WM Summer Session
Enrollment 6,591;
15 Per Cent Gain

WMU's enrollment for the 1969 summer session was 6,591, according to Clayton J. Maus, Dean of Admissions and Records, and a new summer enrollment mark at Western. The total is 861 greater than last year, an increase of 15 percent.

The total included 3,193 graduate students.

WMU First Univ. in Mich. To Perfect New System of Library Book Acquisitions

Western Michigan University is the first university in the state to perfect a system for a highly sophisticated selection policy for new books through a contractual arrangement with book dealers. The new method reduces work loads in WMU's libraries and automatically provides for new materials, according to the library's interests.

Western's advancements in this phase of library operations was a strong point in attracting some 100 acquisitions librarians and bookdealers representing colleges and universities from Arizona to Wisconsin to attend a seminar on "Approval and Gathering Plans in Large and Medium Size Academic Libraries" held at WMU last November.

Photo below shows one of the newer areas in WMU's expanded Waldo Library.

Dept. of School Services Split Into Deps. of Educational Leadership; Counseling & Guidance

Effective this July 1, WMU's former Department of School Services was split into two new departments: the Department of Educational Leadership and the Department of Counseling and Guidance.

Dr. Harold Boles, head of the former Department of School Services, now is head of Educational Leadership. A head of Counseling and Personnel will be named later.

Rapid expansion of the counseling and personnel area and the increasing emphasis on educational leadership dictated the new designations.

WMU's New Membership in Center for Research Libraries Makes 3,000,000 Volumes Available

Researchers at WMU's libraries now have at their disposal some three million relatively rare special research volumes located in 70 libraries throughout the nation. This good news to advanced students at Western comes about through WMU's new membership in the Center for Research Libraries, a corporation formed several years ago to meet the highly specialized needs of libraries.

Because individual libraries can no longer afford to buy costly research materials in all subject fields, the Center, which can and does obtain such materials, answers this requirement of the member libraries, which includes such esteemed libraries as those at Harvard, Northwestern and Wayne State University.

The Center is located on the University of Chicago campus and may be contacted via teletype by any of its members which desire to secure a research volume for a student or faculty member. Faculty of member institutions may use the Center's facilities when they are in Chicago.

All of the special research volumes held by the Center would cost WMU's libraries about $100-million to acquire. Thus research volumes with this value are available to WMU students and faculty.

Peter Spyers-Duran, director of libraries at Western, notes that access to these collections will enable WMU faculty to pursue a wide variety of research projects which, in the past, could not be conducted for lack of necessary materials.

Dept. of Librarianship To Offer M.S. Degree In Map Librarianship

WMU's Department of Librarianship has developed a course for map librarianship leading to the M.S. degree in librarianship in an effort to meet an accelerating demand by map centers for personnel trained in this discipline. The program will be developed in conjunction with WMU's Geography Department to combine a study of library science with courses in map interpretation and organization.

Dr. Jean Lowrie, head, WMU Department of Librarianship, notes that the U.S. has experienced a phenomenal growth in map collections since World War II with many libraries adding map centers. However, there are few libraries with specific skills in this field.

GOLDEN ANNIVERSARY REUNION of the Class of 1919 will be held on campus Aug. 15 including the President's Breakfast at 8:30 a.m., a bus tour of the campus at 10 a.m., and Golden Luncheon at 12:30 p.m. to be addressed by Dr. Paul Griffith, vice president for student services, and WMU archivist Wayne Mann.
WMU Ranks 2nd in Mich. for Graduates Engaged in Public School Education

A late May report from the Michigan Department of Education ranks WMU second among Michigan's institutions of higher learning in the number of its graduates engaged in public school education in the state.

Of the 91,119 professionals in Michigan's public schools in the 1967-68 school year, 11,391 were Western graduates, a number exceeded only by Wayne State University's 12,944.

However, WMU ranks first in the number of its graduates who are superintendents of schools, assistant superintendents, elementary principals, and secondary school principals. In the total number of administrative positions held by alumni, Western ranks second, again behind Wayne State.

In the number of teachers initially certified between July 1, 1967 and June 30, 1968, Western barely missed being first, with 1,991 to Michigan State's 2,014. WMU also ranked second in the number of provisional and permanent certificates granted during the same period.

Dr. James H. Griggs, dean of WMU's School of Education, said, "It is very gratifying to note Western's top position in the preparation of educational leaders in Michigan, and also to note our second position in the preparation of teachers for the public schools. In addition to the numbers produced, however, it is even more important to note that evaluation of the quality of teachers and school personnel prepared by Western indicates a high regard for our graduates in all walks of the education profession.

"For example, the great majority of graduates applying for permanent teaching certificates are rated by their superintendents as being good or superior."

Tuition Hike $30 & $50
A Semester for State, Non-State Undergrads

Effective with the fall, 1969 semester a tuition increase and the establishment of a differential between undergraduate and graduate tuition was implemented by the WMU Board of Trustees at a summer meeting.

The new schedule for full-time students is $30 higher a semester for undergraduates who are Michigan residents while it shows an increase of $50 a semester for non-Michigan residents. New tuition rates for undergraduate students are: Michigan residents—$215 a semester; non-residents—$500 a semester.

Tuition for a 7 1/2 week session (spring or summer) is half the semester rate.

Parking Lot Gates and Meters at WMU in Fall

Students returning to fall classes at WMU will find parking meters on campus and gated parking lot entrances. Pay parking will begin with the fall semester.

Under the new parking program, which includes a six level parking ramp under construction east of Ellsworth Hall, there has been an upward revision of fees for registering student cars.

Fifth Annual Junior High Conference to Be Held at WMU Nov. 7

Dr. Paul Goodman, editor of Liberation magazine and an experienced educator (on the faculties of University of Chicago, New York University, Black Mountain College, Sarah Lawrence College, University of Wisconsin and New School for Social Research) will be the keynote speaker at the Fifth Annual Junior High Conference at WMU on Nov. 7. His topic: "Comments on Skills of Compassion and Competence."

The morning program will be a micro-lab on "An Experience in Sensitivity" conducted by Arthur Howson, Director of WMU's Muskegon Resident Center, Division of Continuing Education.

Alumni Asked To Contribute to 1969 Fund Drive

The first general mailing in WMU's 1969 fund campaign with a goal of $250,000 went out to some 40,000 alumni in April under the leadership of Robert J. Bradshaw '54, fund drive chairman for the second year in a row. Assistant drive chairman this year is Russell L. Bears '50 of Grosse Pointe. The 1969 fund drive is only the 5th one in WMU's 65-year history.

Bradshaw is controller for the Ypsilanti Press daily newspaper while Bears is plant manager of the Chrysler Corp. Toledo Machining Plant.

A WMU senior from Detroit, Henry E. Budesky, Jr., this spring, was the recipient of the award as "Most Distinguished Student" enrolled in the Foundry Education Foundation program at all American colleges and universities during the 1968-69 school year. Western is one of 23 schools across the nation in the F.E.F. program.

For winning the F.E.F.'s highest national award, Budesky, who'll be graduated from WMU in December, will receive the prestigious Chester V. Nass Scholarship worth $500 in cash in addition to the nationwide acclaim from the foundry industry. He competed against six other finalists from the Massachusetts Institute of Technology, California State Polytechnic College, Illinois Institute of Technology, Purdue, Ohio State and Alabama.

Selection was based on letters of recommendation and performance in the candidate's foundry co-op program, which in Budesky's case, was at the Dearborn iron foundry of Ford Motor Co.
On the left, WMU President James W. Miller watches as Roger Pulliam, center, Director of Western's Dr. Martin Luther King, Jr. Fund, accepts a Michigan Senate resolution, lauding WMU's King Fund, from Sen. Anthony Stamm of Kalamazoo, a WMU alumnus. The award was made in early June "in recognition of the establishment and successful operation" of the fund at WMU over the last year.

The resolution notes that WMU's King Fund was established by Pres. Miller with an initial financial package of $28,000 only a few days after the tragic assassination of Dr. King in April, 1968. These funds came from friends of the University "to provide financial packages to black students having the desire and ability to continue their education but who otherwise could not hope to continue beyond high school," the resolution states.

It relates the enrolling of 76 students in the program and how they have competed well academically and have become "well involved in WMU's campus life, participating in theatrical and sports groups."

The resolution was offered by 18 state senators, including Sen. Stamm, Robert VanderLaan, Milton Zaagman, Coleman Young, Arthur Cartwright, James Gray, John Toepp, Charles Zollar, Oscar Bousma, Thomas Schweigert, Gary Byker, Gordon Rockwell, Lorraine Beebe, James Fleming, Robert Richardson, Alvin Degrow, Basil Brown and Sander Levin.

WMU BRIEFS

Dr. Fred J. Mortimore in July became director of Western's Institute of International and Area Studies, succeeding Dr. Claude S. Phillips, Jr., who has held the post since creation of the institute in 1959. Dr. Phillips will return to teaching in his position of professor of political science.

Dr. Mortimore is now an associate professor of international and area studies and teacher education at WMU.

Dr. Marvin DeBoer, assistant dean of Continuing Education at WMU last year and assistant director of the former Division of Field Services for six years before that, resigned to become vice president for academic affairs at Kansas State Teachers College, Emporia, effective May 2. Dr. DeBoer joined WMU's Speech Department faculty in 1957 after serving on the faculties of Iowa State Teachers College and Northwestern and Indiana Universities.

Dr. DeBoer was currently serving in his second term on the Kalamazoo Public Schools Board of Education.

Julian Bond, a member of the Georgia State Legislature and a leader in the civil rights and voter registration campaigns in the deep south, this spring spoke before more than 3,000 persons in WMU's Auditorium. He was founder of the Committee on Appeal for Human Rights and later served as executive secretary of that group. He also helped found the Student Nonviolent Coordinating Committee.

His WMU public appearance was sponsored by the Men's Union Board and Associated Women Students. He said the "twin evils of racism and militarism must be fought," that these are the two major problems facing President Nixon. Bond said political compromise is one way to meet these problems.

Bond said black people want to run their own communities, noting that "white capitalism has yet to solve the problem of white poverty," let alone that of black poverty.

Hundreds of persons attended an April open house at WMU's aviation technology facility at the Kalamazoo Municipal Airport. It featured displays of various types of aircraft and tours of the facility in order to acquaint the public with aviation in general and with WMU's aviation tech program and facilities.

Other features included a fly-over by U.S. Air Force jets and a talk by William L. Polhemus of Lansing, former U.S.A.F. officer and B-58 supersonic bomber crew member who was aboard the B-58 which set the existing New York to Paris, France speed record in 1961.

A unique education program, co-sponsored by WMU and the American Foundry Society Training and Research Institute in late April, drew some 30 operating foundrymen and advanced technology students to WMU's campus for five days. Classroom lectures in "Ferrous Metallurgy" and "Melting" were augmented with laboratory work procedures, shown here in WMU's Industrial and Engineering Technology Building. WMU faculty and metalcasting industry personnel did the instructing.

It marked the first time that a university, with laboratory facilities available, participated in such an AFS training institute.

This photo shows institute students about to pour a "cooling curve" specimen for determining carbon equivalent as part of a laboratory demonstration during the institute.

Western's 1968 Year Book—the Brown & Gold—has been judged "best in the state" by the Michigan Collegiate Press Association, in the category for colleges and universities with enrollments of 2,000 or more.

Editor of the 1968 Brown & Gold was Nyla Nutt '68 of Port Huron.
SPORTS REFLECTIONS

BRONCO HONORS

Nine WMU varsity athletes appear in the 1969 edition of the Outstanding College Athletes of America: Jerry Collins and Dave Hudson (football), Bill Vander Woude and Paul Vander Wie (basketball), Dave Shoemake and Ken Brather-ton (baseball), Dave Petersen (swimming), Jim Wyrick (gymnastics), and Tom Randolph (track). WMU’s four-time All-American. Criteria for selection includes an athlete’s sports achievement, leadership ability, athletic recognition and community service. Randolph, Wyrick and Vander Woude maintain B classroom averages.

TRACK

Mike Gross set a new WMU record with his discus toss of 169’11” for 3rd place in the MAC meet at Waldo Stadium in late May.

John Pietek’s 230’9” javelin throw in a winning triangular meet with Ohio and Marshall in early May was a new Bronco and Michigan collegiate mark as was Jerry Liedenberg’s winning time of 8:56.2 in the 3,000 meter steeplechase, fastest time ever in this event by a MAC runner.

Soph. Warren Converse debuted in the hammer throw event in the Kentucky Relays in April with a WMU and Michigan collegiate record toss of 165’1”.

One-half point! That was Ohio U’s winning margin (61-60 2/3) over WMU in the 44th Central Collegiate Conference championships held at Bowling Green Univ. June 8. Kansas’ strong team was third. WMU standouts were Tom Randolph (20.8 time to win the 220 yd. dash and anchor man on the winning 440 yd. relay team with Sanford Tucker, Terry Pruitt and Rick Manuszak) and Wayne Lambert’s 2nd place with a 16 ft. pole vault. The 440 relay squad’s 40.8 time was a field mark. Randolph was second in balloting for the outstanding competitor in the meet.

BASEBALL

Three Broncos were named to the 1969 MAC first team: pitcher John Pasierb, catcher Dan Benoit and outfielder Dave Shoemake. Outfielder John Schukebir made the 2nd team.

WMU pitchers held foes to two runs or less in 21 of its 40 games.

Coach Bill Chambers was selected as one of the U.S. Baseball Federation reps to the U.S. Olympic Baseball Games Committee.

WMU has lost only 27 games in 21 seasons of MAC play.

WMU’s 40 games played and 28 wins were new Bronco season marks as were the 18 one-run games (WMU won 12) this year. WMU finished 11-6 in the MAC race, 2 ½ games behind Ohio Univ. Toledo’s 2-1 win over WMU May 23 was the Rockets’ first baseball win over WMU in 15 years and was also the first loss of the season for WMU hurler John Pasierb, who finished with an 8-1 record, going nine complete games in 10 starts.

Senior Dave Shoemake led WMU hitters (.360) with his 50 base hits. John Schukebir’s 26 RBI’s led all Broncos while Tim Lock’s 144 at bats was a new WMU mark.

Harry Shaughnessy (2B), Lock (SS) and Mark Hari (1B) pulled off a nine-drive triple play at Marshall to help WMU win 6-1.

Bronco pitchers led the MAC in earned-run-average (1.77) but hitters ranked only 5th (.244).

FOOTBALL

Tackles Paul Minnis (offense) and Mike Siwek (defense) will co-captain the Broncos in 1969, as elected by teammates.

New coaching assignments this fall include Dick Raklovits as offensive backfield coach (replacing Ed Ferkany who has moved to the U.S. Naval Academy staff at Annapolis); John Miller as defensive back coach and Chuck Comer as head freshman coach.

Four stalwarts from WMU have signed pro contracts for this season: Dave Hudson with Hamilton and Larry Stump with Toronto, both Canadian league; Jerry Collins with AFL Buffalo and Gene Hamlin with NFL Atlanta.

SWIMMING

Dave Petersen and Dave Pohlonski will be next season’s co-captains. Both qualified for the NCAA championships this spring and Dave turned in one of the great iron-man performances in MAC swimming history at Kent State when he won the 500 and 1650 yd freestyles in record times, took 4th in the 200 freestyle, swam a leg on the record-setting WMU 800 yd. freestyle relay squad and a leg on the 3rd place 400 freestyle squad as WMU took 2nd in the MAC championship meet.

Co-captain John Nordberg was named WMU’s top senior scholar athlete this spring. He maintained a grade point average of 3.25 (on a 4.0 scale) in industrial engineering.

BASKETBALL

Gene Ford, 2nd all time WMU scorer and WMU’s first All-American in basketball last season, has signed with the Carolina Cougars of the pro ABA. Ford’s 25.8 points a game was good for 13th place on the major college scoring list last season.

WMU has added Tennessee Tech (Dec. 27 at home) to its schedule next season and switched a home game with Toledo from Jan. 14 to Jan. 13.

INTRAMURAL SPORTS

Director Art Jevert reports that 1,749 WMU students participated in 492 intramural basketball games last season, the largest number ever at WMU, as 120 teams competed.

ALUMNI ATHLETES

Wayne Terwilliger, former Bronco baseball great, is a coach with the Washington Senators this season. He had been managing in the minor leagues after nine years as a major league infielder.
