Opening celebration held for WMU-MetroDetroit

The University's long-awaited physical facility in the Detroit area opened Tuesday, May 11, providing a base for serving the better than one-third of WMU's student body that comes from Southeast Michigan.

WMU-MetroDetroit, a suite of offices located at 32820 Woodward Ave. in Royal Oak, Mich., is the new base of operations for student recruitment and alumni outreach as well as WMU coursework that will be offered in the Detroit area beginning this fall.

The facility was officially opened during an evening celebration for Detroit-area alumni and friends that included remarks by John M. Dunn, WMU president, and Dennis W. Archer, vice chair of the WMU Board of Trustees and a former mayor of Detroit.

According to Keith M. Hearit, WMU vice provost for strategic enrollment management, a physical presence in Detroit has been in the planning stages for several years. The University sought a location that would be both accessible and visible to current and prospective students in an area that currently attracts more than 37 percent of WMU's nearly 25,000 students.

"It's our goal to have a recruiting presence directly in Southeast Michigan by bringing WMU to our prospective students," says Hearit. "It's our plan to host recruiting events in Royal Oak, as well as to make this a location where prospective students can come to schedule a tour of the WMU campus, drop off an application or meet with an admissions counselor."

University admissions officers are already in place in the new facility, and Extended University Programs has been working since last fall to launch WMU courses in cooperation with Oakland Community College. Such courses will likely be offered at OCC's Royal Oak campus.

Site preparations beginning for two major projects

Construction season at WMU officially begins this week, with construction fencing going up around the building site for a new student apartment complex between Knollwood Avenue and Kohrman Hall.

The site is being fenced and prepared for a yearlong construction project that will begin with a June 1 groundbreaking.

The fast-track construction project, scheduled for completion in August 2011, will add living space and adjacent parking for more than 300 students in four new buildings. In preparing the site, 15 existing trees have been transplanted and 12 weak ones removed. Plans call for 35 new trees to be added before the project is done.

A second major construction site at the center of campus will be enclosed next month in preparation for construction of the new Sangren Hall. That long-planned work to replace the University's largest and most heavily used classroom facility will take two years to complete and also is slated for a June 1 groundbreaking.

The project will result in a completely new, energy-efficient building directly in front of the existing Sangren Hall. Classes in the new facility will begin in fall 2012.

Visit the Facilities Management website at www.fm.wmich.edu for details about both construction projects, including how pedestrian pathways around the sites will be configured, what the design and construction timetables are, and how
WMU to host May forums featuring 2010 election candidates

Two campus forums will help familiarize voters with statewide issues and candidates running in the 2010 election who represent large parts of Kalamazoo County.

Both forums will take place from 7 to 9 p.m. in the Fetzer Center. The Tuesday, May 18, event will feature candidates running in the 60th and 61st state House districts and the Thursday, May 27, event will feature those running in the 20th state Senate district.

The outcome of the August primaries and November general election will shape the direction of Michigan for the next decade and beyond. All statewide offices are up for election, none with an incumbent. Term limits will force a large turnover in the Legislature, and there will be a statewide proposal for a constitutional convention.

Gordon Evans, “Morning Edition” anchor of W Denis Media, will moderate the first forum, which will include all of the local candidates who will appear on the ballot: (60th district) Republicans Jeff正确的and Craig, and (61st district) Democrat Thomas Batten and Republican Margaret O’Brien.

Each candidate will respond to two questions submitted in advance. Candidates will then respond to questions submitted by the audience as selected and read by the moderator. Each candidate will be allowed brief closing remarks.

Still time for students, faculty to comment on accreditation

The University continues to seek input from students and faculty on the first phase of its preparation for a comprehensive evaluation aimed at continuing its accreditation.

Public comment on the University’s bid for continued accreditation and its self-study report has been part of the process all spring. The public comment opportunity will now move to a process known as third-party comment, which is designed to ensure that those interested have an opportunity to add their comments for consideration as the University is evaluated.

Visit the Higher Learning Commission at www.ncsche.org/information-for-the-public/third-party-comment.html to make third-party comments. Go to www.wmich.edu/hlc to review the self-study report.

New book on nanoethics published

Fritz Allhoff, philosophy, has co-written a new book that engages the rising tide of interest and concern over nanotechnology.

Allhoff penned the book with Patrick Lin and Daniel Moore. Allhoff and Lin co-edited two nanoethics anthologies and co-founded the NANOETHICS Group. Moore is a member of that group’s advisory board.

What Is Nanotechnology and Why Does It Matter? is one of the first monographs to be written by experts from both the technical and nontechnical sides of the field.

New Book on Nanoethics published

Fritz Allhoff, philosophy, has co-written a new book that engages the rising tide of interest and concern over nanotechnology.

“‘What Is Nanotechnology and Why Does It Matter? From Science to Ethics?’ was published in May with Wiley-Blackwell.

Allhoff penned the book with Patrick Lin and Daniel Moore. Allhoff and Lin co-edited two nanoethics anthologies and co-founded the NANOETHICS Group. Moore is a member of that group’s advisory board.

“‘What Is Nanotechnology and Why Does It Matter?’ is one of the first monographs to be written by experts from both the technical and nontechnical sides of the field.

Allhoff, an associate professor of philosophy and political science, has written extensively on nanotechnology and co-founded the Nanotechnology and Society Working Group of the Association for the Philosophy of Technology and Society.

Dr. Allhoff,iez Kendall, led a team of nanotechnology experts from seven fields to examine the nanoethics literature in depth.

The public comment opportunity will now move to a process known as third-party comment, which is designed to ensure that those interested have an opportunity to add their comments for consideration as the University is evaluated.

Grad student wins playwriting award

G. William Zorn, a doctoral student in the creative writing program, has won the prestigious Mark Twain Prize for Comic Playwriting from the Kennedy Center’s American College Theatre Festival. He won the nationwide prize for his play “Metropolis Has No Superman.”

The award included a $2,500 cash prize, a playwriting residency with a professional theatre company, possible publication from Dramatic Publishing Co., a production grant and a trip to the Kennedy Center/ACTF national festival April 12-18 in Washington, D.C. At the festival, he received his award and participated in a weekend playwriting workshop with theatre professionals and fellow award-winning college playwrights.

Zorn earned an associate degree in communication from Illinois College College, a bachelor’s degree in theatre from Eastern Illinois University and a master’s degree in playwriting from Ohio University.

Preview set for film shot at WMU

Two free screenings today give the cam- pus community a chance to preview the independent film “Cherry,” shot in 2008 on the WMU and Kalamazoo College campuses. The screenings will be held at 7 and 9:30 p.m. in the Little Theatre.

Faculty, staff and students who worked on the film received invitations, and admission tickets are needed for others. If any tickets are left, up to four may be picked up by a group. The first screening is set for 11 a.m. to 1 p.m. Tuesday, May 25, and takes place on West Campus. Visit www.wmich.edu/wellness to register or obtain more information.

Haenicke Garden to be dedicated

A garden honoring WMU President Emeritus Diether H. Haenicke, who died Feb. 15, 2009, will be dedicated at 4 p.m. Tuesday, May 25. A reception will follow in Waldo Library’s Meader Rare Book Room. The Haenicke Memorial Garden is located between the Chemistry Build- ing and Waldo Library. Parking will be available in Lot 33, with shuttle service to the garden provided as needed.

Dunn notes state's disinvestment in higher education during hearing

The cost of tuition at WMU would be about 38 percent lower today if the state had maintained its commitment to funding higher education, WMU President John M. Dunn pointed out during testimony May 3 in front of the Michigan Higher Education House Appropriations Subcommittee.

Dunn said that in 1980, the state supplied 70 percent of the University's funding. Students who worked full time during the summers and part time during the academic year could cover the cost of tuition and fees and still have money left for incidentals.

But Dunn said that is no longer possible in 2010, when the state is covering only 33 percent of the cost.

Dunn also noted that state financial aid to WMU students plummeted this year from $5.7 million to $843,000 with the loss of the Michigan Promise and other scholarships. He said he is often questioned by people about why the state is still funneling financial aid into private institutions.

In wide-ranging testimony during the hearing that was held at Northern Michigan University, Dunn also affirmed that:

• WMU continues to be the state's best buy among its research universities, but the University will see a tuition increase this fall.
• He's committed to phasing out a one-time $300 records initiation fee paid by incoming students that has been in place since 2004.
• The University is exploring the idea of differential tuition, but is looking at a model that would wrap fees into the new tuition structure.

In addition, Dunn asked the panel to use existing state capital outlay funds to help WMU construct a new Sangren Hall. “We need help with Sangren funding,” he said. “...My board has already said, ‘We cannot wait. We've waited 20 years. We can't wait any longer.' So we're going to do it, and if we do it and we have to bond ourselves—and indebted ourselves—we all know what happens. It's going to translate to another 3 percent in tuition adjustment to our students to carry that.”

Dunn closed with a request that the House do what it can to counter a Senate higher education budget that calls for a 3.1 percent decrease in appropriation to all of the state's public universities.

Go to www.wmich.edu/wmu/news/2010/05/008.shtml for a link to the complete hearing online.

Committee seeks supporting materials for selection of 2010’s top staffers

Twenty-one staff members are in the running for 2010 Make a Difference annual awards, which carry a $1,200 prize.

The candidates are recipients of 2009-10 fall and spring semianual awards through the Make a Difference program. As such, they are eligible to be considered for one of the four annual awards bestowed by this peer-to-peer staff recognition program.

Monday, May 10, is the deadline to submit materials in support of the following staffers recognized this spring for their contributions to the annual Make a Difference Awards and Recognition Program held May 7 in Detroit. The award is an annual program to recognize architectural firms and professionals who “make significant contributions to the built environment,” according to the AIA's website.

Richardson Center architects receive statewide design award

The Richmond Center for Visual Arts has been honored for design excellence by a national jury of the American Institute of Architects Michigan. The center, designed by architectural firm SmithGroup, was one of 12 buildings in Michigan honored at the 2010 AIA Michigan Honor Awards and Recognition Program held May 7 in Detroit. The award is an annual program to recognize architectural firms and professionals that “make significant contributions to the built environment,” according to the AIA’s website.

The following faculty and staff members are recognized for 40, 35, 30, 25, 20, 15, 10 and five years of service during May.

40 Years—Stuart O. Strayer, public safety.

35 Years—David A. Constanza, intercollegiate athletics.

30 Years—Floyd Pietrka, WMUK-FM.

25 Years—Alan J. Hovestadt, counselor education and counseling psychology, and Linda L. Wallace, public safety.

20 Years—David W. Dakin II, Facilities Management-planning; Jodie Laraway, student financial aid and scholarships; Ryan N. McGreggor, public safety.

15 Years—Julie Hayward, University Libraries; Llees Jaquays, College of Education and Human Development; and Dominic Nicolai, College of Aviation.

10 Years—Healen J. Beck, School of Social Work; Jean E. Brand, Facilities Management-building custodial and support services; Beverly A. Green, Facilities Management-building custodial and support services; Jodie S. Grimm, Facilities Management-building custodial and support services; Ronicka D. Hamilton, Seita Scholars Program; Stephanie L. Johnson, Facilities Management-building custodial and support services; Sherry A. Peake, Facilities Management-building custodial and support services; Aletta M. Roebuck, College of Aviation; and Victoria Jean Rose, public safety.

Five Years—Ronald Klott, College of Aviation; Melinda M. McCormick, School of Social Work; Nathaniel C. Peoples, intercollegiate athletics; Arthur R. Priest, Facilities Management-power plant; and Lisa C. Youary, marketing.

Heannice Institute; Jessie Wagner, Haworth College of Business Career Center; Adam Wall, residence life; and Paige Warner, First-Year Experience Programs.

The annual Make a Difference award is reserved for exceptional employees—who those who reach far beyond their assigned responsibilities to give generously and creatively of their time and talents, making the University an even finer place to work and study. The four winners will be named in June and honored during this fall’s Academic Convocation.

The selection committee will review new information submitted for the 21 candidates, as well as the semiannual nomination materials that were previously submitted for the candidates. Anyone wishing to submit new information should contact the selection committee to review how their candidates have demonstrated dedication to outstanding service.

Send submissions to the Make a Difference Selection Committee by e-mail to make-a-difference@wmich.edu, online at www.wmich.edu/hr/make-a-difference, fax to 387-3441 or campus mail in care of Human Resources at Mail Stop 5217.

Obituary

Kenneth B. Farrance, a former director of Miller Auditorium, died May 4 in Borgess Medical Center in Kalamazoo. He was 82.

Farrance had a career as a radio engineer for several radio stations before joining Miller's staff as a soundman in 1967, just before the newly constructed facility opened. He was named manager in 1982 and retired in 1988.

Memorial contributions may be directed to the American Heart Association or the Michigan Maritime Museum.

Avis Sebaly—The previously announced memorial service for Sebaly, emeritus in education and professional development, will be held at 3:30 p.m. Saturday, May 22, in the Kiva of Friendship Village in Kalamazoo.

Marie Stevens—The previously announced memorial service for Stevens, dean emerita of students, will be held at 2 p.m. Friday, May 14, at the Gilmore Alumni House, 1219 Short Road in Kalamazoo.
HELPING ATHLETES IS HIS STRONG SUIT

Warfield to receive top Michigan ACE award June 8

Martha Warfield, associate vice president for diversity and inclusion, will receive the top honor from the state affiliate of the American Council on Education Network during the Michigan ACE annual conference June 7-8 at Michigan State University.

Warfield and Kathleen M. Wilbur, a Central Michigan University vice president, will receive the Distinguished Woman in Higher Education Leadership Award.

Site preparations for projects

the buildings will look when completed. Webcams will be placed at the construction sites so the campus community may track each project’s progress.

Additional significant summer construction and remodeling projects will be reported in future issues of the Western News.

The projects scheduled for this summer include moving the Center for Academic Success Programs to Ellsworth Hall, steam-line work impacting a portion of the west side of University Arena and, as previously reported, a major renovation of the Davis Dining Hall, which will impact the hall’s parking lot.

Warfield, to receive top Michigan ACE award June 8

Martha Warfield, associate vice president for diversity and inclusion, will receive the top honor from the state affiliate of the American Council on Education Network during the Michigan ACE annual conference June 7-8 at Michigan State University.

Warfield and Kathleen M. Wilbur, a Central Michigan University vice president, will receive the Distinguished Woman in Higher Education Leadership Award.

The award recognizes the significant contributions women have made at Michigan’s colleges and universities and in their communities. It will be presented during a luncheon from noon to 1:30 p.m. Tuesday, June 8. To register only for the luncheon, which costs $25, contact Maryann Ford at maryann.ford@wmich.edu or call 387-4174.

Warfield joined the WMU faculty in the Counseling and Testing Center in 1992. In her current post, she implemented and oversees the University’s diversity and multiculturalism action plan, and continues to work with the Kalamazoo Promise and other community diversity efforts.

A licensed psychologist, Warfield established Kalamazoo’s first African American-owned mental health clinic. She is a member of the WMU President’s Commission on Gender Equity, a newly elected Kalamazoo Public Schools board member, and a board member for the Michigan Department of Human Services.

Anyone interested in attending the full conference may do so by registering at www.wmich.edu/conferencemanagement/miace.php.

Exchange

For sale—Lovely downtown loft with gorgeous views, spa-like bath and loads of extra storage. Granite in kitchens and bath. $148,800. Call 806-9276 or 217-6250.

WMU, part-time instructors OK inaugural union contract

WMU and its Professional Instructors Organization, the PIO, have reached an agreement on an inaugural three-year contract. Union members ratified the terms of the agreement in an April 25 vote and University trustees approved the agreement during a May 6 conference-call meeting.

Following the board’s approval, the contract—with some exceptions—went into effect immediately.

On Campus with Tim Herrmann

Tim Herrmann is one of WMU’s biggest sports fans. His job as head strength and conditioning coach for Olympic sports is to schedule workouts and design programs for student athletes on 16 teams—every sport the University has to offer but football, which is handled by strength and conditioning coach Nathaniel Peoples.

That requires him to be in tune with the performance and goals of every player and every team. You’ll see him at every University sporting event he can fit into his busy schedule.

“That’s part of the job. Going to the games is where you see what they need to work on. It helps me design a program to work on a weakness,” he says. “The biggest reward is seeing our athletes succeed and knowing that I had a hand in that, however small that may be.

“I love it when they win, and I hate it when they lose—as much as they do,” he adds.

During a team’s season, Herrmann works with athletes to maintain their strength and prevent injuries. It’s during the off-season that these athletes build on their skills and work on specific areas to improve.

“We’re always working with teams to figure out what works best for them. It’s an ever-changing field, and there’s constant education of what is new,” Herrmann says.

“Not every team is the same, and we don’t train them the same.”

Herrmann graduated from WMU in 2001 with a bachelor’s degree in exercise science.

He interned for two years at the University and served a year as a graduate assistant before being hired in his current job in 2002. He hails from Santa Maria, Calif., a town about the size of Kalamazoo that is located 120 miles north of Los Angeles.

An athlete himself in high school and while attending WMU, Herrmann played baseball, soccer, basketball and track before a knee injury (ACL) took him out of the game. He won’t admit to having a favorite sport today, but enjoys mixed martial arts and boxing as hobbies.

Another “hobby” consuming much of his time recently is planning his wedding in July with his fiancée, Tanner Moorhead, a fellow WMU graduate who teaches in Three Rivers, Mich.
