A REPORT OF AN INTERNSHIP
IN THE KALAMAZOO PUBLIC SCHOOLS
KALAMAZOO, MICHIGAN

Barbara J. Wright, ED.S.
Western Michigan University, 1979

This report summarizes a six-weeks internship in the Kalamazoo Public School System served during the summer of 1979.

The purpose of the internship was to introduce the intern to the roles, duties and responsibilities of the Personnel Director of the Employees Services Department of the Central Office.

The primary areas studied were research data, unemployment data, interviewing procedures, planning functions, labor relations and affirmative action.

This report includes a daily journal of activities and experiences, a narrative regarding achievement of specific objectives and additional material pertinent to the internship. The latter includes: A chart of the intern's Selection Research Inc. (SRI) interview progress and some of the reports drawn up or designed by the intern. Many reports were omitted because of the confidentiality of the material.
ACKNOWLEDGEMENTS

I wish to thank Dr. Harold Boles for arranging my internship and working with me in my program. Thanks also to Dr. Carol Sheffer for supervising my internship, and to the Administration of the Kalamazoo Public Schools for allowing me to work with them.

A special thanks to Mr. Mahlon Lantz, Ms. Karen Wise and the staff of the Employees Services Department for making my stay educational as well as enjoyable.

Mr. Richard Wright deserves a big "thanks" for his support and understanding during this internship and the years of classwork. Without his patience and help, I would not have been able to complete my work.

Barbara J. Wright, ED.S.
INFORMATION TO USERS

This was produced from a copy of a document sent to us for microfilming. While the most advanced technological means to photograph and reproduce this document have been used, the quality is heavily dependent upon the quality of the material submitted.

The following explanation of techniques is provided to help you understand markings or notations which may appear on this reproduction.

1. The sign or “target” for pages apparently lacking from the document photographed is “Missing Page(s)”. If it was possible to obtain the missing page(s) or section, they are spliced into the film along with adjacent pages. This may have necessitated cutting through an image and duplicating adjacent pages to assure you of complete continuity.

2. When an image on the film is obliterated with a round black mark it is an indication that the film inspector noticed either blurred copy because of movement during exposure, or duplicate copy. Unless we meant to delete copyrighted materials that should not have been filmed, you will find a good image of the page in the adjacent frame.

3. When a map, drawing or chart, etc., is part of the material being photographed the photographer has followed a definite method in “sectioning” the material. It is customary to begin filming at the upper left hand corner of a large sheet and to continue from left to right in equal sections with small overlaps. If necessary, sectioning is continued again—beginning below the first row and continuing on until complete.

4. For any illustrations that cannot be reproduced satisfactorily by xerography, photographic prints can be purchased at additional cost and tipped into your xerographic copy. Requests can be made to our Dissertations Customer Services Department.

5. Some pages in any document may have indistinct print. In all cases we have filmed the best available copy.

INTRODUCTION

This report summarizes a six-weeks internship in the Kalamazoo Public School System served during the summer of 1979.

The purpose of the internship was to introduce the intern to the roles, duties and responsibilities of the Personnel Director of the Employees Services Department of the Central Office.

The primary areas studied were research data, unemployment data, interviewing procedures, planning functions, labor relations and affirmative action.

This report includes a daily journal of activities and experiences, a narrative regarding achievement of specific objectives and additional material pertinent to the internship. The latter includes: A chart of the intern's Selection Research Inc. (SRI) interview progress and some of the reports drawn up or designed by the intern. Many reports were omitted because of the confidentiality of the material.
BACKGROUND OF THE KALAMAZOO PUBLIC SCHOOLS

The service area of the Kalamazoo Public Schools encompasses a multi-cultural/multi-ethnical urban area. The school district employs approximately 2400 employees to operate 23 elementary schools; 5 junior high schools; 2 Class A high schools; 3 Special Education schools; a Skills Center; a Continuing Education program for young women, young parents and their children; an Adult Education program and a Community Learning center. The Kalamazoo Public Library is also under the jurisdiction of the Kalamazoo School Board.

The Kalamazoo Public Schools encompass nine bargaining units representing the Bus Drivers (Teamsters), the Food Service Employees, the Food Service Managers, Office Personnel (K.A.E.O.E.), the Kalamazoo Education Association (K.E.A.), the Teacher Aides (K.A.T.A.), Maintenance (Teamsters), the Kalamazoo Association of Public School Employees (K.A.P.S.E.), and the Media Assistants.

Four of these units were involved in negotiations of new contracts with the Kalamazoo Public Schools at this time; K.A.E.O.E., K.A.T.A., Food Service Employees and the Mainenance Union.

The Employee Services Department which was located in the Central Administration Building was the site of this internship. Mr. Mahlon Lantz is the director of the department. Mr. Jerry Flowers was the assistant director, but he left to accept another position a week after the internship began.
Ms. Karen Wise, Personnel Supervisor, worked her way up to her current position from an office employee. The office staff was just reduced from six to four woman. One was moved to another department and the other went from a 12 month employment status to a 10 month status. This left two secretaries and a receptionist working in the office for the summer.

With the reduction of staff in the Employee Services Department, there were many opportunities for my involvement in a wide variety of tasks.

The working relationship between myself and the staff was excellent. Everyone assisted me in feeling welcome and treated me as a member of the staff. The result was a very rewarding and educational internship.
DAILY JOURNAL

June 11th

I met with Mr. Lantz and Dr. Boles to discuss my internship and the general objectives. I presented Mr. Lantz with a personal data sheet to give him some knowledge of my background. We established June 25th as the day that I would begin my internship and made an appointment for June 14th to discuss specific areas of responsibilities for my internship.

June 14th

I met with Mr. Lantz and his associate, Karen Wise, Personnel Specialist. We discussed possible areas of involvement for my internship. These areas included:

1. Research data, including salary projections, and updating desegregation reports.
2. Unemployment benefits and claims.
3. Interviewing, including the SRI method.
4. Planning, including utilization of laid-off teachers.
5. Labor Relations, including observing negotiations and grievance proceedings.

First week

My first week was busy. It was the only week that Jerry Flowers, Assistant Director, was there. I spent a lot of time
with him learning all I could about Affirmative Action and Title IX, as these were his areas of responsibility.

I also became active in the interview process of candidates for the position of Specialist of the Gifted and Talented. This whole process was completed during the week with the exception of obtaining Board approval.

I was able to attend a K.A.E.O.E. negotiation session and started working on a report to assist in the economic package for these negotiations.

June 25th

I reported for my first day. Mrs. Peterson, Mr. Lantz's secretary, gave me a tour of the building and introduced me to the staff. I met with Jerry Flowers, Assistant Personnel Director, and discussed the interview of candidates for the position of Specialist of the Gifted and Talented. They are interviewing five candidates this week and I will be observing these interviews. I observed the first of these interviews conducted by Mr. Flowers and Mrs. Lee Jamison, Coordinator of Instructional Media Services.

I met with Mr. Lantz and Mr. Flowers to discuss my responsibilities as they relate to my objectives. I received some material to review.

I met again with Mr. Flowers and discussed Affirmative Action, Title IX, Student Services, including Bilingual Education, Migrant Services, Student Service Leaders, Native American Programs and the busing situation. He referred me to volumes of files for further reading in these areas.
I attended a board meeting at the Kalamazoo Public Library. The library is controlled by the Kalamazoo Board of Education. The Employee Services Department also serves the library.

June 26th

I met with Mr. Lantz and Mr. Flowers and received materials to begin working on a salary projection of the office personnel. I observed an interview of a candidate for the position of Specialist of the Gifted and Talented.

I contacted Upjohn Institute regarding the Consumer Price Index for Mr. Lantz and checked with the Public Library to obtain information for the salary projection.

The remainder of the day, I spent working on the report and reviewing various other reports as background information.

June 27th

I met with Mr. Lantz, Mr. Flowers and Mrs. Jamison regarding the progress in our interviewing. I observed two additional interviews of candidates for the Specialist position.

Mr. Lantz recommended that we set weekly meetings to discuss my progress and we agreed to do this each Monday morning. He also received permission for me to sit in on a negotiation session with the K.A.E.O.E., the Kalamazoo Association of Educational Office Employees, this evening.

I registered at Western during my lunch hour at which time I learned that Dr. Sheffer would be my faculty sponsor for the summer. I relayed this information to Mr. Lantz and he is looking forward to meeting her.
I worked on the payroll projection. Mr. Lantz asked me to research an employee's pay record from the time of his employment to date, outlining the pay and benefits that the employee had received.

Mr. Lantz and I conferred with Mr. Al Flowers, Executive Director of Administrative Affairs and Chief Negotiator, regarding tonight's negotiations. I received materials to review for that session and was asked to take notes during the session.

I attended negotiations and the caucus with the board team for K.A.E.O.E. negotiations. It was very interesting and educational. I kept notes of the meeting for the file.

June 28th

I reviewed a file on an arbitration case. I completed the office employee's pay summary and started on the benefit section of the report.

I observed the final interview and met with the committee to discuss the qualifications and to select one candidate to recommend to the board for the Specialist position. This gave me an opportunity to compare my ratings of the candidates interviewed with those of the other interviewers.

June 29th

I worked on projection of benefits for the office employees. I went to data records to obtain achievement test scores for the students of the teachers who we selected for the
Specialist position. I compiled these to be used in the board presentation. I did some more reading in background areas.

Second week

I moved into Jerry Flowers' office, which I would be able to use for the remaining weeks. This was a short week due to the holiday and my not working Monday morning.

I attended a lot of meetings, including my first grievance hearing. I worked on various reports, reviewed background material and had an opportunity to observe a board meeting.

July 2nd

I worked only in the afternoon. I met with Mr. Lantz and Ms. Karen Wise to discuss the past week's progress and the agenda for the weeks to come. Mr. Flowers left to accept another position and Karen returned from vacation, so I moved from her office to his. This office was to be available for my use for the duration of the internship.

I began reviewing background material in the area of unemployment insurance, benefits and claims.

I attended the board meeting this evening. Mr. Lantz presented rationale for our selection of the Specialist of the Gifted and Talented. He fielded the many concerns and questions of the board members and the audience very well. He has, in my opinion, excellent human relations skills.
July 3rd

I met with Mr. Lantz and a committee to discuss a salary schedule for a group of unclassified personnel. I contacted the library concerning information needed to complete a salary projection, and did some more research and reading in the area of unemployment and affirmative action.

I met with Mr. Lantz and Karen to list and organize projects that needed to be completed for the summer.

July 4th

Holiday.

July 5th

I worked on a payroll projection. I met with Karen and Mr. Lantz regarding salaries for the excluded office employees. I reviewed teacher lay-offs and a draft of the office employees' handbook and made suggestions and corrections. I studied the "66 Survey of Wage Rate and Personnel Practices in the Kalamazoo Area" for comparison and background information for the office employees' negotiations.

I met with Karen to discuss the assignments and possible morale problems of unassigned teachers. I did further research in this area.

July 6th

I met with Mr. Lantz, Karen and Ann Rothbrough from the Public Library concerning a job evaluation form for office personnel and a possible grievance from the library.
I attended a grievance hearing conducted by Superintendent Townsend concerning a teacher complaint.

I began looking at a custodian's old evaluation form for possible revisions. I will be involved in these revisions and in the writing of job descriptions.

I presented a list of suggestions for alternate use of unassigned teachers to Karen for her input.

Third week

Another busy week and many long hours. I began training of Selection Research Inc. (SRI) interviewing. The SRI system is set up around 12 themes which are felt to have merit in judging a teacher's ability. A person trained in the SRI method will score an interview the same within 85% as another trained person in this system. I gave and taped a SRI interview to a friend.

The last three days were filled with working on desegregation material. This was tedious work, but I learned a lot from it. I also began a series of meetings to work on the revisions of the custodial evaluation system.

July 9th

I reviewed background material on bus drivers to begin to get ready for interviewing. The school needs to hire a number of drivers by the beginning of the school year.

Mr. Lantz started me on the SRI interviewing training program. I reviewed the first tape of the SRI series and
matched my answers with the rating sheet. I was in 87% agreement with the ratings of the experts. To become registered, a person needs to do 40 interview ratings at 85% or better. To become certified one must attend both the beginning and the final sessions in their training at a company sponsored workshop. I did several more interview tapes. One was 88% and the other isn't scored, as we can't find the key.

July 10th

Mr. Lantz requested that I start summarizing custodial job descriptions. We discussed salary scales for temporary and substitute workers, and decided to call a meeting of people involved in this. Mr. Lantz suggested that I do a SRI interview with a friend on tape, evaluate it and then have him evaluate it and compare scores. I arranged to do this Thursday evening.

I found the key and scored the tape I had completed yesterday, it was 90%. I finished the projection report for the K.A.E.O.E. and gave it to the secretary to type.

I met with Rudy Gant, Custodial Supervisor, to go over custodial job descriptions. We drew up five sets of check list and gave these to the secretary to type rough drafts in preparation for final revisions.

July 11th

I spent the morning working on correcting desegregation reports of administrators for the past six school years. After correcting the reports, I talked with the lawyer in Ann Arbor
on the de-seg team to update the reports with him. He is coming Friday to discuss this and other concerns.

I helped Karen all afternoon to begin similar reports of all teachers for the same six years by building and race. It is a very time-consuming process as the report requires the full-time equivalent calculated. Computer printouts were not used during many of the years, so we had to count by hand.

I corrected two of my interviews. I got a 90% and a poor 77%. I need to find time to learn why my score was so low on the one interview. I received typed material from the secretary and distributed reports to appropriate people for their review and corrections on the custodial evaluations.

July 12th

The whole staff worked all day preparing reports for the de-seg team Friday. The work is tedious and boring, but I'm getting a feel for the amount of work the school was involved in when they wrote the desegregation reports and the follow-ups they had to do for the team. The original reports made a stack of paper seven feet high.

We had a follow-up meeting concerning hourly salaries for extra activities. In the evening, I taped a SRI interview with a friend who is a secondary teacher.

July 13th

Jeff Snyder, from the de-seg team, came and we again spent the whole day working on the reports. We worked until
7 p.m. to finish the materials he needed before returning to Ann Arbor. The team's report is due on Monday, so he will have to work on it over the week-end.

**Fourth week**

I followed through on the many projects that I had begun the first three weeks. I continued working with the Gifted and Talented program, only switched to teacher ratings and selection.

I attended an unemployment hearing with Karen at MESC. I also attended an arbitration hearing on a local grievance.

**July 16th**

I summarized the de-seg work we did and wrote a report. I listened to the tape of my interview and scored it before giving it to Mr. Lantz to score. I sat in on a SRI interview conducted by Mr. Lantz and discussed it with him after the candidate left.

Karen gave me some files to read of previous unemployment claims and hearings in preparation for us attending some hearings.

**July 17th**

I reviewed a couple of unemployment claim files. I met with Mr. Lantz and Karen for SRI training. During the questions I had concerning my low score and why my answers were wrong, I discovered it was my scoring that was incorrect. I really had a 93% rather than a 77%. We listened to about 1/3 of my
interview and discussed it. We will finish it at another time. Mr. Lantz asked me to look up past material and develop criteria for teacher selection for the Gifted and Talented program. This will include a rating sheet and some questions to be answered by prospective teachers.

July 18th

I presented a suggestion for Criteria for Teachers of the Gifted and Talented with Mr. Lantz. I will get the criteria ready to present to the Advisory Committee for the Gifted and Talented.

I listened to a tape of a past board meeting to obtain some material for Mr. Lantz. I consulted with the Specialist of the Gifted and Talented concerning the criteria I had drawn up and had our presentation placed on the agenda for the Advisory Committee meeting. I also completed several more interview tapes.

Each elementary principal had recommended two teachers to teach in the Gifted and Talented program. I began evaluating these teachers according to the criteria that I had drawn up to see how they would apply.

We finished evaluating the tape of my interview and I was 92% in agreement with Mr. Lantz's evaluation.

July 19th

I attended the Advisory Committee meeting for the Gifted and Talented and we presented our method for selection of
teachers. It was well accepted. Several useful additions were suggested which we will incorporate.

I attended an arbitration hearing concerning a teacher grievance that was filed in October.

I continued working on ratings of the teachers recommended by principals for work in the Gifted and Talented program. I met with Ernie Gibbs, Union Representative for Custodians, to discuss the check lists I've been developing.

July 20th

I met with a community member from the Gifted and Talented Advisory Committee for her input on our presentation regarding teacher selection procedures. I revised our questionnaire to be sent to the teachers to include some of the suggestions we had received at the Advisory Committee meeting.

Karen and I attended an unemployment hearing at the MESC office. It did not involve the Kalamazoo Public Schools. Since they do not have any hearings pending, we are observing other hearings so that I might have the experience.

I continued to work on the ratings of the teachers recommended for the Gifted and Talented program. I prepared drafts for the custodial check sheets to reflect the input from our meeting yesterday and to get them ready for final approval at a Thursday meeting.

Fifth week

This week I conducted an actual interview and attended various meetings, including an unemployment hearing, a
grievance hearing and another K.A.E.O.E. negotiation session.

I had a lot of exposure to budget problems in preparation for the required budget cuts for the 1979-80 school year.

July 23rd

I met with Mr. Lantz and Karen to discuss progress on our list of summer projects.

Karen and I attended another hearing at MESC on an unemployment appeal. This was a different referee than we saw on my first observation, and it was interesting to note the difference in styles of the two referees.

I finished evaluating the qualifications for the teachers of the Gifted and Talented and prepared a report for Mr. Lantz.

July 24th

I worked on SRI tapes and I am getting fairly consistent scores, in the high 80's and low 90's. I devised an evaluation form for substitute teachers and gave it to Karen for her use.

I called Western to track down an article concerning a study of Teachers of Gifted and Talented. I'll stop at the library after work to fill out a request order form.

I conducted my first interview with a woman who had applied for a custodial job. I also gave her applications for Clerk and Teacher Aide positions. I filled out an interview report for her.
I reviewed a file of the first steps of a grievance hearing that I am going to observe. Our next K.A.E.O.E. negotiation session is scheduled for tomorrow at 4 p.m.

July 25th

I observed the grievance hearing at the public library with two K.A.E.O.E. members concerning their evaluations. Mr. Lantz conducted the hearing.

I met with Rudy Gant, Administrator of Operations, to get the custodial evaluations and check lists ready to be approved at Thursday's meeting.

I attended a meeting of administrators to discuss revisions they are working on for their Standards for Discipline.

Mr. Lantz and I reviewed my notes from the last K.A.E.O.E. negotiation session to update ourselves in preparation for the next session.

Negotiations lasted from 4 p.m. to 7:30 p.m. I became involved and asked questions which seemed to have some significance. We caucused after about two and a half hours and then rejoined the other team for a brief time before adjourning. It was a very busy and interesting session. The next session is set for Wednesday at 1:00 p.m.

July 26th

Mr. Lantz, Karen and I met to discuss the projects remaining for the remaining week and a half of the internship.
I went with Mr. Lantz to the business office to get some printouts from which to extract the data needed to complete a budget report.

I figured the annual cost of salaries for the office workers, based on their first salary proposal, and compared this to the figures on the salary projection I had completed.

I started working on a summary report of special teachers in elementary schools.

I made a comparison of salaries of administrators in elementary schools by sex and building size in response to a complaint that female principals are underpaid.

I worked on the budget problem with Mr. Lantz and Jerry Hedrick, Business Manager, until about 5:30 p.m. When we left, we were still $18,000 off. I'll start on it in the morning.

July 27th

I spent the whole morning balancing the budget for operations. The maintenance budget report went quickly.

I returned to the two reports I started yesterday and worked on these. I finished a salary breakdown for elementary principals by sex. It was interesting and showed that the average female principal's salary was smaller by gross amount, but when figured per pupil or per teacher, it was higher. On the average, women tend to serve as principals in smaller schools.
I reviewed some pre-screening material for a meeting on Monday. This is in regard to the hiring of a new Special Education Director.

I read the final report which was prepared for the superintendent, as a result of our work on the committee, to set salaries for non-classified personnel.

**Sixth week**

I began my last week and tried to complete all the items I've been working on so they would be useful. New experiences included a press conference, budget meetings, and interviews for the Special Education Director.

**July 30th**

I updated a report I'd done on elementary principals, due to a change in a principal's assignment that I was unaware of at the time the report was compiled. It did not alter the findings of the report.

I worked on the budget to determine which of several accounts were overspent during the past school year.

I attended a pre-screening meeting for employing a Director of Special Education. We will have two interviews of candidates for this position on Thursday.

I made suggestions on how to update the interview questions to reflect the changes the committee made in the qualifications for this position.
July 31st

I worked on my staffing report for the Elementary Special Teachers. I attended a press conference at which Dr. Croner, Director of Special Education, officially announced his resignation. He is taking a position out-of-state.

I pulled materials from the files of the candidates for his position, to be used in the screening process.

Mr. Lantz and I met with Fletcher Lewis, Director of Athletics, regarding the budget for athletics for the 1979-80 school year.

August 1st

I spent the morning attending a budget meeting called by the superintendent. All administrators were present for instructions as to how budget cuts would affect them.

My afternoon was spent in a long K.A.E.O.E. negotiation session. At first, I didn't think I would enjoy negotiations, but I really do. This is an area I may get involved in next year at my own school. The difference would be that I would be sitting on the other side of the table.

August 2nd

Fletcher came in to check his budget figures, which he was working on. I telephoned as many of the teachers who had been recommended for teaching in the Gifted and Talented program as I could, to answer questions or concerns that had arisen as a result of our developing and mailing the questionnaire.
There was a wide variety of responses to my calls, as I discovered that the principals had all told the teachers different things regarding the program. Tomorrow I'll try to contact those who were not available.

I updated my rating sheet to include those teachers who had just applied for the Gifted and Talented program.

Mr. Lantz asked me to do a chart of benefits for all employee groups. I'll have to do that tomorrow. I called Dr. Sheffer and she is coming in tomorrow afternoon to meet and talk with Mr. Lantz.

I participated in the interviewing and rating of the two candidates for the Director of Special Education position. The interviews lasted until 6:30 p.m.

**August 3rd**

The beginning of my last day. It doesn't seem like six weeks have passed. I must finish up all my projects to date so that they will be useful.

I completed my report of elementary special teacher assignments, and did my chart of benefits. Mr. Lantz took Karen and me to lunch and we discussed the summer's events.

We met with Dr. Sheffer to discuss my internship. We all felt it was a very worthwhile experience for everyone concerned.

I called more of the recommended teachers of the Gifted and Talented. There were several who were not available.
I turned in all my reports and materials and sadly said my goodbyes.

August 13th

Mr. Lantz called and asked me to come in and discuss some things. He shared my evaluation with me and we went over my ratings of the two Special Education Director candidates as compared to those of the other committee members. Mine were very close to the averages in most areas and the candidate I rated at the top was the one hired. We said goodbyes all around again and I promised to stop in at a later date.
ACHIEVEMENT OF OBJECTIVES

In the course of my internship at Kalamazoo Public Schools, I was able to meet all stated objectives as listed in the prospectus (see Appendix A).

The internship provided me opportunity to meet my objectives by displaying my anticipated terminal skills to the satisfaction of my field supervisor and university supervisor. The extent to which I successfully met these objectives was indicated by the positive responses I received to the products I presented to the field supervisor and in my evaluation.

These objectives are stated below, followed by a narrative of the extent to which each objective was met.

A. Conceptual Skills Objectives

Objective A. 1. To review the available information for personnel data reports.

Review of data from past years provided me with the necessary information relating to personnel data reports. Completing a salary projection for the office personnel, including all the benefits and the percentage of increase figured over last year's salary, was a valuable experience since it allowed us to quickly estimate the cost of any monetary proposal offered in negotiations.

Working with the lawyer from the de-seg team afforded me an opportunity to gain much insight into the amount of work that the Kalamazoo Schools was involved in in the desegregation reports.
Objective A. 2. To review all the current staffing materials.

Kalamazoo schools deal with nine different bargaining groups, as outlined previously in the background information. Reviewing the materials pertinent to each group provided a basis for working with these groups and for updating a chart of all of the benefits of each group.

Objective A. 3. To review the content for secretarial, food service personnel and teacher's aides.

The old contracts for all three bargaining units provided a broad background of information for this objective. I became actively involved with the Kalamazoo Association of Educational Office Workers (K.A.E.O.E.). The payroll projection and the chart of employees' level with increments both will be used in negotiations when they discuss the economic issues of the contract. Using these will allow the effects of any economic proposal to be easily determined.

Objective A. 4. To review affirmative action and title IX legislation.

Jerry Flowers provided me with most of the information for this objective. I spent several hours with him discussing the cases they have had and the ways the law affects the school district. He referred me to the files and pointed out items of interest for further study. Throughout my internship I reviewed various files in relation to this area.

B. Human Skills Objectives

Objective B. 1. To acquire an understanding of the unemployment processes.
Karen Wise worked with me on this objective. She gave me copies of the laws to review as well as files on many of the cases that she has processed. We spent considerable time discussing these cases. Since Kalamazoo didn't have any cases pending, we attended two hearings from other companies. Both were with different referees, thus we had an opportunity to compare the styles of the two. We also had opportunities to interview the referees after each hearing.

Objective B. 2. To acquire an increased understanding of the negotiation process.

I entered into this area with rather negative feelings toward the process, but after sitting in and observing the first session of K.A.E.O.E. negotiations, my feelings changed. I really enjoyed it and had a hard time observing without participating. I looked forward to the next sessions and was able to participate by asking questions and stating opinions during the caucuses. The question I raised at the table was significant and drew a complaint from the opposing side. The negotiator for the K.A.E.O.E. supported my right to ask questions and I was thus considered a temporary member of the board team. This is an area I feel I may involve myself in in future years.

Objective B. 3. To acquire an increased understanding of the grievance process.

Review of the contracts for the various groups provided a basis for the grievance procedures. I also reviewed files of grievances which had previously been filed. Observations in this area included three hearings at various levels in the process.
One was at the second step with Mr. Lantz, the second was at the superintendent level and the third was an arbitration hearing. This is an area in which good human relation skills are a must and I was impressed by the way in which they were handled.

C. Technical Skills Objectives

Objective C. 1. To become familiar with the SRI interviewing process.

This is the area in which I had the greatest involvement and that I really enjoyed. I did extensive work with the SRI system (see Appendix B). I would have liked to have had the time to do 40 interviews and become certified.

I was also involved in the complete screening, interviewing and actual hiring of persons for two positions. This included obtaining material for the committees, participating as a group member of the interview team and participating in meetings to evaluate the candidates.

Objective C. 2. To analyze the qualifications of laid-off teachers and teaching needs.

Karen again assisted me in this objective. We reviewed the list of teachers and possible openings for fall. The result was a list of recommendations concerning the use of these teachers (see Appendix E).

Objective C. 3. To determine the needs of schools for special teachers and teacher's aides.

Because of budget cuts, the status of teachers' aides was not yet known. My work in this area dealt with the
utilization of special teachers for the elementary schools. These included Special Education Teachers, Student Service workers, P.E., Art and Music teachers, and Skills Improvement teachers. Various departments cooperated with me in gathering information for these assignments, which were presented in chart form.
APPENDIX A

Internship Prospectus
MAJOR INTERNSHIP

SPONSORING ORGANIZATION: Kalamazoo Public Schools

FIELD SUPERVISOR: Mr. Mahlon L. Lantz, Employee Relations Director

UNIVERSITY ADVISOR: Dr. Harold W. Boles, Western Michigan University

MAJOR FOCUS OF EXPERIENCE: To obtain practical experience in the area of personnel management

DURATION: Six weeks; commencing Monday, June 25, 1979

RATIONALE:

During the various courses in the Educational Leadership Department, personnel work has become a major focus of this intern. People are a key factor in the success or failures of any business including schools. The personnel department has an important role in the acquisition and management of the personnel in the system, including the professionals, paraprofessionals, hourly employees and staff.

During the classroom experiences, students read about the personnel functions, leadership styles and motivation studies. They interviewed and listened to personnel directors describe their work. During this internship, the intern will have a chance to put this knowledge into practice and get a feeling for the way many of the personnel functions are handled.

In the course of this internship experience it is expected that the intern will come into contact with and acquire a general knowledge of a range of personnel functions.
Working with the people in the Employee Relations Division of the Kalamazoo Public Schools will provide this intern invaluable learning experiences and an exposure to a wealth of practical experiences.

APPENDIX D

Prospective Teacher Questionnaire
QUESTIONNAIRE FOR PROSPECTIVE TEACHERS OF THE GIFTED & TALENTED

In order that we may better understand your qualifications for teaching the gifted and talented, please respond to the following: (Use extra paper if necessary)

1. Comment on your preference for working with gifted children.

2. Identify and comment on some of the most important cognitive/intellectual needs of gifted children.

3. Identify and comment on some of the most important social/emotional needs of gifted children.

4. Describe in general terms how you as a teacher might meet these needs in the classroom.

5. What special aptitudes or abilities do you have which would prepare you to teach the gifted and talented?

6. List any experiences, course work or workshops dealing with gifted and talented that you have taken or in which you have participated.

7. List any leadership roles, professional, educational, and others that you have held. Please state where and when.

8. In what professional and community organizations are you active?

9. List any special interests or avocations you pursue. (Frequently or occasionally)

10. Have you ever published in a professional journal: If yes, please identify.
11. What professional, technical, scientific, or literary journals do you receive/read frequently?

12. Would you be willing to transfer to another building if necessary?

APPENDIX E

Substitute's Evaluation Form
SUBSTITUTE'S EVALUATION FORM

Name_______________________ Date_________________________

Teacher's name you substituted for__________________________

1. Were the physical conditions of the room satisfactory? (If no, please explain)

2. Was the grade book available?

3. Was a seating chart available for each class?

4. Were lesson plans available for each class?

5. Were the lesson plans____very good, ___good, ___fair, or ___poor.

6. Was the student's behavior ____very good, ___good, ___fair, or ___poor.

7. Please list the names of those students who caused you problems.
   a.                   d.                   
   b.                   e.                   
   c.                   f.                   

8. Did you receive the necessary information and support from the principal's office? (If no, please explain)

Comments:
APPENDIX F

Suggested Plan for Laid-off Teachers
Group I - Reserve Teachers

Reserve teachers will be composed of the teachers who do not have assignments for 1979-80. The following procedures will be utilized.

1. Reserve teachers shall be placed at a base school where they will be assigned substituting assignments for certified personnel.

2. Whenever possible, reserve teachers will be notified in advance of their assignments.

3. If a substitute is not required or if the teacher prefers not to accept assignments out of his/her certified subject areas, the base school will notify the Community Answering Service immediately and the teacher will be given an assignment at another school for that day.

4. Reserve teachers shall receive full benefits and pay. Regular procedures for sick leave and personal business leave will be followed. The base school will be responsible for reporting the information on an A & S Report.

Reserve teachers can be utilized in the following areas:

- In-house Suspension
- Team Teaching
- Crisis Center
- Gifted & Talented Work
- Alternative Education
- Adv. Placement Coordinators
- Tutoring Services
- Objectives
- Career Exploration/work
- Curriculum Dev. K-12
- North Central

Group II - Preferred Substitutes

This group will be composed of the teachers who are laid-off. The following procedures will be utilized.

1. Preferred substitutes will be placed in substitutes assignments before anyone else except reserve teachers.

2. Preferred substitutes will receive the same rate of pay as regular substitutes.

3. There will be no benefits.

4. There will be no seniority accrual.
5. If a sufficient number of days is accumulated, the teacher may receive a step increase when recalled.

By utilizing a Preferred Substitute List, the District could save approximately $29,300 in unemployment compensation benefits.
