This Website is brought to you for free and open access by the Michigan COVID-19 State Data at ScholarWorks at WMU. It has been accepted for inclusion in Michigan COVID-19 Long Term Care Data by an authorized administrator of ScholarWorks at WMU. For more information, please contact wmu-scholarworks@wmich.edu.

Coronavirus

Long Term Care Data

Weekly Surveillance Data Reporting

The information below represents COVID-19 data reported directly to MDHHS by licensed and operating Skilled Nursing, Home for the Aged and Adult Foster Care facilities (licensed to serve 13 or more individuals) in Michigan from January 1, 2020 through February 21, 2023. All long-term care facilities additionally have an obligation to report COVID-positive residents and/or staff to their Local Health Department. Ensuring accurate and timely reporting by those facilities subject to MDHHS reporting requirements is a priority for the State of Michigan. The data is leveraged to guide state efforts and ensure sufficient support is provided where it is needed most, as well as to allow transparency for residents and families. MDHHS conducts ongoing data validation processes and works with the Institute for Health Policy at Michigan State University to support additional validation exercises on the data. When a facility is flagged for a validation concern, the department may work with the Regional Health Care Coalition, conduct direct outreach, and provide technical assistance to the facility. Facilities are provided the opportunity to correct entry errors identified during the validation process on an ongoing basis, therefore total case and death counts are best used to gauge the general impact of COVID-19 on this population and not to compare week over week change. All data presented is considered provisional and may change as facilities correct or add data.

The following is a graphical presentation of cumulative resident and staff COVID-19 confirmed cases and deaths, and weekly report of PPE supply availability and testing conducted*. Please view in full screen mode for optimal user experience. [A downloadable file of data for all facilities is available here.](#)

*Changes to federal reporting requirements may impact what data is collected and publicly reported by Michigan's long-term care facilities.

Note: MDHHS conducts ongoing data quality and validation exercises that may result in additional corrections in the future.

If you are interested in resident or staff vaccine information for Michigan's Skilled Nursing Facilities, please [click here](#) for CMS' list of recent resident and staff vaccination rates. Please note that this table represents data reported to CMS and is inclusive of only those facilities which are CMS certified.

Report Date:

10/28/2021 2/22/2023

Data is self-reported by the facilities. MDHHS and its partners conduct annual audits and data validation efforts to ensure data accuracy and completeness.

This information does not replace a thoughtful conversation with facility staff about their current infection control practices and mitigation strategies. Questions that families might ask a care facility include:

- What are you doing currently to protect residents from COVID-19?
- What precautions do you take when you do identify a person who tests positive or is symptomatic of COVID-19?
- How are families kept apprised of changes related to your infection control policies?

In addition, residents and family members should understand that the presence of COVID-19 at a facility alone is not an indicator that a facility is not following proper procedures. Families should always feel free to ask questions of the facility where their loved one resides, and if not satisfied, contact their local ombudsman.

PPE Availability - Skilled Nursing Facilities

Percentage and frequency of skilled nursing facilities (SNFs) reporting Personal Protective Equipment (PPE) supply stock sufficient to meet the operational needs for the next 7 days.

PPE Availability

PPE Frequency Table

Type	Reporting Facilities**	Eye Protection	Eye Protection (%)	Gloves	Gloves (%)*	Gowns	Gowns (%)*	N95 Masks	N95 Masks (%)*	Surgical Masks	Surgical Masks (%)*
SNF	427	427	100.0%	427	100.0%	427	100.0%	427	100.0%	427	100.0%

* Percentages for sufficient PPE supply to meet the operational needs for the next 7 days are calculated by dividing the number of facilities reporting PPE supply stock per category by the number of SNF Reporting Facilities.
Example: SNF Gloves (472) / SNF Reporting Facilities (477) = SNF Gloves (%) 99.0%

** Reporting Facilities include all SNF facilities that submitted COVID-19 Surveillance Data during the weekly reporting cycle.

COMPLIANCE KEY	
.	Facility has not reported on this data element. Missed submissions may result in under reporting of variables.
BASELINE WEEK	Applicable to AFC and HFA facilities only, this represents cumulative COVID surveillance data from January 1, 2020 through the first submission (registration) date via Qualtrics reporting platform.
NOT IN COMPLIANCE	Facility did not submit weekly report in required timeframe. Missed submissions may result in under reporting of variables.
NOT YET REGISTERED	Applicable to AFC and HFA facilities only, this indicates that a facility was not registered to begin regular weekly reporting in the Qualtrics platform. The earliest registration date for AFC and HFA facilities was 10/28/20.
*	Data record under review with facility.
INACTIVE	Facility is no longer subject to required reporting due to change in circumstance (e.g., temporary closure for remodeling, change in licensure, permanent closure).

Incident Data: Reflecting occurrences reported by facilities since last data submission	
New Resident COVID-19 Cases	Number of residents newly positive for COVID-19 based on a viral test result.
New Resident COVID-19 Deaths	Number of COVID-19 deaths of residents who died from COVID-19 related complications and includes resident deaths in the facility and in other locations, such as an acute facility, in which the resident with COVID-19 was transferred to receive treatment.
New Resident COVID-19 Admissions	Number of residents newly admitted or readmitted from another facility who were previously diagnosed with COVID-19 and continue to require transmission-based precautions (excluding recovered residents).
New Staff COVID-19 Cases	Number of staff newly positive for COVID-19 based on a viral test result.
New Staff COVID-19 Deaths	Number of COVID-19 deaths of staff who died from COVID-19 related complications.
Total (Cumulative) Data: Reflecting summed values reported by facilities January 1, 2020 - current reporting period	
Total Resident COVID-19 Cases	Cumulative number of residents confirmed to have COVID-19 based on viral test result.
Total Resident COVID-19 Deaths	Cumulative number of residents who died from COVID-19 related complications.
Total Resident COVID-19 Admissions	Cumulative number of residents admitted to facility who were previously diagnosed with COVID-19 requiring transmission-based precautions at time of admission.
Total Staff COVID-19 Cases	Cumulative number of staff confirmed to have COVID-19 based on viral test result.
Total Staff COVID-19 Deaths	Cumulative number of staff who died from COVID-19 related complications.
Historical Data (tab)	
Master historical listing of each facility's data submission through current reporting period. Historical data records are inclusive of data entry adjustments reported by facilities as a result of routine and annual data review and correction.	
Data is self-reported by the facilities. MDHHS and its partners conduct annual audits and data validation efforts to ensure data is complete and accurate.
