Dunn to kick off Keystone series

President John M. Dunn will be the first speaker for the 2007-08 Keystone Community Bank Breakfast Speaker Series. Dunn will speak on "The Western Edge" at 8 a.m. Friday, Sept. 21, in 2150 Schneider Hall. The talk will cover the University’s role in the community and Dunn’s first weeks as WMU’s leader as well as look ahead to what the coming months will bring.

The event is free and open to the public. A complimentary breakfast will be available beginning at 7:30 a.m. Reservations are required to attend and can be made by calling the Haworth College of Business at 387-5050. Free parking will be available in the Fetzer Center parking lot.

Meader memorial event planned

Edwin E. Meader, a Kalamazoo philanthropist and major WMU benefactor who died Feb. 1 at age 97, will be remembered by friends and colleagues during a service at 4 p.m. Tuesday, Sept. 25, in the Dalton Center Recital Hall.

The event will feature a candlelight ceremony to honor Meader, a private sale of surplus office furniture from WMU department and office purchases of surplus office furniture from 1 to 3 p.m. today at the Speech and Hearing Building opposite East Hall.

A public sale of the remaining items will be held immediately following the service in the lobby of the Richmond Center for Visual Arts.

Private, public furniture sales set

The University will hold a second private sale for WMU department and office purchases of surplus office furniture from 1 to 3 p.m. today at the Speech and Hearing Building opposite East Hall.

A public sale of the remaining items will be held from 9 a.m. to 1 p.m. Saturday, Sept. 29. Items available will include file cabinets, desks, tables, chairs and other miscellaneous office furniture. Prices will be marked. All sales are cash and carry and final.

Cost savings brighter with CFLs

WMU continues to be a leader in energy conservation, with inefficient incandescent lamps on the way out as the preferred way to light almost 8 million square feet of building space.

The University is converting to compact fluorescent lights, or CFLs, which will cut electrical use by almost 75 percent and last between seven to 10 times as long as incandescent lamps. WMU has approximately 13,600 incandescent lamps across campus. The process of trading out these older lamps for CFLs has been going on for a couple of years, but the University stepped up its efforts this past summer and into the fall.

Fall enrollment shows gains in significant areas

The annual fall census of enrolled students reflects a student body that is basically holding steady and a shift in enrollment patterns this year that includes a significant increase in the number of new transfer students and an increase in the student retention rate.

The total fall enrollment figure for the University is 24,433, just 1.6 percent smaller than the fall 2006 figure of 24,841. The final enrollment figure is actually higher than projections made earlier this year when WMU graduated the second largest class in its history—a graduating class with 501 more students than are in this year’s senior class.

“I’m enormously pleased to see positive new patterns emerge that reflect our faculty and staff’s work on recruitment and retention. These new trends set the stage for future growth,” President John M. Dunn says.

“Although we are still seeing the effect of pipeline issues, that’s a good ‘problem’ to have. It means we’re helping our students find success here, seeing them graduate in record numbers and watching them begin to make their own contributions to the state and its economy.”

This fall’s census shows enrollment growth in a number of categories. WMU has targeted over the past year. The increases include:

• an 8.5 percent jump in the number of undergraduate students transferring to WMU from other colleges and universities;
• a 1.2 percent increase in freshman-to-sophomore retention rates;
• a 2.5 percent increase in main-campus graduate enrollment; and
• an 8.4 percent hike in Extended University Programs enrollment, triggered by a 41 percent increase in the number of students taking online or distance education classes.

At 3,572, the number of beginning freshmen is essentially even with last year’s begin

University’s Parkview Campus getting greener than ever

The Parkview Campus now houses the region’s first wind turbine and soon will have a “green” building, continuing the attention to environmental concerns that has been a focus of the campus since its development began in 1999.

A dedication was held Friday for the modern, direct-grid-connected, electricity-producing wind turbine installed in July on the College of Engineering and Applied Science’s portion of the Parkview Campus.

The wind turbine was installed by the engineering college, WMU’s Physical Plant and contractor Bauer Power. It generates two kilowatts of power—enough for a home without air conditioning.

Scheduled upgrades for the generator call for more than doubling that output to five kilowatts during the next few years. Also, fund raising for a 10-to-15 kilowatt generator and a 100-to-200 kilowatt generator is already under way.

Meanwhile, a groundbreak-
Around Campus

Diane Rehm visit rescheduled
Diane Rehm, host of a popular National Public Radio talk show that attracts the world’s top newsmakers, will give a free public lecture at 7:30 p.m., Tuesday, Sept. 25, in the Bernhard Center’s East Ballroom. Rehm was originally scheduled to speak at WMU last spring but due to illness, her visit was postponed. Seating will be on a first-come, first-served basis. No tickets are required for the event.

Hettinger to give featured talk
Today is the deadline faculty and staff are asked to RSVP for an upcoming talk by James F. Hettinger, president and chief executive officer of Battle Creek Unlimited. Hettinger will discuss “Embracing Chaos—A New Course of Michigan’s Economy” at 7:30 p.m. Thursday, Sept. 27, in Schneider Hall’s Brown Auditorium as part of the 2007-08 Haworth College of Business Distinguished Speaker Series. A question-and-answer period and reception for Hettinger will follow the presentation. RSVP by calling 387-5050.

Sichel series begins Sept. 26
A leading economist visits campus next week to talk about globalization as the first speaker in the 44th annual Werner Sichel Lecture-Seminar Series. Kenneth Reinert, associate professor of public policy at George Mason University, will speak on “Globalization for Development?” from 3 to 4:30 p.m. Wednesday, Sept. 26, in 3108 Knauss Hall.

Doctoral student named national Randolph Peace scholar
Fodei Batty has been named the 2007-08 Jennings Randolph Peace Scholar by the U.S. Institute of Peace.

Playwright co-writes ‘first’ book
Arnold Johnston, English, and Deborah Percy have edited a series of 26 previously unpublished one-act plays in their new book, “The Art of the One-Act: An Anthology.” From 3 to 4 p.m. today in 3301 Friedmann, William LaFleur of the University of Pennsylvania will present the talk.

Anthropologist wins fellowship
Jon D. Holtzman, anthropology, is one of a select few U.S.-based scholars to receive a 2006-07 fellowship from the American Council of Learned Societies, a private nonprofit federation of 69 national scholarly organizations.

An expert on the environment, health policy and the Great Lakes region will visit campus on Wednesday, Oct. 3, to deliver the annual Canadian Studies Lecture. Joy Parr, Canada research chair at the University of Western Ontario, will speak at 3:30 p.m. in the Bernhard Center’s Brown and Gold Room. Reception will follow her presentation, which is being sponsored by WMU’s interdisciplinary Canadian studies area.

Annual Rainbow Reception set
The office of Lesbian, Bisexual, Gay and Transgender Student Services will hold its annual Rainbow Reception from 4 to 6 p.m. Tuesday, Sept. 25, in the Francis Building's KIVA Room. The event celebrates WMU’s incoming LGBT and ally students by highlighting campus and community activities, resources and services that may be of interest to them. Activities open to the general public include a resource fair.

Fall ethics presentation slated
The Center for the Study of Ethics in Society will begin its fall programs Thursday, Oct. 4, with a presentation titled “Of All Professions Begging is Best: Some Problems in the Study of Professions” at 7:30 p.m. in 208 Bernhard Center. The talk will be given by Michael Davis, senior fellow at the Center for the Study of Ethics in the Professions and a professor of philosophy at the Illinois Institute of Technology.

Great Lakes expert to lecture
An expert on the environment, health and policy in the Great Lakes region will visit campus on Wednesday, Oct. 3, to deliver the annual Canadian Studies Lecture. Joy Parr, Canada research chair at the University of Western Ontario, will speak at 3:30 p.m. in the Bernhard Center’s Brown and Gold Room. Reception will follow her presentation, which is being sponsored by WMU’s interdisciplinary Canadian studies area.

The faculty members resigning are: John W. Benson, professor emeritus of Spanish, 36-1/2 years, effective Dec. 31, 2010.
The staff members retiring are: Ann M. Allen, office coordinator in the Sindecuse Health Center, 11-1/2 years, effective July 29; Thomas H. Fickinger, skilled trades helper in physical plant-maintenance services, 14-1/2 years, effective Sept. 30; and Terry Milewski, who is studying history, and Adam M. Milewski, who is studying geosciences. Duke was awarded $2,000 for work on his dissertation “Passport from Poverty: The Political Journey of Bilingual Education, 1964-1978.”

Milewski was awarded $3,000 to continue his dissertation work on remote sensing techniques for assessment and development of renewable groundwater resources in and around the city.

The faculty members resigning are: Lynn M. Brice, associate professor of teaching, learning and educational studies, effective Aug. 12; Thomas E. Ford, associate professor of sociology, effective Aug. 7; Wendy Z. Ford, associate dean of the College of Arts and Sciences, effective July 1; Gunilla Holm, professor of teaching, learning and educational studies, effective Aug. 1; Chantel L.S. Lumpskin, assistant professor of family and consumer sciences, effective Aug. 10; Rick Maloney, dean of the College of Aviation, effective July 29; Subra Muralsiharan, professor of chemistry, effective Aug. 15; Pamela A. Rebarcak-Cowart, associate professor of University Libraries, effective May 30; Liliana Rodriguez-Campos, assistant professor of educational leadership, research and technology, effective Aug. 1; and Michael Scriven, associate director of the Evaluation Center and director of the Interdisciplinary Doctor of Philosophy in Evaluation, effective Aug. 12.

The staff members resigning are: John E. Beacon, vice provost for enrollment management, effective July 13; Katherine C. Branch, supervisor of nursing in the Sindecuse Health Center, (change in effective date) effective June 14; Diane M. Carpenter, first cook in WMU Dining Services, effective April 30; Patrick O. Daniel, director of Student Activities and Leadership Programs, effective June 29; and John R. O'Rourke, coordinator of Student Activities and Leadership Programs, effective May 18; and Valerie P. Orr, assistant director of residence life, effective July 27.

Glazer was offered $5,000 to continue her work on remote sensing techniques for assessment and development of renewable groundwater resources in and around the city.

The following faculty and staff members are recognized for 35, 30, 25, 20, 15, 10 and five years of service during September.

Frostic Fellowships awarded
This summer, the Graduate College announced the first recipients of the new GWen Frostic Doctoral Fellowships. The competitive fellowships assist doctoral students in all fields with their educational expenses, including tuition and fees, materials, and travel.

Receiving the awards were Robert H. Duke, who is studying history, and Adam M. Milewski, who is studying geosciences. Duke was awarded $2,000 for work on his dissertation “Passport from Poverty: The Political Journey of Bilingual Education, 1964-1978.” Milewski was awarded $3,000 to continue his dissertation work on remote sensing techniques for assessment and development of renewable groundwater resources in and around the city.

The following faculty and staff members are recognized for 35, 30, 25, 20, 15, 10 and five years of service during September.

35 Years—Jack H. Roach, physical plant-maintenance services.
30 Years—Patricia K. Campbell, physical plant-maintenance services; Gail Helfin-Puffer, physical plant-building, custodial and support services; William J. Merrow, Mallinson Institute; Richard M. Oshander, counseling and testing center; and Patricia F. Vander Meir, University Libraries.
20 Years—Lesley Baird, physical plant-maintenance services; Sean M. Bashaw, chemistry; John E. Campos, School of Music; Sandra L. Custer, Sindecuse Health Center; Elaine Gaudio, Office of the President; Julie M. Lenczycki, campus planning; Donna Marks, Office of the Vice President for Advancement and Legislative Affairs; Elaine L. Phillips, counseling and testing center; Nancy P. Pyne, Dining Services-Bernhard Center; and Terry G. Spencer, business and Finance.
15 Years—Jeffro Fiero, College of Aviation.
10 Years—John H. Coons, counseling and testing center; Kathleen M. Keckler, Gwen Frostic School of Art; Colleen Lewis, internal audit; Janet G. Liebendorfer, electrical and computer engineering; Sally A. Sutkowski, Bronson School of Nursing; and Debbie L. Uldrick, Honors Institute.
Five Years—Sara M. Anderson, Human Resources; Salman Anwar, public safety; Brian P. Bauer, intercollegiate athletics; Cheryl Lynn Bauman-Bruey, theatre; Christina M. Dersch, registrar’s office; Timothy S. Herrmann, intercollegiate athletics; Kathryn Lewis-Ginebaugh, University counseling and testing center; Brandon G. Meissner, University Libraries; Shannon M. Ruane, computer science; Vladimir Nikolaevich Risikalin, College of Aviation; Elizabeth C. Tevotiodal, Medieval Institute; Connie Volenski, Human Resources; and Michael Whang, University Libraries.

Obituaries
Jerry L. Bloemsma, WMU Bookstore, died suddenly Sept. 15, in the University of Michigan Medical Center. He was 63.

Bloemsma came to WMU in 1964 and spent 43 years with the University. He was employed by the WMU Barber Shop for 25 years, and served for the past 18 as postmaster of the WMU Bookstore’s substation. Visitation is 6 to 8 p.m. Friday and 10 to 11 a.m. Saturday at the Langeland Family Funeral Home, Portage Chapel, 41 E. Centre Ave. A memorial service will be held at 11 a.m. Saturday at the Portage Chapel.
On Campus  with Edison Macadangdang

Thunderstorms and small mammals are all the same—potential trouble—to power plant utility specialist Edison Macadangdang.

Macadangdang, who worked in operations and maintenance for a local company before coming to WMU in 1998, knows that at any time, lightning could strike a power line or an agile animal could cause a short. “That could go down,” he says. “Those things don’t happen every day, so you can’t prepare for them.”

But Macadangdang and his 14 AFSCME co-workers are ready for just about everything else. These skilled tradespeople are five years into a cross-training apprenticeship that teaches maintenance specialists how to operate the central power plant on Stadium Drive and operations specialists how to maintain it. In addition, although parts of the plant date back to 1928, WMU has upgraded it to a high-tech, fully automated facility since acquiring it from the Kalamazoo Psychiatric Hospital in 1994.

Most of Macadangdang’s work day involves operations-related duties, either in the control room or “on the floor.” These duties include taking hourly control readings, trekking out to the Parkview Campus power plant to make sure it’s running smoothly, testing for impurities and condensates in boiler water, checking and restocking equipment, and completing work orders as well as special projects.

“You’re not just sitting here looking at gauges,” he says. “You’re mind is always going. You’re always thinking about what’s going on and what should be happening next. It boils down to that,” he adds with a laugh.

“This is one of the best places to work,” Macadangdang continues. “We have our assignments, but we have flexibility and can use our own initiative.”

Off the job, the Comstock resident makes time for reading, traveling to visit friends, attending church, and doing yard work and household projects. “Mostly I’m a family man,” he says. “I have a lovely wife, Emma, and two girls. But I miss out on some of the everyday activities because I work Wednesday through Sunday from 3:30 to 11:30 p.m. So I spend as much time with my family as I can.”

Enrollment  continued from page 1

However, the total freshman class for fall 2007 is actually 122 students, or 2.7 percent, larger than last year’s class due to so many transfer students coming in as freshmen.

Keith Hearit, vice provost for enrollment management, says increases in retention and the number of transfer students are particularly important, and those areas will continue to be a focus for WMU, along with the recruitment of new beginners.

“We focused on maintaining or slightly increasing the overall credentials of our beginning freshman class,” Hearit notes, “and we still kept our incoming student numbers at a steady level. This is a solid and steady platform on which we can build.”

Events scheduled in celebration of Hispanic Heritage Month

Several events are taking place on campus and in the Kalamazoo community in celebration of Hispanic Heritage Month, a national observance that runs from Sept. 15 to Oct. 15 and recognizes Hispanic culture and contributions to American society.

The observance began with an exhibit of paintings and sculptures by artist Eva Narcissa Martinez that is running through Sunday, Sept. 30, in two of the display cases on the first floor of the Bernhard Center.

The main event this year will be the Kalamazoo Hispanic-American Heritage Festival from 11 a.m. to 7 p.m. Saturday, Sept. 29, at the Kalamazoo County Fairgrounds. The festival will feature Latin music, folkloric dances, food, crafts and contests as well as activities for families and kids.

WMU will wrap up the month with a presentation on “Teaching Diversity Through Music” from 12:30 to 2 p.m. Thursday, Oct. 11, in 210 Bernhard Center. Local musicians Rene Meave and Guillermo Martinez will perform and give a talk about the influence of Mexican-American music.

Program changes approved for 2008

WMU will offer a new concentration in stage management starting in fall 2008 to better prepare bachelor of arts theatre majors to enter the stage management profession or enter graduate-level training.

Also effective next fall, the bachelor’s degree in industrial design will be named the bachelor’s degree in industrial and entrepreneurial engineering. In addition, the program will have substantially new requirements and feature new course content.

Greening of Parkview  continued from page 1

GAGA FOR GOOGLE—Meticulous work done by seven Michigan students for a Google Earth contest was showcased Sept. 14 for WMU trustees. This week, it’s being showcased online at www.wmich.edu/admissions/virtual-tour. Anyone can now explore campus in new and exciting ways, such as in 3-D or guided by President John M. Dunn. The Google team members, from left, are Gus Martinka, Cari Delong, James Eichstaedt, Jonathan Rumohr, Gregory Adamczyk, Joshua Groeneveld and Neal Sheldon. (Photo by Jeanne Baron)
