Faculty, staff invited to grad student reception

Faculty and staff members are invited to attend a reception for graduate students from 3 to 5 p.m. Tuesday, Oct. 11, in the Red Rooms of the Bernhard Center.

The event is being sponsored by the Graduate Student Advisory Committee and the Graduate College to provide an opportunity for students and faculty and staff members to become acquainted. The committee is made up of graduate students representing each of WMU's colleges and is responsible for advocating graduate student concerns.

ACT COMP results in opportunity for students and faculty

Graduate Student Advisory Committee welcomes results for Center.

Outcomes Measurement Program (ACT COMP) are now available for purchase.

Special auction set

University stores will conduct a special auction at 10 a.m. Saturday, Oct. 15, in 1038 Kohrman Hall. Surplus equipment from the College of Engineering and Applied Sciences will be available for purchase.

Senate meeting tonight

Agenda items include a report on the Center Recital Hall to celebrate his life and work. He was remembered by most as a man of wide recognition beyond the university.
Infant communication disorders to be lectured topic

Preventing speech and hearing disorders through early identification and treatment of infants at risk is the focus of a University lecture series set for Wednesday through Friday, Oct. 12-14.
The eighth annual Van Riper Lectures in Speech Pathology and Audiology, sponsored by the Department of Speech Pathology and Audiology, will feature Dr. W. Robert L. Erickson, chairperson of the Department of Communication Disorders at WMU. Erickson says that, through research over the years, the department has been working toward the goal of identifying and treating high-risk infants, "there has been a mushrooming of interest and activity in this area."
Recent federal legislation mandating service to handicapped persons has helped researchers, says Erickson, to "trigger the realization that we were not only going to have to identify and assess these children, but we have to do something in speech and language intervention at earlier ages, to prevent, or at least reduce, the risk of communication disorders."
Program coordinator Donna B. Ous says speech pathology and audiology, programs of intervention, occupational therapy, infant and family consultation, nursing and other health care fields, all play a part in working on questions on topics ranging from the identification of infants at risk to the impact of new federal legislation mandating services to handicapped persons beginning in infancy.
Participants will hear information on: prevention of infant development; methods of identifying problems in communication and intervention techniques; strategies for prevention of injury to the infant state and federal legislation in the area.
Shirley N. Sparks, speech pathologist and audiologist, points out that, if there are limitations, it is not a particular field of work in the department that was funded by a grant from the Upjohn Co., the Memorial Fund of the University, the Bernhard Center and Upjohn Co., respectively; through its Community Programs Committee, "Diane is a super person. She has the ability to make you feel that you are the most important person in the room. She reflects all the values we want the recipient to have. Diane really stood out from the rest."
Cunningham said that his daughter and granddaughter, Eicholtz played basketball together at Vicksburg High School. The endowment, to which contributions may be made at any time, is currently valued at about $1,500 for two semesters, in honor of the Upjohn Co. "Diane is a super person, and she's one who has the ability to move people. She reflects all the values we want the recipient to have. Diane really stood out from the rest."
Participants will hear information on: prevention of infant development; methods of identifying problems in communication and intervention techniques; strategies for prevention of injury to the infant state and federal legislation in the area.
The Board of Trustees Sept. 16 approved the sale of 15 acres of land in the Blissfield Township for $25,000. The one-year scholarship, which is not renewable, was named for the WMU freshman from Vicksburg who was murdered Nov. 14, 1987. The scholarship honors the memory of Nancy Eicholtz of Vicksburg, who was a member of the National Honor Society at Vicksburg High School. She is an outstanding student with a desire to prepare professionals to work with at-risk infants and their families to avert speech and hearing impaired newborns.

Eicholtz awarded first Cunningham scholarship

Diane Eicholtz, a freshman majoring in pre-business administration from Vicksburg, has been named the first recipient of the June Kay Low Memorial Scholarship. The one-year scholarship honors the memory of Cunningham, a WMU freshman from Vicksburg who was murdered Nov. 14, 1987. The scholarship, to which contributions may be made at any time, is currently valued at about $1,500 for two semesters.
Eicholtz received the scholarship from the WMU freshmen from Vicksburg who was murdered Nov. 14, 1987. The scholarship honors the memory of Nancy Eicholtz of Vicksburg, who was a member of the National Honor Society at Vicksburg High School. She is an outstanding student with a desire to prepare professionals to work with at-risk infants and their families to avert speech and hearing impaired newborns.

Initiation of condemnation proceedings authorized

The Board of Trustees Sept. 16 approved a resolution that authorizes its staff and legal procurement to acquire seven properties in the west campus area by condemnation.

The seven properties are located at 713 Backus, 719 Backus, 816 Backus, 811 Rankin, 823 Rankin and 720 Steers.

Friedel among five named to Hall of Fame

Jean E. Friedel, health, physical education and recreation major, is one of five women to be inducted into the WMU Athletic Hall of Fame.

Friedel joined the physical education staff in 1960. She served as the only coach in Western's 22-year field hockey history; organized and coached the first women's basketball, volleyball, gymnastics and track teams; and coordinated the golf and synchronized swimming programs.

Friedel was also heavily involved in the United States Field Hockey Association. The WMU Athletic Hall of Fame was started in 1973 and now includes 72 members. Induction ceremonies will be Friday, Oct. 14, on the campus.

Panelists to discuss moral responsibility

A panel of faculty members will discuss "University Responsibility on Issues of War and Peace" at 3 p.m. Friday, Oct. 14, in the Faculty Lounge of the Bernhard Center.

The group will discuss the nuclear arms race and the increasing destruction of the environment as an interrelated global crisis. Panelists will talk about what the moral responsibility of the university should be in the face of such a crisis, and also how the university should respond, in general, to the moral dilemmas posed by threats of nuclear war and the destruction of the environment.

Speakers will be: Ronald C. Kramer, sociology, who will chair the panel; Kenneth A. Dubbeld, political science; Arnold A. Gerstein, humanitarians and peace; and the Bernhard Center.

The free program is being sponsored by the Center for the Study of Ethics in Social Practice and Global Future Committees.

Macintosh symposium set

The Office of Instructional Development will sponsor the 1988-89 Great Lakes Macintosh Symposium from 1 to 5 p.m. Monday, Oct. 17, at the Fetzer Center.

The week-long symposium, in which many WMU faculty and staff members, will explore the impact of Apple Macintosh microcomputers in desktop publishing and personal computing. Computer hardware and software demonstrations will be available.

Interested persons should register by Monday, Oct. 10, by contacting the office at 7-6045.
Three to Be Visiting Scholers

On Campus

KEEPING IT CLEAN -- In his 21 years of caring for the physical aspects of Western's campus, Howard E. Hartness has seen a lot of changes. He began working in residence hall custodial service in 1967, then joined the mechanical maintenance staff, moved to the grounds crew and is now custodian for the physical plant's custodial services area. "When I first started working here, I really felt proud," he says, "I'm working at a University that's really nice." Although a lot of new buildings have been constructed during his tenure, the older buildings and many older works has a special place in his heart. "I love the whole East Campus," he says. "The structures have a lot of history behind them," Hartness is responsible for cleaning the basement and half of the main floor in North Hall. He also is involved in keeping the pavement free from sweeping to mapping to waxing to removing wax. "I'm what they call a Swiss Army Knife," he says. "It's hard work keeping up his park's maintenance. "There's a lot of dirt from the students," he says. "But if it wasn't for the students, I wouldn't be here talking about dirt."

To celebrate 10 years with week of events

The Clerical/Technical Organization will sponsor an information and membership week. Many offices throughout campus, Monday, Oct. 11-15, will be set for week of events on the third floor of Ellsworth Hall. This informal meeting is designed to give employees a chance to meet and speak with people on the management team, as well as to find out what the CTO is about and how they can help the organization build for the next 10 years and beyond.

Jobs

The listing below is currently being posted by the University employment office. Interested regular full-time or part-time employees should submit a job application during the listed time frame.

S-01 and S-02 clerical positions are not required. Interested University employees may contact the employment office for assistance in applying for these positions.

(R) Associate Academic Vice President, Z. Provenzale. UNIV-247. (R) Academic Affairs, 88/89-150, 10/4/10/10/88.

(R) Custodian (1 Position; 1st Shift), M-2, Residence Hall Custodial, 88/89-150, 10/4/10/10/88.

(R) Custodian (1 Position; 1st, 2nd, 3rd Shift), M-2, Facilities/Custodial, 88/89-150, 10/4/10/10/88.

(R) Admin. Assistant I, P-401, CISHS, 88/89-150, 10/4/10/10/88.

(R) Replacement. Will and as an OAA employer.

Media

Loren D. Crane, communication, discusses the "gender gap" in grade school. This fall's "Focus" program, a five-minute radio interview produced by WKZO-AM, is scheduled to air Saturday, Oct. 8, at 6:10 a.m. on WKZO-AM (1590). The "Focus" is scheduled to air Saturday, Oct. 8, at 6:10 a.m. on WKZO-AM (1590).
