Haenicke calls for review of undergraduate curriculum

 президента. "Возьмем несколько "ячей" в которых мы ищем студентов, чтобы мы могли изучить их понимание нашей "ядерной" информации," сказала. "Мы очень строго требуем, чтобы мы были в состоянии вести такого рода обсуждение и активно и упорядоченно."
Fox, Quinn named WMU 'Volunteers of the Year'

Russel N. Fox, vice president and general manager of Harter Inc. of Danville, Ill., and Patrick M. Quinn, president and chief executive officer of Spartan Stores Inc. of Grand Rapids, have been named "Volunteers of the Year" by WMU.

Each is being honored for his work as a volunteer on behalf of the University and has been induced with 15 other persons into WMU's Academy of Volunteers. The academy was established in 1985 to recognize the contributions of volunteers to fundraising at the University.

Fox led an effort by his company to install innovative Hurletron systems valued at more than $120,000 on a printing press in the Printing Management and Research Center advisory committee and the committee that raised funds for the $2.8 million supplement that houses the center. "His work over the past nine years has transcended the dollar value of contributions he has sought and has made a personal ambassadorship on behalf of the University," said Arvon D. B. Ryle, interim chairperson of the committee in nominating Fox for the past three years. "Each of these special friends of Western Michigan University has made a unique and valuable contribution to the education of our students and the enhancement of excellence at the University," said Lee H. Henke, president of the WMU Foundation. This is one opportunity to say 'thank you,'"

"No great public university in the United States today has made its way to a level of excellence without the bounty that raised funds for the $2.8 million supplement that houses the center. "His work over the past nine years has transcended the dollar value of contributions he has sought and has made a personal ambassadorship on behalf of the University," said Arvon D. B. Ryle, interim chairperson of the committee in nominating Fox for the past three years. "Each of these special friends of Western Michigan University has made a unique and valuable contribution to the education of our students and the enhancement of excellence at the University," said Lee H. Henke, president of the WMU Foundation. This is one opportunity to say 'thank you,' said Ryle.

Women's research group wins national award

A local group of researchers has been awarded a "Write Women Back Into History Award" by the National Women's History Project for its publication last year of a newspaper supplement. The Kalamazoo-based Women's History Project earned the award for "The History of Women in Education in Greater Kalamazoo," which was submitted in the area's name to the Western Herald. The award is the first to be given by the National Women's History Project, a California-based non-profit educational consortium that promotes history, consulting services and women's history resources.

"This is an important recognition of having the publication in an accessible (newspaper) format," said Mary Rothschild, project director.

Organizers already are at work on a second publication on the same topic to be published in March 1990, National Women's History Month. The director of the 1990 publication is Mary Frances Fenton, education and professional development.

\"Receiving this national recognition honors us all," she said on behalf of the Women's History Project and the Kalamazoo Women's Research Group. "It is the first of its kind given by the organization," said Mary Rothschild, project director.

A TON OF TUBAS – The field at Waldo Stadium was a sea of shining brass Oct. 28 when participants in the School of Music’s annual OctTUBAfest performed. The "Hymn of Battle" half-time show. Tuba and euphonium players from throughout Southwest Michigan gathered on campus for the event, which ran through Oct. 29. Other activities included a clinic, a recital and a concert in the Dalton Center.

Kalamazoo Invitational Goal Ball Tournament slated for Gary Center gymnasium Nov. 4
Closing in on a five-pound ball traveling at speeds of up to 45 miles per hour while being able to see it might be considered extremely difficult to most people. But to the estimated 150 visually impaired athletes who will be participating in the fifth annual Kalamazoo Invitational Goal Ball Tournament, accomplishing such a feat is like eating a piece of cake.
A five-pound ball will be thrown back at the offensive team, and the defense will attempt to grab the ball and return it to the offensive team.
The tournament will be played in a four-game, round-robin set-up, followed by a four-game, single elimination consolation round.
Trophies will be given to the top three teams in the elimination brackets, and to the winner of the consolation round.
Goal ball was developed in Eastern Europe by blind veterans following World War II. It came to the United States in the 1970s, and is presently played internationally.
The Western Michigan Lakers finished fifth in last year’s national goal ball tournament and are ranked among the top three teams in the country.
The game is fast-paced and rigorous, and is similar to soccer or hockey. It is played on a gymnasium floor with no lines.
Players from each team are positioned at opposite ends of the court and face one another. The basic objective of the game is to roll the ball with enough velocity to force it through the defenders at the other end of the court. If the ball is successfully blocked by the opposing team members, they become the offensive team and attempt to throw the ball back in an attempt to score. Teams score one point when the ball passes the baseline of the opposing team.
In women’s competition, the goal ball is slightly smaller and lighter. It weighs approximately 3.5 pounds, compared to the five-pound ball used by men.
Entries at $40 per team should be submitted as soon as possible. Both men’s and women’s teams from Michigan are invited to play. For more information, please call Paul E. Ponchilla, blind rehabilitation and mobility specialist, at 7-3457 or 222-5125, ext. 5477.

Friday part of exchange
Paul C. Friday, sociology and anthropology, Kalamazoo College, is participating in a professional exchange visit to Germany with four other officials from the Kalamazoo Criminal Justice Commission.
Mr. Friday is chairman of the commission, the group’s members reviewed drug policies, police practices, police training and rehabilitation programs. They met with German judges, prosecutors, police and corrections officials. The latest crime and detection technologies, not yet available in the United States, were shared with the officials.
Also participating were Richard Ryan, law enforcement, and June E. Carr, Kalamazoo County sheriff; and John Ross, Kalamazoo Department of Public Safety chief.
