Shine little glow worm glimmer  
Your tail light shimmer  
For doc Kenoyer

Light him as he wanders  
In search of wonder  
Our doc Kenoyer

Give to him a joy supreme  
Success'er hill and stream  
To dear Kenoyer

So when in <sup>the</sup> field and swamp  
He makes him morning tramp  
You'll light Kenoyer.

So perform  
roll sit etc

interlude - green

Chorus - classify

Shine little glow worm glimmer  
Your tail light shimmer  
For doc Kenoyer

Page II

Both up.  
but

As he takes his vasculum  
To store his specimens  
Our doc Kenoyer

Neary students weighted down  
With Grey ~~and~~ Britton and Brown  
Despair Kenoyer

} Students

But with lenses clutched in fists  
These embryo botanists  
Follow Kenoyer

interlude - enter.

Chorus - press

Shine little glow worm glimmer  
Your tail light shimmer  
For doc Kenoyer

gather plants

Lead him to new plants galore  
For his brain sets such store  
The wilds to explore

México and Yucatan  
Tundra and table land  
And desert sand

Bring him to new plants to name  
And so derive his fame  
Our dear Kenoyer

Lo to knees  
in pose.

Chorus

Shine little glow worm like a foyer  
Blink little tail light for Kenoyer  
Equisetaceae, lycopodiaceae, polypodiaceae, hydrocharitaceae  
Celtis tenuifolia on the hill side  
cheno podium glaucum by the road side  
Many new plants you'll bring to light  
And fame for doc Kenoyer

Equisete

But he's not all botanist  
There's herpetologist  
In Doc Kenoyer.

Watch him as he snags a bug  
or pounces on a slug  
Our Doc Kenoyer  
The toad to a geneticist  
Is love life sans all bliss  
Says Prof. Kenoyer

Pretty glow worm let's evolve  
And have ourselves a toot  
Pleads Doc Kenoyer.

Chorus for 4th verse.

Tadpole, polyw og and anglenorm  
~~Lacks the~~ allure of his glow worm.  
Run little lightning bug to save your neck  
Here comes Kenoyer with insect net.  
Poor little glow worm with tail a shimmer  
Flee from Kenoyer whose taken a glimmer  
~~He'll have you in his insect box~~  
and Take you off to Texas.

got you in the solar plexus
