Founding director and new graduates will share the limelight in Lee Honors College observance

The Lee Honors College will celebrate its 30th anniversary with a full day of events for the entire University community Saturday, April 17.

The college's founding director, its former dean, returning alumni and current students and faculty will be among those participating in events scheduled for 7:30 a.m. to 9:30 p.m.

"This is a joint effort by the Honors Alumni Society and the Lee Honors College to celebrate 30 years of excellence in one of the oldest and most highly regarded honors programs in the country," says Interim Dean Joseph G. Reish.

Activities will begin with coffee and registration at 9:30 a.m. in the Lee Honors College lounge, followed by presentations by two faculty members from 10 to 11:45 a.m. Shirley Bach, philosophy, will describe "Hot Spots of Bio-ethics, from Quinlan to Kevorkian." Larry D. Oppliger, chairperson of science studies, will discuss "Astromomy Today: What Would Galileo Think?" Both will focus on changes in their disciplines over the past 30 years.

A noon luncheon in the Bernhard Center will feature a tribute to Samuel I. Clark, professor of chemistry, who retired from the University in 1961.

More Inclusive Community. "Her speech will stress making honors education open to and supportive of all people and incorporating a service-learning ethic into academic studies."

Those honored at the ceremony will include the college's largest group of students who have completed an honors thesis, students who excelled in community service and recent winners of Undergraduate Research and Creative Activity Awards. A reception in the lounge will follow the graduation celebration.

All of the events are free and open to the public except the luncheon, for which there is a $12 charge with reservations due at the Lee Honors College by Monday, April 12. For more information about the events, persons should contact Reish at 7-3230.

$60 million slated for power plant, science facility

Gov. John Engler was expected to sign legislation this week granting the University nearly $60 million for two major construction projects.

The $42 million to be spent on a new power plant, one of the most controversial projects, would be used to refurbish the power plant used by the University, for which the University will receive $21.5 million, and a scientific facility, for which it will receive $38 million.

Construction on both projects is expected to begin next year.

They are part of $770 million in construction projects for state universities, community colleges and state agencies that Engler proposed for fiscal years 1993 through 1995.

"We're pleased that the governor and the Legislature could move so quickly in recognizing the infrastructure needs of our college campuses while providing jobs in many communities," said Keith A. Nusbaum, vice president for external affairs and general counsel.

The Engler administration estimates that the construction projects will create 11,000 jobs throughout the state. The capital outlay legislation includes authorization to develop a statewide communications system for the state police.

"This investment will further expand the economic recovery that Michigan is experiencing," Engler said. "Not only will these projects address major academic needs at our state universities and community colleges, but they will help put thousands of Michigan citizens back to work."

Earlier estimates had placed the cost of refurbishing and expanding the capacity of the power plant at $21 million and the new facility at $80 million. The scope of the project has been reduced and now plans call for refurbishing and expanding existing equipment.

A committee formed about a year ago to plan the University's "science system," including the new facility, has recommended that the facility be built as an addition to Wood Hall. The committee is headed by Dean Douglas P. Ferraro, arts and sciences.

The committee's plan is intended to consolidate the University's science programs, including research, in three buildings, according to Evie Asken, campus planning and construction.

"Research would be concentrated in the new facility, undergraduate science would be located in Wood Hall, and community science and the environment would join mathematics and statistics and physics in the Rood Hall-Eastover Tower complex," she said.

Meanwhile, the Engler administration "has made it clear" that there will be no state support for higher education beginning in the next two fiscal years, Pretty said.

"Our only source of additional revenue will be tuition."

From two to 276 students — Department of Occupational Therapy has come a long way

WMU's acclaimed Department of Occupational Therapy will mark its 70th anniversary with an opportunity for the community to visit its clinic and network with professionals Friday, April 16.

The department that got its start in 1922 with just two students at the Kalamazoo State Hospital and has grown into a nationally known program with 276 graduates and undergraduate students, 12 faculty members and modern clinical facilities that serve the entire local community.

The anniversary celebration will include an open house at the Spear Teaching Clinic from 9 a.m. to 3 p.m., with activities that will run until 9 p.m.

Among the exhibits will be demonstrations of assessment devices, therapeutic juggling and pediatric therapy equipment developed by students to aid Kalamazoo area cerebral palsy, stroke, mental illness, and pediatric clients from the community also are served by a clinic on campus, which offers free therapy to clients referred to the department.

Several businesses were developed during a required class in which occupational therapy students use the skills they are learning to serve clients of some of the community's underserved and uninsured populations.

"We believe occupational therapists should be a part of the health-care delivery system in just about every setting," said Jane Lyon, occupational therapy, at 7-3852.

More Inclusive Community. "Their work may involve analyzing job tasks required of injured workers, aiding the physical and mental rehabilitation of patients, providing services to clients of all ages in a variety of settings and working with rehabilitation professionals to develop programs of care," Lyon said.

At the WMU open house, several devices developed by students to aid Kalamazoo area clients will be on display. Four of those devices were developed in an April issue of OT Week, a national professional journal for occupational therapists.

"The devices are shown include: a fitted sleeve and molded hand replacement adapted to hold a crayon for a nine-year-old amputee; a needlework holder that adjusts for height and tilt, designed for a person who had lost movement on one side of her body; and a support for a foot designed to hold arthritis sufferers upright in the water during hydrotherapy."

The devices were developed during a required class in which occupational therapy students use the skills they are learning to serve clients of some of the community's underserved and uninsured populations.

"We believe occupational therapists should be a part of the health-care delivery system in just about every setting," said Jane Lyon, occupational therapy, at 7-3852.

Student, faculty member honored for community work

A WMU student and a faculty member have won statewide awards for service to their communities. Student Amber Maxwell was honored at an April 2 ceremony in East Lansing. Angela L. Maxwell, a WMU junior from Fort Wayne, Ind., was honored at an April 15 ceremony in Kalamazoo. Both students received the first Michigan Campus Compact Student Volunteer Service Award. The state-wide recognition conference, sponsored by the State of Michigan, is WMU's recipient of the MCC Faculty/Staff Community Service Learning Award for the current academic year, in recognition of a member at each MCC member institution.

Both received their awards during the Michigan Campus Compact annual meeting and conference Awards Luncheon at the Kellogg Center on the Michigan State University campus in East Lansing. Each student received a $1,000 mini grant to be designated for use in the community activity of their choice. Maxwell was invited to participate in a Scholars' Forum during the MCC conference to highlight the efforts and results of their community work.

Maxwell was honored for her role in a number of activities on the WMU campus, in her hometown of Kalamazoo, and in the Kalamazoo community. At WMU, she has volunteered for activities that serve both potential and incoming students, and current students and parents; as one of the Bronco Student Volunteer Services' Student Volunteers, and as a leader of the Student Guide, giving tours of campus to prospective students. She has volunteered with the organization in her hometown of Kalamazoo since 1972 and will continue to serve on the advisory board to raise funds for the program.

Race relations institute works to ease tensions with seminars for city of Kalamazoo employees

A little positive self-disclosure is at the heart of a series of diversity training sessions that the University’s Institute for the Study of Race and Ethnic Relations has been conducting with some of the employees of the city of Kalamazoo’s public utilities department.

The sessions are designed to ease normal tensions over racial and ethnic diversity that can exist in any workforce and facilitate training for a number of area organizations and agencies, including the Kalamazoo Forum and the University of Michigan’s Center for parking with College to help to overcome the effects of racial tension.

“Employees expressed a willingness to train in employees to head off, in a proactive way, any difficulties that could develop in this area of diversity and race relations,” said Hughes.

Training sessions have provided theoretical information and exercises that will be used as case studies as a way to train employees and improve the effectiveness of dealing with diversity, Washington said.

Service

These employees are recognized for five, 10, 15, 20 and 25 years of service to the University in April:

25 years — Barbara C. Garland, information systems and telecommunications services; and Paul MacNellis, physical plant-L/G maintenance.

20 years — Mary Anne Bunda, university research assistant in the Voluntary Action Center; and Amy H. Dickey, Computer Services.

15 years — Jan L. Day, physical plant-building custodial and support services; Jean Decker, physical plant-L/G maintenance; and Georgia C. Kerkhof, University administration.

10 years — Richard E. Burton, University computing services; and Carol A. Edmundo, Career Center.

Five years — Tyrone Bynum, physics; Susan D. Coker, education and professional development; Thomas Hafner, human resources; Ann M. Murfin, accounts payable; James E. Nelson, physical plant-building custodial and support services; Catriona Gearing; Catherine H. Thiel, telecommunications; Gregory Warner, physical plant-building custodial and support services; Judith A. Washburn, Dining Services; and George Wilson, campus planning, engineering and construction.

Jobs

The following vacancies are currently being posted through the Job Opportunity Program, Human Resources, for employment in the Department of Human Resources. Interested benefits eligible employees should submit a job application to the employment services office and sign the appropriate bid sheet during the posting period.

S-01 and S-02 clerical positions are not required to be posted. Interested University employees may contact an employment services staff member for assistance in securing these positions.

(R) Secretary II (5 FTE, 20 Hours/ Week; Monday through Friday, 9 a.m. to 5 p.m.), S-05, Institutional Research/University Assessment, 929/236, 4-6/11293.

(R) Administrative A, S-05, Physical Plant-Landscape Services, 929/325, 4-6/11293.

(R) Secretary II (5 FTE, 20 Hours/ Week), S-05, Community Health Services, 929/329, 4-6/11293.

**Thursday, April 8**

- Exhibition, printmaking and painting by Mark Bartholome, MFA candidate, College of Engineering and Applied Sciences seminar, “Economic Black Boxes and Other Matters,” Provost Nancy S. Barrett, 3014 Kohrman Hall, 4 p.m.
- Student recital, Robert White, trumpet, Dalton Center Recital Hall, 5 p.m.
- Presentation, Elaine Monroe, 1014 Kohrman Hall, 6:30 p.m.
- Discussions on “Bargaining and Negotiation in the Organizational Context” with Linda L. Putsman, professor of communication, Purdue University: brown bag lunch, third floor conference room, 11 a.m.-1 p.m., and lecture, 2750 Knauss Hall, 7 p.m., with reception following in 2217 Brown Hall.

**University Theatre production, “Julius Caesar,” Shaw Theatre, 8 p.m.**

**Friday, April 9**

- No classes.
- Meeting, Executive board and committee chairpersons of the Administrative Professional Women’s tennis, WMU vs. Eastern Michigan University, Sorensen Courts, 1 p.m.
- Graduation recital, William Eicher conducting the University Symphonic Band, Dalton Center Recital Hall, 1 p.m.
- Student recital, works by composition majors Denise Grabel and Christine Jancarz, Dalton Center Recital Hall, 5 p.m.

**Saturday, April 10**

- Exhibitions, student art gallery, East Hall, 10 a.m.-5 p.m.; Rotunda Gallery, BFA shows including painting by Dale Strong; South Gallery, BFA shows including ceramics by Pete Bovee and Maria Malott, Malott & Associates, 3760 Knauss Hall, 4 p.m.
- Women’s tennis, WMU vs. Eastern Michigan University, Sorensen Courts, 1 p.m.

**Sunday, April 11**

- Women’s tennis, WMU vs. Kalamazoo College, Sorensen Courts, 3 p.m.
- Visiting Scholars and Artists Program seminar, “Evolutionary Biology and Population Dynamics,” Mark Jackula, head of the Department of Entomology, University of Queensland, Brisbane, Australia, 5270 McCracken Hall, 4 p.m.
- Student recital, by composition majors Denise Grabel and Christine Jancarz, Dalton Center Recital Hall, 5 p.m.

**Monday, April 12**

- Baseball doubleheader, WMU vs. Kent State University, Ebert Field: Friday, 2 p.m.; (and 10) Softball doubleheader, WMU vs. the University of Michigan, Ebert Field, 3 p.m.
- Softball doubleheader, WMU vs. Kent State University, Ebert Field, 3 p.m.
- Student recital, Amy Statz, mezzo-soprano, Dalton Center Recital Hall, 1 p.m.
- Student recital, Amy Statz, mezzo-soprano, Dalton Center Recital Hall, 7 p.m.
- *Admission charged*

**Tuesday, April 13**

- Understanding diversity is focus of conference

**Wednesday, April 14**

- Fifty first Annual Teacher Placement Day, East Ballroom, Bernhard Center, 9 a.m.-4 p.m.
- *Baseball doubleheader, WMU vs. Northwestern University, Hyames Field, 1 p.m.*
- Softball doubleheader, WMU vs. the University of Michigan, Ebert Field, 3 p.m.
- Visiting Scholars and Artists Program seminar, “Evolutionary Biology and Population Dynamics,” Mark Jackula, head of the Department of Entomology, University of Queensland, Brisbane, Australia, 5270 McCracken Hall, 4 p.m.
- Student recital, by composition majors Denise Grabel and Christine Jancarz, Dalton Center Recital Hall, 5 p.m.

**Thursday, April 15**

- Training and development seminar, “Performance Review for Supervisors,” Janice E. Brown and Darlene R. Mosher, human resources, 2121 Fort Custer, 8:30-11:30 a.m.
- *Admission charged*

- **Award-winning poet to present reading Tuesday, April 13**

 Poet Michelle Boisseau will read from her works at 8:30 p.m. Tuesday, April 13, in the 10th floor lounge of Sprau Tower. The reading, which is free and open to the public, will be followed by a reception.

 Boisseau is the author of “No Private Life,” published in 1990 by Vanderbilt University Press, and other works that have been awarded numerous awards, including a National Endowment for the Arts Creative Writing Fellowship, a Kansas Arts Council Fellowship, two Poetry Society of America awards and first prize in the National Poetry Competition from the Chester H. Jones Society. Her chapbook, “East of the Sun and West of the Moon,” was published by the St. Louis Poetry Center as the winning entry in the 1989 Stanley Hanks Poetry Chapbook Contest.

 Boisseau’s poetry has appeared in numerous journals, including Poetry, the Georgia Review, the Ohio Review, the New England Review and the Boston Quarterly and the Missouri Review. She also writes and publishes fiction. She teaches creative writing at Morehead State University in Kentucky.

 The reading is being sponsored by the Department of English.
