BREATHING THROUGH — A pipe at the construction site of the Gary Center/Read Fieldhouse at Western Michigan University for this photograph by Neil G. Rankin, news services. The section of building connecting the Gary Center with Read Fieldhouse recently has been demolished, paving the way for two distinct buildings for student recreation and for intercollegiate athletics. Student recreation activities will be centered in the renovated Gary Center, right, and in an addition that extends west up the hill. The intercollegiate athletic activities will be housed in Read Fieldhouse, left, which is undergoing an extensive renovation. The construction will be connected by a pedestrian bridge. The separation allows persons entering campus from Oliver Street to see through to the green area surrounding the Oaklands. The work is part of the $50 million renovation and expansion of WMU's facilities for student recreation and intercollegiate athletics.

Dooley chosen to participate in NATO discussions

Howard J. Dooley, international affairs, has been selected by the Atlantic Council of the United States as a participant in the 1993 NATO Discussion Series sponsored by the North Atlantic Treaty Organization. The program will run from June 20-25 at several locations in Europe. Dooley will be one of 20 faculty members from colleges and universities in the United States to attend the program. Participants will have an opportunity to discuss current issues with senior officials from international organizations and with European scholars from universities and research centers.

He is the second WMU representative selected for the program. In 1990, Lawrence Ziring, political science and Institute of Government and Politics, attended the program. The purpose of the series is to help preserve and promote linkages between the United States and Europe. The Atlantic Council, based in Washington, D.C., is a public policy center addressing the advancement of international organizations and with European scholars from universities and research centers.

MISSION TO NATO

Dooley will take part in Brussels at the Supreme Headquarters Allied Powers Europe (SHAPE), the European Community Headquarters and the Western European Union. The program will continue at the European Institute of Public Information and the Driekant Foundation in Maastricht, Netherlands. It will conclude with visits to a NATO air base in Geilenkirchen, Germany, and Allied Forces Central Europe Headquarters in Brunssum, Netherlands.

Dooley, who holds his bachelor's, master's and doctoral degrees from the University of Notre Dame, was trained in modern European history and international relations.

More than 1,850 degrees

The University will award more than 1,850 degrees in commencement exercises Saturday, June 26, in Miller Auditorium. There will be two ceremonies: one at 9 a.m. for graduates of the Haworth College of Business, College of Engineering and Applied Sciences, College of Fine Arts, College of Health and Human Services and General Studies; and one at 4 p.m. for graduates of the College of Arts and Sciences and College of Education.

Music for the ceremonies will be performed by Betty R. Pursley, music director, the national anthem and alma mater will be sung by WMU's chapter of Phi Mu Alpha. Sinfonia professional music fraternity. The graduates will be welcomed as new alumni of the University by Barbara Lett Simmons, president of the WMU Alumni Association.

Cowley's commencement address is "Beyond the Right Turn: A Celebration of the Spirit of Western Michigan University." The Rev. Elmer R. Hess Sr. of the First Methodist Church, Ann Arbor, will deliver the baccalaureate address. The Rev. Floyd D. Flippin of Faith Deliverance Church in Grand Rapids, Ill., will be the master of ceremonies.

Tickets are required for the ceremonies. Each participating graduate is eligible to receive up to four guest tickets. Inquiries regarding additional tickets should be directed to the Office of the Registrar the week before June 21.

Meinert named intercollegiate athletics director

Daniel L. Meinert, a former top athletic administrator at Big Ten schools, has been selected as WMU's new athletic director. Meinert will be responsible for oversight of all intercollegiate athletics activities. The announcement was made June 4 by President Haenicke.

Meinert is a native of Grafton, Wis. He holds bachelor's and master's degrees from the University of Wisconsin at Madison. He was a high school coach and athletic director in Wisconsin before moving to college athletics.

Meinert is a native of Grafton, Wis. He holds bachelor's and master's degrees from the University of Wisconsin at Madison. He was a high school coach and athletic director in Wisconsin before moving to college athletics.

"I'm excited about the opportunity to serve Western Michigan University and I'm looking forward to working with President Haenicke and his staff." Meinert said. "I'm impressed with the coaches and administrative staff and committed to working with them to develop an outstanding program, a program committed to excellence in every aspect of the University's athletic program.

"Most importantly, I'm excited about working with our student-athletes to assist them in reaching their goals in athletics and in all aspects of their lives. I'm excited to meet many more and become a part of the Western Michigan University community.

Colleges of Arts and Sciences faculty members working with stipends to restructure majors

More than 20 faculty members in the College of Arts and Sciences are sharing $7,000 in summer stipends as part of efforts to restructure academic majors and to meet many more and become a part of the Western Michigan University community.

More than 7,000 degrees

The University will award more than 7,000 degrees at the end of the spring session in June, including the bachelor's, master's and doctoral degrees. The University will award more than 1,850 degrees in commencement exercises Saturday, June 26, at Miller Auditorium.

Meinert was named as WMU's new athletic director in a special meeting May 17 of the Board of Trustees by Board Chairman Jerry W. Dooley.

WMU Sunseeker 93 team off to the ‘ravexes’ in Texas

Some WMU students are hoping to find their place in the sun this week as they work to qualify for Sunrayce 93 in Dallas/Fort Worth.

The students left Kalamazoo June 12 with their solar-powered car, Sunseeker 93. They are hoping to qualify for the 1,000-mile race from Texas to Minnesota. Qualifying events were scheduled for mid-week, and the race will begin Sunday, June 20.

WMU is one of 56 schools chosen to participate in the race, which will end June 26 in Minneapolis. The solar vehicles will average 143 miles per day, starting from 9 a.m. to 6:30 p.m. and gathering at a common stopping point each night. The winner will be the solar car that has the highest average miles per gallon over the official course with the lowest cumulative elapsed time.

Solar, sun radiation, or the only external propulsion source for mobile vehicles. Only commercially available solar cells and lead-acid batteries may be used, and battery capacity is limited to 5 kilowatt-hours.

Racial harassment is a topic of workshop at EMU June 29-30

The problem of racial harassment on college and university campuses, and how administrators and staff should appropriately respond will be the subject of a workshop Tuesday and Wednesday, June 29-30.

“A Workshop Regarding the Issue of Racial Harassment” is being jointly sponsored by the Eastern Michigan University and the Office of Civil Rights of the U.S. Department of Education.

The workshop will be held on Tuesday from 9:30 a.m. to 3:15 p.m. Wednesday at the Corporate Education Center on the Eastern campus.

In addition to addressing the issue of racial harassment on campuses, the program is designed to give campus administrators and faculty recognize and respond appropriately to incidents of racism and bigotry.

The workshop agenda will enable participants to understand racial harassment from the victim’s, as well as the institution’s perspectives; recognize the First Amendment implications of harassment and the legal difficulties that U.S. law schools face today; and learn new strategies for recruiting students and faculty of color.

Sponsors of the competition are the U.S. Department of Energy, the U.S. Environmental Protection Agency, the Society of Automotive Engineers, and the National Renewable Energy Laboratory and the General Motors Corp.

Sunseeker 93 is one of 11 solar cars in the 36-car Sunrayce 93 Corporation. Its chassis failed at the regional qualifier.

RUN FOR THE SUN — Getting Sunseeker 93, WMU’s solar car, ready for Sunrayce 93 last week were, from left: Russ Ferguson, a junior from Cheboygan; Robert J. Langan, a senior from Bloomfield Hills; Erik R. Peterson, a senior from Grosse Ile; and student project coordinator Mark A. Ely, a graduate student from Battle Creek. These students and other members of the team hoped to pass qualifying events by mid-week in order to participate in the race, which runs from Texas to Minnesota June 20-26.

New fellowships will benefit doctoral students

WMU has established a new fellowship program to enable graduate students to finish their doctoral dissertations. Three fellowships will be awarded in the coming academic year.

Each fellowship includes $8,500 for full and winter semesters, out-of-state tuition reimbursement where applicable and up to $1,000 for dissertation-related expenses. There is no service requirement. The application deadline is July 15.

“This is a significant step for the University,” said Richard A. Wright, associate vice president for academic affairs. “These fellowships further enhance our stature as a doctoral granting institution.”

The fellowships were established by the Graduate College. WMU has 18 doctoral degree programs, the fourth largest number of any public university in Michigan.

“Often the most difficult part of any doctoral degree program is finishing the dissertation,” Wright said. “These fellowships will help to overcome that goal.”

To be eligible, persons must be full-time doctoral candidates at WMU with the dissertation requirement to be completed in order to receive their degree. An accepted doctoral dissertation proposal also is required.

A limited number of Commonwealth fellowships will be awarded to selected applicants based on a record of scholarly excellence as the most important criterion. More information about the fellowships is available by calling the Graduate College at 7-5853.

Bargaining teams named for AAUP negotiations

Composition of the bargaining teams for upcoming negotiations has been announced by the University and its campus chapter of the American Association of University Professors.

The current three-year agreement expires Sept. 6, 1993. Negotiations on the new collective bargaining agreement are expected to start in early July.

Members of the WMU team are: Carol L. Sturman, assistant vice president for student affairs; Charles M. Hodge, dean of the College of Education; Werner Sichel, chairman of the department of business administration; David K. Grundy, director of personnel; Brian Jordan, vice president for marketing; George L. Etter, member of the Board of Regents; and Ahmad D. Issa, finance and commercial law, financial consultant. Lynwood H. Bartley, communication, is ex officio as chapter president.

Board to meet June 25

The Board of Trustees is scheduled to meet Friday, June 25, Times, places and agenda items will be disclosed at the meeting.

The conference is sponsored by the Auckland Institute of Technology, a university in New Zealand. She will be a featured speaker at the Auckland Annual Faculty Conference and other seminars.

For information about the conference, contact Verser at 7-5895.

Verger earns grant for travel to conference in New Zealand

Trudy G. Verser, manager, has been awarded an $11,055 international conference in New Zealand. She will be a featured speaker at the Auckland Annual Faculty Conference and other seminars.

The conference is sponsored by the Auckland Institute of Technology, a university in New Zealand. She will be a featured speaker at the Auckland Annual Faculty Conference and other seminars.

Butterfield to study political parties in Russia

A WMU faculty member will spend seven weeks in Russia this summer exploring the links among that country's host of newly formed political parties.

James M. Butterfield, political science, will travel to Russia in late June to take part in an American Council of Teachers of Russian Research Scholar Exchange. An ACTR grant will support his living expenses while in Russia. He will be supported by a grant from the International Research & Exchanges Board with funds from the Andrew W. Mellon Foundation, the National Endowment for the Humanities and the U.S. Department of State.

"I will be looking at whether democracy is developing in Russia from the ground up," Butterfield says. "What has evolved so far is very much a ritual political party system, with dozens and possibly even hundreds of parties and splinter parties that have formed all along the line since democracy was added to the menu."

Butterfield, who was born and raised in Grand Rapids, will attend the summer institute currently works in the public cafeteria. Austin has communication, on relationships between cusc" is scheduled to air on these Saturdays at 7-2433.

The trip will be Butterfield's eighth to Russia and among his stops will be the American University in St. Petersburg and will spend some time in Moscow during July. In two locations, he will be studying the activities of right- and left-wing political parties. He also hopes to travel to at least two provincial cities.

Gifted and talented students to attend summer institute

Twenty-eight gifted and talented Michigan high school students will spend the week of June 20-26 at WMU exploring trends in medical technology.

"Medical and High Technologies: Exploring the Life Cycle" is the theme of the Michigan State Board of Education's Summer Institute for Teachers of Science, Mathematics, and Health. The institute, featuring two new sections, will be held in the afternoon intensive workshop on medicine, related high technologies and marketing. WMU faculty and experts from throughout the state will work with students through an intensive exploration of medicine and possible health careers. They will have the opportunity to visit local industries, therapeutic inter-vention and rehabilitative services and services.

Participants were chosen through nominations by teachers and a review by district personnel. T. Humbert, consumer resources and technology, and Barbara L. Harris, special education, were the coordinators.

 Reception planned for Austin

A reception honoring the retirement of June L. Austin, dining services, is scheduled for 11:30 a.m. to 1 p.m. Friday, June 18, in the Bernhard Center public cafeteria. Austin has been a WMU employee since 1968 and currently works in the public cafeteria.

Exchange

FOR SALE—Sofa-bed, brown floral, good condition for $15. Make offer. Call 381-6769 after 5:30 p.m.

FOR RENT — Quiet two-bedroom upper apartment in east-end location. Large, light kitchen; ceiling fans, blinds and garage. $340/month plus 1/2 all utilities. (N) Senior Research Associate (Term 1996) and State government officials.

The three main objectives of the project are: to develop international business expertise in the business faculty; to enhance the undergraduate and graduate business programs by improving the international content of courses already offered and developing new courses; and to enhance the exporting interests of small- and medium-sized firms in the area.

On campus

A $57,000 federal grant will support the first year of a WMU project to improve the Haworth College of Business’ international business focus and increase international trade opportunities for students.

An international export workshop and a conference on the North American Free Trade Agreement will be held on the campus, said T. Humbert, consumer resources and technology, and Barbara L. Harris, special education. They will have the opportunity to visit local industries, therapeutic inter-vention and rehabilitative services and services.

Participants were chosen through nominations by teachers and a review by district personnel. T. Humbert, consumer resources and technology, and Barbara L. Harris, special education, were the coordinators.

 Seminar set on achieving best

Do you feel your career track is on a detour? Belated spring fever got you down? The trip will be Butterfield's eighth to Russia and among his stops will be the American University in St. Petersburg and will spend some time in Moscow during July. In two locations, he will be studying the activities of right- and left-wing political parties. He also hopes to travel to at least two provincial cities.

Paving the way

Work is progressing in Goldsworth Valley on the relocation of South Dormitory Road. The road is being re-routed to the north, extending diagonally from the Sorensen Tennis Courts to the junction of Gladstone Avenue near the Goldsworth Valley shops at the project is expected to be completed by mid-July.

Faculty and staff invited to join computer conference

The Western Student Association is inviting faculty and staff members to participate in a computer conference run on the VAX computer network on campus.

Nearly 300 people used "WSA-Forum" last semester to keep in touch with student concerns. Organizers say that now is a good time for new users to join because the spring and summer versions of the forum are much smaller than for the fall and winter semesters. "The WSA wants to encourage better communication between students and the rest of the University community," says Andrew K. Pedder, a sophomore from Muskegon. "The more dialogue that exists, the better the decisions will be made on issues concerning students."

The WSA-Forum gives students an opportunity to communicate with many important University decision makers as well as with their own student leaders and representatives. Administrators participating have included President Haenicke, Provost/Nancy S. Barrett and John J. Kandell, student financial aid and scholarships.

To access WSA-Forum, type CONFER WSA-FORUM at the S prompt on the VAX. On-screen instructions will take you through the short registration process.

For help or more information, persons may contact Pedder at 7-2194.

Majors

(Continued from page one)

Bretzwer is one of the pioneers in the field of organizational behavior management. The field, which forms the core of the WMU master's degree program in industrial psychology, seeks to improve performance within organizations through training, organizational feedback and organizational change.

In the 1960s, Bretzwer conducted work with the Center for Programmed Learning for Business at the University of Michigan. His efforts provided impetus to the work of many trendsetters in the field of organizational behavior management.

For 30 years, Bretzwer has worked in adult human learning with his colleagues Marcia Heiman, formerly of Boston College, whose system, "Learning-To-Learn," is one of only three programs in post-secondary instruction ever approved for national dissemination by the Joint Dissemination Review Panel of the U.S. Office of Education.

A WMU faculty member since 1978, Bretzwer has taught 24 different courses on the undergraduate and graduate levels. He also has led classes on 24 different topics for adult and continuing education and for professionals.

He has served as a consultant to 43 educational institutions, including public school systems, colleges and universities and three U.S. state departments of education. In addition, he has been a consultant to 23 private companies.

The author or co-author of eight books and more than 55 papers, Bretzwer currently is editor of the journal of College and Adult Reading and Learning, a consulting editor for Performance Improvement Quarterly and a guest editor for the Journal of Organizational Behavior Management and for the Teacher Education and Special Education Journal.

Libraries candidate to visit

Calvin J. Boyer, a candidate for dean of University libraries, will visit WMU Thursdays and Friday, June 17-18. Boyer has been librarian at the University of California at Irvine since 1980. He will make a brief public presentation at 2 p.m. Friday in 1070 Waldo Library.

There will be an opportunity for questions, and written comments will be solicited.
