Board of Trustees meetings scheduled

The first formal meeting of the WMU Board of Trustees during the 2016 calendar year will be held Thursday, Feb. 11, in Heritage Hall. The remaining 2016 meeting dates are Wednesday, March 23; Thursday, April 21; Tuesday, June 7 (daylong board retreat with formal public session at 11 a.m.), Tuesday, July 12; Monday, Sept. 12; Tuesday, Oct. 11; and Monday, Dec. 12. Most board meetings are held on campus in the Bernhard Center with formal sessions beginning at 11 a.m.

Nominate colleagues for staff award

Nominations for the spring semiannual Make a Difference award are due Sunday, Feb. 28. Make a Difference recognizes staff members for their accomplishments and daily investment of energy and creativity. It features semiannual and annual awards presented to nonfaculty employees who provide exceptional service to the University. For more information, including year-round nomination instructions and forms, visit wmich.edu/makeadifference.

Career development sessions planned

Faculty development is conducting a four-session learning community for midcareer faculty titled “Getting to Full Professor or Master Faculty Specialist.” Meetings are Fridays from 1 to 3 p.m. Feb. 5 and 26, March 18, and April 8 in 2033 University Computing Center. For more information or to register, call (269) 387-0732.

Free employee photo shoots slated

University relations has scheduled numerous free photo sessions during 2016 for employees to have their official WMU portraits taken. All sessions are from 9:30 a.m. to 4 p.m. in Walwood Hall’s Emeriti Lounge, unless otherwise noted. The next session will be held Wednesday, Feb. 10. Visit wmich.edu/universityrelations/photography for more information.

Chinese research grants available

Applications are being accepted for a research and creative activities grant to support the study of Greater China by faculty members. Friday, Feb. 12, is the deadline to apply for a grant, valued at up to $3,000 each. For details, visit the Light Center website at wmich.edu/chinesestudycenter.

New center promotes diversity

The Western Regional Area Health Education Center, located at the WMU-Grand Rapids downtown location, is partnering with providers across Southwest Michigan to play an integral role in teaching and training the next generation of health professionals. Operated through the College of Health and Human Services, it aims to promote diversity in primary health care providers, particularly in underserved communities.

Researcher garners $800,000 NSF grant

A WMU education researcher has received a $799,665 grant from the National Science Foundation to develop resources to plan studies that can better assess how well professional development initiatives for science teachers are working.

Jessica Spybrook, educational leadership, research and technology, is heading a team of researchers from WMU, the Biological Sciences Curriculum Study and Abt Associates that will mine a treasure trove of large-scale data sets, analyze them and come up with ways to inform the design of large evaluations of teacher development initiatives.

Too often, large-scale teacher development randomized trials are inconclusive. So it is unknown how well efforts to improve teaching are actually working.

A major impediment to analyzing professional development program effectiveness is designing studies that have the capacity to determine “what works.” Spybrook’s research will give guidance about how many schools need to be studied and how many teachers should be tested within those schools to answer those questions with greater confidence.

“In this particular study, the outcomes of interest are actually teacher outcomes,” Spybrook says. “So we’re interested in science teacher practice and science teacher content knowledge, because we know that by improving these things, ultimately that will lead to improved student achievement.”

In order to figure out how many schools and teachers need to be studied, researchers will examine how much teacher content knowledge of the agreements signed Jan. 19 are such initiatives as:

- Accelerated programs that will allow WMU students to complete both an undergraduate and law degree in a timeframe shorter than the traditional seven years—saving the students time and tuition dollars;
- Cross listing of courses that will allow

WMU, WMU Cooley ink new pacts; start law classes

With the first two law school classes now underway on the University’s Kalamazoo campus, WMU and WMU Cooley Law School officials met in the city Jan. 19 to sign a series of new agreements that will continue the expansion of legal education in West Michigan.

The three new pacts cover facilities use, classes offered at WMU—began Jan. 11.

The first draft of WMU’s revised strategic plan for 2016-20 has been published online. The document reflects months of discussions by a broad cross-section of the campus community as well as analysis of the Universitywide Strategic Plan Stakeholder Survey that was conducted in December.

This first draft presents priority objectives and strategies that address information gathered by the University Strategic Plan 2020 Transition Team. It serves as the first of many opportunities WMU stakeholders will have to see and react to the revisions being made as the three-year 2012-15 plan transitions to a five-year 2016-20 plan.

All students and employees are encour-aged to review the draft document, discuss it with colleagues and attend one of the many focus groups to be held by units across campus during February. The draft as well as a calendar of those planned focus group meetings will be posted at wmich.edu/strategic.

A second draft of the revised plan will be presented to the campus community in March for final review. The new 2016-20 University Strategic Plan will be presented to the WMU Board of Trustees in late March for its consideration.

To provide strategic planning input or keep up to date on activities and events, contact Jody Brylinsky at jody.brylinsky@wmich.edu or visit the strategic planning website.
Sabbatical leaves granted to 37 faculty members

Thirty-seven faculty members were granted sabbatical leaves by the WMU Board of Trustees during the governing board's Dec. 8 meeting.

- A leave for the spring 2016 semester went to James M. Murray, history (change granted sabbatical leaves by the WMU Board is consistent with applicable state and federal laws).
- A leave for the fall 2016 semester went to Lori J. Brown, aviation sciences; Dennis Metro-Roland, information systems; and C. James Hueng, economics; Jerry G. Kreune, accountancy; Renata A. Knutice, music; Thomas Knutice, music; Elena B. Lisovskaya, sociolgy; Annaignet Paul, mathematics; Thomas V. Scannell, management; Megan Slattery, dance; and Grace C. Tiffany, English.
- A leave for the 2016-17 academic year went to AlaI. Al-Fuqaha, computer science; Story Avila, economics; Peter Blickle, world languages and literatures; James Butterfield, political science; William J. Charland, art; Sally E. Hadden, history; David Hoffman, chemistry; Denise Keele, political science; Jerry J. Shelton, teaching, learning and educational studies; and Nancy Eimers, English.

It’s game on for Chinese New Year

China’s games, food and culture will take center stage during a festive, traditional Chinese New Year celebration from 6 to 8 p.m. Wednesday, Feb. 3, in the Wesley Foundation. The event, which is being hosted by the Confucius Institute, is free but registration is encouraged at wmuconfucius.org/cny2016. The date for the Chinese New Year fluctuates based on the lunar calendar, and each year is marked by one of 12 animals. In 2016, the Chinese New Year’s Day falls on Feb. 8, which marks the beginning of the Year of the Monkey.

Flint water disaster is talk topic

A member of the Virginia Tech team that helped break the story about Flint’s lead-poisoning problem will be at WMU Tuesday, Feb. 9, to talk about using science to serve the public good. Siddhartha Roy, communication director for Virginia Tech’s Flint Water Study, will speak at 7 p.m. in 1910 Sangren Hall.

Exchange industry veteran to speak

Laura Morrison, senior vice president and global head of exchange traded products at BATS Global Markets, will speak at 3:30 p.m., Wednesday, Feb. 10, in 2000 Schneider Hall. Her presentation, titled “WMU to Wall Street,” is free. RSVPs are requested at wmich.edu/business/rsvp-dss.

DEADLINE: Items to be considered for publication should be submitted to the Office of University Relations by 5 p.m. Friday the week preceding publication. Publication dates for the spring semester are Jan. 14 and 28, Feb. 11 and 25, March 17 and 31, and April 14. Items may be submitted to Joanna Baron via email, joanna.baron@wmich.edu, or mail, Campus Mail Stop 5432, phone, (269) 387-8433; or fax, (269) 387-4422.

WMU is an equal opportunity/affirmative action employer committed to affirmative action and equal opportunity. Western News is also published by Informing Science Institute. The Western News staff and editors work to ensure that items related to the CPA exam develops and sets policy for the CPA exam stays relevant to the accounting profession and that it is accessible to candidates. The board is responsible for the CPA exam, the most significant license for accountants in the United States. It develops and sets policy related to the CPA exam and works to ensure that the CPA exam stays relevant to the accounting profession and that it is accessible to candidates.

Smith also serves as the education representative on the Michigan State Board of Accountancy, a nine-member board that oversees licensure and certification requirements for certified public accountants and public accounting firms in the state of Michigan.

Prolific author pens new IT book

Andrew Targowski, business information systems, has penned a new book titled “The History, Present State and Future of Information Technology.” The book was published in December by Informing Science Press.

Targowski says the book is unique in the world’s literature, given that it covers the most important achievements of IT in about 30 countries and reflects on 300 computer, operating systems, networks, software and applications developed by some 160 IT pioneers working in some 40 pioneer firms and organizations.

Usually books on information technology focus on achievements and issues that have taken place in the political West. Targowski’s also examines developments in the political East, and for the first time, describes his own contributions in implementing advanced network-driven information systems in the 1970s in totalitarian Poland.
Grants seek to improve aviation safety

WMU has received three grants totaling $434,690 from the Federal Aviation Administration NextGen Weather Technology in the Cockpit program. Lori Brown, aviation, is principal investigator for WMU on two of the projects while Geoff Whitehurst, aviation, is WMU’s principal investigator for the third.

The grants fund three of four FAA projects that have the goal of using the latest weather technology research to improve pilot decision-making during adverse weather conditions and enhance crew awareness. All four are through a program that seeks to enhance general aviation safety, accessibility and sustainability by partnering the FAA with a national network of world-class researchers, educators and industry leaders.

For one of the WMU projects, Brown and her WMU colleagues are partnering with Purdue University to develop innovative training modules. They will construct interactive, computer-based decision trees that can be used by a broad demographic to improve decision making in unintentional transition into adverse weather conditions. Her second research project, in partnership with Texas A&M University, will look closely at weather technology in the cockpit and weather devices and functions.

Whitehurst, who also is partnering with Purdue University, is overseeing a research team that is investigating the effect of latency or delay due to data transfer rates of NEXRAD radar images on pilot information presented to pilots during bad weather. Radar images can be up to 12 minutes old. Whitehurst and his fellow researchers have developed a computer-based training aid which replicates NEXRAD radar imagery that has the delay built into it for flight simulation.

Time to review University’s snow removal policy, winter walking safety tips

Winter hours are in effect for WMU’s snow removal crews, who must push, shovel, scrape and de-ice more than 26 miles of roads and 120 acres of parking area, 39 miles of walks, hundreds of doorways, and 200,000 square feet of steps and ramps.

Flow schedules cover snow and ice removal activities 24 hours a day, seven days a week. Providing there is not a major storm, most main campus areas will be clear of snow and ice before the majority of students and employees arrive each day.

Snow and ice removal schedules can be adjusted to accommodate special mobility needs as well as weekend and other special activities. Requests should be directed to landscape services at (269) 387-8557. Calls are asked to provide as much advance notice as possible. Questions or concerns about normal business hours should be directed to public safety at (269) 387-5555.

Obituaries—wmich.edu/news/obituaries

Marvin “Geno” Milkovich died Dec. 24, 2015, at age 83. Milkovich came to WMU in 1987 and retired in 1997 as a carpet cleaner in building custodial and support services after 10 years of service.

John J. Pruis died Jan. 15 at age 92. Pruis, a former vice president for administration, speech professor and secretary to the WMU Board of Trustees, came to WMU in 1955. He left in 1968 after 13 years to become president of Ball State University.

Jim Tripp died Dec. 25, 2015, at age 62. Tripp, a painter/glazier in maintenance services, came to WMU in 2001 and at the time of his death had given 14 years of near-continuous service. Survivors include Pam McMakin, longtime companion and WMU retiree. An open house to celebrate Tripp’s life will be held from 3 to 6 p.m. Saturday, Feb. 13, in the Life Story Funeral Home, 6080 Stadium Drive in Kalamazoo.

Janice S. Weaver died Dec. 30, 2015, at age 68. Weaver came to WMU in 1988 and retired in 2010 as a utility person/cash operations in Dining Services after 21 years of service. Survivors include her husband, Don, a WMU retiree.

Robert “Herb” Williams died Jan. 16 at age 97. Williams retired in 1980 as director of the physical plant after 34 years of service.

Michael “Woody” Woodhams died Jan. 9 at age 63. He came to WMU in 1997 and retired in 2009 as an electrician in maintenance services after 12 years of service.

Spring Convocation slated

The Spring Convocation: Recognition of Discovery, Diversity and Global Engagement will take place Thursday and Friday, Feb. 4-5, in the Fetter Center.

Major events Feb. 5 include morning presentations by two faculty members who were previously honored during WMU’s annual Academic Convocation and an afternoon ceremony to honor several of this spring’s campuseswide award recipients.

John Jellies, biological sciences and the University’s 2014 Distinguished Faculty Scholar, will speak at 11 a.m. on “Heralds of Discovery: Invertebrates Advancing Neurobiology,” Luigi Andrea Berto, history and the 2015 Emerging Scholar, will speak at 11:45 a.m. on “The Image of Muslims in Medieval South Italy.”

WMU’s first Spring Convocation ceremony, set for 3:30 p.m., will honor four faculty members and three organizations.

Extended University Programs’ Innovative Teaching Award will go to the team of Mariam Tripplett and Dee Ann Sherwood, both from social work.

Diversity and Inclusion will present four awards during the convocation.

An Excellence in Diversity Award will go to the College of Aviation as well as to the team of Jeff Carr, maintenance services, and Mariam Konaté, African studies and gender and women’s studies.

The Trailblazers for Diversity Award will go to the LGST Student Advisory Council.

The Rising Star in Diversity Award will go to the Sindecuse Diversity and Inclusion Committee.

For more about Spring Convocation events, visit wmich.edu/research.
On Campus with Jenaba Duymovic Waggy

“IT’s sort of like walking into a mini U.N. all the time,” Jenaba D. Waggy says of her job in the Department of World Languages and Literatures. Waggy, an administrative assistant II who serves as the department’s office coordinator, adds that the number of differences prevalent in the people and activities of her unit make for exhilarating workdays.

“We are sitting at the nexus of the globally engaged concept of Western. There are people from so many countries and cultures to tap into,” she says. “In a single day, I can have seven or more countries represented in my office.”

Waggy primarily deals with money matters, including balancing accounts, handling payroll and making sure departmental grants are accounted for and compliant. But she also is responsible for taking care of events, supplies, personnel paperwork, and office and academic files.

“It really is having to be prepared for everything,” she notes, from: “I’m locked out of my classroom” to “We have federal guidelines of which we weren’t aware.”

Waggy came to WMU in 2010 to earn a master’s degree in medieval studies. While a student, she taught for that program, worked in Medieval Institute Publications and helped world languages and literatures found its Transference journal of poetry in translation. After graduating in 2013, she accepted her current job, which has her previous post of editorial assistant for Transference built into the list of duties.

“I love working in this department and with these people, and it’s given me the space to figure out what I do want to do as a career,” says Waggy, who is active in her United Methodist church. “I’m applying to seminary schools now. I feel that professional ministry is where I’m being called to help shape the way that we interact.”

The Kalamazoo resident does some freelance proofreading and editing, is a voracious reader, and enjoys knitting and writing as well as visiting college friends in the tri-state area. This semester at WMU, she’s participating in the Women in Higher Education Diversity Learning Community as well as taking an introductory American Sign Language class.

“Everyone should take a foreign language, if only to understand that there are differences and similarities. I’ve taken an alarming number of languages and I’m not fluent in any of them except English,” she says. “But there is no career that I can think of where it’s not helpful to be able to recognize that there’s this whole history and culture behind the way that you think and talk about things.”

WMU, WMU Cooley

WMU graduate students take law classes and law students to take graduate courses, with each earning credits toward their respective degree programs; and

• Dual courses that will be team taught by faculty at both schools.

Service anniversaries

The following faculty and staff members are recognized for 45, 40, 35, 30, 25, 20, 15, 10 and five years of service during January.

45 Years—Regina E. Buckner, University Libraries.
40 Years—Charles A. Boss, information technology.
35 Years—Judy A. Slumkoski, building custodial and support services, and Patrick L. Northrop, University Libraries.
30 Years—John William Disbro, landscape services; Pradipkumar N. Bhatt, landscape services; James M. Davis, building custodial and support services; Joyce A. Simonds, Bernhard Center Dining Service; Kathy L. Mitchell, University ombuds; Kim Cho, Haenicke Institute; Lynda L. Hunt, landscape services.
25 Years—Calvin Jones, building custodial and support services; David A. Wyman, landscape services; James M. Davis, building custodial and support services; Joyce A. Simonds, Bernhard Center Dining Service; Kathy L. Mitchell, University ombuds; Kim Cho, Haenicke Institute; Lynda L. Hunt, development and alumni relations; Mario A. Galbreath, information technology.

Martha B. Warfield, vice president for diversity and inclusion; and Rebecca J. Thiel, maintenance services.

20 Years—Johan James Marciulonis, building custodial and support services; Linda L. Poquette, associate vice president for finance’s office; Roseanna L. Dyke, College of Aviation; and Shelly L. Russell, landscape services.

15 Years—Jim H. Whittles, College of Aviation; June Dowdy, Davis Dining Service; Kevin A. Wesel, College of Fine Arts; Lynda Diane Root, educational leadership; research and technology; Sandra Lee Gernaat, public safety; and Sheri Harper, construction.

10 Years—Craig A. Warner, public safety; Debra S. Karmenast, Sindecuse Health Center; Eric J. McConnell, University Ombuds; Fawn E. Callen, information technology; Gordon M. Bolar, WMUK Radio; Kimberly Y. Causby, Miller Auditorium; and Lori A. Whitehead, development and alumni relations.

Five Years—Anders John Dahlberg, WMUK Radio; Brennan Christopher Davis, Extended University Programs; Charles Timothy Johnson, public safety; Jeannine H. Shafter, finance and commercial law; Julia Mays, vice president for research’s office; Kenneth Dale VanderRooest Jr., building custodial and support services; Marcy Lynne Peake, family and consumer sciences; Marquise Lamar Hummel, building custodial and support services; and Sonja Dotson, development and alumni relations.
