WMU ScholarWorks Citation

This Poster is brought to you for free and open access by the Office of Faculty Development at ScholarWorks at WMU. It has been accepted for inclusion in Academic Leadership Academy by an authorized administrator of ScholarWorks at WMU. For more information, please contact wmu-scholarworks@wmich.edu.
Improving Online Student Experience

Tara R. Gish
Assistant Director of Recruitment and Retention, Online Education, Western Michigan University

Academic Leadership Academy, 2014-15

Background

Whether it is through fully online courses, web enhanced courses, or hybrid courses, nearly all students will participate in online learning during their time with Western Michigan University. Following national trends, online enrollment has grown continuously over the past five years at WMU (see Figure 1). This growth is expected to continue as the University looks to WMU-Online Education to be a driving force for generating new enrollments and retaining existing students.

Often, services that are available to main campus students are not extended to online student. Administrators and staff must find ways to reach these students with innovative and accessible student support services that are commensurate with the services available to main campus students. Staff must also consider how web presence influences student experience, both positively and negative, and adjust web content and aesthetics accordingly.

Proposal, Objectives, and Outcomes

Proposal – Enhancing the current WMU-Online Education web presence (see Images 1 and 2) by increasing student and instructor support features and revising website content and layout.

Objectives – Three main objectives:
- Update website
- Extend support services for online students
- Strengthen instructor support services

Expected Outcomes – Improving web presence and support services will improve the academic experience of online students while helping WMU attract and retain online learners and stay relevant in an evolving educational landscape.

Online Student Profile

Characteristics of Online Students
- Motivated by career advancement
- Working full-time
- Enrolled part-time
- Twenty six years of age or older
- May have dependents other than spouse
- Non-traditional enrollment patterns

Values of Online Students
- Affordability
- Ease of transfer
- Quick progression to completion
- Informatively attractive website
- Accessible student services

Timeline

April 2015
- Meet with online education team to reexamine goals and strategies
- Create structure of web layout and features
May 2015
- Determine what services should be expanded to online students
- Discuss possible media production companies
- Meet with WMU partners to secure relationships and strategies
June 2015
- Identity WMU partners
- Discuss possible media production companies
- Meet with COP; will visit the university to discuss layout and content
July 2015
- Meet with WMU partners to secure relationships and strategies
- Determine what services will be expanded to support services
- Conclude meeting with media production companies
August 2015
- Provide student support content and strategy
- Establish instructor and student e-wages
September 2015
- Provide student support content and strategy
- Adjust initial e-wages
October – December 2015
- Begin Phase II

Process

Phase I
- Extend basic support services to online students through partnerships with various WMU student services units
- Redevelop instructor support services (e.g., workshops, training materials, Etaching Endorsement Program and training sessions).
- Update student support site and instructor support site

Phase II
- Create, distribute, and analyze student needs assessment
- Establish retention benchmarks and continuously track retention numbers
- Consider other services that could be delivered online (e.g., veteran and military services, graduate college, academic advising).

Student Services

Tutoring
- The Academic Resource Center uses peer tutors who work in small-group sessions to assist students with understanding assignments, interpreting lectures and text book readings, and studying for quizzes and exams.
- The Bronco Study Zone also offers academic coaching for students looking to improve their study habits.

College Success Seminar
- The Academic Resource Center provide sessions in which students work to develop skills that may contribute to their academic success. Topics include: coping with test anxiety, strengthening basic math skills, studying for success, etc.

Supplemental Instruction
- The Academic Resource Center uses peer leaders to provide support for academically rigorous courses. Students who have previously successfully completed the courses attend classes with students, hold review sessions, and provide guided study.

Writing Support
- The Writing Center provides support to students who are looking for strategies for effective written communication. Consultants work with students to assist with understanding the assignment, brainstorming ideas, and practicing pre-writing strategies.

Career Advising
- Career and Student Employment Services assists students with career exploration, developing professional skills, and job search skills and strategies.

Library
- University Libraries provides services to both main campus and online students. Services provided by the library include: online access to library resources, document delivery services, video streaming, and email, call, text, or live chat options for assistance.

Website Revisions

Student Support Site
- Update graphics and visual components
- Create and include videos of online student testimonials and biographies
- Include interactive sample course and online student orientation

Instructor Support Site
- Update graphics and visual components
- Create and include videos of online instructor testimonials and biographies (see Image 4)
- Include interactive FAQ-style support content
