<https://scholarworks.wmich.edu/michigan-covid-data-state-facility/4>

This Website is brought to you for free and open access by the Michigan COVID-19 State Data at ScholarWorks at WMU. It has been accepted for inclusion in Michigan COVID-19 Long Term Care Data by an authorized administrator of ScholarWorks at WMU. For more information, please contact wmu-scholarworks@wmich.edu.

Long Term Care Data

These case counts reflect current cases of COVID-19 among facility residents reported to the Michigan Department of Health and Human Services **as of May 19, 2020**. Please note that the data will be posted daily, Monday-Friday. These totals do not include patients or staff who have recovered or passed away prior to this report. In other words, they are a snapshot, not a cumulative count.

Because the data on the website are a self-reported snapshot, they should be used with caution. It is important to note that the presence of COVID-19 at a facility is not an indicator of a facility that isn't following proper procedures. Several facilities designated as regional hubs are supporting local hospitals by accepting confirmed COVID-19 positive residents and going forward will be noted as such. On the other hand, a facility may have had significant exposure to COVID in the past that is not fully reported on the website. In addition to checking this website, residents seeking cumulative information may wish to visit county health department websites with additional cumulative information, including the websites for the [City of Detroit](#) and [Wayne County Health Department](#). While MDHHS cannot confirm the validity of the information on these sites, they may prove useful to residents seeking a fuller picture.

Online information cannot replace a thoughtful conversation with facility staff about their current infection control practices and mitigation strategies. Questions that families might ask a care facility include:

- What are you doing currently to protect residents from COVID-19?
- What precautions do you take when you do identify a person who is symptomatic of COVID-19?
- How are families kept apprised of changes related to your infection control policies?

Families should always feel free to ask questions of the facility where their loved one resides, and if not satisfied, [contact their local ombudsman](#).

Key

--	No data reported
0	Zero cases reported
