Advances in Economic Forecasting 2009-10

Department of Economics
Real-Time Forecasting
Dr. Dean Croushore
Department of Economics
University of Richmond

Dr. Dean Croushore is Professor of Economics and Rigsby Fellow at the University of Richmond. He is the Chair of the Economics Department. He is also currently a visiting scholar in the Real-Time Data Research Center at the Federal Reserve Bank of Philadelphia. The focus of his research in recent years has been on forecasting and on how data revisions affect monetary policy, forecasting, and macroeconomic research.

Croushore received his Ph.D. from The Ohio State University in 1984. Upon completing his Ph.D., he joined the faculty at Penn State University. From 1989 to 2003, he was a research economist at the Federal Reserve Bank of Philadelphia. As Vice President and head of the macroeconomics research group at the Philadelphia Fed, his responsibilities included briefing the bank president before FOMC meetings, managing a macroeconomics group of 5 economist and 5 research assistants, writing articles for Business Review, giving speeches, forecasting, briefing the board of directors, and running the Survey of Professional Forecasters and the Livingston Survey.

Limits to Economic Forecasting
Dr. Kajal Lahiri
Department of Economics
University at Albany, SUNY

Dr. Kajal Lahiri is the Distinguished Professor of Economics and Health Policy Management at University at Albany - SUNY. He works on methodological as well as various applied topics dealing with econometrics, macroeconomic forecasting and health. Dr. Lahiri's recent research deals with the relationship between macroeconomic uncertainty and disagreement among forecasting experts.

Since completing his Ph.D. at the University of Rochester in 1975, Lahiri has been on the faculty at the University at Albany - SUNY. In the intervening years, he has been a visitor at numerous institutions such as the University of Florida, Australian National University, University of Colorado and the International Monetary Fund. In various periods since 1993, he has been a Visiting Scholar at the Office of Research and Statistics in the Social Security Administration.

The 2009-10 Werner Sichel Lecture Series
... features six nationally and internationally recognized economists whose presentations will focus on new methodologies for improving the accuracy and evaluation of economic forecasts. The series is directed by Professor Matthew Higgins and is cosponsored by the W.E. Upjohn Institute for Employment Research. All presentations are free and open to the public. For more information please contact Dr. Matthew Higgins at (269)-387-5543 or email him at matthew.higgins@wmich.edu
