WMU ScholarWorks Citation
https://scholarworks.wmich.edu/course_catalogs/91

This Catalog is brought to you for free and open access by the Western Michigan University at ScholarWorks at WMU. It has been accepted for inclusion in Western Michigan University Course Catalogs (1904-present) by an authorized administrator of ScholarWorks at WMU. For more information, please contact wmu-scholarworks@wmich.edu.
WESTERN MICHIGAN COLLEGE is located in Kalamazoo, midway between Chicago and Detroit. It is served by the New York Central and Pennsylvania Railroads, by Lake Central and North Central Airlines. Three major highways and numerous bus routes connect the city with other midwestern cities. The population of greater Kalamazoo is nearly 100,000.

DIRECTIONS FOR CORRESPONDENCE

Admissions Officer
- Admission, College literature, Credits, Provisional certificates, Scholarships and Transcripts

Comptroller
- Business and financial arrangements

Dean of Men or Dean of Women
- Student housing and part-time employment

Director of Field Services
- Adult Education, In-Service courses and credits, Consultative services to schools, Speakers for special occasions

Director of Graduate Studies
- Graduate offerings

Director of Student Personnel and Guidance
- Counselling and guidance

ADMINISTRATIVE GROUPS

THE ADMINISTRATIVE COUNCIL

The Council meets weekly to keep informed on college affairs, to fix general administrative policies, and to coordinate and unify administrative decisions, practices, and services designed to promote the educational program of the college.

The members of the Council are: The President, Vice-President, Comptroller, Registrar, Director of Field Services, Director of Graduate Studies, Director of Student Personnel and Guidance, Director of Teacher Education, and the Director of Vocational and Practical Arts.

THE FACULTY COUNCIL

The Council meets each month to deal with such problems as may be delegated to it; to receive and consider recommendations and suggestions proposed by members of the Faculty, and to recommend to the President or Faculty changes in policy and procedures.

Terms expiring 1956—Clayton Maus, Cyril Stout, Otto Yntema (Chairman).
Terms expiring 1957—George Bradley, Bernyce Cleveland, Russell Seibert.
M.E.A. Representative—Lillian Meyer.
Ex-Officio, Paul V. Sangren, Wynand Wichers.

THE ATHLETIC BOARD OF CONTROL

Cornelius B. MacDonald, Comptroller, Chairman; Mitchell J. Gary, Director of Athletics; William J. Berry, Robert B. Trader, Wm. V. Weber, John W. Gill, appointed by the President; Clayton J. Maus, Registrar; President of the W Club; Sports Editor of The Western Herald; President of the Student Council.

FACULTY STANDING COMMITTEES FOR 1956-1957

Persons whose names on a given committee appear opposite number 1 are appointed for one year, those opposite number 2 are appointed for two years, and those opposite number 3 are appointed for three years. Replacements will be made in such a way that new persons are appointed for a three-year period.
FACULTY COMMITTEES

ADMISSIONS AND SCHOLARSHIP  
1. Feirer, Maus, W. C. Van Deventer  
2. Bradley, Hilliard, Osborn  
3. Ellis, Sadler, Trader  
  
EDUCATIONAL POLICIES  
1. Griggs, Marburger, Maus, York  
2. Kohrman, Limpus, Meyer, Seibert  
3. Crawford, Mabie, Mallinson, Wend  
  
GRADUATE COUNCIL  
1. Griggs, Kohrman, Mallinson, Stokes  
2. Frederick, Kuffel, W. C. Van Deventer  
3. G. Cooper, Moore, F. Rogers  
  
INSTITUTIONAL SERVICE  
1. Garneau, Herald, McClure

ASSISTANT PROFESSORS

John H. Plough, M.A.
B.S., Western Michigan College; M.A., Michigan.

James A. Powell, Ph.D.
B.A., M.A., Ph.D., Michigan State.

Myrtle M. Powers, M.S.
M.S., Michigan State.

John J. Pruis, Ph.D.
B.S., Western Michigan College; M.A., Ph.D., Northwestern.

David G. Pugh, M.S.
A.B., Drury; M.A., Chicago.

Peggy Ann Ramstad, M.M.E.
B.M., M.M.E., Minneapolis College of Music.

Paul L. Randall, B.S.L.S.
A.B., Western Michigan College; B.S.L.S., Illinois.

Nellie N. Reid, A.M.
A.B., Iowa; A.M., Chicago.

Ronald G. Rex, A.M.
Campus School, Eighth Grade
B.S., Ball State; A.M., Western Michigan College.

Edward E. Reynolds, M.S.
A.B., Olivet College; M.S., Iowa.

Robert E. Ring, B.S.
B.S., Purdue.

Lois Robinson, A.M.
B.S., Western Michigan College; A.M., Michigan.

Katherine Rogers, A.M.
A.B., Kalamazoo College; A.M., Columbia.

William R. Rosegrant, M.A.
A.B., Central College; M.A., Chicago.

Gladys Rowe, A.M.
Campus School, Home Economics
B.S., A.M., Michigan State.

William A. Sack, A.B.
Campus School, English, Speech
A.B., Western Michigan College.

David F. Sadler, Ph.D.
A.B., Antioch; M.A., Ph.D., Minnesota.

Hazel E. Cleveland Saye, A.B.L.S.
A.B., Western Michigan College; A.B.L.S., Michigan.

William A. Schreiber, B.S.
B.A., Cooper Union College.

Helen G. Sellers, A.M.

Hester B. Skehan, M.A.
Kindergarten, Paw Paw School
A.B., George Washington; M.A., Western Michigan College.

M. Elizabeth Smutz, A.M.
Campus School, Art
A.B., Oberlin College; A.M., Teachers College, Columbia.
Ruth Smythe, A.M.  
Fourth Grade, Paw Paw School  
B.S., Michigan State Normal College; A.M., Michigan.

Emil J. Sokolowski, A.M.  
Business Studies  
B.S., Detroit Institute of Technology; A.M., Michigan.

Hobart H. Sorensen, M.A.  
Speech  
B.A., Iowa; M.A., Teachers College, Columbia.

David H. Soule, M.S.  
Coordinator, Bus Driver Education  
B.S., Western Michigan College; M.S., Iowa State College.

Marion A. Spalding, A.M.  
Physical Education, Paw Paw School  
A.B., Western Michigan College; A.M., Teachers College, Columbia.

Nellie E. Sparks, M.S.  
Campus School, Physical Education  
B.S., M.S., Illinois State Normal.

Opal Stamm, A.M.  
Home Economics  
A.B., Berea College; A.M., Teachers College, Columbia.

Fred Stevens, A.M.  
Campus School, Physical Education and Science  
B.S., A.M., Western Michigan College.

Elaine L. Stevenson, A.M.  
Art  
A.B., Western Michigan College; B.A.E., The Art Institute of Chicago; A.M., Ohio State.

Rufus R. Summarell, Captain; B.S.  
R.O.T.C.  
B.S., Massachusetts.

Charlotte Bishop Sumney, A.M.  
Psychology  
B.S., Western Michigan College; A.M., Michigan.

Marion Tamin, A.M.  
Languages  
Ph.B., Chicago; A.M., Teachers College, Columbia.

Robert D. Taylor, M.A.  
Campus School, Social Studies  
B.A., Western Michigan College; M.A., Michigan.

Nancy L. Thomas, A.M.  
Campus School, Second Grade  
B.S., A.M., Western Michigan College.

Robert B. Trader, M.S.  
Business Studies  
B.S., Indiana; M.S., Pittsburgh.

Carola P. Trittin, B.A.  
Paper Technology  
B.A., Lawrence.

Iona Loyd Troyer, M.A.  
Rural Life and Education  
B.S., Central Michigan College; M.A., Teachers College, Columbia.

Dean R. Tyndall, B.S.  
Occupational Therapy  
B.S., Western Michigan College.

Gertrude Van Zee, M.A.L.S.  
Cataloging Librarian  
A.B., Hope College; M.A.L.S., Michigan.

Edwin O. Vaughn, A.M.  
Science, Paw Paw School  
A.B., Michigan State Normal College; A.M., Teachers College, Columbia.

George Vuicich, M.A.  
Campus School, Social Science  
B.A., M.A., Iowa.
INSTRUCTORS

Ruth L. Walker, M.A.  Campus School, First Grade  A.B., M.A., Western Michigan College.

Roy Garth Walters, B.S.  Campus School, Physical Education and Science  B.S., Minnesota State Teachers College.

William R. Weeks, B.S.  Industrial Technology  B.S., Wayne.

Jared S. Wend, Ph.D.  Economics  A.B., Middlebury; M.A., Ph.D., Michigan.

William A. Wichers, A.B.  Industrial Technology  A.B., Hope College; Certificate, Boeing School of Aeronautics.

MICHIGAN VETERANS VOCATIONAL SCHOOL

The Michigan Veterans Vocational School is a state institution under the supervision and management of the State Board of Education and is operated in conjunction with Western Michigan College. The major objectives of the school are to furnish the best possible vocational and trade training for veterans, and, as far as possible, to be a center for the rehabilitation of non-veterans authorized to take such training under Public Law 113. It is located on the north side of Pine Lake, 22 miles north of Kalamazoo.

Direct application for admission may be made to the school by writing Michigan Veterans Vocational School, Pine Lake, Doster, Mich.

ADMINISTRATION

Oscar E. Harrington, A.M.   Director
B.S., Michigan State; A.M., Michigan.

Lloyd G. Chapman, A.M.   Counselor and Assistant Director
A.B., Hope College; A.M., Michigan.

Geptha F. Turnage   Business Manager
Ann W. Dobbyn, R.N.   Health Service
R.N., Harper Hospital School of Nursing, Wayne; Public Health Training, Michigan.

INSTRUCTORS

William A. Alber   Business Machine Repair

B.S., Western Michigan College.

Jacob Kandell   Appliance Repair
Lloyd I. Meadows, B.S.   Business Education
B.S., Western Michigan College.

Kenneth Reemtsen   Appliance Repair
Raymond Selkirk   Machine Shop
Clarence Sundquist, B.S.   Printing
B.S., Central Michigan College.
CONTROL OF WESTERN MICHIGAN COLLEGE

The Constitution of the state of Michigan places the College under the authority of the State Board of Education. The Board consists of four members elected by the people of the state.

From time to time the Legislature has defined the objectives and scope of work of the College. It has repeatedly declared that the purpose of the institution “shall be the instruction of persons in the art of teaching and in all the various branches pertaining to the public schools of the state of Michigan”. While the college has been true to that purpose, it has gradually become necessary to expand the original intent. It is now one of the largest institutions in the United States primarily devoted to the training of teachers; but the college also has large numbers of students pursuing courses in pre-professional and vocational fields. The college offers the following degrees:

Bachelor of Art
Bachelor of Science
Bachelor of Music
Bachelor of Business Administration

It also conducts a graduate program leading to a master’s degree with specialization in Education.

SCOPE OF CURRICULA

The College has always stood for two things paramount and inseparable in an institution for the training of teachers:

1. A thorough grounding in such fields of study as may lead to the intellectual growth of the student.

2. A thorough grounding in the science and art of teaching attained by sufficient actual teaching under direction.

The program of study for the first and second years:

1. To provide the student with essential factual information; to give him an introduction to methods of thought and work and to provide such opportunities for study and growth as may lead to a well-rounded general education.

2. To prepare the student for undertaking the more advanced and specialized work embraced in the curricula of the third and fourth years or for more advanced work elsewhere.

This program represents sixty semester hours of work, at least half of which must fall in the Divisions of Basic Studies, Language and Literature, Science, and Social Science. The student must complete during the first year at least two semesters of Communication or College Writing.

Admission to the program of the third and fourth years is based upon the satisfactory completion of the work outlined above or upon evidence
of equivalent work done satisfactorily elsewhere. In addition, in the teaching curriculum, the student must satisfy such special tests or examinations as may be prescribed to determine his general intelligence, scholastic aptitude and fitness for the teaching profession.

The program of study for the third and fourth years:

1. To pursue more extensively and intensively courses which acquaint him with the fields of his special interest and which broaden his general education.

2. To pursue a curriculum designed to give him the knowledge and skills necessary for teaching in a specific field.

HISTORY

Western Michigan College was established in 1903 by an act of the Legislature as Western State Normal School. The first school year began in June, 1904, with Dwight B. Waldo as Principal. In 1905 the first building was completed. This building is now known as the Education Building. Since that time there has been a rapid expansion of the physical facilities. The original campus lies east of Oakland Drive and contained 20 acres of land. Now the college occupies more than 400 acres.

On August 5, 1936, President Waldo tendered his resignation and became President Emeritus. During his tenure of office the school grew from a two-year normal school into a college which was recognized as an outstanding leader in the field of education. Dr. Paul V. Sangren, a member of the faculty since 1923, became President of the college in August of 1936. In 1927 the college was placed on the approved list of the North Central Association of Colleges and Secondary Schools; in 1928 on the approved list of the American Association of Teachers Colleges; in 1941 on the approved list of the Association of American Universities, and in 1951 achieved membership in the National Association of Schools of Music.

Admission, Degrees and Certificates

ADMISSION

Qualified students will be admitted at the opening of any semester or summer session after their applications have been accepted.

As the training of the mind is the first function of the college, the applicant's most important qualification is the intellectual capacity to carry on college work successfully. The best evidence of this capacity is a superior academic record attained in the student's previous schooling. Beyond this first requirement, the applicant's character, personality, promise and special abilities will also be considered by the Committee on Admissions. The College will arrange personal interviews whenever they are deemed desirable.

Admission to the college is a privilege that carries with it some responsibilities. The college reserves the right to cancel matriculation and to require withdrawal whenever it becomes evident that the student is not conforming to the college's standards of scholarship and conduct.

To prepare for college, a high school student should carry a good proportion of academic courses (languages, mathematics, science, history) and should do a good quality of work in them. He should carry the high school prerequisites to his intended college curriculum as they are made known to him in consultation with his principal or counselor. Although he may be admitted to college without these prerequisites, he will be required to make them up before he can proceed in his chosen curriculum.

METHODS OF ADMISSION

Students may be admitted in any one of the following ways:

1. Admission by certificate: A graduate of a high school, academy or equivalent may be admitted upon presentation of an acceptable written record.

2. Admission by examination: A person who does not qualify for admission by certificate may be admitted by passing examinations prescribed by the college.

3. Admission under the secondary school-college agreement: A graduate qualified under this agreement will be admitted provided he is recommended by the school as having the ability to handle college work satisfactorily.

4. Admission by advanced standing: A student wishing to transfer from another accredited college, university or junior college, or from a Michigan county normal, may be admitted upon presentation of an acceptable written transcript of credits showing honorable dismissal. This transcript must be official, mailed directly from the institution previously
attended to the registrar of this college. Transferred credits, except those from Michigan county normals, will be acceptable only when they have been earned at a college which at the time was accredited by the North Central Association of Colleges and Secondary Schools, by an equivalent organization or by the Michigan College Association. The maximum credit which may be accepted from a junior college is sixty semester hours in addition to physical education. Each transfer case is handled individually, with separate evaluation of credit.

5. Admission as a special student: A person who holds a Bachelor's Degree or a higher degree for which it is prerequisite, may be admitted to the college as a special student upon presentation of credentials showing that he holds such degree or degrees. A person twenty-one years of age or older who wishes to study at this college may be admitted by the Registrar with the approval of the President, provided he is unable to furnish other credentials upon which his admission might be based. Before any special student can receive a degree or certificate from this college, he must have met the requirements for admission prescribed under the other admission procedures numbered 1-4 above.

6. Admission as a guest: One who is regularly matriculated at another college may be admitted as a guest student. The student assumes full responsibility for determining whether or not the courses he takes at this college will apply on his program of study. A guest matriculant is urged to have the courses to be taken approved in advance by the Registrar of the college to which the credits are to be transferred.

The principal or counselor of the student will be asked to recommend him only with respect to his moral character.

APPLICATION FOR ADMISSION

Freshmen

1. A prospective freshman should request an official application form from the Registrar or his high school principal and complete that part as directed in the application.

2. The application should then be returned to the high school principal who will be responsible for including his high school personal data and academic record.

3. The completed application will be sent to the Registrar by the principal. It is not acceptable if presented by the student.

4. The above three steps must be completed before the student can be considered for admission.

5. The student must be officially admitted before he can be counseled or enrolled, therefore all credentials must be in the office of the Registrar in advance of registration for any course.

6. Applications for admission may be sent to the college any time during or following the final semester in high school.
Transfers

1. An application blank must be secured from the Registrar and completed according to instructions.

2. The applicant must request an official transcript be sent directly to the Registrar from each of the colleges he has attended. These transcripts are not considered official if presented by the student. The record must be complete.

3. The student must be officially admitted before he receives an official evaluation of credits, is counseled or enrolled.

4. A prospective student desiring admission as a “guest” student should write to the Registrar indicating the college he last attended. He should write to the college where he wishes to transfer the credit he expects to earn and have that college approve his program of study in advance of registration.

DEGREES

The State Board of Education, on recommendation of the President and faculty of Western Michigan College, confers degrees as follows:

BACHELOR OF ARTS

The student who regularly completes a curriculum conforming to the degree requirements and embracing at least 70 hours in the Divisions of Basic Studies, Language and Literature, Science, and Social Science, including at least eight hours in one foreign language, is eligible for the degree of Bachelor of Arts. If two or more units of one foreign language are presented for entrance, the requirements for foreign language may be waived.

BACHELOR OF BUSINESS ADMINISTRATION

This degree will be conferred upon completion of the Business Administration curriculum as outlined in this catalog.

BACHELOR OF SCIENCE

The student who regularly completes a curriculum conforming to the degree requirements and embracing 38 hours or more in the Divisions of Basic Studies, Language and Literature, Science, and Social Science is eligible for the degree of Bachelor of Science.

BACHELOR OF MUSIC

This degree will be conferred upon the completion of the music curriculum as outlined in the Music Supplement Catalog. A total of 132 hours is required for graduation.

SECOND BACHELOR’S DEGREE

A graduate of Western Michigan College with the degree of Bachelor of Music or Bachelor of Science who subsequently becomes a candidate for the
degree of Bachelor of Arts, or vice versa, is required, in addition to the credits he already has, to complete 30 hours of resident credit and to satisfy any other specific requirements for the degree. The 30 hours need not be taken subsequent to the first degree.

**MASTER OF ARTS**

Western Michigan College also confers the Master of Arts Degree with specialization in Education. For information ask for graduate bulletin.

**DEGREE REQUIREMENTS**

Any curriculum leading to a bachelor's degree consists of at least 124 hours of credit, including required physical education.

The student must meet the following requirements or their equivalent:

1. **General Education Courses**
   a. Communication Area ........................................... 6-8 hours
      Communication 104A and B (8 hours) or
      College Writing 106A and B (6 hours)
   b. Science Area ................................................. 8 hours
      Biological Science 102 (4 hours)
      Human Geography 105A (4 hours)
      Physical Science 100A, B (4 or 8 hours)
   c. Social Science Area ......................................... 8 hours
      Foundations of Western Civilization 100A and B
      (8 hours) or
      Man and Society 101A and B (8 hours)
   d. Humanities Area ............................................. 6 hours
      Humanities 201A and B (6 hours) or
      Humanities 202A and B (6 hours) or
      Alternatives (6 hours)
      (See counsellors for alternative courses temporarily permitted.)
   e. Physical Education Area .................................... 4 hours

2. Eight hours additional work (10 if a student took College Writing) must be elected from non-professional, liberal arts courses marked by an asterisk in the Division of Basic Studies and the Departments of Art and Music, or from any of the courses in the Divisions of Language and Literature, Social Sciences, and Science and Mathematics, except those in the Department of Paper Technology.

3. All students must take three semester hours of government in accordance with Act 106, Public Acts of 1954.

4. At least two-thirds of the work beyond the second year must be in courses not open to first-year students, except where curricular requirements demand otherwise.

5. Courses must be selected so that the requirements in at least one of the curricula are fulfilled before graduation.
6. The student must complete a major with a minimum of 24 hours and two minors with a minimum of 15 hours each. In elementary education the student may complete four minors.

7. Minimum residence requirements:
   It is expected that all candidates for the Bachelor's degree or full certification will have earned at least 30 hours of credit on the campus of Western Michigan College.
   Exceptions to the above policy, where such seem necessary or highly desirable, may be made with written permission from the Registrar.

8. Final residence requirements:
   The final semester or summer session must be on campus or in courses offering residence credit.
   The final six hours required for graduation may be taken in residence at any one of the four Michigan Colleges of Education.
   The final six hours earned in residence at one of the other Colleges of Education may not substitute for any part of the 30 hours residence requirement at Western Michigan College.

BASIC STUDIES' EQUIVALENTS

In determining the extent to which the Basic Studies' (General Education) requirements of Western Michigan College have been met by credits earned at other colleges the following rules shall apply:

1. Communication
   a. A student must present at least 5.5 semester or 9 term credits in a freshman writing or communication course for a full waiver.
   b. If he presents a minimum of 2.5 semester or 4 term hours but less than 5.5 semester credits, he will be required to take either 106B (College Writing), 104A or 104B (Communication).
   c. If the institution from which he wishes to transfer credit has granted a waiver for the freshman English requirement or any part of it, this waiver will be honored by Western Michigan College, providing he substitutes a total of 6 semester or 9 term credits in the Language Division in lieu of this requirement.
   d. If he has less than 2.5 semester or 4 term credits, he will be required to meet the Basic Studies' requirement in communication at Western.

2. Science
   a. Students who present a minimum of 8 semester or 12 term credits in physical science or in any combination of two or more of the following: physics, chemistry, biological science or earth science, will not be held for the general education requirements in the science area. Courses acceptable under the sciences include: Biological Science: Biology, Botany, Nature Study, Physiology, and Zoology; Chemistry: General College Chemistry, Industrial Chemistry (if taught by the Chemistry Department); Earth Science: Conservation, Geography, Geology and Meteorology; Physics: Astronomy, General College Physics, Technical Physics (if taught by the Physics Department).
b. If a student presents 8 semester or 12 term credits in either physics, chemistry, biological science or earth science, he can meet the Basic Studies' requirements by taking a 4 semester credit course in any of the other areas mentioned above, or physical science.

c. Students who present a minimum of 2.5 semester credits or 4 term credits in any area mentioned above will be expected to take additional credits in another area to total 8 semester credits. If the 2.5 credits are in any combination mentioned above (or physical science), he can take the additional work in any of the areas.

d. A student with less than 2.5 semester credits or 4 term credits will be expected to meet the Basic Studies' science requirements at Western.

3. Social Science

a. Any student who presents a minimum of 8 semester or 12 term credits in Western Civilization or in General Social Science or in any combination of two or more of the following subjects will be considered to have met his general education requirements in social science:

   American History
   Cultural Anthropology
   Economics (Principles)
   History of Modern Europe
   Political Science (Introductory course)
   Sociology (Principles)

b. Students who present a minimum of 8 semester or 12 term credits in any one of the above subjects will be expected to take two semester credits in one of the above subjects in which he does not have credit.

c. Students who present a minimum of 6 semester or 9 term credits but less than 8 semester credits in Western Civilization, General Social Science or in any combination of two or more of the above areas will be expected to take additional hours in one of the above subject areas to bring the total to 8 semester credits.

d. Students who present a minimum of 4 semester or 6 term credits but less than 8 semester credits in Western Civilization, General Social Science or any of the above areas will be expected to take additional work in Western Civilization, General Social Science or in one of the above subject areas in which he does not have credit, to total 8 semester credits.

e. If a student has less than 4 semester or 6 term credits, he will be expected to meet the Basic Studies' requirement at Western.

4. Comprehensive Examinations

a. Exemption from the general education science requirements, by comprehensive examination given under the conditions stated in paragraphs B and C below, is possible for students in any of the following three categories:

   1) Students who are majoring or minoring in one or more of the three science fields and who have received credit for courses at
DEGREES DEFINED

the 100 level other than the general education courses in one or more of those fields.

2) Students who have received credit for science courses at the 100 level, other than the general education courses, in following specific preprofessional requirements.

3) Students in the Elementary, Secondary, Special Education — Mentally Handicapped, and Special Education — Speech Correction Curricula where the general education science requirements are starred and carry this footnote: “If the student demonstrates proficiency by comprehensive examination in any of these subjects, he may elect other courses from the division upon the recommendation of his counselor.”

b. Students in any of the above categories may be exempt from four hours of the general education science requirement by satisfactorily completing the comprehensive examination in any one of the three science fields, but he may be exempt from the full eight hours of the requirement only by satisfactorily completing the comprehensive examinations in two of the three fields.

This shall not be interpreted as preventing the inclusion of all three of the general education science fields in the Elementary Curriculum either by taking the courses or by comprehensive examinations in them.

c. The comprehensive examination in each field shall approximate in level of difficulty the final examination given in the course and “satisfactorily completing” it shall be interpreted as attaining a grade on it equivalent at least to a middle “C”.

MAJOR AND MINOR REQUIREMENTS

A major is a sequence of courses totaling a minimum of 24 hours; a minor is a sequence of courses totaling a minimum of 15 hours. Under certain conditions students may elect beyond this minimum up to a maximum of 40 hours offered by any department.

1. Your major and minors will be your subject specialization, such as: mathematics, accounting, biology and chemistry.

2. Your curriculum may be general or specific preparing you for a specialized career or profession such as business, medicine, law, auto mechanics and engineering.

3. Students should consult the departmental advisers for approval of their major and minor programs as soon as it is known what they are to be and by the last semester of the junior year.

4. The candidate for a degree must complete a major and two minors or the equivalent. A candidate for the elementary provisional certificate may elect, instead, four minors for a minimum of 15 hours each.

5. In certain cases “group” majors totaling a minimum of 30 hours and “group” minors totaling a minimum of 20 hours are permitted. They usually consist of courses selected from the related departments of a
division (see the Division of Social Sciences and the Division of Science and Mathematics).

6. General Education courses are partially acceptable toward major and minor requirements.

7. Minors may often be related to majors, so as to recognize naturally or closely related fields; for example, mathematics and physics, history and geography, literature and history, etc.

8. It is usually not permissible to use education as a major or minor in any undergraduate curriculum.

9. The following courses are not to be counted as satisfying major and minor requirements:
   a. Required courses in College Writing or Communication
   b. Required courses in education
   c. Required courses in physical education

10. A combination of foreign languages, or of English or American Literature with a foreign language, is not permissible. A major or minor must be in one language only.

11. Mathematics may not be combined with science (physics, geography, chemistry, biology) for any major or minor sequence.

MICHIGAN TEACHERS' CERTIFICATION

The following types of teaching certificates are granted:

1. State Elementary Provisional Certificate
   a. This certificate qualifies the holder to teach for a period of five years in the elementary grade in any public school in Michigan.
   b. The candidate must meet the requirements for a degree as defined above.
   c. The holder of the Provisional Certificate may be issued the State Elementary Permanent Certificate when the candidate shall have met the following conditions:
      1) Application must be made to the college within one year following the expiration of the Provisional Certificate.
      2) The candidate must submit satisfactory evidence that he has taught successfully during the life of the certificate for not less than three years in elementary schools.
      3) The holder of an Elementary Provisional Certificate issued after July 1, 1945, must have earned in addition 10 hours of acceptable college credit.
   d. For procedure for permanent certification see below.

2. State Secondary Provisional Certificate
   a. This certificate qualifies the holder to teach for a period of five years in the secondary grades in any public school in Michigan, in subject or subject fields indicated on the certificate.
   b. The candidate must meet the requirements for a degree as defined above.
c. The holder of the Provisional Certificate may be issued the State Secondary Permanent Certificate provided the candidate shall have met the following conditions:

1) Application must be made to the college within one year following the expiration of the Provisional Certificate.

2) The candidate must submit satisfactory evidence that he has taught successfully during the life of the certificate for not less than three years in secondary schools.

3) The candidate must have earned in addition 10 hours of acceptable college credit.

d. For procedure for permanent certification see below.

3. State Limited Certificate

a. This certificate qualifies the holder to teach in the state of Michigan for a period of three years in any school district except a school district which maintains an approved high school.

b. The candidate shall present credits satisfying a prescribed curriculum aggregating 62 hours.

c. The candidate shall have satisfactorily completed in residence on campus at this institution 15 hours.

d. The candidate shall have been in residence at this institution the semester or summer session immediately preceding graduation.

PROCEDURE FOR PERMANENT CERTIFICATION

The holder of a Provisional Certificate, who has fully met the requirements, may be issued a Permanent Certificate. Below is outlined the procedure to be followed:

1. The candidate will

a. obtain from the Director of Teacher Education an application blank. This may be done after three years of teaching under the Provisional Certificate, but it must be done within one year following the expiration of the Provisional Certificate.

b. fill out the application as required and return it to the college.

c. return with the application blank his Provisional Certificate with his Teacher's Oath attached.

2. The College will

a. investigate the qualifications of the candidate, ascertain if he satisfies requirements for permanent certification.

b. recommend the candidate to the State Board of Education for permanent certification if his qualifications are found satisfactory.

MISCELLANEOUS PROVISIONS REGARDING CERTIFICATES

1. A candidate presenting credits as a graduate of a Michigan County Normal School and who in addition thereto presents entrance credits satisfying the requirements of this institution shall be granted:

a. toward the Provisional Certificate, 25 hours;

b. toward the State Limited Certificate, 25 hours.
2. Each student enrolling for credit in correspondence courses after December 31, 1951, shall be limited to 15 hours on a degree program or 8 hours on a State Limited Certificate program. Students having completed more than 15 hours but not to exceed 30 hours on a degree program, or 8 hours and not to exceed 15 hours on a State Limited Certificate program are entitled to such credit if used prior to June 30, 1957.

3. No teacher's certificate will be granted to any person who is less than eighteen years of age.

4. No teacher's certificate will be granted to any person who is not a citizen of the United States or who has not declared his intention of becoming a citizen.

5. A person who holds an expired provisional certificate may renew such certificate and restore it to good standing by completing 10 hours of acceptable college work. Application for reinstatement must be made through the institution upon whose recommendation the certificate was issued. For an application for reinstatement, please write to the Registrar.

6. The State Board of Education has approved a plan whereby credit may be earned in Directed Teaching by a course offered in the field, as a part of the requirement for the provisional and limited certificates. The student should consult with the Director of Teacher Education before enrolling in this course.

DIRECTIONS TO HOLDERS OF LIMITED CERTIFICATES

No person can be employed to teach in any school district unless he is legally qualified by holding a valid certificate. In order that the holder of any limited certificate may retain without interruption his status as a legally qualified teacher, he must make application for renewal to the State Board of Education between April 1 and September 1 of the year the certificate expires; if the candidate on the expiration of the certificate does not arrange for renewal as here stated, he will forfeit his status as a legally qualified teacher, and therefore will not be permitted to teach. He will, however, remain eligible to make application for renewal until June 30 of the year following expiration of his certificate, after which date renewal privileges are cancelled.

1. The holder of a State Limited Certificate may be issued (five times) a State Limited Renewal Certificate provided the candidate shall have met the following conditions:

a. Subsequent to the date of issue of the last certificate held, the candidate must have acquired 10 hours of credit, of an average grade of "C" or better, earned in an institution or accepted by an institution approved by the State Board of Education. These credits must be applicable toward the requirements of the curriculum prescribed for the State Provisional Certificate eventually desired.
b. In order to assure that the credits earned toward renewal will apply on the State Provisional Certificate curriculum at the institution where the candidate intends to qualify eventually for that certificate, the candidate should arrange in advance in each case to have his course selections approved by that institution. Also all credits, wherever earned, should be submitted to that institution for evaluation and by it transmitted to the State Board of Education with recommendations.

2. The holder of a County Limited Certificate may be issued (two times) a County Limited Renewal Certificate, each valid for two years provided the candidate shall have met the following conditions:
   a. Subsequent to the date of issue of the last certificate held, the candidate must have acquired 10 hours of credit, of an average grade of "C" or better, earned in an institution or accepted by an institution approved by the State Board of Education. These credits must be applicable toward the requirements of the curriculum prescribed for the State Limited Certificate and for the State Provisional Certificate.

b. In order to assure that the credits earned toward renewal will apply on the State Limited Certificate curriculum and on the State Provisional Certificate curriculum at the institution where the candidate intends to qualify for either certificate, the candidate should arrange in advance in each case to have his course selections approved by that institution. Also all credits, wherever earned, should be submitted to that institution for evaluation and by it transmitted to the State Board of Education with recommendations.

Note—More complete information concerning the several teachers' certificates may be obtained from Bulletin No. 601, Teachers' Certification Code, published by the Superintendent of Public Instruction, Lansing, Michigan. 1942 Revision.

ADDITIONAL REGULATIONS

1. Before being admitted to the regular program of work of the third year, a candidate for a teaching certificate shall have satisfied his Basic Studies requirements in Communication or College Writing, Science, and Social Science. He shall have maintained at least a "C" average, (point hour ratio 2.0) for work already completed and shall give evidence of his fitness for teaching.

2. All students who expect to obtain a degree and teaching certificate are required to present credits in the following courses: Human Growth and Development 251, Introduction to Directed Teaching 240 or 351, and Directed Teaching, Laboratory in Education, and General Educational Problems 370 A, B, C.

3. Minimum residence requirements: The minimum residence requirement is thirty (30) semester hours. Of this thirty hours, fifteen hours must be earned on this campus. Of the final thirty hours earned for the degree ten hours must be earned from this College. Correspondence credit may not be applied to meet any of the above requirements.
Student Responsibilities

CHANGING COURSES

Necessary changes in enrollment must have been made by the end of the first complete week of a semester. Permission to drop courses will be given to upperclassmen for adequate reasons through the third complete week of a semester; to freshmen, through the fourth week. A mark of “WP” will be recorded for a subject dropped after the above time limits, if the student is then doing passing work; a mark of “WE” if the student is then failing, and a mark of “E” if the course is dropped without written permission.

CLASS ATTENDANCE

Students are responsible directly to their instructors for class and laboratory attendance as well as for petitions for excuses for absences.

Students who anticipate being absent or who have had prolonged periods of absence should confer with the appropriate dean and give explanation concerning their cases. But such “explanations of absences” are not to be construed by instructors as constituting “excuses for absences.” The “cut system” is not recognized.

CLASS LOAD

A student may not enroll for more than seventeen hours of work, during any semester, except by special permission, unless curriculum requirements indicate otherwise. (This is considered to be a “normal load.”) This regulation applies to total credit for work taken by extension or in some other institution, in addition to credit desired in residence at Western.

A student may make application for “extra hours” by securing an application blank from the Registrar, filling it out, and filing it with him. The maximum load for a given student is regulated on the basis of apparent ability and other pertinent factors.

A student in his first semester at Western rarely is permitted to carry “extra hours.”

The normal maximum load for summer session students is six hours; the minimum is four hours.

If a student works full time, his academic load should not exceed 10 to 12 hours. Students employed part-time should reduce their class loads proportionately.

Focal point for campus activity is now the administration building, shown here from the south. This structure was opened in 1952.
By special permission, a student who received a point-hour ratio of 3 or more in the preceding semester or summer session, and who had no "incompletes," may carry a program rising to a maximum of 19 semester hours.

For persons teaching or otherwise employed who can attend classes only evenings or Saturdays the normal maximum load is 6 hours. This regulation applies equally to resident and to extension work.

No student may enroll at any time in more than two courses offered by the Field Service Division.

Students who attend a summer session will not be granted credit for more than 15 hours in one calendar year in courses offered by the Field Service Division.

Students who do not attend a summer session will be allowed credit up to 18 hours in one calendar year in courses offered by the Field Service Division.

CLASSIFICATION

Students at Western Michigan College are classified officially as follows:

Freshmen—Students credited with 0-25 hours inclusive.

Sophomores—Students credited with 26-55 hours inclusive.

Juniors—Students credited with 56-87 hours inclusive.

Seniors—Students credited with 88 hours or more.

COLLEGE ABILITY TESTS

Tests of ability to do college work acceptably are required of each student upon entrance. This applies not only to freshmen but to upperclassmen as well. The results of these tests are of service in advising students regarding their scholastic work and therefore are to be taken before the student is counseled.

COMMENCEMENT

All students who complete the requirements for graduation and are entitled to receive degrees and/or certificates are expected to be present at the commencement exercises.

CONDUCT

Conduct in harmony with the ideals of the institution is expected of each student. Effort is made to stimulate the student to earnest, honest endeavor, and to develop new and worthy interests. In the furtherance of this policy, a Dean of Women and a Dean of Men devote their time to matters pertaining to the welfare of the student body. They may be consulted freely on any matter in which they can be of assistance.

The college has never assumed an attitude of paternalism toward its students. On the assumption, however, that the student has entered the institution for the definite purpose of educational advancement, regularity of class attendance, reasonable evening hours, and a sane social program are required.
The college is opposed to the use of liquor in any form. It will not allow the use of liquor at college functions, in college buildings, or on college property. Students entering their rooming places, either the dormitories or private houses, under the influence of liquor, and students who introduce liquor into any rooming place or college building will be subject to dismissal from the college.

CREDIT FOR MUSIC ACTIVITIES

1. A maximum of two hours of academic credit annually is given for one year's regular participation in each of the following activities: Band, Glee Club, Orchestra, College Choir, Auxiliary Choir and Auxiliary Band.

2. Eight hours of academic credit is the maximum allowed for participation in any one of the six activities indicated.

3. A grand total of not to exceed twelve hours of academic credit is allowed for participation in the five activities noted.

4. Participation in Band may be substituted for physical education credit up to a maximum of three hours (two hours until the fall of 1957). A minimum of one hour of credit must be earned by actual participation in general physical education classes by each student who is participating in Band. Substitution of Band participation for physical education credit during second semester is possible only if the student has participated in the marching Band during the first semester.

5. Official enrollment cards must bear notations of the work in music the student wishes to carry. Semester-hour values must be indicated.

EXAMINATIONS

1. A final examination is given in every course in accordance with the official schedule issued each semester. No examination may be held except as announced in this schedule, and no date of examination may be changed without special permission of the Examination Schedule Committee.

2. Students are required to take examinations in all courses in which they are enrolled.

3. Students may not request an examination at any other than the scheduled time. Any unavoidable conflict should be reported to the registrar as soon as known so that special arrangements can be made.

4. Failure to meet the schedule due to illness is to be reported to the appropriate Dean immediately.

EXPENSES

<table>
<thead>
<tr>
<th>Fees</th>
<th>For Michigan Residents</th>
<th>For Non-Resident</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>Local Fees</td>
<td>Total</td>
</tr>
<tr>

<td>45.00</td>
</tr>
<tr>
<td>28.50</td>
<td>26.00</td>
<td>54.50</td>
</tr>
<tr>
<td>47.50</td>
<td>42.50</td>
<td>90.00</td>
</tr>
</tbody>
</table>
The above charges for both tuition and fees apply without exception to all students enrolling for credit.

1. Applied Music — $60 per semester for one hour per week of private instruction or $30 for one half hour per week.

2. Field Service and Adult Education—$10.00 per hour.

3. Late Enrollment—$5 for students who enroll after the established registration days.
   $2 penalty for late pre-enrollment.

4. Refund Policy—Tuition and Local Fees will be refunded (according to the following schedule) when a student withdraws from college or reduces his credit load.
   a. Seven calendar days or less after the last official registration day—90 per cent of total.
   b. More than 7 calendar days and less than 22 days after the last official registration day—60 per cent of total.
   c. More than 21 calendar days and less than 36 days after the last official registration day—40 per cent of total.
   d. More than 35 calendar days and less than 50 days after the last official registration day—20 per cent of total.

Note: 1) No refund will be granted if the student withdraws after the 49th calendar day after the last official registration day.
2) No refund will be granted unless applied for by the 56th calendar day after the last official registration day of the semester in which the student withdraws.
3) No refund will be made to a student eligible for benefits under Act 245 of the Public Acts of 1935, as amended, unless request is made not more than one week after registration.
4) Refunds are not automatic but must be applied for at the Business Office within the prescribed time limits.

5. Residence Requirements—
   Residence in Michigan for the purpose of registration shall be determined according to the state constitution provision governing the residence of electors (See Article III, Sections 1 and 2); that is, no one shall be deemed a resident of Michigan for the purpose of registration in the college, unless he has resided in this state six months next preceding the date of his proposed enrollment, and no person shall be deemed to have gained or lost a residence in this state while a student in the college.
   The residence of minors shall follow that of the legal guardian.
   The residence of wives shall follow that of their husbands.
   Persons of other countries who have taken out their first citizenship papers and who have otherwise met these requirements for residence shall be regarded as eligible for registration as residents of Michigan.
   It shall be the duty of every student at registration, if there be any possible question as to his right to legal residence in Michigan under rules stated above, to raise the question with the registration officer and have such question passed upon and settled previous to registration.
In determining the residence status the designated official will apply the following rules:

1. The residence of any student under the age of 21 will be determined by the residence of his parents or guardian.

2. Any student who starts as a non-resident student and who attends college continuously from the date of his first enrollment (semester after semester exclusive of summer session) will retain the same residence status with which he started out except as outlined in No. 3 below.

3. Any student over the age of 21 residing in Michigan and who starts out as a non-resident student can be given residence status as soon as he can prove he has been accepted by an election official as a resident elector in the State of Michigan and by filing a written statement with the college declaring his intention to continue his residence status in Michigan after leaving the college.

</tbody>
</table>

**Room Only**

| Vandercook Hall         | $81 per semester          |

Address requests for reservation in women's residence halls to the Dean of Women, for reservation in men's residence halls to the Dean of Men. All applications must be accompanied by a $10 room deposit made by check, payable to Western Michigan College.

Note: Due to the unsettled conditions of prices for food and labor, the College reserves the right to increase the charge during the year if, in its opinion, such increase is necessary.

**GRADUATION**

The candidate for degree is expected to make application for graduation by the last semester of his junior year so that his record may be checked before his senior year. The student can help to avoid the embarrassing situation of planning to participate in commencement activities when he has not met requirements.

Off-campus students are to apply before the last semester of the senior year.
HONORS IN COURSE

Honors in Course are conferred upon graduating students who have displayed special attainments in scholarship during their college course. Such honors are announced at a special convocation.

Recipient of honors receive their degrees:

- **Cum laude**—when their point-hour ratio is 3.50 to 3.69, inclusive
- **Magna cum laude**—when their point-hour ratio is 3.70 to 3.89, inclusive
- **Summa cum laude**—when their point-hour ratio is 3.90 to 4.00, inclusive

(See page —— for method of computing honor points and point-hour ratio)

In computing point-hour ratios for honors in course, the following rules will apply:

1. Credits and honor points earned during a student's second to seventh semester, inclusive, only will be counted toward honors.
2. Credits and honor points earned in correspondence and extension classes as well as those transferred from other duly accredited institutions will be considered toward honors.
3. No student will be eligible for an honor in course who has not earned at least 160 honor points in this college during the interval mentioned in Rule 1.

MARKING SYSTEM

The student receives one grade in each course that he takes. This grade combines the results of class work, tests, and final examinations. Grades are indicated by letters, to each of which is assigned a certain value in honor points per hour of credit, as shown in the table below.

<table>
<thead>

<tr>
<td>W</td>
<td>Withdrawn</td>
<td>(see below)</td>
</tr>
</tbody>
</table>

"I" INCOMPLETE

This is a temporary grade given for work which is passing in quality but lacking in quantity to meet course objectives. It is assigned when illness, necessary absence, or other reasons satisfactory to the instructor prevent completion of the course requirements by the end of the semester. This grade may not be given for unsatisfactory work.

A grade of "I" must be removed by the termination date of the next regular semester following the date it was assigned or a grade of "E" will be recorded for the course. When the "I" is removed, a permanent grade will be recorded in its place.
An instructor who assigns a grade of "I" will submit to the Department Chairman and to the Registrar a statement of remaining requirements for removal of the incomplete grade for each student concerned.

"W" WITHDRAWN

A grade of "W" is given in a course when a student officially withdraws from that course or from college preceding the established date for withdrawing from courses without penalty.

"WP" is given to indicate that a student has officially withdrawn from a course after the penalty date and was doing passing work in that course when he withdrew.

"WE" is given to indicate that a student has withdrawn from a course after the penalty date and was doing failing work when he withdrew.

SCHOLARSHIP INDEX

The general quality of a student's work in college is revealed by the grades he receives in courses, the number of honor points he earns, or by his point-hour ratio.

HONOR POINTS

The number of honor points earned in a course is the number of semester hours credit given by the course multiplied by the number of honor points per hour of credit corresponding to the letter grade received, as shown in the preceding table. For example, a grade of B in a four hour course gives $4 \times 3$, or 12 honor points.

POINT-HONOR RATIO

A point-hour ratio is obtained by dividing the total number of honor points earned by the total number of semester hours of work for which the student is officially enrolled during any period. For example, a total of 32 honor points earned in a semester by a student officially enrolled for 16 hours of work gives a point-hour ratio of $32/16$ or 2.0 for that semester.

HIGH SCHOLARSHIP LIST

To gain a place on the High Scholarship List for a semester, a student must:

1. Have taken at least 14 hours of work during the semester.
2. Have taken not more than 8 hours of work in any one department.
3. Have a point-hour ratio of 3.64 or higher.
4. Have not more than 5 hours of B grade.
5. Have no grade below a B.
LOW SCHOLARSHIP LIST

In determining low scholarship status as defined in the rules that follow, hours of work for which a student is officially enrolled and honor points earned during a summer session will be combined with those of his last preceding semester in attendance in computing his point-hour ratio for that semester and/or session. If a student has attended summer sessions only, his records for two consecutive (in attendance) summer sessions will be combined and treated as equivalent to that of one semester in all of the following rules.

1. Any student who receives grades of E in 75 per cent or more of the work for which he is officially enrolled at the end of any semester (or its equivalent) will be dismissed from college.

2. FRESHMEN. Any freshmen not on probation whose point-hour ratio for any semester falls below 1.50 will be placed on probation for his next semester in attendance.
   Any freshman currently on probation whose point-hour ratio for the semester falls below 1.70 will be dismissed from college. He may apply for readmission; if accepted, he will be placed on probation for another semester.

3. UPPERCLASSMEN. Any student classified above freshman and not on probation whose point-hour ratio for any semester falls below 1.80 will be placed on probation for his next semester in attendance, unless he is disqualified under Rule 4, below. Any student classified above freshman and currently on probation whose point-hour ratio falls below 2.00 will be dismissed from college. He may apply for readmission, unless he is disqualified under Rule 4, below. If accepted, he will be placed on probation for another semester.

4. No student will be granted academic probation more than three times. If he fails to raise his scholastic record above the probation level within these periods he will be dismissed from college.

5. Rules 2, 3, and 4 will be applied to students who transfer to Western from other colleges. The scholarship level of a transfer student will be determined from his record.

STANDARD FOR GRADUATION

No student will be graduated in any curriculum if his point-hour ratio, based on the work required in that curriculum, is less than 2.00.

TRANSCRIPTS

A student desiring a transcript of his record in this college should write to the registrar, giving dates of attendance and, if a graduate, the date of graduation. He should give all names under which he may have been enrolled. Each student is entitled to one transcript of his record without charge, but all additional copies are charged for at the rate of one dollar a copy.
UNIT OF CREDIT

The unit of credit is the semester hour; the number of semester hours credit given for a course generally indicates the number of class periods a week.

A minimum of 62 hours of credit is required for a State Limited Certificate in the two-year Rural Elementary Curriculum, and 124 hours of credit for the A.B. or the B.S. degree.

HOUSING REQUIRED

All Freshmen men not living at home are required to live in College dormitories, in so far as facilities are available. Any deviation from the above will be carefully considered through the office of the Dean of Men. Other men are required to live in residences approved by the office of the Dean of Men. A list of approved rooms is available and will be furnished upon request.

All undergraduate women students under 25 years of age enrolled at Western Michigan College are required to live in College Residence Halls insofar as space is available, unless they are living in their own homes, or with close relatives, or unless other arrangements are approved for them in writing by the Housing Committee. This is in accordance with the ruling of the State Board of Education of July 15, 1949.

The Office of the Dean of Women will be interested in considering applications from older women students, or women students on the graduate level, for positions as Assistant Directors in the residence halls. This position pays board and room.

IDENTIFICATION PHOTOGRAPH

When a student enrolls for the first time, he is required to have taken an identification photograph of which three copies are made. One copy becomes part of the student's permanent record, another copy is given to the student to serve to identify him, while a third copy is filed in the appropriate Dean's office.

The vast west campus is a rapidly changing panorama, as new buildings are being added yearly to meet the demands of Michigan’s youth.
PART II—Curricula

I. THE GENERAL CURRICULUM

A.B. or B.S. Degree

In this curriculum a student may satisfy the requirements for pre-professional work. If 124 hours are completed in this program the student will be eligible for a degree of Bachelor of Arts or Bachelor of Science. Liberal arts requirements can be met in this curriculum.

A. General Education Requirements

Communication Area
Communication 104A, B (8 hours) or College Writing 106A, B (6 hours)

Science Area
Biological Science 102 (4 hours)
Human Geography 105A (4 hours)
Physical Science 100A, B (4 or 8 hours)

Social Science Area
Foundations of Western Civilization 100A, B (8 hours) or Man and Society 101A, B (8 hours)

Humanities Area
Humanities 201A, B (6 hours) or Humanities 202A, B (6 hours) or Alternatives (6 hours)
(See counselors for alternative courses temporarily permitted.)

Physical Education Area

B. Eight hours additional work (10, if a student took College Writing) must be elected from non-professional, liberal arts courses marked by an asterisk in the Division of Basic Studies and the Departments of Art and Music, or from any of the courses in the Divisions of Language and Literature, Social Sciences, and Science and Mathematics, except those in the Department of Paper Technology.

D. Courses to complete major, minors and electives to make a total of 124 hours
II. CURRICULA FOR TEACHERS

The program for prospective teachers consists of three parts: (1) general education, designed to develop those understandings and competencies which make for effective living and good citizenship; (2) advanced specialized study, with major and minor interests in the fields of the student's choice; and (3) professional education designed to develop competent, efficient performance in the classroom and within a school system.

In general, prospective teachers choose to work for the State Elementary Provisional Certificate, valid for grades kindergarten through eight, or the State Secondary Provisional Certificate, valid for grades seven through twelve.

Students majoring in art, music, librarianship, or physical education for women may choose either the State Elementary Provisional Certificate or the State Secondary Provisional Certificate. Either certificate will authorize the candidate to teach his special subject in both the elementary and secondary grades when the candidate qualifies in both fields.

Students wishing to teach in selected school districts in Michigan which do not maintain an approved high school may pursue the Rural Education curriculum which leads to the State Limited Certificate.

8. Electives ..................................................... 62

B. One major of not less than 24 hours and two minors of not less than 15 hours each in subjects or subject fields that are taught in secondary schools in Michigan are required. Certain courses in some department may not be counted toward majors or minors (See course descriptions).

C. The candidate must satisfy the requirements of the A. B. or B. S. degree.

D. The candidate for the State Secondary Provisional Certificate must present a methods course in a major or minor field.

BUSINESS TEACHER TRAINING CURRICULUM

B.S. Degree and Secondary Provisional Certificate  
Counselors—Lindquist, McBeth

A State Secondary Provisional Certificate for teaching of business subjects in grades 7 to 12 is granted to students who complete the degree requirements with a major (24 hours) in business, two minors (15 hours
each), one of which may be in business, and 23 hours in education. A major and/or a minor may be selected from the following fields:

1. Secretarial and related business subjects.
2. Accounting and related business subjects.

Students who intend to take a major or a minor in Business Teacher Training should confer with their advisor as early as possible in their sophomore year.

INDUSTRIAL ARTS CURRICULUM

B. S. Degree and Secondary Provisional Certificate

(For the preparation of Industrial Arts Teachers for the secondary schools.)

The curriculum meets the needs of students who plan to teach industrial arts in junior and/or senior high schools. Students who complete these requirements will be qualified to teach in a general shop and in one of the following area shops: metals, woods, drawing, electricity, printing or graphic arts, and arts and crafts.

- Italian Dict. and Song Lit. 222 (1 Sem.)

*General Supervisors divide their study between voice and an instrument. Instrumental Supervisors concentrate their study on an instrument. Vocal Supervisors concentrate their study on voice.*
RURAL LIFE AND EDUCATION

DEGREE AND PROVISIONAL CERTIFICATE

Curricula, leading to the State Provisional Certificates, are offered with major attention given to preparation for work in rural schools and communities. Majors (24 hours) and minors (15 hours) in Rural Life and Education are provided that students may choose under guidance those courses that will in their judgment most adequately prepare them both personally and professionally. The majors and minors are not limited to students in the department.

Students preparing to teach in elementary schools choose four minors preferably, or a group major and two minors, and additional courses from among both group and general electives. They become familiar with the grades and subject areas of the entire elementary school. The Rural Elementary Curriculum (two years) is the first two years of the Rural Elementary Degree Curriculum.

Students preparing to teach in secondary schools choose majors, minors and additional subject matter courses with thought to the rural backgrounds of the students; also with thought to the variety of teaching and extracurricular demands to be met in smaller high schools. The Rural Elementary Curriculum (two years) includes the foundation courses for the Rural Secondary Degree Curriculum.

Counsel and courses are offered for further professional specialization for principals, superintendents, supervisors and county superintendents. Those preparing to serve rural people in other professional or service occupations, such as ministers, librarians, social workers, and recreational leaders, will find considerable basic work in the offerings of the Department of Rural Life and Education.

STATE LIMITED CERTIFICATE CURRICULA

The following two-year, 62 hour curricula meet the requirements for the State Limited Certificate which is valid for three years and “qualifies the holder to teach in any primary school district or in any graded school district not maintaining grades above the eighth. All courses must be appropriate to the education of elementary teachers”, at least 30 hours being in Groups I, II and III. Students are encouraged to complete four-year curricula at the earliest possible moment.

*Teachers’ Certification Code, Bulletin No. 601, 1942 revision

RURAL ELEMENTARY CURRICULUM (TWO YEARS)

This curriculum is planned to give as broad, and at the same time as specific and practical professional preparation for working with children in farm and rural non-farm communities, as is possible in two years.

Electives 8 .................................. 9

Provision is made for a flexibility of choice among the courses in the different groups, under guidance of the departmental counselor; preferences usually falling among the following:

1. Speech for Teachers 105; American Literature for Children 203.
2. Rural School Agriculture 105; Outdoor Science 231A or B; Human Geography 105A; Health Education 285.
3. State and Local Government 236B; United States History 201B.
4. Psychology of Reading 212; Human Growth and Development 251. Those selected students permitted to do Directed Teaching 241 in the field while in residence there for six weeks receive 5 instead of 4 hours credit.
8. These electives may well be chosen from the preferred courses listed in the above notes (1-6) not used to meet minimum group requirements, supplemented if necessary from such courses as follow: Arithmetic 101; College Writing 106B, Reading Interests of Children 202, Literacy Interpretation 210, The English Bible 218A, B, Principles of Speech Correction 251; World Regions 105B, Physical Science 108A.B; United States History 201A; Illustrative Handwork 167, Industrial Art 110; College Orchestra 132, College Band 133, Auxiliary Choir 134.

JUNIOR OR COMMUNITY COLLEGE—COLLEGE OF EDUCATION

Cooperative Teacher Education Curriculum

Michigan junior colleges and the colleges of education have a cooperative program in teacher education. In three semesters in a junior college and the fourth semester in a state college of education, minimum requirements may be met for a State Limited Certificate as prescribed in the 1942 Revision of the Teachers’ Certification Code.

Recommendation for certification is made by the college of education. The program is coordinated by a representative from the college of education who also serves as program counselor for the second year students. In
the field service area of Western Michigan College are Grand Rapids Junior and Benton Harbor and Muskegon Community Colleges.

7. Physical Education .................................................. 4
All students in Occupational Therapy are to take two class
hours of physical education (including Physical Education
100). Two additional class hours of credit will be received
for recreational therapy done on affiliation.

8. Clinical Training 410 ............................................. 5
Nine calendar months at affiliating hospitals. The student
will receive undifferentiated credit totaling 5 hours in addition
to the hours earned in Psychiatry (3) and Hospital
Case Studies (3).

B. Thirty hours of college credit must be earned before the student is
admitted to the Department of Occupational Therapy. This admittance is based on the approval of the applicant by the Coordinating
Committee of the Department on the basis of general aptitude for the
work and the scholastic record submitted with the special application
blank.

C. Granting of the Diploma of Occupational Therapy and registration
in the American Occupational Therapy Association is conditional upon
the student's passing a comprehensive examination over all required
work.

D. The candidate must satisfy the requirements of the B.S. degree.

VOCATIONAL DISTRIBUTIVE EDUCATION CURRICULUM

B.S. Degree

State Secondary Provisional Certificate

(For preparation of teachers and coordinators of Vocational Distributive Education. Graduates are qualified to teach and coordinate in reimbursed Vocational Education Programs.)

Western Michigan College is the designated teacher-education institution for distributive education. It has provided a qualified teacher-education service available to schools, individual teachers, and coordinators who desire aid in the improvement of methods of instruction, or in planning more effective instructional materials.

It operates with the cooperation of the Office of Vocational Education, Department of Public Instruction.

Under the Michigan Plan for Vocational Education for the certification of vocational teachers, it is required that teachers, coordinators, and supervisors of business subjects carry out a program of educational upgrading. The subjects used for upgrading oneself to a higher level for certification may be used concurrently for graduate credit, leading to the master's degree.

The prerequisites to admission to this curriculum are:

1. Junior year standing and completion of a two-year terminal program in retailing.
2. Completion of a minimum of 24 hours in retailing courses.
3. Satisfactory evidence of having had one year of work experience in a distributive occupation.

A minimum of two years of approved distributive work experience is required for graduation.

Courses required unless previously taken to meet minimum group requirements:

VOCATIONAL INDUSTRIAL CURRICULUM

B.S. Degree

State Secondary Provisional Certificate, and State Trade and Industrial Certificate

(For the preparation of Trade and Industrial teachers for the secondary schools)

This curriculum meets the necessary requirements for a Trade and Industrial Teacher Certificate, as established by the State Department of Public Instruction. Arrangements will be made whereby students may secure trade or occupational experience in local industries. Coordinated practical work experience is mandatory. It is necessary for a student to work an equivalent of three years, and some of this should be accumulated during vacation periods. In general, the type industry selected will be governed by the nature of the student's interest in the industrial phase which he expects to teach.

Students are required to take one minor in industrial arts consisting of 20 hours in drawing, wood, electricity and metal. An alternative may be a 15 hour minor in any course sequence such as wood, metal, drawing or printing.

AIR TRANSPORTATION B.S. Degree

The Air Transportation curriculum is designed to train personnel for various positions with commercial airlines and aircraft industries. Students may elect to follow either Option I or Option II. The sequence of courses under Option I is intended primarily for those interested in working for the airlines. Option II is organized for those who are planning to seek employment in aviation manufacturing industries.

INDUSTRIAL DISTRIBUTION

B.S. Degree

This curriculum is designed to prepare personnel for employment in industrial distributors' organizations as purchasing agents, salesmen, management consultants, warehousing executives, etc. Since some graduates may wish to enter the manufacturing rather than the distributing phase, the curriculum also provides sufficient technical and supervisory training to enable them to eventually qualify for industrial positions in such areas as supervision, production control, time and motion study, quality control, plant management, personnel work and purchasing.

PAPER TECHNOLOGY

B.S. Degree

This curriculum is intended to prepare students for work in the paper industry in the technical, manufacturing, sales, and executive areas. It is foundational in nature, and provides for actual work experience during the summers in the paper mills. It is expected that the student will work in the mills at least two of the three summers indicated. The plan operates cooperatively through the use of an advisory committee composed of eight members from the industry and three members from Western Michigan College. Option I stresses preparation for production and technical areas, whereas Option II prepares students for sales and management areas in the paper industry.

Psych. 300; Foremanship Training 353; Time Study and Job Analysis 354; Production Control 356; Intro. to Electronics 361; Electrical Measurements 362; Elem. Statistical Practice 209; Intro. to Statistical Theory 473.

### SOCIAL WORK

A.B. or B.S. Degree, with Certificate in Social Work

This curriculum is designed to prepare students for the lower levels of social work positions, and for the civil service examinations required for employment in many public agencies. It also provides basic pre-professional education for graduate training in social work. Graduates who continue in social work as a profession should plan to take, as early in their career as possible, one or two years of professional social work training at the graduate level.

Satisfactory completion of the courses in this curriculum is required for the Certificate in Social Work. In addition the student must take whatever courses are needed to satisfy the group and general education requirements for the A.B. or B.S. degree.

</table>

The required courses in this curriculum provide for a social science major of 34 or 37 hours and a minor in social work of 17 or 18 hours. Some 50 hours of elective courses are allowed. These electives should be used primarily to fulfill the requirements for the general degree and to strengthen the general education of the student. To meet the need of certain students for special skill, however, some elections from such tool subjects as the following may well be considered: Elementary Typewriting 101A, Home Management 322, Community Recreation, Scouting and Campfire 276, Laboratory Psychological Testing 302, Clinical Psychology 309 and Labor Problems 421A, B.
IV. PRE-PROFESSIONAL CURRICULA

Every professional school has prescribed the nature and amount of the college work to be completed as a prerequisite to the professional training for a particular vocation. Four years of college work is generally required by most professional schools for entrance. Western Michigan College is able to offer its students courses of study that meet the requirements for this pre-professional training. It should be noted, however, that the courses outlined are only suggested plans to illustrate in general the kinds of programs that pre-professional students should follow. IN EVERY CASE THE STUDENT SHOULD PLAN HIS COURSE AT WESTERN MICHIGAN COLLEGE ACCORDING TO THE REQUIREMENTS OF THE SCHOOL TO WHICH HE PLANS TO TRANSFER FOR HIS PROFESSIONAL TRAINING. It cannot be emphasized too strongly that the student should exercise care to see to it that the specific requirements of a particular school will have been met.

AGRICULTURE

The completion of the courses outlined below will permit the student to enter the junior year at Michigan State University for the bachelor's degree in Agricultural Science or the certificate for the teaching of vocational agriculture in the secondary schools of Michigan.

Mathematics 100A, C | 6
Surveying 210 | 3
Prin. of Econ. 220A | 3
Amer. Gov't. 334 | 3
Lang., Speech or Psych. suggested as optional student electives.
Although the Dental Aptitude Test is required of all applicants to any dental school, the amount and kind of college work needed for admission varies. Therefore, a student planning to do his pre-dental work at Western Michigan College should have a catalog from the dental school of his choice and plan his work at Western to meet the requirements of that particular school.

The following program will in most instances satisfy dental school requirements:

**JOURNALISM**

Most schools of journalism have very definite requirements for admission. A student wishing to do his pre-journalism work at Western Michigan College should plan his course of study according to the requirements for the particular school of his choice. The following is only a suggested program. Many schools require work in a foreign language in addition.

<table>
<thead>
<tr>
<th>First Year</th>
<th>S.H.</th>
<th>Second Year</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>

</table>
LAW

An increasing number of law schools are requiring a college degree before admission. Many of these schools also require applicants to take the Law School Admission Test. A student planning to go to a law school should plan his course at Western Michigan College with his counselor according to the requirements of the school of his choice.

Below is a suggested program covering three years of work:

<table>
<thead>
<tr>
<th>First Year</th>
<th>S.H.</th>
<th>Second Year</th>
<th>S.H.</th>
</tr>
</thead>
<tbody>
<tr>
<td>College Writing 106A, B</td>

<td>1-5</td>
</tr>
</tbody>
</table>
MEDICINE

Many medical schools accept students with three years of college work. Others require that the student finish four years before entering. The Medical College Admission Test is required of all applicants to medical schools.

A student planning to do his pre-medical work at Western Michigan College should obtain catalogs from three medical schools of his choice and should plan his college work to meet their requirements. A special counselor for those enrolled in pre-medical work will assist the student in planning his course of study.

<table>

MEDICAL TECHNOLOGY

The first three years of this curriculum meet the scholastic requirements for admission to the Laboratory training school of the Michigan Department of Health and the Registry of the American Society of Clinical Pathologists. Upon successful completion of the fourth year, the student may be granted the degree of Bachelor of Science, if all requirements have been satisfied for a general degree.

Minors should be established in biology and chemistry and final counseling should be obtained upon completion of forty-five hours. The major is "Medical Technology," 335, thirty hours taken during the fourth year at a recognized hospital for training Med-Tech students or at the Michigan Department of Health. State tuition must be paid during the senior year while on affiliation.

MORTUARY SCIENCE

The first two years of a three-year program in Mortuary Science are called the pre-professional part of the program. To complete the requirements for this, a student must earn 60 hours of credit. It is strongly recommended that his course work include the following: English (6 hours), General Chemistry (8 hours), Organic Chemistry (3 hours), Social Sciences, including geography, history, government, economics, sociology and philosophy, (8 hours), Zoology or Biology (4 hours), Psychology (2 or 3 hours), Mathematics or Accounting (4 hours).

The Michigan Board of Examiners of Mortuary Science requires completion of certain group requirements which the student should check thoroughly.

Suggested First Year  S.H.
College Writing 106A, B  6
Chem. 100A, B or 101A, B  8
Man & Society 101A, B or  8
   West. Civ. 100A, B  8
Biology 100A  4
Small Bus. Mgmt. 237  3
Phy. Ed.  2

NURSING

Pre-professional preparation for transfer to a college of nursing may be taken at Western Michigan College for one or two academic years.

Universities offering a four-year correlated-program leading to a B.S. degree and R.N accept transfer students from an accredited institution upon the satisfactory completion of one year meeting specified requirements.

Bronson Methodist Hospital School of Nursing students receive pre-clinical instruction at Western Michigan College. Credit toward a baccalaureate degree may be offered at the discretion of the college after evaluation of the Nursing School record of the individual graduate nurse.

A typical one-year pre-professional required program: S.H.
College Writing 106A, B or  6-8
   Communication 104A, B
Chemistry 101A, B or 100A, B  8
Biology 100A, B  4-8
Psych. 200  3
Social Sci.  8
Electives (to bring total to at  3-18
least 30)

A typical two-year pre-professional required program: S.H.
College Writing 106A, B or  6-8
   Communication 104A, B
Chem. 101A, B or 100A, B  8
   Biology 100A, B  8
   Zoology 242A, B  4-8
   Psych. 200  3
Social Studies  14-18
Electives (to bring total to at  3-18
least 60).

In co-operation with the nursing counselor, students should plan with care to meet the admission requirements of the school they wish to attend.
PHARMACY

A student transferring to a college of pharmacy is required to be in residence at that school for a minimum of six semesters regardless of how much previous college training he may have had. Therefore, the pre-pharmacy course of study at Western Michigan College consists of one year’s work.

<table>

</tr>
</tbody>
</table>

V. TWO-YEAR CURRICULA

BUSINESS (TECHNICAL)

The Technical Business Curricula have been specifically designed for those students who are planning on attending college for a two-year period. The program, which is designed to provide the student with an effective training for the many beginning occupations in business and industry, is divided into two major areas: the cooperative work-and-study programs now found in the Retailing Curriculum and the Secretarial Curriculum, and the regular college classroom programs. Although the enrollment in the cooperative curricula is limited, the student is urged to qualify for these fields whenever possible.

Any high-school graduate is eligible for admission to the Technical Business Curricula provided he has been recommended by his high-school principal. Students who wish to qualify for the cooperative program must meet certain standards as established by the Division of Vocational Educa-
Courses taken either in the cooperative or non-cooperative programs may be applied toward degree requirements provided regular college entrance requirements are met.

All graduates of the two-year Technical Business Curriculum receive a certificate indicating the field of specialization they have completed.

1. **Cooperative Program in Secretarial Training**  
   **Counselor:** Null

The work-study program in Secretarial Training embraces a two-year curriculum which combines classroom instruction at the College in the morning and employment for actual on-the-job experience in local offices during the afternoon of the student’s sophomore year.

Students enrolled in this course will have the opportunity to elect such other college courses as will fit their needs and as their schedules, abilities, and work programs will permit. The advantages of social and cultural contacts of regular college students are open to all students on this program. The college and departmental placement offices are available in aiding the students to secure suitable full-time positions upon graduation.

### Secretarial Curriculum

<table>

2. **Retailing or Sales Occupations**  
   **Counselor:** Embertson

The work-study program in retailing embraces a two-year curriculum which combines classroom instruction at the college in the morning, and with the cooperation of the merchants of Kalamazoo, employment for actual experience in the local stores during the afternoon and Saturday.

Students enrolled in this curriculum will have the opportunity, in addition to taking the specialized courses in retailing, to elect such other college courses as will fit their needs and as their schedules, abilities and work programs will permit.

---

*Students who have not had shorthand or typewriting in high school should register for Shorthand 100A and Typewriting 101A.*

**Students should consult their faculty counselor before making their selections.*

### Diploma in Retailing

Students who successfully complete the four-semester program (62 hours) will receive a diploma in Retailing. Twenty-six hours are required in retailing courses, 3 hours in College Writing 106A, 3 hours in Business Correspondence, and 2 hours in Physical Education. The remaining 28 hours may be elective.

For students who find it possible to take only one year of training at this time, the first portion of this program offers a well-rounded consideration of the basic principles for immediate store work. The second year is more advanced, more detailed and gives more of the background necessary for better positions in the future.

### 3. Regular (non-cooperative) Technical Business Curriculum

INDUSTRIAL TECHNOLOGY

AIRCRAFT MAINTENANCE TECHNOLOGY

This two-year curriculum is offered to students who wish to enter the field of aviation for their life work. Special preparation is given for service and maintenance positions with the airlines, repair depots, and commercial and private owners of aircraft.
Twenty-five to thirty hours per week in shop work and related subjects are offered in a modern, well-equipped, government-approved repair station located in the Mechanical Building. All repair work on airplane engines and aircraft structures is supervised by licensed mechanic instructors. A major part of the instruction is given on aircraft to be re-licensed after repairs and the overhaul are completed. Facilities leased at the Municipal Airport provide inspection and service of licensed aircraft used in daily flight operations.

A student who is recommended may write the government-sponsored examinations for the airplane mechanic’s or the airplane-engine mechanic’s license.

INDUSTRIAL ELECTRONICS TECHNOLOGY

This curriculum is offered to students who wish to prepare themselves for gainful employment in industry as electronics technicians. The program includes a study of the generation, transmission, and utilization of electrical energy, with special emphasis on electronic circuits and devices in the operation of electronically controlled equipment, as well as application of electronics in the field of automation.

### RADIO AND TELEVISION TECHNOLOGY

Basic training and field experience are provided to master the skills necessary to repair, install, and service all types of radio communications and television equipment. Sufficient study is given to qualify for various commercial radio operators' licenses required by the Federal Communications Commission.

REFRIGERATION, AIR CONDITIONING, HEATING TECHNOLOGY

This curriculum is offered to students who wish to enter the field of refrigeration and air conditioning in such capacities as sales engineers, commercial installers, or repairmen. The refrigeration phase covers both domestic and commercial systems with emphasis placed on heat load calculation and selection of equipment.

The air conditioning and heating phase covers the cooling, heating, humidification, dehumidification, cleansing and distribution of air for healthful living. Emphasis is placed on selection of equipment, installation, and service.

   Vocational-Industrial Education .................................... 253-254

Unique in design, the Kanley Memorial chapel is becoming increasingly popular as a center for student activities.
DIVISION OF BASIC STUDIES

Russell H. Seibert, Head

The Division of Basic Studies is responsible for coordinating and administering the basic courses in the General Education program.

Every student should take Communication or its equivalent, College Writing, in the freshman year.

In Science the student must have a total of 8 hours. The usual combination is Biological Science 102 and Human Geography 105A, or Physical Science 100A and B. The choice should depend upon the individual’s background and intended field of specialization. If a student plans to major and has considerable background in one area, he should choose the one in which his background is less adequate.

In the Social Science area a student must take either Foundations of Western Civilization or Man and Society. These are recommended for the freshmen year.

The two Humanities sequences, Humanities 201A & B, 202A & B, are recommended for the sophomore or junior year.

COMMUNICATION:

104A Communication 4 hrs. Fall, Spring
This course attempts to help the student to understand the nature of language, evaluate communication as interaction between the individual and other members of society and acquire skill in using the communication tools. Lectures, readings, tape-recordings, films and other devices are used to motivate group discussion, informal talks, and written exercises. Skills of primary and secondary research are emphasized; one research paper is required.

104B Communication 4 hrs. Spring, Fall
A continuation of 104A.

106A College Writing 3 hrs. Fall, Spring
For description of course, see the Division of Language and Literature.

106B College Writing 3 hrs. Spring, Fall
For description of course, see the Division of Language and Literature.

SCIENCES:

*102 Biological Science 4 hrs. Fall, Spring
A course designed to present basic biological principles and to give the student an understanding of the operation of the world of life. It fulfills the general education requirement for biological science and it may also be used as a basis for a biology minor. It may be used as a partial basis for a major only with special individual counseling.
*105A Human Geography 4 hrs. Fall, Spring

Designed to build an understanding of major human activities in relation to environmental factors throughout the world. Consideration is given to effects of climate, soil, minerals, topography, and the biotic environment on occupational pursuits of people, transportation and communication, density of population and growth of cities.

*100A Physical Science 4 hrs. Fall, Spring

This course is part of the Basic Studies program in general education. The course is designed for students who are not planning to specialize in any of the physical sciences. Topics are chosen to stress basic facts, major concepts and important generalizations of the physical sciences.

*100B Physical Science 4 hrs. Spring, Fall

A continuation of 100A.

SOCIAL SCIENCE:

*100A Foundations of Western Civilization 4 hrs. Fall, Spring

This course is designed to give the student an understanding and an appreciation of contemporary institutions and culture through a study of their origins and development. It is essentially a history of culture which shows how the present is a product of the past, and how peoples widely separated in space and time have contributed to the present.

*100B Foundations of Western Civilization 4 hrs. Spring, Fall

Continuation, from the seventeenth century on, of course 100A. It surveys significant developments in the Orient as well as those in the Western world. Special emphasis is placed upon the twentieth century. Prerequisite: 100A.

*101A Man and Society 4 hrs. Fall, Spring

The emphasis is on understanding basic ideas in the social sciences and on acquiring a mature ability to analyze and appreciate the individual in society. The student is introduced to such matters as: the nature of man and the purpose and meaning of human existence; the ways in which personality and society are mutually interdependent; the ways men work, the reasons why they work and the effect of such economic factors on the composition and political complexion of society; the reasons for and types of communities into which men form themselves.

*101B Man and Society 4 hrs. Spring, Fall

A continuation of 101A.

HUMANITIES:

Humanities 201A 3 hrs. Fall

A study of the creative life of man through an examination of the climactic periods during the Greco-Roman and medieval times. The course
is organized in terms of the expressions of the purpose of life and values of men through the art, literature, philosophy and theology of those periods. (This course is for students who have taken the course "Man and Society").

**Humanities 201B**  
3 hrs. Spring  
This course is a continuation of 201A and is concerned with the Renaissance, the age of enlightenment and the contemporary period.

**Humanities 202A**  
3 hrs. Fall  
The fine arts, music and literature are studied as expressions of various ideas and attitudes that have been held at various times in Western Europe and America. The materials of the course are organized about selected religious, ethical and aesthetic ideas. (This course is for students who have taken "Foundations of Western Civilization").

**Humanities 202B**  
3 hrs. Spring  
Continuation of Humanities 202A.
DIVISION OF FINE ARTS

Elwyn F. Carter, Chairman

The Division includes the Departments of Art, Music, and Occupational Therapy. The heads of the departments and the departmental counselors will advise students relative to requirements for majors or minors in these departments and concerning any special requirements set up by the departments. In certain cases, where a group major or minor is possible and advisable, the chairman of the Division should be consulted.

ART

Harry S. Hefner, Head
John G. Kemper
Hazel I. Paden
Stanley K. S. Phillips
Lydia Siedschlag
Elizabeth Smutz
Elaine L. Stevenson

Many courses in the department are designed for students not particularly talented in art, but interested in finding a field of art in which they may do well. Suggested courses which require no prerequisite are: 105, 106, 107, 108, 110, 211, and 113A, B.

A minor in art consists of: 106, 105, 113A, B or 213A, B, and art electives to complete 15 hours of credit.

Two points of 212 may be substituted for 113A and B.

A major in art consists of: 105, 106, 110, 205, 208, 214, 213A, 213B, and 306, 305, 309, 308, and electives to make 40 hours. 340 and 441 are offered as required education courses for art majors.

105 Elementary Design 2 or 3 hrs. Fall, Spring
A fundamental course in art developing design and color theory through problems of various media.

106 Art Structure 3 hrs. Fall, Spring
A course giving drawing experience, lettering, figure, color, and design.

107 Illustrative Handwork 3 hrs. Fall, Spring
An elementary craft course with manual problems related to interests in the primary grades.

108 Lettering and Poster Making 2 hrs. Spring
Emphasis is on lettering and poster making for school and commercial use.

110 Industrial Art 3 hrs. Fall, Spring
A studio course in crafts, designed to meet the needs of groups with varied interests. Weaving, bookbinding, blockprinting, etc.

112 Learning Through Art 3 hrs. Fall, Spring
A course designed for the grade teacher. Art problems are related to the curricula. Posters, programs, bulletins, decoration for special days are handled seasonally. No prerequisites.
113A Art Appreciation  1 hr.  Fall
This course aims to develop aesthetic judgment. A brief survey of the history of painting, with special attention to modern painting, is given.

113B Art Appreciation  1 hr.  Spring
A brief survey of the history of sculpture, architecture, and minor arts is given. Prerequisite: 113A.

205 Figure Drawing  3 hrs.  Spring
Anatomy of the human figure is studied. Rapid sketches, line drawings, and memory sketches are made, after which the work progresses from gesture lines, shadow edges, planning and contour drawing to finished drawings. Prerequisite: 106 or consent of instructor.

208 Art Composition  3 hrs.  Spring
Composing within a given space: figures, landscapes, flowers, birds, and animals, emphasizing unity, spacing, distribution of dark and light; study of color harmony. Mediums used are show-card paints, charcoal, pen and ink, and linoleum cuts. Prerequisite: 106, 105.

211 Modeling  3 hrs.  Fall
Designing, building, and casting of pottery; and the use of the potter's wheel, modeling with clay, firing, and glazing. Modeling in the round and bas-relief may be substituted.

212 Handicraft  3 hrs.  Spring
Includes problems in metal, wood, and other materials. Emphasis on technique. Prerequisite: Art Structure 106, Industrial Art 110, or consent of instructor. A fee of two dollars will be charged for materials.

213A History of Art  3 hrs.  Fall
Study of primitive, Egyptian, Chaldean, Greek, and Roman architecture, sculpture, and painting.

213B History of Art  3 hrs.  Spring
Study of the art of the Renaissance in Europe and of modern art in Europe and America. Prerequisite: 213A or consent of the instructor.

214 Commercial Art  3 hrs.  Fall
This course is designed to offer special work in the study of advertising art. Posters for school, for business activities, lettering, typography, packaging design, and other related subjects are done. Various techniques and media, as well as technical methods used in the reproduction of art work are discussed. Prerequisite: 105 and 106.

215 Comparative Arts  4 hrs.  Fall, Spring
The course takes literature, music, and art and endeavors to point out to students the common core which permeates all the arts. Common expressions such as organization of form, rhythm, repetition, unity, harmony, and tonality are made meaningful through discussion and demonstration.
Two hours of credit may be applied on a major or minor in any two of the three arts—Literature, Music or Art.

220 Stage Design 2 hrs. Fall

A course for art and speech majors. Class makes practical use of knowledge of scene painting, lighting, and mechanics of staging, in connection with the midwinter play.

221 Home Furnishing 2 hrs. Fall, Spring

A study of interior design and color, furniture past and present, experience in practical problems.

224 Interior and Window Display 3 hrs.

A studio course for art and cooperative retailing students. Window and store display art is studied with emphasis upon color, design, and lettering as related to displays. Attention is given to sources for display materials and services.

305 Advanced Figure Drawing 2 hrs.

A continuation of Figure Drawing 205, developing greater technical skill. Prerequisite: 205.

306 Demonstration Drawing 2 hrs. Spring

Methods and teaching devices are stressed and opportunity given to experiment with new materials. Tentative course of study is made. Prerequisite: 106.

308 Advanced Art Composition 2 hrs. Spring

The work centers about the study of prints and print making, etching, woodblock printing, and oil painting. Prerequisite: 106, 105, 208.

309 Advanced Design 3 hrs. Fall

410 Painting 2 hrs. Fall

Painting of still life and landscape, in the studio and outdoors. Water colors are used. This course involves the study of composition, color value, and technique. Prerequisite: 106, 105, 208, or consent of instructor.

411 Advanced Commercial Art 3 hrs. Spring

Continuation of Commercial Art 214 with emphasis on typographic layout, booklet design, letterheads, mailing pieces, packaging and display design and construction. This course will acquaint students with technical methods essential to commercial art such as photo prints and their uses, pasteups, photostats, and methods of color separation for working drawings.

411 Art Supervision 3 hrs. Spring

A study of the curriculum and its needs in art activities. A course of study will be outlined and administration problems discussed. Prerequisite: 106, 105, 208, 213A, B, 214.
MUSIC

Elwyn F. Carter, Head
Sam B. Adams
Elmer R. Beloof
Margaret F. Beloof
Owen L. Berger
Russell W. Brown
Marcella Faustman
Jack Frey

Tom Fulton
Ethel M. Green
H. Glenn Henderson
Daniel A. Kyser
Philip Mason
Holon Matthews
Leonard V. Meretta
Peggy Ramstad
Dorothea S. Snyder
Alexander Schuster
John Schuster
Julius Stulberg

The Department offers courses leading to the Bachelor of Music and Bachelor of Arts degrees. The Bachelor of Arts degree is defined on page 35 as to both purposes and requirements. The Bachelor of Music degree is different in that it is highly professional in its requirement aims and permits the student to do much more of his work in the field of music. Detailed information relative to the Bachelor of Music degree may be procured by writing for the Music Supplement Catalog.

Those students who want a music major with teaching certification should work for the Bachelor of Music degree.

Those students who want a music major without teaching certification may work for the Bachelor of Arts degree. Such music majors must complete 16 hours of Applied Music (through level 6 in their major performance field); Theory 106A, B; Theory 206A, B; Music History and Literature 307A, B; Style and Structure 310A; and one semester of an advanced theory or music literature course.

Minors in music must complete Theory 106A, B eight hours; a Methods and Materials course of three hours; Piano class 117A, B two hours, Conducting, either 311A or 311B one hour, plus an elective of one hour.

Credit from another institution in any branch of theory will be accepted only upon satisfactory completion of an examination covering the field for which the student desires transferred credit. All transferred credit is tentative and is conditioned upon the successful completion of a semester's work at Western Michigan College. No credit hours exceeding the number granted for parallel work at Western Michigan College will be accepted for transfer from another institution.

The College is a member of the National Association of Schools of Music. The requirements for entrance and for graduation as set forth in this catalog are in accordance with the published regulations of the National Association.

MUSIC COURSES

100A Music for Classroom Teachers 3 hrs. Fall

This course is designed for the classroom teacher with or without previous music training. It deals with basic musical experiences, some work in sight-singing, music in general education, relationship of music to other subject areas, classroom problems in music education, e.g., listening, singing activities, place of performance, use of radio, and music in the movies. The song materials studied can later be used in directed teaching.
100B Music for Classroom Teachers  
A continuation of 100A.  
3 hrs. Spring

106A Freshman Theory  
This course is a closely integrated study of the construction and function of the language of music . . . . through music reading; ear training and dictation; keyboard and written harmony; and composition, arrangement and analysis of musical material. The materials are drawn from vocal and instrumental music literature suitable for study. Topics of study include diatonic chords, modulation, non-harmonic tones, musical form and harmonization.  
4 hrs. Fall

106B Freshman Theory  
A continuation of 106A.  
4 hrs. Spring

*107A Music Appreciation  
This course, primarily a listening one, is designed for students wishing a general cultural course to increase their knowledge and discrimination of music. Various types of music from the folk song and dance to the symphony, oratorio, and opera are presented and discussed. Concerts and outstanding radio programs are related to the course.  
2 hrs. Fall

*107B Music Appreciation  
A continuation of 107A.  
2 hrs. Spring

109 Rural School Music Methods and Materials  
This course consists of sight reading of unison songs, introduction to part singing, organization of music work in the school and the community. The importance and value of music in the life of school and community are emphasized; materials for the school music program, community singing, and recreation are considered.  
3 hrs. Fall, Spring

110 Elementary Acoustics  
Designed for music majors to acquaint them with the science of sound. No science prerequisite.  
2 hrs. Fall, Spring

116A Voice Class  
This course deals with the fundamental processes of breath control and tone production, provides some individual instruction and an opportunity to study standard song literature. Recommended to voice majors to gain a knowledge of voice class procedures and to candidates for certification as general supervisors to prepare for basic achievement examinations.  
1 hr. Fall

116B Voice Class  
A continuation of 116A.  
1 hr. Spring

117A Piano Class  
A course designed for students with little or no background in piano. Opportunity is provided for some individual instruction. Recommended to piano majors to gain a knowledge of piano class procedure and to elementary education majors.  
1 hr. Fall
117B Piano Class
A continuation of 117A.

118A String Class
The study of a stringed instrument to the extent that the student can demonstrate a knowledge of the basic fundamentals on that instrument. The study of a limited repertoire for that instrument.

118B String Class
A continuation of 118A.

122 English Diction and Song Literature
No credit. Fall
Required of all students whose field of concentration is voice. English diction and song literature are studied as a class; opportunity is provided for solo performance.

206A Sophomore Theory
A continuation on an advanced level with chromatic chords, modulations, non-harmonic tones, styles of composition as used in choral and instrumental music literature being studied. Material is drawn from the standard vocal and instrumental repertoire.

206B Sophomore Theory
A continuation of 206A.

208 Elementary School Methods and Materials 3 hrs. Fall, Spring
A study of the methods of teaching and an evaluation of the materials to be used in the singing, rhythmic, instrumental, creative, and listening activities of the basic music program in the elementary school.

216A Advanced Voice Class
A continuation of 116A, B. Further application of the principles of singing through more difficult song literature. Recommended to candidates for certification as general supervisors to prepare for basic achievement examinations. Prerequisite: 116A, B.

216B Advanced Voice Class
A continuation of 216A.

217A Advanced Piano Class
A continuation of 117A, B. Recommended to elementary education majors. Prerequisite: Piano Class 117A, B.

217B Advanced Piano Class
A continuation of 217A.

219A Woodwind Class
The study of four woodwind instruments—flute, oboe, clarinet, and bassoon—to the extent that the student can play all scales on all four instruments. The study of a limited repertoire for these instruments.
219B Woodwind Class 1 hr. Spring
A continuation of 219A.

222 Italian Diction and Song literature No credit. Fall
Required of all students whose concentration is voice. Italian diction and song literature are studied as a class, and opportunity is provided for solo performance.

301 Junior High School Methods and Materials 3 hrs. Fall
A study of the place of music in the education of adolescent youth, correlating the vocal and instrumental aspects of music within the total school curriculum. Instrumentally, there will be evaluation of teaching methods of strings, brass, woodwind, and percussion and the organization of instrumental groups. Vocally, there will be study of the changing voice, voice testing and classification, vocal ensembles, and evaluation of suitable ensemble materials.

302 Senior High School Methods and Materials 3 hrs. Spring
A continuation of the Junior High School Methods course at the Senior High School level, with emphasis on the correlation of instrumental and vocal music and its place in the Senior High School curriculum.

304 Music Arranging 2 hrs. Fall, Spring
A course designed to meet the needs of School Music Teachers. Emphasis is placed on the use of available resources for small instrumental and vocal groups and the problems of arranging music for them to use as performing units.

306A Composition 2 hrs. Fall
Original work in composition, starting with the smaller forms in both the vocal and instrumental fields. Prerequisite: 206A, B.

306B Composition 2 hrs. Spring
A continuation of 306A.

307A Music History and Literature 4 hrs. Fall
A survey of the growth of music from the earliest times including melody, rhythm, and harmony through the Medieval, Renaissance, and Baroque periods; choral, operatic, symphonic and chamber music development to 1750; the classics, romantic, and contemporary scenes, as well as the earlier periods, are supplemented with recordings of composer's work.

307B Music History and Literature 4 hrs. Spring
A continuation of 307A.

309S Instrumental Organization and Administration in Public Schools 2 hrs.
Techniques of marching band, small and large instrumental ensembles. The organization of equipment, classes, schedules, and library management and materials. The development of the elementary and secondary school instrumental programs.
310A Style and Structure 2 hrs. Fall
A study of the finest musical compositions with particular reference to design. Tracing the development of musical form from the phrase through the sonata form. Particular emphasis on the eighteenth and nineteenth century composers. Prerequisite: 206A, B.

310B Contemporary Music Literature 2 hrs. Spring
Survey of contemporary music literature through listening. Some study of the chronological evolution of modern structure and harmony. Special emphasis on idiom, neo-classicism, polytonality, and atonality.

311A Choral conducting 1 hr. Fall
A beginning course working in the field of choral music. Opportunity is provided to prepare choral works with respect to tone quality, range of nuance, phrasing, tempo, and balance of parts.

311B Instrumental Conducting 1 hr. Spring
A continuation of 311A. Application is made by use of easy literature for instrumental ensembles.

312 Accompanying 1 hr. Fall, Spring
Supervised experience in accompanying vocal and instrumental music, both solo and ensemble. (This course may be repeated for credit not to exceed a total of four semester hours.)

320A Brass Class 1 hr. Fall
The study of four brass instruments: cornet (or trumpet), trombone, French horn and tuba—to the extent that the student can play all scales on all four instruments. The study of a limited repertoire for these instruments.

320B Brass Class 1 hr. Spring
A continuation of 320A.

321 Percussion Class 1 hr. Fall, Spring
A survey of the requirements for a percussion player. The student is required to play in an acceptable manner at least one percussion instrument and to demonstrate a working knowledge of three others.

322 French Diction and Song Literature No credit. Spring
Required of all students whose field of concentration is voice. French diction and song literature are studied as a class, and opportunity is provided for solo performance.

323 Major Performance Literature 1 hr. Fall, Spring
Required of applied music (except voice) majors for last two years. Literature for the major performance instrument is studied as a class, and opportunity is provided for solo performance. (This course may be repeated for credit not to exceed a total of four semester hours.)
321 German Diction and Song Literature  No credit. Spring

Required of all students whose field of concentration is voice. German diction and song literature are studied as a class, and opportunity is provided for solo performance.

400 Elementary School Music  2 hrs. Summer

Emphasizes the place of music in the curriculum and the use of music in the day to day activities of the classroom. The fundamental musical skills are developed in order to assist the teacher to achieve these objectives.

401 Philosophy and History of Music Education  2 hrs. Spring

A course designed to acquaint the student with the history of the development of music education in the United States and how this development is the reflection of a growing philosophy of music education.

403 Psychology of Music Education  2 hrs. Fall

The purpose of this course is to develop understanding of such problems as: differences in musical ability, various music tests, attitudes toward music and behavior in musical organizations. Materials for the course are largely drawn from Educational Psychology.

405A Counterpoint  2 hrs. Fall

 Modal and harmonic counterpoint as exemplified by the composers of the fifteenth, sixteenth, seventeenth, and early eighteenth centuries. Modern counterpoint. Practical application through the writing of strict counterpoint in the five species—double counterpoint, obligatos, descants, canons and fugues. Prerequisite: 206A, B.

405B Counterpoint  2 hrs. Spring

A continuation of 305A.

407 Music of Wagner and Beethoven  2 hrs. Spring

A course designed to acquaint one with the music of these composers, its style, its place in the field of Music Literature and its relationship to the period in which they lived. Open to any interested senior or graduate student.

451 Advanced Instrumental Conducting  1 hr. Fall

Supervised experience in conducting instrumental groups. The student may be called upon to prepare an ensemble for public performance. Prerequisite: 311B, 311A.

452 Advanced Choral Conducting  1 hr. Spring

Supervised experience in conducting vocal groups. The student may be called upon to prepare an ensemble for public performance. Prerequisite: 311A, 311B.

455A Orchestration  2 hrs. Fall

A study of the characteristics of the various instruments, application in arranging for various instrumental combinations including accompani-
ments for solos, vocal and instrumental. The course is about evenly divided between arranging for band and for orchestra. Some attention is given to the problems in score reading. Prerequisite: Sophomore 206A, B.

455B Orchestration
A continuation of 455A.

456A Advanced Composition
Further original work in composition dealing with the larger forms in both vocal and instrumental fields. Prerequisite: 306A, B.

456B Advanced Composition
A continuation of 456A.

460 Undergraduate Workshop in Special Problems
1-3 hrs. Summer
Designed for students interested in some special field of music not formally listed for instruction. All special problems must be approved by the head of the Department of Music, but may be under the direct guidance of any of the members of the music faculty. This course may be elected as many as three times.

APPLIED MUSIC

Individual lessons in applied music can be elected for college credit by any student in the college. Students in other departments of the college who wish individual instruction in some field of applied music should contact the head of the Department of Music for assignment of instructor. Such requests will be granted to the extent that the instructor's time and practice facilities are available beyond the needs of the music-major degree candidates. All music majors are required to have 60 minutes a week of individual instruction in their major performance field of concentration through the entire four year course.

Eight levels of study in the various areas of applied music are indicated in the Music Supplement Catalog. Levels one through five grant two semester hours of credit per semester. Levels five through eight may grant three semester hours of credit per semester.

11A through 18B Harp
21A through 28B Piano
35A through 38B Organ
41A through 48B Voice
51A through 58B Stringed instruments
Violin, Viola, Cello, Bass Viol
61A through 68B Brass Instruments
Cornet or Trumpet, Trombone, French Horn, Tuba, Baritone
71A through 78B Woodwind Instruments
Flute, Oboe, Bassoon, Clarinet, Saxophone
81A through 88B Percussion
MUSIC ENSEMBLES

All music majors are required to participate in some large music ensemble, e.g., orchestra, choir, band, or glee club throughout their four years of study. It is expected that each student will take part for his first two years in a large ensemble employing his major performance area. The student will remain in that large ensemble for the entire academic year. Sometime during the student’s residence he is expected to take one year of small ensemble (136). All music ensembles grant one hour of credit for each semester of participation. Not more than eight hours credit will be granted for participation in any one ensemble. Not more than twelve hours of ensemble credit will be accepted toward any degree. Students who want to participate in an ensemble should contact the director.

130 Women’s Glee Club
The Women’s Glee Club of fifty is selected by try-outs. The object is to select students for special artistic training in ensemble work. The glee club sings before a number of high schools throughout the state and takes an active part in the musical work on the campus and in the city. Mrs. Snyder

131 Men’s Glee Club
Open to all men with musical ability who have had experience in singing. The club makes a concert tour during the spring vacation in addition to filling numerous other engagements and taking an active part in the musical life of the campus. Mr. Frey

132 Orchestra
The orchestra is open to all students who have had a reasonable amount of orchestra experience. Many fine compositions will be studied and played during the year. The orchestra will assist in the “Messiah” and other festivals. Many unusual instruments are available for the use of the students. Mr. Stulberg

133 Band
This organization affords to the student who plays some instrument an opportunity for development in both marching and playing. The band furnishes music at nearly all athletic events, concerts are given during the year on the campus and at various high schools. Uniforms and many of the instruments are furnished. (May be substituted for Physical Education credit.) Mr. Meretta

134 Auxiliary Choir
The Auxiliary Choir is open to all students (men and women) who wish to obtain a knowledge of choral music. The choir participates in the annual Southwestern Michigan Messiah at Christmastime and in the Southwestern Michigan College and High School Festival in May. Mrs. Snyder

135 College Choir
The College Choir has a limited membership. The organization aims to develop and perpetuate a high standard of choral-ensemble singing. Each year the choir makes a number of appearances on the campus and before high schools and other organizations. Dr. Carter
136 Special Music Ensemble

Special instrumental or vocal ensembles may be formed with the permission of the head of the Department of Music. Where a sufficient number of hours of rehearsal per week warrant it, one hour of credit will be granted.

137 Auxiliary Band

Membership in this band is open to students who have had some previous experience on a wind instrument. This organization is designed for students whose schedules or qualifications do not permit their immediate enrollment in the concert band. The band plays for athletic events and other college functions.

OCCUPATIONAL THERAPY

Marion R. Spear, Head
Lois Hamlin
Rosalia Kiss
Dean Tyndall

The Department offers courses in the following curricula: B.S. degree, with or without a Teacher's Certificate, and a certificate course for college graduates. These curricula are approved by the American Medical Association, and graduates are qualified to take the American Occupational Therapy Association examination for registration. For the undergraduate student, thirty hours of college credit must be earned before the student is admitted to the Department. This admittance is based on the approval of the applicant by the Coordinating Committee on the basis of age, personality, general aptitude for the work, and scholastic ability. In order to earn a B.S. degree in occupational therapy, a student must complete a major in occupational therapy and minors in biology and art. A mixed science minor is sometimes substituted for a minor in biology in the case of a transfer student. Students with special interests in music, speech therapy, or speech correction may make requests for minors in those areas.

106 Art Structure 3 hrs. Fall, Spring

A course giving experience in drawing, lettering, color, and design.

210A Theory of Occupational Therapy 2 hrs. Fall, Spring

Study of the history, purpose, and aims of occupational therapy from ancient times. Special emphasis is placed on occupational therapy in the psychiatric field and on professional and hospital ethics.

210B Theory of Occupational Therapy 2 hrs. Fall, Spring

Specific instruction in applying occupational therapy in the various fields of service. Survey of public and private agencies offering facilities for the placement of the handicapped.

215 Design 3 hrs. Fall, Spring

A course to develop creativeness in color and design through a variety of media and techniques. Prerequisite: 106.
216A Kinesiology 2 hrs. Fall, Spring
A basic study of the muscles of the body, classified as to joint motion. Each muscle studied according to origin, insertion and action. This study accompanied by a review of the skeletal and nervous systems, basic terminology and kinesiology. Prerequisite: Anatomy 211A and Physiology 211B.

216B Applied Kinesiology 2 hrs. Fall, Spring
Review of normal muscle function and study of motor disabilities related to neurologic and orthopedic conditions. Methods of physical evaluation, measurement of joint motion, muscle testing and re-education. Prerequisite: 216A.

222 Recreational Therapy 2 hrs. Fall, Spring
Course covers planning of recreational activities for patients in hospitals, including musical therapy, dramatic programs, and games.

223 Needlecraft 3 hrs. Fall, Spring
Includes samples of simple and decorative stitches, such as Italian hemstitching, Assisi, Swedish darning, and others; also knitting, crocheting, tatting, and the assembling of projects.

225 Minor Crafts 3 hrs. Fall, Spring
A course giving the techniques and equipment used in basketry, book-binding, leatherwork, and rug making. Special emphasis will be placed on the use of these crafts in occupational therapy treatment.

311 Clinical Practice 5 hrs. Fall, Spring, Summer
Each student is required by the American Medical Association to complete a minimum of nine months of clinical practice. The centers in which the student practices are psychiatric, tuberculous, general, pediatric, and physical disabilities. Prerequisite: 210A and B.

324 Therapeutic Activities 2 hrs. Fall, Spring
Occupational therapy relating to physical medicine and rehabilitation. Activities of daily living, splinting and adaptation of equipment, construction and use of self-help devices and pre-vocational exploration. Prerequisite: 216A.

330 Psychiatric Lectures 2 hrs. Fall, Spring
Consists of the history and clinical demonstration of mental diseases; their causes and methods of patient readjustment. Study of the application of work to individual needs given during practical experience.

352 Hospital Case Studies 3 or 4 hrs. Fall, Spring
Comprehensive case studies of typical patients observed in occupational therapy departments. Students must submit 12 or more case studies.

410A Theory of Occupational Therapy 2 hrs. Fall, Spring
Correlation of all theory courses in occupational therapy. Specific instruction in the organization and administration of an occupational therapy
department. Supplemented by field trips to hospitals, social agencies, and allied industries.

410B Theory of Occupational Therapy (Medical Lectures) 3 hrs. Fall
A series of lectures on medical conditions. These will be correlated with occupational therapy treatment.

410C Neurology and Orthopedic Lectures 2 hrs. Spring
A study of the anatomy and physiology of the central, sympathetic, and peripheral nervous systems. Treatment of diseases of the brain and spinal cord. Prerequisite: 216A.

411 Rehabilitation 2 hrs. Fall, Spring
A study and review of the rehabilitation programs in specific disability areas including effective laws and industrial practices; lectures and field trips. Prerequisite: 210A, B.

425A Ceramics 2 hrs. Fall
A course in the design of functional plastic form in clay. Emphasis is placed on ceramic processes, glazing and kiln management. Prerequisite: 106 and 215.

425B Jewelry 2 hrs. Spring
A studio course in the design and technical essentials in jewelry, ceramics, copper, and sterling silver. Stone setting and enameling are included.

428 Weaving 3 hrs. Fall, Spring
Designed to give a working knowledge of hand looms. Includes discussion of looms, functional adaptations for special treatments, reading and drafting patterns, warping and threading looms, and types of weaving.
The Division includes the Departments of English, Languages, and Speech. The heads of the departments and the departmental counselors will advise students relative to requirements for majors and minors in these departments and concerning any special requirements set up by the departments.

The Department offers the student an opportunity to prepare himself for teaching, for graduate study, for the professions, and for the increasing number of positions which utilize the special skills and information of the liberal arts graduate. The Department wishes the student majoring in English to have an acquaintance with literary history, the relation of culture and literature, principles of the evaluation of literature, the history and structure of the language, and techniques of composition.

The major in English consists of 24 hours, the minor of 15 hours. The prescribed sequences for the various curricula are listed below.

Elections of additional courses may be made to supplement the major and minor requirements.

313 Development of the English Novel
314 Contemporary Novel
313 Studies in the Novel

Students intending to have a major or minor in English should confer with an adviser in the Department by the end of their third semester.

To obtain the official recommendation of the Department, the graduating senior must have an average grade of B plus in his English courses, be personally recommended by two members of the English faculty, and present evidence of his competence to read French or German or of two years’ credit in language courses.
LANGUAGE AND COMPOSITION

104A and B Communication (See Division of Basic Studies)

106A College Writing 3 hrs. Fall, Spring
The course is planned to aid the student in developing greater facility in the use of language in the common human experiences of thinking, talking, reading, and writing.

106B College Writing 3 hrs. Fall, Spring
A continuation of 106A. Research techniques are given special emphasis.

206A Writing Laboratory
A course of individualized programs of reading and writing, with class discussion and evaluation of finished products. For freshmen who, because of their superior ability, have been exempted from College Writing and Communication.

206B Writing Laboratory
A continuation of 206A.

201A Journalism 3 hrs. Fall
Theory and practice in writing news stories, interviews, features, and publicity; copy-editing and headlines.

201B Journalism 3 hrs. Spring
A continuation of 201A. Editorials, opinion columns, critical writing, cartoons, advertising copy and lay-out, typography, and page lay-outs are studied. Prerequisite: 201A.

326 Advanced Writing 2 hrs.
Individualized instruction intended to prepare students to write for professional and avocational purposes.

328 Creative Writing 3 hrs.
Original writing in the field of the student's choice. Open only to juniors and seniors who have gained permission from the instructor.

329 Modern English Usage 2 hrs.
An examination of current tendencies in the usage of contemporary speakers and writers. Semantics and phonetics are also studied.

410 Literary Criticism 2 hrs.
Readings in ancient and modern writers on the nature of literature and how it may be examined and judged. Discussions and papers give opportunities for practice in evaluation.

425 Development of Modern English 2 hrs. Fall, Spring
A course in the development of the language, treating the historic and linguistic forces which have brought about changes in the form, grammar, and vocabulary of English.
426 Structure of Modern English 2 hrs.
A study of the evolution of modern syntax.

TEACHING

300 Teaching of English 2 hrs. Fall
Teaching methods and sources of materials for the teacher in the secondary school.

401 Teaching of English in the Secondary School 2 hrs. Spring
A course in the selection and methods of presentation of literature in the high school.

403 Source Material for Literature in Elementary Grades 2 hrs.
The course aims to acquaint the student with information about books and materials for children's literature as well as critical and historical literature of the subject, children's magazines, records of the literature of childhood and similar materials. Prerequisite: 203.

LITERATURE

107A Introduction to Literature 3 hrs. Fall, Spring
A study of expository writing in the social sciences, natural sciences and philosophy.

107B Introduction to Literature 3 hrs. Fall, Spring
In the second semester the emphasis is on autobiography, the short story, the novel, poetry, and the study of literary forms.

124A General Literature 3 hrs. Fall
A study of the epic and drama in the history of European literature.

124B General Literature 3 hrs. Spring
A study of fiction and lyric poetry in European literature.

203 Children's Literature 3 hrs. Fall, Spring
A general survey of the field of literature suited to the needs and tastes of children; the general principles which underlie the selection of literature for children.

207A Great English Writers 3 hrs. Fall
A study of Chaucer, Shakespeare's Henry IV, Part 1, King Lear, Twelfth Night, and Milton's Paradise Lost.

207B Great English Writers 3 hrs. Spring

210 Literary Interpretation 3 hrs. Fall, Spring
An introduction to literary study to develop skills in critical interpretation.
214A Shakespeare 3 hrs. Fall
A study of Shakespeare's dramatic art through a careful reading of 
Macbeth, Richard II, Romeo and Juliet, and The Merchant of Venice.

214B Shakespeare 3 hrs. Spring
A study of Shakespeare's dramatic art through a careful reading of 
Hamlet, Henry V, and the three high comedies.

216A Contemporary Literature 2 hrs. Fall
Readings in British poetry, fiction, and drama of the period 1900-1950.

216B Contemporary Literature 2 hrs. Spring
Readings in American poetry, fiction, and drama of the period 1900-1950.

218A The English Bible: The Old Testament 2 hrs.

219 Short Story 2 hrs. Fall, Spring
A study of the short story as an art form.

221A American Literature 3 hrs. Fall
A survey of American literature from the beginning to the Civil War.

221B American Literature 3 hrs. Spring
A survey of American Literature from the Civil War to the present.

227A English Literature of the Renaissance 3 hrs. Fall
A study of the non-dramatic poetry and prose of the sixteenth century— 
Sidney, Spenser, Bacon, and others.

227B English Literature of the Renaissance 3 hrs. Spring
A study of the non-dramatic poetry and prose of the first half of the 
seventeenth century—Donne, Jonson, Herrick, Bunyan, Browne, and others.

228 Milton 3 hrs. Fall
Milton is approached in this course both as a great literary artist and as 
one of the most significant liberal thinkers of modern times. Comus, Para-
dise Lost, Paradise Regained, Samson Agonistes, and a selection of his prose 
are read and discussed.

305A English Literature (1832-62) 2 hrs.
The poetry and prose of the Regency and Early Victorian periods.

305B English Literature (1862-92) 2 hrs.
The poetry and prose of the middle and late Victorian periods.

307A History of English Literature 3 hrs. Fall
Primarily a study of English epic and lyric poetry.

307B History of English Literature 3 hrs. Spring
A historical study of English drama, essay, and fiction.
312 Wordsworth
A study of Wordsworth's poetry and critical theory against the background of the Romantic movement.

313 Development of the English Novel
A study of the technique of the novel and its development in England from Defoe to Hardy.

314 Contemporary Novel
A study of the tendencies in fiction since 1898.

322 American Literature
A historical survey of American literature from 1800 to the present. (This course cannot be counted for credit together with courses 221A, B.)

338 Modern Drama
European and American plays from Ibsen to the present.

391 Chaucer
Chaucer's poetry is read in the original with special attention to pronunciation, grammar, and meter. The life and time of Chaucer are studied as an aid to the interpretation of his poetry.

409A English Literature of the Romantic Period
A study of the main currents of English literature near the beginning of the nineteenth century, beginning with Blake and Burns and emphasizing Wordsworth, Coleridge, Scott, and the major criticism of the period.

409B English Literature of the Romantic Period
Readings in Byron, Shelley, Keats, Hazlitt, Lamb, and DeQuincey.

413 Studies in the Novel
A comparative study of the form and function of the novel.

414 Shakespeare's Tragedies
Elective course for graduates and for seniors who wish one term of Shakespeare.

415 Shakespeare's Comedies
Elective course for graduates and for seniors who wish one term of Shakespeare.

416 English Literature, 1660-1730
The writings of Dryden, Swift, Pope, Addison and Steele and others are read as expression of the spirit of the period.

417 English Literature, 1730-1798
The decline of old and the development of new literary interests are studied in the work of Thomson, Gray, Johnson, Cowper, Blake, and others.

422 Studies in American Literature
Literary movements, international literary relationships, writings of individual authors, and other topics are pursued.

The usual major consists of twenty-four hours. The usual minor consists of fifteen hours. Some work is to be taken in courses numbered beyond the one-hundreds.

The selection of specific courses for a major or a minor is planned in cooperation with the departmental adviser. The student should contact his adviser and secure a departmental adviser's slip early in the course.

### Major in French

- Phonetics 305 3 hrs.
- 19 hrs. in sequence in addition

### Minor in French

- Phonetics 305 3 hrs.
- 10 hrs. in sequence in addition

### Major in German

- German Conversation and Composition 201A, B 4 hrs.
- 21 hrs. in sequence in addition

### Minor in German

- 15 hrs. in sequence

### Major in Latin

- Latin Writing 305 3 hrs.
- 21 hrs. in sequence in addition

### Minor in Latin

- 15 hrs. in sequence

### Major in Spanish

- 24 hrs. in sequence

### Minor in Spanish

- 15 hrs. in sequence

In the Secondary Curriculum, the elementary courses (100A and B) cannot be used for a major or minor.

Students who wish to do practice teaching in Latin, should take Teaching of Latin 342.

A course in modern European history is desirable for students majoring or minoring in a modern foreign language.

Students are urged to take the advanced courses as full year units.

No credit will be given for a 100A course unless the 100B course is completed.

### FRENCH

#### 100A Elementary French 4 hrs. Fall

This course is designed to give the basic foundation needed to read a simple text in French. It aims also, to give training in understanding spoken French and an elementary knowledge of pronunciation with the help of records and recorder.
100B Elementary French 4 hrs. Spring
This course is a continuation of the basic grammar, pronunciation drill, and work in oral comprehension begun in French 100A. About 150 pages of reading will be used as a basis for conversation practice. French records and the recorder will be used frequently.

102A Intermediate French 4 hrs. Fall
This course consists of a review of French grammar with frequent written and oral exercises aiming at making grammar functional. About 200 pages of text chosen from novels, short stories and plays are read. The composition consists of reproduction of texts read in class; other texts are read outside for comprehension and enjoyment.

102B Intermediate French 4 hrs. Spring
This is a continuation of 102A. In this semester 300 pages of reading are completed.

201A Conversation and Free Composition 2 hrs. Fall
This course is intended to develop ease and accuracy in the use of everyday French. Prerequisite: two years of high school French or equivalent.

201B Conversation and Free Composition 2 hrs. Spring
This is a continuation of 201A.

203A Nineteenth Century French Literature 3 hrs. Fall
This course is a study of romanticism and the development of realism, with readings from Chateaubriand, Victor Hugo, Alfred de Vigny, Musset. Prerequisite: 100A, B, 102A, B, or equivalent.

203B Nineteenth Century French Literature 3 hrs. Spring
This continuation of 203A is a study of naturalism, with readings from Balzac, Flaubert, Zola, Rostand; and the Parnassian and symbolistic schools of poetry.

207A France and the French 1 hr. Fall
This course is required of those specializing in French, but is conducted in English and is open to those not in the Department of French. A study is made of geography, art, historical monuments and contemporary problems of French life.

207B France and the French 1 hr. Spring
This is a continuation of 207A.

305 Phonetics 3 hrs. Fall
This course is intended to give a corrective description of the difficulties encountered by students of French with Anglo-American habits of pronunciation. Required of all students majoring or minoring in French. Prerequisite: two years of college French or equivalent.
306  Advanced Composition and Grammar Review  3 hrs.  Spring
This course is intended to verify and to strengthen the knowledge of
fundamental principles of grammar in those students who are planning to
teach French. Prerequisite: two years of college French or equivalent.

307A  Contemporary French Literature  2 hrs.
A study of a few outstanding novels by leading writers of the period
between the two wars, with a definite effort to find out the different trends
of thought of contemporary writers. Prerequisite: three years of college
French or equivalent.

307B  Contemporary French Literature  2 hrs.
This continuation of 307A consists of a study of the evolution of the
drama in France from the beginning of the twentieth century, with careful
reading of a few outstanding plays. Prerequisite: three years of college
French or equivalent.

310A  Seventeenth Century French Literature  3 hrs.
This is a study of the development of classicism against the social back-
ground of the seventeenth century. An anthology of the prose and poetry
of the period is used as the center of interest. Prerequisite: three years
of college French or equivalent. Offered in 1957-1958.

310B  Seventeenth Century French Literature  3 hrs.
This is a study of the great dramatists: Corneille, Racine, Molière, with
a thorough study of some of their best-known plays. Prerequisite: three
years of college French or equivalent. Offered in 1957-1958.

313A  Survey of French Literature  2 hrs.  Fall
This course is intended to acquaint students with the masterpieces of
French Literature, with special emphasis on the medieval period and the
Renaissance. Prerequisite: three years of college French or equivalent. Of-

313B  Survey of French Literature  2 hrs.  Spring
This is a continuation of 313A with emphasis on the eighteenth century
philosophers and their influence on the political reformers in America.
Offered in 1958-1959.

408A  Contemporary French Literature  2 hrs.  Fall
This study of selected masterpieces of contemporary French fiction will
be offered upon sufficient demand.

408B  Contemporary French Literature  2 hrs.  Spring
Continues with a study of a brilliant period in the history of the French
theater, with careful reading of a few plays.

437  Studies in Contemporary France  2 hrs.  Summer
This course investigates more deeply some phases of French life which
were only mentioned in 207A, B. An effort is made to understand those
factors in French thinking which strongly affect international thought
today. There is no prerequisite in foreign language.
GERMAN

100A Elementary German 4 hrs. Fall
This course aims to give the student an understanding of the fundamentals of German grammar, and some facility in speaking and writing the language. Ability to read German is developed by the study of 100 pages of prose. One year of high school German may be applied on the elementary course.

100B Elementary German 4 hrs. Spring
This is a continuation of 100A. Approximately 100 pages of prose are read, and grammar, oral work, and composition are correlated. No credit is given for 100A unless 100B is completed.

102A Intermediate German 4 hrs. Fall
This course begins with a review of basic German for the purpose of making it function in speech, composition and reading. A study of cultural material and contemporary prose with related oral and written composition completes the semester's work. Prerequisite: one year of college German or two years of high school German.

102B Intermediate German 4 hrs. Spring
This is a continuation of the reading and related work of 102A. Texts used are “German Heritage” and Albert Schweitzer’s “Leben und Denken”. To improve diction, records are used and recordings of student pronunciation are made.

103A Scientific German 4 hrs. Fall
This is a course in the extensive reading of scientific material. Students are given an opportunity for specialization in the field of their major interests. Prerequisite: one year of college German or two years of high school German.

103B Scientific German 4 hrs. Spring
This is a continuation of the extensive reading of scientific material. Unedited material from encyclopedias of science and from current science magazines is introduced.

201A German Conversation and Composition 2 hrs.
The aim of this course is practice in speaking and writing German. It is required of students majoring in German. Prerequisite: the equivalent of two years of college German. Offered in 1957-1958.

201B German Conversation and Composition 2 hrs.
This is a continuation of 201A. Offered in 1957-1958.

305A German Literature to 1825 4 hrs. Fall
This is a survey of German literature through the time of Lessing, with readings from early German epics and lyrics and a detailed study of the times and works of Lessing. Prerequisite: the equivalent of two years of college German. Offered in 1957-1958.

LATIN

100A Elementary and Second-Year Latin 4 hrs. Fall
This course is designed for those students who need two units of Latin for admission to the AB curriculum or to a medical, law, or other professional course. With 100B it covers the work of two units of high school language requirement.

100B Elementary and Second-Year Latin 4 hrs. Spring
A continuation of 100A. A student may present one unit of high school Latin and enter the course in the second semester.

102A Cicero and Ovid 4 hrs.
Orations and letters of Cicero are read. One day each week is devoted to Latin composition. Prerequisite: two units of high school Latin or Latin 100A, B.

102B Cicero and Ovid 4 hrs.
This is a continuation of 102A. Selections from Cicero and from Ovid's "Metamorphoses" are read.

103A Virgil 4 hrs. Fall
The first books of the Aeneid are read and a survey of the whole is begun. A study of Greek and Roman mythology accompanies the reading. Prerequisite: at least two units of high school Latin. Offered in 1957-1958.

103B Virgil 4 hrs. Spring
This is a continuation of 103A. Intensive study of the first six books is continued, and the survey of the whole is completed. Offered in 1957-1958.

104A Latin Literature 4 hrs. Fall
A survey of Roman literature with reading of representative Latin authors is the aim of this course. Selections from Pliny's Letters and Cicero's philosophical works are read. Offered in 1957-1958.

104B Latin Literature 2 hrs. Spring
In this continuation of 104A, selections from the Histories of Livy and the Latin poets are read. Offered in 1957-1958.

202 Mythology 3 hrs. Spring
This is a survey of the principal myths and legends of Greece and Rome. It is accompanied by a study of their representations in painting and sculpture, and by appropriate readings in English literature. Credit from this course may be applied on Group I or on an English major and minor.

204A Horace 4 hrs.
The Odes, Epodes, and Satires are read. A study of the philosophy of Horace accompanies the reading.
204B Horace and Latin Comedy 4 hrs.
The epistles of Horace are read, the Ars Poetica acting as an introduction to the study of the rise and development of Latin comedy, which is represented by selected plays of Plautus and Terence.

305 Latin Writing 3 hrs. Fall
Practice is given in the fundamental principles of correct expression in Latin. Required of all students majoring in Latin.

SPANISH

100A Elementary Spanish 4 hrs. Fall
This course is planned to give the student a thorough preparation in the fundamentals of Spanish. Careful attention is devoted to both the written and spoken language, with emphasis always on its practical application. The language laboratory is made available for individual development.

100B Elementary Spanish 4 hrs. Spring
This is a continuation of 100A.

102A Intermediate Spanish 4 hrs. Fall
A complete review course designed to strengthen the knowledge and abilities acquired in Spanish 100A and, at the same time, enlarge the vocabulary. A contemporary novel is read and composition work is based upon the text. Prerequisite: two years of high school Spanish, 100A, B.

102B Intermediate Spanish 4 hrs. Spring
This is a continuation of 102A.

201A Spanish Conversation and Composition 2 hrs. Spring
This course is intended to develop ease and accuracy in the use of everyday Spanish. Prerequisite: two years of high school Spanish or 100A, B. It will be offered if there is sufficient demand.

201B Spanish Conversation and Composition 2 hrs.
This is a continuation of 201A.

203A Advanced Spanish 4 hrs. Fall
Emphasis is placed on developing a greater facility in speaking the language on an advanced level. Original composition is practiced and ease in reading of Spanish literature is developed. It is also the purpose of this course to give a knowledge and understanding of the Spanish-speaking nations. Prerequisite: 100B, and 102A, B.

203B Advanced Spanish 4 hrs. Spring
This is a continuation of 203A.

207A Latin-American Life and Culture 2 hrs. Fall
This course is a survey of the customs, arts, and literature in Latin-American countries, with particular attention to Mexico. It is conducted in English. There is no prerequisite. Offered in 1956-1957.
208A Spanish Life and Culture 2 hrs. Fall

This survey course is designed to provide an introduction to the literature, arts, history, and life in Spain. There is no prerequisite and the course is given in English. Offered in 1957-1958.

305A Spanish-American Literature 2 hrs.

This is a survey of Spanish-American literature from the pre-Columbian period to the latter part of the nineteenth century, including the literature of the Conquest, the Colonial and Independence period, and that of the Gauchos. Prerequisite: 203A, B or its equivalent. Offered in 1957-1958.

305B Spanish-American Literature 2 hrs.

This is a continuation of 305A, bringing the survey to the contemporary writers of Latin-America. Offered in 1957-1958.

307A The Spanish Novel 2 hrs. Fall

The development of the Spanish novel during the past hundred years is studied through readings from the works of Fernán Caballero, Juan Valera, José María Pereda, and Palacio Valdés. Prerequisite: 203A or the permission of instructor. Offered in 1958-1959.

307B The Spanish Novel 2 hrs. Spring

The study of the novel is continued through reading works of Pérez Galdós, Blasco Ibáñez and others. Offered in 1958-1959.

308A Golden Age of Spanish Literature 2 hrs. Fall

This is a survey of the prose, poetry, and theater of the classical period which covers most of the 16th and 17th centuries. Prerequisite: 203A, B, or permission of instructor. Offered in 1956-1957.

308B Golden Age of Spanish Literature 2 hrs. Spring

This is a continuation of 306A. Offered in 1956-1957.

405 Contemporary Spanish Theater 2 hrs.

The Spanish theater and the dramatists of the 20th century are studied. Lectures and reading assignments in English include representative works of the important writers for the theater. No prerequisite.

Clara N. Bush
Faber B. De Chaine
George O. Egland

Wallace L. Garneau
Charles R. Helgesen
Deldee M. Herman
Anna E. Lindblom
John J. Pruis
Hobart H. Sorensen
Charles Van Riper

Courses in the department are offered with three major responsibilities in mind: to meet the cultural and professional needs of the general student
body; to meet the needs of students preparing to teach in the various departments of the public schools; to prepare students to teach speech.

A beginning student, whatever his special interest in the field, shall take one of the following first level courses: Communication 104A, B; Speech Courses 105, 106, 108. These courses may not be counted toward minimum requirements for a major or minor in speech. General speech 106 is required of all teaching majors and minors.* All teaching of speech majors and minors shall take the appropriate speech methods course as recommended by the chairman.

A teaching and a non-teaching major are offered. (For speech correction major see Special Education Curriculum—Speech Correction.)

1. Requirements for a teaching major in speech: one first level course, 110, 126, 215, 225, 250 or 251, 320, 399, and electives to make a total of 27 semester hours.

2. Requirements for a non-teaching major are courses in the field totaling 27 semester hours planned in consultation with the chairman of the department before the end of the student’s sophomore year.

Five minor sequences are offered requiring 15 semester hours each.

1. Teaching minor in dramatics and interpretation: Courses 110, 215, 320, 399, and 126 or another course in an area other than dramatics and interpretation.

2. Teaching minor in forensics: 126, 225, 408, 399 and 110 or another course in an area other than forensics.

3. Teaching minor in general speech: 110, 126, 399, and electives to make a total of 15 semester hours.

4. Non-teaching minor in radio: 140, 240, 241, 342 and 110, or another course in an area other than radio.

5. Non-teaching minor in general speech: Sequences are planned to meet the personal interests and needs of the student in consultation with the chairman of the department by the end of the sophomore year.

Each speech major and minor shall be assigned a faculty sponsor from the department and must complete a prescribed program of extra-curricular activities. All students are urged to include in their programs Parliamentary Usage 201 and as many additional courses in speech as possible. Attendance is required of all majors and minor at meetings.

99 Special Speech Problems

No credit. Fall, Spring

Designed to meet the needs of the students with speech difficulties. Emphasis is placed upon the solution of the individual speech problems through individual and group therapy.

104A, B Communication

For description of course see Division of Basic Studies. Credit for these courses may be given in first level requirements for non-teaching speech majors and minors.

*Exceptions may be made upon the recommendation of an instructor and the approval of the chairman of the department.
105 Speech for Teachers 3 hrs. Fall, Spring
Designed for on-campus freshmen planning to teach. Aims: to develop standards for good speech; to help the student adjust to the kinds of speech situations he will encounter as a teacher; to improve his ability to organize ideas and use language effectively; to improve his use of voice and body in oral communication.

106 General Speech 3 hrs. Fall, Spring
A beginning course in speech dealing with the study and application of basic principles underlying the use of the body and voice in every day speech situations. Required as the first level course for all students planning to secure a teaching major or minor in speech.

108 Business and Professional Speech 3 hrs. Fall, Spring
A course designed to give experience in the kind of speech situations to be found in the business world. Job interviews, sales interviews, information-seeking interviews, short speeches of explanation, use of charts and other visual aids will be considered.

110 Interpretive Reading I 3 hrs. Fall, Spring
Analysis and oral interpretation of the more simple types of prose and poetry.

126 Public Speaking I 3 hrs. Fall, Spring
Introductory study of principles of public speech and audience psychology. The primary aim is to develop clear thinking and ease and effectiveness in speaking. Frequent opportunity for platform work is given.

140 Radio Speaking 3 hrs. Fall, Spring
A study of radio technique, giving practice in various types of announcing and adapting interpretive reading and acting to the microphone.

201 Parliamentary Usage 1 hr. Fall, Spring
Designed for upperclassmen who desire some knowledge of how to organize meetings and conduct business according to parliamentary procedure.

202 Discussion 3 hrs. Fall, Spring
A study of discussion technique and application of it in various situations. Includes the round table, panel, forum and committee meeting. Especially planned for those anticipating teaching the social sciences or speech, or engaging in administrative work.

215 Acting 3 hrs. Fall, Spring
Study of the basic principles and techniques of acting designed to help the student to develop a basis for appreciation and criticism.

217 History of the Theatre 2 hrs. Fall
From the beginnings to the English Renaissance.

218 History of the Theatre 2 hrs. Spring
From the English Renaissance to the present day.
219 Stagecraft 2 hrs. Fall
A beginning course in the planning and construction of stage scenery and properties. Includes laboratory work on campus dramatic productions. No prerequisites.

220 Stage Design 2 hrs. Spring
A beginning course for students interested in theatre or who expect to participate in planning and executing stage settings. Includes laboratory practice in staging campus dramatic productions. No prerequisites. Note: This course may be counted for credit in either art or speech.

221 Stage Make-up 1 hr. Fall, Spring
A practical study and application of the principles and techniques of stage make-up.

225 Argumentation and Debate 3 hrs. Fall
A study of the principles of argumentation and frequent practice in debating current public questions. Attention given to problems of coaching and judging debates.

226 Intercollegiate Debating 1 hr. Fall, Spring
Application of argumentative principles to actual platform debate. Basis of practice is the intensive study of the questions used for inter-collegiate debate. Maximum of six hours allowed during college course.

232 Problems of the Deaf and Hard of Hearing. 3 hrs. Fall
An introduction to fundamental aspects of normal and defective hearing considered from a practical standpoint, as applied to teachers, parents and therapists working with speech and hearing problems.

240 Radio Acting 3 hrs. Spring
A study of the basic principles of acting and their application to radio. Opportunities will be given for actual broadcast experience. Prerequisites: 140 or consent of instructor.

241 Radio Production 3 hrs. Spring
Study and practical application of production techniques employed in radio and recording.

250 Introduction to Speech Correction 3 hrs. Fall
Designed to acquaint the student with the scope, history and nature of speech correction. Topics considered are: the development of speech in the child, the psychology of the speech defective and the nature of the speech disorders and their treatment.

251 Principles of Speech Correction 3 hrs. Spring
Designed for students in speech correction, special education and elementary education. The course is designed to acquaint the student with the methods used in speech correction for the various speech disorders.
144 DESCRIPTION OF COURSES

307 Voice and Diction.  3 hrs.  Fall, Spring

Emphasis is placed exclusively upon voice production and diction. It
gives the student a basis for individual analysis and emphasizes an inten-
sive program for self-improvement. No prerequisites.

310 Interpretive Reading II  2 hrs.  Offered as needed

Advanced work in the oral interpretation of literature, with special
emphasis on the dramatic form. Prerequisites: 110, 215 or consent of
instructor.

318 Phonetics  3 hrs.  Spring

Designed to acquaint the student with the phonetic alphabet of sound
formation and phonetic transcription, and with the application of these
to foreign language, dialect, interpretive reading, dramatics and speech
correction.

320 Play Production  3 hrs.  Fall, Spring

Includes theory and practical application of basic principles of direction
and staging plays.

312 Radio Script Writing  2 hrs.  Fall

Analysis of radio scripts—commercial, sustaining and educational. The
class studies techniques of radio presenting special problems to the radio
script-writer. Emphasis placed on preparing scripts in various subject-
matter fields. Prerequisite: junior standing or consent of instructor.

399 Teaching of Speech

Designed to give the prospective teacher and the teacher in the field
an understanding of the problems of teaching speech to high school stu-
dents. It considers the aims, principles, curricula and techniques of modern
speech; and seeks to bridge the gap between the student’s academic train-
ning and its application to the teaching situation.

401 Teaching Speech in the Elementary School  2 hrs.  Fall

A methods course for the elementary teacher, designed to help her improve
the oral language skills of her pupils. Undergraduate credit only.

404 Creative Dramatics  2 hrs.  Fall, Spring

Deals with principles, materials and techniques of creative dramatics
and informal theatre with children. Opportunity is given for laboratory
observation in campus elementary school.

405 Speech for the Classroom Teacher  2 hrs.  Fall, Spring

Designed for seniors and teachers in service. Uses workshop approach
and deals with speech needs and problems encountered by class members
in their training or teaching. Involves individual research and laboratory
practice in class.

406 Public Speaking II  2 hrs.  Spring

Advanced study of speech composition and audience psychology, anal-
ysis of model speeches and frequent practice in constructing speeches for
special occasions. Students interested in coaching or participating in oratorical contests will find this course useful. Prerequisite: 126 or consent of instructor.

408 Direction of Forensic Activities 2 hrs. Spring
For students who expect to direct forensic activities in connection with other teaching duties. Includes principles of teaching debate and other forms of public speaking. Opportunities given for directing local speaking activities. Prerequisite: a major and minor in speech or consent of instructor.

409 Persuasion 3 hrs. Fall
Speech skills are developed by the presentation of studies in persuasion, by participating in discussion and by criticism of both. Content of course is the psychological theories and experimentation in motives and theories in persuasion ethics. Recommended for teacher, pre-ministerial, pre-law and business students.

415 Acting 2 hrs. Offered as needed
Continuation of 215, with more intensive work in the techniques of creative acting. Each student creates at least one role in a play. Prerequisite: 110, 215 or consent of instructor.

416 Oral Interpretation of Drama 2 hrs. Offered as Needed
Reading and analysis of the dramatic form in literature. Aim is to develop and establish a basis for intelligent criticism and appreciation of the drama. Prerequisite 110, 215, 310 or consent of instructor.

421 Teachers' Workshop in Dramatics 4 hrs. Summer, 1957
A practical workshop in the basic skills of theatre production designed for students with little or no formal training in theatre. Opportunity is given for individual research and problem solving.

440 Fundamentals of Broadcasting 2 hrs. Spring
Instruction concerning every department of the broadcasting studio. Prerequisites: 126 or 110 or consent of instructor.

441 Radio in Education 2 hrs. Spring
Study will be made of sources of radio programs and transcriptions available for the classroom. Methods of preparation for utilization, techniques of class listening and follow-up procedures are studied. Prerequisite: Junior standing.

442 Teachers' Workshop in Radio 4 hrs. Summer
A practical workshop in radio with emphasis upon the use of radio equipment, planning program series, directing radio productions and editing scripts.

451 Basic Voice and Speech Science 3 hrs. Fall
For students majoring in speech or speech correction. Topics considered include: anatomy and physiology of hearing; speech and hearing; anatomy
and physiology of articulation and phonation; the neurological organization of the speech function; the physics and physiology of quality, pitch and intensity; and the psychology of speech.

452 Stuttering and Allied Disorders 3 hrs. Spring

Designed to provide the student with more detailed knowledge of the nature, causes, development and treatment of the more serious speech disorders. The literature of stuttering, cleft palate, deaf and aphasic individuals will be surveyed, and the various methods of treating these disorders will be described in detail. Case studies and presentation will be provided. Prerequisite: 251.

453 Applied Speech Correction 3 hrs. Fall, Spring

For students interested in the actual practice of speech correction. The course will involve training in the remedial treatment of both adult and child speech defectives in the college clinic and schools associated with the college and the study of the principles of clinical practice. Prerequisite: consent of instructor.

456 Speech Therapy 2 hrs. Spring

Includes a historical survey of the speech therapy field, the philosophy of speech correction, professional problems, the administration of private, hospital, public school and speech clinic therapy centers and the basic principles of psycho-therapy.
A General Military Science Reserve Officers Training Corps Unit provides training in the Senior Division ROTC, United States Army. Through the ROTC program, graduates may be commissioned Second Lieutenants in a branch of the Regular Army or United States Army Reserve. Enrollment in the ROTC program at Western Michigan College is on a voluntary basis.

The head of the Division is an officer of the United States Army. He is assisted in his duties by other officers and enlisted men of the Army on active duty. The personnel assigned to the Division provide the instruction to the student cadets and the administration of the ROTC program at the college.

The Division offers basic and advanced courses. Upon completion of both the basic and advanced courses, the prescribed summer camp training, and a college degree, students may apply for commissions as Second Lieutenants in the United States Army Reserve. Distinguished Military Students are eligible, upon completion of the prescribed courses, summer camp, and college degree, to apply for appointment as Second Lieutenants in the Regular Army. Students who are enrolled in the ROTC program and maintain satisfactory academic standards may apply for deferment from military service for the purpose of completing college. Uniforms are provided by the Government to all students who take ROTC work. Additional emoluments for advanced course students are described under the heading of Advanced Course.

**BASIC COURSE**

The first two years of military science comprise the basic course which is designed to furnish a background of basic military subjects necessary to pursue the advanced course. The requirements for enrollment in the basic course are as follows: the student must be a citizen of the United States, over 14 and under 23 years of age, physically qualified for military service, regularly enrolled at Western Michigan College, and of good moral character. Students who have had three years of Junior ROTC work (High School ROTC) or six months or more of active military service, may substitute such Junior ROTC training or active military service for the first year of the basic college ROTC course, upon the approval of the Professor of Military Science and Tactics. Students who are thus excused from taking the first year of the basic ROTC course will normally be allowed to enter into the second year of the basic ROTC program at the beginning of their sophomore year. The records of students transferring...
from other institutions with less than two years basic ROTC credit will be reviewed by the Professor of Military Science and Tactics with a view to allowing such students to register with ROTC standing in line with their academic standing. Basic course classes meet for two hours of classroom work and one hour of drill weekly. Although enrollment in ROTC is voluntary, students who enroll in the Basic ROTC course are required to complete the course. Approval to drop the course may be granted for good reasons.

**MS 101 Military Science**
Includes instruction in Organization of the Army and ROTC; Individual Weapons and Marksmanship; and School of the Soldier and Exercise of Command.

**MS 102 Military Science**
Includes American Military History; School of the Soldier and Exercise of Command.

**MS 201 Military Science**
Includes instruction in Map and Aerial Photograph reading; School of the Soldier and Exercise of Command.

**MS 202 Military Science**
Crew Served Weapons and Gunnery; and School of the Soldier and Exercise of Command.

**ADVANCED COURSE**

The selection of students for enrollment in the Advanced course is on a quality basis. Special attention is given to maintenance of high standards of conduct and academic achievement both before and after enrollment in the advanced course. The entire advanced course is concentrated on the development of individual leadership and a sense of responsibility for duty as an officer of the Army of the United States. For admittance to the advanced course, a student must have completed the basic course, be selected by the Professor of Military Science and Tactics and the President of the college, not be over 27 years of age at time of enrollment, and must execute a contract with the Government to finish the course, attend a six-week summer camp, and accept a reserve commission if tendered. When this contract is signed completion of the advanced course becomes a requirement for graduation. Students who have had one or more years active service with one of the Armed Forces, and students who are transferring from another institution with credit for the basic course, may be authorized to register for the advanced course in phase with their college academic standing. Advanced course classes meet for four hours of classroom work and one hour of drill weekly. Students accepted for the advance course receive payment of approximately $27 each month in lieu of subsistence issue. Students attending summer camp are messed and quartered at the expense of the Government, paid at the
rate of approximately $78 monthly while in camp, and are given a travel allowance of five cents per mile from the college to the summer camp and return.

**MS 301 Military Science**

Instruction in Leadership; Organization, Function, and Mission of the Arms and Services; Military Teaching Methods; First Aid and Military Sanitation; Rifle Marksmanship; School of the Soldier and Exercise of Command.

**MS 302 Military Science**

Instruction in Small Unit Tactics and Communication; and School of the Soldier and Exercise of Command.

**MS 303 ROTC Summer Camp**

Between MS 302 and MS 401 a summer training camp must be attended for a period of six weeks. Transportation to and from camp will be provided and students will be fed, clothed, housed and paid while at camp. Instruction at camp consists of demonstration of and participation in various phases of military activities to include field training.

**MS 401 Military Science**

Instruction in Operations, Command and Staff, Estimate of the Situation, and Combat Orders; Military Intelligence, the Military Team, Training Management; Logistics and Troop Movements; School of the Soldier and Exercise of Command.

**MS 402 Military Science**

Instruction in Logistics Supply and Evacuation, and Motor Transportation; Military Administration and Personnel Management; Military Justice; Service Orientation to include the Role of the United States in World Affairs; Leadership; Officer Indoctrination; and School of the Soldier and Exercise of Command.

**WOMANS ARMY CORPS**

Women students are invited to inquire at the Military Building for information in regard to obtaining a commission in the Womans Army Corps (WAC). Opportunities exist for women of the graduating classes to apply for direct commissions in the WAC, Army Reserve. Upon entering on active duty and completing the officers course of the WAC School, these women may be considered for commissions in the Regular Army.
DIVISION OF PHYSICAL EDUCATION, HEALTH AND RECREATION

Mitchell J. Gary, Chairman

The Division includes the Department of Physical Education for Men and the Department of Physical Education for Women. The heads of the departments and the departmental counselors will advise students relative to requirements for majors or minors in these departments and concerning any special requirements set up by the departments.

PHYSICAL EDUCATION FOR MEN

Mitchell J. Gary, Head
Donald E. Boven
George Dales
Edward A. Gabel
John W. Gill
Joseph T. Hoy

Charles H. Maher
Ernest J. Petoskey
Thomas C. Slaughter
Raymond F. Sorensen
Paul G. White
Roy J. Wietz

All men must participate in general physical education beginning with the first semester of residence, until a minimum of four hours is completed, except that only three hours of general physical education credit will be required of those men who are enrolled before or during the college years 1954-55 and 1955-56. The four-hour requirement will be resumed effective at the beginning of the college year 1956-57. A medical examination is required of all students upon initial entrance.

Members of athletic squads upon recommendation of the coach concerned, may receive credit for general physical education provided they officially enroll for physical education class and attend the class until the instructor arranges for their transfer to the athletic squad. If they are dropped from or withdraw from the athletic squad, they must report back immediately to the physical education instructor and attend class thereafter or credit will not be given.

Veterans of military service enrolling for the first time in September, 1951, and thereafter will be subject to the same requirement as non-veterans. Veterans who enrolled as veterans before September, 1951, are exempt from the general physical education requirement.

Majors or minors specializing in physical education are not required to complete the general physical education requirement.

All transfer students must enroll for and participate in general physical education during the first semester of residence at Western Michigan College and thereafter each semester until the requirement is completed. This requirement is in effect regardless of whether or not general physical education was required at the previous institution.

If time limitations will not permit the transfer student or other student to complete the minimum requirement in general physical education before graduation, he should enroll in a course meeting 3 hours weekly in order
to earn the maximum credit possible during each semester before graduation.

Participation in Band may be substituted for physical education credit except that a minimum of one semester hour of credit must be earned by actual participation in general physical education classes by each student who is participating in band. Substitution of band participation for physical education credit during the second semester is possible only if the student has participated in the marching band during the first semester.

Each male student shall enroll either in general physical education or ROTC beginning with his first semester of residence. He is excused from general physical education only for the semesters during which he is participating in ROTC. If he elects less than 8 semesters of ROTC, he must enroll in a general physical education course meeting 3 hours weekly during all semesters that remain until graduation or until he has completed the minimum requirement in general physical education, whichever is achieved first.

ROTC credit earned at Western Michigan College or at another institution will not be accepted for general physical education credit.

Students in Occupational Therapy and in Medical Technology will complete 2 hours credit in Physical Education classes during their stay on campus and 2 hours credit will be given them for activities in the affiliated program off-campus.

Students enrolled in the terminal and in the two-year pre-professional curricula must participate in general physical education beginning with the first semester of residence; except that those enrolled in secretarial or retailing courses must complete one semester hour of Physical Education plus additional selected courses in health or physical education at the rate of one hour per semester until the requirement is completed.

The general physical education requirement will be waived for physical disability only if the waiver is approved by the Health Service and written notice is given by the Health Service to the Registrar.

Students with irregular programs should consult the person in charge of general physical education to determine what recommendation may be made for satisfactory completion of the general physical education requirement.

Required courses for the twenty-four hour major in physical education are 105A, 105B, 205A, 205B, 106, 208, 209, 210, 211, 305, 306, 310, 320; Biology 100A, Healthful Living 112, and Anatomy-Physiology 205. Strongly recommended electives are 207, 312.

Minimum requirements for men who elect physical education as their minor are 105A, 105B, 205A, 205B, 208, 209, 210, 211, 320.

Education 343 is required of those who plan to do directed teaching in physical education, whether they be majors or minors.

THE GENERAL PHYSICAL EDUCATION REQUIREMENT

Activities in the General Physical Education courses are especially designed to meet the physical needs of the men who are not specializing in Physical Education. Emphasis is on fundamentals of the sports of the seasons, calisthenics, gymnastics, tumbling, and marching. Courses are
arranged in progression. An A course and a B course in the 100 group must be completed before the student enrolls in the 200 group. An A course and a B course in the 200 group must be completed before the student enrolls in the 300 group. The 300 courses are organized to give additional participation in activities of major interest. “A” courses are offered only during the second semester. A course may not be repeated for additional credit.

102A General Physical Education 2/3 hr.
102B General Physical Education 2/3 hr.
103A General Physical Education 1 hr.
103B General Physical Education 1 hr.
104 General Physical Education 1 hr. (Summer only)
202A General Physical Education 2/3 hr.
202B General Physical Education 2/3 hr.
203A General Physical Education 1 hr.
203B General Physical Education 1 hr.
204 General Physical Education 1 hr. (Summer only)
302A General Physical Education 2/3 hr.
302B General Physical Education 2/3 hr.
303A General Physical Education 1 hr.
303B General Physical Education 1 hr.

COURSES FOR SPECIALIZING STUDENTS

105A General Athletics and Elementary Gymnastics 1 hr. Fall
Covers material used in physical education classes for elementary and high school level. In the fall, the fundamentals and playing of soccer are stressed. The winter activity consists of fundamentals on the buck, side horse, high bar, parallel bars, ladder, etc., with some attention to the fundamentals of boxing.

105B Elementary Gymnastics and Outdoor Games 1 hr. Spring
A continuation of 105A with the addition of wrestling, softball, and touch football.

106 History and Principles of Physical Education 3 hrs. Fall, Spring
In this course the experiences of past peoples in the physical development of youth are considered, principles are deduced therefrom and adapted to modern economic and political conditions.
205A Advanced Athletics and Gymnastics  1 hr. Fall

This course advances the skills covered in 105A and stresses leadership. The work is outdoors during seasonable weather and takes up gymnastics indoors during the winter months.

205B Advanced Gymnastics and Outdoor Games  1 hr. Spring

This course advances 205A, but in the spring playground games and activities are covered and a track pentathlon suitable for playground uses.

207 Camping and Scouting  3 hrs. Spring

History, principles, and aims of the Boy Scout movement. Tests are passed and techniques mastered. General camping material is presented and tested in evening and overnight hikes. Good background for potential scoutmasters.

208 Fundamentals and Technique of Football  2 hrs. Fall, Spring

The accepted forms of starting, hurdling, distance running, pole vaulting, discus and javelin throwing, and sprinting. Factors affecting speed, endurance, and fatigue. The selection and preparation of contestants for track and field events. Managing of meets.

210 Fundamentals and Technique of Track and Field  2 hrs. Fall, Spring

The materials and skills covered in the 105 and 205 courses are now presented from the angle of the prospective teacher. Notebook. Leadership emphasized.

306 First Aid and Athletic Training  3 hrs. Fall, Spring

Knowledge and skill in meeting emergencies. The use of massage, strappings, and training room techniques from the coach's point of view. Prerequisites: Anatomy 211A, Physiology 211B.

309 Tests and Measurements in Physical Education  3 hrs. Spring

A study of the historical development of measurement in physical education with consideration of the tests currently used. Prerequisites: Anatomy 211A, Physiology 211B.
**DESCRIPTION OF COURSES**

**310 Swimming** 1 hr. Fall, Spring

This course for physical education majors and minors is basic. Instruction is given to beginners with emphasis on the various strokes. Competent swimmers may participate in qualification tests for Senior Life Saving.

**312 Psychology of Coaching** 2 hrs. Fall, Spring

Considers principles of psychology and their application to athletics and athletic coaching. Phases considered are: preparation for coaching; practice sessions; presenting material effectively; planning the season's campaign; personality and will power.

**320 Playground and Community Recreation** 3 hrs. Fall, Spring

Nature and function of play; age periods and adaptations of activities; social environment; needs and objectives; playground development; construction, management and supervision. Study of outstanding programs in operation. A survey of recreational material.

**PHYSICAL EDUCATION FOR WOMEN**

Crystal Worner, Head
Mary Bottje
Helen Brown
Isabel Crane

Eleanor N. Douglass
Joette Hainks
Doris A. Hussey
Margaret Large

The department aims to provide an interesting and beneficial program of physical activity for each student. Physical fitness of the individual for participation is determined by medical and posture examinations. Individual gymnastics 109 is a requirement for students for whom it is recommended. When this is the case, 109 becomes a prerequisite for all other courses in physical education. No student is excused from physical education, but program adjustments are arranged to take care of those with physical handicaps. Students are not permitted to take more than 1-1/2 semester hours of physical education for credit during any one semester. Uniforms are required for activity classes.

Requirements for the Physical Education major are: Physical Education 151, 251, 270, 271, 273, 274, 275, 276, 285, 351, 361, 444, 445 and 473; Biology 102, Hygiene 112, Anatomy 211A and Physiology 211B. A twenty-four hour major planned for students who do not intend to teach in this field only, may be arranged with the head of the Department.

Requirements for a Physical Education minor are six hours of Physical Education Theory and Practice, Elementary School Physical Education 270A, B, or Secondary School Physical Education 274A, B, and additional courses to make a total of fifteen hours selected from the following: 171, 275, 276, 285, 444, 445.

Students in Occupational Therapy and in Medical Technology will complete 2 hours credit in Physical Education classes during their stay on campus and 2 hours credit will be given them for activities in the affiliated program off-campus.
THE GENERAL PHYSICAL EDUCATION REQUIREMENT

99 Posture Counseling
The student is given a posture examination and counselled regarding her body mechanics before she may enroll in any physical education class. Rechecks are given at intervals determined by student needs. No hours of credit are given, but this course must be satisfactorily completed in order to fulfill the physical education requirement.

100 Physical Education 1/2 hr. Fall, Spring
The aim of this course is to give the student an understanding of the values of participation in physical activities, and to aid her in determining her physical abilities and needs. Discussion and activity periods.

101 Square Dance 1/2 hr. Fall, Spring
Seasonal individual, dual and team sports. Prerequisite 100.

105 Physical Education 3/4 hr. Fall
Seasonal individual, dual and team sports. Prerequisite 100.

108 Restricted Exercise 1/4 hr.

109 Individual Gymnastics 1/2 hr. Fall, Spring
A course of remedial exercise for student who do not pass the posture examination. Credit will be given in this course for one repetition only.

110 Swimming 1/2 hr. Fall, Spring
Swimming, diving, and life-saving. Prerequisite: 100.

113 Tennis 1/2 hr. Spring
Prerequisite: 100.

114 Golf 1/2 hr. Spring
Practice of form for the various shots, with some work on the course. Prerequisite: 100.

115 Folk Dance 1/2 hr. Fall
Prerequisite: 100.

116 Advanced Swimming 1/2 hr. Fall
A course in swimming and life-saving; open to students who have passed the beginners' swimming test. Prerequisite: 100.

118 Archery 1/2 hr. Fall, Spring
Prerequisite: 100.

119 Tap Dancing 1/2 hr. Spring
Prerequisite: 100.

120 Badminton 1/2 or 1/2 hr. Fall
Prerequisite: 100.
121 Modern Dance  
Individual and group study of expression through rhythmical movement. Prerequisite: 100.

122 Social Dancing  
1/3 hr. Fall, Spring

202 Physical Education and Recreation for Teachers  
This course is open only to teachers. Topics included in the course are: program planning, making of games equipment, accident prevention and simple first aid and body mechanics. Practice in games, stunts, rhythms and recreational activities will be included. Offered by extension only.

233 Rural School Physical Education  
Indoor and outdoor programs for mixed-age groups. Ideas for track meets, picnics, play days, holiday programs, and student leadership systems. Prerequisite: 100.

330 Elementary School Physical Education  
A study of the physical, mental, and social nature of children in the early elementary group and of activities suited to their needs. Prerequisite: 100.

332 Secondary School Physical Education  
A course giving in theory and practice physical education activities suitable for high-school students. Prerequisite: 100.

COURSES FOR SPECIALIZING STUDENTS*  
151A Physical Education Theory and Practice  
Body mechanics, swimming, folk dance, modern dance, field hockey, volleyball and basketball.  
2 hrs. Fall

151B Physical Education Theory and Practice  
Tennis, swimming, folk dance, modern dance, basketball and softball.  
2 hrs. Spring

171 First Aid  
The standard course in first-aid techniques leading to the Red Cross certificate.  
2 hrs. Fall

240 Camping Education  
This course consists of two parts, the first part to be taught on the campus twice a week for one semester, the second part to be four weeks of field work at a camp. Some of the topics to be considered are: the history and scope of camping, camping in education, camp standards, problems and personnel. Practice will be provided in skills and techniques for camp counselling. The field work will be done in a camp selected by the department where the student will be a counselor with continued guidance by a camp director.  
4 hrs. Spring, Summer

*Students who are neither majoring nor minoring in Physical Education may elect courses from this group with consent of the departmental adviser. These courses may not be used to fulfill the general Physical Education requirement.
DIVISION OF PHYSICAL EDUCATION

251A  Physical Education Theory and Practice  2 hrs. Fall
Square dance, modern dance, basketball, volleyball, soccer and swimming.

251B  Physical Education Theory and Practice  2 hrs. Spring
Social dance, modern dance, basketball, tennis, softball and swimming.

270A  Elementary School Physical Education  2 hrs.
Concerned with the play interests, needs, and characteristics of children at the elementary-school level. An analysis of activities in terms of these needs.

270B  Elementary School Physical Education  2 hrs.
Practice in physical education activities suitable for the elementary grades with opportunities for members of the group to teach the activities.

273  Applied Anatomy  2 hrs. Fall
Analysis of the mechanics of bodily movement. A study is made of the location and action of the large muscles in developmental activities and exercises. Prerequisite: Anatomy 211A, Physiology 211B.

274A  Secondary School Physical Education  2 hrs. Fall
A study of the rules and methods of coaching team games of secondary level; also experience in the organization and management of tournaments and play days.

274B  Secondary School Physical Education  1 hr. Spring
A study of the rules and methods of coaching individual sports of secondary level, such as tennis, archery, and badminton.

275  History and Principles of Physical Education  3 hrs. Fall
A brief historical survey of physical education. In addition, a study is made of the principles of physical education and of the types of programs that develop through their application.

276  Community Recreation, Scouting, and Camp Fire  2 hrs. Fall
The study of the organization and administration of community play.

285  Health Education  Fall, Spring
In this course the fundamental scientific principles of healthful living are developed through a study of school health problems. An effort is made to make prospective teachers aware of modern methods and materials useful in helping school children solve their health problems.

351A  Physical Education Theory and Practice  2 hrs. Fall
Individual and team sports, dancing and advanced swimming.

351B  Physical Education Theory and Practice  2 hrs. Spring
Continuation of the activities of 351A with opportunities to teach dance and to officiate in sports.
361  Physical Education Theory and Practice 2 hrs. Fall

Archery and golf. Advanced work in sports and dance with opportunities for teaching and officiating.

473  Individual Gymnastics 3 hrs. Spring

The study of preventive as well as prescribed exercises for remedial defects in case of curvature and physical abnormalities. Practice with patients will be given. Prerequisite: Anatomy 211A, Physiology 211B, Applied Anatomy 273.
DIVISION OF RURAL LIFE AND EDUCATION

Wm. McKinley Robinson, Chairman

The Division includes the Departments of Agriculture and Rural Life and Education. The heads of the departments and the departmental counselors will advise students relative to requirements for majors or minors in these departments and concerning any special requirements set up by the departments. In certain cases, where a group major or minor is possible and advisable, the chairman of the Division should be consulted.

AGRICULTURE

Howard D. Corbus Lee O. Baker

All courses are combined with actual experience in connection with the College Farm. Courses are recommended for the following opportunities:

1. Teaching agriculture, science and shop in rural community and other schools in the state.
   First Year: 107A, B; Biology 100A, B; Communication 104A, B; Man and Society 101A, B; Physical Education or R.O.T.C.
   Second Year: 200A, B; Chemistry 100 or 101A, B; Physical Science 100A, B; plus necessary courses in Social Science. Agricultural Shop courses 264A, B are available.
   The above-mentioned courses will meet the Basic Studies requirements and in case a degree in Agriculture is desired, credit for the first two years can be transferred to Michigan State University. Majors and minors in Agriculture are also available.

2. Rural Services Opportunities such as soil conservation, farm commodity services and cooperatives.
   Courses in mathematics, economics and business practices are strongly recommended.

3. Rural School Elementary Teaching:
   Course 105 is strongly recommended.

4. Course 106 is recommended for those desiring to make a study of agriculture in the economy of the nation.

105 Rural School Agriculture 3 hrs. Fall

A course designed to present to prospective rural school teachers as much information and materials as time permits concerning the environment surrounding representative rural schools. Consideration is given to the amounts and sources of cash used to support family and school costs in farming areas.

106 Introduction to Agriculture 2 hrs. Fall

An introduction to the national institution of farming, where it operates, the rewards and compensations, the main problems, and opportunities
present which may support acceptable living standards for families living on farms and also for those investing capital in the business of farming.

107A Animal Industry 1 hrs. Fall

107B Animal Industry 4 hrs. Spring
A continuation of 107A.

200A Agronomy 1 hrs. Fall
This course includes subject materials common for all farm-grown products, their relations to soil conditions, climate and other problems in connection with successful and profitable production.

200B Agronomy 4 hrs. Spring
A continuation of 200A.

264A Agricultural Shop 2 or 3 hrs. Fall
This course is planned to familiarize students who expect to teach agriculture with basic tool operations while actually performing common jobs on farms and home grounds. See Industrial Arts 264A, B.

264B Agricultural Shop 2 or 3 hrs. Spring
A continuation of 264A. A study of electrical and gas power uses on a farm; also, work in plumbing and machine operation and repair.

300 Farm Management 3 hrs. Spring
This part of farm organization has been divided from the Farm Crops course in order to examine more fully the records of the College Farm enterprises that are now part of a farm income.

301 Land Use and Soil Conservation 3 hrs. Fall
This course is aimed at establishing an understanding of the movement promoting better use of the various types of land, and the recommended practices for conserving the productivities of those lands.

302 Soils and Fertilizers 3 hrs. Spring
It is planned to provide basic information in the field of soil origin, composition, classification, fertility requirements and production management, including testing for soil deficiencies and recommended correction practices.

303 Farm Markets and Financing 3 hrs. Fall
This course will deal with more specific organized marketing facilities for farm products, using the existing facilities in Southwest Michigan, covering grains, fruits, livestock and vegetable markets. How farming enterprises are financed and their relations to local sources of credit is included.

304 Landscape Gardening 3 hrs. Spring
The great increase in home building in both rural and urban areas has made it advisable to offer more specific information in home grounds plant-
ing objectives and systems of home site beautification. Opportunity to become acquainted with nursery offerings in trees, shrubs and perennials is included.

305 Feeding and Animal Nutrition 3 hrs. Fall

Recent advances in feeding discoveries, new systems and economy practices will be studied. This material will be more extensive and detailed study than was possible in the previous courses in animal feeding.

306 Farm Operations 1 hr. Fall, Spring

This course provides actual farm operation experiences for students to learn the every-day operations of a farm, which are required of typical farm operators. The College Farm provides these facilities. Special schedules will be arranged to meet each student's particular situation.

310 Organization in Agriculture 1 hr. Spring

This is a specialized course in which the wide variety of farm organizations are studied so that the purpose, personnel, and influence of the organizations can be better observed.

410 Agriculture in Michigan 2 hrs. Spring

This course includes a survey of Michigan agriculture production, the areas, volume and types of production and the marketing systems in operation. The place of Michigan agriculture in national and international production is included. There will also be a survey of the different types of education in Agriculture at the various grade levels in Michigan.

RURAL LIFE AND EDUCATION

Wm. McKinley Robinson James O. Ansel

Either elementary or secondary education degrees may be earned. The Rural Elementary Curriculum (two-year) leading to the State Limited Certificate is the first two years of Rural Elementary Degree Curriculum, and may be applied without loss of credit on the Rural Secondary or other Education Degree Curricula.

Students who major (24 hours) or minor (15 hours) in Rural Life and Education are required to have Curriculum 140 and Rural School Administration 340. Under the guidance of the departmental advisor the remaining courses are selected to meet the needs of the individual student from among the following or their equivalents:

Rural Sociology 220, Rural Economics 230, Rural Life (Seminar) 320 or 321, Rural School Supervision (Seminar) 345 or 346, Special Problems of Community Schools (Seminar) 348; Introduction to Special Education 231, Introduction to Mental Hygiene 235, Speech Correction 251, Education Therapy in Reading 430, Audio-Visual Education 338, Introduction to Guidance Services 480; and one or more courses in Vocational Education such as Rural Practical Arts 104, Food for the Family 118, Clothing 203, Home Furnishings 211, Everyday Nutrition 222, Marriage and Family Relations 325, Housing 421, Consumer Buying 439.
Rural Education Courses count in Group IV; Rural Social Science Courses count in Group III.

RURAL EDUCATION

140 Curriculum 3 hrs. Fall, Spring
A study of the objectives of education as related to rural children and rural needs, and teaching practices leading toward these objectives. Students have a wide range of experience in observation and in the examination and development of materials suitable for rural schools.

240 Introduction to Directed Teaching 3 hrs. Fall, Spring
A study of the general principles underlying good teaching and management in the various types of rural schools. Group and individual observation and participation opportunities on and off campus are provided.

241 Directed Teaching 4 or 5 hrs. Fall, Spring
Directed teaching is done in the Hurd two-teacher school and other designated rural schools of various types in the counties of the service area of the college. Selected students may meet requirements in six-week periods of directed off-campus community participation and teaching.

340 Rural School Administration 3 hrs. Spring
The community school; school district reorganization; support and control of education; the functions of the board of education, county superintendent, and state department of public instruction; school buildings, equipment and supplies; professional ethics; professional organizations; the PTA, public relations and interpretation; school law; and similar topics are studied in the course.

345 Rural School Supervision (Seminar) 2 hrs. Fall
For supervisors, principals and superintendents. Discussion and individual reports on curriculum, teaching, in-service education, orienting the new teacher, and other problems of supervision for any type of rural school are included. Prerequisite: consent of instructor.

346 Rural School Supervision (Seminar) 2 hrs. Spring
Continuation of 345. Study of individual and group problems pertaining to supervisory and related administrative demands in rural schools. Field work is encouraged. Prerequisite: consent of instructor.

348 Special Problems of Community Schools (Seminar) 2 hrs. Spring
Planned for teachers, principals and superintendents, supplementing Rural School Administration 340. Topics considered are the aims and functions of the school as related to the rural community, surveys, location and planning of buildings, finance, transportation, selection of teachers, salary and tenure, extra-curricular activities, the PTA, adult education, etc. Field work is encouraged. Prerequisite: consent of instructor.
RURAL SOCIAL SCIENCE

220 Rural Sociology 3 hrs. Fall, Spring

Study of life in the rural environment—local, regional and worldwide, including cultural factors; population trends; impact of industrialization; family, village, community; social institutions, agencies and organizations; educational, recreational, cultural, religious, health and governmental facilities. Current magazines and pamphlets supplement the textbooks.

230 Rural Economics 3 hrs. Fall

Fundamental economic principles are considered in terms of rural conditions—local, national and international. Economic interpretation is given to topics found in the elementary and secondary school curricula—conservation, insurance, consumer education, cooperatives, agricultural extension services, etc.

320 Rural Life (Seminar) 2 hrs. Fall

Critical study of recent books in rural social life, with emphasis upon training for leadership. Supplementary references include research studies. Special problems are selected for study by each student. Prerequisite: consent of instructor.

321 Rural Life (Seminar) 2 hrs. Spring

Consideration is given individual problems related to social aspects of school and community life, members of the class devising forms and schedules for a study, and analyzing research studies and techniques involving planning for various services and agencies. Field work is encouraged. Prerequisite: consent of instructor.
DIVISION OF SCIENCE AND MATHEMATICS

Charles H. Butler, Chairman

The Division includes the Departments of Biology, Chemistry, Geography and Geology, Mathematics, Nursing, Physics, and Psychology.

Major and minor requirements are listed under the individual departments. The heads of the respective departments will advise students relative to their chosen majors and minors.

In certain cases, where a major or minor in science seems advisable, the Chairman of the Division should be consulted. Acting in conjunction with the heads of the involved departments the Chairman will advise students relative to such majors or minors. In such cases the following rules will be observed.

For a science major:
1. Thirty or more hours are required in the division.
2. The subjects selected must be taken from no more than two departments.
3. Fifteen hours must be in subjects above the freshman level.

For a science minor:
1. Twenty or more hours are required in the division.
2. The subjects selected must be taken from no more than two departments.
3. At least eight hours of the work must be in courses above the freshman level.

The courses to be counted toward a science major or minor may be chosen in any two fields of science—biology, chemistry, geography and geology, physics, psychology. Mathematics is never combined with any other departmental offerings. Combinations of any courses with the exception of those in methods of teaching which satisfy the above requirements are acceptable.

The following division courses are offered:

100A, B,* Physical Science (See Division of Basic Studies)

109 Biological Science 4 hrs. Fall, Spring
A course designed to present basic biological principles and to give the student an understanding of the operation of the world of life. It fulfills the general education requirement for biological science when taken in combination with Human Geography, and may be used as a basis for a biology minor. It may be used as a partial basis for a major only with special individual counseling.

105A Human Geography (See Division of Basic Studies)

*Students who later become science majors get one hour each semester. It may be applied towards a physics or chemistry major or minor.
BIOLOGY

W. C. Van Deventer, Head
Lee Baker
Betty E. Barnes
Harriette V. Bartoo
Bettina B. Carter
A. Verne Fuller
Frank J. Hinds

Elaine Hurst
Daniel F. Jackson
George G. Mallinson
Myrtle M. Powers
Edward E. Reynolds
Edwin B. Steen
Merrill R. Wiseman

Courses 100A, B serve as the foundation for a biology major, for pre-professional training in medicine, dentistry, nursing, medical technology, forestry, horticulture, and landscape architecture, and as a general prerequisite for advanced courses. Those students who are not planning to specialize in biology or in a related profession take course 102.

A recommended major for pre-medical and pre-dental students includes 100A, B; 242A, B; 341 and 342. If possible, 312A and B should be elected. A recommended major for students preparing to enter forestry, horticulture, or landscape architecture consists of 100A, B; 220, 222 and 242A, B. If possible, 223, 243, and 420 should be elected. Occupational therapy students take 102, 231A or B and 211A, B.

A major or minor for secondary teachers should embrace as wide a range of courses as possible, including both zoological and botanical aspects of biology. Not more than eight hours of 100 level work are generally counted toward a major and not more than four hours toward a minor. Any major or minor should include some work taken at the junior or senior level. Students are expected to take 304 before enrolling for directed teaching in biology. A biology minor for elementary teachers may include 102, 231A, 231B, and three or more elective hours. All biology minors and majors in secondary education curricula must include 304 and a course in field biology. Those majoring in biology are advised to take their general education science work in the physical science area.

100A General Biology 4 hrs. Fall

This and the following course, 100B, cover the field of biology and serve as a foundation for advanced courses. This course includes a study of the cell and protoplasm, unicellular organisms, and the animal groups in the order of advancing complexity.

100B General Biology 4 hrs. Spring

A continuation of 100A, covering the higher animal groups, the plant groups, genetics, evolution, ecology, and conservation.
102 Biological Science 4 hrs. Fall, Spring
A course designed to present basic biological principles and to give the student an understanding of the operation of the world of life. This course fulfills the general education requirement for biological science, and may be used as the basis for a biology minor. It may be used as a partial basis for a major only with special individual counseling.

201 General Ecology 2 hrs. Spring
This is a study which deals with plant-animal communities, relationships among living organisms, and interrelationships of living organisms with their environment. Ecological concepts are presented and illustrated. Field work is emphasized. Prerequisite: Eight hours of college biology, or consent of instructor.

231A Outdoor Science 4 hrs. Fall
The development of ability to interpret natural phenomena with scientific accuracy, and to gain an understanding and appreciation of the relationships of life forms to each other and to their environment. The course includes flowering and non-flowering plants, insects, spiders, winter birds, mammals and astronomy. Especially desirable for elementary teachers. Field trips are a part of the scheduled work.

231B Outdoor Science 4 hrs. Spring
Rocks, minerals, weather, spring plants, pond life, migratory and resident birds are included in the discussions, laboratory and field work. Especially desirable for elementary teachers. Students may enter without having had 231A.

231S Nature Study for Teachers 4 hrs.
An abridgement of 231A and 231B, designed for teachers in service. Offered only in summers and by extension.

301 The Teacher and the Living Environment 2 hrs.
A study of interrelationships among plants and animals, including man. Emphasis is placed on classroom and field experiences which will be helpful to teachers in service. Offered only in summers and by extension.

304 Methods and Materials in Biology 2 hrs. Fall, Spring
This consists of class discussion, laboratory practice, and field work, illustrating the selection, collection, preparation, care, and use of materials for biological teaching with particular reference to high school conditions. This course is required of all students who are following a secondary education curriculum and who list biology as a major or minor. Prerequisite: Twelve hours of biology, including both zoological and botanical aspects.

305 Genetics 2 hrs. Fall
A comprehensive study of the laws of heredity including their application to plant and animal breeding and to man. Prerequisites: 100A, B, or equivalent.
306 Evolution 2 hrs. Fall
A consideration of the evidence for and principles involved in the evolution of plants and animals, including man. Prerequisites: 100A, B, or equivalent.

400 Recent Advances in Biology 2 hrs. Fall, Summer
A unit of a three-course group (with Teaching of Science and Recent Advances in Physical Science) designed to aid high school teachers in keeping abreast of developments in the biological field. Open to other students with permission of instructor. Prerequisite: Eight hours of biological science.

408 The Nature of Science 2 hrs. Spring
A consideration of the nature and application of scientific attitude and scientific methods as exemplified by specific cases from the history of scientific research. Prerequisite: Eight hours of college biology.

430 Conservation in the Schools 2 hrs. Spring, Summer
This course is designed to meet the needs of students who wish to become acquainted with available materials and experiences in the field of conservation, as well as to gain an understanding of the basic principles which underlie sound conservation practices. Prerequisite: Eight hours of biology or geography.

453 Field Studies in Ecology 2 hrs. Fall
Designed for students who have had basic work in biology, and who wish to gain field and laboratory experience in plant-animal interrelationships. Prerequisite: Eight hours of college biology.

ANATOMY, PHYSIOLOGY AND HYGIENE

112 Healthful Living 2 hrs. Fall, Spring, Summer
A study of the principles underlying sound health practices. Factors in the causation, prevention, and control of disease are considered, and some attention is given to mental and social hygiene.

113 Advanced Healthful Living 2 hrs. Spring
A continuation of 112, for students wishing to continue the study of health for an additional semester at the freshman level. Prerequisite: Permission of instructor.

205 Anatomy and Physiology 4 hrs. Spring
The gross and microscopic structures, and the functions of organs and tissues of the vertebrate body, with special reference to man. Designed particularly for students in physical education. Three lectures, one quiz period and one three-hour laboratory per week. Prerequisite: 100A or equivalent.

210 The Human Body 3 hrs.
A study of the structure and functioning of the human body. A non-laboratory course designed especially for teachers in service. Offered only in summers and by extension.
211A Anatomy
A study of the gross and microscopic structures of the vertebrates with special reference to man. In the laboratory the cat is dissected. Prerequisite: 100A, B, or equivalent.

211B Physiology
A study of the functions of the organs and tissues of the human body. In the laboratory, experimental techniques are utilized. Prerequisite: 100A, B, and 211A, or equivalent.

212 Community Hygiene
An introduction to the field of public health. The nature and prevalence of communicable and non-communicable diseases and community measures for their control. Attention is given to the health problems of certain age-groups, to industrial and school hygiene, and to the functioning of voluntary and official health agencies.

213 Anatomy and Physiology for Nurses
An abridged combination of 211A and 211B, especially adapted to meet the needs of the students in the Bronson Methodist Hospital School of Nursing.

214 Bacteriology for Nurses
An abbreviated course in microorganisms, adapted to the needs of students in the Bronson Methodist Hospital School of Nursing.

311 Health Education
This course is designed specifically for teachers in service. The major objective is to broaden the students' concepts of health and healthful living. Basic health information is introduced as necessary. Offered only in summers and by extension.

312A Bacteriology
A study of microorganisms and their place in nature. Attention is given to beneficial and injurious forms. Techniques used in their study are demonstrated and employed in the laboratory. Prerequisite: 100A, B, or equivalent, and a course in chemistry.

312B Bacteriology
Continuation of 312A with special attention given to pathogenic microorganisms. Prerequisite: 100A, B, or equivalent, a course in chemistry and 312A.

413 Health Problems
The students study intensively several problems of their own choice. The class meetings are devoted to discussion and group criticism of each student's reports. Prerequisite: Consent of the instructor.

414 Materials for School Health Education
A course of lectures and demonstrations in which emphasis is placed on the effective health supervision of school children, the principles and prac-
ties of health teaching in the various grades, and the interrelation of this teaching with that of other subjects in the curriculum.

415 Problems of Alcohol Education 2 hrs.

Designed for teachers in service and other qualified adults. A series of lectures and discussions along with supplementary readings, arranged to explore objectively the problems associated with the drinking of alcoholic beverages. Offered by extension.

BOTANY

220 Botany of Seed Plants 4 hrs. Fall

A course designed to acquaint the student with the seed plants, their fundamental gross and microscopic structure, physiology, classification and development. The college greenhouse is used in experiments involving living plants and their propagation. Prerequisite: Eight hours of biological science or consent of the instructor.

222 The Plant Kingdom 4 hrs. Spring

A systematic study of the various plant groups in relation to their identification, structure, reproduction and ecology. During the second half of the semester field studies occupy the major portion of the class time. The second half of this course may be taken separately, without the first half, under the title of 224. Prerequisite: Eight hours of biological science, or consent of the instructor.

223 Trees and Shrubs 2 hrs. Fall

A field course in the identification of trees and shrubs occurring in southwestern Michigan. Attention is given to their geographic and physiographic distribution, their uses in ornamental and economic planting, and for industrial purposes. Prerequisite: Eight hours of biological science, or consent of the instructor.

224 Local Flora 2 hrs. Spring

An elementary field course in the identification of flowering plants. It is especially designed for those who find a need for acquaintance with the common wild flora occurring in this region. This course corresponds to the last half of 222. Students taking 222, therefore, cover the material of this course, and cannot then obtain additional credit for 224. Those wishing additional work in this area should take 420. Prerequisite: Eight hours of biological science, or consent of the instructor.

410 Economic Botany 3 hrs. Fall

A course dealing with plants useful to man for food, flavoring, drugs, clothing, and building purposes. Field trips are planned to important places where plant products are grown, manufactured, exhibited, or sold. Emphasis is placed on a knowledge of plant life of economic value in connection with teaching at both elementary and secondary levels. Also desirable for students in business, economics, and industrial education. Open to other students by permission.
420 Flowering Plants 2 hrs. Summer

An advanced course in field study and identification of flowering plants. Students will be expected to use keys for identification and to assemble a herbarium collection for their own use. Prerequisite: Eight hours of biology.

ZOOLOGY

242A Invertebrate Zoology 4 hrs. Fall

A study of the structural characteristics, physiology, life histories, habits, distribution, and classification of the invertebrates. Identification of local forms, and those having economic importance is emphasized. Prerequisite: 100A, B, or equivalent.

242B Vertebrate Zoology (Comparative Anatomy) 4 hrs. Spring

A study of the Phylum Chordata; essential features of lower types; general features of chordate development; the endoskeleton and comparative anatomy of the systems of vertebrates. Field work includes a trip to the Chicago Museum of Natural History. Prerequisite: 100A, B, or equivalent.

213 Bird Study 3 hrs. Spring, Summer

A study of the plumage, song, flight, migration, and nesting habits of birds, their relation to their environment, and their importance to man. The student learns to identify a minimum of 100 species in the laboratory and 50 in the field.

341 Histology 4 hrs. Spring

The microscopic study of the cells, tissues, and organs of the body with some attention to their preparation for study. Prerequisite: 100A, B, and eight additional hours of biology. Alternate years.

342 Vertebrate Embryology 4 hrs. Spring

The study of the development of the individual from the origin of the germ cells to adulthood. The frog, chick, and pig are used in the laboratory. Prerequisite: 100A, B, and eight additional hours of biology. Alternate years.

421 Parasitology 2 hrs. Fall

A study of animal parasites, internal and external, their classification, life histories and ecological relationships. Emphasis is given to parasites of man. Prerequisite: 100A, B, or equivalent.

422 Insect Study 2 hrs. Summer

A study of insects, their identification, and life histories. Emphasis is placed on those species having economic importance and relationships to human health. Prerequisite: 100A, B, or equivalent.
440 Mammalogy 2 hrs. Spring

A study of mammals, their identification, habits, life histories, ecological relationships, economic importance and conservation, with emphasis on North American forms. Field and laboratory work are included in the course. Prerequisite: 100A, B, or equivalent.

441 Advanced Ornithology 2 hrs. Spring, Summer

Special attention is given to details of song, habitat, habits, and identification of shore and marsh birds in their native haunts. Early morning field trips will be a part of the scheduled class work. Prerequisite: Eight hours of college laboratory courses in biology and permission of the instructor.

SPECIAL FIELD COURSES

At the Higgins Lake Training School of the Conservation Department, a week's work is offered in June following commencement. The student may obtain one semester hour credit in any of the following:

Conservation 312f, Botany of Flowering Plants 223f, Game Bird Ornithology 236f, Zoology (Mammalogy) 243f.

For particulars consult the Division of Field Services.

CHEMISTRY

Gerald Osborn, Head
James W. Boynton
Paul Holkeboer Lawrence G. Knowlton Lillian H. Meyer Lauri E. Osterberg

A major in chemistry consists of one year of general chemistry (8 hours) and 16 hours from the following: 201, 202, 306A, B, 341, 350, 351, 408, 403A, B. Students majoring in chemistry in the general degree curriculum and desiring an industrial laboratory position upon graduation are required to take an additional ten hours of chemistry. Students majoring in chemistry should have a minor in physics.

All chemistry majors are required to take chemistry seminar during junior and senior years.

A minor sequence in chemistry consists of 8 hours of general chemistry and 8 hours from the following: 201, 202, 306A, B, 341, 350, 351, 408.

BASIC CHEMISTRY COURSES

100A General Chemistry 4 hrs. Fall

The fundamental principles of chemistry are studied in such a way as to prepare both those students who wish to teach and those who expect to go on to more advanced work in the subject. This course may also be taken as a cultural subject. Prerequisite: one year of algebra. Designed for students who have had no high school chemistry.

100B General Chemistry 4 hrs. Spring

A continuation of General Chemistry 100A. Prerequisite: 100A.
101A General Chemistry 4 hrs. Fall, Spring

This is a more advanced course than 100A. The theory and fundamental principles of chemistry are emphasized. It is a foundation course. Prerequisite: One unit of high school chemistry and one unit of algebra.

101B General Chemistry 4 hrs. Fall, Spring

A continuation of course 101A. Prerequisite: 101A.

105A General Chemistry 4 hrs. Fall

The fundamental principles and theories of chemistry are studied, along with some of the common elements and their compounds. Open only to students in Home Economics.

105B General Chemistry 4 hrs. Spring

A continuation of course 105A. Some applications of inorganic chemistry to home economics, elementary organic chemistry, introduction to the chemistry of foods and the body, and to textiles and dyeing. Open only to students in Home Economics. Prerequisite: 105A.

106 Chemistry (for Nurses) 4 hrs. Fall

The fundamentals of chemistry are studied with a view to applying them to the field of nursing. Credit does not apply towards a major or minor in chemistry.

110 Applied Chemistry 2 hrs. Fall, Spring

A one semester course especially designed to meet the needs of students enrolled in the Industrial Technology curricula. Among the topics included will be: basic concepts, chemical language, gas laws, acids bases and salts, water softening, applied organic chemistry and metallurgy. Two lectures per week and a two hour laboratory period.

201 Qualitative Analysis 4 hrs. Fall, Spring

A lecture and laboratory course treating the theory and practice of separation and identification of both cations and anions. Prerequisite: 100A, B, or 101A, B. A knowledge of common logarithms is essential.

202 Quantitative Analysis 4 hrs. Spring

This course includes the theory and practice of volumetric and gravimetric analysis. Prerequisite: Qualitative Analysis 201. A knowledge of quadratic equations and common logarithms is essential.

205 Everyday Chemistry 2 hrs. Summer

Through the media of lecture demonstrations, sound films, and field trips the student will be given an introduction to the role of chemistry in everyday living. This course is designed for those students who have never studied chemistry. It should be especially helpful to elementary teachers and to all other teachers who are non-specialists in science. Not offered in 1957.
210 Engineering Materials 3 hrs. Fall
An elementary study of the manufacture and properties of the ferrous and non-ferrous alloys, cements, clay products, protective coatings, fuels, and water softening. This is a non-laboratory course for pre-engineers. This course should be accompanied or followed by (211) metal-processing course. Prerequisite: 100A, B or 101A, B.

305 Advanced Qualitative Analysis 1-2 hrs.
This course consists of laboratory work, readings and quizzes. Emphasis is placed on the analysis of alloys and mixed solids. Given on request.

306A Organic Chemistry 4 hrs. Fall
Preparation and reactions of organic compounds, of both the aliphatic and the aromatic series, are studied. These courses are valuable, not only to those students who wish to teach chemistry, but also to those who may later study medicine, dentistry, or chemical engineering. Prerequisite: 100A, B or 101A, B. Open to qualified sophomores.

306B Organic Chemistry 4 hrs. Spring
A continuation of course 306A. Prerequisite: 306A.

307 Advanced Quantitative Analysis 1-2 hrs.
Special determinations will be selected by the student upon approval of the instructor. Analysis of limestone and brass will generally be included depending upon the previous background of the student. Prerequisite: 202. Given on request.

311 Food Chemistry 2 hrs. Fall
This is mainly a laboratory course and includes the analysis of foods for important components such as carbohydrates, proteins, fats, minerals, vitamins, and food pigments. Prerequisite: 306A or 105B.

350 Elementary Biochemistry 2 hrs. Spring
Elementary study of the chemistry of the body, digestion, metabolism, excretion, the endocrines, and vitamins. Prerequisite: 306A. Open only to Junior and Seniors.

351 Biochemistry Laboratory 1-2 hrs. Spring
Analysis of blood, urine, and gastric juice, and other experiments according to the needs of the student and the number of hours credit elected. To accompany Elementary Biochemistry 350. Prerequisite: 202, or 341, and 306A.

398 Inorganic Preparations 1-2 hrs.
Consult instructor before enrolling. Laboratory work only. Given on request.

399 Organic Analysis 2 hrs.
Determination of carbon, hydrogen, and nitrogen by combustion methods. Laboratory work only. Consult instructor before enrolling. Given on request.
174 DESCRIPTION OF COURSES

403A Physical Chemistry 3 or 5 hrs. Fall
The course includes studies in kinetic theories of gases, liquids, solids, solutions, thermodynamics, physical basis for molecular structure, thermochemistry, homogeneous equilibria, heterogeneous equilibria, etc. Prerequisite: 202, Physics 203B and Calculus 205B. (Five hours includes laboratory.)

403B Physical Chemistry 3 or 5 hrs. Spring
A continuation of course 403A. This course includes radioactivity, quantum theory, atomic structure, conductance of solutions, pole potentials, oxidation potentials, polarization, chemical thermodynamics, colloids, etc. Prerequisite: 403A. (Five hours includes laboratory.)

408 History of Chemical Theory 2 hrs. Spring
This course is taught from the point of view of the history of chemical theory in which the evidence for the theories is critically presented. Prerequisite: Two years of college chemistry.

496A Organic Preparations 2 hrs. Fall
Methods for preparing the aliphatic compounds with an effort to produce the maximum yield at the minimum of expense. Theoretical interpretations of facts are sought. Classroom, one hour a week, laboratory, ten hours a week. Consult instructor before enrolling.

496B Organic Preparations 2 hrs. Spring
Methods of preparing the aromatic organic compounds. Classroom, one hour a week, laboratory, ten hours a week. Consult instructor before enrolling.

497A Special Problems in Chemistry 2 hrs.
Advanced students who have completed certain basic work in chemistry may select a special problem in the fields of analytical, organic, biochemistry or physical chemistry. Prerequisite: 202, 306B, 350 and 403A. Given on request.

497B Special Problems in Chemistry 2 hrs.
A continuation of special problem work started under 497A. Given on request.
GEOGRAPHY AND GEOLOGY

William J. Berry, Head
Wm. R. Brueckheimer
Marguerite Logan
Cyril L. Stout

Geography, either 105A or 305, must precede all other undergraduate geography courses except 312, 218, and 225. There is no required sequence in the courses in regional geography.

Successful completion of 303 is prerequisite to receiving departmental recommendation for directed teaching or for a teaching position in geography.

Major (24 Hours)

Required Courses
Human Geography 105A 4 hrs.
Regional Geography of the World 105B 4 hrs.
Dynamic Geology 230A 4 hrs.
Field Geography 340 3 hrs.
Geographic Techniques 303 3 hrs.
Geology 225 2 hrs.

Elective Courses
Nine hours, chosen largely from the following:
Regional Courses (catalog)
Cartography and Graphics 350 2 hrs.
Conservation of Natural Resources 312 3 hrs.

Minor (15-17 Hours)

Required Courses
Human Geography 105A 4 hrs.
Regional Geography of the World 105B 4 hrs.
Introductory World Geography 305 3 hrs.
Field Geography 340 3 hrs.
Geographic Techniques 303 3 hrs.

Elective Courses
Six hours chosen mostly from the following:
Regional Courses (catalog)
Conservation of Natural Resources 312 3 hrs.
Dynamic Geology 230A 4 hrs.
Geology 225 2 hrs.

Any other course offered by the department is acceptable on either a major or a minor in Geography. A combination of Geography and Geology may constitute a major (24 hours) or a minor (15 hours) in Earth Science.

A combination major (30 hours) may be earned by combining Geography or Geology with the work given in not more than one other department in the Physical Science Division. Similarly a combined minor of 20 hours may be earned provided not more than one other department is involved.

FOUNDATIONAL COURSES

105A Human Geography
105B Regional Geography of the World 4 hrs. Fall, Spring

A continuation of 105A. The continents are studied by geographic regions. Attention is given to patterns of agricultural land use, mining, manufacturing, fishing, recreation, and other major uses of land and other resources.
105S Human Geography 3 hrs. Extension
Designed to build understanding of major human activities and developments throughout the world in relation to factors of the environment.

305 Introductory World Geography 3 hrs.
Course should be elected instead of 105A, B by students who do not begin the study of geography before the junior year. Not open to students who have received credit for 105A or 105B.

SURVEY REGIONAL COURSES

206 United States and Canada 3 hrs. Fall, Spring
Study of areal differentiation in Anglo-American and of present-day problems, with emphasis upon occupational crises in selected regions. Prerequisite: 105A or 305.

207 Europe 3 hrs. Fall
Course discloses the ways man has adjusted his economic, political, and social life to the natural environmental conditions within the regions of the continent. Prerequisite: 105A or 305.

208 South America 3 hrs. Spring
Regional study of the several countries of South America with attention to the interrelationships of the physical and cultural environments. Historical background necessary for the interpretation of the present political, social and economic conditions is included. Prerequisite: 105A or 305.

209 Mexico and the Caribbean Lands 2 hrs. Spring
Includes the regional study of Mexico, Central America and the West Indian Islands; present economic, social, and political development of these regions; their potentialities and trends. Prerequisite: 105A or 305.

307 Asia 3 hrs. Spring
Interpretation of the major geographic regions of Asia. Special emphasis is given to the organization of materials into geographic units. Prerequisite: 105A or 305.

308 Africa 3 hrs.
The evolution of the present political pattern of the continent; governmental policies of the colonial powers; the geography of the major areas of economic exploitation; impending changes related to opposition to colonial status. Prerequisite: 105A or 305. Not offered in 1956-1957.

309 Islands of the Pacific 3 hrs. Fall
Study of populations and natural resources of Pacific Islands with emphasis upon economic and political problems which have arisen. Prerequisite: 105A or 305. Not offered in 1956-1957.
INTENSIVE REGIONAL COURSES

304 The British Isles 2 hrs.
Geographical analysis of their present and potential development. Prerequisite: 105A or 305, and Europe 207. Not offered in 1956-1957.

311 The South 2 hrs.
Study of the regions of the southeastern part of the United States with particular attention to the natural resources, the manner in which they have been utilized, and the economic problems which exist today. Prerequisite: 105A or 305. Not offered in 1956-1957.

320 Japan 2 hrs.
Detailed study of the geography of Japan, with attention focused on present developments and future potentialities. Prerequisite: 105A or 305. Not offered in 1956-1957.

323 Union of Soviet Socialist Republics 3 hrs.
Analysis of the geography of the whole of the Soviet realm. Prerequisite: 105A or 305. Not given in 1956-1957.

FUNCTIONAL COURSES

218 Economic Geography 3 hrs. Fall, Spring
Course deals with important economic products from the standpoint of their places of origin, cultural and natural factors in their production, their flow in commerce, and principal regions of their consumption.

225 Meteorology 2 hrs. Fall
Study of the elements of weather: temperature, precipitation, and pressure; the reading of weather maps; and the characteristics of fronts and air masses. Thermodynamics and the mechanics of atmosphere are used to explain weather phenomena. The course is non-technical.

303 Geographic Techniques 3 hrs. Fall, Spring
Guidance is given in the selection, interpretation, and use of all major types of geographical materials such as texts, library materials, pictures, and maps. Special emphasis is placed upon the organization of findings into geographic teaching units. Prerequisite: 105A or 305.

312 Conservation of Natural Resources 3 hrs. Spring
Critical evaluation of certain of the natural resources of the United States, such as minerals, soils, forests, water, and wild life; and study of the utilization of these resources so as to yield the greatest ultimate good. Methods in teaching conservation.

325 Climatology 2 hrs.
Study of the distribution and character of the major climatic types of the earth. Fundamentals of air physics as applied to this distribution are discussed. Prerequisite: 105A, or 305 or 225, or consent of instructor. Not offered in 1956-1957.
350 Cartography and Graphics 2 hrs. Spring

Study of maps, the construction of them for reproduction, and the projections and symbolism most commonly used; also the graphic presentation of statistical material. Prerequisite: 105A or 305.

FIELD GEOGRAPHY

340 Field Geography 3 hrs. Spring

Intensive study of type areas near Kalamazoo with the purpose of observing how agricultural and industrial development, transportation, commercial organization, and the urban pattern have made adjustments in these areas. The course is based primarily upon field work. Prerequisite: 105A or 305.

341 Advanced Field Geography 1, 2, 3 hrs. Fall, Spring

Planned for students who desire to do independent field work in geography. The amount of credit will depend on the size of the project and the intensity with which the work is done. A complete report written in scientific style is required. Extension only. Residence credit is given. Prerequisite: 340 or an approved equivalent and consent of the instructor.

406 Geography of Michigan 2 hrs.

Detailed but non-technical study of Michigan in which are taken up the major economics, social, and recreational activities with a view to explaining their existence in the state where each activity is prominent. Prerequisite: 105A, B or 305, or equivalent, or consent of instructor. Not offered 1956-1957.

410 Studies in Geographic Education 2 hrs. Spring

Course gives prospective geography teachers guidance in the selection, organization and presentation of the best materials available in this field. Not open to students who have had 303.

411 Historical Geography of North America 2 hrs.

Migrations and routes of travel of the several European colonizers. Pattern and progress of settlement as related to the geographical conditions encountered in the development of each of the parts of the continent for human use. Emphasis chiefly on United States. Prerequisite: 105A or consent of instructor. Not given in 1956-1957.

416 Political Geography 2 hrs. Fall

Study of the resources, people, and geographic-political problems of the various nations and empires of the world from the point of view of the reciprocal relations involved.

419 Survey of Latin American Geography 2 hrs. Spring

Comprehensive survey of Latin America. Includes the physical landscape, natural resources, and the cultural adjustments in each of the countries.

447 Marketing and Market Research 3 hrs. Spring

Designed to give geography and business students experience in using maps, map analysis and other geographic techniques in presenting marketing data, evaluating market potential, delineating trading and selling terri-
stories, and selecting locations for wholesale, retail, and service establish-
ments. Prerequisite: 6 hrs. in geography.

GEOL OGY

230A Dynamic Geology  
4 hrs. Fall

Study of the origin and development of surface features of the earth and processes involved in their development. It comprises principally studies of the work of streams, glaciers, and wind, and of volcanic and diastrophic activity.

230B Historical Geology  
4 hrs. Spring

Course includes a study of the origin of the earth, development of plant and animal life as shown by fossils, and major changes that have occurred in elevation, size, and form of continents. There will be at least three Saturday field trips. Prerequisite: 230A.

332 Physiography of United States  
2 hrs.

Characteristics of the land forms in the United States and the geologic processes which have produced them. Laboratory work will consist largely of examination and interpretation of selected topographic maps. Prerequisite: 230A. Not offered in 1956-1957.

335 Mineralogy  
2 hrs. Spring

Study of the physical and chemical properties, occurrence, uses, and determination of approximately 100 of the more common minerals. Class-

room, 1 hour a week; laboratory, 2 hours a week. Desirable antecedents: General Chemistry and Dynamic Geology 230A.

350 Field Geology  
4 hrs. Summer Trip

A survey of geologic factors responsible for the landscape features be-
tween Kalamazoo and western South Dakota. Rock formations of the Black Hills Region. Field mapping techniques. Enrollment is with the Extension Division, but residence credit given. Required of students with minor in geology. Prerequisite: 230B or the equivalent. Post-summer session.

MATHEMATICS

Charles H. Butler, Head Pearl L. Ford Jack R. Meagher
Fred A. Beeler Leslie W. Gunter Joseph K. Peterson
William H. Cain Herbert W. Hannon James H. Powell
Conway C. Sams

The Department offers a variety of courses and sequences designed to serve the interests and meet the needs of students in the various curricula. These might be broadly classified as conventional courses and special courses. The conventional courses are designed to contribute to the general education of college students and to meet the needs of students who plan to specialize in mathematics, science, economics, engineering, or other professional fields. These courses include trigonometry and college algebra,
analytic geometry, calculus, and subsequent courses for which calculus is prerequisite. These courses, in the order listed above, form a natural sequence, and in general can be taken only in the order of that sequence.

The special courses are designed to meet the special needs of students in various vocational curricula and of those who are preparing to be teachers of mathematics.

The course entitled "Basic Mathematics" is neither a conventional course nor a pre-vocational course. It is designed to contribute to the general educational background of students who do not plan to take any specialized courses in mathematics or the sciences. It has no prerequisites and it may be taken by any student, even though he may have only a very limited background of high school mathematics.

Students in accounting or insurance, and others interested in the mathematics of business should give attention to the offering in courses 227A, B, 209, and 473.

Students who plan to teach mathematics will find courses 101, 301, 401, 501E, and 507E specially planned to meet their needs. It is recommended that course 101 or 501E be taken by those who plan to teach in the grades, and that course 301 or 401 be taken by those who plan to teach mathematics in the secondary school. Course 507E will be useful to all teachers of mathematics.

The conventional freshman courses are trigonometry, college algebra, and analytic geometry. Students who have taken trigonometry in high school are not required to take it again in college. Students who have successfully completed these three courses are qualified to take calculus.

The courses in high school mathematics which a student presents for admission determine the pattern of his work in college mathematics. A student can determine the appropriate sequence of courses for his freshman and sophomore years by referring to the following table.

A minor in mathematics comprises not less than eight semester hours of work completed subsequent to 103B or 104B and elected with the approval of the departmental adviser.

A major in mathematics comprises not less than eight semester hours of work completed subsequent to a year's work in calculus and elected with the approval of the departmental adviser.

*Courses 105A and 105B do not prepare students to take Calculus. Students who are qualified to take courses 103A, B or 104A, B in the freshman year should take these courses in preference to 105A, B.

100 Basic Mathematics  
4 hrs.

This course is a part of the general education program of the college. It is designed primarily for those students who enter college with a limited mathematical background and who do not plan to specialize in mathematics or scientific work. Its purpose is to give an understanding of the nature of mathematics and of the role which it plays in the solution of many of life's problems. Credit for this course may be counted toward satisfying the requirements for graduation. Not offered in 1956-1957.

100A Intermediate Algebra  
3 hrs. Fall, Spring

This course covers the work usually given in the third semester of high school algebra. Prerequisite: Plane geometry and one year algebra.

100B Solid Geometry  
2 hrs. Spring

An elementary course in solid geometry with emphasis on mensuration. Students who plan to study engineering or to teach mathematics should elect this course unless they have taken it in high school. Prerequisite: Plane geometry and 100A or equivalent.

100C Plane Trigonometry  
3 hrs. Fall, Spring

A study of trigonometric functions, identities, and equations, inverse functions, logarithms, radian measure, and the solution of triangles. Prerequisite: Plane geometry and 100A or equivalent.

100D Spherical Trigonometry  
1 hr.

The trigonometry of spherical triangles, including the development of formulas and numerical solutions, with applications to astronomy and navigation. Prerequisite: Plane trigonometry. Not offered in 1956-1957.

101 Arithmetic for Teachers  
3 hrs. Fall, Spring

This course is designed for students who expect to teach arithmetic in grades 1 to 6. It deals with the history, philosophy, objectives, and methods of teaching arithmetic, and includes a review of the subject matter of arithmetic.
103A Trigonometry and College Algebra 5 hrs. Fall
The first half of a year's work leading to the calculus, this course includes the study of plane trigonometry and a part of college algebra (see descriptions of 100C and 104A). It should be followed by 103B. Prerequisite: Plane geometry and 100A or equivalent.

103B College Algebra and Analytic Geometry 5 hrs. Spring
A continuation of college algebra and a substantial treatment of analytic geometry (see descriptions of 104A, B). Prerequisite: 103A.

104A College Algebra 4 hrs. Fall, Spring
A full semester's work in college algebra. Topics studied include fractions, exponents, functions, graphs, variation, linear and quadratic equations, systems of equations, the binomial theorem, inequalities, complex numbers, logarithms, permutations and combinations, probability, determinants, and selected topics from the theory of equations. Prerequisite: 100A and 100C or equivalent.

104B Analytic Geometry 4 hrs. Fall, Spring
The analytic geometry of the straight line, circle, conics, and certain higher plane curves, transformation of axes, polar coordinates, parametric and polar equations, and a few topics from solid analytic geometry. Prerequisite: 100C and 104A.

105A Introduction to College Mathematics 3 hrs. Fall
Elementary algebra through quadratic equations. This course, together with 105B, is intended to provide sufficient mathematical background for the subsequent study of Mathematics of Finance and Business Statistics. Prerequisite: Plane geometry and one year of algebra.

105B Introduction to College Mathematics 3 hrs. Spring
A continuation of Math. 105A. Topics studied include the binomial theorem, logarithms, progressions, the straight line, and elements of curve fitting and of probability. Prerequisite: 105A.

112 Applied Mathematics 3 hrs. Fall, Spring
Designed for students in industrial technology. The course consists mainly of the application of elementary mathematics to problems arising in connection with machines and shop work.

120A Business Mathematics 2 hrs. Fall, Spring
Diagnostic and remedial work in the fundamental operations of arithmetic, and a study of elementary business forms and problems. Intended primarily for students in the Department of Business Studies.

120B Business Mathematics 2 hrs. Fall, Spring
A study of simple interest, compound interest, annuities, short-term installment buying, graphs, and amortization. Prerequisite: 120A or equivalent.
205A Calculus 4 hrs. Fall, Spring

This first half of a year's work in calculus is largely centered around the study of functions, limits, continuity, derivatives, differentials, and integrals. It includes the study of derivatives of algebraic and transcendental functions and the corresponding integrals, parametric and polar forms, curvature and motion, evaluation of indeterminate forms, and curve tracing. Prerequisite: 103B or 104B.

205B Calculus 4 hrs. Fall, Spring

A continuation of the work begun in 205A. Among the topics considered are special integration procedures and applications, infinite series, expansion of functions, hyperbolic functions, partial derivatives, multiple integrals, and an introduction to differential equations. Prerequisite: 205A.

209 Elementary Statistical Practice 3 hrs. Fall

A study of averages, dispersions, sampling, correlation, and tests of significance for small and large samples. Prerequisite: 103B or 104B.

210 Surveying 3 hrs. Offered on request.

An elementary course in surveying, consisting mainly of field work, though a few office problems are included. The aims are to make the students familiar with standard field and office procedures used in surveying, and to develop skill, facility, and precision in the use of the instruments. Each student is required to keep a book of field notes of his work in good standard form. Prerequisite: 100C.

227A Mathematics of Finance 2 hrs. Fall

The course includes the study of compound interest, simple annuities certain, and the application of such annuities to problems in the amortization of debts, sinking funds, valuation of bonds, depreciation, and perpetuities. Prerequisite: 103B, 104B, or 105B.

227B Mathematics of Finance 2 hrs. Spring

A continuation of 227A. Topics studied include the general case of annuities certain, and contingent annuities, with applications to problems of reinvestment, and especially of life insurance. Prerequisite: 227A.

301 Teaching of Junior High School Mathematics. 3 hrs. Offered on request.

A critical restudy of the mathematics commonly taught in grades 7, 8, and 9, with discussion of associated problems of learning and teaching. Students may not earn credit in both this course and 401. Prerequisite: 104B or consent of the instructor.

305 Vector Analysis 3 hrs.

The formal processes of vector analysis, with application to geometry and mechanics. Prerequisite: 205B. Not offered in 1956-1957.

321 Differential Equations 3 hrs. Fall

An elementary course in ordinary differential equations. Prerequisite: 205B.
322 Theory of Equations 3 hrs. Fall
The major topics studied are complex numbers, properties of polynomials, cubic and quartic equations, algebraic criteria for ruler-and-compass constructions, determinants, and the solution of systems of linear equations. Prerequisite: 205B.

323 Solid Analytic Geometry 2 hrs. Spring
Study of lines, planes, space curves, and surface; transformations, using matrices. Prerequisite: 205B.

325 Theoretical Mechanics 2 hrs.
A vectorial treatment of the kinematics and dynamics of particles and of rigid bodies, with emphasis on problem solving. Prerequisite: 305. Not offered in 1956-1957.

331 Advanced Calculus 3 hrs. Spring
Review of fundamentals of calculus, with more critical examination of concepts. Power series, partial differentiation, implicit functions, definite integrals; line, surface, and space integrals; Green's and Stokes' theorems. Prerequisite: 205B.

373A Statistical Methods for Industry 3 hrs. Fall
Statistical methods of quality control; the normal, binomial, and Poisson distributions; the Shewhart control chart; sampling methods for scientific acceptance inspection. Math. 373A and 373B together form an introductory course especially designed for the needs of people in industry in both experimental work and the flow of production. Prerequisite: 205B.

373B Statistical Methods for Industry 3 hrs. Spring
Significance tests; tests valid for small samples; introduction to linear correlation; elementary design of experiments. Prerequisite: 373A.

401 Teaching of Secondary Mathematics 3 hrs. Fall
In this course some consideration is given to curriculum problems and trends in secondary school mathematics, but the main emphasis is upon specific problems of teaching mathematics effectively to secondary school students. Prerequisite: 104B.

411 History of Mathematics 2 hrs.
This course treats of the history of geometry and trigonometry from earliest times to the present. Prerequisite: 104B. Not offered in 1956-1957.

412 History of Mathematics 2 hrs. Summer, Spring
This course treats of the history of arithmetic and algebra from earliest times to the present. Prerequisite: 104B.

423 Introduction to Higher Geometries 3 hrs. Spring
The nature of proof. Introduction to non-Euclidean, inversive, finite and projective geometries and topology. Constructions. Especially recommended for those planning to teach high school geometry. Prerequisite: 103B or 104B.
473 Introduction to Statistical Analysis 3 hrs. Summer
The study of statistics as the science of experimentation: averages, dispersions, sampling, correlation, and statistical tests valid for small and large samples. Prerequisite: 101B.

501E Mathematics for Elementary School Teachers 2 hrs. Summer
Emphasizes the understanding of concepts and foundations of mathematics commonly taught in grades 1-6 and of associated problems of learning and teaching.

507E Field Work in Mathematics 2 hrs. Summer
The principles, construction, and use of simple mathematical instruments. Much time is spent in actual field work.

__PAPER TECHNOLOGY__

Alfred H. Nadelman, Head
Robert A. Diehm
Carola Trittin

The Department offers two curricula. Option I stresses preparation for production and technical areas whereas Option II prepares students for sales and management areas in the Paper Industry.

A major may be earned only by meeting all requirements of either Option I or Option II. A minor consists of sixteen semester hours and must include courses 130A and 130B, 230A and 230B, 131, 332A and 332B, and 333, plus three hours in other courses offered by this department.

130A Orientation to Paper Technology 1 hr. Fall, Spring
The course stresses the basic processes used in the manufacture of pulp and prepares the student for summer mill practice.

130B Orientation to Paper Technology 1 hr. Spring
A continuation of Course 130A. The fundamentals of paper making are studied. Prerequisite: 130A, or 130A being taken concurrently.

131 Summer Mill Practice 2 hrs.
In order to gain practical experience, students of pulp and paper technology are required to work in a mill for ten weeks following the second semester. Employment must be secured and/or approved by the Advisory Committee of the Paper Industry. Prerequisite: 130A, B.

230A Pulp and Paper Manufacture 2 hrs. Fall
A detailed description of production equipment and chemistry of the processes used in the manufacture of pulp. Visits to various mills are coordinated with the lecture course. Prerequisite: 130A, B; General Chemistry 101A, B, or 100A, B.

230B Pulp and Paper Manufacture 2 hrs. Spring
A study of the technological aspects of paper making with discussion of various types of stock-preparation equipment and paper machines. Several mill visits give a deeper understanding of the processes discussed. Prerequisite: 130A, B; General Chemistry 101A, B or 100A, B; Pulp and Paper Manufacture 230A.
231 Summer Mill Practice 2 hrs.
A continuation of paper-mill work to give the student diversified practical experience. The majoring student is required to work in pulp and paper mills at least two out of three summers. Prerequisite: 230A, B. (Open only to majors in Paper Technology.)

331 Summer Mill Practice 2 hrs.
Course 331 is optional for students who receive credit for courses 131 and 231.

332A Evaluation of Pulp and Paper 2 hrs. Fall
A lecture and laboratory course treating the evaluation of chemical and physical characteristics of pulp. Prerequisite: 230A, B; Quantitative Analysis 202.

332B Evaluation of Pulp and Paper 2 hrs. Spring
This course consists of laboratory work and a limited number of lectures pertaining to the evaluation of chemical and physical characteristics of paper. Prerequisite: 230A, B; Quantitative Analysis 202; 332A.

333 Fiber Microscopy 1 hr. Fall
A general study of the microscopic structure of fibers used in making paper. Qualitative and quantitative fiber analyses are part of the scheduled work. Prerequisite: 230A, B, Electricity and Light 203B.

334A Elements of Industrial Chemistry 2 hrs. Fall
A study of the most important industrial chemical processes from the point of view, not only of the chemical reactions, but of the conditions and equipment necessary to carry on these reactions. Prerequisite: General Chemistry 101A, B, or 100A, B.

334B Elements of Industrial Chemistry 2 hrs. Spring
A continuation of course 334A. Prerequisite: Elements of Industrial Chemistry 334A; Organic Chemistry 306A.

335 Wood Chemistry 2 hrs. Spring
A lecture course which includes the chemistry of cellulose, hemicellulose, lignin and extractives. Prerequisite: 230A, B; Organic Chemistry 306A.

336 Coloring and Filling of Paper 1 hr. Spring
This course includes the evaluation of fillers, pigments, and dyestuffs. Filled and colored sheets are produced in the laboratory in order to familiarize the student with color matching and development of color formulae. Prerequisite: 230A, B; Quantitative Analysis 202.

337 Mill Inspection Trip 1 hr.
One week's inspection trip to representative pulp and paper mills.

432 Bleaching, Pulp Purification, and Deinking 2 hrs. Fall
A lecture and laboratory course treating the theory and technique of producing bleached pulp, dissolving pulp and deinked secondary stock. Prerequisite: 335; Quantitative Analysis 202.
433 Auxiliary Equipment for Pulp and Paper Mills 1 hr. Spring

A discussion of pumps, boiler-house operation, generation of electricity, electric motors, heating, and ventilation. The subjects are presented with the assistance of experienced engineers serving the pulp and paper industry. Prerequisite: 230A, B; Mechanics, Sound, and Heat 230A; Electricity and Light 203B.

434 Chemistry and Technology of Plastics 2 hrs. Fall

A general survey of the chemistry and technology of plastics with emphasis upon the synthetic resinous materials used by paper makers and converters. Prerequisite: Organic Chemistry 306A, B.

435 Converting of Paper 1 hr. Fall

A thorough study of a variety of converting operations presented with the assistance of qualified members of the converting industry. Prerequisite: 230A, B.

436A Research Problems in Pulp and Paper 2 hrs.

Laboratory development work on a problem pertaining to pulp and paper technology preceded by a survey of available literature.

436B Research Problems in Pulp and Paper 2 hrs.

A continuation of course 436A.

437 Principles and Practice of Coated Paper Manufacture 2 hrs. Summer

A lecture and laboratory course on formulating, preparing, and applying pigmented coatings to paper. Principles of rheology, control methods, finishing methods, and testing will be stressed. Visitations to mills engaged in coating paper and paperboard are used to demonstrate practical applications of the principles.

438 Microbiology of Pulp and Paper 2 hrs.

A lecture course on morphological and biochemical activities of microorganisms in the pulp and paper mill. Methods of controlling microorganisms in the paper industry are evaluated. Not offered 1956-1957.

PHYSICS

Paul Rood, Head
Grover C. Baker

George Bradley
Stanley Derby

Haym Kruglak
Nathan Nichols

Walter Marburger

A major consists of 24 hours of credit, and a minor 16 hours. Acceptable sequences of courses are arranged in consultation with the departmental adviser. Every major should have a minor in chemistry. Students wishing to do directed teaching in physics must offer a major or a minor in this field.

100A and B Physical Science (See Division of Basic Studies)
102A General Physics 4 hrs. Fall
A general college physics course in the principles and practical application of mechanics, sound, and heat. Required of all medical and dental students. Recommended for students desiring a four-hour course in physics.

102B General Physics 4 hrs. Spring
A general college physics course in the principles and practical application of magnetism, electricity and light. Prerequisite: 102A.

103A Mechanics, Sound and Heat (General Physics) 5 hrs. Fall, Spring
A general college course dealing with mechanics, sound and heat and their applications. Required for students majoring in physics and for engineers; recommended for students planning to teach physics.

103B Electricity and Light (General Physics) 5 hrs. Fall, Spring
This course follows 103A and consists of studies in electricity, magnetism, and light. Prerequisite: 103A.

110 Elementary Acoustics 2 hrs. Fall, Spring
In this course are studied the nature of sound, how sounds are produced, reflection and absorption, reverberation, the physics of hearing, and the physical basis of musical scales. It is a required course for students majoring in music. Open to any student who is not majoring or minoring in physics.

210 Astronomy 3 hrs. Fall, Spring
A non-mathematical course in astronomy for all students who desire an acquaintanceship with our solar system, with stars and constellations, and with the great galaxies of stars in the depths of space about us. Frequent use is made of an 18-ft. Spitz planetarium and a 4½" refracting telescope. Open to freshmen.

220 Photography 3 hrs. Fall, Spring
This is an elementary course in the theory and use of photographic materials. To enroll in this course students should get permission from the instructor.

273A, B 3 hrs. Fall, Spring
An introductory one-year course in general physics for students in the Vocational Division. (see Vocational Division)

300 Teaching of Physical Science
(See Division of Science and Mathematics)

342 Heat and Elementary Thermodynamics 3 hrs. Fall
An intermediate course dealing with expansion, specific heats, change of state, kinetic theory and the elementary principles of thermodynamics. One laboratory period and two class periods per week. Prerequisite: 103A, B, Calculus 205A, B. Offered alternate years. Not offered 1956-1957.
DIVISION OF SCIENCE AND MATHEMATICS

350 Light 3 hrs. Fall, Spring

This is a course in physical optics. The main topics discussed are: light as a wave motion, interference, and diffraction. Prerequisite: 103B, Calculus 205A, B.

361 Introduction to Electronics 3 hrs. Fall, Spring

This course includes an introduction to electric circuit analysis with particular reference to electron-tube circuits. The more important uses of electron tubes are considered in some detail. Prerequisite: 103B, Calculus 205A, B.

399 Advanced Laboratory Physics 2 hrs. Fall, Spring

A course in laboratory experimentation more advanced than that in 103A, B. May be elected only on arrangement with the instructor. Prerequisite: 103B and a minor in physics. Open to qualified Juniors, Seniors, and Graduate students.

440 Atomic Physics 3 hrs.

A study is made of the electron, photovoltaic effect, thermionic emission, the physics of X-rays, quantum theory, devices for accelerating nuclear particles, isotopes, spectra, and atomic structure. Prerequisite: 103B, Calculus 205A, B. Offered alternate years. Offered 1956-57.

441 Nuclear Physics 3 hrs.

Designed to follow 440. It includes natural and artificial radioactive transformations, the experimental methods of nuclear physics, properties of neutrons, binding energy, nuclear reactions, nuclear structure, fission and cosmic rays. Prerequisite: 440. Offered alternate years. Offered 1956-1957.

442 Foundations of Modern Physical Theory 2 hrs.

A course designed to inspect the important theories of physics in their historical setting. Emphasis is placed on Newtonian mechanics, wave theory of Maxwell, quantum theory, special theory of relativity, the modern theories of the atomic nucleus. The relationship between the experiment and the theory is scrutinized in each case and the connection with the general methods of science is shown. Modern engineering developments resulting from the new theories will be discussed. Prerequisite: General College Physics. Offered Summer 1956.

443 Theoretical Physics 3 hrs. Spring

A course designed to present the fundamental structure of physics in precise mathematical terms. It is particularly arranged for students who are majoring in physics or in mathematics. The topics will include mechanics from a vector point of view, flow of fluids, electric and magnetic field. Prerequisite: 103B, Calculus 205B. Offered alternate years. Not offered 1956-57.

462 Electrical Measurements 4 hrs. Fall, Spring

This course deals with the theory and use of instruments to measure electrical and magnetic quantities. Both AC and DC bridge methods are included. Prerequisite: 103B and Calculus 205A, B.
465 Advanced Electronics 3 hrs.

Applications of electronics in different types of radio frequency communication systems, in control devices and in general instrumentation are considered in this course. Some laboratory measurements at both audio and radio frequencies are included. Prerequisite: 361, Calculus 205A, B.

PSYCHOLOGY

Stanley Kuffel, Head
Eston J. Asher
Homer L. J. Carter
Charles L. Darby
Frank A. Fatzinger
George G. Mallinson
Dorothy J. McGinnis
Richard H. Schmidt
Charlotte Sumney

General Psychology 200 is prerequisite to all other courses in this department, except courses 100 and 102. A major may be obtained by completing 24 hours of work in the department, including course 301. A minor consists of 15 hours.

Students majoring in psychology are advised to elect from the Department of Biology and the Department of Sociology.

100 Introduction to Learning and Adjustment 1 hr. Fall, Spring

Psychological principles of effective learning will be presented; methods of note-taking, reading, memorizing, and organization will be discussed. Emphasis will be placed upon problems of personal, educational, and social adjustment. This course may not be counted toward a major or a minor in psychology or in fulfillment of the requirements in the science area.

102 General Psychology (for Nurses) 2 hrs. Fall

An introductory course intended to fit the needs of students of nursing. Not open to regular students. It covers the recommendations of the "Curriculum Guide for Schools of Nursing".

200 General Psychology 3 hrs. Fall, Spring, Summer

A brief survey of the elementary principles of psychology. This course affords a general introduction to the field.

204 Applied Psychology 2 hrs. Fall, Spring

An overview course introducing the student to the various areas of psychology at work. Some areas covered are: educational, industrial, business, military, clinical, criminal, and legal.

207 Psychology of Personality 3 hrs. Fall, Spring, Summer

Attention is given to individual differences, traits, content, and synthesis of personality; modification of behavior and varieties of adaptive behavior. Emphasis is placed upon constructive personal adjustment and the manner in which it is achieved in various interpersonal relations.
210 Psychological Aspects of Business 3 hrs. Fall, Spring

This course deals with basic wants and the motives that make men buy and sell, work for a living, like or dislike their jobs. It points out the psychological principles involved in buying, selling, market research, and advertising.

213 Psychology of Adolescence 3 hrs. Fall, Spring, Summer

This course deals with the various kinds of development in the adolescent. It discusses his problems and difficulties and the proposals for reducing his difficulties and improving his adjustment.

300 Introduction to Industrial Psychology 2 hrs. Fall, Spring

This course introduces the student to the many applications of psychology in industry, such as: evaluation of the worker’s worth, training on the job, promotion, rating, wages and job evaluation, working conditions as they affect safety, efficiency, morale, and labor turnover.

301 Elementary Experimental Psychology 3 hrs. Spring

An introduction to current psychological problems and laboratory methods through experimental work in motivation, emotion, memory, learning, and perception. This is a course for majors.

302 Laboratory in Psychological Testing 3 hrs. Fall, Spring

The course will consider selecting, administration, and interpretation of educational, personality, and aptitude tests. Lecture and laboratory. Summer 1956.

303 Comparative Psychology 2 hrs. Spring

This is primarily a course for psychology majors. A general treatment of the behavior, sensory and perceptual processes, and learning of the lower animals as bearing on the problem of the evolution and development of human behavior. Consult instructor before enrolling.

305 Abnormal Psychology 3 hrs. Fall, Spring, Summer

A discussion of the deviant individual, with particular attention to the recognition of disordered behaviors, to the factors contributing to their development and to the principles of therapy. Consult instructor before enrolling.

307 Mental Testing 2 hrs. Fall, Spring

The purpose of this course is to provide training in the administration, scoring, and interpretation of various mental tests. This course supplements 302. Summer 1956.

308 Elementary Statistical Methods in Psychology 3 hrs. Fall

Computation and interpretation of statistical techniques useful in the production and understanding of psychological and educational research.

309 A, B, C Clinical Psychology 2 - 4 hrs. Fall, Spring

This course considers theory and practice of the case study. It involves individual case studies, home visits, interviewing, conferences, laboratory,
and clinical procedures. Courses 309 B or C involve additional cases and practice in clinical procedure. Prerequisite: 302, 305, and 307, or consent of instructor.

310A, B, C Special Projects in Psychology 1 - 2 hrs. Fall, Spring

General prerequisites must include twelve hours in psychology, and the permission of the instructor. Arrangements will be made for adequately prepared students to undertake individual problems under the direction of a member of the staff. This is a course for majors.

315 Emotion and Motivation 2 hrs. Fall

The various theories of emotion and motivation. The physiology and psychological significance of emotion and motivation. A major purpose of this course is to introduce the major in psychology to the seminar type course.

404 Occupational Analysis and Classification 2 hrs. Spring

Sources of occupational information; procedures and techniques of job analysis and job classification; applications in employment procedures, placement, and vocational counseling. Summer 1956.

406 Vocational Psychology 2 hrs. Fall

The problems of vocational choice and of occupational group-differences. Lectures, reading, and an occasional laboratory period substituted for a class hour. Summer 1956.

410 Learning and Memory. 2 hrs. Spring

A survey of the general principles of learning and memory and an introduction to learning theory. Summer 1956.
DIVISION OF SOCIAL SCIENCES

William V. Weber, Chairman

The Division includes the Departments of Economics, History, Political Science, and Sociology. It functions through the Divisional Planning Committee, working in conjunction with the department heads and the staff members of the Division.

Majors and minors in individual departments of the Division must have the approval of the heads of the respective departments. Special requirements are listed under the separate department headings.

Students preparing for social work should consult the head of the Sociology Department concerning their departmental or group major in the social sciences and their minor in social work. See the Social Work Curriculum for special requirements.

Group majors and minors in the Division, except those of students pursuing the Social Work Curriculum, must have the approval of Mr. Crawford, Room 131, or Dr. Weber, Room 219, Administration Building.

1. A group major must include:
   a. Thirty or more hours in the Division.
   b. A minimum of fifteen hours in one department of the Division.
   c. Acceptable courses in at least three departments of the Division.
      (Man and Society 101A, B, do not alone satisfy this requirement.)

2. A group minor must include:
   a. Twenty or more hours in the Division.
   b. A minimum of ten hours in one department of the Division.
   c. Acceptable courses in at least three departments of the Division.
      (See rule 1A-C above.)

3. A group minor for students in certain non-teaching curricula:
   a. Must include sixteen or more hours in the division and is open only to students in the following non-teaching curricula: preprofessional, nonteaching professional and combined curricula and the general degree curriculum without a teaching certificate.
   b. May be developed around any one of the following patterns:
      a. Western Civilization 100A, B .................................. 8 hrs.
         Electives .................................................. 8 hrs.
      b. Man and Society ............................................. 8 hrs.
         Electives .................................................. 8 hrs.

4. The required 3 hours of work in government may be applied toward the satisfaction of any of the above group majors and minors if it has not been applied toward a political science major or minor.

5. Students in the Secondary Curriculum may not count courses in Philosophy toward a group major or minor.
DIVISIONAL COURSES

The general education offerings of the division include two sequences, one unit in history and the other in the combined social studies.

The history sequence is made up of the two courses, Foundations of Western Civilization 100A, B. These courses, which are described under Division of Basic Studies, carry only history credit. They are especially recommended for those students in teaching curricula who know in advance that they will take a group or departmental major or minor in the Division.

The combined social studies sequence consists of the course Man and Society 101A, B, listed below. Credit for this sequence is allotted in either group—majors or minors—or departmental majors on the basis of two hours each to Economics, Political Science and Sociology.

Both Foundations of Western Civilization 100A, B and Man and Society 101A, B may be counted toward group majors or minors in the Division in non-teaching curricula, and, in exceptional cases the elementary curricula.

The course in the teaching of the social studies is an elective course open to graduates and qualified juniors and seniors. Credit earned in the course may be applied on (1) Economics, History, Political Science or Sociology majors (not minors) in the Secondary Curriculum and (2) on Social Science group majors or minors in the Secondary Curriculum, providing it is not included in the minimum of 15 hours in one department for a major or the minimum of 10 hours in one department for a minor.

100A, B  Foundations of Western Civilization 8 hrs.  Fall, Spring
For description of the course, see Division of Basic Studies.

101A, B  Man and Society 8 hrs.  Fall, Spring
For description of the course, see Division of Basic Studies.

400  Teaching of the Social Studies 2 hrs.  Fall, Spring
Teaching of the social studies in the Junior and Senior High School. Definition of objectives. Selection, organization and development of content materials. Study of the procedures and problems of effective teaching in the social studies.

ECONOMICS

Floyd W. Moore, Head  Robert S. Bowers  Marguerite Patton
Howard F. Bigelow  Theodore L. Carlson  Jared S. Wend  Sherwood B. Eck

Courses are designed (1) to contribute to general education by attempting to make students more familiar with the ways and means by which men make their living in modern times; (2) to fulfill the requirements for the training of teachers in certain professional groups, such as social sciences, business studies, and business administration; and (3) to furnish courses and explore areas of economic thought which are prerequisite to graduate study.
and are recommended as pre-professional in business administration, engineering, journalism, law, medicine, and social work.

Either a major or a minor in the Department of Economics is required of all graduates from the Business Administration curriculum.

Principles 220A-B are prerequisite to all other courses offered in the department except 223, and 322.

A minor in Economics consists of a minimum of 15 hours in the department.

A major in Economics consists of a minimum of 24 hours in the department.

There are no set patterns for these minors and majors. The selection of specific courses depends a great deal upon the student's interest and the kind of work he plans to take up following graduation. For example, the selection of courses for the prospective graduate student might be quite different from those for the persons planning to be an accountant; by the same reasoning, a good background of courses for a salesman might be quite different from those sought by a person planning to do personnel work.

The head of the department will assist students in selecting courses suited to their needs in fulfilling the minor and major requirements.

**220A  Principles of Economics 3 hrs. Fall, Spring**

A study of the fundamental principles of economics and their application to some of our more important economic problems. This course and the following one, 220B, are basic to intelligent understanding of our American economic system as compared with communism or other "isms".

**220B  Principles of Economics 3 hrs. Fall, Spring**

A continuation of Principles of Economics 220A. Among the problems to which Principles are applied are those of national income, wages, interest, rents, profits, public utilities, monopolies, international economics, and fiscal policies, including taxes.

**222  Marketing 3 hrs. Fall, Spring**

An analysis of the eight marketing functions as they apply to our distribution of physical goods and the transfer of title to those goods. Some attention is given to principles, methods and the increasing problems of successful marketing, together with a recognition of the general criticisms of the existing marketing structure and some proposals for its improvement.

Prerequisite: Principles of Economics 220A, B which may be taken either before or in conjunction with this course.

This course may be counted as credit in either the Economics Department or in the Business Studies Department.

**223  Economics of Consumption 3 hrs. Fall, Spring**

A study of the problems of the individual and the family face in trying to satisfy their wants with the money income and other resources at their disposal.
321A Money and Credit  2 hrs. Fall
   In this course an examination is made of the evolution and functions of
   money, monetary standards, and credit. Some attention is given to the
   history of currency in the United States, experiments with paper money,
   and price-level control, together with considerable factual material relative
   to credit and credit instruments. Prerequisite: 220A, B.

321B Money and Credit.  2 hrs. Spring
   A continuation of 321A with special emphasis on banking and other
   financial institutions. Prerequisite: 321A.

322 Budgeting  2 hrs. Spring
   A detailed study of the principles of modern budget practice as applied
   to financial operations, use of materials, and distribution of time, and exemplified
   in the budgets of households, businesses and governments; and an
   analysis and evaluation of budgeting as a tool of management.

324 Transportation  3 hrs. Spring
   An analysis of the various means of transportation, including the items
   of service, cost, revenues, and government regulations. Prerequisite: 220A, B.

327 Economics Statistics  2 hrs.
   A course designed to promote the importance and use of statistical de-
   vicees and formulae as applied to economic data; to enable the student to
   collect or assemble basic statistical data and to organize them; and to de-
   velop his capacity to use summary statistics as interpretative tools and aids
   in economic studies and practical management operations. Prerequisite:
   Mathematics 209 or 211 or consent of the instructor; Principles of Economics

330 Business Cycles  2 hrs. Spring
   An historical and theoretical analysis of business cycles. Prerequisite:
   220A and 220B.

420 Public Finance  3 hrs. Fall
   A study of government expenditure, revenues, debts, and problems of
   fiscal administration. Prerequisite: 220A, B. Work in government may be
   substituted in special cases by permission of the instructor.

421A Labor Problems  2 hrs. Fall
   An analysis of the nature and underlying causes of the problems facing
   the worker in modern economic society. Prerequisite: 220A, B.

421B Labor Problems  2 hrs. Spring
   A study of the methods by which workers, employers, and the public have
   been and now are attempting to solve labor problems. Present programs
   are evaluated in the light of underlying economic principles in order to
   develop sound thinking about these problems. Prerequisite: 325A.
422 Corporations 3 hrs. Fall, Spring
A study of the nature of the modern business corporation, and its place in modern business life. Consideration is given to problems of organization, direction, finance, and control. Prerequisite: 220A, B.

423 Collective Bargaining 3 hrs. Fall
An analysis of the major problems in present-day collective bargaining including the negotiation of collective agreements, the practical aspects and the economic implications. Prerequisite: 421A, B, or the consent of the instructor.

424 International Economics 2 hrs. Spring
A general course in international relations with special emphasis on the fundamentals of international trade theory and the impact of national economic policies on international relations. Prerequisite: 220A and B.

425 Consumption and Standards of Living 2 hrs.
A comparative study of standards and levels of living, designed to acquaint the student with the ways people actually live in different types of communities and various economic levels. Of special interest to the teacher. Prerequisite: 220A, B or consent of the instructor. Not offered in 1956-1957.

426 Business and Government 3 hrs. Fall
A study of the regulatory policies of government and their impact on private enterprise. The course seeks to explain the needs for regulation, and to provide an analysis and evaluation of the various laws from the viewpoint of encouragement, subsidization, and control. Special attention will be directed to certain aspects of concentration of economic power, public ownership, and nationalization programs. Prerequisite: 220A, B. Work in Political Science may be substituted in special cases by permission of the instructor.

427 History of Economic Thought 2 hrs. Fall
The course aims to give the student the historical background for modern economic thinking. Beginning with the leaders of ancient economies thought, the main currents of such thinking are brought down through feudalism, mercantilism, the physiocrats, Adam Smith's influence, the English classical school, socialist tendencies, and the controversial theories of the present experimental era. Prerequisite: not fewer than 12 hours in Economics.

428 Comparative Economic Systems 2 hrs. Spring
The economic institutions and conditions of capitalism, socialism, communism, fascism, and the cooperative movement are critically examined as to ideology and actual operation. Prerequisite: 220A, B.

429 Business Administration 3 hrs. Fall, Spring
This course deals with the elementary principles of internal organization and management of industrial enterprises. It includes a discussion of plant location and types of construction; material equipment and power; planning
and routing; statistics and accounting; marketing methods and problems; production management; personnel administration; purchasing, traffic, credit, and collections. Prerequisite: 220A, B.

HISTORY

James O. Knauss, Head
Robert Friedmann
Howard A. Mowen
Alan S. Brown
Margaret C. Gill
Robert R. Russell
Willis F. Dunbar
Margaret B. Macmillan
Russell H. Seibert
Edward O. Elsasser
A. Edythe Mange
Charles R. Starring

Students preparing to teach in the later elementary grades are advised to take Foundations of Western Civilization 100A, B, and a sequence of courses in United States history.

Students who have had a thorough course in United States history in high school and have made good grades in the subject should not take United States History 201A, B, but should select instead advanced courses in the field: 312; 313; 317; 324; 403; 404A, B; 405A, B; 406A, B; 418.

Credit is not given for both Foundations of Western Civilization 100B and Modern Europe 108A, B.

A major in history should include at least 10 hours in courses numbered above the two hundreds and at least part of the higher number courses must be selected from those that deal intensively with a short period and, therefore, afford students a better opportunity to become acquainted with methods of advanced historical study: 403; 404A, B; 405A, B; 406A, B; 408; 409; 415; 416; 418; 426.

A minor in history should include at least one course numbered above the two hundreds.

Since a reading knowledge of French or German, or both, is helpful in advanced courses in history and essential in graduate work in the field, students planning to do graduate work in history are urged to elect at least two years of French or German.

100A, B Foundations of Western Civilization

(See Division of Basic Studies.)

108A Modern Europe, 1500-1815 3 hrs.

A study of the Reformation; the struggle between Spain and England; the rise of the Dutch Republic; the growth of absolutism in France; the establishment of parliamentary supremacy in England; the rise of Russia and Prussia; colonial conflict, social and political ideas of the eighteenth century; the French Revolution; and the era of Napoleon. Not offered in 1956-1957.

108B Modern Europe, 1815 to the Present Time 3 hrs.

The reactionary period after 1815; the industrial revolution; the liberal and national movements of the nineteenth century; the Near Eastern question; the expansion of Europe in Asia and Africa; international relations; World War I; the peace treaties; causes and results of World War II. Not offered in 1956-1957.
201A United States History to 1865 3 hrs. Fall, Spring
A general survey of American history from the beginning of the Thirteen Colonies to the end of the Civil War.

201B United States History, 1865 to the Present 3 hrs. Fall, Spring
A general survey of United States history for the period.

307A Colonial Latin American History 2 hrs. Fall
A study of the social, political, economic, and cultural aspects of Latin American history to end of the wars for independence.

307B History of the Latin American Republics 2 hrs. Spring
A study of the development of Latin America since the achievement of independence. Special stress will be placed on foreign relations.

311 Economic History of Europe 3 hrs.

312 Economic History of the United States 3 hrs. Fall
A general survey of the subject. A general knowledge of United States history such as may be gained from 201A, B is presupposed and a knowledge of the principles of economics is very helpful.

313 History of Michigan 3 hrs. Fall, Spring
A course designed to show the development of the contemporary political, social, and economic status of Michigan. The relation of the history of the state to that of the nation is stressed.

317 Constitutional History of the United States 3 hrs. Spring
A study of the development of the political institutions of this country from colonial times to the present with emphasis on the growth of the Federal constitution. A general knowledge of the United States history, such as may be gained from 201A, B, is presupposed.

319 History of Russia 3 hrs. Fall
This course stresses (1) those phases in the evolution of the Russian people necessary to an understanding of the present; (2) conditions and tendencies in Russia.

320 Ancient Greece 3 hrs. Fall
Background: Near East and Aegean civilization; the Homeric Age; rise and fall of Athens; Alexander the Great; Hellenism; political achievements and cultural legacy of the Greeks.
321 Ancient Rome 3 hrs. Spring
Its growth, expansion, civil wars, imperialism, and final decline. Constitutional history, Roman law. The rise of the Christian church until the sixth century.

322A The Renaissance 2 hrs. Fall
Social and economic conditions in Italy in the 14th century. The new spirit in the great centers Florence, Rome and Venice. Life, thought and art of the Renaissance, 1350-1550. Humanism in Italy and north of the Alps.

322B The Reformation 2 hrs. Spring
The development of religious reformation in Europe in the fifteenth and sixteenth centuries and its effects.

323 Modern Nationalism in Europe and America 2 hrs.

326 The Modern Near East 3 hrs. Spring
A study of the east Mediterranean lands formerly part of the Ottoman Empire; the problems resulting from racial conflict, economic imperialism, and the rise of nationalism.

327 History of United States Foreign Policy 3 hrs. Fall
A study of the formation and evolution of foreign policy by the United States from the time of independence to the present.

403 American Foundations 2 hrs.

404A The Era of the American Revolution 1763-1787 2 hrs. Fall
The causes, character, and consequences of the American Revolution. An intensive study of selected topics. A principal aim is to acquaint students with all kinds of historical materials and to introduce them to methods of advanced historical study.

404B United States History 1787-1815 2 hrs. Spring
The making of the Constitution and establishment of the early republic. This course is conducted in the same manner as 404A.

405A United States History 1815-1848 2 hrs. Fall
An intensive study of selected topics. Principal objects are to acquaint students with the various classes of historical materials and to introduce them to methods of advanced historical study.

405B United States History 1848-1877 2 hrs. Spring
This course deals principally with the great sectional struggle over slavery. It is conducted in the same manner as 405A.
406A  United States History 1901-1933  2 hrs.

406B  United States History 1933 to the Present  2 hrs.
A continuation of 406A. The big topics are the Great Depression, the New Deal, World War II, and our foreign relations since the war. Prerequisite: six hours of history. Not offered in 1956-1957.

408  Europe, 1900-1925  3 hrs. Fall
A study of the evolutionary promise of the New Enlightenment and the forces that led to its end in World War I; the frustrated opportunities of the peace ending at Locarno. Emphasis on evaluating significant trends of Liberalism; the relationship of domestic and foreign policies.

409  Europe, 1925 to Present  3 hrs. Spring
An investigation into the nature of the crucial problems and the varied solutions offered. Special study of the World Depression; the revolutionary alternatives posed by Fascism and Communism; tensions and ideological conflicts culminating in World War II; the positions of victor and vanquished after modern war.

415  The Old Regime  2 hrs. Fall
A study of the development of absolute monarchy; of the institutions, life, and thought of the eighteenth century, with special emphasis upon France; the causes of the French Revolution, and belated efforts at reform. Prerequisite: An introductory course in European history.

416  The French Revolution and Napoleonic Era, 1789-1815  2 hrs.
The overthrow of the French Monarchy and establishment of the First French Republic, the rise and fall of the Napoleonic Empire, and the spread of revolutionary principles throughout Europe. Prerequisite: An introductory course in European history. Not offered in 1956-1957.

418  The Old South  2 hrs.
A study of economic, social, and cultural conditions in the ante-bellum South with emphasis on the plantation system and Negro slavery and the social and political philosophy of Southern leaders. Not offered in 1956-1957.

125A  Intellectual History of Western Man, I, To 1550  2 hrs.
Leading ideas and movements in Western Civilization; their foundations in classical and Judaic-Christian traditions. Medieval thought, both secular and ecclesiastic, Arab influences. The spirit of Gothic art, Renaissance and Humanism. The final breakup of the medieval system through the Protestant Reformation. Not offered in 1956-1957.

125B  Intellectual History of Western Man, II, 1550-1955  2 hrs.
Four hundred years of the "modern mind": the dominance of the scientific perspective and the conflict with Christian ideas and ideals. Calvinism and

426 Twentieth Century Britain 2 hrs. Spring

A study of British political, social, and economic developments since 1900 and of the changing character of the Empire and Commonwealth.

430 The Literature of History 2 hrs. Spring

The twofold purpose in reading selected writings of great historians is to develop: (1) Standards of evaluation concerning sources, approaches, problems of controversy and of extraneous influences; (2) an appreciation for the pleasures of reading history through its style, story content, personal drama and conflict.

COURSES IN PHILOSOPHY

Robert Friedmann

A student may earn a minor by taking 15 semester hours credit in Philosophy. The courses History of Political Philosophy (Pol. Sc. 390) and Political Philosophy (Pol. Sc. 391) may count towards such a minor.

290 Design for Living 2 hrs. Fall

Man viewed as an individual: life with and without a design. Conflict situations of life and the issue of freedom. Meaning of life; responsibilities toward ourselves and toward our neighbors. Concern, service, love.

291 Social Values 3 hrs.

390 Introduction to Philosophy 2 hrs.

391A History of Philosophy: Greek and Christian Philosophy 3 hrs. Fall

The great thinkers of the Greeks and Romans, Plato, Aristotle, Stoicism, etc. The church fathers and the schoolmen of the Middle Ages up to the Renaissance.

391B History of Philosophy: Modern and Recent Thinkers 3 hrs. Spring

The new world view since the Renaissance. Bruno, Galileo, Descartes, Spinoza, Leibnitz, English thinkers: Locke to Hume; Kant to Hegel; the more recent thinkers of both Europe and America.
DIVISION OF SOCIAL SCIENCES

392 Philosophy of Science 2 hrs. Spring
Logical foundations, methodology of sciences. The eternal principles of the universe as discussed by physics, chemistry, and biology. Law and causality. Mechanism and vitalism.

393 Philosophy of History 2 hrs.

394 Great Religions of the World 3 hrs.

COURSES IN RELIGION

200A Introduction to Religion 2 hrs.
This course concerns three areas: (1) the nature, origin, practices and psychology of religion; (2) the problems of religious knowledge; (3) the philosophy of religion as related to origin of things, the end of things, intelligence, ethics and moral values, the concepts of the nature of God, the concepts of the problem of evil, immortality.

200B Introduction to Religion 2 hrs.
A continuation of 200A.

218A The English Bible—The Old Testament 2 hrs. Fall
For a description of course see English 218A.

218B The English Bible 2 hrs. Spring
For a description of course see English 218B.

302A The World of the Old Testament 2 hrs.
This course describes the history and culture of the Hebrews together with that of the neighboring peoples among whom the Hebrews lived during the Old Testament period. The Hebrew political, social and religious responses to situations arising in the ancient world as well as the cultural interdependence of the nations involved are discussed.

302B The World of the Old Testament 2 hrs.
A continuation of 302A.

322A Renaissance and Reformation (1350-1650) 3 hrs.
For description of course see History 322A.
POLITICAL SCIENCE

William V. Weber, Head
Donald H. Ackerman, Jr.
Robert D. Colman
Samuel I. Clark
Milton Greenberg
Jack C. Plano
Leo C. Stine

Courses in the Department are designed to prepare students to become (1) a functioning citizen; (2) a teacher of government or civics; (3) a governmental employee or officer; (4) to understand the part government plays in everyday business or other activities; (5) to develop sound methods of investigation and reflection as well as the ability to evaluate political information critically; (6) to make clear the role which individuals and organized groups can play in the Political Process; and (7) to demonstrate relationship of the study of government and public affairs to the other social sciences.

The state legislature in 1954 passed a law requiring that all colleges receiving public money shall grant neither degree nor diploma after June 30, 1956, to any student unless such student shall have successfully completed a three semester hour course in Political Science, or in government and public administration, covering the form and functions of our federal and state governments, and of counties, cities, and villages, and stressing the rights and responsibilities of citizenship. This requirement may be met by one of the following department courses: Nos. 230A or 230B or 334.

A major shall consist of 24 hours in the Department and a minor of 15 semester hours in the Department. Majors and minors in the Department are required to take Political Science 230A and/or 230B, 351, and 360. Students majoring or minoring in Political Science should consult the head of the Department to determine the appropriate advanced courses to be included in the student's program.

Political Science 230A and 230B overlap with 334. Therefore, credit in either 230A or 230B will preclude credit in 334.

230A National Government and Administration 3 hrs. Fall, Spring

An introductory course dealing with the national government structure, processes and functions. The structure and functions of political parties are touched upon incidentally. Emphasis is placed on the relationships and obligations of citizens to their government. Comparisons are made with our state and local governments. This course is intended for those who expect to major or minor in the department or to teach government or civics in the secondary schools.

230B State and Local Government and Administration 3 hrs. Fall, Spring

Detailed attention is given to the structure, functions, and processes of state, county, township, municipal and school government, with emphasis upon Michigan patterns and practices. Comparison is made with our National Government and its relationships to state and local governments. This course is intended for those who expect to major or minor in the department or to teach government or civics in the secondary schools.
DIVISION OF SOCIAL SCIENCES

300 Readings and Research in Political Science  1 to 3 hrs.  Fall, Spring

Is intended to give an opportunity to advanced students with good scholastic records to pursue independently the study of some subject having especial interest for them. Subjects are chosen and arrangements are made to suit the needs of each particular student. Approval of head of department and instructor required.

330 Legislative Process  3 hrs.

This course deals with the organization, procedure, and practice of American, national and state legislative bodies. Emphasis will be placed on the relationship between the executive and legislative bodies in the determination of legislative policy. Not offered in 1956-57.

334 American Government  3 hrs.  Fall, Spring

The structure and function of our federal, state, county and municipal governments. Emphasis is placed on the rights and responsibilities of citizenship. This course is intended primarily for those who do not have an opportunity to take more courses in Political Science.

340 Political Parties  2 hrs.  Fall

A study of the nature of political parties and the part they play in government. Party principles, organization and the role of parties in the electoral process is emphasized. Prerequisite: Junior standing.

341 Public Opinion and Pressure Groups  2 hrs.  Spring

An analysis of the nature of public opinion, the methods of influencing it, and the techniques of opinion and attitude measurements, the organization, characteristics, methods, and results of propaganda are considered. Prerequisite: Junior standing.

351 Comparative Governments of Europe  3 hrs.  Fall, Spring

The organization and procedure of the political institutions of England, France, Germany, and the U.S.S.R. Political trends and forces challenging or reshaping democratic institutions are examined. Prerequisite: 230A or Junior standing.

360 International Politics  3 hrs.  Fall

The course includes a study of the forces which have operated to bring conflict among the states in the international community. It also includes an analysis of power and the ways in which power is gained, maintained and used in international relations. Prerequisite: Political Science 230A or a course in modern history or equivalent.

361 International Organization  3 hrs.  Spring

A study of systems and methods derived by states for dealing with their common problems. Consideration of the principles, objectives and methods of the United Nations. Emphasis will be given to the military, political, economic, social and cultural role of international agencies. (This course is designed as a continuation of 360 but may be taken separately.) Prerequisite: 230A or a course in modern history or equivalent.
370 Introduction to Public Administration 3 hrs. Fall
Development of administrative organization; administration and the executive, legislature, and judiciary; principles of organization, including line and staff relationships; the staff services of finance and personnel; formal and informal control. Prerequisite: 230A or 334.

371 Problems of Public Administration 2 hrs. Spring
The course will include an analysis of some typical problems of administration at all three levels of government. An attempt will be made to develop some principles which will aid the administrator in his consideration of such matters as organization and reorganization of agencies of government personnel and financial administration, techniques of control within the unit and public relations. Individual problems will be assigned at the level of government in which each is particularly interested. Not offered in 1956-57.

381 Constitutional Law 3 hrs. Spring
This course considers the nature, principles, and the view of the government of the United States as embodied in written Constitutions and judicial decisions. Prerequisite: 230A or 334.

383 International Law 3 hrs.
Relations of nations in war and in peace, and the accepted usages regarding the rights of neutrals and belligerents, contraband, blockade, visit and search, changes of sovereignty, extradition, expatriation, and similar subjects. Changes brought about by World War II. Prerequisite: A course in modern European history or international affairs. Not offered in 1956-57.

385 The Constitution and Civil Liberties 2 hrs. Spring
A study of free speech loyalty in a democratic state, citizenship, freedom of religion, rights of persons accused of crime, and government's responsibility to protect persons from racial and religious discrimination, with special attention to the role of law and judges. Prerequisite: Junior standing.

390 History of Political Philosophy 3 hrs.
An introduction to a selected portion of the political thought that has influenced the thinking of all ages. The works of the great political philosophers will be studied. Not offered in 1956-57.

391 Political Philosophy 3 hrs. Fall
This course does not consider political philosophy historically but rather examines certain areas of concern to the political philosopher. It considers, among others, such problems as the nature of man, the purposes of government, the meaning of liberty, and the extent of political authority. Prerequisite: Junior standing.

An advanced study of the issues and policies in government, politics, and economics in their historic and sociological perspectives for elementary
and secondary teachers. Specific units for teaching may be developed by individuals or groups.

439 Municipal Government 2 hrs. Fall
City Governments: their relation to the state, the rights and liabilities of municipal corporations, city pressure groups, and detailed analysis of the forms of municipal governments. Prerequisite: 230B or the equivalent.

451 British Government and Politics 2 hrs.
The organization and operation of the government of Great Britain and a survey of contemporary British political issues and problems. Prerequisite: 230A or equivalent. Not offered in 1956-57.

452 Governments and Problems of the Far East 2 hrs.
This course includes a study of the governmental organization and an analysis of some current problems of organization and administration of Japan, India, the Philippines, and other countries of the Far East. Special attention will be given to such problems as the growth of communism, land reform, industrialization efforts, and the development of democratic philosophy. Not offered in 1956-57.

453 Government of the Soviet Union 2 hrs.
The government and politics of the U.S.S.R. and a survey of the new regimes established in Poland, Czechoslovakia, Hungary, Romania and Yugoslavia. Prerequisite: Modern European History or equivalent. Not offered in 1956-57.

454 Governments and Problems of Central and South America 2 hrs.
This course includes a study of the governmental organization, an analysis of some of the more current economic, and social problems of selected Latin American countries. Not offered in 1956-57.

465 American Foreign Relations 2 or 3 hrs. Spring
An analysis of the diplomatic relations of the United States with emphasis on present foreign problems. Consideration will be given to the formation and execution of American foreign policy. Prerequisite: 230A or a course in American History or equivalent.

SOCIOLOGY
Leonard C. Kercher, Head
H. Mark Flapan

Paul B. Horton
Chester L. Hunt

Jerome G. Manis
Nellie N. Reid

Courses are designed (1) to give students in general a better understanding of the significant factors and processes of modern life; (2) to meet the needs of students preparing to teach in the social-science field; (3) to prepare students to do graduate work in the field of sociology; and (4) to stimulate interest in and provide prerequisite study for the profession of social work.
A major in the field consists of 24 hours and a minor of 15 hours of course work.

Courses 241 and 242 or 243 are required of all students majoring or minoring in sociology and should constitute a minimum selection for students preparing to teach "Community Civics." All courses may be taken separately, and may be taken in any order by students who have had the prerequisite courses.

The curriculum in social work requires a major in sociology or a major in social science with a sociology concentration and a minor in social work, consisting of 19-20 semester hours selected from courses 255, 348A, 348B, 351, 353, 355, 356, 358A, 358B and 359. Students intending to pursue this curriculum should seek counsel and guidance early from the instructor in social work.

**SOCIOLOGY COURSES**

241 Principles of Sociology 3 hrs. Fall, Spring

A study of man's social nature and of the social world in which he lives. The biological, social, and cultural factors underlying the development of human personality and the various forms and processes of group association are analyzed.

242 Modern Social Problems 3 hrs. Fall, Spring

A general survey of some of the major social problems now confronting American society, such as inter-group conflict, physical and mental ill health, economic insecurity, juvenile delinquency and crime, population changes, and mass communication. Prerequisite: 241.

243 Social Psychology 3 hrs. Fall, Spring

A study of the social and cultural aspects of individual personality, together with an analysis of the problems of personal adjustment that arise from the interaction of personalities and from the relation of the individual to the social environment in general. Prerequisite: 241.

244 Sociology (for Nurses) 2 hrs. Spring

An introductory course in sociology especially adapted to the need of students of nursing. Not open to regular students.

245 Modern Marriage 2 hrs. Fall, Spring

A general education course designed to help young people prepare for successful marriage. Courtship, choosing a mate wisely, planning for marriage, adjusting to one's partner, preparing for successful parenthood are considered. Should not be taken by students expecting to take 345.

247 The City 2 hrs.

A study of city life as influenced by the processes of industrialization and urbanization. Community problems and social planning for community life are given appropriate consideration. Prerequisite: 241. Not offered in 1956-57.
218 Cultural Anthropology 3 hrs. Spring

A description and comparative study of the cultures of primitive peoples; their technology, art, social life, and religion. The course includes also a consideration of the origins and functional interrelationships of significant aspects of contemporary culture.

312 Criminology 3 hrs. Spring

A study of crime as a social problem. Course includes (1) an analysis of causative factors in crime, (2) a study of American police and court systems, (3) a survey of the problems of penology, and (4) a consideration of crime prevention. Visits to institutions are made. Prerequisite: 241.

313 Mass Communication 3 hrs. Spring

The study of the media of mass communication in modern society. Impact of radio, television, movies, and newspaper on family life, delinquency, leisure, and mass behavior. Analysis of rumor, propaganda and ideologies.

314 Cooperative Social Organization 2 hrs.

A study of cooperative enterprise and cooperative movements; covering principles, historical developments, forms and manifestations, problems of operation, and place in contemporary society. Prerequisite: 241, or Man and Society 101A. Not offered in 1956-57.

315 Marriage and the Family 3 hrs. Fall, Spring

A study of both the personal and the institutional aspects of marriage and family living. Courtship and mate selection, marital adjustment, parent-child relations, family disorganization, and the adaptation of the family to modern society are considered. Credit not given to person with credit for 245. Prerequisite: 241.

316 Industrial Sociology 2 hrs. Fall

A study of human relations in business and industry. The functioning of informal groups and the varying roles of leadership are analyzed. Consideration is given also to the problems of depersonalization, of worker morale and output, and of labor-management conflicts.

317 Race Relations 2 hrs.

A study of race and inter-group relations, stressing (1) the meaning of race, (2) the nature and roots of race prejudice, race discrimination, and inter-group conflict, and (3) the character and effectiveness of various means of adjustment to the problem. Prerequisite: 241. Not offered in 1956-57.

318A Introduction to Social Research 3 hrs. Fall

An introductory course in the principles and techniques of social investigation. The leading research approaches are surveyed. Procedures for planning, organizing, and conducting limited research projects are analyzed. Statistical concepts and methods are studied. Each student will take part in a group study project. Prerequisite: 12 semester hours of social science other than history.
348B Social Research Projects 2 hrs. Spring
A concrete application of scientific methods to specific research projects developed in the introductory research course. Each student will participate in one or more field studies. Prerequisite: 348A Introduction to Social Research.

349 Sociology of Religious Institutions 2 hrs. Spring
A study of the social role of religious institutions and beliefs, with particular reference to the United States; the relation between religion and other aspects of society. The course considers social factors affecting the development of different types of religious institutions and the influence of religion on American society. Prerequisite: 241.

350 Sociology of Education 3 hrs. Fall
The classroom as a social situation analyzed in terms of the interaction between teacher-student and student-student. The educative process as a function of the interpersonal relations among teachers and between teachers and administrators. The school as a social system as it affects and is affected by the community in which it is located and society at large. Prerequisite: 241.

412 Social Pathology and Personal Deviation 2 hrs.
A study of the social aspects of personal deviation. Subject-matter would include consideration of the alcoholic, the drug addict, the marginal man, and the sexually maladjusted. Course considers deviate behavior in light of social background, causative factors, and possible therapy. Prerequisite: 241, or Man and Society 101A, or 540. Not offered in 1956-57.

413 Population Problems 3 hrs. Fall
A study of population trends and their human significance. The social and cultural factors influencing the reproductive behavior of man are examined. Biosocial facts are presented and analyzed, but primary stress is on the social implications of present and probable future population trends. World pressure spots as well as the United States are considered. Prerequisite: 12 semester hours of Social Science.

414 History of Social Thought 2 hrs.
A critical survey of the social thinking of outstanding students of society from Plato to those of modern social science. Prerequisite: 241 or Man and Society 101A, or 540. Not offered in 1956-57.

416 Juvenile Delinquency and the Community 2 or 3 hrs. Fall
A study of juvenile delinquency as a social problem. Extent, causative factors, methods of treatment, and programs of prevention and control are covered. When possible, extensive use of community resource people is made. Prerequisite: 241, or 540, or equivalent.

447 Community Agency Resources 2 hrs. Spring
A study of community agencies and resources for those concerned with family and personal problems. Emphasis is placed upon the availability of
these resources and their effective use by business and industry, speech therapists, guidance counselors, teachers, etc.

118 Comparative Culture Studies  
2 hrs. Spring
A comparative study of the structure and the functioning of selected aspects of culture in Britain and America. The courts, the educational system, the welfare state, class stratification, correctional institutions, political organization, and the basic structure of government are considered. Prerequisite: 211, or 540.

119 Contemporary Social Movements.  
3 hrs. Spring
A study of the growth and place in contemporary society of selected social movements, including communism, fascism, Ku Klux Klan, the Townsend movement, and the like. Prerequisite: 211, or 540.

SOCIAL WORK COURSES

255 The Field of Social Work  
2 hrs. Fall
A study of social work as a professional field. The philosophy, functions, employment opportunities, patterns of specialization, and methods of social work are surveyed. Interpretative visits to varied types of social work agencies are made.

351 Family and Child Adjustment  
3 hrs. Fall
A study of personality development and adjustment in family situations during childhood and adolescence. Cases are analyzed to reveal the common emotional problems encountered by social workers.

353 Public Welfare  
3 hrs. Spring
The history of social legislation and public welfare and their underlying philosophy are considered from the Elizabethan Poor Law to the Social Security Act. An analysis is made of various aspects of welfare legislation of importance to the social worker.

355 Principles of Social Case Work  
2 hrs. Fall
A course designed for students without social work experience. It constitutes a general introduction to the basic principles and processes of social case work. Prerequisite: consent of the instructor.

356 Principles of Social Group Work  
2 hrs. Spring
The study of the socio-cultural factors affecting group life, and of the methods and techniques used by the group worker in meeting individual and group needs. Social agency staff members will bring to the class specific programming employed in local group work agencies. Consent of instructor.

357 Community Welfare Organization  
2 hrs. Fall
A study of the community organization method as it applies to the planning, coordination, and integration of social, health, welfare, and recreation services. The class will observe a community organization agency by visits to its meetings and offices.
358A  Orientation to Field Work  2 hrs.  Fall
A course in agency observation and study, aiming to orient the student to a specific field work assignment. A minimum of 90 hours of on-the-spot study of the agency's organization, functions, and methods is required. Prerequisite: 355 or 356, and consent of the instructor.

358B  Supervised Field Work  3 hrs.  Spring
A continuation of 358A, with emphasis on supervised participation in the work of the agency. Each student is required to complete 135 hours of field work on specific assignments. The student's work is evaluated jointly by the agency supervisor and the instructor. Prerequisite: 358A, and consent of the instructor.
DIVISION OF TEACHER EDUCATION

James H. Griggs, Director

The Division includes the Departments of Education and Librarianship. The heads of the departments and the departmental counselors will advise students relative to requirements for majors or minors in these departments and concerning any special requirements set up by the departments.

EDUCATION

James H. Griggs, Head
Mary Bottje
Roy C. Bryan
John A. Buelke
Homer L. J. Carter
Clara R. Chiara
George K. Cooper
Isabel Crane
Manley M. Ellis
William E. Engbretson
John L. Feirer
Orie I. Frederick
Mitchell J. Gary
Louis A. Govatos
George E. Kohrman
Eunice E. Kraft
Dominic Leonardelli
L. Morris McClure
Dorothy J. McGinnis
George G. Mallinson

Courses are designed to meet the professional needs of the student preparing to teach. All students pursuing a curriculum for a secondary provisional certificate and a degree are required to take as a minimum 21 hours of professional work in education; 24 hours for the elementary provisional certificate. The following courses, or their equivalent, are required: Human Growth and Development 251, three hours; Psychology of Reading 212, three hours for elementary teachers; Introduction to Directed Teaching 240 or 351, three hours; and Directed Teaching, Laboratory in Education, and General Educational Problems 370A, B, C, fifteen hours.

Applicants for the secondary provisional certificate are not permitted to major in Education.

Elective courses are available in the following fields: early-elementary education, later-elementary education, secondary education, special education, methods of teaching, theory and principles of education, educational measurements, rural education, and health education. Certain special-methods courses are available in other departments of the college.

Students take Directed Teaching and Laboratory in Education 370A and B, twelve hours, during one semester, and General Educational Problems 370C, three hours, during either semester of the senior year. Students with advanced credit in education or with irregularities in their professional work should confer with the departmental adviser at the earliest possible date.

100 Introduction to Education 2 hrs. Fall, Spring

Experimental Freshman Course open to selected students.
This course is designed to provide an early introduction to the profession of teaching and to the educational services present in communities of the state and nation. Field trips, observations, audio-visual materials, resource persons, tests and personal inventories are used to acquaint students with the purposes and functions of education in American society, and to help students make intelligent choices of areas of specialization within the profession. Course meets three hours a week for two hours credit.

REQUIRED WORK IN EDUCATION

(For Provisional Certificate)

SOPHOMORE OR JUNIOR YEAR

251 Human Growth and Development 3 hrs. Fall, Spring

Class meets four periods a week for three hours credit. Course deals with physical, social, emotional, and intellectual growth and development of children and adolescents.

JUNIOR YEAR

351 Introduction to Directed Teaching 3 hrs. Fall, Spring

This course is designed to prepare students for successful student-teaching. Prerequisite: 251 or equivalent and as many honor points as hours of credit.

SENIOR YEAR

370A, B, C Integrated Professional Education 15 hrs. Fall, Spring

For all seniors whose programs will permit them to devote one semester entirely to professional education. A unified course for seniors which is based on needs and problems of students while doing their directed teaching. Prerequisite: 251 and 351, or equivalent; and as many honor points as hours of credit.

370A Directed Teaching 8 hrs. Fall, Spring

Students devote a half day for one semester to Directed Teaching, at which time they have experiences in both the curricular and extra-curricular program of the training school in which they teach. All students expecting to do Directed Teaching should enroll in the Teacher Education Office well in advance of the semester in which the Directed Teaching is to be done.

370B Laboratory in Education 4 hrs. Fall, Spring

Students work individually and in groups on the kinds of problems faced in directed teaching situations in classroom, school, and community. Other problems to be faced later as full-time teachers are considered. Suggestions and guidance are afforded by staff members and by resource persons. The laboratory is divided into elementary and secondary sections.
370C General Educational Problems 3 hrs. Fall, Spring
Course content includes such matters as social, political, and economic
influences on education; historical and philosophical backgrounds of present-
day education; changes and trends in education; and current problems in
education.

OPTIONAL COURSES IN DIRECTED TEACHING

371 Directed Teaching 4 hrs. Fall, Spring
Only for seniors who have completed most of their professional course
work prior to the senior year. Similar to description for 370A. Students
should enroll at the Teacher Education Office for Directed Teaching 371,
372, or 373 well in advance of the semester in which the Directed Teaching
is to be done. Prerequisite: as many honor points as hours of credit
acquired.

372 Directed Teaching 4 hrs. Fall, Spring
Only for seniors who have previously fulfilled a part of their requirement
in directed teaching. Similar to description for 370A. This course is also
offered in extension.

373 Directed Teaching 4 hrs. Fall, Spring
This elective course is planned primarily for those students who wish to
extend their teaching over a wide range of grades or subjects, and for
students who, in the opinion of the head of the department and the Director
of Teacher Education, need more experience in teaching. Prerequisite:
372 or 370A.

374 Directed Teaching 5 hrs. Fall, Spring
A course in the teaching of arts and crafts related to work in occupa-
tional therapy in the public schools and in institutions for defective chil-
dren. Prerequisite: same as for 371. Open only to students of occupational
therapy.

ELEMENTARY EDUCATION

208 Stories for Childhood 2 hrs. Fall, Spring
A study of stories and poems suitable to childhood. Classroom practice
in story telling.

212 Psychology of Reading 3 hrs. Fall, Spring
A summary of the results of the scientific studies made in the field of
reading, with suggestions as to the bearing of these studies upon the
materials and methods of teaching. Prerequisite: as many honor points as
hours of credit.

302 Problems in Elementary Education 3 hrs.
This course is designed to deal with problems of immediate concern to
beginning teachers—discipline, group activity, teacher-pupil planning, and
other problems dealing with teaching in the elementary school. Not offered
in 1956-57.
305 Early Elementary Education 3 hrs.
A study of curriculum practices in the early elementary grades. Students will have an opportunity to work with large centers of interest, be introduced to newer courses of study, and afforded the opportunity of actual participation. Not offered in 1956-1957.

309 Nursery-Kindergarten Education 2 hrs. Spring
This course will acquaint the students with the history and present-day status of the Nursery School and Kindergarten education. Consideration will be given to the organization, equipment, curriculum, and approved teaching procedures.

312 Later Elementary Education 3 hrs.
A study of the characteristics and needs of pupils in the later-elementary grades and of the materials and methods of instruction. Prerequisite: 251. Not offered in 1956-1957.

402 Curriculum Workshop 2-4 hrs. Fall, Spring
Opportunity is provided for teachers, supervisors and administrators in selected school systems to develop programs of curriculum improvement. A wide variety of resources is used for instructional purposes, including several specialists, library and laboratory facilities, field trips, audio-visual materials, and the like.

410 Parent Education 2 hrs. Fall
Places major emphasis on home problems which have educational implications for the child. Parent-teacher relationships, council programs, and cooperative efforts for improvement of education in home and in school are studied.

411A The Elementary Curriculum 2 hrs.
A consideration of content and procedures to adapt experiences of pupils in elementary schools to modern conditions and to child needs and interests. Individual or committee reports concerning the improvement of various aspects of the elementary school curriculum will be prepared. Not offered in 1956-1957.

411B The Elementary Curriculum 2 hrs. Spring
A continuation of 411A. Emphasis will be placed on developing and organizing research materials for actual use in school systems represented by those taking the course.

465 Adult Education 2 hrs.
This course will include such topics as organizing and financing formal public school adult education programs, promoting informal adult education activities, leadership training, program planning, and adult education group techniques. Students will be permitted to select special areas of interests for research and study. Not offered in 1956-1957.
SECONDARY EDUCATION

321 Secondary School Curriculum 2 hrs.
A study of the principles underlying the revision and reorganization of junior and senior high school curricula and a survey of current practices in adapting the high school offering to modern social conditions and adolescent needs.

402 Curriculum Workshop 2-4 hrs. Fall, Spring
Opportunity is provided for teachers, supervisors and administrators in selected school systems to develop programs of curriculum improvement. A wide variety of resources is used for instructional purposes, including several specialists, library and laboratory facilities, field trips, audio-visual materials, and the like.

120 The Junior High School 2 hrs.
A detailed consideration of the basic concepts underlying an effective junior high school program. Study of the development and purposes of the junior high school; curricular organization and problems; co-curricular activities; instructional materials. Not offered in 1956-1957.

SPECIAL EDUCATION

231 Introduction to Special Education 2 hrs.
A beginning course in the field of special education, dealing with the education of gifted, subnormal, neurotic, delinquent, speech-defective, blind, deaf, and crippled children. Prerequisite: 251.

235 Introduction to Mental Hygiene 3 hrs. Spring
A course in the mental hygiene of childhood and adolescence. Among the topics considered are: adjustment to home and school; failure, frustration, and aggression; role of the emotions in education; adolescence and its problems; sex development; juvenile delinquency; the mental hygiene of courting, mating, and marital relations; the mental hygiene of religion.

331 Clinical Problems in Reading 2 hrs. Fall, Spring
This course provides practical experience in Reading Laboratories sponsored by the Psycho-Educational Clinic. Diagnosis and treatment of reading problems at either the elementary level or secondary level are emphasized. The course deals with physical, mental, and emotional factors affecting reading performance. Open to advanced students with permission of instructor.

334 Basic Audiometry 2 hrs.
Theory and practice of hearing testing with emphasis on the development of audiometric techniques. Interpretation of audiograms with respect to clinical and educational recommendations.
336 Character Education
2 hrs.
The objectives of character education are studied and catalogued. The influences of the curriculum, the cardinal principles of education and social agencies, in relation to heredity and environment, are observed. A bibliography of methods and materials is collected. Not offered in 1956-1957.

338 Introduction to Audio-Visual Education
3 hrs.
Survey of various types of Audio-Visual Aids; functions in the learning process; practice in selecting and evaluating materials; equipment instruction in laboratory periods with proficiency in operation required; and techniques of good utilization of Audio-Visual materials. Not offered in 1956-1957.

430 Educational Therapy in Reading
2 hrs. Spring
A study is made of the psychological, sociological and physiological factors affecting children's reading ability, together with laboratory application of such knowledge in the prevention, diagnosis and treatment of reading problems. Open only to experienced teachers by permission of the instructor.

431 Education of Exceptional Children
2 hrs. Fall
Deals with the problems and methods involved in the adjustment and training of exceptional children in the schools—the mentally retarded, the gifted, the crippled, the deaf, the blind, the emotionally unstable, and the delinquent.

432 Education and Control of the Mentally Handicapped
3 hrs. Spring
The course deals with the roles of the courts, institutions, schools and other agencies in control, education and custody of the mentally handicapped. Organizations and administration of special classes for mentally handicapped of all levels. Prerequisite: 251, or equivalent.

433A Introduction to Lip Reading
3 hrs.
A course designed to acquaint the student with the various methods of lip reading and the problems encountered in the teaching of this skill. The student is given opportunity to acquire elementary lip reading skill as well as practice in the techniques of teaching. Not offered in 1956-57.

433B Speech for the Deaf
2 hrs.
Teaching methods used for the development of speech in congenitally deaf children. The formation of speech elements and their combination into words. Use of residual hearing for speech and voice improvement. Not offered in 1956-57.

433C Language for the Deaf
2 hrs.
The development and application of the principles of the English language and presentation to the deaf children. Attention will be given to the Language Principle Method, the Barry Five Slate System, Straight Language for the Deaf, and Wings Symbols. Not offered in 1956-57.
**434 Mental Deficiency**

A course in the psychology and pathology of mental deficiency including causation, diagnosis, classification, prognosis and therapy at all levels. Prerequisite: 251.

**435 Anatomy and Pathology of the Aural Mechanism**

A survey of anatomical and physiological subject matter bearing on the speech field of hearing; functional tests of hearing; and discussion of the pathological conditions of the ear and labyrinth.

**436 Mental Hygiene of Childhood and Adolescence**

Deals with the problems of emotional adjustment and maladjustment in childhood and adolescence.

**437 Methods of Teaching Mentally Handicapped Children**

Principles of learning and instructional practices applicable to mentally handicapped children. Special attention is given to problems of the mentally retarded child with elementary curricular materials.

**438 Audio-Visual Education**

Acquaints teachers and administrators with the principles and practical uses of multi-sensory aids to education, including field trips, machines, and creative materials.

**439 Driver Training and Safety Education**

Deals with several aspects of safety education in the home, school and community, with special emphasis on preparing secondary school teachers of driver training and safety education. Materials and methods, psychological testing, sound driving practices, pedestrian protection, “Behind-the-Wheel” training in dual-control cars, and accident prevention procedures are an integral part of the course.

**440 Advanced Audiometry**

This course deals with the physics of sound, with the ear as a sound receiver, and with clinical methods of measuring hearing. The interpretation of test results for the purposes of re-education and the necessary follow-up measures in an educational hearing program are studied. Students will be given actual practice in group and individual audiometric testing.

### METHODS OF TEACHING

**340 Art Observation**

Observation of art activities in the training school and discussion and illustration of these problems.

**341 Art Supervision**

A study of the school curriculum and its need in art activities. A course of study will be outlined and administration problems discussed. Prerequisite: Art Structure 106, Elementary Design 105, Art Composition 208, History of Art 213A, Commercial Art 214.
342 Teaching of Latin 2 hrs. Spring
The problems of the first two years of high-school Latin are considered. Observations of teaching, reports, and discussions will form a part of the work. This course is prerequisite to directed teaching in Latin.

343 Organization and Administration of Physical Education 3 hrs. Fall, Spring
The planning of physical-education programs for city, village, and rural schools; the organization of health lessons, games, tests, meets, tournaments, and seasonal play; principles of supervision; construction and equipment of buildings, grounds, swimming pools, athletic fields, stadia.

346 Teaching of Business Subjects 2 hrs. Spring
This course is designed for the prospective teacher of high school subjects. Consideration is given to business education programs, equipment, approved teaching procedures and teaching aids.

347 Plan and Organization of a School Shop 2 hrs. Fall, Spring
This is a course to help teachers plan and organize the school shop. Topics concerned include physical needs of the subject, selection of activities, shop layout, purchasing equipment, establishing a supply routine, planning personnel organization, and shop management.

348 Teaching of Industrial Arts 3 hrs. Fall, Spring
This course deals with the problems in teaching industrial arts subjects, the techniques employed in the analysis of instructional units, construction of tests and rating scales, and problems dealing with administration and work. The principal methods of instruction used in industrial arts subjects will be emphasized.

444 Methods in Physical Education 2 hrs. Fall
Fundamental principles underlying the selection of subject matter and the technique of teaching gymnastics, games, and rhythmic work for elementary and high-school pupils. Opportunity for observation and making of lesson plans.

445 Administration and Organization of Physical Education 2 hrs. Spring
This course presents the problems that arise in the everyday experience of the instructor. Among the topics considered are administration of activities, physical examinations, excuses, special cases, records, schedules and relations with other services in the school.

THEORIES AND PRINCIPLES OF EDUCATION

404 Workshop in Human Relations 2-4 hrs.
Opportunity is provided for teachers, administrators, and other school personnel to work together in the study and solution of problems in human relations, particularly in the fields of intercultural relations, group processes, communication, and home-school-community relations. Resource per-

451 Philosophy of Education 2 hrs.
For graduate students and teachers of experience. Analyzes and interprets the changes in education taking place in this and other countries. Not offered in 1956-57.

GUIDANCE

480 Introduction to Guidance Services 2 hrs. Fall, Spring
A basic introductory course for all secondary and elementary teachers, including a survey of the history, principles, problems, methods, organization and methods of guidance. Special attention is centered on the individual, his needs and adjustments, and on counseling procedures.

481 Techniques of Guidance 2 hrs. Fall, Spring
This course is designed to give competencies in the use of school records, instruments of measurement, case studies, interview, group guidance, placement, follow-up and community resource.

482 Occupational Information for Counselors and Teachers 2 hrs. Fall
Stresses knowledge of sources, use, evaluation and techniques of imparting occupational information. Recent trends in the major occupations are also discussed.

485 Guidance Workshop 2 hrs.
The workshop is designed for teachers, counselors, supervisors, and administrators in selected school systems to study particular guidance problems and procedures in relation to their local guidance program. A wide variety of workshop methods and resources is used. Two semester hours each session.

LIBRARIANSHIP

Alice Louise LeFevre, Head         Gertrude Van Zee  Mate Graye Hunt
Jean Lowrie

The Department is fully accredited by the American Library Association for the preparation of librarians for school and public libraries. The curriculum is designed for: (1) candidates for the Bachelor's degree with teaching certificate who wish to qualify as teacher-librarians; (2) candidates for the Bachelor's degree who wish to meet requirements for positions in public and in county and regional libraries; (3) candidates for the Master's degree who wish to prepare for full-time positions as librarians in elementary and in secondary schools; (4) students who desire a wider acquaintance with books and other library materials and methods. The school libraries in the Campus Schools and in the affiliated Paw Paw schools serve as centers for field work. A departmental laboratory containing books and other materials in library science and related fields is provided.
The *sequence for teacher-librarians* consists of courses 403, 411, (preceded by English 203) 360, 361, 470 and two hours elected from 405 or 406 plus the field work which comprises a part of Education 370 which is required of all candidates for the teaching certificate. The *major for those in the public library sequence* consists of courses 202 (preceded by English 203) 304, 360, 363, 402, 411, 470 plus six hours of electives in librarianship. Candidates in this sequence will also need to elect 380 which provides a period of supervised practice in a county, regional or urban public library. Consult the director of the department for further information on the selection of courses.

202 Reading Interests of Children 3 hrs. Spring, Summer

In association with children, the class will read and evaluate a wide range of books on varying reading levels as a basis for consideration of present-day children's interests in the light of the development of children's reading. There will be opportunity to examine, evaluate, and use printed aids for the selection of books for children.

304 Reading Interests of Adults* 2 hrs. Spring, Summer

Discussion of the methods used in libraries in promoting reading such as reader’s advisory service, book talks, forums, radio, films, and booklists. Students have opportunity to examine and read a number of books in various fields of interest and to evaluate them on the basis of their value in meeting specific adult reading needs.

360 Organization of Library Materials* 2 hrs. Fall

Methods of organizing various types of materials such as books, periodicals, pamphlets, and audio-visual aids for effective use in relation to the demands of schools and of the community. Emphasis is placed upon practical methods of keeping essential business records, book buying, processing and distributing books with a minimum of routine in schools and in small public libraries.

361 Administration of School Libraries* 2 hrs. Spring

Consideration is given the functions of the library in the school, its objectives, contributions to the educational program and administrative procedures. Stresses the responsibility of the library in carrying out the aims of the school program. Covers problems of support, housing and equipment, personnel, public relations, and standards of service.

362 The Library in the Modern Community* 2 hrs. Spring, Summer

The course aims to give the student professional background and opportunity to broaden his own reading program. Surveys the development of libraries in the United States from the Colonial period to the present day with consideration of various types of libraries in relation to their contribution to society. Attention is given the adult education program, county and regional library service, and the services rendered through national, state, and local library agencies.

*Starred courses open only to majors and minors in the Department of Librarianship.
363 Rural and Urban Library Administration*  3 hrs.  Spring, Summer
Organization, operation, laws, and finances of county and regional libraries with consideration for the Middle Western area. Emphasizes the library's place in the cultural and educational activities of the community and its relationship to the State Library and to local social agencies.

380 Field Assignment and Laboratory  3 hrs.  Fall, Spring, Summer
An assignment in one of the selected cooperating public libraries will be made usually for a period of three weeks preceding the opening of college, or between semesters. The student is given opportunity to observe methods of administration and to participate in all types of activities. A laboratory period for discussion is held throughout the following semester.

402 Reading Interests of Young Adults  2 hrs.  Fall, Summer
Study of the fields of literature suited to the interests of young people. Students are given opportunity through wide reading to develop principles and standards for the selection of the book collection. Includes an introduction to methods of stimulating broader reading interests and of conducting group book discussions with young people. Open to students in the Education Department and to others who expect to work with youth.

403 Selection of Reading Materials*  2 hrs.  Fall, Summer

405 Curriculum Enrichment Materials  2 hrs.  Fall, Summer
Study of selection of teaching materials, books, pamphlets, periodicals, maps and audio-visual materials in relation to the elementary and secondary school curriculum. Emphasis laid on evaluation of content and on methods of distribution in relation to the school organization. Considers sources of selection for various types of materials. Discussion and practice in methods of instruction in use of such materials. Open to students in Education Department and teachers in service.

406 Storytelling  2 hrs.  Fall, Summer
Underlying principles of the art of storytelling: techniques; content and sources of materials. Practice in telling stories before groups of children is provided. Planning the story-hour program for various ages as a means of developing appreciation of literature and stimulating an interest in reading.

411 Reference Service*  2 hrs.  Fall
Study and evaluation of basic reference and bibliographic sources in the various subject fields. Critical examination of the publications of governmental agencies, societies and institutions especially as reference sources in relation to the curriculum. Attention given to organization and methods of reference services.
470 Introduction to Classification and Cataloging* 4 hrs. Fall
Introduction to the principles of cataloging and classifying the book collection. Includes study and practice in making the dictionary catalog and in classifying according to the Dewey Decimal Classification scheme. Students are taught to use the unit card system and are given practice in assigning subject headings, in adapting Library of Congress and Wilson printed catalog cards, and in cataloging non-book materials.
DIVISION OF VOCATIONAL
AND PRACTICAL ARTS EDUCATION

George Kohrman, Director

The Division includes the Departments of Business Studies, Home Economics, Industrial Arts, and Vocational-Industrial and Technical Education. The heads of the departments and the departmental counselors will advise students relative to requirements for majors or minors in these departments and concerning any special requirements set up by the departments. In certain cases, where adjustments need to be made, or where a group major or minor is possible and advisable, the director of the Division should be consulted.

Western Michigan College has been designated by the State Department of Public Instruction as an approved institution for the training of vocational teachers in the fields of distributive education, home economics, and vocational-industrial education. Graduate as well as undergraduate courses are available in these fields.

Courses designated by numbers 400-499 inclusive which are described in the following pages may be taken by upperclassmen or graduate students.

The following divisional course is approved for vocational credit and available for graduate students and upperclassmen:

470 Principles of Practical Arts and Vocational Education 2 hrs. Fall

The place and function of the practical arts and vocational education in the modern school; fundamental principles upon which this work is based. For teachers of agriculture, business, home economics, industrial subjects, and administrators.

BUSINESS STUDIES

Arnold E. Schneider, Head
Agnes E. Anderson
William L. Burdick
George K. Cooper
Wendall Fidler
John B. Healey
Edna Kirby

George Kirby
Lester Lindquist
Ralph W. Matthews
Helen Mattson
John H. McBeth
Leo Niemi
Thomas W. Null

Russell Powell
Richard E. Emberton
Roseann Schneider
Emil Sokolowski
James L. Stewart, Jr.
Robert B. Trader
Adrian Trimpe
Robert B. Wetnight

The Department of Business Studies offers three main programs:
1. Business Administration, Bachelor of Business Administration Degree.
2. Business Teacher Training, B.S. or B.A. Degree with a State Secondary Provisional Certificate.
3. Two-Year Curriculum leading to a certificate:
   a. Cooperative program in secretarial training.
   b. Cooperative program in retailing.
c. Technical business program with specialization in Clerical Accounting, General Business, Secretarial Training, Salesmanship, General Clerical, and Small Business Management.

ACCOUNTING

210A Accounting 3 hrs. Fall, Spring
This course deals with the elementary principles of accounting and considers the more common technical devices for recording business transactions according to those principles. Prerequisite: Sophomore standing or consent of instructor. Accounting majors should start 210A as freshman if possible.

210B Accounting 3 hrs. Fall, Spring
A continuation of course 210A, applying the principles developed in the preceding course to partnerships and corporations. Manufacturing accounts and statements, reserves and funds, the voucher system, and the analysis and interpretation of simple financial statements are studied. Prerequisite: 210A.

211A Secretarial Accounting 3 hrs. Fall
In this course the basic principles of accounting are presented from the viewpoint of the secretary. The accounts of private individuals, professional men, institutions, and small business firms of various types are studied.

211B Secretarial Accounting 3 hrs. Spring
A continuation of course 211A in which practical applications will be applied in a large number of work situations. Prerequisite: 211A.

215 Pay Roll and Social Security Accounting 2 hrs. Spring
A study of the accounting records and procedures used in meeting the requirements of the social security laws, procedure of pay roll accounting for federal withholding tax laws, and state unemployment insurance.

310A Intermediate Accounting 3 hrs. Fall
A study of evaluation of current assets; investments; depreciation, appraisal, and depletion of fixed assets; current, contingent, and fixed liabilities; capital stock; surplus and reserves. Prerequisite: 210A, B.

310B Intermediate Accounting 3 hrs. Spring
A continuation of Accounting 310A, including the following topics: partnerships, consignments, installment sales, mergers, holding companies, receiverships, estates, and trusts. Prerequisite: 310A.

313 Auditing 3 hrs. Fall
The theory and practice of making audits of business enterprises. Prerequisite: Senior standing, accounting major.
314 Accounting Theory and Problems 3 hrs. Spring
Theoretical consideration of accounting problems. Nature and analysis of the type of problems that are to be found in C.P.A. examinations. Prerequisite: Senior standing, accounting major.

316A Industrial Cost Accounting 2 hrs. Spring
Expressly designed for the training of industrial supervisors in Accounting Principles, Cost Accounting, and the managerial use of accounting data. Not for students who have completed 210A.

316B Industrial Cost Accounting 2 hrs. Spring
A continuation of 316A. Prerequisite: 316A.

410A Advanced Accounting 3 hrs. Fall
Designed specifically for the study of the balance sheet accounts. Prerequisite: 210 A, B.

410B Advanced Accounting 3 hrs. Spring
A study of accounts for special sales, consolidations, and miscellaneous accounting matters.

411 Cost Accounting 3 hrs. Spring
The relation of cost accounting to management for control; general principles involved in constructing a cost system; distribution of cost-materials, labor, and burden; cost records; operating reports; joint and by-product costs and budgetary control. Prerequisite: 310A or consent of instructor.

412 Income Tax Accounting 3 hrs. Fall
A study of the federal income tax laws, as they apply to individuals, partnerships, and corporations. Prerequisite: 310A, or consent of instructor.

GENERAL BUSINESS

135A Industrial and Business World 2 hrs. Fall, Spring
This is an introductory course which, through a very broad approach, attempts to acquaint the student with existing principles and problems of business and industry. Such topics as types of American businesses, current business problems, current business trends, long-term financing, short-term financing, insurance, physical location and lay-out, production problems are included.

135B Industrial and Business World 2 hrs. Fall, Spring
This is a continuation of course 135A, covering such areas as personnel selection and training, wages, labor problems, marketing functions and problems, management problems and procedures, government and business. Prerequisite: 135A.

230 Survey of Office Machines 2 hrs. Fall, Spring
A survey of operating principles and fundamentals and applied usages of the business machines commonly found in industry and business.
232 Business Correspondence 3 hrs. Fall, Spring

Provision is made in this course for an analysis of and practice in writing various types of business letters and reports. A study is made of the principles of effective expression in all letters of business correspondence.

235 Business Statistics 3 hrs. Fall, Spring

An introduction to basic applied business statistics. A study of various statistical and financial ratios as guides to efficient business management and the interpretation of financial data.

320A Business Law 3 hrs. Fall, Spring

A study of basic principles applicable to business including legal rights and remedies, contracts, agency, and employer and employee relations.

320B Business Law 3 hrs. Fall, Spring

Continuation of Business Law 320A with emphasis on negotiable instruments, sales, and property.

350 Real Estate Fundamentals 3 hrs. Spring

A survey of the principles of real estate as they affect personal and business operations. Real estate as an occupational field, value, land use, and related topics.

360 Current Business Trends 3 hrs. Fall

A study of sources and information which aid in the description, analysis, and prediction of current business trends.

INSURANCE

322 Insurance Principles 3 hrs. Fall, Spring

A basic course covering all phases of insurance. The consumer approach is used, designed to acquaint the non-specialist with the economic and social services of the institution of insurance. It also provides the necessary background for the person planning to take advanced work in the field of insurance.

324 Property Insurance 3 hrs. Fall

Deals with Fire Insurance and Allied Lines, Automobile, Ocean Marine, and Inland Marine Insurance. The important phases of the fields which are covered are contract provisions, loss, adjustment, ratemaking, regulation, carriers, and legal concepts. Prerequisite: 322.

325 Disability, Group and Social Insurance 3 hrs. Fall

Considers the economic, social and technical aspects of the fields of Group Life Insurance and other Group insurance contracts; Industrial Life Insurance; Old Age and Survivors Insurance; and Unemployment Compensation. Prerequisite: 322.
326 Casualty Insurance and Suretyship 3 hrs. Spring
Deals with the legal concepts, rate making, regulations, loss adjustment, and contract provisions in the Workmen's Compensation, Liability, Theft, and Accident and Health fields. The course also touches briefly the fields of Surety and Fidelity Bonding. Prerequisite: 322.

423 Life Insurance 3 hrs. Spring
Covers the economic, social, and more important technical aspects of life insurance. Important phases of Business Life Insurance are also considered. Prerequisite: 322.

MANAGEMENT

237 Small Business Management 3 hrs. Fall, Spring
A study of the fundamental principles involved in the operation of a small business enterprise. The structure, functions, and basic operating principles will be discussed and developed.

239 Office Organization 3 hrs. Spring
Personnel policies and how they affect office workers; handling and procurement of office equipment and supplies; charting of paperwork flow and methods of paperwork simplification. Professionalization of office work and role of supervisory worker. Designed for those entering professional secretarial work.

339 Management Problems 3 hrs. Fall, Spring
An opportunity to approach business from the case-study method by working solutions to actual management problems.

343 Industrial Organization and Management 3 hrs. Fall
Basic organization of industrial line and staff functions and their relation to each other in the production process.

344 Industrial Management Problems 3 hrs. Spring
Case studies of advanced industrial management problems. Industrial Management majors will take this in lieu of Management Problems 339 as offered.

348 Purchasing Principles and Practices 3 hrs. Spring
Organization and operation of the purchasing department, basic materials, substitutes, imitations, sources of supply, catalogs, terms, discounts, and relations with salesmen.

433 Management Report Writing 2 hrs. Fall, Spring
A study of the techniques in and applications of management reports and management-report writing. Actual management reports in the various fields will be studied. The development and practice of technical report writing will be stressed.
436 Personnel Administration 3 hrs. Fall, Spring
The personnel office in modern business and industry. The duties and work of the personnel staff, personnel office, records and reports, interviewing, counseling, adjustment of complaints, job analysis, job classification, in-service training, and upgrading of employees. Prerequisite or concurrent: Psychology of Personality 207.

439 Office Management 3 hrs. Spring
Areas of office services from the managerial viewpoint. A brief overview of the problems of organizing, constructing, installing, and maintaining office systems.

**MARKETING**

222 Marketing 3 hrs. Spring
An analysis of the eight Marketing functions as they apply to our distribution of physical goods and the transfer of title to those goods. Some attention is given to the principles, methods, and the increasing problems of successful marketing. There will be recognition of the general criticisms of the existing marketing structure and proposals for improvement. Credit for this course may be given either in the Economics Department or the Business Studies Department. Prerequisites: 220A, B, which may be taken either before or in conjunction with this course.

340 Salesmanship 3 hrs. Fall
An introduction to the principles of selling as a career and a profession. A detailed study of the principles of selling along with an analysis of customer reactions in the various fields of selling are studied.

341 Sales Management 3 hrs. Spring
The development of sales staff. The promotion of local, state, and national sales programs. The development of various types of sales promotions and campaigns.

342 Advertising 3 hrs. Spring
An analysis of the principles and practices used in various types of advertising such as newspaper, radio, and direct mail advertising. Attention is devoted to preparing copy and analyzing current advertising practices.

345 Credit Management 3 hrs. Fall
An introduction to the principles of credit, credit control, and credit management from the viewpoint of manufacturing, wholesale and retail firms. Effective use of credit as a financial and sales device and certain definite aspects of credit such as policies and procedures, collection and legal aspects are studied.

347 Problems in Marketing 3 hrs. Spring
A study of current marketing problems utilizing the case method of study. The analysis of current periodicals dealing with marketing problems
will also be covered in detail. Will provide the student with a practical approach to our dynamic marketing structure and the problems faced in this area. Prerequisite: 222.

440 Advanced Salesmanship

3 hrs. Fall
Background of basic principles and analysis of selling techniques applied principally to specialty fields.

442 Advanced Advertising

3 hrs. Spring
Special concentration on media, copy and layout. Study and projects on radio, television, newspapers and magazines.

447 Marketing and Market Research

3 hrs. Spring
Designed to give business students experience in using maps, map analysis, and other geographic techniques in presenting market data, evaluating market potential, delineating trading and selling territories, and selecting locations for wholesale, retail, and service establishments. Prerequisites: 222, Junior or Senior status, or approval of instructor.

RETAILING

100 Coordinated Business Experience

2 hrs. Fall, Spring
Limited to second-semester students enrolled in Retailing Curriculum. The requirement for credit will be (1) one semester of approved work experience, (2) a report from the employer, and (3) a term report by the student.

111 Retail Merchandise Mathematics

3 hrs. Spring
An introduction to the mathematics of merchandising. Mark-up, mark-down, discounts, terms, turn-over, ratios, methods of inventory, and specific problems are studied.

141 Selling Fashion Merchandise

3 hrs. Spring
A specialized course in the application of salesmanship to fashion merchandise. A study of color and design, fashion history, fashion functions, influences of changes, and the world’s key designers and fashion centers.

142 Color and Design in Retailing

3 hrs. Spring
Analysis and evaluation of color and design in merchandise. Research, psychology, theory, harmony, and selection of color are emphasized.

150 Retail Salesmanship

3 hrs. Fall
This course analyzes successful retail selling. Actual sales demonstrations made by experts in the field are an integral part of the course. The various steps in a sale are studied along with their accompanying customer reactions.

151A Merchandise Information—Non-Textiles

2 hrs. Fall
An organized study of non-textile merchandise especially aimed at correlating retail experience with classroom work. Merchandise manuals are studied and developed.
151B Merchandise Information—Textiles 2 hrs. Spring
A study of fabrics and textile merchandise. The course includes identification and analysis, sources of fibers, processes of creating and finishing cloth, and the fabric suitability and salability as related to specific merchandise.

200A Coordinated Business Experience 2 hrs. Fall
Limited to second-year students who are currently enrolled in Store Organization 251. Credit will be granted upon completion of (1) One semester of approved work experience, (2) a report from the employer, and (3) a term paper by the student.

200B Coordinated Business Experience 2 hrs. Spring
Continuation of 200A open to students currently enrolled in Retail Personnel Management 252.

224 Interior and Window Display 3 hrs. Fall
A studio course for art and cooperative retailing students. Window and store display art is studied with emphasis upon color, design, and lettering as related to displays. Attention is given to sources for display materials and services.

240 Retail Advertising 2 hrs. Fall
Newspaper, radio, direct-mail advertising; display plans and techniques of sales promotion; the publicity calendar and budget.

241 Retail Credit and Collections 3 hrs. Spring
A practical and detailed study of the meaning and importance of credit. The areas of study in this course are: Extent of Retail Credit; Sources of Credit Information; Legal Aspects, Policies and Procedures; Collection Problems.

242 Selling Home Furnishings 2 hrs. Spring
A study of period styles, materials, construction, and arrangement of furniture as a selling factor. The proper use of accessories, such as lamps, wall decorations, plastics, etc., is emphasized.

243 Retail Buying Techniques 2 hrs. Spring
This course deals with the work of the store buyer. Where, how and when to buy. Terms, prices, invoices, legal aspects, and other arrangements with vendors are all studied.

251 Store Organization 2 hrs. Fall
A study of the basic principles and accepted practices of successful store organization, operation, and management. An opportunity is given to each student to make a study of some particular phase of retailing.

252 Retail Personnel Management 2 hrs. Spring
Problems of selection and placement of employees, employee induction and training, personnel ratings, records needed in personnel offices, labor relations, sources of labor supply, wage plans, and personnel budgeting.
SECRETARIAL

100A Shorthand 3 hrs. Fall, Spring
A study of the theory and principles of Gregg shorthand. Typewriting 101A or its equivalent is a requirement for course credit.

100B Shorthand 3 hrs. Fall, Spring
A continuation of 100A. Dictation is given at various rates of speed. Typewriting 101B or its equivalent is a requirement for course credit. Prerequisite: 100A and 101A.

101A Elementary Typewriting 2 hrs. Fall, Spring
The mastery of the keyboard and the proper techniques of typewriting are developed in this course. Open to students with less than one year of high school typewriting credit.

101B Intermediate Typewriting 2 hrs. Fall, Spring
Special stress is placed upon perfecting the techniques necessary for accuracy and speed in typewriting. A writing rate of 40 words net per minute is required for passing. Prerequisite: 101A or its high school equivalent.

103 Records Management 2 hrs. Fall, Spring
A study of the indexing and filing rules and all types of filing methods and card systems.

130A Secretarial Science 5 hrs. Fall, Spring
Designed for the development of occupational efficiency of a secretary. Special emphasis is given to the building of accuracy and speed for office transcription. Prerequisite: 100B and 101B or its high school equivalent.

130B Secretarial Science 5 hrs. Fall, Spring
A continuation of the development of speed and accuracy in shorthand, typewriting, and transcription. Prerequisite: 130A.

200A Coordinated Business Experience 2 hrs. Fall
This is a work-experience course limited to those students who are currently enrolled in the cooperative office-training program and are currently enrolled in 130A.

200B Coordinated Business Experience 2 hrs. Spring
A continuation of course 200A open to students currently enrolled in 130B.

230A Office Machines 2 hrs. Fall, Spring
This course provides the student with the operating knowledge of office machines that are commonly used in the modern business office.

230B Office Machines 2 hrs. Fall, Spring
A continuation of 230A. This course is intended primarily for the student preparing for the various office occupations.
METHODS IN BUSINESS EDUCATION

346 Teaching of Business Subjects 2 hrs. Spring
Teaching techniques for social, vocational, and personal use in secondary school business courses. It is recommended that this course either precede or accompany directed teaching in this area.

HOME ECONOMICS

Eunice E. Herald, Head Gladys Rowe Betty Taylor
Rachel Acree Opal Stamm Reva Volle

Western Michigan College prepares students to qualify as teachers of Vocational Home Economics in Michigan under the provisions of the state and federal acts on vocational education. Courses are planned in the department for a major or a minor in home economics. Plans are also made for meeting the requirements for a vocational certificate in Michigan. Only persons holding this certificate can teach in the vocational home economics departments.

The major consists of 24 or more hours. To be eligible for the advanced foods courses, it will be necessary for the student to have had Foods 111 and Chemistry 105A, B. To be eligible for the advanced courses in clothing, it will be necessary for the student to have taken Clothing 205. A student who has a major in home economics and meets the requirements of the Department of Education for a certificate may teach home economics only in the non-vocational home economics departments of Michigan. Required courses for a vocational certificate are listed under Home Economics Curriculum.

The minor consists of 15 or more hours. At least one course in foods, one course in clothing, and either 325, 145, or 142 are required. Students in elementary or rural education may want to take 400.

The Department offers four-year programs for dietitians, homemakers, teachers and business persons and a two-year program in Homemaking.

The following courses are open to students not majoring or minoring in home economics: Home Economics 103, 118, 120, 142, 145, 203, 209, 221, 222, 223, 224, 322, 325, 400, 421, and 439. Students may enter other courses if pre-requisites are met.

CLOTHING AND TEXTILES

103 Textiles 3 hrs. Fall, Spring
A basic course. Textiles is taught from the consumer point of view. Some testing of fabrics is required.

105 Elementary Design 2 or 3 hrs. Fall, Spring
A fundamental course in art, developing design and color theory through problems of various media.
203 Clothing 2 hrs. Fall, Spring
Gives experience in using commercial patterns and learning elementary construction techniques. Elective non-majors.

205 Clothing 3 hrs. Fall, Spring
Consists of making garments to develop a knowledge of construction techniques. Includes problems in pattern alteration. Prerequisite: 103.

209 Costume Design 2 hrs. Fall
This course is intended to develop more discriminating judgment in the selection of appropriate clothes for individuals. Prerequisite: 105.

303 Advanced Textiles 2 hrs.
The study of the composition, construction, finishing, and care of textiles. Prerequisite: One clothing course.

304 Tailoring 3 hrs. Spring
This course is planned to give experience in tailoring techniques, with emphasis on the making of coats and suits. Prerequisite: 205 or consent of instructor.

305 Family Clothing 2 hrs. Fall
Course is flexible in content to meet the needs of advanced students and those planning to teach. Includes study of clothing budgeting, alteration of garments and construction of a child's garment. Prerequisites: 205, 209.

306 Clothing 2 hrs. Fall, Spring
Master pattern is draped in muslin on a dress form padded to the size of the individual. Experience is given in drafting a sleeve and flat pattern making. Study is made of principles and techniques of fitting. Prerequisites: 205, 209.

FOODS AND NUTRITION

111 Foods 3 hrs. Fall, Spring
Gives a knowledge of basic principles underlying preparation of food. Laboratory experience in the preparation of all classes of food. Prerequisite or concurrent: Chemistry 105A, B.

118 Family Foods 2 hrs. Fall, Spring
Emphasis on foods purchasing, menu planning, preparation and service of meals for the family. An elementary course for non-majors.

211 Nutrition 3 hrs. Fall
A study of the essential nutrients and their function in the human body. Prerequisite: Chemistry 105A, B, and 111.

219 Nutrition 2 hrs. Fall
Principles of good nutrition for the individual, family groups, and community. Laboratory experience is given in the basic principles of cooking. For first semester nurses.
222 Everyday Nutrition 2 hrs. Fall, Spring
   This course includes problems related to signs of good and poor nutrition, for growing children and adults. A course for non-majors.

311 Meal Planning and Food Preservation 2 hrs. Spring
   Marketing, meal preparation and table service. Emphasis on food preservation.

312 Quantity Foods 2 or 3 hrs. Spring
   Quantity food preparation in a college residence hall kitchen and the school lunchroom at the high school on the campus. Prerequisites: 111, 311.

317 Diet and Disease 2 hrs. Spring
   Study of dietetic treatment of impaired digestive and metabolic condition. Planning of diets and reports of current research. Prerequisites: Organic Chemistry 306A, Physiology 211B.

318 Food Demonstration 2 hrs. Fall
   Principles and techniques are acquired through observation and participation of students in food preparation. Especially helpful for students who plan to teach or enter the commercial field. Prerequisite: 311.

416 Advanced Nutrition 3 hrs. Fall
   Study of recent developments in nutrition through readings and experiments. Prerequisite: 211.

419 Experimental Foods 2 hrs. Spring

423 Institutional Management 3 hrs.
   Study of institutional administration, job analysis, labor policies, personal problems, and cost control in different types of food-service institutions. Prerequisites: 311, 312. Not offered 1956-57.

425 Food Technology 2 hrs. Spring
   Food preparation with special emphasis on individual problems related to school food teaching units. Study of commercial food preparation. Prerequisites: 311.

439 Consumer Buying 2 hrs. Fall
   Study of marketing problems and consumer credit. Students work on individual problems which concern the techniques of buying a specific type of consumer goods. Prerequisite: Consent of instructor.

HOME MANAGEMENT, CHILD DEVELOPMENT AND FAMILY RELATIONSHIPS

120 Personal and Social Problems 1 hr. Fall, Spring
   Social usage and personality development are considered. Elective non-majors by Freshmen and Sophomores.
112 Consumer Problems 3 hrs. Spring
Analysis is made of consumer problems pertaining to buying specific types of commodities such as food, clothing, shelter, equipment and furnishings for the home, health, and recreation. Some consideration of agencies and laws affecting consumers considered. Non-major elective.

145 Effective Living 2 hrs. Fall, Spring
An orientation course required of all freshmen in home economics. Personal problems in adjustment studied. Planning for marriage and the home of the future included. Freshmen in other departments welcome.

221 Home Furnishings 2 hrs. Fall, Spring
Room arrangement, furniture, and furnishings are studied. Models of room arrangement are made. Prerequisite: An art course.

223 Home Nursing 2 hrs. Fall, Spring
The health of the family and simple procedures for the care of patients in the home are stressed. Consideration is given to community resources for the protection and care of health problems relating to home and school.

224 Personality Development 3 hrs. Spring
This course is designed for students in the Airline Hostess Curriculum. Problems will be adapted to the needs and interests of these students.

251 Human Growth and Development 3 hrs. Spring
This course involves study of the physical, social, emotional, and intellectual growth and development of children and adolescents.

322 Home Management 2 hrs. Fall
The study of the use of time, energy, money, and resources to achieve family goals. Prerequisite: A course in economics.

324 Home Management Practice 3 hrs. Fall, Spring
Students live in family size groups. They learn to manage on two economic levels. Prerequisite: 322.

325 Marriage and Family Relationship 2 hrs. Fall, Spring
A study of the contributions and problems of the family in modern society. Preparation for marriage, including consideration of marital and personality adjustments in family living. Prerequisite: Psychology 200 or Sociology 241.

421 The Homemaking Center and Equipment 2 hrs. Spring
Consideration of fundamentals in planning living space in terms of the family's need with especial emphasis on built-ins and furnishings, fabric and color will be studied. Selected problems to be chosen by the individual. Prerequisite: 221 or consent of instructor,
HOME ECONOMICS EDUCATION

300A Special Methods 2 hrs. Fall
Course designed to acquaint students with the teaching field in home economics. Includes basic philosophy of home economics education, observations, unit planning, effective teaching materials as a basis for special methods and student teaching.

300B Special Methods 3 hrs. Spring
Planning local programs of homemaking education in high school equipment and the organization of homemaking department, developing the home experience program, and methods of teaching for junior and senior high schools and adult homemaking classes. Prerequisite: 300A.

400 Family Living in the Schools 2 hrs. Spring
Problems of organizing materials in Family Living for the purpose of teaching classes and working with groups in the school program. Prerequisite: Soc. 241.

INDUSTRIAL ARTS

Industial Arts Courses
The Department offers shop and professional courses for teachers and supervisors of industrial arts.

A student who plans to qualify as an industrial arts teacher in both the general and unit shops must take a minimum of 40 hours of technical work. All students will be required to take the following courses: Woods 100 and 305A, Metals 130, and Machine Shop 234A, Printing 140, Drawing 120 and 226, Electricity 150 and 350, Introduction to Industrial Arts 160, Industrial Design 266, and three professional courses in Industrial Arts during the junior and senior years.

A group minor consists of the following courses: 100, 305A, 120, 226, 130, 234A, 150, 350, plus the professional course Teaching of Industrial Arts. A student may also take a 15 hour minor in any course sequence such as woods, metals, drawing, or printing plus the professional course Teaching of Industrial Arts.

WOODWORK

100 Woods 2 hrs. Fall, Spring
A survey in the field of woodwork. It provides experience in the care, purchasing, and use of hand woodworking tools. Related information about production and consumption of wood products will be covered. In addition canning, wood classification and elementary wood finishing will be covered.
104 Rural Practical Arts 2 hrs. Fall, Spring

A special course in general shop with emphasis on woodworking activities designed for prospective rural school teachers. This course is limited to students enrolled in the rural education department.

106 Advanced Hand Woodworking 3 hrs. Fall

This course gives students the practice in advanced hand bench processes and in wood turning. The course will include the care and use of tools, grinding and sharpening, finishing, and turning techniques. Prerequisite: 100.

305A Machine Woodwork 3 hrs. Fall, Spring

An introductory course on the use of machine woodworking equipment. The student will receive experience in setting-up, operating, and caring for the more commonly used machines such as circular saw, jointer, shaper, planer, etc. Parts for selected projects will be machined. Prerequisite: 100.

305B General Woodwork 3 hrs. Spring

This course provides experience in several areas of woodwork: namely, wood turning, caning, upholstery, inlaying, wood carving, and pattern making. Prerequisite: 100 and 205A.

307 Finishing 3 hrs. Spring

A course in the plans and methods in modern wood finishing. All types of finishing will be studied. Related information on color theory, mixing, and the application of finishes to various surfaces will be included.

308 O.T. Special Education Shop 3 hrs. Fall, Spring

A basic course in shop fundamentals, including the use of hand tools, construction design, fastening devices, and finishing. This course is limited to students enrolled in occupational therapy.

407 Furniture Construction 3 hrs. Spring

A course covering the design and construction of fine furniture. Each student will be required to design and carry to completion a finished piece of furniture.

DRAWING

120 Drawing 2 hrs. Fall, Spring

A survey course in the field of general drafting. The student will have an opportunity to explore all types of drawing, including machine, free hand, architectural, and others.

121 Drawing 2 hrs. Fall, Spring

A beginning course in the fundamentals of drafting for students in pre-professional and general degree courses.
221 Mechanical Drawing  
3 hrs. Fall, Spring
Special attention is given to orthographic projection, detailing assemblies, and other fundamentals of drafting. This course is the equivalent of Drawing I of the School of Engineering, University of Michigan, and satisfies the requirements of engineering students.

222 Descriptive Geometry  
3 hrs. Fall, Spring
Instruction and exercises are given in combinations of the point, line, and plane, intersections, developments, tangent planes, and warped surfaces. This course is the equivalent of Drawing II of the School of Engineering, University of Michigan. Not offered in summer.

226 Mechanical Drawing  
3 hrs. Spring
A continuation of principles emphasized in Drawing 120. Basic elements of machine design are studied together with project drawing and illustration. Emphasis is placed on modern drafting room practice including reproduction of tracings and intermediates. Prerequisite: 120 or equivalent.

227 Mechanical Drawing  
2 hrs. Fall, Spring
More advanced problems in mechanical drawing, detailing, design, theory application, ranging from simple geometrical problems through surface development, cams, gears, and some architectural drawing. Special emphasis on review of the fundamentals of drawing and discussion problems.

325A Architecture  
2 hrs. Fall, Spring

325B Architecture  
2 hrs. Fall, Spring
Plans, elevations, details, mechanical perspective, rendering, tracing, and prints of a modern house. Emphasis placed on styles of architecture and architectural appreciation.

**METAL WORK**

130 Metals  
3 hrs. Fall, Spring
Hand tool processes on the fabrication of metal projects suitable for construction by junior high school students in the areas of bench metal, forging, sheet metal, and art metal.

234A Machine Shop  
3 hrs. Fall, Spring
A course in the fundamentals of machine tool operation, involving turning, milling, shaping, and grinding practices in machining parts of selected projects to be assembled at the bench.

234B Machine Shop  
3 hrs. Fall, Spring
Advanced practice in the operation of machine tools in finishing machine parts, making of jigs and fixtures for producing duplicate parts, tempering and heat treatment of steel.
235 Sheetmetal 2 hrs. Fall
An introduction to the application of hand and machine processes. Cutting, forming, seaming, burring, crimping, notching, and wiring as applied to the making of sheetmetal projects.

236 Metal Fabrication 2 hrs. Spring
A course in gas and arc welding for beginners. Safety precaution, care and operation of welding equipment, selection of welding rod, methods of welding will be stressed.

338 Advanced Metals 3 hrs. Spring
Hand tool and machine processes in fabricating projects that provide a variety of metal working experiences suited to junior and senior high school industrial arts classes. Includes foundry practice, metal spinning, electroplating, and welding processes.

PRINTING AND GRAPHIC ARTS

140A Survey of Graphic Arts 2 hrs. Fall, Spring
An introductory course in the field of graphic arts in which the student will have an opportunity to become familiar with the large area of graphic arts. Work is undertaken in hand composition, presswork, bindery, block cutting, mimeographing, silk screen, etc.

140B Graphic Arts 2 hrs. Spring
A continuation of 140A. Additional and more advanced work is offered in the graphic arts.

141 Presswork 2 hrs. Fall, Spring
This is a beginning course in presswork, which includes simple lockup, make-ready, and feeding.

144 OT Printing 3 hrs. Fall, Spring
This course is intended to acquaint students with the various tools and equipment of the print shop, and to acquaint them with fundamentals of planning type composition. Limited to students enrolled in the Occupational Therapy department.

240A Typography I 3 hrs. Fall
Work in the arrangement and use of various type faces in typical printed jobs and in advertisements.

240B Typography II 3 hrs. Spring
A continuation of 240A with the emphasis on the more complicated kinds of composition.

241 Imposition and Lockup 2 hrs. Fall
The imposition and lockup of type forms for various kinds of presses and from the simple to large multiple page forms is studied in this course.
242 Estimating and Production Control 2 hrs.
A study of the methods used in estimating the price of printed matter and in the final pricing of that matter after production. Production control as applied to the printing business is the second phase of the course.

243 Layout and Design 3 hrs.
Students will undertake the complete layout, design, and composition of such jobs as tickets, name cards, letterheads, programs, newspaper advertisements, newspaper page layout and cover design. Principles of balance, art, color, copy-fitting, etc., as applied to such jobs will be studied.

245A Linotype Composition 3 hrs. Fall
This course deals primarily with the operation of the linotype keyboard. Straight composition is emphasized. Consult instructor before enrolling.

245B Linotype Composition 3 hrs. Spring
This course considers the problems of job, advertisement, and newspaper composition. Consult instructor before enrolling.

246A Printing Machinery Maintenance 2 hrs.
This course is designed to acquaint the student with the problems of care and maintenance of printing machinery including the linotype. Simple adjustments are made on the various machines.

246B Printing Machinery Maintenance 2 hrs.
This course gives the student practical experience in caring for machinery in actual operation.

341 Advanced Presswork 2 hrs. Fall
This course is a continuation of 241. Practical presswork and make-ready of various kinds of type forms for both cylinder and jobbers is undertaken.

345 Bindery Operations 2 hrs. Spring
Bindery and finishing operations are studied. Work in book-binding, folding machines, stitching, plastic binding, punching, perforating, etc. is taken up.

ELECTRICAL

150 Introductory Electricity 2 hrs. Fall, Spring
A survey course in the field of electricity. Special attention will be given to elementary wiring, construction of school shop electrical projects, and a general introduction into the field of electronics and electrical appliances.

350 Advanced Electricity 3 hrs. Fall, Spring
A study of the principles of electricity and their practical application. Work experiences in electric motors, transformers, heating devices and batteries are supplemented by a usable technical background. Techniques and practice of electric wiring are included. Prerequisite: Shop Mathematics.
410 Problems in Electricity
2-4 hrs.
Special problems in the technical and social phases of electricity which arise in the planning of courses, shops, and equipment for instruction in this field.

GENERAL SHOP

160 Introduction to Industrial Arts
1 hr. Fall, Spring
The purpose of this course is to provide initial experiences in the industrial arts area. This course will include individual experiences in laboratory and classroom.

164 Industrial Arts for Elementary Teachers
3 hrs. Fall, Spring
This course is planned for prospective elementary school teachers and will include a study of Industrial Arts for grades one through six. Construction techniques in the fields of woods, metals, leather, and plastics will be included. An understanding of our industrial life in our modern society will be emphasized. Special Education students may take this course for four semester hours of credit.

167 O.T. General Shop
3 hrs. Fall, Spring
A course designed exclusively for individuals training for occupational therapy. This course will cover the fundamentals of drawing, sketching, plastics, cold metals, copper work, and elementary electricity.

261A Art Metal
2 hrs. Spring
An introductory course in the study of art metal. Methods of layout, cutting, forming, and assembly will be stressed. Practical application in the form of finished projects of an artistic nature will be emphasized.

262B Jewelry
2 hrs. Spring
A beginning course dealing with the design and construction of items of jewelry and enameling.

263A Related Arts and Crafts
3 hrs. Fall, Spring
A general course in arts and crafts including work in thin metals, plastics, leather, elementary wood, and other related craft activities. Extension only.

263B Related Arts and Crafts
3 hrs. (Extension only)
Advanced work in arts and crafts including advanced art metal, plastics, and other crafts not previously included.

264A Building Construction
2 hrs. Fall
Experience in cement work, metal work, electrical work, glazing and other areas related to their application in home building. The work is to help meet the requirements for certification as a farm shop teacher.

264B Building Construction
2 hrs. Spring
A continuation of 264A, with the addition of special problems related to home building and construction,
265A Transportation 3 hrs. Fall
A survey course dealing with the design, use, and function of all types of power-driven equipment. The emphasis in this course will be placed on power mowers, outboard motors, and automobiles.

265B Transportation 3 hrs. Spring
Advanced work in automobile maintenance and servicing. Special emphasis will be given to the study of testing equipment used in auto mechanics.

266 Industrial Design 2 hrs. Fall, Spring
A study of modern industrial design and its application to industrial arts projects. Development of suitable and well designed articles for school shop practice.

267 Leather, Plastics, and Archery 2 hrs. Spring
A course for prospective Industrial Arts teachers in the major crafts of leather, plastics, and archery. Students will have an opportunity to construct projects and do activities suitable to leisure time work.

370 General Shop 3 hrs. Fall
A comprehensive course covering a variety of media used in the industrial arts field with introductory laboratory experience. This course is planned for students who will teach in a general shop organization. General shop planning, methods, and organization of the shop are included.

415 Arts and Crafts Techniques 2-4 hrs.
Advanced laboratory experiences in the fields of internal plastic carving, leather work, model work, archery, photography, and related crafts in conjunction with a study of current technical literature in these areas. Written reports will be required. Course content will be adapted to individual needs. Not offered in 1956-1957.

463 Arts and Crafts for Teachers 3 hrs. Spring
This course will cover craft techniques in the areas of art metal, jewelry, leather, plastics, wood crafts, and other related experiences. Teaching procedures, methods, and materials will be emphasized.

PROFESSIONAL COURSES IN INDUSTRIAL ARTS

347 Plan and Organization of a School Shop 2 hrs. Fall, Spring
This is a course to help teachers plan and organize the school shop. Topics concerned include physical needs of the subject, selection of activities, shop layout, purchasing equipment, establishing a supply routine, planning personnel organization, and shop management.

348 Teaching of Industrial Arts 3 hrs. Fall, Spring
This course deals with the problems in teaching industrial arts subjects, the techniques employed in the analysis of instructional units, contruc-
The principal methods of instruction used in industrial-arts subjects will be emphasized.

450 The General Shop Program 2 hrs. Spring

A review of the current philosophies concerning the place of the general shop in general education. The historical development of the general shop program will also be surveyed. Problems of organization, administration, methods, articulation, equipment and supplies will be investigated.

464 Industrial Arts for the Elementary School 2 hrs. Fall

Deals with the problems of organizing and teaching Industrial Arts for the elementary grades. Course materials, techniques, and materials in the industrial and craft areas will be stressed.

INDUSTRIAL TECHNOLOGY

J. W. Giachino, Head
Henry J. Beukema
Donald Black
Herbert E. Ellinger

Andrew C. Luff
Don W. Nantz
Robert Ring
William Schreiber

Clarence Van Deventer
William Weeks
William Wichers
Glade Wilcox

The various curriculums offered by the Vocational-Industrial and Technical Education Department serve a two-fold purpose, namely:

1. To train teachers who will be qualified to teach trade and industrial subjects.

2. To provide opportunities for students interested in preparing for a specific industrial occupation.

Some of the programs are four years in length and lead to a Bachelor of Science degree. Others are of two years' duration and lead to a certificate of occupational competency. The two-year technical programs are particularly significant since they offer unusual opportunities to youth who are not interested in acquiring a college degree. The various technical programs permit concentration in some definite industrial area to the extent that individuals will be readily employable upon completion of the course. In general, these programs provide training for such jobs as servicemen, trouble diagnosticians, industrial and plant supervisors, inspectors, laboratory technicians, estimators, testers of equipment, engineering products salesmen and quality control technicians.

A Major may be secured only upon the approval of the departmental advisor.

A Minor will consist of 16 to 20 hours depending upon the area of specialization. Acceptable sequence of courses may be arranged with the departmental advisor.
AVIATION

103 Airframes 3 hrs. Fall, Spring
A course designed to provide essential information and practical experience in repairing fabric, wood, and plastic components of aircraft, including control units. Practical work is also provided in repairing metal covered aircraft.

106 Powerplants 3 hrs. Fall, Spring
Practical experience in assembling and disassembling various types of aircraft reciprocating and jet engines, including maintenance of carburetion, lubrication, and electrical units of aircraft engines.

110 Elementary Aviation 3 hrs. Fall, Spring
An introductory course covering basic principles and terminology of various phases of aviation.

203 Airframes 3 hrs. Fall, Spring
This course deals with the repair and servicing of hydraulic units, brakes, instruments, radio, and all aircraft alteration and maintenance work as prescribed by C.A.A. requirements, including periodic inspections.

206 Powerplants 3 hrs. Fall, Spring
Overhauling, inspection, servicing, installation, and testing of various types of reciprocating and jet power plants, including propellers.

207 The Airline Hostess 2 hrs. Spring
A general orientation course to familiarize students with the duties and working conditions of the airline hostess.

210 Model Airplane Construction 2 hrs. Spring
A course planned to prepare prospective teachers to organize and conduct aviation club activities in junior and senior high schools. Actual practice is provided in designing and constructing scale and flying model airplanes.

214A Pilot Training and Flight Theory 2 hrs. Fall, Spring
This unit provides 35 to 40 hours of flight instruction and necessary ground school theory to qualify a student for a private pilot's license.

214B Pilot Training and Flight Theory 2 hrs. Fall, Spring
This unit is intended for those who already have their private and commercial pilot's license, and who wish to secure their instructor's rating. The maximum number of hours of flight instruction allowed will be 40.

214C Pilot Training and Flight Theory 2 hrs. Fall, Spring
This unit is planned for those who want a refresher course to qualify for a commercial license, or who want additional flight time beyond their private pilot's license. The maximum number of hours allowed will be 40 for one semester.
214D Pilot Training and Flight Theory 2 hrs. Fall, Spring

This unit is planned for students who wish a few hours of flight experience and are not necessarily interested in obtaining a license.

300 Aircraft Servicing 4 hrs. Summer

The primary objective of this course is to provide practical experience in routine maintenance work at an airport such as gassing, cleaning, inspecting, storing, tying down aircraft, and handling numerous other hangar details. Required for all aircraft mechanics students.

301 Navigation and Communications 2 hrs. Fall

Basic course in radio and ground communications; ground-to-plane and plane-to-ground radio. A study is made of the various radio and celestial aids for aerial navigation and flight planning.

302 Aeronautical Meteorology 3 hrs. Fall

A study of the weather elements, such as clouds, cloud formations, pressure systems, fronts, reading weather maps, teletype, and interpretation of forecasts for aerial navigation.

303 Airport Selection, Layout and Management 3 hrs. Spring

A detailed study of the selection and layout of airports, including buildings, classification of fields, CAA airport regulations, runways, lighting equipment, maintenance equipment, etc. Also included are administrative problems of the small and large airport.

304 Airline Traffic 3 hrs. Fall

Students will be given an opportunity to study the problems connected with air traffic, such as generation of traffic, handling of traffic, and air-traffic contracts.

305 Airline Operation 2 hrs. Spring

The operational phase of air transportation in which the student can study dispatching, equipment specification determination, cost finding, and similar operational problems.

419 Aviation for Classroom Teachers 2 hrs. Spring

A course dealing with the educational, social, economical, and political implications of aviation in the modern world. A study will be made of basic aviation materials and activities that are appropriate for different grade levels. Consideration will be given to aviation literature and visual aids suitable for youngsters. Opportunities will be provided for participation in a variety of aviation experiences. This course is open to elementary and secondary education students. Not offered 1956-1957.

REFRIGERATION, AIR CONDITIONING, HEATING

115A Domestic Refrigeration 3 hrs. Fall, Spring

This course covers refrigeration theory and function, types of refrigerants, and the basic laws applying. Installation techniques.
115B Commercial Refrigeration 3 hrs. Fall, Spring
This course covers refrigeration units of standard design and construction, installation, service operations, testing, and factory-recommended repair procedures.

215A Air Conditioning and Heating 3 hrs. Fall, Spring
This course offers basic training in all the elements governing conditioning of air for healthful living, air purification, humidity control, temperature control, solar radiation, filtration, and maintenance of various types of heating systems.

215B Air Conditioning and Heating 3 hrs. Fall, Spring
A continuation of course 215A, including calculations, design, layout, and installation of air conditioning and heating units.

DRAFTING

124A Elements of Industrial Drafting 3 hrs. Fall, Spring
A general course in drafting fundamentals, involving sketching, lettering, blueprint reading, instrument drawing, and conventional practices through job assignments of representative drafting-room problems.

124B Machine Drawing and Design 3 hrs. Fall, Spring
A course in the principles of machine design, detail and assembly drawing of simple machine parts and assemblies. Special emphasis is given to modern drafting-room practice.

224A Geometry of Drafting 3 hrs. Fall, Spring
A study of the relationships of points, lines, and surfaces and their applications in industrial drafting layout work.

224B Drafting for Production 3 hrs. Fall, Spring
The study of drafting for industrial production and the development of the necessary tooling for manufacturing products. The use of illustrative techniques involving drawings for catalogs, sales, and service manuals will also be covered.

MACHINE TOOLS

130A Industrial Machine Shop 3 hrs. Fall, Spring
A course in basic machine shop practice involving practical work on the following machines: lathe, milling machines, grinders, shapers, and drill presses.

130B Industrial Machine Shop 3 hrs. Fall, Spring
A course in advanced machine shop practice, including the inspection, assembly, heat treating, and tool grinding of tools and parts which are made to meet prevailing industrial standards.
230 Tool Fabrication 3 hrs. Fall, Spring
A course in the making of tools and fixtures. Special attention is given to precision layout and inspection.

260 Die Making 3 hrs. Fall, Spring
A course in making of dies for blanking, shaving, bending, forming, and embossing.

261 Production Tooling 3 hrs. Fall, Spring
A course in tooling standard and special machines for production work.

RADIO—T. V.

135A Introductory Radio 3 hrs. Fall, Spring
A basic course emphasizing the theory, operation, and servicing of radio receivers and transmitters.

135B Introductory Television 3 hrs. Fall, Spring
An introductory television course treating the basic principles of television receivers and servicing procedures.

235A Television Servicing 3 hrs. Fall, Spring
A continuation of course 135B with emphasis on advanced servicing problems in television receivers.

235B Color Television 3 hrs. Fall, Spring
A basic course in color television reception with practical work in testing and servicing color television receivers.

AUTOMOTIVE MAINTENANCE

155A Automotive Engines and Accessories 3 hrs. Fall, Spring
A study of the construction features and operation of all component parts of modern automobiles.

155B Automotive Chassis and Running Gear 3 hrs. Fall, Spring
Practical work in servicing and repairing of springs, steering gears, brakes, and drive lines with special emphasis on automatic transmissions, power steering, power brakes, and wheel alignment.

255A Automotive Analysis 3 hrs. Fall, Spring
The study of complete engine analysis and adjustment using motor analyzers, distributor testers, generator-regulator testers, and chassis dynamometer.

255B Automotive Engine Overhaul 3 hrs. Fall, Spring
Practical work in disassembly, cleaning, inspection, repair, and assembly of the complete engine with special emphasis upon overhaul equipment and processes.
380 Auto Service Management 2 hrs. Spring
A study of the principles involved in managing auto repair shops and procedures in maintaining proper customer service relations.

422 Automotive Transportation Workshop 2 hrs.
Practical experience is provided to secure an understanding of the basic elements of automotive and aircraft transportation. Instructional material will be developed for use in teaching units of transportation in junior or senior high schools. Not offered in 1956-1957.

424 Automotive Diagnosis and Correction Workshop 1 hr.
This course deals with correct usage of testing equipment for locating and correcting automotive engine malfunctions. It is designed particularly for teachers of auto mechanics. Not offered in 1956-1957.

ELECTRONICS

145 Industrial Electricity 3 hrs. Fall
This course covers the essentials of electricity as they apply to industrial machines and controls.

146 Industrial Electronics 3 hrs. Spring
A course dealing with the principles of electronics and their applications to industrial controls.

245 Electronic Controls 3 hrs. Fall
This course covers industrial electronic control of rectifiers, relays, recording and indicating devices, speed of motors and clutches, induction and dielectric heating, welding and timing circuits.

246 Electronic Circuits 3 hrs. Spring
A course involving a study of the design and maintenance of electronic circuits applicable to industrial electronics and automation.

RELATED SUBJECTS

170A Drawing 2 hrs. Fall, Spring
A basic course in drawing involving blueprint reading, schematic drawing, and sketching.

170B Drawing 2 hrs. Fall, Spring
A continuation of Drawing 170A with emphasis on instrument drawing involving lettering, dimensioning, orthographic projection, and sectional views.

174 Electricity 2 hrs. Fall, Spring
A basic course in electricity intended to familiarize students with electrical terminology, circuits, motors, and various testing equipment.
175 Basic Metal Work
2 hrs. Fall
A beginning machine-shop course involving correct usage of tools, layout, bench work, and simple lathe work.

176 Machine Shop
2 hrs. Fall, Spring
A continuation of 175 with emphasis on work involving the shaper, lathe, milling machine, grinder, and drill press.

178 Testing of Materials
3 hrs. Fall, Spring
An analysis is made of the properties of ferrous and non-ferrous materials, their methods of manufacture and their use in the fabrication of products.

211 Metal Processing
2 hrs. Fall, Spring
An introductory study of the principles and practices relating to the properties, processing and application of ferrous and non-ferrous metals, woods, cements, and plastics. The micro-structure and physical properties of materials are analyzed. The effects of heat-treating, welding, and working of materials are tested and their suitability for fabricating purposes studied. Prerequisite: Engineering Materials 210.

231 Basic Metallurgy
3 hrs. Fall, Spring
This course offers practice in heat treating and testing all standard materials used in machine, tool, and die work.

270 Tool and Die Designing
2 hrs. Spring
Layout and design of jigs, fixtures, dies, and production tools, related to the machinist and tool diemakers fields.

272 Basic Electronics
2 hrs. Spring
A course dealing with the fundamental theories and technical applications of circuits used in various standard electronic equipment.

274A Welding
2 hrs. Fall, Spring
A course involving the safe use of oxy-acetylene, arc-welding and helium-arc equipment and acquisition of essential welding skills and technical knowledge.

274B Welding
2 hrs. Fall, Spring
A continuation of 274A.

275 Sheetmetal
2 hrs. Fall, Spring
Basic sheetmetal layout, application of hand and machine processes in cutting, forming, seaming, crimping, soldering, and other operations used in the fabrication of sheetmetal products.

279 Personnel Relations
3 hrs. Fall, Spring
A basic course dealing with the principles of employee-employer relations, trade unions, workmen’s compensation, social security, and psychology of human relations.
370  Strength of Materials 3 hrs. Fall, Spring
This course deals with compression, tension, shear, torsion, and bending forces in structural members, including distribution of stress and fatigue on construction materials.

371  Thermodynamics 2 hrs. Spring
A basic course covering the practical applications of heat into mechanical work.

477  Welding for Teachers 2 hrs.
Instruction will cover oxy-acetylene, DC and AC arc, Heli-arc and Atomic Hydrogen welding. Attention will be given to organizing instructional material for setting up welding units in junior and senior high school shop classes. Not offered in 1956-1957.

INDUSTRIAL SUPERVISION

353  Fundamentals of Industrial Supervision 2 hrs. Spring
A basic course in the study of the foreman's duties, responsibilities, and employer-employee relationship in modern industrial practice.

354  Quality Control 3 hrs. Spring
A course dealing with the systems for controlling the quality of material within desired limits by means of a sampling procedure and continuing analysis of inspection results.

355  Plant Maintenance and Safety 2 hrs. Fall
A study of modern industrial maintenance and safety methods and their relationship to production and production costs.

356  Production Control 3 hrs. Spring
A study of methods of controlling and coordinating the factors of production, including materials, time and labor.

358  Motion and Time Study 3 hrs. Fall
This course deals with the analysis of motions involved in performing a job, timing the execution of operations, and determining efficient time standards.

359  Labor-Management Relations 3 hrs. Spring
A course dealing with existing relationships between government agencies, labor organizations and management. Particular emphasis will be placed on collective bargaining procedures.

360  Study of Industrial Practices 2 hrs. Summer
Students will observe and analyze actual supervisory and managerial functions in industrial and commercial establishments. Conference procedures will be used with consultants participating in exploring all facets of supervisory and managerial practices and procedures. Not offered 1956-1957.
COORDINATED INDUSTRY

150 Coordinated Industry 3 hrs. Fall, Spring
This course is limited to students who are enrolled in the Vocational-Industrial curriculum. It consists of supervised work experience in industry to enable students to meet certification requirements for a Vocational Teaching Certificate.

152 Coordinated Industry 3 hrs. Fall, Spring
Continuation of 150.

250 Coordinated Industry 3 hrs. Fall, Spring
Continuation of 152.

252 Coordinated Industry 3 hrs. Fall, Spring
Continuation of 250.

350 Coordinated Industry 3 hrs. Fall, Spring
Continuation of 252.

352 Coordinated Industry 3 hrs. Fall, Spring
Continuation of 350.

PROFESSIONAL COURSES IN VOCATIONAL-INDUSTRIAL EDUCATION

200 Introduction to Vocational Education 2 hrs. Fall
A course designed to familiarize prospective industrial education teachers with the basic philosophy of vocational education and its functions in an educational program.

452 Teaching of Vocational Industrial Education 3 hrs. Spring
This course deals with specific techniques used in teaching trade and industrial subjects. Attention will be given to various teaching problems associated with this type of education.

460 Cooperative Education in Secondary Schools 2 hrs. Spring
This course deals with the nature and purposes of cooperative education in the secondary schools. Problems and procedures involved in the organization and operation of cooperative work-study programs are discussed. Especially designed for coordinators.

472 Course Planning and Construction 2 hrs. Spring
Principles and techniques of selecting and analyzing suitable teaching activities and arranging such material into a functional instructional order. Instructional units prepared will be based on an analysis of a trade, occupation or activity. Opportunity will be provided to prepare a detailed course of study.
474  Testing and Grading in Industrial Education  2 hrs.  Fall
    A study of the technique for preparing and using correctly written and
    practical tests. Attention will be given to interpretation of test results and
    grading student achievement.

478  Exploring Industry  2 hrs.
    This course is designed primarily for elementary and secondary school
    teachers who wish to acquire a better understanding of the various types
    of industries and their relationship to our social structure. The study of
    industrial organization including management, labor, consumer products,
    and distribution of goods will be through numerous visitations and discus-
    sions with industrial representatives and other resource personnel. Not
    offered in 1956-1957.
PART IV—Miscellaneous Information

AWARDS, FELLOWSHIPS, SCHOLARSHIPS

For complete details and application blanks, please write to the registrar.

AWARDS

DEPARTMENTAL

ATHLETICS—The Athletic Board of Control Award is a medal given to an outstanding athlete who ranks high in scholarship and participation.

BIOLOGY—The Harold Cook Memorial Prize of $20 is given to a student judged most proficient by the Committee on Scholarship, in cooperation with the president of the Faculty Science Club.

CHEMISTRY—The William McCracken Award was named in honor of the first head of the Chemistry Department. It is given to a senior who, in the opinion of the chemistry staff, has shown the greatest aptitude in the field of basic chemistry.

EDUCATION—Election to Kappa Delta Pi.

FRENCH—The French Embassy gives an annual prize to the outstanding student of French in the graduating class.

HISTORY—The James O. Knauss History Award was established in honor of a distinguished scholar and teacher who was on the Western faculty for thirty years and was head of the History Department for eleven. It is awarded annually to the senior history major who has made the most outstanding record in history during his college career.

HOME ECONOMICS—An award to a freshman girl based on scholarship and leadership.

INDUSTRIAL ARTS—A plaque is given to the outstanding student in that department.

MATHEMATICS—This prize is awarded to the senior student judged by the Department of Mathematics to have exhibited the highest proficiency and promise in that field.

OCCUPATIONAL THERAPY AWARD—An annual award of $25 and a letter of commendation are given by the Alumni Association to an outstanding senior in the department who gives promise of being a superior Occupational Therapist.

PHYSICS—An annual prize of $50 is given to the senior judged most proficient throughout his college course in the field of physics. An annual prize of a Handbook of Chemistry and Physics and $10 cash is awarded to the best freshman student in physics.
AWARDS, FELLOWSHIPS, SCHOLARSHIPS

PAPER TECHNOLOGY—
Kalamazoo Valley Section, TAPPI, Senior Student Award .......... $100
Fred C. Boyce, Junior Student Award, sponsored by the Michigan
Division of the American Pulp and Paper Mill Superintendent's
Association .................................................. $200
Paper and Twine Association Sophomore Award .................. $150
Paper and Twine Association Future Salesman Award ........... $150

SCIENCE—Membership in Kappa Rho Sigma.

SPEECH—Membership in Tau Kappa Alpha.

ORGANIZATIONAL

ASSOCIATED WOMEN STUDENTS—A prize to the outstanding woman
student.

KAPPA DELTA PI—A prize to the outstanding student in academic
areas.

MEN'S UNION—A prize to the outstanding male student.

PI KAPPA RHO—A scholarship cup awarded annually by the Committee
on Scholarship to the outstanding women's organization.

TAU KAPPA EPSILON—A scholarship cup awarded annually by the
Committee on Scholarship to the outstanding men's organization.

FELLOWSHIPS

WMC GRADUATE FELLOWSHIPS—Ten graduate fellowships are
awarded each year on the campus, permitting persons to pursue fulltime
graduate study towards the master of arts degree, with specialization in
education. These fellowships carry a stipend of $750 for two semesters.
Applications should be filed by March 1 with the graduate office.

STATE COLLEGE FELLOWSHIP—A State College Fellowship with a
stipend in the amount of $800 is offered each year to a graduate of the col-
lege by the Horace Rackham School of Graduate Study at the University of
Michigan.

GRADUATE FELLOWSHIPS AND ASSISTANTSHIPS—These are
available in the leading universities for students who have a high scholar-
ship record and who show promise of success in graduate work.

GENERAL MOTORS SCHOLARSHIP

The Scholarship Committee of Western Michigan College annually selects
two recipients for the General Motors Foundation Scholarship, which is

< One of the more popular residences for women is Lavina Spindler hall, located on the
east campus. It provides housing for 192 coeds.
awarded for a period of four years. This generous award is recommended for prospective freshmen who present outstanding scholastic and extracurricular records from high school and show promise of continued success. The amount of the award is based on need which is determined by the Educational Testing Service and Western Michigan College.

SCHOLARSHIPS

STATE BOARD OF EDUCATION SCHOLARSHIPS—The Michigan State Board of Education has made available for Western Michigan College 693 tuition scholarships for high school graduates who wish to enter the teaching profession. These cover tuition and not local fees. The scholarship is awarded for two years, providing the student maintains a high scholastic average. It may be renewed for two additional years.

ALPHA BETA EPSILON SCHOLARSHIPS—Each of the 16 chapters of the sorority gives one or more scholarships each year. A student who receives a scholarship must fill the requirements set by the chapter.

ATLAS PRESS—Two scholarships, each worth $500 for the four years of college, are given by the Atlas Press Company. They are open to high school students in Michigan, matriculating in industrial arts. Application must be made before March 1 of each year.

CAMPUS STORES COMPETITIVE SCHOLARSHIPS—The campus stores of the college offer annually three scholarships on a competitive basis. The prospective freshman scoring highest on a series of tests administered each spring receives $175. The one scoring second highest receives $125. The third receives $100. Each award is renewable annually, provided the student's record continues satisfactory.

CREDIT BUREAU SCHOLARSHIP—The Kalamazoo Credit Bureau offers one scholarship of $100 to any young man or woman who has successfully completed three semesters in the retail curriculum. The fund is administered by the registrar, the manager of the Credit Bureau and the supervising coordinator of Distributive Education.

COMPETITIVE SCIENCE SCHOLARSHIPS—In connection with the annual Science Day, a prospective freshman may compete for two scholarships. One is valued at $150 per year; the other at $100 a year. The scholarships are awarded only when the students actually enroll at Western. They may be renewed annually for the second, third and fourth year, provided the student carries a major in science or mathematics and maintains a satisfactory grade average.

DURAMETALLIC SCHOLARSHIP—The Durametallic Corporation offers $250 per semester to a student who has completed two years of a technical program at the college and elects to go into the degree program in industrial supervision. Application should be made two weeks before the end of the semester.
ERNEST BURNHAM RURAL LIFE FUND—This fund was established by friends and students of the late Ernest Burnham, to commemorate the twenty-fifth anniversary of his work at Western Michigan College. Income from the fund may be used for books or scholarships in the Department of Rural Life and Education.

EXCHANGE CLUB MEMORIAL SCHOLARSHIPS—These scholarships, one for a man and one for a woman, are sponsored and administered by the Kalamazoo Exchange Club in memory of former faculty members of the Exchange Club. They are full-tuition scholarships and are limited to students from Kalamazoo County.

GILMORE BROTHERS DEPARTMENT STORE SCHOLARSHIPS—The Gilmore Brothers Department Store offers two scholarships of $140 each per year to any young man or woman of the freshman or sophomore class who is interested in the Cooperative Retailing Course. He must be a graduate of one of the high schools in Kalamazoo County and not the recipient of another scholarship.

HONORARY SCHOLARSHIPS—A limited number of these scholarships are available to deserving high school graduates. The cover tuition and a portion of school fees. Scholarships may be renewed up to three times. Applications for renewal must be made at the end of each college year.

JUDSON A. HYAMES MEMORIAL SCHOLARSHIP—The fund was established in memory of the late Judson A. Hyames of the Department of Physical Education. A scholarship amounting to one year's tuition and fees will be made annually to the student chosen by the Committee on Scholarships upon recommendation of the head of the Department of Physical Education. Only men majoring in physical education of junior or senior status are eligible.

JOHNSON FOUNDATION SCHOLARSHIP—Since September, 1953, the S. C. Johnson and Sons, Inc. of Racine, Wisconsin have presented to a senior majoring in chemistry a scholarship of $500. The actual granting of the scholarship is administered by the Chemistry Department.

KATHERINE MULRY JOHNSON SCHOLARSHIPS—These were founded in 1926 by Mrs. Johnson, for some time supervisor in the Training School and later a member of the Department of History, in honor of her mother. They are awarded annually by a committee from the Department of History to two upper class women of superior ability, who plan to become teachers of history.

LIBRARIANSHIP SCHOLARSHIPS—Ten scholarships are offered to qualified June graduates of the junior colleges of Michigan. The scholarships cover the cost of tuition and a portion of local fees. They are available to candidates who qualify for a major in librarianship. A personal interview with the head of the Department of Librarianship is required before May 20 of each year.
MUSIC SCHOLARSHIPS—Western Michigan College offers the following scholarships which are available each year: Four in voice, four in piano, four in stringed instruments, two in brass instruments and two in woodwind instruments. These scholarships, which cover the cost of the student's comprehensive tuition fee, are available only to candidates for the Bachelor of Music degree. The need for the assistance of such a scholarship must be established. These applied music scholarships are awarded on a competitive basis, the applicants performing before the Committee on Music Scholarships.

Ten scholarships in band, ten in orchestra and ten in choir are also offered. No student may hold more than one scholarship at one time. All scholarships are for one year's duration, but may be renewed upon reexamination. Applications must be made not later than April 1 each year.

NATIONAL SECRETARIES ASSOCIATION SCHOLARSHIPS—The Kalamazoo chapter offers a scholarship of $50 to a student enrolled in the two-year cooperative secretarial curriculum the second semester of each year. An additional amount of $25 is offered the student the following semester if the student maintains a high record. The award is based upon the student's record, need and an essay written to the National Secretaries Association.

OCCUPATIONAL THERAPY ALUMNI ASSOCIATION SCHOLARSHIP—A grant of $100 is given annually to a first or second semester freshman enrolled as a prospective Occupational Therapy student. The grant must be refunded to the Alumni Association if the student later changes to some other major field of study.

PAPER TECHNOLOGY SCHOLARSHIPS—
Norman Bardeen Scholarship . . . . Graduates of Vicksburg High School
Black-Clawson Company Scholarship ................................
      Sons of the company's employees and graduates of designated high schools.
Lewis H. Breufogle Scholarship .................. High school graduates.
Moore and Munger Scholarships ......... High school graduates.
Charles E. Nelson Scholarship ............ Otsego High School graduates.
Paper and Twine Association Scholarships .... High school graduates.
William Slavin ............................... High school graduates.

ROBERT GRANER MEMORIAL SCHOLARSHIP—The scholarship was established by Mrs. Mary A. Graner of Bangor, Michigan, in the principal sum of $500, as a memorial to her son, Lieut. Robert Emmert Graner, who lost his life in the service of his country, May 19, 1945. Grants from this fund may be made to worthy students, with first consideration given to students in the aviation program.

STUDENT COUNCIL SCHOLARSHIPS—Scholarships are available to all students enrolled in a full-time course of study, beginning with the second semester of the freshman year. The amount of the grant is determined by the need of the recipient but may not exceed $200.
STUDENT LOAN AND MEMORIAL FUNDS

Please address requests for information to the Comptroller. All funds are administered by the Committee on Student Loans.

AMELIA BISCOMB MEMORIAL LOAN FUND—Established in 1939 through the will of Mrs. Biscomb, for over 30 years a teacher of English in Western Michigan College, who provided the sum of $500 for this purpose.

DWIGHT B. WALDO MEMORIAL FUND—Initiated by a group of faculty members at the time of Dr. Waldo’s death in 1939. Loans from the fund are available to any worthy student.

FANNIE BALLOU MEMORIAL FUND—Established in 1921 in honor of Fannie Ballou, who was for seven years supervisor of the second grade of the Training School. Loans are awarded to persons of superior ability in the field of elementary education. Preference is given to students in early elementary education who have completed at least one year of resident work in this college.

FRENCH STUDENT LOAN FUND—The fund was started in 1944 by Miss Marion Tamin in tribute to the students of French who have made the supreme sacrifice on the battlefields of the world, insuring thus the liberation of France.

GRAND RAPIDS PANHELLENIC SOCIETY LOAN FUND—The Grand Rapids Panhellenic Society has established a permanent Student Loan Fund for emergency or long term loans available to deserving women students to continue their education. It is preferred that this fund be loaned to sorority members but if they have no use for it, it can be loaned to any needy woman student.

HELEN STATLER FUND—Established in 1944 by Mrs. Frederic C. Fischer and Frederick C. Statler in honor of their mother and is available to any worthy student.

KALAMAZOO VALLEY SECTION, TAPPI, ROTATING LOAN FUND—For students of paper technology. This fund amounts to $1,500. Loans are available to students upon recommendation of the head of the department of paper technology. There is no charge for interest while the student is enrolled at Western Michigan College.

LEROY H. HARVEY MEMORIAL LOAN FUND—Established in 1925 by the student Science Club to honor the memory of Dr. LeRoy H. Harvey, who until his death was the head of the Department of Biology. Loans are made to students whose major interest is in the field of science.

OCCUPATIONAL THERAPY FUND—Loans and grants have been provided by the Kellogg and Kalamazoo Foundations for the use of Occupational Therapy students. Loans up to $300 are available to these students at any time after the successful completion of their first year at Western Michigan College. The purpose of the fund is to help defray the cost of clinical
training when necessary. They are available only to those who have completed their first year in Occupational Therapy which is their second year in college.

SIGMA TAU GAMMA MEMORIAL LOAN FUND—Chi Chapter of Sigma Tau Gamma fraternity established this memorial loan fund to perpetuate the memory of Ode Custer, Elmer Stillwell, Harry Karnemont, Robert Fletcher and Robert Harvey who made the supreme sacrifice in World War II. Loans from this fund may be obtained by any male upper-classman with a point-hour ratio of at least 1.5. The loans are non-interest bearing.

SOPHIA REED-MARY MOORE HOME ECONOMICS LOAN FUND—The Home Economics Club of Western Michigan College set up the loan fund in 1953 in honor of Miss Sophia Reed and Miss Mary Moore who served on the home economics faculty for many years. The maximum amount per applicant will be $50. This is a non-interest loan to be paid back within a year of the recipient's graduation date. Recommendations are made by the staff of the Home Economics Department.

STATE D.A.R. SCHOLARSHIP LOAN FUND—Founded in 1934, has grown to a fund of $500 through gifts made by the State Committee of the Daughters of the American Revolution.

STONE D.A.R. STUDENT LOAN FUND—Established in 1932 through gifts from the Lucinda Hinsdale Stone Chapter of the Daughters of the American Revolution.

W.M.C. STUDENT LOAN FUND—In September, 1912, the nucleus of a student loan fund was established by the gift of $200 from Miss Blanche Hull. This fund has been increased to a total of several thousand dollars. Money is loaned to deserving students on the recommendation of a faculty committee. An interest rate of five per cent is charged, and notes not exceeding one year are accepted.

WILLIAM McCracken Loan Fund in Chemistry—Established in 1945 through a gift of $1,000 made by Mrs. William McCracken to honor the memory of her husband, who organized the Department of Chemistry and served as its head (1907-1939). Loans are granted to worthy and needy students majoring in chemistry. Preference will be given students who have proven their ability through courses taken in chemistry at Western Michigan College.
BUILDINGS and GROUNDS

EAST CAMPUS

The original area of this campus was a hilltop site of 20 acres. Now
this campus contains more than 70 acres, including 15 acres devoted to
physical education and athletics. The principle buildings in this area, ex-
clusive of student housing, are:

BUSINESS STUDIES

EDUCATION—The building houses the Campus Laboratory School, the
Educational Service Library, the Audio-Visual Center, Women’s Physi-
cal Education and Education Classrooms.

ENGLISH HALL

HEALTH SERVICE—The second floor of this building is devoted entirely
to student health service. Also in this building are the Psycho-Educa-
tional and Speech Clinics, the Research Division and several academic
departments.

INDUSTRIAL ARTS

LIBRARY—This building also houses the Departments of Librarianship and
Mathematics.

MAINTENANCE—Storage and repair shops are located here.

MECHANICAL TRADES BUILDING—This building was a 1941 gift from
the W. E. Upjohn Unemployment Trustee Corporation of Kalamazoo.

NATURAL SCIENCE—There is an adjoining greenhouse.

THEATRE—This is the center of campus dramatics and speech activities.
It has an auditorium seating 350 persons.

WALWOOD UNION—This is the student center opened in 1938. It pro-
vides private dining rooms, a cafeteria, lounge, student offices, rec-
reation rooms and a grand ballroom.

WEST CAMPUS

Following World War II, additional land purchases became necessary.
This brought about a new campus of 180 acres called the West Campus.
All the buildings in this area, except the President’s house, have been
erected since 1948. They are of one architectural pattern and modern in
every respect. Exclusive of housing, they are as follows:

ADMINISTRATION BUILDING—Opened in 1952, it contains the Admin-
istrative offices, a branch library and 25 classrooms for the Divisions
of Social Science and Languages.

ARCADIA BROOK CLUB HOUSE AND CAFETERIA

HARPER C. MAYBEE MUSIC HALL—Opened in 1949, this modern music
building houses music and radio activities.
KANLEY MEMORIAL CHAPEL—This is the campus religious center. It was made possible in 1951 through a gift from the estate of the late William Kanley, a former student.

WILLIAM McCracken Hall—Erected at a cost of over $1,000,000 in 1949, it is the home of the Departments of Chemistry, Paper Technology, Physics, Art, Home Economics and Occupational Therapy.

FACULTY AND STUDENT HOUSING

Between the years 1938-1956, the following modern residential structures for students and faculty have been erected:

EAST CAMPUS

SPINDLER HALL—for 192 women.
VANDERCOOK HALL—for 200 men.
WALWOOD HALL—for 115 men.

WEST CAMPUS

BURNHAM HALLS—for 514 men.
BERTHA S. DAVIS HALL—250 women.
DRAPER-SIEDSCHLAG HALLS—for 520 women.
ELMWOOD APARTMENTS—Contain 96 units for married students. Forty-eight additional units will be ready in the fall of 1956.
HILLSIDE APARTMENTS—Provide 32 living units for faculty members.
ZIMMERMAN HALL—for 250 women.
NEW MEN'S RESIDENCE—Ready in the fall of 1956 for 440 men.

LABORATORY SCHOOLS

Four laboratory schools are provided for the use of student teachers at Western Michigan College. On the East Campus, there is the Campus Elementary School and Western State High School. West of Kalamazoo is the Hurd Rural School for the use of the Division of Rural Life and Education. At Paw Paw, there is a city-graded school and high school for the use of our student teachers.

ATHLETIC FACILITIES

GOLF COURSE—Adjacent to the West Campus is the 79-acre nine-hole Gateway Golf Course owned by the college.
HYAMES FIELD—One of the finest collegiate baseball layouts in the country, has seating for 2,500 spectators.
KANLEY FIELD—Includes three practice football fields, a baseball field, landscaped park, and picnic area.
MEN'S GYMNASIUM—This building has the usual facilities for physical education and seats 2,500 for basketball. During this year the building is being remodeled for use by the women's physical education department.

PHYSICAL EDUCATION BUILDING—This new, west campus structure was completed in the spring of 1956. It has a regulation basketball court, with seating for 800 on rollaway bleachers; three handball courts; a swimming pool 42 feet by 75 feet, with seating for 300 spectators; special purpose rooms, classrooms and offices for the men's physical education department. Dressing rooms are also provided so that women students may use the pool. A field house is now under construction adjacent to this building, and is expected to be completed in 1957.

TENNIS COURTS—12 are provided on the East Campus.

WALDO STADIUM—There are two concrete stands, each seating 7,500 persons. There is also an eight-lane quarter-mile track with a 220-yard straightaway.

WOMEN'S GYMNASIUM—This building has a floor 60 feet by 119 feet, a stage, offices, locker rooms and a swimming pool. It is being renovated this year for use by the campus school.

OTHER FACILITIES

KLEINSTUECK WILD LIFE PRESERVE—This is a tract of nearly 50 acres given to the college in 1922 by the late Mrs. Caroline Hubbard Kleinstueck.

COLLEGE FARM—Six miles south of the college is a farm of approximately 150 acres operated by the college as a training school for students in Agriculture.

STUDENT ACTIVITIES AND ORGANIZATIONS

In order to meet the needs of students, opportunity is afforded for participation in many extra-curricular activities. All campus organizations must be chartered by the Student Activities Committee consisting of both student and faculty members.

CHARTERS

Regulation adopted by the Michigan State Board of Education, September 17, 1952.

Charters of Clubs and Organizations may be granted provided that:

(1) the aims and functions of such societies and clubs are in harmony with the ideals of the colleges as now defined, or hereafter defined, by the college authorities and the State Board of Education;
(2) the aims and functions are in harmony with the American form of government, and are constructive in furthering the American way of life. No organization or its officers, local or national, shall be associated with any subversive groups or so-called fronts; and,

(3) the purposes and functions of the proposed new organization shall not unnecessarily duplicate organizations already chartered by a college.

GENERAL ORGANIZATIONS

STUDENT ASSOCIATION

Every student is a member of the Student Association. The organization is governed by the Student Council. The council conducts two student elections annually—in November to select the class officers and representatives, and in the spring to elect the officers for the Student Association, the Associated Women Students and Men's Union.

ASSOCIATED WOMEN STUDENTS

All undergraduate women at the college are members of the Associated Women Students. The organization has traditions of upholding the highest social standards on the campus. Women of the faculty are honorary members. The headquarters of the group is the Davis Room in the Walwood Union.

MEN'S UNION

Organized in 1936 the Men's Union includes in its membership all undergraduate students, the men of the faculty and administration. A lounge, recreation rooms with game equipment, radio and television are located on the second floor of the union.

OTHER ORGANIZATIONS

CLUBS

ART—Open to anyone interested in art.

ATHLETICS—The W Club is composed of men who have won an official letter in one of the major sports.

BUSINESS—Beta Alpha Sigma is a business professional organization.

CHEMISTRY—This is the Student Affiliate Chapter of the American Chemical Society.

EDUCATION—The Association of Childhood Education: For students of elementary education; it is a chapter of the National Association of Childhood Education.

THE COUNTRY LIFE CLUB—Open to students in the Department of Rural Life and Education and any others interested in rural life. Delegates are sent annually to the national conference of the Rural Youth of the U.S.A.
FUTURE TEACHERS OF AMERICA—The George H. Hilliard Chapter is open to both men and women students interested in teaching.

GEOGRAPHY—Gamma Theta Upsilon: For students specializing in Geography.

HOME ECONOMICS—The Colhecon Club: Open to any student in the department.

INDUSTRIAL ARTS—Open to students interested in industrial arts education.

INTERNATIONAL STUDENTS—For students whose homes are outside of the continental limits of the United States.

LANGUAGES—The Der Deutsche Verein: For students who have had the equivalent of one year of college German.
Ecos Espanoles: For students specializing in Spanish.
Le Cercle Francais: For students who have had the equivalent of one year of college French.

LIBRARIANSHIP—Colophon Club: Open to majors and minors in librarianship.

MODERN DANCE—Students interested in modern dance study.

OCCUPATIONAL THERAPY CLUB—Occupational therapy students.

PAPER TECHNOLOGY—Ts’ ai Lun: An organization for students in this department.

PHILOSOPHY—The Philosophy Forum.

PRE-MEDICAL—The club is open to students interested in the study of medicine or dentistry.

Sabre and Key: An organization of advanced course R.O.T.C. students.

SKIING—Ski Broncos.

SWIMMING—Water Sprites, open to men and women interested in swimming.

THEATRE—Western Michigan College Players: An organization open to any enrolled student interested in active participation in dramatics.

WESTERN WIVES—Membership open to wives of Western students.

WOMEN LIVING OFF CAMPUS—Omega Chi Gamma.

WOMEN’S PHYSICAL EDUCATION—Phi Epsilon.

YOUNG DEMOCRATS

YOUNG REPUBLICANS

SERVICE ORGANIZATIONS

ALPHA PHI OMEGA—A national service fraternity of Western men in the fellowship of the Scout oath, to promote service to students, to community and the nation.

CIRCLE K—Sponsored by the Kiwanis Club.
HONOR SOCIETIES

ARISTA—Honor society for senior women.

ALPHA KAPPA PSI—A national professional fraternity for men in the Department of Business Studies, Gamma Tau Chapter.

EPSILON PI TAU—A national professional organization in industrial education.

GAMMA THETA UPSILON—For students specializing in geography. Alpha Gamma Chapter.

KAPPA RHO SIGMA—For students in mathematics and science.

PHI DELTA KAPPA—For students in education.

PHI MU ALPHA SINFONIA FRATERNITY OF AMERICA—A national honorary music fraternity for men.

PI GAMMA MU—A national honorary fraternity for students in social studies.

PI OMEGA PI—A national honorary fraternity for students in business education.

SIGMA ALPHA IOTA—A national honorary fraternity for music women.

SIGMA ALPHA TAU—For students in air transportation.

SIGMA TAU CHI—A national honorary fraternity for students in Business Studies. Beta Chapter.

FRATERNITIES

The Inter-Fraternity Council is the governing and coordinating body. It is composed of two men from each fraternity and two faculty members.

DELTA CHI—National. Western Michigan chapter.

DELTA SIGMA PHI—National. Beta Tau chapter.

DELTA UPSILON—National. Western Michigan chapter.

KAPPA ALPHA PSI—National. Gamma Beta chapter.

PHI SIGMA EPSILON—National. Phi Gamma chapter.

SIGMA TAU GAMMA—National. Chi chapter.

TAU KAPPA EPSILON—National. Delta Alpha chapter.

SORORITIES

The Panhellenic Council is the governing and coordinating body for sororities. It is composed of representatives from each sorority and two faculty sponsors.

ALPHA CHI OMEGA—National. Gamma XI Chapter.

ALPHA SIGMA ALPHA—National. Beta Psi Chapter.
DELTA SIGMA THETA—National.
DELTA ZETA—National. Gamma Pi Chapter.
SIGMA KAPPA—National. Gamma Beta Chapter.
THETA PI ALPHA—Local.
THETA UPSILON—National. Nu Alpha Chapter.

RELIGIOUS ORGANIZATIONS

CAMPBELL CLUB—Students from Central and Kalamazoo Christian Churches.
CANTERBURY CLUB—Episcopal students.
CHRISTIAN SCIENCE—Christian Science students.
GAMMA DELTA—Lutheran students.
GENEVA CLUB—Reformed Church students.
HILLEL COUNSELORSHIP—Jewish students.
INTER-CHURCH STUDENT FELLOWSHIP—An interdenominational group sponsored by the First Methodist Church, the First Presbyterian Church, the First Baptist Church and the First Congregational Church of Kalamazoo.
INTER-VARSITY CHRISTIAN FELLOWSHIP—Conservative Christian students.
KAPPA PHI, PHI Chapter—Methodist women.
LUTHERAN STUDENT ASSOCIATION—Students belonging to the National Council of Lutheran Churches.
NEWMAN CLUB—Roman Catholic students.
RELIGIOUS COUNCIL—A coordinating agency.
Y.W.C.A.—Open to all women students.
STUDENT OPPORTUNITIES AND SERVICES

CAFETERIAS—On the East Campus are located Walwood Cafeteria and Soda Bar. On the West Campus are located Arcadia Brook Cafeteria and Snack Bar.

CAMPUS STORES—Store No. 1 is located in the Administration Building on the West Campus. Store No. 2 is located in the Education Building on the East Campus.

ATHLETICS

Athletics at Western Michigan College consists of two major programs: intercollegiate athletics and intramural athletics.

INTERCOLLEGIATE—The college is represented by teams in football, baseball, basketball, indoor and outdoor track, cross country, tennis and golf. Representative teams from all parts of the country are scheduled in these sports with the emphasis on mid-western teams.

Western Michigan College has been a member of the Mid-American Conference since 1947. The other members of the Conference are Bowling Green, Kent State, Marshall, Miami, Ohio and Toledo. The athletics are governed by an Athletic Board, composed of faculty members and students, which adheres to the Athletic Code of the Mid-American Conference and the policies and principles established by the National Collegiate Athletic Association. The teams winning the Mid-American Conference championship, both in basketball and baseball, qualify automatically for the annual NCAA playoffs.

To date Bronco teams have finished in the first division 43 times and have finished in the second division only 13 times. Teams have won championships 12 times in addition to one tie for a championship.

Western Michigan College is a member of the Central Collegiate Conference. Participation in this conference furnishes competition with a number of the stronger track teams in the middle west.

INTRAMURAL—An extensive intramural program provides opportunity for students to engage in competitive sports on campus as members of clubs, fraternities or independent teams. Sports offered for men include basketball, bowling, hand ball, tennis, volley ball, indoor baseball, outdoor baseball, track, archery, horseshoe pitching, golf and swimming. Any sport in which a sufficient number of students indicate an interest and for which facilities are available may be set up in the intramural schedule.

CLINICS

PSYCHO-EDUCATIONAL CLINIC

The purpose of the Psycho-Educational Clinic at Western Michigan College is to provide psychological service for maladjusted children and adults, centering not only upon diagnosis but upon remedial measures as well.
It is the plan of the clinic, whose laboratory is equipped with modern psychological apparatus, to train a number of competent students to deal with psycho-educational problems involving academic, social and emotional maladjustment and with educational and vocational counseling.

**SPEECH CLINIC**

Among the services provided students at Western Michigan College are those of the Speech Clinic. Diagnosis and therapy are provided for all individuals with voice, articulation, stuttering, hearing, cleft palate, or foreign accent problems. Individuals unable to carry on their classroom activities or to achieve adequate results in the general speech courses or to do their practice teaching because of speech difficulties are treated in this modern clinic. Student speech therapists use the facilities of the clinic in preparing for their careers.

**WRITING CLINIC**

The clinic is for those students recommended by their instructors to receive help in improving organization, expression, and technical competence in written English. The clinician analyzes the particular difficulties of each student and tries to help him establish ways of overcoming them. No credit.

**DEBATING—FORENSICS—DRAMATICS**

Opportunities are offered for participation in all or any of the following activities: (1) Debate—separate programs for women and men offer experience in debating current issues with other colleges of the state and nation. (2) Forensics—extemporaneous speaking, oratory, discussion and various activities and contests are held on local, state, and national bases. (3) Dramatics—activity in theatre includes the production of three major plays per year. In none of the above activities is it necessary to belong to an organization or to be enrolled in the speech curriculum.

**EMPLOYMENT FOR STUDENTS**

Students interested in earning money with which to pay in part their expenses will be given advice and detailed information upon application to the Dean of Men and the Dean of Women. Students whose point-hour ratio is less than 1.8 are not eligible for campus employment.

**HEALTH SERVICE**

Students enrolling in college for the first time, or after a prolonged absence, are required to have a physical examination by one of the college physicians.

The physical examination is a part of the registration process, and a $2.00
late fee will be charged, if the examination is not taken during the special clinics set up at the beginning of each semester.

Full-time students are entitled to the following services:
1. Medical and surgical examinations and conferences.
2. Dental examinations and minor repair work.
3. First-aid emergencies.
4. Care of minor ailments and follow-up treatments, as advised by the doctor during clinic hours.
5. Infirmary care at moderate cost, if advised by the physician.

The Health Service provides the services of medical and surgical consultants, a dermatologist, a psychiatrist, and a dentist, as well as a full-time staff of registered nurses.

The main Clinic and Infirmary are located on the East Campus in the Health Service Building. Limited clinic service is available in Room 141 of the Administration Building on the West Campus, however, any serious illness is referred to the main Health Service for medical consultation.

Consultations and treatments given at the Health Service are free to the students, except for special medications and the material used by the dentist.

LABORATORY SCHOOLS

The training schools of the college are unique in that they include a wide range of typical schools: a rural school, a large village school, a city-graded school and a high school; thus approximating the types of schools students may expect to work in after graduating. Neighboring public school systems are also used. Transportation to outlying schools is provided by the college.

LIBRARIES

EDUCATIONAL SERVICE LIBRARY. The Educational Service Library is located in Room 103, Education Building. It provides for students of education a representative collection of the latest editions of textbooks both in the elementary and secondary fields, texts for each of the common branches and special subjects, books in general education, professional books in the different subject areas, teaching and curriculum aids, source and reference material, a fine collection of elementary and secondary courses of study in all subject fields.

GENERAL LIBRARY. Its collection consists of about 105,000 volumes. Approximately 750 periodicals are currently received and of these more than 325 are bound for permanent retention.

About 2,000 volumes are housed on the West Campus in Room 206, Maybee Hall, where a Music Library with a seating capacity of 50 is supervised by a member of the professional library staff as a branch of the General Library. This branch receives a dozen current periodicals and has a collection of 2,500 phonograph records which can be used in the adjoining listening room.

In Room 208, Administration Building, the Library Annex has a seating capacity of 85. The library's holdings include 1,800 books in the physical
sciences, over 400 books on reserve for the Social Sciences and English and some 500 general reference books. The library subscribes to 75 current science and 13 general periodicals and to four newspapers. The holdings include 1,100 bound periodicals in science.

MUSIC

The Band rehearsing twice a week, three times during the football season, and gives concerts on and off the college campus. Any student with adequate playing ability on a band instrument is eligible for membership. The Orchestra meets twice a week throughout the year and presents concerts both on the campus and in other cities of the state. It joins each year with the choral groups to present the Christmas program. Any student with reasonable proficiency in any orchestral instrument is eligible for membership.

An important part in the musical life of the college is played by the Glee Clubs and the Choirs. The Men's Glee Club, Women's Glee Club, the College Choir and the Auxiliary Choir aim to develop and maintain a high standard of choral ensemble singing. They make a number of appearances on the campus, at high schools throughout the state, and with organizations like the Kalamazoo Symphony. The Auxiliary Choir is designed for students with little choral experience, but many of the students in this organization later find their way into the Glee Clubs and the College Choir.

PERSONNEL AND GUIDANCE SERVICES

Student personnel and guidance services are centered in the offices of this division in Room 131, Administration Building.

Freshmen, sophomores and first-year transfer students are assigned to counselors, in accordance with the curriculum chosen, for advice and counsel in planning their academic schedules. Entering students are urged to come to the campus during the summer months to plan for the fall semester; during December and January for the spring semester. This pre-enrollment counseling is followed by stated counseling periods during the first two years.

When students have completed 45 semester hours of work they are encouraged to choose, in consultation with their counselors, majors and minors. When the choice has been made they should contact the proper departmental advisors to secure written approvals for majors and minors. At this time plans for the work to be done in the junior and senior years are made with the counselor.

In addition to regular counseling periods, students are invited to talk with their counselors at any time concerning their programs of studies and related problems.

An occupational counseling service is available for students to use in making suitable vocational choices. They are especially urged to make use of this service, if they plan to change from one curriculum to another.

A complete counseling service is maintained exclusively for veterans. Assistance is given to them in enrolling and preparing papers and reports required by the Veterans' Administration, filing applications for loans and checking on other matters in which they may be interested.
PUBLICATIONS

The Brown and Gold is the annual yearbook written and edited by the students of the college. Policies and control of the publication are handled by the Brown and Gold student-faculty committee. The editor and business manager are appointed and receive remuneration for their work. They are responsible for naming other staff members and carrying the project to completion. Offices are maintained in the Ty house, East campus.

The Western Herald is the student newspaper, now published weekly through the fall and spring semesters. Policies controlling the publication are set by the Herald student-faculty committee. The editor and business manager are paid positions, appointed by the above committee. Offices are maintained in the Ty house and the paper is printed in the college print shop.

The Student Directory is published during the fall semester each year by the Student Council, with that organization's publicity director charged with the responsibility.

The Western Way is published each fall by the Student Council as a guide for students to the campus organizational and social life. Copies are available free for all students at the opening of school.

Calliope, a student authored literary magazine, is published twice each year. Supervision in its management is provided by the English faculty.

RADIO

WMCR, the FM voice of Western Michigan College, began official broadcasts in April, 1951, operating at 91.1 megacycles with an effective radiated power of 400 watts.

In 1954 a grant of $7,500 from the Kellogg Foundation made it possible for the station to secure equipment increasing its power to 36,000 watts, effective radiated power. With the power increase WMCR enables the college to serve an area sixty miles in radius.

In addition to broadcasting classroom lectures, special programs from various departments, athletic events, recitals from the Music Department, assembly speakers, and special college events, the station also brings to its service area scores of significant radio series from the tape network of the National Association of Educational Broadcasters.

WIDR is a student-operated radio station, broadcasting six hours each day. It can be heard only in college residence halls.

READING LABORATORY

Individuals wishing to improve their reading skill may spend from one to two hours in the Reading Laboratory on Tuesday and Thursday of each week. The personnel of the laboratory consists of the director and three technicians. Twenty-two assignments have been prepared, and each student is expected to proceed from assignment to assignment as his ability permits. These assignments show the student how to improve his reading ability as he does his regular college work. The facilities of the Psycho-Educational Clinic will be drawn upon to provide clinical service whenever the student’s needs warrant.
R.O.T.C.

The United States Army has established a Reserve Officer Training Corps Unit at Western Michigan College, which offers the student an opportunity to prepare for military service and to occupy positions of leadership in the Armed Forces. Students pursue a General Military Science course including subjects common to all branches of the army.

The first two years of ROTC comprise the Basic Course, and the final two years the Advanced Course. Uniforms and textbooks are furnished. Advanced Course students receive a monetary allowance of approximately $27 each month. Two hours’ credit is allowed for the Advanced Course.

Upon completion of the four-year course, and attendance in summer camp training, students are eligible to apply for appointment as Second Lieutenant, United States Army Reserve. Enrollment in ROTC together with an acceptable scholastic average will entitle a student to apply for a draft deferment so that he may complete his college training without interruption.

RELATED SERVICES

ALUMNI

Western Michigan College has granted degrees and/or certificates to more than 25,000 individuals. An additional 55,000 former students have received part of their educational training here. All of these persons are considered alumni and are eligible to membership in the Alumni Association.

The News Magazine, published quarterly, contains a section devoted exclusively to alumni activities. It is sent free to all students in their senior year and regularly to all alumni who become active dues-paying members of the Alumni Association. Membership rates are nominal.

Nearly 1,000 of Western’s alumnae are members of Alpha Beta Epsilon. This is a sorority having 16 chapters in various cities of Michigan and Indiana. A chief activity of each chapter is to maintain one or more outstanding students at Western by means of a fine scholarship program.

Since it is a most difficult task to maintain accurate mailing lists for a large and constantly moving alumni group, all graduates are urged to keep their own mailing address up to date. We always appreciate receiving names and addresses of any alumni who have been out of contact with the college.

The Office of Placement and Alumni Relations is in Room 231, Administration Building.

ART COLLECTION

Through the courtesy of the family of the late Hon. Albert M. Todd, an interesting collection of paintings, sculpturing, and fine ceramics gathered by Mr. Todd in many years of travel has been presented to the College.

These were formerly concentrated in an exhibition room in the Library, but through the extensive building program they have been distributed among different buildings to provide distinctive decorative notes appropriate to the building.
CARNEGIE GIFT OF BOOKS AND PICTURES

A gift from the Carnegie Corporation of New York of books, photographic prints, color facsimiles, and etchings was presented to Western Michigan College in the summer of 1939. This teaching and reference material has been carefully selected with a view to enriching a college library with books and illustrations not ordinarily afforded by colleges. The collection consists of 831 large, well-mounted photographs and 125 books, together with 30 colored reproductions, and portfolios containing illustration of prints. This collection is housed in McCracken Hall in the Art Department Gallery.

DIVISION OF FIELD SERVICES

The Division offers educational opportunities to persons who do not participate in the regular full-time undergraduate or graduate program of the college.

Serving primarily the 16 counties of Southwestern Michigan, Western's offerings last year reached 31,184 persons. Of these, 5,173 represented extension class and correspondence enrollments. The remainder were contacted through adult education activities in conferences and discussion groups; through in-service education programs; and through extension course planning meetings.

A variety of courses is offered to benefit teachers in the field and the other interested adult students. Course offerings in the 16 counties are planned in committees with County Superintendents, Public School Superintendents, and their teacher committees. Courses are offered on both the undergraduate and graduate levels. A special schedule of on-campus offerings is planned each semester for persons who can attend Saturday or evening classes.

There is also a wide variety of correspondence courses available. These may be taken for credit and applied toward an undergraduate degree within the limitations described in this bulletin.

In the field of adult education the office supplies advising services, speakers, discussion leaders, and persons qualified to handle leadership training programs. Upon request, such services are available to farm groups, labor unions, schools, church organizations, and other organizations.

In-service education programs are planned with schools, businesses, and any institution seeking to improve personnel within the institutions. Advisory services are offered, as well as actual training programs.

For details of policy, and further information please write the Office of Field Services.

Fees for undergraduate credit are $10.00 per semester hour; for graduate credit, $10.00 per semester hour.

Fees for auditors are one-half the amounts indicated.
PLACEMENT SERVICE

Western Michigan College has operated a free placement office for many years. No graduating student can be guaranteed employment; but all graduates have the opportunity to meet prospective employers from the public schools, business, industry, social agencies and governmental services. Active communication is maintained between the college and hundreds of employing officials. Information concerning employment trends and general job opportunities is made available. Alumni are always welcome to use the placement service free of charge. Summer employment contacts for students are also maintained. The Office of Placement and Alumni Relations is located in Room 231, Administration Building.

TEACHER EDUCATION AND RELIGION PROJECT

On December 4, 1953, Western Michigan College was selected as one of fifteen institutions in the United States to participate in the Teacher Education and Religion Project of the American Association of Colleges for Teacher Education. Funds to underwrite the beginning of the project were provided by the Danforth Foundation.

The A.A.C.T.E. through its committee on Teacher Education and Religion has formulated the following statement of purpose:

"The Committee recommends that the chief purpose of this study of Teacher Education and Religion be to discover and develop ways and means to teach the reciprocal relation between religion and other elements in human culture in order that the prospective teacher, whether he teaches literature, history, the arts, science or other subjects, be prepared to understand, to appreciate, and to convey to his students the significance of religion in human affairs."

A committee of faculty members is working to stimulate interest at Western along the lines of curriculum, counseling, student religious activities at Kanley Memorial Chapel, and teacher training, as related to becoming informed about religion. These activities involve no sectarian approaches on the part of the college.
PART V – Graduate Division

GENERAL STATEMENT

Graduate instruction has been given at Western Michigan College since February, 1939, under a cooperative arrangement with the University of Michigan. On October 12, 1951, the State Board of Education authorized the Colleges to grant the master's degree with specialization in Education to those completing such a program under the rules, regulations and procedures adopted by each institution and approved by the State Board. Western Michigan College in October, 1951, decided to inaugurate its own graduate program at the beginning of the fall semester of 1952 as permitted by this State Board action.

PERMISSION TO ENROLL

Permission to enroll in graduate courses will be granted to those students who present evidence that they have received the bachelor's degree from an accredited college whose requirements for the degree are on as high a scholastic level as those maintained by Western Michigan College.

A graduate from a non-accredited college may be admitted to take up to six hours of graduate work with a review of his status after he has taken these six hours. Any student from Western Michigan College who is within six hours of receiving his bachelor's degree may be admitted to enroll in up to six hours of graduate credit during the last semester before receiving his degree.

TRANSFER CREDIT

After the student has been admitted to candidacy for the degree, a total of six hours of satisfactory work taken at other approved institutions, for which such institutions grant graduate credit, may be transferred to a master's degree program in the Graduate Division of Western Michigan College, provided such courses are approved by the Curriculum Adviser as a part of the student's program of studies.

EXTENSION CREDIT

A total of twelve hours of satisfactory graduate work taken through the Field Services Division of Western Michigan College may be counted toward the requirements for a degree provided such courses are approved by the student's Curriculum Adviser as a part of the student's program of studies.

DOUBLE REGISTRATION

The regulation covering any student taking both graduate and undergraduate work will be:

The east campus, scene of the college's origin, is still a very active center of student academic life.
A student taking more under-graduate than graduate hours will pay tuition and fees for the total hours he is taking on both levels according to the rate for under-graduate work. (See schedule of under-graduate tuition and fees on page 47).

A student taking more graduate than under-graduate hours will pay tuition and fees for the total hours he is taking on both levels according to the rate for graduate work. A student taking the same number of graduate as undergraduate hours will pay whichever fee is the higher.

**CURRICULA**

Work in the following curricula is offered in the Graduate Division:

- Elem. Admin. and Supervision
- General Adm. and Supervision
- Guidance
- School Librarianship
- Sec. Admin. and Supervision
- Special Education
- Teaching in Elem. School
- Teaching of Art
- Teaching of Business Education
- Teaching of Distributive Educ'n
- Teaching of Home Economics
- Teaching of Industrial Education
- Teaching of Lit. and Lang.
- Teaching of Music
- Teaching of Occupational Therapy
- Teaching of Physical Education
- Teaching of Science and Math.
- Teaching of Social Science
- Teaching of Speech Education
- Unclassified

Further information is available in the Graduate Bulletin which may be obtained by writing to the Graduate Division, Western Michigan College.
