He was thrown through the auto's back window. Timberlake's on-campus address is 527 Harrison Hall. He expects to be back in class in about 10 days.

## Offer Open Military Admissions

WMU has entered into a cooperative open admissions program with the U.S. Army whereby men and women who qualify for military duty may enroll at Western while still on active duty.

That announcement was made at a special Veterans Day news conference Monday by Dr. Myron L. Coulter, WMU vice president for administration; Clayton Maus, WMU dean of admissions, records and registration; and Capt. Francis Crown, Southwestern Michigan U.S. Army recruiting commander.

Although the initial discussions have been with the Army, the open admissions program is open to all U.S. branches of military service Coulter said.

Under terms of the agreement, military personnel may enter WMU while still on active duty, take courses at Western or at other accredited institutions of higher education while on duty, and complete their degree at WMU after completion of their military enlistment.

"Western becomes a repository for all college credit earned while the individual is on active duty,"

## Open Insurance Enrollment Ends

The benefits section of the University Personnel Department encourages all eligible employees to check their group insurance status prior to Oct. 31, so that enrollment in any of the three group insurances may be completed by 5 p.m., Thursday, Oct. 31.

Any employee who has previously been denied coverage, should contact the University Personnel Department to determine eligibility.

Any enrollments in group insurance (Life, Long Term Disability, and Hospital-Medical) completed prior to Oct. 31, will not require evidence of insurability. Enrollment may be completed by visiting the University Personnel Department, Benefits Section, to sign the necessary forms.

## Emeritus Chem. Professor Dies

James W. Boynton, WMU emeritus professor of chemistry, died Oct. 9 at the Verdries Nursing Home, Kalamazoo, following an extended illness. He joined the WMU faculty in 1924 and retired with emeritus status in 1968.

Boynton was born in St. Ignace, Mich., on Nov. 24, 1897. He earned his bachelor's degree (1924) from Western Michigan and his M.S. (1937) from the University of Michigan. He served in World War II as a Lt. Col. in the Chemical Corps.

He is survived by two sons and four daughters. Memorials may be made to the American Cancer Society.

### Gives Keynote Talk

The keynote speaker at the recent institute sponsored by the National Association of Secondary School Principals and American Association of School Librarians was Marilyn Miller, WMU associate professor of librarianship.

The institute, held at Lake of the Ozarks, Mo., featured a team work approach to educational media. Miss Miller presented a new publication "Media Programs: District and School" and discussed techniques of assessing school media programs.

explained Maus. "Western will open and maintain an active record file for each participant and also will assign an advisor to each student while they are still on active military duty," he continued.

Western's first participant in the open military admissions program is Katherine R. Muir, 18, of Route 5, Three Rivers, Mich. She is the daughter of Mr. and Mrs. Christian Muir and a 1974 graduate of Three Rivers High School. She has been accepted in the Army's delayed enlistment program and expects to report for active duty on Nov. 19.

Western is the second 4-year public institution of higher education in Michigan to participate in the program. Eastern Michigan was the first school nationally; now, there are more than 200 colleges and universities cooperating in the program and many more are discussing participation.

Additional information may be obtained by contacting the WMU Admissions Office; Stan Coleman, WMU campus veterans representative; or your local Army recruiting office.

## Okay \$56 Million Budget Request

A 1975-76 general fund budget request totaling \$56,054,000 has been approved by the WMU Board of Trustees.

That's \$8,262,000 more than the 1974-75 WMU base, explained Robert B. Wetnight, vice president for finance. The requested increase includes \$5,138,000 for inflationary price increases and \$3,124,000 for program revisions.

## Receive Gifts, Grants

Gifts and grants received in September totaling \$387,483 have been approved by the WMU Board of Trustees.

The total includes \$286,932 for instruction, \$49,443 for research, \$11,452 for student aid, \$31,350 for public service, and \$8,305 in other gifts.

Robert B. Wetnight, vice president for finance, told the Board of a \$241,957 instructional grant from the U.S. Department of Health, Education and Welfare, Social and Rehabilitation Service. The grant is a renewal for training teachers in orientation mobility and rehabilitation in Western's department of blind rehabilitation.

He noted that this was the 14th renewal of support for the WMU project. These grant monies total \$2.4 million.

WMU President John T. Bernhard pointed out that Michigan public higher education received 16.8 per cent of this year's state budget as compared to approximately 27 per cent of the state's 1966 budget. "Higher education's relative position has declined as competition for tax dollars has increased from other social services," he said.

An analysis by sub-category follows: instruction, \$28,198,000; organized research, \$307,000; public service, \$470,000; academic support, \$6,338,000; student services, \$3,123,000; financial aid, \$2,468,000; and institutional support, \$15,150,000.

Western's request will now be forwarded to the Bureau of the Budget for review as the Governor prepares his budget recommendations to the Legislature.

In other action, the Board appointed three standing Board committees on budget and finance; capital outlay; and student services.

Committee members are: budget and finance—Charles H. Ludlow, chairman, John R. Dykema and Philip Watterson; capital outlay—Fred W. Adams, chairman, Mildred L. Johnson, and Dr. Julius Franks, Jr.; student services—Mildred L. Johnson, chairman, Maury E. Parfet, and Dr. Julius Franks, Jr.

## Bernhard Reduces Penalties

President John T. Bernhard has reduced the penalties imposed upon two freshman coeds who pulled a false fire alarm in the Eldridge-Fox complex during the first week of this semester. He announced his decision in a letter to Tom Coyne, vice president for student services. The text of that letter follows:

"On October 16, 1974, in accordance with Section 304.04 of the University Judicial Hearing Procedures, I heard the joint appeal of Maureen Fitzgerald and Angela Pasula. These two students had filed an appeal request on October 7, 1974, in the Office of University Judicials, maintaining that the sanction imposed by Dean Donnelly and the Court of Four was 'unreasonable.' You and Attorney John Hurley were also present at the October 16 session in my office.

"After hearing the various explanations and arguments offered, carefully studying all the available documentation (including information provided by Dean Donnelly and the Court of Four), and weighing the complex circumstances surrounding this particular case, I have made the following decision:

"That Ms. Fitzgerald and Ms. Pasula be placed on disciplinary probation for the remainder of Fall Semester 1974, and for the entire Winter Semester 1975.

"That Ms. Fitzgerald and Ms. Pasula shall each be assigned five (5) hours of social service activity per week, covering the period from October 28, 1974 until the end of Winter Semester 1975. This service should be supervised by your office, and if at all possible it should be assigned in the area of fire prevention or fire safety.

"That Ms. Fitzgerald and Ms. Pasula shall be suspended immediately from the University if they violate the terms of their 1974-75 probation, including the social service requirements assigned through your office.

"I appreciate the gravity of the misconduct committed by Ms. Fitzgerald and Ms. Pasula, and I have given a great deal of thought to the 'potentially catastrophic consequences' mentioned by the Court of Four. One of my most anxious concerns is that the University community will not take this case and its implications seriously. If such an apathetic result really did occur, I fear that the consequences could be unfortunate indeed.

"However, I am convinced that the

University community now is fully aware of the serious problem we face if false fire alarms occur on our campus in the future. This particular case has stimulated much discussion and publicity, thereby bringing needed attention to a threatening situation. Put in a more direct way, I believe that all of us at Western have 'learned a lesson'—along with Ms. Fitzgerald and Ms. Pasula. Certainly, the issue is critical enough to demand our collective attention. Therefore, I do concur wholeheartedly in the emphasis provided by both Dean Donnelly and the Court of Four.

"But, as University president, I am also very much concerned about the educational environment in which our students undertake their studies. Ms. Fitzgerald and Ms. Pasula have indeed committed a serious offense, to which they freely confessed, and they suffered penalties of fine and jail sentence—levied in accordance with the appropriate process of law.

"However, they are also students and as such are subject to the rules and standards of the University. It is imperative therefore for the University to weight the consequences of continued attendance by some of its students, especially when a threat of damage or injury may be suggested by this continuation. Such a difficult responsibility befalls me as president of the University.

"After carefully weighing all the factors involved in this particular case, I have concluded that the request of Ms. Fitzgerald and Ms. Pasula, to continue their education at Western Michigan University, should be granted. Educational and humane considerations, which should be at the heart of any university, have led me to the conviction that both these students should be given another opportunity to achieve maturity and further learning at Western."

## Present Physics Paper

Two members of the physics department faculty presented papers at the recent fall meeting of the Michigan section, American Association of Physics Teachers, at Hope College. Dr. Haym Kruglak, professor, and William Merrow, laboratory coordinator, discussed "Modernizing a Lecture Table Meter." They were assisted in their research on the project by Keith Mickle of Auckland, New Zealand, a former WMU electronics technician.

## Broncos Tackle Miami on Road

Facing Miami University on its home field in Oxford, O., has been a difficult assignment for past WMU football teams and Saturday's task is further compounded by a combination of exceptional Redskin strength and key Bronco injuries.

Miami, under first-year Coach Dick Crum, sports a 6-0-1 record and outright leadership in the Mid-American Conference race at 3-0, after knocking off Toledo, 38-22, on Saturday. Toledo had entered that affair unbeaten in three loop outings.

Examine and make recommendations related to the separate structures and functions of women's, men's and general physical education; study the organization and functions of the athletics programs as they relate to physical education, including personnel, facilities and program content; study the structure and function of the sports information program; and study any relevant issues which emerge from the committee's deliberations.

Members of the committee are: Barbara Beadle, a junior in recreation from Big Rapids, Mich.; Chauncy Brinn, assistant to the vice president for academic affairs; Harry Contos, Kalamazoo attorney and WMU alumnus; Jean Friedel, associate professor of physical education for women; Martin R. ## Pharmacy Lists New Services

Pharmacy services are now available to all Western faculty and staff at the WMU Health Center pharmacy as part of the overall compensation program approved by the Board of Trustees.

To establish an initial rapport and avoid conflicts, the pharmacy has announced policies and procedures which must be followed. These are:

- Prescriptions will be filled for a faculty or staff member's immediate family only. This includes "any person living in your home for whom you are financially responsible."
- Without exceptions, pharmacy hours are 9 a.m. to 5 p.m. Monday-Friday, and 9 a.m. to 12 noon, Saturday.
- The service consists of price advantages only. Thus, insurance and tax records will not be provided. Insurance forms are available from the personnel department for the individual to complete.
- Although the Generic Substitution Law is not effective until April, 1975, the State Contract has provided the Health Center pharmacy with generic and biological equivalent drugs since its inception in 1968. Thus, in many instances, the product dispensed by the pharmacy may look completely different in physical appearance than the product purchased previously, but the pharmaceutical ingredients are exactly the same. Also, the products dispensed are of the highest quality.
- The present inventory of prescription medications is limited in scope, so occasionally medication will need to be special ordered. It can usually be obtained within 48 hours.
- Money is not handled at the pharmacy window. An identification card must be presented to the person at the "check in" window in the lobby. You will be given a purchase form for the pharmacy, which will be presented with the prescription. When the prescription has been filled, the purchase form is presented to the cashier with payment. The Master Charge cards and Bank Americards are acceptable for billing purposes.
- The pharmacy keeps no records, and is not open in the evenings, on weekends or holidays. Also, the Center is not open when school is not in session. Faculty and staff are responsible to anticipate prescription needs during these periods.
