President's Message

Reading Horizons is designed to share information concerning current practices and promising trends in reading instruction, to stimulate interest in new reading methods and materials, and to encourage experimentation and action research in the teaching of reading.

This quarterly, under the leadership of the editor, Homer L. J. Carter, is jointly produced by the Western Michigan Chapter of the International Reading Association and the Psycho-Educational Clinic of Western Michigan University.

It is hoped that members of the association will not only enjoy reading and using *Reading Horizons* but will also contribute their ideas and experiences to its future publications.
