WMU ScholarWorks Citation

This Newsletter is brought to you for free and open access by the College of Engineering and Applied Sciences at ScholarWorks at WMU. It has been accepted for inclusion in College of Engineering and Applied Sciences News by an authorized administrator of ScholarWorks at WMU. For more information, please contact wmu-scholarworks@wmich.edu.
In December, Dr. Pnina Ari-Gur, professor of Mechanical & Aeronautical Engineering, on sabbatical at the University of Auckland in New Zealand, welcomed her research collaborators from the Russian Academy of Sciences in Moscow. The scientists were Professor Vladimir Shavrov and Dr. Victor Koledov, scientists at the Institute of Radioengineering and Electronics, the Russian Academy of Sciences, Moscow. The visitors and Ari-Gur presented a seminar together on Dental Applications of Shape Memory Alloys. They also had meetings with Ari-Gur and her colleagues at Auckland, and combined scientific discussions with the beautiful views of New Zealand.

Network for Earthquake Engineering Simulation Research Funded Through National Science Foundation Grant

Dr. Xiaoyun Shao is an assistant professor of the Department of Civil and Construction Engineering and the founder of the Laboratory of Earthquake and Structural Simulation (LESS) at WMU. The major equipment in the LESS include a uni-axial seismic simulator (commonly called shake table), two 3kips hydraulic actuators with the supporting hydraulic power supply and advanced real time controller. The shake table has a dimension of 3 ft. x 3 ft. and can subject a specimen with maximum weight of 500 lbs. to an earthquake time history with a peak acceleration up to 4 g. Structural dynamic properties and its response when attacked by an earthquake will be obtained through such shake table tests. Instrumentation available in the lab consist of accelerometers and linear variable displacement transducer (LVDT) and a set of wireless sensor network. Currently there are four Master students and one undergraduate student working in the laboratory on research projects.

E-Week Scholarship Award Winners

February 22, 2011 E-Week Dinner and Scholarship Awards

There were seven CEAS students who received scholarship awards. Of these, four received awards from Eaton: Mitchell Zajac, Rochelle Gillette, Jacob Hill, and Adeel Khan. One award from ASMI: Casey Kick. One award from SPE: Cody Boyne. And one award from IEEE: Fariba Nasiri, (not pictured).

Congratulations to the Scholarship Award Recipients. Left to right: Jacob Hill, Cody Boyne, Mitchell Zajac, Adeel Khan, Casey Kick, and Rochelle Gillette.

E-Week Fun - Pie Throwing Contest for Red Cross

L-R: Scot Conant, Dean Vizzini, and Karlis Kaugars volunteered to be the targets for the pie throwing event. This is the before photo.

Right: Here are a few photos after several accurate pie throws. As you can see with the help of students and staff together, it was a success.

Below: Dr. Shao moderating “Nonstructural Performance and Design” session at Quake Summit 2010 NEES & PEER Meeting.
