBA '75, has been promoted to assistant vice president by First Federal Savings of Kalamazoo, where he is marketing director and retirement accounts supervisor.

Phyllis Renel Sexton, BS '75, is now security officer at the Van Buren State Bank, Hartford. She is also personnel/marketing manager.

John P. Ginges, BS '75, is now manager of a new retirement planning services department for Capital Savings & Loan, Lansing.

Donald E. Radde, BBA '75, has been named assistant vice president of the Peoples Bank of St. Joseph.

Gary L. Billsburg, BS '70, has joined Gustafson, WOHL as its regional manager of its equipment division at Montgomery, Ala. Michael W. Koenig, BA '72, has joined as executive assistant to Mayor Coleman Young of Detroit. He has a law degree from Wayne State University.

1970

W. Haydn Ambrose, MA '70, director of church relations at Kalamazoo College, attended an international conference on religion in April held in Dubrovnik, Yugoslavia.

Michael Patterson, BS '70, is a partner in the Detroit law firm of Patterson, Philber and Phillips, 960 City National Bank Building.

Robert A. Haines, BBA '70, made the President's Club in 1981 and continues to executive for Merrill Lynch in Houston.

Ella Mae Grable Knapp, BS '58, died March 9 in Battle Creek. She had been a Branch County teacher for 44 years, retiring in 1971. She leaves three sisters.

Gary Leonard, BS '59, died Dec. 31 in Houston, Texas, where he was employed by Shell Oil Co. He had been ill with lymphoma for 10 years, and he was also the father of three children.

Alma Mae Bock, BA '61, died February 28 in Holland. She had taught for 26 years in Zeeland. She leaves her parents and two sisters.

Lula May Frielieohl Olfholt, BA '63, died April 8 in Youngstown, Ohio. She had taught for 31 years of teaching, which had been principally in Muskegon. She leaves two sons and five grandchildren.

Agatha Ambrose Petersen, MA '64, died March 26 in Kalamazoo as a result of a heart attack. She had taught at all levels in education. She leaves her husband, two sons, six grandchildren and three great-grandchildren.

Reunions

Golden anniversary for 1932 Graduates

The graduating class from what was then Western State Teachers College will reunite on the WMU campus Friday, August 20, to celebrate the 50th anniversary of their graduation.

Reunion activities will begin with a brunch from 9-10:30 a.m. in the University Student Center, where class members will be joined by University admin-

06:33-6160 for details.

Class of 1957 marks 25

The Class of 1957 will reunite in Kalamazoo the weekend of Oct. 15-16, to commemorate the 25th anniversary of their graduation from Western Michigan University.

Class members will gather Friday, Oct. 15 for a reunion dinner. On Sat-

Members of the 1932 class who have not yet received re-

A bus tour of campus will follow. The reunion banquet will be held at 3-5 p.m. (after the tour). A dance will be held Saturday night, Oct. 16, to join other alumni for the various Homecoming activities.

A reunion committee is assisting the WMU Alumni Office with planning. Class members serving include Patricia Amorosi, Philip Buist, C. Richard Crawford, Patricia Carpenter Helme, Mary King Langford, Sandi Rocel, Bob Stumpf, John Turley, Robert and Jayne [Milliman] Warner

1957 graduates will receive reunion details in August. Please be there for all the reminiscing and renewal of friendships Oct. 15-16!
Softball team finishes fifth at national finals

Paced by All-American selections Ronni Kinne and Linda "Louie" Berndt, the Bronco softball team finished in the nation's top 10 for a third straight season in 1982, posting a 36-11 record and finishing in fifth place at the NCAA Women's College World Series.

Kinne, a junior pitcher from Grand Ledge, and Berndt, a junior second baseman from Dearrow, are the first female athletes at Western to ever win first team All-America honors.

In 1981, Kinne posted a 17-3 record with a microscopic earned run average of 0.15, and at one point in the season, pitched a string of 10 consecutive innings without being scored upon. She is the school's career victory leader with 50 and has a lifetime ERA of 0.27, another new school record. Berndt led the team in hitting for a third straight season with a .353 mark and had a batting average .335 at WMU tops on that chart.

After finishing the regular season with a 30-6 record, Western's Western was extended a bid into the 16-team NCAA national tournament. Seeded fifth, the Broncos hosted the Northeast Regional and defeated Adelphi in a best of three series by respective scores of 7-0 and 3-0. Two other juniors, second sacker Kaiser was .341 and pitcher Buster Sundes was .308. Kaiser pitched a string of 69-consecutive innings without being scored upon.

High five—Members of the Bronco softball team congratulate one another after a victory in the first MAC tournament, which was conducted at Western. Here catcher Ronni Roblesky (far left) congratulates pitcher Beth Bellville on her two-hit performance in the 7-2 win over Bowling Green. Celebrating with the "high five" are Vicky Mushky and Linda Berndt. WMU finished second in the tournament.

WMU would need. The Lansing senior tied the school record for career runs batted in on that play with 54, a mark she now shares with Marty Rendine (1978-81).

Later in the tournament, Kinne dropped a pair of 1-0 games to eventual national champion UCLA and Cal-State Fullerton.

Other stars during the season were Bernville, Pa., freshman third sacker Terri Sonon, who had a .297 average, junior leftfielder Allison Cole of River- view, who batted .282, and Kalamazoo's junior Beth Bellville, who hit .252 and had a 10-3 pitching record.

Coach Fran Ebert's team had finished ninth at last year's AIAW National Championships and fourth in 1980. WMU finished second in the Mid-American Tournament.

In other spring play, Coach Merle Schlosser's team was second in the University of Central Florida Classic, won the Michigan Invitational, shared first at the MAC Invitational and was seventh at the Northern Inter-collegiate.

Men's Tennis

Coach Jack Vredvelt's men's tennis squad set a single-season win record during a 22-8 campaign and went on to place third in the Mid-American.

During the season, the squad won 12 straight matches, which included decisions over Michigan State, 5-4, Notre Dame, 6-3, and Kalamazoo College, 7-2.

Dave Sommerville (19-12) and Brian Whitehead are Vicky Mushky and Linda Berndt. WMU finished second in the tournament.

Dave Sommerville (19-12) and Brian Whitehead are Vicky Mushky and Linda Berndt. WMU finished second in the tournament.

Western was paced by sophomores Sue Weigand and Nancy Martin, who won All-MAC honors. Weigand had a 26-11 record at No. 1 singles, and Martin set a new school win record with 29-6 No. 2 singles. Together in No. 1 doubles, Weigand and Martin had a 18-7 mark. Weigand placed second in No. 1 action at the MAC this year, while Martin was third at No. 2.

Men's Track

The Bronco thincladis were third in Mid-American Conference championships and had three individual champions. Jack McIntosh won the 800 meters in meet record and NCAA qualifying time of 1:47.82, Ian Ellis had a personal best of 50-8 for the triple jump, and Carl Hamilton capped the 110-meter high hurdles crown for a second straight year, clocking 14.35.

McIntosh went on to place second in NCAA competition with a 1:48.1 time. He led all qualifiers in 1:46.58.

Women's Track

Sporting one of its most balanced teams ever, coach Debbie Hunt's women's track squad completed its 1982 season with a fourth place finish at the Mid-American Conference meet, a notch higher than its 1981 placing. Junior Melanie Decker won the 10,000-meter run with a school record time of 36:59.73 and earned All-MAC honors.

Season update...

Baseball

Coach Fred Decker's baseball squad had a 34-17 showing, was first in the Mid-American Conference West Division and set school standards for season wins and consecutive victories.

Designated hitter Paul Schneider (.341) and pitcher Buster Sundes (.63, 3.09 ERA) were All-MAC picks while shortstop Ray Thoma (.308) and hurler Jeff Kaiser (.6-0, 3.38) were second-team choices.

Thoma completed his junior year owning career records for hits (174), runs (117), RBIs (109) and total bases (265). Two other juniors, second elder Joe Gherna and first baseman Mark Gerard, claimed career marks for doubles (32) and homers (20) respectively.

Kaiser was WMU's all-time victory leader with 25, breaking a mark of 20 set by the legendary "Stubby" Overmore from 1939-41. Schneider set a mound record with six relief saves in addition to ranking No. 2 among career Batters with a .391 batting average.

Golf

Western was third in Mid-American Conference standings as John Trivison and Todd Demarest led the squad with averages of 75.8 and 76.3 and earned All-MAC honors by placing fifth and 10th respectively. Ron Buermann carried a 76.8 norm and was 17th at the league meet.

Bronco Chuckwagon—Accompanying the Bronco baseball team on various spring trips was the Bronco Chuckwagon, which is used to prepare and serve meals for team members. Those who made the project possible were: from left, Coach Fred Decker; Chuck Luhman, Win Schuler's Restaurants; George Ebby, Cook Sign Company; and Dewey Van Beek, Chili Man. The Chuckwagon may be utilized by all athletic teams.

Top scholar athletes named for 1982

Trackman Mike Bishop and swimmer Pam Whitehead have been selected as Western's outstanding senior scholar-athletes for 1982. These awards are presented at all 10 Mid-American Conference schools.

Bishop is a 3.67 (4.0 scale) academic average in geography and owns the varsity decathlon record of 7,269 points. That was his score in winning the 1981 Drake Relays championships. He also won the Central Collegiate Conference title the same year. A native of Saginaw, Michigan, Bishop was second in this 10-event program in three Mid-American Conference meets for Coach Jack Shaw's trackmen. "Mike has been a good competitor both athletically and academically," remarked Shaw. "He will be hard to replace in our lineup. Injuries have hampered him from realizing his full potential over the last two years, but if he keeps working at the decathlon, he's a prospect for the 1984 Olympics."

Whitehead is from Kentwood and has a 3.86 (3.8 scale) academic standing as an English major.

She holds women's varsity swimming standing marks in the 50-yard free (.25.2) and 100-yard (.54.9) freestyles and the 50 (.30.9) and century (1:01.58) butterflies and is a former record holder in the 200 free.

Whitehead has won 34 dual meet races and capped two third places and a fifth at the state AIAW meet as a freshman in 1979. In two Mid-American Conference championships with Coach Pete Lindsay's team, she has picked up seventh, eighth and ninth place awards.

"Pam is a very competitive person both in the pool and in the classroom," Lindsay noted. "She was our top point scorer in each of her four varsity swimming seasons."
