LEASE AGREEMENT – MetroPCS Michigan Inc.

Background

The Administration continues to attempt to meet the demands of our students’ ever-increasing usage of electronic communication devices. That usage requires additional communications towers. MetroPCS Michigan Inc. has approached WMU with a request to place a communications tower on University property at the corner of Valley Drive and Howard Street.

At this time the Administration is requesting authorization from the Board of Trustees to enter into a lease agreement with MetroPCS Michigan Inc. for ground space necessary to construct a 160 foot flag pole that will also serve as a tower for locating cell phone transmission equipment. The term of the initial lease is for 5 years and includes four additional options to renew for five years each. The monthly payment starts at $1,500.00 per month increasing by 10% at the end of each 5 year term. The lease will become effective Summer/Fall 2009, with the exact date to be determined.

While the cell phone transmission equipment will be housed inside the flag pole, the flag pole will host a very large WMU Bronco flag located at the top.

Recommended Motion

It is recommended that the Board of Trustees authorize the Treasurer or Assistant Treasurer to enter into a new lease agreement for 5 years with four, 5-year extensions with MetroPCS Michigan Inc. to construct a flag pole housing electronic communication devices and hosting a very large WMU Bronco flag on WMU property near the corner of Howard Street and Valley Drive.
UNIT NAME CHANGE

PROPOSAL

To change the name of WMU’s Extended University Program’s “Academic Technology and Instructional Services” unit to “Online Education”.

Background

Academic Technology and Instructional Services (ATIS) was formed in 2005. At that time, ATIS served the general academic population through coordination of campus-wide technology and innovative projects, such as classroom technology and the Faculty Laptop Initiative. In addition, ATIS focused on expanding access to educational opportunities through e-learning modalities (online, compressed video-interactive television, etc.) for Western Michigan University students.

In 2007, ATIS was merged with Extended University Programs, effectively creating one department for all courses and programs that focus on providing educational opportunities for WMU students outside of the main campus. In addition to the merge, the academic technology projects in ATIS (including classroom technology and the Faculty Laptop Initiative) were either discontinued or assumed by WMU’s Office of Information Technology. Therefore, ATIS’s mission now focuses on e-learning, online instructional support for faculty, and support services for students. To more accurately represent their current mission, the unit is requesting its name to be changed from Academic Technology and Instructional Services to Online Education, effective July 1, 2009.

Recommended Motion

It is recommended that the Board of Trustees accept the motion to change the name from ATIS to Online Education, effective July 1, 2009.
