New health and human services home to be built on South Campus

A new $45 million home for WMU's College of Health and Human Services will be built on the University's South Campus property, thanks to late December approval by Gov. John Engler of a state capital outlay bill.

The bill, signed by the governor Dec. 29, begins the planning process for facilities that will bring the college, now scattered across high school locations around the campus, together under one roof for the first time in its 24-year history. The new home for the college's 1,800 students and eight departments will be located on Oaklawn Drive on the former Kalamazoo Psychiatric Hospital property that was transferred to the University just over a year ago.

The bill making that possible, House Bill 4297, also included approval for the University to proceed with planning for a $6.5 million facility at Lake Michigan Community College in Benton Harbor. When complete, that building will serve as a new home to WMU's Southwest Michigan Regional Center.

WMU President Elson S. Floyd was joined by area legislators and community leaders for a Jan. 6 news conference to announce the funding developments and the cooperative work that went into making the HHS funding part of the deal. "We believe that this project will have a significant impact not only on our Uni-

Top, Michigan House Speaker Charles Perricone took the podium during a Jan. 6 news conference in the University Medical and Health Sciences Center after President Floyd announced state support for the University's plan to build a new home for the College of Health and Human Services. Following the event, Dean Janet Piascelski of the College of Health and Human Services, above, used a map of the University's South Campus to show Pharmac & Upjohn's Donald R. Parfet the proposed location for the new facility. Collaboration between WMU and P&U is expected to be enhanced by the development. (Photos by Neil Rankin)

### Former Gateway Inc. chief to speak Jan. 27

Michigan's high-tech future will be the topic of a discussion Thursday, Jan. 27, when the former head of Gateway Inc. speaks on campus.

Richard D. Snyder, founder and president of Avalon Investments Inc. of Ann Arbor, will talk about "Michigan and the Technological Revolution" as part of the Haworth College of Business Distinguished Speakers Series. His talk will begin at 7:30 p.m. in the Brown Auditorium of Schneider Hall.

Snyder began his career with the accounting firm of Coopers and Lybrand, rising to the position of partner in charge of merger and acquisitions in that firm's Chicago office.

In 1991, he joined Gateway as executive vice president and later was named president and chief operating officer. By the time he left Gateway in 1997 to start his own venture capital company, the firm had grown from a U.S. company with 700 employees and $500 million in sales to an international company with 11,000 employees and more than $6 billion in annual sales.

Snyder, whose current firm specializes in technology-oriented ventures, still serves on Gateway's board as well as the board of the University's $7 million of its South Campus Development Corp. Business and community leaders from Southwest Michigan, as well as WMU faculty, staff and students, will attend the event. Those wishing to attend should reserve a spot by calling 7-5068.

### Hillenbrand named Distinguished Faculty Scholar

A scientist whose career has focused on unlocking the secrets of human speech and how it is heard will receive the University's highest faculty honor next month.

James M. Hillenbrand, speech pathology and audiology, has been named the University's 1999 Distinguished Faculty Scholar. He will receive the award at 3 p.m. Tuesday, Feb. 8, at the Dalton Center Recital Hall during the University's annual Academic Convocation.

The Distinguished Faculty Scholar Award, established in 1978, is made for those whose work constitutes a significant body of achievement, most of which has been accomplished while a faculty member at WMU. Nominations are sought campus-wide for recipients, who must have a wide body of recognition beyond the University. The award includes a plaque and $2,000 in honorarium.

As an award recipient, Hillenbrand also will have $2,000 added to his base salary. A faculty member since 1988, Hillenbrand enjoys an international reputation for his research on acoustics and speech perception in communication. His research examines how human speech is created and how the human ear and brain convert that sound into meaning. He has been the recipient of more than $4 million in federal funding for his research, with $3 million of that funding coming during his tenure at WMU.

He is the author of 34 peer-reviewed research articles and has provided editorial service for some 13 scientific journals. Currently, he serves as associate editor for the Journal of the Acoustical Society of America. He also has made more than 47 juried research presentations at professional conferences and has accepted four multi-year assignments to federal grant panels.

Hillenbrand, a researcher whose work has served as the foundation for developments in the areas of speech perception, voice and speech synthesis, was noted by professional colleagues, both inside and outside the University, who wrote in support of his nomination for the award.

"His work is very often cited to the foundation of and motivation for research of his colleagues," noted a WMU colleague. "He arrived (here) with a very strong record of scholarly performance and has since continued to develop wide academic claim and national and international respect for his work."

Hillenbrand's research in recent years has set the standards in his profession and charted new territory, noted many of his other colleagues.

"He is the author of 34 peer-reviewed research articles and has provided editorial service for some 13 scientific journals. Currently, he serves as associate editor for the Journal of the Acoustical Society of America. He also has made more than 47 juried research presentations at professional conferences and has accepted four multi-year assignments to federal grant panels."

"Some of his papers seem to have achieved the status of classics already, judging from the frequency with which other scholars cite them."

"His work is very often cited to the foundation of and motivation for research of his colleagues," noted a WMU colleague. "He arrived (here) with a very strong record of scholarly performance and has since continued to develop wide academic claim and national and international respect for his work."

Hillenbrand's research in recent years has set the standards in his profession and charted new territory, noted many of his supporters.

"As a scientist in this field, I have observed served first-hand the excitement produced by the research stemming from his laboratory and believe that Dr. Hillenbrand is one of the most distinguished scholars of his generation," said a researcher at another university. That colleague noted that one of Hillenbrand's papers "has become the new standard against which everything is compared.

"Some of his papers seem to have achieved the status of classics already, judging from the frequency with which other scholars cite them."

Study tour of Turkey and companion seminar series on campus to focus on Turkish culture, traditions

History, culture and learning will interweave in a far-off land during a two-week trip to Turkey May 6-16. The campus study tour and companion seminar series are sponsored by Turkey's Ambassador to the United States Dr. Adnan Karabey at WMU's Office of International Affairs. The tour and seminar series are part of the Turkish Studies Program lecture series and will be offered through the winter semester's American Studies Program lecture series.

Each of the three Saturdays leading up to the trip will feature seminars on different aspects of Turkey and will address the ancient to the modern. In particular, the two-week trip to Turkey offers a unique learning experience, says Marlene Breyer, family and consumer sciences and tourism coordinator. "We really want people to learn about the country," says Breyer, who specializes in textile and apparel studies. "It's not just a tour like other tours, where you just go around and see one sight and then go on to another. This will give people a totally different perspective.

The tour, sponsored by the College of Education, Department of Family and Consumer Sciences and Office of International Studies to focus on different perspectives and variety of views about American culture.

It's often said that America means different things to different people. A chance to hear and discuss some of those perspectives will be offered through the winter semester's American Studies Program lecture series.

"Turkish traditions and customs from the ancient to the modern," says Margie Geasler, family and consumer sciences and tourism coordinator of the tour. "In addition to focusing on food and housing for families, jobs for living and the living environment, I think people often go to Turkey and see the architecture and history. That also will be included on this tour, but in particular how they impact people.

Tour highlights include a visit to Ankara while cruising the Bosphorus; a visit to the famous Blue Mosque named for its intricate blue tile decoration; a tour of the Old city walls and a Byzantine mosaic exhibit in the Chora Museum; and visits to museums and historical sites.

Other topics and speakers slated for the weekend are the dates and the titles of these presentations are:

- "Homelessness within Prosperity: Popular Imaginings, Everyday Facts and Social Policy in Massachusetts," which investigates regional class inequalities are manifested and produced. Vincent Lyon-Callo, anthropology, 3:30-5 p.m., Friday, Feb. 11.
- "The American Contributions to American Culture," which questions the dichotomy between "American" and "Native American" identities. Jose Brandao, history, 3:30-5 p.m., Saturday, Feb. 25.
- "The Role of History in American Culture," which assesses this important historian's impact on the development of public intellectual and social issues. Irma Lopez, history, 1:45 p.m.; "The Role of History in American Culture," which questions the impact of regional class inequalities. Vincent Lyon-Callo, anthropology, 3:30-5 p.m., Friday, Feb. 11.

The tour departs from Kalamazoo on March 10.

For more information, call Breu at 7-3434 or Geasler at 7-3715.

Trustees approve 11 staff retirements

The retirements of 11 staff members were approved by the University Board of Trustees at its Dec. 11 meeting.

The staff members retiring are: George H. Yorgo Demetrapoulos, assistant to the dean of the College of Arts and Sciences, 34 years, effective Jan. 1, 2000; Richard A. Hamelink, secretary in the Office of University Relations, 20 years, effective Jan. 1, 2000; and Raymond C. Soule, assistant in the Provost's office, 30 years, effective Dec. 31, 1999.

Provost candidates will visit campus in February

The committee conducting the search for a new provost and vice president for academic affairs expects as many as five candidates to visit the campus during the weeks of Feb. 7 and 14.

Public presentations have been set for 4 p.m. Feb. 7, 14, 16 and 17. More detailed information about the candidates will be available in the coming weeks.

Trustees approve 11 staff retirements

The retirements of 11 staff members were approved by the University Board of Trustees at its Dec. 11 meeting.

The staff members retiring are: George H. Yorgo Demetrapoulos, assistant to the dean of the College of Arts and Sciences, 34 years, effective Jan. 1, 2000; Richard A. Hamelink, secretary in the Office of University Relations, 20 years, effective Jan. 1, 2000; and Raymond C. Soule, assistant in the Provost's office, 30 years, effective Dec. 31, 1999.

Two-month gift total hits $1.9 million

Gifts to the WMU Foundation for September and October totaled $1.9 million, including $625,000 for a memorial scholarship in the College of Engineering and Applied Sciences.

The two-month figure brings to $3.8 million the amount given to the WMU Foundation since the start of the current fiscal year July 1. The gift total for September was $816,000, and for October the sum was $1.1 million.

Placed in the foundation in September and October included $1 million from the Borgess Health Alliance. The pledge is part of $14 million in local community support for the relocation of WMU's College of Engineering and Applied Sciences. The scholarship, in honor of their late son, is called the Kenneth W. Brigham Memorial Scholarship.

In other gifts, H. Nicholas Hannen of Kalamazoo, emeritus in history, has established a permanent endowment for the Department of History with a gift of $100,000. The fund is intended to bring to WMU outstanding historians to speak.

Another retired WMU faculty member, Phyllis Rappaport of Kalamazoo, also has made a gift to the University. Rappaport, an accomplished concert pianist, has given WMU $30,662 to establish a scholarship in piano performance, an often overlooked discipline that requires great skill.
Five on faculty to retire with emeritus status

The retirements of five faculty members were approved by WMU trustees at their Dec. 11 meeting. They also accepted the resignations of three faculty members. The faculty members retiring so with emeritus status. Their names, years of continuous service and effective dates of retirement are: James M. Ferreira, history, 29 years, effective April 16, 2000; Michael E. McCarville, chemistry, 31-1/2 years, effective Dec. 31, 2000; Edward D. Pawlak, social work, 22 years, effective April 30, 2000; Joan W. Petro, petrochemical and support services, 30-1/2 years, effective July 31, 2000. The faculty members who have resigned are: Sanjeev Baskiayar, electrical and computer engineering, effective Sept. 4; Garrison W. Greenwood, electrical and computer engineering, effective Dec. 11; and Karen Neuman, social work, effective Dec. 12.

Human resources

Job profile information due tomorrow

Earlier this month, all clerical, technical, professional and administrative staff members received Job Profile Questionnaires, which are due back in Human Resources on Jan. 21. Information from the Job Profiles is an essential part of Compensation 2000, a project that will bring new compensation and performance management systems to the University. Your completed Job Profile will be sent to your appropriate Compensation 2000 consultants, and be used to:

- Design new job groupings.
- Complete the WI compensation to the comparison of similar jobs in relevant markets.

Jobs

The following list of vacancies is currently being posted through the Job Opportunities section by employment services in the Department of Human Resources. Interested benefits-eligible employees should submit a job opportunity transfer application during the posting period, and may contact an employment services representative for assistance in securing these positions.

- S-01 and S-02 clerical positions are not required.
- One position is open to persons interested in faculty positions, there are openings in selected fields. A letter of application should be submitted to the appropriate dean or chairperson.
- (N) Associate Dean, College of Aviation, 9980-1103, 11/18/12-4/2000
- (R) Secretary II, S.05, Geosciences, 9980-1132, 11/18/12-4/2000
- (R) Library Assistant 3, 175 FTE, 30 Hours Per Week, S.05, Waldo Library, 9980-1133, 11/18/12-4/2000
- (N) New
- (R) Replacement
- WMU is an EOAA employer

Obituaries

Eleanor N. Douglas, emerita in health, physical education and recreation, died Dec. 3 in Belmont, Mass. She was 78.

Douglas was a WMU faculty member for 31 years. She joined the faculty in 1948 after teaching at preparatory schools in Rhode Island and Massachusetts, as well as at Pine Manor Junior College in Wellesley, Mass. After her retirement in 1979, she returned to Massachusetts. Douglas was a graduate of Boston University and earned a master’s degree from WMU.

Hazel E. Saye, a longtime University libraries faculty member, died Nov. 2 in Kalamaizou. She was 93.

Saye served as circulation librarian from 1930 until she retired in 1965 with emerita status. Prior to coming to WMU, she was an elementary school teacher in Jackson and Wyandotte.

She earned a bachelor’s degree from WMU in 1934 and a library science degree from the University of Michigan in 1939. A close associate of Anna L. French, WMU head librarian, Saye spoke at the dedication of French Hall in 1960 and at that building’s rededication in 1990.

Word was recently received that William A. Schreiber, emeritus in engineering technology, died Sept. 27 in Westport, Conn. He was 94.

Schreiber retired in 1971 after 18 years of service as a WMU faculty member. He first came to the University in 1953 after working as an engineer in private industry and as an instructor at the New York State Veterans’ Vocational School.

He was a 1929 graduate of Cooper Union College of Engineering and earned a master’s degree in 1957 from WMU.

On campus

A Career with Several Tours—Donna St. John graduated from high school wanting to be a state police officer and considered majoring in criminal justice in college. But it was her experience as a residence hall student assistant in college that most shaped her career and led her to her first job at WMU in 1983 as a residence hall director in Ackley-Shilling. Her career took a detour, however, when her husband, Randy, became a physical therapist in 1987 and the couple moved to Lima, Ohio, where Randy had a job. Donna took a job there as coordinator of teen-amenity prevention program for the county and gained a new appreciation for the provided education in the schools and community. It had become clear to St. John that she enjoyed helping others, and when the chance came, the couple, with their two children, Jeremy, 18, and Jessica, now 12, moved back to Kalamazoo in 1991. St. John returned to WMU as a training and development specialist in the Office of Admissions and Orientation and then became coordinator of orientation, a role she held until August 1998, when she was promoted to associate director of admissions. Now she guides a staff of 13 admissions officers, helps to develop recruiting strategies and coordinates several publications, including the viewbook. “It’s the constant change, the strategizing, the problem solving," she admits. "But she derives the most satisfaction from supporting her staff.” “I enjoy enabling staff members to use their skills to enhance their performance,” she says. “I always had mentors who were there for me in a college setting, providing encouragement and direction. Now I have the chance to provide the same kind of support to others.” (Photo by Neil Rankin)

Orientation leaders sought for summer positions

Staff and faculty are asked to lend a hand to the Office of Admissions and Orientation by identifying students who would be good orientation leaders. A total of 34 students with strong leadership skills are needed for the summer for orientation program to help new freshmen and transfer students make the transition to WMU.

Faculty and staff members are asked to participate in facilitating small groups of new students and parents, explaining academic opportunities and curriculums, and assisting in the development of class schedules and the registration process. Qualifications for the positions include excellent communication skills, a 2.3 minimum grade point average and good organizational ability. The Orientation student leaders receive a $2,800 summer salary and additional compensation.

In addition to identifying students, faculty and staff are asked to post signs and make announcements in classes regarding the positions. Information about the positions was recently distributed on campus.

The Office of Admissions and Orientation is seeking interested students to contact the orientation office by visiting 2120-N September Administration Building or by calling 7-2167.

Zest for Life

The Zest for Life program would like to take the opportunity provided by the new millennium to encourage healthy living.

The program for benefits-eligible employees specifically targets physical fitness. The program offers a diverse range of exercise selections.

Fitness options include access to West Hills Athletic Club as well as a variety of aerobic classes, yoga activities and Gabel Natatorium lap swimming. Employees should refer to the blue winter semester schedule for program elements and activity times.

To receive an application or a schedule of West Hills Athletic Club orientation or obtain further information, please call the Zest for Life office at 7-3543.

Sprick to be lauded at Jan. 27 reception

Members of the University community are invited to attend a retirement reception for Robert W. Sprick from 3 to 6 p.m. Thursday, Jan. 27, in the ballroom at the Fetzer Center. Sprick, who has served WMU in a variety of positions for 34 years, will retire from his position as director of housing operations for Residence Life in early March.

20 years—Barbara S. Liggett, School of Public Affairs and Administration; Darla J. Munion, physical plant-building custodial and support services; Michael D. Horn, University relations; Miguel A. Ramirez, minority affairs; Mary E. Ramlow, the Evaluation Center; Marilyn K. Rowe, College of Arts and Sciences; and Dawn M. Southworth, student financial aid and scholarship.

15 years—Sharon L. Carlson, archives and regional history collection; Polly R. Graham, Office of the Vice President for Student Affairs; Timothy Mader, physical plant-building custodial and support services; Karen H. Moses, paper and printing science and engineering; and Fern Stewart, physical plant-building custodial and support services.

10 years—Ila B. Baker, Career English Language Center; Amy M. Birch, physical plant-building custodial and support services; Marc P. Fawley, Bernhard Center; Jodie A. Lewis, physical plant-building maintenance services; Linda J. Lamley, Women’s Resources and Services; Suzanne M. Moriant, computer science; Bradley F. Morgan, instructional technology services; Gayle V. VanSnedden, physical plant-building custodial and support services; and Renee Smith, physical plant-building custodial and support services.

5 years—Bonnie K. Bell, physical plant-building custodial and support services; Patricia I. Hale, Office of the Dean of Students; Katherine Ill, University recreation; Thomas F. Penar, physical plant-building maintenance services; Connie Slater, physical plant-building custodial and support services; Mary B. Avalos, University counseling and testing center.

Third Coast manuscripts due March 10

Aspiring authors seeking to hone their skills with some of America's most prominent writers can submit work to the Third Coast Writers' Conference. Thursday through Sunday, May 11 through 13, at WMU.

On hand to conduct workshops with conference participants and give public readings of their work will be poets C.D. Wright, Richard Lyons, William Olsen, Nancy Eimers and Martin Walls and fiction writers Nikki Giovanni, Carol Anderson, Daniel Mueller and Bonnie Jo Campbell.

In addition, nonfiction workshops and readings will feature Ruthven, Harold King and Michael Steinberg.

Conference participants will be selected on the basis of盲文 out, which must be received by March 10. To be considered for selection, writers should submit three to five poems or less than 2,500 words of fiction. Participants will be notified of their selection in late March.

The conference registration fee is $175 and due April 11. Housing will be available on the WMU campus for less than $20 per night.

The Third Coast Writers' Conference, now in its 13th year, is sponsored by the Department of English. It is designed as a celebration of literature in which featured writers share their work and insights into the writing process. Those attending are able to enhance and expand their skills by participating in workshops, panel discussions and question/answer sessions with acclaimed writers.

For more information, call 7-2750, e-mail mchele@wmich.edu; or visit the Web site at <www.wmich.edu/thirdcoast/conference.html>.

Sabbaticals granted to 26 by trustees

A total of 26 WMU faculty members were granted sabbatical leaves Dec. 11 by the Board of Trustees. In addition, trustees granted a professional development leave for Paul E. Szarmach, Medieval Institute, effective Aug. 7, 2000, through Dec. 10, 2000.

Granted sabbatical leaves for the entire 2000-2001 academic year were: Lisa E. Bucy, sociology; John B. Dilworth, philosophy, for winter; John J. Hail, geosciences; Jan L. Bedrosian, speech, pathology and audiology; Christine A. Browning, mathematics and statistics; Susan M. Carlson, sociology; Sung C. Chung, physics; Trudy Cobb, dance; James R. Daniels, theater; Katherine Joslin, English; John A. Kapenga, computer science; Hanjoon Lee, marketing; Bruce Nafte, art; Paul V. Panchella, physics; Gwendolyn Rose, music; Ajay A. Samant, finance and commerce; Robert A. Werktin, social work; and Stephen L. Zegree, music.

Sabbatical leaves for these faculty members also were approved: Gary E. Bigelow, foreign languages and literatures, for winter 2001; Jody A. Blyinsky, health, physical education and recreation, for fall 2000; Elna M. Curtin, geography, for fall 2000; John B. Davison, philosophy, for winter 2001; Arthur E. Fulk, philosophy, for fall 2000 and fall 2001; Gerald E. Markle, sociology, for winter 2001; Robert I. Moss, health, physical education and recreation, for fall 2000; Christopher J. Schmidt, geosciences, for winter 2001; and Benjamin C. Wilson, black Americanica studies, for fall 2000.

Faculty scholar (Continued from page one)

...are a presence in the field. He has made your campus a home, "an institution, with his time and service to the profession.

"Grant reviewing, editing and committee service are demanding activities," noted a supporter. "Not everyone is willing to accept these 'honors' when they are offered."

Hillenbrand also was lauded for his generosity with his time and service to the profession.

"Grant reviewing, editing and committee service are demanding activities," noted a supporter. "Not everyone is willing to accept these 'honors' when they are offered."

Hillenbrand earned a bachelor's degree in 1974 and a master's degree in 1975, both in speech and hearing science, from Michigan State University. He earned a doctoral degree, also in speech and hearing science, from the University of Washington in 1980.

Prior to coming to WMU, he served as director of research for the Intelligent Systems Division of RT Research Corp. in Rochester, N.Y. He has held a concurrent appointment in the Graduate Computer Science Department at the Rochester Institute of Technology. He also taught for five years at Northwestern University, where he earned that school's 1983 Teaching Excellence Award.

As part of his award, Hillenbrand has been invited to give a presentation at the University of Michigan at a Distinguished Faculty Scholar Colloquium. The date, time and location of that event will be announced later.

Home for HHS (Continued from page one)

...noting, that his firm has had "a very long and substantive relationship" with the University and already was doing collaborative research in the fields of chemistry and biological sciences. He predicted expanded collaborative work with the College of Health and Human Services and raised the prospect of being able to tap into the state's recently announced life sciences initiative that is being funded with tobacco settlement money.

"We've heard about the exciting developments with the Michigan life sciences corridor initiative," Parfet said. "I just think that we're going to see a very wide life sciences corridor running right through Kalamazoo County. We at Pharmacare & Upjohn look forward to engaging ourselves in that system-a point system-proposed by Sen. Floyd and other partners that want to engage in that collaborative work."

"It's another prong of the community partnerships that made the funding possible and said the University's success on the project heralded a new era in the Michigan legislation in which funding decisions will reflect the merit of the proposal and the accomplishments of the institution asking for funding."

"Now we have put in place a rating system-a point system—proposed by Sen. Harry Gast and Rep. Jon Jellemka, our vice chair of appropriations in the House, that would base the applications for funding on merit," Perricone said. "It was a point system. We came in second and third respectively on the list for the Lake Michigan College project and for this project and the governor honored that."

Floyd thanked Perricone, Gast, Jellemka and the community partners who helped make the funding request a success.

"We put out a call to help the University secure this new campus for health and human services," Floyd said. "We believe, fundamentally, that we play a major, major role in this region, in this community and in this state. The only way that we can do it as an institution is with your support, and this coup represents the support that we have and we thank you very much."

Calendar

The master calendar maintained by the Office of University Relations for use in Western News is available through WMU's home page on the World Wide Web. Select WMU News and then look for Calendar of Events. You can also link directly to the calendar at <www.wmich.edu/news/events>.

Thursday, Jan. 20

Exhibition (through Jan. 25), faculty paintings and drawings by Vince Torano, and Charles Stroh, art, Gallery BI, Sangren Hall, weekdays 10 a.m.-5 p.m.; reception, Thursday, Jan. 20, 4-6 p.m.

Friday, Jan. 21

*Kalamazoo Symphony, "America the Beautiful," Miller Auditorium, 8 p.m. Presale discount tickets end Friday.

*Film showing (through Jan. 23), Julia Medem's "Lovers of the Arctic Circle," Campus Cinema, Oakland Recital Hall: Friday and Saturday, 7 and 9:30 p.m.; Sunday, 2:30 and 4:10 p.m.

Saturday, Jan. 22

*Women's basketball vs. Kent, University Arena, 2 p.m.

*Concert, Western Jazz Quartet with Billy Hart, "Sabin's Dance," CD release party, Dalton Center, 7 p.m.

*Ballet de l'Opera de Bordeaux: Romeo and Juliet, Miller Auditorium, 8 p.m.

Sunday, Jan. 23

Dalton Series, School of Music: "Voice Faculty Showcase," Dalton Recital Hall, 3:30 p.m.

Monday, Jan. 24

Exhibition (through Jan. 28), "Penetration," Mixed-Media Group Show, Rotunda and South Galleries, East Hall, daily, 10 a.m.-5 p.m.; reception, Friday, Jan. 28, 5 to 7 p.m.

Wednesday, Jan. 26

American Studies Program winter lecture, "American Art and Culture, circa 1900," Dr. John Wilmerding, professor of American art at Princeton University, Hectors College Lounge, 11-13:30 a.m.

Thursdays, Jan. 27

Retirement reception for Robert W. Sprick, residence life, Fetzer Center ballroom, 3-6 p.m.

*Film showing (through Jan. 28), "Hockey vs. Michigan State, Lawson Ice Arena, 7 p.m.

Saturday, Jan. 29

*Women's basketball vs. Northern Illinois, University Arena, 12:30 p.m.

*Men's basketball vs Miami, University Arena, 2:30 p.m.

*Hockey vs. Michigan State, Lawson Ice Arena, 7 p.m.

Sunday, Jan. 30

Gymnastics vs Bowling Green and Kent, University Arena, 2 p.m.

Monday, Jan. 31

Exhibition (through Feb. 4), Art Education Student Group Show, Rotunda and South Galleries, East Hall, weekdays, 10 a.m.-5 p.m. (reception, Friday, Feb. 4, 5 to 7 p.m.)

*Exhibition (through Feb. 11), Interior Design Senior Show, Katrina Liechty, Meghan, Piereza College Project, Thomas Hall Gallery, weekdays, 9:30 a.m.-5 p.m.

*Exhibition (through Feb. 17), Digital Imaging, Department of Art showcases, Sangren Hall

Wednesday, Feb. 2

*Men's basketball vs Eastern Michigan, University Arena, 7 p.m.

*Women's basketball vs. Eastern Michigan, University Arena, 7 p.m.

*University theatre production (through Feb. 12), "Antigone," Multi-Media Room, Gilmore Theatre Complex; Feb. 3-5 and Feb 10-12, 8 p.m.; Feb. 6, 2 p.m.

*Admission charged
