Help Red Cross save a life; give blood

The American Red Cross is reporting a slow blood supply this winter. You can help save a life by donating at one of the two remaining campus blood drives in this year’s spring WMU-CMU Blood Challenge. The drives are being held from 11 a.m. to 4:45 p.m. today in Miller Auditorium and tomorrow in the Bernhard Center Ballroom.

Technology input forum scheduled

WMU is seeking input from faculty and staff members as well as students on a strategic plan being developed for choosing and implementing technologies to support teaching. One forum remains. It will be held from 9 to 11 a.m. Friday, Jan. 28, in 2033 University Computing Center. For more information, contact Bradley Morgan at bradley.morgan@wmich.edu or (269) 387-5363.

GoWMU services to be unavailable

Some services in GoWMU’s My Work and My Self Service channels will be unavailable this weekend, Jan. 28-30. If you have questions, contact the Help Desk at helpdesk@wmich.edu or (269) 387-4357, option 1.

Free hockey tickets offered

Faculty and staff members can receive up to two free tickets to the Bronco hockey game versus Bowling Green Feb. 4. Tickets can be picked up at the Waldo Stadium ticket office at least 24 hours in advance, or at the Lawson Ice Arena ticket window on game night. A valid faculty/staff ID is required. Visit www.wmubroncos.com for details. Call (269) 387-3673 with questions.

W-2 forms delivered electronically

Electronic W-2 forms are now available through the Employee Self Service channel in GoWMU to employees who have opted to receive them electronically. W-2s will be mailed Jan. 31 to the home addresses of those who have not authorized electronic delivery. Visit the Employee Self Service channel to submit or withdraw consent to receive electronic W-2s and make sure your home address is up to date.

Time to register Relay for Life teams

Online registration is open for this year’s Relay for Life event, set for April 15-16 at Kelney Track. Start your own WMU team or join one of the University’s existing teams. Visit http://main.acsevents.org/site/TR/entry?fr_id=29929 to register or learn more.

Carnegie Foundation lauds WMU’s engagement efforts

WMU is among 115 institutions nationwide to earn a special designation for community engagement from the Carnegie Foundation for the Advancement of Teaching. Colleges and universities selected by the foundation for listing in the 2010 Community Engagement Classification join 196 schools named to the category during the 2006 or 2008 selection rounds. Schools with an institutional focus on community engagement were invited to apply for the classification, part of an extensive restructuring of the Carnegie Classification of Institutions of Higher Education begun in 2006.

Through a classification that acknowledges significant commitment to and demonstration of community engagement, the foundation encourages colleges and universities to become more deeply engaged, to improve teaching and learning, and to generate socially responsive knowledge to benefit communities,” says Carnegie President Anthony Bryk. The Community Engagement Classification is elective. This approach enabled the foundation to address elements of institutional mission and distinctiveness that are not represented by the national data used to determine other foundation classifications. “The Carnegie application process offered an opportunity to comprehensively evaluate the manner in which community engagement is embedded in our curriculum; expressed through the collaborative provision of health, research, education and counseling, among other services in the community; and applied in our longstanding outreach programs and partnerships,” says Kathy Purnell, WMU service learning coordinator.

Founding medical school dean announced

Physician Hal B. Jenson has been named founding dean of the WMU School of Medicine and will assume his new post in March or April. Jenson, professor of pediatrics and regional dean for the Western Campus of the Tufts University School of Medicine, was selected from among nearly 60 candidates whose credentials were considered by a community search committee.

WMU President John M. Dunn made the announcement of Jenson’s appointment on behalf of the privately-funded medical school initiative, a community partnership involving Borgess Health, Bronson Healthcare and the University. Jenson was one of three candidates invited to make public presentations in Kalamazoo last fall.

“Dr. Jenson is the right choice to lead the development of our medical school,” says Dunn. “He brings a strong background in academic medicine, medical education and research from positions at Tufts, Yale and other prestigious university medical schools. Of great importance, he has extensive experience in health care systems very relevant to West Michigan.”

A physician and educator with more than 30 years experience, Jenson was drawn to the founding dean position by the opportunity to help create a new medical school at a national

Nomination deadline approaching for semiannual staff awards

Nominations for the spring round of WMU’s semiannual Make A Difference awards are due by Feb. 28.

Make A Difference is a campuswide peer-to-peer program that recognizes University staff members for their accomplishments and daily investment of energy and creativity. It features semiannual and annual awards available to Staff Compensation System, AFSCME, MSEA and POA employees who provide exceptional services to the University.

Every fall and spring, semiannual awards are presented to a maximum of 15 people. Award winners receive a certificate and a prize of $300 (before taxes) and are recognized at a special reception. Annual Make A Difference awards, which include a prize of $1,200 (before taxes), are extended to each year’s four most outstanding semiannual award recipients.

Visit visit.wmich.edu/hr/make-a-difference for nomination forms and guidelines.

Student workers to be honored during annual employee appreciation week celebration

The University will recognize some 4,000 student employees during its 25th annual Student Employee Appreciation Week, Monday through Friday, Feb. 14-18. Career and Student Employment Services, which sponsors the week, is accepting nominations through Tuesday, Feb. 8, for the awards it bestows in conjunction with the observance.

The week is a time to honor all student employees for their hard work and the many ways they contribute to WMU. Another main feature of the week is presentation of the student employee Supervisor of the Year award and Gary L. Belleville Student Employee of the Year award.

The 2011 award winners and nominees will be celebrated during a reception from 3:30 to 5 p.m. Thursday, Feb. 17. All nominees and their nominators will receive an invitation to the reception, which will be held in the Bernhard Center’s West Ballroom, with the awards program starting at 3 p.m.

WMU faculty and staff members are encouraged to submit award nominations and to thank their student workers in some way during appreciation week.

While supplies last, the career services office will provide small gifts that may be used as thank-yous for student workers. Gift requests must be received by Tuesday, Feb. 8. The office also has developed a list of suggestions for other ways to thank student employees and makes available a template that can be used to create certificates of appreciation.

Visit www.wmich.edu/career/studentemployment/seaw/nominate.html for more information and to obtain or request appreciation week materials. Direct questions to Brenda Case-Parris at brenda.case-parris@wmich.edu or (269) 387-2725.

Founding medical school dean announced

Jenson earned a medical degree from George Washington University and later a Master of Business Administration degree from the University of Texas at Austin. His pediatrics residency was at Case Western Reserve University’s Rainbow Babies and Children’s Hospital. He was a pediatric infectious diseases fellow at the Yale University School of Medicine and a visiting fellow in molecular biology at Cambridge’s Ludwig Institute for Cancer Research.

In addition to his current role as a regional dean at Tufts, Jenson has had faculty positions at the Yale University School of Medicine, University of Texas Health Science Center at San Antonio and Eastern Virginia Medical School, where he served as chair of pediatrics. Active in education and clinical activities, he specializes in clinical infectious diseases and virology.

Jenson is the author of more than 250 papers, commentaries and book chapters. He also is associate editor of the newsletter Infectious Disease Alert and an editor of the “Nelson Textbook of Pediatrics.”

Jack R. Luderer, a longtime medical researcher and former executive director of WMU’s Biosciences Research and Commercialization Center, has served as interim dean for the medical school since June 2010. With Jenson’s appointment, Luderer assumes the post of associate dean for research at the WMU School of Medicine.
