Why do the data from past days change and how often are data updated?

Doses administered are reported by the date of vaccination. Providers have 24 hours to report vaccination to MDHHS. MDHHS pulls the data each morning for cleaning and then posting to the website by 3 pm, Monday through Friday. Previously reported numbers of administered vaccine doses may change as new data are received.

Where can I get more information about COVID-19 vaccine?

For healthcare provider information about COVID-19 vaccine, visit the MDHHS website [COVID-19 Vaccine Provider Guidance & Educational Resources](#)

For frequently asked questions (FAQs) related to COVID-19 vaccine, visit the MDHHS [Frequently Asked Questions for the Public](#)

Where does the vaccination data come from?

This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

Why do the data from past days change and how often are data updated?

Doses administered are reported by the date the vaccination occurred. Previously reported numbers of administered vaccine doses may change as new data are received. Providers have 24 hours to report vaccinations to MCIR. MDHHS pulls the data each morning for cleaning and then posting to the website by 3 pm, Monday through Friday.

How is COVID vaccination coverage calculated?

Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.

MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan). There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.) County is based on the county of residence.

Is COVID vaccination administration required to be reported?

Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

⁽¹⁾Each State is responsible for their activation date

⁽²⁾The completion of clinics does not include facilities that have rescheduled their clinic date past our designated milestone dates or facilities that were recently allocated to Walgreens. There is a margin of 0%-3% applied in determination of completion status.

COVID-19 Vaccination Information for Long-Term Care Facilities will be provided by 5pm CST Mondays through Fridays.

PUBLIC USE DATASETS

COVID-19 Vaccines Shipped to Providers

README

Where does the vaccination data come from?

This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?

Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.

MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).

There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)

County is based on the county of residence.

Is COVID vaccination administration required to be reported?

Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?

These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

NOTE: Total Doses Distributed are reduced because 30,000 doses were transferred from Federal Long Term Care Program into State's Allocation.

COVID-19 VACCINE SHIPPED TO PROVIDERS 2021-02-16

Data as of	week	Provider County	Provider Local Health Department Jurisdiction	Provider Emergency Preparedness Region	Facility Type	Vaccine Type	Vaccines Shipped

PUBLIC USE DATASETS

COVID-19 Vaccine Doses Administered

README

Where does the vaccination data come from?

This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?

Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.

MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).

There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)

County is based on the county of residence.

Is COVID vaccination administration required to be reported?

Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?

These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

Contains two spreadsheets: COVID-19 Vaccine Doses Administered and Doses Administered Demographics.

COVID-19 VACCINE DOSES ADMINISTERED 2021-02-16

Data as of	Calendar_Week	Person's Residence in Preparedness Region	Person's Residence in Local Health Department Jurisdiction	Person's Residence in County	Vaccine Type	Facility Type	Dose Number	Number of Doses
2/15/2021	7	No Preparedness Region	No Local Health Department	No County	Moderna	Family Practice	First Dose	4

PUBLIC USE DATASETS

COVID-19 Vaccine Coverage

README

Where does the vaccination data come from?

This report is created by the Michigan Department of Health and Human Services Division of Immunization from data reported to the Michigan Care Improvement Registry (MCIR).

How is COVID vaccination coverage calculated?

Vaccination coverage is an estimated percentage of people within a specified geographical area or age group who have received the COVID vaccine.

MCIR data are used for the numerator (i.e., number of COVID vaccine doses reported) and US Census estimates are used for the population denominator (i.e., total number of persons living in Michigan).

There are two vaccination coverage estimates. The percentage of individuals who have received one dose and the percentage who have received two doses (separated by the recommended number of days.)

County is based on the county of residence.

Is COVID vaccination administration required to be reported?

Michigan's immunization providers are required to report COVID vaccination to the MCIR within 24 hours of administration.

How often are these data updated?

These data will be updated Monday through Saturday. Previously reported numbers of administered vaccine doses may change as new data are received. A possible lag in reporting vaccine doses will result in increases in numbers previously reported.

COVID-19 VACCINE COVERAGE 2021-02-16

Data as of	Calendar_Year	Calendar_Month	Calendar_Week	Person's Residence in Preparedness Region	Sex	Age Group	Administration Level	Number of Doses	Population	Coverage
