COVID-19 school-related outbreak reporting will no longer be updated after 6/21/2022. Reporting of school and educational institutions experiencing COVID-19 clusters and outbreaks provided some data to characterize COVID-19 activity. However, due to variations in reporting procedures, comparisons between the regional impact of COVID-19 on school-based population was difficult to interpret.

Data regarding school-age COVID-19 cases can be found on the K-12 Aged ISD Reporting dashboard and COVID-19 outbreak numbers can be found on the Outbreak Reporting webpage. For any additional questions, please contact your school or local health department.
