Record number to be inducted into 25 Year Club

A total of 44 faculty and staff members will be inducted into the University's 25 Year Club at a banquet Tuesday, Dec. 12, in the North Ballroom of the Bernhard Center.

This is the largest group of people to be inducted since the club was founded in 1982 with 98 charter members. The club, which will now have 173 active and 102 retired members, recognizes those employees who have 25 or more years of continuous service to WMU. New and active members are guests of the University for the evening.

Members and guests will be welcomed and introduced by Barbara S. Liggett, associate vice president for human resources. New members will be inducted by President Haenicke. The WMU Gold Company II, directed by Donald H. Geiger, president, will present its new show and the program.

The group will be introduced by Robert M. Bean, vice president for business and finance. A social hour will precede the dinner and the program.

Those to be inducted include: Ralph W. Allen, physical plant-management services; Triantafillo D. Argyropoulos, art; Harold L. Bate, speech pathology and audiology; George T. Beech, history; Thomas R. Bower, Bookman; Richard T. Burke, vice president for business and finance. A social hour will precede the dinner and the program.

The event, which is free and open to the public, will be preceded by a reception at 3:30 p.m. in Red Room A of the Bernhard Center. The speech will be broadcast at 6:30 that evening on WMUK-FM (102.1).

Board to meet Dec. 15

The Board of Trustees will meet at 11 a.m. Friday, Dec. 15, in the Board Room of the Bernhard Center. These Board committee meetings also are scheduled for that date in the Bernhard Center: Academic and Student Affairs Committee at 9:30 a.m., in Room 204; and Budget and Finance Committee at 10:15 a.m. in Room 205.

Celebration will take place at the west circle drive in front of the Bernhard Center and will be preceded by a reception at 11:30 a.m. Tuesday, Dec. 12. The dedication will take place at the west entrance of the circle drive off West Michigan Avenue.

Archer Drive to be dedicated

The circle drive in front of the Bernhard Center will be named in honor of Western Michigan Supreme Court Justice Dennis W. Archer in a public ceremony at 11:30 a.m. Tuesday, Dec. 12. The dedication will take place at the west entrance of the circle drive off West Michigan Avenue.

Michael to present colloquium

Jack Michael, psychology, will present Distinguished Faculty Scholar Colloquium at 4 p.m. Tuesday, Dec. 12, in Red Room B of the Bernhard Center. Michael, who was presented with the Distinguished Faculty Scholar Award at the Academic Convocation in October, will speak on "A Behavioral Perspective on College Teaching."

The award, WMU's highest honor for a faculty member, carries with it the opportunity for the recipient to participate in a colloquium. The event, which is free and open to the public, will be preceded by a reception at 3:30 p.m. in Red Room A of the Bernhard Center. The speech will be broadcast at 6:30 that evening on WMUK-FM (102.1).

WMU wishes, through this formal program, to recognize the contributions made to the University by employees who have committed their careers to WMU.

The University wishes, through this formal program, to recognize the contributions made to the University by employees who have committed their careers to WMU.

The event, which is free and open to the public, will be preceded by a reception at 3:30 p.m. in Red Room A of the Bernhard Center. The speech will be broadcast at 6:30 that evening on WMUK-FM (102.1).

Archer Drive to be dedicated

The circle drive in front of the Bernhard Center will be named in honor of Western Michigan Supreme Court Justice Dennis W. Archer in a public ceremony at 11:30 a.m. Tuesday, Dec. 12. The dedication will take place at the west entrance of the circle drive off West Michigan Avenue.

Michael to present colloquium

The speech will be broadcast at 6:30 that evening on WMUK-FM (102.1).

Board to meet Dec. 15

The Board of Trustees will meet at 11 a.m. Friday, Dec. 15, in the Board Room of the Bernhard Center. These Board committee meetings also are scheduled for that date in the Bernhard Center: Academic and Student Affairs Committee at 9:30 a.m., in Room 204; and Budget and Finance Committee at 10:15 a.m. in Room 205.

Miovance ceremonies set for Dec. 16

WMU will commence more than 1,500 degrees in commencement exercises at 11 a.m. Saturday, Dec. 16, in Read Fieldhouse. In addition, two persons will be presented with honorary degrees during the ceremonies.

Tadao Ishikawa, president of Keio University in Japan, will receive an honorary doctor of public administration degree. WMU has maintained relations with Keio University, widely regarded as Japan's premier university in Japan, for the past 27 years and has had a student exchange agreement with the school since 1982. Ishikawa, who holds bachelor's and doctoral degrees from Keio, has been president of that university since 1977. Before becoming president, he served as a vice president and as dean of the law faculty there.

James B. Wyngaarden, who served as director of the National Institutes of Health from 1982 until earlier this year, will be awarded an honorary doctor of science degree. He attended WMU in 1941-44 as part of the U.S. Navy's V-7 program and was presented with WMU's Distinguished Alumni Award in 1994. In addition to directing the world's largest research institution, Wyngaarden has written more than 200 research papers for professional journals and 15 books and monographs on such topics as inherited diseases, internal medicine and general medicine.

Music for the ceremony will be performed by the University Symphony and the WMU Wind Ensemble, under the direction of Richard Suddesdorf, music. The national anthem and the alma mater will be sung by the University Singers and the Sinfonia professional music fraternity. Father Thomas S. Vesbit of St. Stephen's Church in Grand Rapids will give the invocation and benediction.

A total of 1,350 bachelor's, 436 master's and specialist's and 19 doctoral degrees will be awarded.
Kalamazoo County joins WMU groundwater survey

Residents and officials of Kalamazoo County will have access to detailed computerized information about county groundwater resources, thanks to an innovative use of the state cigarette tax.

Kalamazoo County has become the 19th member county in the Michigan Groundwater Survey (MGS), a five-year-old groundwater monitoring program run by WMU's Science for Citizens Center. County and University officials announced the move at the Nov. 30, 2011 meeting of the MGS membership and board of directors.

The county's participation in the effort will be financed by part of its allotted portion of the state cigarette tax, says Patrick Krause, environmental health program manager for the Kalamazoo County Human Services Department. The funding arrangement, he says, was approved earlier this year by the Kalamazoo County Board of Commissioners. Commissioners also approved cigarette tax funds for public health programs that focus on AIDS prevention and curbing infant mortality rates in the county.

The $490,000 allotted for groundwater work in the county, Krause says, is being employed to employ two new staff members dedicated to water work. They are using WMU's computerized groundwater data base system to record and study well data.

The MGS is a microcomputer-based groundwater management and monitoring system developed at WMU beginning in 1984. The intent of the program, says Donald J. Brown, Science for Citizens Center, is to put existing and newly gathered data about county's groundwater resources into the hands of local government officials to help them manage and protect the resource and to safeguard public health. The computerized information includes well records and the results of chemically analyzed water samples drawn from different areas of most counties.

Using a personal computer to access such data allows local officials to make decisions about where industrial, waste, commercial and residential facilities should be located, he adds.

Brown notes that several water experts from around the state are very excited about the Kalamazoo officials on county ground-water matters for a number of years. Having the county become a fully participating member of the MGS decision-making, he says, "also links Kalamazoo County with the other counties which also are outstanding examples of doing the job for Michigan groundwater problems."

Groundwater information is a long-term county concern, according to Krause. He notes the information gained by applying the MGS data base system will be of particular value locally because "all of Kalamazoo County is dependent on groundwater. Not only people who have their own wells, but those who live in cities as well, depend on drinking water that is drawn from groundwater."

Initially, he says, access to the information and help in planning the program rely on the county's planning department and what he calls the "stately pace" the county has proven valuable to the department.

"It is our hope that in the future," he says, "we'll not only be working with local governments on zoning and land use information, but we'll also be involved with municipal water supplies in well head protection projects."

The Michigan Groundwater Survey is a joint effort by WMU, local health departments and state agencies that was designed to serve as a model for the state. In 1985, the W.K. Kellogg Foundation of Battle Creek awarded WMU $418,571 for a three-year pilot project to monitor groundwater quality in five counties -- Calhoun, Barry, Berrien, Eaton and Ingham.

Well and water tower townships in these counties as well as additional counties were financed by a state Department of Public Health grant. The five counties, including Kalamazoo, had previously been funded by the C.S. Mott Foundation of Ann Arbor.

Though not a part of the MGS, Ottawa County has been similarly surveyed and the data collected by WMU staff members at WMU, the University of Michigan, and Kellogg Community College.

In all, the MGS has computerized records of more than 30,000 Michigan wells, representing 5.3 percent of all wells in the state. Between 10,000 and 15,000 Kalamazoo County well records eventually may be added to that data base. Brown reports that requests for information about the survey have come from several other Michigan counties. Recently, Brown says, the MGS focus has begun to shift from gathering and disseminating water and water sample information to applying that information to local member of the MGS, including those who have worked on water quality in five counties. Now that surveys of all of the areas for which original funding was secured are complete, a number of new initiatives are being considered.

One possibility, he says, is an attempt to measure the effects of local water quality on health. Comparing the now-accessible data base of groundwater with public health records in member counties may lead to events that could link specific water quality deficiencies with increases in specific health problems, he says. Evidence of good water quality on the other hand, is a prime factor in regional growth and economic development.

CECP faculty members honored

Five faculty members in the Department of Counseling Education and Counseling Psychology have been honored by Michigan professional organizations for their contributions.

Those receiving Betz awards at the Michigan Association for Counseling and Development’s annual convention Oct. 14 at the Shanty Creek Convention Center in Bellaire were Alan Hovestead, chairperson, and faculty members Richard Geiser and Joseph R. Morris. Robert L. Betz was honored at the annual conference of the Michigan Psychological Association Oct. 21 in Traverse City.

The MAC and the professional organizations under it, the Michigan Association for Counseling Education and Supervision and the Michigan Psychological Association, each year honor individuals in counselor education and psychology who have been outstanding in teaching, research and professional service.

Carlson and Geisler received the Legislative Service Award from the Michigan Association for Counseling Education and Supervision’s Professional Service Award for his active involvement in the organization and the profession. He is the second WMU faculty member to receive the award.

Morris was honored with the MAC’s Past-President’s Award for service to the profession during his term as president from July 1988 to June 1989. He was the organization’s 24th president.

Betz received the Master Lecturer Award from the Michigan Psychological Association for outstanding teaching and research in the field of psychology. He is the first WMU faculty member to receive the award.

Nobel laureates: essays published

The essays are based on lectures presented at WMU during the 1988-89 academic year on the occasion of the 25th anniversary of an annual lecture-seminar series which is the direction of the faculty Teleconferencing service can handle eight parties

A new teleconferencing service is now available through the Department of Telecommunications.

Previously, administrative telephones were set up so only three people could converse at one time. Now, by setting up a conference call with the Department of Telecommunications, up to eight parties can be brought together on the telephone.

The service includes options where WMU faculty members at one call will be responsible for paying the long distance charges for all calls or where each person will be responsible for his or her own long distance charges. A 10 percent discount is available for charging for setting up the conference call.

For more information, persons should contact Judith A. Priest, telecommunications, at 74663.
Career development opportunity available next semester for clerical/technical employees

Beginning winter semester, a group of clerical/technical employees will be selected for training. The purpose is to take advantage of a new career development opportunity.

Through the joint efforts of the Department of Human Resources and the Clerical/Technical Organization, a Certified Professional Secretary Review Course is being offered. The program is designed for employees to enhance their professional development through completion of a nationally recognized program.

The Certified Professional Secretary designation is administered by the Professional Secretaries International, a professional organization for secretarial and clerical workers, when persons receive a passing score of 70 percent on six sections of an examination given each year in May and November.

The study course is designed to prepare participants for the examination, which covers the following topics:

- business communication; and office technology.
- behavioral science in business
- business accounting
- office administration and secretarial science
- contingency planning
- legal aspects of business
- public relations
- personnel administration
- business organization
- professional ethics
- computer fundamentals
- professional English

To be eligible, persons must have a satisfactory performance rating for 1988; be an hourly-paid Crr employee; receive a written employment form from their supervisor or department manager (a supervisor will be a Certified Technical Organization member); and commit to attending a set of classes from 9 a.m. to 4 p.m. several times between Jan. 20 and April 21 at Kalamazoo Valley Community College.

The examination will be given Friday and Saturday, May 4-5. Participants will be paid $40 to cover the cost of the test, but must attend classes and complete study assignments on their own time.

Applications for the program are due April 15, 1989. Participants will be notified of their eligibility before the test, but must attend classes and complete study assignments on their own time.

For more information on the course is being mailed to all Crr employees this week. Successful completion requires 20 hours of classroom time and the support staff in their departments who would benefit from this opportunity.

Too many children think of Butch Cassidy and Wild Bill Hickock when they think of the American West, say two WMU educators who would benefit from this opportunity.

"The American West book designed to give today's youth a realistic look at American West

A group of 25 to 35 CTE employees will be selected for training. The purpose is to take advantage of new training opportunities available through a joint venture between the Organization and the Department of Human Resources, with the goal of adhering to the University's commitment to affirmative action. The University is funding the program as a cost not to exceed $10,000, which is to be paid by employees.

To be eligible, persons must have a satisfactory performance rating for 1988; be an hourly-paid CTE employee; receive a written employment form from their supervisor or department manager (a supervisor will be a Certified Technical Organization member); and commit to attending a set of classes from 9 a.m. to 4 p.m. several times between Jan. 20 and April 21 at Kalamazoo Valley Community College.

Decking the halls

Decorations like this holiday display help Gar- ner-Heath Hall, part of the Goldsworth Valley II complex, win this semester's HOME P.R.I.D.E. (People Really Interested in Developing the Environment) award. Picture here are, from left, Paul M. Emenheiser, a sophomore from Wyoming who is president of the house council, and Juno Smalley, halls director. The award is designed to recognize the halls that make the most effort to promote a good environment for their residents. Judging done by representatives of the residence hall life and residence hall facilities office and the Residence Hall Association shows Garner-Heath received $400 for its treasury for keeping the halls cleaned up, keeping vandalism to a minimum, keeping lights on, maintaining aesthetic improvements by decorating lobbies and bulletin boards.

Meeting, Board of Trustees, Board Room, Benner Center, 11 a.m.
Holiday reception for faculty and staff sponsored by President Haenicke and the Board of Trustees, South Ballroom, Benner Center, 2:30-4:30 p.m.

Saturday/16
Commencement, Read Fieldhouse, 11 a.m.

Hemphill writes book on OT assessment

Barbara J. Hemphill, occupational therapist, is the author of a newly published textbook titled, "Card File on Occupational Therapy Assessment in Mental Health." It is a manual designed to be used as a reference file to assist therapists in selecting assessment tools in occupational therapy mental health. An assessment is an evaluation by the therapist that measures a client's level of functioning, both psychologically and physically. It helps to identify the patient's needs, enabling the therapist to determine client goals.

"My new textbook," Hemphill said, "examines the patient as a whole being. It also contains information on research and materials which will further and the therapist.

WMU featured in new book

WMU is one of several university businesses and organizations featured in a new book, "Kalamazoo County: Where Quality Is a Way of Life."
The volume recently was produced in cooperation with the Kalamazoo County Chamber of Commerce and its participating member firms. Written by Kalamazoo author Fred McTaggart, the book chronicles the county's past successes and present vitality, with a look toward its promising future.

More than 100 photographs and illustrations, many in full color, trace the growth and vitality of Kalamazoo County from its earliest days to the present. The book is available through area bookstores, including Waldenbooks and B. Dalton.

Sky Broncos capture second regional competition

The Sky Broncos, WMU's precision skydiving team, was second place in the Regional Interscholastic Flying Association's regional meet. The team finished behind Ohio State University in the competition, which took place Oct. 18-19 at Kent State in Ohio.
The Sky Broncos earned the team sports trophy and had the top female pilot, Jamie E. Shumaker, a freshman from Kalamazoo. Erik R. Rankin, a senior from Ann Arbor, was first in power-on landings and Jon A. Lauritzen, a senior from Hudsonville, was first in modified flight computer events.
The NIFA competition emphasizes safety. Pilots are tested on their knowledge of flight rules, flying skills and safety procedures. In addition to WMU and Ohio State, teams from Kent State and Bowling Green State universities competed.

Arts and sciences scholarships available

Faculty and student members are asked to remind students that applications for the College of Arts and Sciences Merit Scholarship are now available. The award is for $1,000 and applications must be submitted to the department in which the student is majoring by Thursday, Feb. 1.

To be eligible, students must have at least sophomore standing, a minimum 3.0 GPA and be a Kalamazoo County resident. Applications are available from the Academic Advising office.

Sluyter chairs AAMR group

David J. Sluyter, Center for Human Services, has been elected to a three-year term as chairperson of the psychology division of Region IV of the American Association on Mental Retardation.
The AAMR is a multi-disciplinary professional organization of individuals who work, teach and conduct research in the area of mental retardation. Region IV, the Great Lakes area, including Michigan, Wisconsin, Illinois, Indiana and Ohio and Ontario.

C/T/O sells poinsettias

Orders are now being taken for red poinsettia with green leaves and white poinsettia with four to five blossoms.
The price is $6 per plant.
To place an order, call Debra R. White at 7-4264 or Edith Walters at 7-4262.
The last day to order is Friday, Dec. 8.
The plants may be picked up between noon and 2 p.m. or 6 p.m. Monday through Tuesday, Dec. 11-12, in the Bronco Mall.
