For and about WMU faculty and staff

Summer orientation under way

Some 8,000 people, including beginning and transfer students as well as their parents, will be attending the University's summer orientation programs.

Twelve 1-1/2-day orientation sessions have been set for beginning students. They started June 7 and will conclude July 1. Additionally, 600 transfer students will take part in the 2010 transfer transition program. It features three one-day sessions, the last two of which will be held July 23 and Aug. 13.

Two commencement ceremonies set

WMU will conduct its summer commencement Saturday, June 26, in Miller Auditorium. Visit www.wmich.edu/commencement for details about the two ceremonies that have been scheduled.

The first ceremony will start at 9 a.m. and is for students in Extended University Programs and the colleges of Education and Human Development, Engineering and Applied Sciences, and Health and Human Services.

The second ceremony will start at noon and is for students in the Haworth College of Business and the colleges of Arts and Sciences, Aviation, and Fine Arts.

Financial experts coming to campus

TIAA-CREF representatives will be on campus Tuesday through Thursday, July 20-22. Private consultations with these representatives may be scheduled to discuss investment or retirement planning issues.

To schedule an appointment, visit www.tiaa-cref.org and click Consultations and Seminars under Products and Services. If you are unable to register online, call the scheduling group at (800) 732-8353.

Seven students named Frostic Fellows

Seven doctoral candidates are 2010 recipients of Gwen Frostic Doctoral Fellowships. The competitive fellowships assist with dissertation expenses, including tuition and fees. This year, fellowships ranged in amount from \$1,400 to \$4,000 and went to:

Berta Carrasco de Miguel, a Spanish student from Spain; Ravin Kodikara, a physics student from Lansing, Mich.; Lars Kohler, a chemistry student from Portage, Mich.; Minghong Liu, a chemistry student from China; Miles Rogers, a biological sciences student from Warren, Mich.; Buddhika Senarath-Dassanayake, a physics student from Sri Lanka; and Imad Zyout, an electrical and computer engineering student from Kalamazoo.

Western News going on hiatus soon

The final issue of *Western News* for the summer will be distributed on Thursday, June 24. The deadline to submit items for that issue is 5 p.m. Friday, June 18. Visit www.wmich.edu/news during the hiatus to stay up to date on University news.

Enyedi, Luderer selected for dean posts

Two veteran WMU administrators have been named to dean positions.

Alexander J. Enyedi will head the College of Arts and Sciences while Jack R. Luderer will serve as interim head of the school of medicine. Luderer also was appointed associate dean of research for the medical school and will remain in that role after the national search for its founding dean concludes.

Enyedi, College of Arts and Sciences senior associate dean and a professor of biological sciences, was chosen following a national search. His appointment, effective July 1, is pending approval by WMU's governing board.

Enyedi came to the University in 1993. He was chair of the Department of Biological Sciences from 2001 until his appointment as associate dean of the College of Arts and Sciences in 2004. He has been the college's senior associate dean since 2008.

A specialist in plant physiology and an active researcher, Enyedi has received numerous federal and corporate grants and published 40 journal articles and abstracts on his work. He received the WMU Alumni Teaching Excellence Award in 2000.

Enyedi

Luderer

Luderer came to WMU in 2000 as associate vice president for research. He has been serving for the past five years as executive director of the Biosciences Research and Commercialization Center and was named to his new posts June 1.

He is a board-certified medical specialist in internal medicine with subspecialty certification in clinical pharmacology and a longtime medical researcher.

In addition to his BRCC role, Luderer has spent the past two years working with President John M. Dunn and the Kalamazoo medical community to establish a privately funded school of medicine at WMU.

Obama visits campus to address Kalamazoo Central grads

President Barack Obama spoke June 7 before an enthusiastic, sometimes deafening capacity audience of more than 5,000 people in University Arena for Kalamazoo Central High School's 2010 graduation ceremony. Following his commencement address, Obama remained on stage to shake hands with each

of the 292 new graduates as they received their diplomas. Earlier in the week, a Marine helicopter that ferries the president did a rehearsal landing near the Student Recreation Center. (Left photo by Mike Lanka and right photo by Cheryl P. Roland)

Effort launched to increase educational opportunity

The presidents of six southwest Michigan community colleges and WMU met June 3 to launch a consortium aimed at expanding and strengthening higher education opportunities for college students throughout the region.

Members of the new consortium committed as a group to collaborate and share resources in a way that will lead to expanded college opportunities and increase the level of preparedness of the work force across the region. A formal signing ceremony held at WMU sealed the agreement that was developed during a regular series of informal meetings the presidents have held over the past two years.

The ceremony was hosted by John M. Dunn, president of WMU, and included G. Edward Haring, president of Kellogg Community College; Robert P. Harrison, president of Lake Michigan College; David M. Mathews, president of Southwestern Michigan College; Dale K. Nesbary, president of Muskegon Community College; Marilyn J. Schlack, president of Kalamazoo Valley Community College; and Gary Wheeler, president of Glen Oaks Community College, who was represented at the signing ceremony by Patricia K. Morgenstern, the college's associate dean of instruction.

Around Campus

Kendall Center slates lunch talks

For the summer 2010 installment of its Healthy Practices Brown Bag Lunch Chef Series, WMU's Kendall Center in Battle Creek is offering talks on healthy cooking and the power of vegetables. The talks will feature chef Gary Arnson, who will demonstrate how to cook low-calorie nutrient-rich recipes using fresh, in-season local produce. Attendees are invited to bring their own lunch.

The series is being offered monthly in cooperation with the Calhoun County Health Department's Nutrition Advocacy Project. Each talk will take place on a Wednesday from noon to 1 p.m. in 300 Kendall Center. The talk titles and dates are: "Grilling Fruits and Vegetables," June 16; "Vegetables and Fruit as Protein Alternatives," July 14; and "Fresh Herbs and Spices," Aug. 11.

University schedules summer camps

Whether they like to play the drums, shoot hoops, sing jazz or design their own video games, area youngsters will find plenty to engage their minds at camps taking place on campus this summer.

Registration for many is under way, and space is limited for most. Among this year's offerings are:

- Various sports camps in June, July and August for high-school-age and younger students. Visit www.wmubroncos.com and click Camps and Clinics.
- Keith Hall Summer Drum Intensive June 20-25 for various ages and levels. Visit www.keithhallmusic.com.
- Steve Zegree Vocal Jazz Camp June 27-July 2 for high school and college students, teachers, professors and the community. Visit www.wmugoldcompany.com.
- High school residential music camp and seminar July 11-24 in brass, woodwind, percussion, string, vocal/choral and keyboard for grades nine through 12 and 2010 graduates. Visit www.wmich.edu/music-camp.
- Video Game Design Institute July 12-Aug. 27 for grades eight to 12. Visit www.vantagepointedu.org.
- Engineering camp July 19-23 for grades six to eight to gain hands-on experience with product design and manufacturing. Visit www.wmich.edu/ime/summerncamp2010.html.

Retiree to head national ethics group

Barbara J. Hemphill, retiree in occupational therapy, will become chair of the American Occupational Therapy Association's Ethics Commission in July. Hemphill will serve in that role for three years.

Hemphill

In her new role, she will be responsible for enforcing AOTA's ethical standards, assuring publication and dissemination of those standards, and representing AOTA at ethics-related meetings.

Hemphill, who retired in 1999, remains widely known as a national and international conference presenter, consultant and writer.

Since retiring, she has edited the second edition of "Assessments in Occupational Therapy Mental Health: An Integrative Approach." In addition, she earned a Doctor of Ministry degree in 2004, and teaches courses in spirituality in the Kalamazoo area.

Professor editing physics publication

Charles Henderson, physics and Mallinson Institute for Science Education, is serving as the Physics Education Research editor for the *American Journal of Physics*. Henderson has been research editor since November 2008.

Henderson

Published by the American Association of Physics Teachers, the electronic-only journal is an archival publication, edited to serve teachers of advanced-level physics instruction as well as researchers in the fields of physics and physics education.

Henderson, as WMU faculty member since 2002, was on sabbatical this spring semester as a Fulbright Scholar working with the Finnish Institute for Educational Research at the University of Jyväskylä. Much of his current research is focused on the development of theories and strategies for promoting change in the teaching of science, technology, engineering and mathematics subjects.

Researcher chosen national fellow

Jessica Spybrook, education leadership, research and technology, received a 2010-11 National Academy of Education/Spencer Postdoctoral Fellowship, which includes a \$55,000 award.

Spybrook

This year, 20 fellows were selected from a competitive pool of more than 160 applications from scholars of education across the nation. The fellowships are administered by the National Academy of Education and support early-career scholars working in critical areas of education research.

Spybrook came to WMU in 2008. She is the principal investigator for a \$300,000 project funded by the U.S. Department of Education's Institute of Education Sciences that is examining the changes in methodology that occur between the design and implementation of field trials in education.

Thirty-four faculty members receive tenure

The WMU Board of Trustees approved the tenure of 34 faculty members May 26.

The tenured appointments are effective starting with fall 2010-11. The newly tenured faculty and their disciplines are:

Fritz Allhoff, philosophy; Allison L. Baer, special education and literacy studies; Kathleen M. Baker, geography; Elizabeth Bradburn, English; Maira Bundza, University Libraries; Carla Chase, occupational therapy; Jon D. Davis, mathematics; Liang Dong, electrical and computer engineering;

Autumn Edwards, communication; Anthony Ellis, English; Lin Foulk, music; Olivia G. Gabor-Peirce, foreign languages; Elena Gapova, sociology; Muralidhar K. Ghantasala, mechanical and aeronautical engineering; Caroline E. Gore, art;

Jill M. Hermann-Wilmarth, special education and literacy studies; Pamela Hoppe,

biological sciences; Cynthia Klekar, English; Marilyn S. Kritzman, communication; Todd Kuchta, English; Priscilla A. Lambert, political science;

David J. Meade, manufacturing engineering; Maureen Mickus, occupational therapy; David W. Montgomery, music; Ginger Y. Owen, art; Kenneth Prewitt, music; Eli Rubin, history;

David Schuster, physics; Scott Slawinski, English; Jacinda M. Swanson, political science; Mary-Louise Totton, art; Slobodan Urdarevik, industrial and manufacturing engineering; Maarten Vonhof, biological sciences; and Kristina Wirtz, anthropology.

Exchange

For sale—Briarwood condominium off West Main and Sage. Roomy two-story with three bedrooms, 2-1/2 baths and walk-out basement. Real deal at \$130,000. Contact beverlee.white@wmich.edu or 353-0660.

For sale—Meade DS-2130ATS telescope. Autostar computer-guided system automatically locates more than 1,400 celestial objects. Reflector with 130 mm (5.1") mirror and 1,000 mm focal length. Includes two plossel eyepieces (9.7 mm and 26 mm). Assembled and collimated but never used. In original box with everything that came with it, plus laser collimator purchased separately. Paid \$399 for telescope and \$40 for collimator. Asking \$225 for all. Contact philip.micklin@wmich.edu or 345-6541.

Jobs

Current job opportunities at WMU are announced daily on the Human Resources Web site at www.wmich.edu/hr/careers-at-wmu.html. Please note that applications must be submitted online by the stated deadline. Complete application procedures are included with each posting.

WESTERN NEWS (USPS 362-210) is published by the Office of University Relations, Walwood Hall, Western Michigan University, 1903 W. Michigan Ave., Kalamazoo, MI 49008-5433, every other week during the fall and spring semesters and Summer I session. Periodicals postage paid at Kalamazoo, MI 49008-5165.

POSTMASTER: Send address changes to *Western News*, Office of University Relations, Western Michigan University, 1903 W. Michigan Ave., Kalamazoo, MI 49008-5433.

DEADLINE: Items to be considered for publication should be submitted to the Office of University Relations by 5 p.m. Friday the week preceding publication. Summer session publication dates are **May 13 and 27** and **June 10 and 24**. Items may be submitted by mail, fax (387-8422) or e-mail (jeanne.baron@wmich.edu).

WMU is an equal opportunity/affirmative action employer consistent with applicable state and federal laws.

WESTERN MICHIGAN UNIVERSITY

Variety of construction, remodeling projects continue across campus

Work on a variety of campus projects is continuing this summer, but none of the work is expected to create significant road closures or work disruptions.

Ongoing projects of note involve both the Bernhard Center and Ellsworth.

The Bernhard Center is adding functionality to some rooms and refreshing other areas just in time for summer orientation.

Phase I of the project entailed renovating the main entrance and stairwell and was completed June 2. Phase II, remodeling of the entire first floor, will be done by mid-August.

"In the last couple of years, we've put millions of dollars into things like chilling towers and a new roof, but that's not what people see. Now we're doing the more visible stuff," says Mitchell Beare, Bernhard Center manager. "This building is used for a lot of events for prospective students and their parents. They think it reflects what's in our classrooms. We need to update the look, lighting and equipment, so it serves as a showcase facility for recruiting."

Most of the remodeling being done on the center's first floor involves updating furniture, floors and wall paint in the lobby and lounge areas; upgrading 105-7, 158-9 and the Presidents Dining Room; and renovating all of the men's and women's restrooms.

In addition, 157 will be outfitted with new audio and video equipment. The room is primarily used for meetings, and is the campus location for most meetings of the WMU Board of Trustees.

Meanwhile, half of the work scheduled for Ellsworth was completed last month when the third floor was remodeled to accommodate relocation and consolidation of Extended University Programs.

Chances are, visitors to Extended University Program's new welcome center will be greeted by Office Assistant Sondra Brooks. (Photo by Jeanne Baron)

instruction is taking place on campus, online or at regional sites," says Dawn Gaymer, EUP dean. "And we now have dedicated space for welcoming students and getting them quickly and efficiently to where they need to go."

The new E-learning Resources Lab serves as a place where students enrolled in online courses can get help with their special projects and where faculty can meet with instructional design staff members to explore technologies related to learning and how to incorporate those technologies into their curricula.

The welcome center staff receives visitors and directs students to the General University Studies advisor or to the Online Education unit's proctored testing room, which includes secure lockers for students' belongings while they are completing tests.

Only one existing EUP facility remains on the first floor—the Compressed Video Interactive Television Classroom in 1354. The proctored testing room has moved to 3202, but still may be reserved as a place for any WMU student to take a proctored test.

New e-mail service being introduced at five presentations starting next week

Five presentations introducing Webmail Plus, WMU's new collaborative e-mail service, are scheduled for June 14-23.

All sessions are open to anyone with a WMU e-mail account. The June 23 session is intended especially for retirees and emeriti and will be presented by James Gilchrist, vice provost and chief information officer. Ed Kluk, information technology, is scheduled to lead the other four presentations.

Introducing Webmail Plus will be held from: 9 to 10:30 a.m. Monday, June 14, in D109 Engineering and Applied Sciences Building; 10:30 a.m. to noon Tuesday, June 15, in Schneider's Brown Auditorium; 2 to 3:30 p.m. Wednesday, June 16, in Schneider's Brown Auditorium; 10:30 a.m. to noon Tuesday, June 22, in Schneider's Brown Auditorium; and 5 to 6:30 p.m. Wednesday, June 23, in the Fetzer Center's Putney Auditorium.

Users of the two current e-mail systems—ECS Webmail and GroupWise—do not need to do anything to prepare for the transition to Webmail Plus, which will occur in stages beginning later this month.

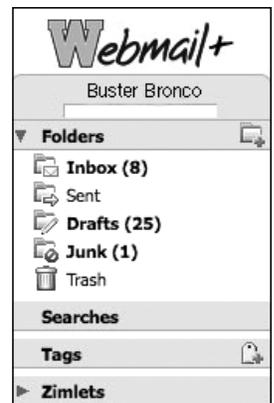

About 35,000 students, faculty and staff use ECS Webmail. They will be migrated seamlessly to Webmail Plus by the end of June. ECS Webmail users will not need to change any settings and will continue to use their Bronco NetID and password to access their e-mail.

The 2,000 GroupWise users will be migrated in batches beginning July 15. Shared calendars and other files and features will be preserved. Users will be notified by e-mail in advance of their scheduled move. A few changes in account settings will be necessary for current GroupWise users, includ-

ing a shift to Bronco NetID and password to access e-mail.

Barring unforeseen delays, all students, faculty, staff and other users of WMU e-mail will have been migrated to Webmail Plus by July 31.

That will mean everyone at WMU will be using the same e-mail system for the first time since the earliest days of e-mail communication.

Farewell reception

Ajay Samant, business, will be recognized for nearly 20 years of service to the University during a farewell reception at 2 p.m. Friday, June 11, in the Dean's Conference Room of Schneider.

Service

Editor's note: Service anniversaries for July and August will be posted this summer on the Human Resources website and printed in the first fall issue of Western News.

The following faculty and staff members are recognized for 30, 25, 20, 15, and five years of service during June.

30 Years—Barbara A. Gustafson, student financial aid and scholarships, and Barbara K. Rhodes, admissions.

25 Years—Susan R. Reed-Williams, information technology; Andrew C. Robins, WMUK Radio; and Toni Y. Woolfork-

Barnes, First-Year Experience Programs.

20 Years—David J.I. Kotecki, public safety.

15 Years—Daniel R. Brimmer, Facilities Management-maintenance services; Kristal E. Ehrhardt, special education and literacy studies; Michael Lee Glenn, information technology; John Mackenzie, information technology; and Karen M. Stokes, institutional effectiveness.

10 Years—Kerry L. Cochran, physics; Joshua Grant, information technology; Jennifer Wendling Holm, Graduate College;

May 15 to John van Engen, the Andrew V. Tackes professor of history at Notre Dame and author of other works.

The award was established to honor the late Otto Grundler, former director of the WMU Medieval Institute, which sponsors the annual congress.

Notre Dame scholar wins WMU's annual Grundler Prize

Jane M. Jacobs, Sindecuse Health Center; Sally A. Laws, accounts receivable; Dennis M. McFall, College of Aviation; Tracie N. Sams, residence life; Dawn Wesaw, GEAR-UP Learning Center; and Daoli Zheng, information technology.

Five Years—Lynda S. Blair, Human Resources; Katie M. DeBoer John, advancement and legislative affairs; James A. Hopfensperger, College of Fine Arts; and Surangi M. Pradhan, Career and Student Employment Services.

On Campus with Ruth DeYoung

MAKING WORK A CAKE WALK
(Photo by Deanne Puca)

Standing in front of trays of brownie bars, M&M cookies and cinnamon muffin tops, Ruth DeYoung admits she has a sweet job as a University baker.

Now attached to the Valley 2 dining hall, DeYoung has spent almost 35 years in WMU Dining Services. She's worked in every kitchen on campus, including the snack bar that used to be located in Walwood for East Campus students.

During her more than three decades at WMU, DeYoung says she sees the same student preferences in food year after year, although there's more variety now in food offerings.

"They still like pizza, burgers and ice cream," she says. "But the quantity of desserts has decreased."

DeYoung notes that recent trends in her industry are to provide more self-serve options as well as to prepare more fresh items in front of students. In addition, the University regularly updates its dining halls. For instance, the Valley 2 hall was remodeled in the last 10 years, improving its dessert counter and adding carpeting to keep the noise down.

Individuals also make a difference within Dining Services.

"Sometimes I tweak the recipes," DeYoung says. "After a while, if something isn't working there are things you can do that you learn along the way."

That might include changing the amount of an ingredient or adjusting a cook time or temperature. Years of experience have helped DeYoung take recipes and find ways to make them even better.

She and her husband, Steve, live in Kalamazoo and have two grown sons and a four-year-old granddaughter. A passion they have as a couple is working with sound reinforcement (managing sound systems).

"Volunteering for more than 20 years for the Kalamazoo Christian Schools and the Singing Crusaders of Kalamazoo has been such a blessing," she says. "Seeing the talents of children singing and acting is very uplifting."

While DeYoung says she doesn't do a lot of baking at home, her hobbies do include crocheting and crafts. She enjoys recycling materials into new projects, such as knitting dishrags from strings that have been used to bundle towels used in the University kitchens.

"My love is crafts. I make a new Christmas ornament every year," she says.

University introduces new wellness training series this summer

Human Resources is introducing the University's new Mind-Body-Work Connection program with a series of four training sessions from June through August.

Registrations for the first session, "Working on Wellness at WMU," are due by 2 p.m. Monday, June 21.

The Mind-Body-Work Connection program is free and open to all employees. It recognizes that if even one component of people's lives is out of balance, other components such as performance and work attendance will be affected.

Nichele Moses, HR, says the new program will not only improve WMU employees'

knowledge of wellness, but also provide tools they can incorporate into their daily lives that, if applied properly, will result in increased productivity and decreased absenteeism.

Pre-registration is required for this summer's four sessions, which are being held from 10:30 a.m. to noon in the Fetzer Center and include refreshments.

Experts in health-related fields will serve as presenters.

The first session is set for Tuesday, June 22, and takes a holistic view of health and wellness. Attendees will learn how to change behaviors, obtain personal happiness, realize

contentment, and create a better balance between their work and personal lives.

The remaining sessions in this summer's series are: "Stress: The Power to Choose," Wednesday, July 14; "Take Control of Your Health: Being a Good Health Care Consumer," Thursday, July 29; and "Get Fit the Fun Way: Personal Health and Fitness," Tuesday, Aug. 17.

Visit www.wmich.edu/hr/development/series for more details or to register. Space is limited, so early registration is encouraged.

Questions should be directed to Moses at nichele.moses@wmich.edu or 387-3650.

Effort launched to increase educational opportunity

continued from page 1

"We all agree that there is potential for enormous benefit to our students if, as a group, we are thoughtful and creative about how we leverage existing resources to meet the needs of the populations we serve," Dunn says. "This is our commitment to work closely together to ensure students have the opportunities they need to realize their goals."

Among the consortium's next steps will be a series of meetings in which specific academic programs and ventures will be examined and tailored to the needs of students. Each college will appoint a liaison to the consortium who will be charged with identifying areas of mutual interest with the greatest potential.

Examples of the type of programs that may grow out of the consortium are two pilot dual-enrollment programs serving aviation and engineering students at Kellogg Community College who plan to earn bachelor's degrees from WMU. Those programs launched in the past 18 months. Similar programs already are in stages of formation and implementation with the other community college partners.

Participating in the signing event were, from left: (standing) Morgenstern representing President Wheeler, and presidents Haring, Schlack, Nesbary, (sitting) Harrison, Dunn and Mathews. (Photo by Mike Lanka)
