## WMU is one of the least regional institutions in the state, Haenicke tells Faculty Senate

WMU "is one of the least regional institutions in the state," President Haenicke told the Faculty Senate Nov. 3 as he discussed the University's statewide enrollment patterns.

"Some larger institutions, such as Wayne State University, for example, are much more regional than we are," he said, pointing out that nearly 40 percent of the University's enrollment comes from Southeast Michigan and that students come to WMU from nearly all of the state's 83 counties.

"We draw our students from neighboring states as well," he continued. "In our freshman class alone, we have students from 20 other states and 24 other countries. We are beginning to draw, even on the freshman level and not just on the graduate level, a much more international student body."

Repeating what he has told the Board of Trustees, Haenicke congratulated those "who worked so hard to bring our enrollment up again." Total enrollment jumped 3.4 percent this year, including an increase of 17.5 percent in beginning freshmen and an increase of 40 percent in beginning African American freshmen.

"Our increase in beginning freshmen is the largest of any state university in Michigan," he told senators. "I offer my compliments to all of you who have taken part in achieving that."

Of the increase in African American freshmen, Haenicke said, "You remember that last year, when we had long discussions over racial tensions in the institution, the prediction was that the result would be a decrease in minority enrollment. Just the opposite has occurred."

The president also noted that, among beginning freshmen, enrollment of His-

panic students is up 34 percent and of Native American students, 36 percent. Total minority enrollment among beginning freshmen is up 32 percent.

### Quality remains high

Despite its increase in size, the quality of the University's freshman class has not diminished, according to Stanley E. Henderson, enrollment management and admissions.

"The middle 50 percent of new freshmen have ACT scores between 20 and 25, which is unchanged from a year ago," Henderson told the senate. "We can all feel very good about the quality of this year's freshman class."

Haenicke praised Henderson, who is leaving WMU to become associate vice president for enrollment management at the University of Cincinnati, for his many contributions to the University.

He said Henderson was one of the best admissions officers with whom he has worked and noted that he is widely recognized in his field. Henderson serves this year as president of the American Association of Collegiate Registrars and Admissions Officers.

"We all owe Stan Henderson a lot of thanks for the work he has done for the University," Haenicke said. "Many of the successes that we have seen in admissions and in orientation, in everything that leads the student into the institution, are directly due to his excellent work."

### Groundbreaking, move to Hoekje

Haenicke also mentioned the recent groundbreaking for the University's \$45.3 million project to create a new Wood Hall for teaching and a new Science Research Pavilion. Combined with Everett Tower and Rood Hall, it will constitute a science quadrangle at the west edge of the campus.

He also noted a \$1 million gift from the Upjohn Company Foundation, indicating that it reflects a long-standing commitment of the company "with large donations and very handsome support for our academic programs."

The state has authorized \$38 million for

## Decade of distinction

**DETROIT DINNER** — Among the 400 alumni and friends attending the Nov. 1 dinner at the Detroit Westin Hotel honoring President Haenicke's decade at WMU were several government officials. Pictured with Haenicke, second from left, they included, from left: State Rep. Morris Hood of Detroit; Detroit Mayor Dennis W. Archer, who spoke during the event; and State Rep. Donald Gilmer of Augusta. The dinner was the largest such event the University has held in Southeast Michigan.

## Supporters salute Haenicke's contributions

The largest non-athletic alumni event ever held in Southeast Michigan attracted 400 University supporters Nov. 1 to honor President Haenicke on his 10th anniversary at WMU.

Detroit Mayor and WMU alumnus Dennis W. Archer, state legislators and many other dignitaries joined alumni at Detroit's Renaissance Center/Westin Hotel complex to salute Haenicke for his contributions to the University.

"Western Michigan University has been an outstanding University, but it has been made greater by the presidency of Dieter Haenicke," said Archer, who opened his remarks by reading a tribute to Haenicke from U.S. Sen. Carl Levin, a long-time friend who regretted that he could not be present.

Nine of WMU's Distinguished Alumni Award winners attended: Archer; Richard T. Cole, who was the emcee; William B. Fitzgerald; James

W. Goss; John S. Lore; William F. Pickard; Roy S. Roberts; Jack Ryan; and S. Martin Taylor. Current WMU trustees Lori B. Bobbitt and Alfred L. Edwards were joined by emeritus trustees Winifred D. Fraser, Barry L. Howard, Roberts and Geneva J. Williams.

State Reps. Donald Gilmer, Morris Hood and Mary Lou Parks and State Sen. Henry E. Stallings also were present.

"It was clearly a 'who's who' in Southeast Michigan," Haenicke reported to the Faculty Senate the following night on campus. "We have remarkably strong alumni in very significant positions throughout the Detroit area."

Some \$5,000 was raised from the dinner for the Southeast Michigan Chapter of the WMU Alumni Association Scholarship Fund, bringing the total to \$7,000.

## Did you know?

■ Through WMU recycling efforts, the amount of garbage on campus has been reduced by 33 percent from 4,362 tons in 1989-90 to 2,926 tons in 1994-95. Last year, 1,301 tons of materials — or 31 percent of the total waste stream — were recycled.

■ One of the major international mathematics research conferences in the world takes place at WMU every four years. Since 1968, the University has played host to the Quadrennial International Conference on Graph Theory, Combinatorics, Algorithms and Applications. The conferences have included some 900 presentations by researchers from more than 20 countries and have resulted in about 425 research articles covering 5,109 pages in nine published volumes. The next conference is scheduled for June 2-7, 1996, at the Fetzer Center.

■ The most widely used textbook in marketing education in high schools in the United States was written by a WMU faculty member. Carl A. Woloszyk, consumer resources and technology, is the author of "Marketing Essentials." More than 150,000 copies of the book have been sold, largely because it provides teachers a useful, comprehensive design for the classroom.

## Students learn to meet needs of elderly under federal grant

Graduate students in speech pathology and audiology at the University will be better prepared to meet the needs of a rapidly aging population under a new federal grant project.

WMU's Department of Speech Pathology and Audiology has been awarded a three-year grant with funding expected to exceed \$200,000 for Project KEEP — Keep Elders Communicating. The grant was awarded by the U.S. Department of Health and Human Services' Bureau of Health Professions Health Resources Administration. It is intended to address the surge in speech, language and hearing problems that will face the nation as its population of older adults increases.

A total of \$38,034 has been awarded for the first year of the project, according to Sandra O. Glista, speech pathology and audiology, who will co-direct Project KEEP with Harold L. Bate, speech pathology and audiology. Those funds will be used for planning and to begin changing the department's graduate programs by integrating information about gerontology and communication problems of elderly persons throughout the curriculum.

During each year of the project, Glista says, about 20 students preparing for careers in speech pathology and four studying audiology — about two-thirds of the department's graduate students — will benefit from the added curricular and practicum emphasis on the problems of communication among elderly persons.

"There is a critical need for more speech-language pathologists and audiologists with special competencies for serving older persons," Glista says. "About 23,000 additional speech-language pathologists and audiologists are thought to be necessary to meet the need by the year 2005."

That need, she says, is brought home by the fact that Americans over the age of 65 now comprise 12.6 percent of the total population, but in 35 years, they will represent more than 21 percent of the population. The elderly currently constitute 20 percent of those with speech-language impairments and 43 percent of those experiencing hearing loss. By 2050, those percentages will rise to 39 percent and 59 percent, respectively.

"Project KEEP will increase the quantity and quality of professionals in speech-

language pathology and audiology who have special competencies to work with older Americans," Glista says. She notes that older persons are particularly prone to communication problems caused by hearing loss, stroke, Parkinson's disease and dementia.

In addition to infusing information about gerontology and communication problems unique to elderly persons throughout the existing graduate curriculum, Glista says, faculty members will expand the locations at which students can fulfill their internship requirements. Sites such as nursing homes and home health care agencies, which serve senior citizens extensively, will be included.

Students will learn to diagnose and design treatment plans for older persons using the most relevant technology and treatment methods. They also will learn to work as part of interdisciplinary health teams that address the client's total medical and social needs and to work within the structure of family and living arrangements commonly used by senior citizens.

(Continued on page four)

## WMUK-FM reaches \$175,000 goal early

WMUK-FM (102.1), the University's public radio station, concluded its fall fund-raising campaign at 8:44 p.m. Wednesday, Nov. 1, when it achieved the goal of \$175,000.

A record listener response enabled the drive to end two days ahead of schedule, making it the most successful fund-raising effort in the station's history.

Some 2,716 donors contributed \$175,191.64. A total of 435 donors or 16 percent were first-time contributors. The average pledge was \$64.50.

The campaign was scheduled to run through Friday evening, Nov. 3. As in years past, WMUK promised to end the campaign as soon as it reached the goal.

"Our goal was \$10,000 higher than last fall's, and we achieved it with two fewer days of fund-raising than last year," said Floyd Pientka, WMUK.

"Three things made that possible: the hard work and dedication of our

radio staff; outstanding support from the WMU Foundation; and, most especially, the active resolve of our listeners," he continued. "They supported this community resource in the face of severe federal budget cuts and persistent attacks from critics of public broadcasting."

Pientka warned, however, that the struggle to maintain a viable public broadcasting system was not over yet. "This year we lost \$15,000 in federal support," he said. "We have been able to buy some time, but we still face the reality that Congress has placed us on a 'glidepath to zero.'"

"We'll continue to work with Congress to meet its challenge of ending the federal appropriation by 2002," he added. "As we do so, the support of our listeners will be indispensable in maintaining a public radio service that is non-commercial and mission-driven."

## Senate revises final examination schedule, approves measure on changing of grades

The Faculty Senate Nov. 2 approved recommendations establishing a revised schedule for final examinations, effective next fall. It also addressed the practice of conducting mass examinations and approved recommendations regarding the changing of grades.

The new final exam schedule increases the number of two-hour exam blocks to 28 from 24, which start between 8 a.m. and 7:15 p.m. It also reserves an exam block from 5 to 7 p.m. for courses that start between 4 and 5:59 p.m. and a block from 7:15 to 9:15 p.m. for courses that start at or after 6 p.m.

"This is intended to resolve conflicts for faculty members and students with courses that start at 4 p.m. or later," said Cathy A. Zenz, registrar, who developed the revised schedule with the senate's Graduate Studies Council. "There currently are no exam blocks specifically for those courses."

The revised schedule also calls for the

rotation of all blocks for courses starting between 8 a.m. and 4 p.m. so that all courses share the potential disadvantage of exams occurring later in exam week. It provides for a 15-minute passing period and no lunch period. Make-up exams remain on Friday afternoon.

In order to provide time for a review of the practice of mass or common exams, the senate approved recommendations placing a moratorium on the approval of any new requests for such exams and extending approval of current requests for up to two years.

The senate's recommendation also referred the matter to the Undergraduate Studies Council with the suggestion that mass exams be authorized only for courses that have 10 or more sections and a common syllabus.

The senate also agreed to ask the administration and the WMU chapter of the American Association of University Professors to consider developing a memo of understanding regarding final exams on Saturday and/or include the matter in the next round of negotiations.

In approving recommendations of a committee on grading, the senate determined that the parties authorized to change grades are the student, who can abort the process; the faculty member of record; and the Academic Fairness Committee.

The recommendations clarified the process of appealing a grade and the role of the ombudsman in the process. The committee is chaired by Philip R. Popple, social work.

## Families of WMU students invited to share in the fun

Families of WMU students will be welcomed to campus for a special weekend of activities planned for them Friday through Sunday, Nov. 17-19.

"Family Festival is a unique opportunity for WMU to share the many things that make it such a special place to learn and grow with all the members of the WMU family," said Sandy Barry-Loken, Office of the Vice President for Student Affairs, who is helping to organize the event on behalf of the WMU Parents Association. "The weekend gives families a chance to participate in a variety of events, including social, athletic and educational ones at WMU and in the Kalamazoo community."

Registration for the weekend is scheduled from 6:30 to 8:30 p.m. Friday at the second floor service desk of the Student Recreation Center and from 10 a.m. to 1:30 p.m. Saturday in Room 3016 of the center.

That building will be available to families for open recreation from 5 to 10 p.m. Friday and from 10 a.m. to 5 p.m. Saturday.

Families will have the opportunity to participate in a variety of other activities Friday evening, ranging from athletic events to musical and theatre performances scheduled to take place on campus and in the community.

Saturday morning activities will include academic building tours and a career center open house. A "town meeting" is scheduled for 10:30 to 11:30 a.m. in 3012 Student Recreation Center. Faculty and staff will join Diane K. Swartz, WMU's dean of students, to answer any academic and non-academic questions from parents.

Participants also will have the opportunity to attend WMU's first family tailgate party from 12:30 to 3 p.m. in the third floor gym of the Student Recreation Center.

"The tailgate will provide a more informal atmosphere where families can get fired up for the game," Barry-Loken said. "It is also an opportunity for families to mingle with faculty, staff and other families."

Families will be able to meet President Haenicke while they enjoy lunch and performances by WMU's cheer team, pom-pom squad and marching band. Family portraits will be taken in 3015 Student Recreation Center. Following the tailgate, families will cheer on the WMU Broncos as they take on their biggest rival, the CMU Chippewas, at 3:30 p.m. in Waldo Stadium.

Saturday activities will conclude with the Spencer Magic Show, sponsored by WMU's Campus Activities Board, at 8:30 p.m. in Miller Auditorium.

For more information on registration and costs, persons should contact the WMU Parents Association in the Division of Student Affairs at 7-2150.

## WMU plays host to FIPSE review board session

Faculty and staff members from schools across West Michigan will finish their work at WMU today after completing preliminary reviews of nearly 300 federal grant proposals for the U.S. Department of Education.

The University has been the host for a two-day preliminary review board for proposals submitted to the Fund for the Improvement of Post-Secondary Education. After being one of eight sites selected for the event by federal officials earlier this year, staff members in the Office of the Vice President for Research organized the Nov. 8-9 review board, which is meeting in the Bernhard Center.

According to the event coordinator Wil B. Emmert, research and sponsored programs, 36 persons from WMU and 11 other institutions will complete reviews of about 300 pre-proposals brought to the session by Frank Frankfort, program officer for the FIPSE. Each of the proposals will be seen by at least five reviewers and their comments on the quality of the proposed work will be used by FIPSE officials to invite submission of full proposals. About 2,000 proposals are received each year for FIPSE funding and only about 75 of those are funded.

This is the first time a FIPSE review

board has been set up in West Michigan, Emmert notes. He says it gives participants an opportunity to become familiar with the review process and to see the caliber of proposals being submitted. FIPSE funding covers projects in such areas as curriculum reform; faculty development; minority access, retention and completion; education in the workforce; and improvement of cooperation among colleges, universities and K-12 schools.

Last year's review process resulted in a three-year, \$225,000 FIPSE award to WMU for a project headed by Larry D. Oppliger, chairperson of science studies. That project is aimed at revamping the science training of future elementary education teachers.

Reviewers at this week's session include 14 faculty and staff members from WMU as well as representatives of the following institutions: Aquinas College, Calvin College, Davenport College, Grace Bible College, Hope College, Kalamazoo College, Kalamazoo Public Schools, Kellogg Community College, Kendall College of Art and Design, Michigan State University and Southwestern Michigan College.

## Teleconference scheduled on international education

"Going Global: How Colleges Deliver Programs Internationally" is the topic of a teleconference set for 2 to 4 p.m. Wednesday, Nov. 15, in the Fetzer Center.

The PBS program, presented live via satellite, will illustrate the steps colleges and universities need to take to be successful in the international education and training arena. Leading practitioners from institutions with successful international programs will offer practical, concrete information on establishing and maintaining effective programs.

Seating is limited. To register, persons should call 7-4422. The teleconference is being presented on campus by the Division of Continuing Education, Office of International Affairs and Office of Planning and Institutional Research.

## STATE OF THE UNIVERSITY

As part of its continuing coverage of President Haenicke's Oct. 17 "State of the University" address, the Western News is running a series of charts the president used to illustrate his talk.

### WMU Student Financial Aid

### WMU Library Acquisitions Continuing Budgets

## WESTERN MICHIGAN UNIVERSITY WESTERN NEWS

Editor: Ruth A. Stevens; Staff Writers: Cheryl P. Roland, Julie D. Paavola; Photographer: Neil G. Rankin.

Western News (USPS 362-210) is published by News Services, B-207 Ellsworth Hall, Western Michigan University, 1201 Oliver St., Kalamazoo, MI 49008-5165, weekly during fall and winter semesters and bi-weekly during spring and summer sessions, except during vacation periods. Second class postage paid at Kalamazoo, MI 49008-5165.

Postmaster: Send address changes to Western News, News Services, Western Michigan University, 1201 Oliver St., Kalamazoo, MI 49008-5165.

Western News is distributed without charge to faculty and staff members, retirees and friends of the University, and is available at several campus locations.

Deadline: Items to be considered for publication should be submitted to News Services by noon Tuesday of the week of publication. Offices that receive too many copies — or too few copies — are asked to call 387-4100. WMU is an equal opportunity/employer/affirmative action institution.

## Prominent health educator to speak Nov. 14

A noted health educator and physician, Richard P. Keeling, will address the critical choices young adults face regarding alcohol, sex and self-esteem at 8 p.m. Tuesday, Nov. 14, at Miller Auditorium.

"Dr. Keeling brings a powerful message of self-direction and self-respect," said Christine G. Zimmer, Sindecuse Health Center. "Amid the confusing signals society sends, his work is vital to every college student's health."

Zimmer encourages faculty members to recommend the presentation to their students. "Many faculty members may find

that they can create an optional or required assignment around the event," she said.

"Recent research suggests widespread abuse of alcohol on our nation's college campuses," Zimmer continued. "Such abuse tends to have a destructive effect on student learning and results in poor decision making about personal behavior."

Keeling will share strategies that can enhance caring, rekindle community and empower individuals, she added. The presentation is sponsored by two dozen community and University organizations. More information is available from Zimmer at 7-3259.

## Visiting scholar to explore geologic processes

The Pacific "Ring of Fire" and the geologic processes that produce diamonds are among topics to be covered by an internationally known geologist who will speak at WMU Monday and Tuesday, Nov. 13-14.

W. Gary Ernst, professor of geological and environmental sciences at Stanford University, will give two free public addresses during his visit to WMU as part of the Visiting Scholars and Artists Program. He will describe "Natural Hazards Along the CircumPacific Margin — Life Within the 'Ring of Fire'" at 4 p.m. Monday. On Tuesday, he will explore the workings of "Ultrahigh-Pressure Metamorphism: Implications for Crustal Evolution of Eurasia"

in a talk also scheduled for 4 p.m. Both presentations will be 1118 Rood Hall.

Ernst, an expert on high-temperature deep-earth processes, plate tectonics and geologic hazards, is expected to touch on all of those areas during the two talks. His exploration of the Pacific "Ring of Fire" will focus on the perimeter of the Pacific plate, the location of 60 percent of the world's active volcanoes as well as the site of extensive earthquake activity.

Ernst, a member of the Stanford faculty since 1989, served for five years as dean of the School of Earth Sciences at that institution. Prior to joining the Stanford faculty, he was at the University of California at Los Angeles for 29 years.

## Noted activist will give Peace Week keynote

Peace activist Daniel Berrigan will present the keynote address for the 14th annual Peace Week on campus Nov. 13-18.

Berrigan, who also is a Jesuit priest, award-winning poet, popular lecturer and prolific writer, will speak on "Nonviolence Today" at 7:30 p.m. Wednesday, Nov. 15, in 2304 Sangren Hall. His presentation will be the annual Winnie Veenstra Peace Lecture and is co-sponsored with the WMU Center for the Study of Ethics in Society.

Berrigan also will discuss "A Spirituality of Nonviolence" at 10 a.m. Friday, Nov. 17, in Kalamazoo College's Stetson Chapel.

Other events during the week include:

■ A showing of the documentary, "School of the Assassins," at 9 p.m. Mon-

day, Nov. 13, at Kalamazoo College's Nonviolent Student Organization House, 116 Catherine St.

■ A showing of the award-winning film, "Incident at Ogalala," at 7:30 p.m. Tuesday, Nov. 14, in 3770 Knauss Hall.

■ The annual Oxfam "Hunger Banquet" at 5 p.m. Thursday, Nov. 16, at the Wesley Foundation.

All events except the Hunger Banquet are free and open to the public. A donation is requested for the banquet. For more information, persons may contact Donald F. Cooney, social work, at 7-3027.

## Jobs

The following list of vacancies is currently being posted through the Job Opportunity Program by employment services in the Department of Human Resources. Interested benefits-eligible employees can apply for any of these positions (bargaining or non-bargaining) by submitting a job opportunity transfer application during the posting period, or may contact an employment services staff member for assistance in identifying themselves as candidates for these openings.

S-01 and S-02 clerical positions are not required to be posted. For persons interested in faculty positions, there are openings in selected fields. A letter of application should be submitted to the appropriate dean or chairperson.

(R) **Director of Nursing**, P-06, Sindecuse Health Center, 95/96-234, 11/7-11/13/95.

(R) **Assistant Professor** (Tenure Track), I-30, Counselor Education and Counseling Psychology, 95/96-242, 11/7-11/13/95.

(R) **Assistant Professor** (Tenure Track), I-30, Occupational Therapy, 95/96-243, 11/7-11/13/95.

(R) **Assistant Professor** (Tenure Track), I-30, Occupational Therapy, 95/96-244, 11/7-11/13/95.

(R) **Associate Professor** (Tenure Track-Construction Engineering and Management), I-20, Construction Engineering, Materials Engineering and Industrial Design, 95/96-245, 11/7-11/13/95.

(R) **Assistant Professor** (Tenure Track-Sales Management and Advertising/Promotion), I-30, Marketing, 95/96-246, 11/7-11/13/95.

(R) **Cashier II**, S-05, Cashiering, 95/96-247, 11/7-11/13/95.

(R) **Secretary I**, S-04, Admissions and Orientation, 95/96-248, 11/7-11/13/95.

(R) **Internal Auditor**, P-06, Internal Audit, 95/96-249, 11/7-11/13/95.

(R) **Locksmith**, M-5, Physical Plant-Maintenance Services, 95/96-250, 11/7-11/13/95.

## On campus

### HEALTHY HABITAT

— While things might be a little crazy for her now with all the construction at the Sindecuse Health Center, Deborah Maser-Snyder says the work is paving the way for some new opportunities for those interested in improving their health. An administrative secretary in the health center, Maser-Snyder performs basic clerical functions for its Office of Health Promotion and Education, University substance abuse services and director of nursing. She registers students, faculty and staff for health promotion programs, coordinates special programs like the annual campuswide blood pressure screening and produces and orders

publications on such topics as sexual health, nutrition and smoking cessation. As part of the current remodeling project, Maser-Snyder is helping to design and implement a new high-tech health resource center. It will feature computer access to health information and interactive programs. Maser-Snyder says she likes her job because of the variety of people and tasks she encounters. "People come here when they want to do something good for themselves," she adds. "It's fun to help them." Maser-Snyder has been a WMU employee since 1981, and worked in the Division of Continuing Education and the College of Engineering and Applied Sciences before joining the health center staff in 1993. An avid outdoorsperson, Maser-Snyder especially enjoys mountain biking. She also trains with weights and plays the guitar in her spare time. In addition, she's working part time on her bachelor of social work degree.

## Libraries

As patron access to information becomes more available and the number of publications increases, the need for interloan services to obtain material not owned by the WMU libraries increases.

The University libraries partially subsidize interlibrary loan activity, which costs the borrowing library an average of \$19

and the lending library an average of \$11 for a total cost of \$30 per loan or photocopy.

When submitting interlibrary loan requests, patrons should be aware that established national and international guidelines and policies must be followed when requesting materials from other libraries.

Certain categories of materials do not circulate and are not available on loan from other libraries. These include rare or valuable material; bulky or fragile items that are difficult or expensive to ship; material that is in high demand at the lending library, such as best-sellers and newly published materials; and material with circulation restrictions.

The latter category includes reference books, periodicals, maps, genealogical information, reserve materials and audiovisual material, such as cassettes, tapes, records and compact discs. Also, fewer than half of all colleges and universities lend their theses and dissertations, usually designating them for "Library Use Only" if they are loaned. Materials received on loan may be in paper or microformat.

According to the 1993 National Interlibrary Loan Code of the United States, the requesting library is responsible for honoring due dates and enforcing all use restrictions specified by the supplying library. Returning material late, removing "Library Use Only" material from the library and failing to comply with other instructions from the lending library jeopardizes the University libraries' ability to borrow materials for other WMU patrons in the future.

## Media

Louise S. Forsleff, community health services, discusses alternative methods of health care on "Focus," a five-minute interview produced by news services. "Focus" is scheduled to air Saturday, Nov. 11, at 6:10 a.m. on WKPR-AM (1420).

"Sunergy 17," a 90-minute broadcast analyzing the Internet as a creator of new markets, products and business strategies, will air live on EduCABLE Channel 36 at 11:30 a.m. Tuesday, Nov. 14. The program will emanate from George Coates Performance Works in San Francisco and will explore the secrets of how successful companies make money on the Net.

## HHS research showcased

Presentations by 43 researchers and a luncheon awards ceremony will be among the highlights of the College of Health and Human Services' annual Research and Scholarly Activities Day Friday, Nov. 10.

Research presentations will be made throughout the day, with one beginning every 15 minutes from 8 to 11:30 a.m. and from 1:30 to 5 p.m. in 210 Bernhard Center.

The presentations are open to the public without charge. No advance registration is required.

Also during the day, the college will honor 27 researchers at a special awards luncheon. Faculty and staff who published books, book chapters or juried articles will be honored along with those who received research and training grants during the 1994-95 year. The luncheon is by invitation only.

For more information about the schedule of research presentations, persons may call Gloria E. Hall, College of Health and Human Services, at 7-2663.

## Recycling

Recycling continues to expand at WMU.

We are now accepting empty aerosol containers with the glass, plastics and metals that are collected. Just be sure the aerosol is empty. We also collect hardbound books and household batteries. Call the recycling office at 7-8165 for more information.

In October, WMU recycled about 153 tons of materials or about 35 percent of the total trash generated. Now that we have reached this goal, let's try for 40 percent. It should be easy if everyone recycles all their paper and cardboard products. Remember: Waste is just a resource out of place.

## Obituary

Kenneth Bullmer, emeritus in counselor education and counseling psychology, died Oct. 31 in Kalamazoo. He was 72.

Bullmer joined the faculty in 1970 and helped initiate WMU's counseling psychology program. Also a licensed psychologist, he maintained a private practice in psychotherapy. He was known for his work in human sexuality and marital and sex therapy. He was the author of a book, "The Art of Empathy," which has been translated into several other languages.

A past president of the Western Michigan Psychological Association, Bullmer was awarded the organization's "Psychologist of the Year" award for his leadership and service. He retired from the University in 1993.

Memorial contributions may be made to the WMU Foundation for a graduate scholarship in counseling psychology or to the Portage Community Outreach Center.

# Calendar

The master calendar maintained by news services for use in Western News is available through Gopher on the VMScluster. Currently, there are three calendars available: November events; December events; and future events, which run from January through December 1996. To view the calendars, type Gopher at the system prompt. At the next menu, choose 2. Western Michigan University, then choose 4. Campus Calendar. You will find options for 1. This Month's Events, 2. Next Month's Events and 3. Future Events.

## Thursday, November 9

(thru 21) Exhibition, "Strike Restrike: The Revitalized Print Revisited," selections from the WMU Department of Art Permanent Collection, Space Gallery, Knauss Hall, Mondays thru Thursdays, 10 a.m.-4 p.m.; reception, Thursday, Nov. 9, 4-7 p.m.  
 (thru 20) Exhibition, "18th annual Design 100 Competition," American Center for Design, Chicago, Gallery II, Sangren Hall, weekdays, 10 a.m.-5 p.m.  
 (and 10) Student Art Gallery exhibition, graphic design by Theresa Burau and Melissa Rutkowski, BFA degree candidates, Rotunda and South galleries, East Hall, 10 a.m.-5 p.m.; closing reception, Friday, Nov. 10, 6-9 p.m.  
 Program, "Innovative Instructional Uses of the Web," Reza Rashidi, Faculty Resource Center, and Seamus A. Cooney, English, 3307 Sangren Hall, noon-1 p.m.; to register call 7-5305.

 \*(and 11) Hockey club of WMU vs. Butler University, Lawson Arena, 7 p.m.  
 Student recital, Pete Reitsma, piano, Dalton Center Recital Hall, 7 p.m.

## Senate remarks (Continued from page one)

the project. The University also is seeking \$7.3 million through private gifts and government grants.

In visiting Hoekje Hall earlier in the week, Haenicke said he was surprised "with the relatively high level of satisfaction" expressed by faculty members displaced for the reconstruction of Wood Hall.

"I had expected that the dislocation of a very large number of our faculty for a substantial period of time would create much larger disruption than actually seems to be the case," he said.

### Native American tuition waiver

In telling senators the University would support tuition guarantees for Native American students for the winter semester, he put the cost at about \$135,000 for the academic year. Gov. John Engler has said he may discontinue state support for the reimbursement of tuition for Native American students.

"It is not an outrageous sum of money, but it sets a dangerous precedent that we

take over an obligation that the state, through legislation some 20 years ago, took on," Haenicke said. "The state should not so easily be able to shift that obligation to the institutions without reimbursement."

WMU has 150 Native American students, an increase of 27.1 percent over last year's total.

### MLK Day observance

In reporting that the administration has accepted the senate's recommendation to cancel classes from 11 a.m. to 4 p.m. for the observance of the birthday of Martin Luther King Jr. on Jan. 15, Haenicke noted that it results in the cancellation of 52 percent of classes.

Last year, the University canceled classes from 10 a.m. to 2 p.m., representing the cancellation of 50 percent of classes.

"It's not a significant increase in the number of classes that we cancel," Haenicke said. "But, in the opinion of the MLK Day committee, that was a better time span to conduct the events of that day."

devices during occupational and recreational activities.

To accomplish its aims, Project KEEP will forge new partnerships with health care and social service professionals already working with senior citizens as well as younger persons who can benefit from prevention activities.

"We will be working to build awareness among all of our students about the opportunities and resources that are available for those who would like to work with senior citizens," Glista says. "We also are going to try to identify students who originally come from rural areas and who may want to work in similar areas."

Besides Glista and Bate, several other faculty members in the Department of Speech Pathology and Audiology will participate in the grant project. They are John M. Hanley, Gary D. Lawson, Donna B. Oas and Nickola W. Nelson.

**NO PANE, NO GAIN** — The panes of glass in the east entrance and stairwell of the Student Recreation Center take on a new look in this stylized photo. More than 3,000 people pass through the center's doors each day to take advantage of the variety of exercise options available.

\*(thru 12 and 16-18) University Theatre production, "The Scarlet Letter," Shaw Theatre: Nov. 10-11 and 16-18, 8 p.m.; and Nov. 12, 2 p.m.
