Up to $20,000 added to faculty research travel fund

A faculty research travel fund of $200,000 will be augmented by up to $20,000 in additional funds for a total of up to $70,000 to accommodate an anticipated shortfall in the fund. Provost George M. Dennison told the Faculty Senate on Jan. 18, "After consultation with President Haenicke, I'm able to announce that the funds will be available to cover the anticipated shortfall." Dennison said. Senators applauded the announcement.

We're very much appreciate that support," said Senate President Stanley Robin, asking and with approval of the Research Policies Council, told the Senate in a report on council activities that the projected shortfall would be at least $12,700.

He said 52 percent of the fund already has been spent and projected "conservatively" that at least $12,700 would be needed.

Two on campus as part of visiting professors program

Experts on health and human services in Third World countries and on Hispanic culture in the United States will give several presentations during the upcoming semester as part of the Martin Luther King, Jr. essay prize program and the University Visiting Professors Program.

Peter A. Dual, professor of public health and dean of the College of Health and Human Services at San Diego State University, will teach a short course, participate in a panel discussion and conduct a student forum.

The short course, titled "The Republic of the China, Newly Industrialized Countries" is open to the public.

The ceremony is being sponsored by the Office of the President, the Department of Student Activities and the Student Government Association.

Haenicke to conduct open office hours

President Haenicke will conduct open office hours from 9:30 to 11 a.m. on Friday, Jan. 22, in the President's Lounge of the Hicks Center.

Applications for funds are made through Research Policies Council. In other action, the Senate approved a recommendation asking academic departments to "nnly to orient graduate students to computer research at the University, especially at the departmental level. The Senate took the action in response to a series of reports from the committee on computer services for graduate students to the Senate in the fall of 1987. Richard M. Mooney, associate professor of psychology, was named to the Admissions, Financial Aid and Student Services Council.

Haenicke plans to be available in his office for about an hour of concern. Participants may call the Office of the President at 3-1750 to make arrangements.

Ethics center to sponsor lecture series

"Ethics in Academia" will be the first topic in a series of programs to be presented during the upcoming year by WMU's Center for the Study of Ethics in Social Issues.

The initial program is set for 3 p.m. Friday, Jan. 22, in the Faculty Lounge of the Bernhard Student Center. A panel of faculty members will discuss the various ethical dimensions of education. Participating will be: Provost George M. Dennison; Mary Anne Bunda, educational leadership; Neil Kent, psychology; Shirley A. VanHoven, communication; and Irene S. Vasquez, religion.

Other topics scheduled and their presenters will be: (all are at WMU unless otherwise indicated):
- "On the Moral Presence of Our Presidents" (7 p.m. Thursday, Feb. 9, in 3770 Knauss Hall; Donald E. Thompson, philosophy). Donald E. Thompson, sociology. Robin, as chairperson of the Research Policies Council, told the Senate in a report on council activities that the funds were first black academic dean in the history of both EMU and WMU.

A faculty member at Northern Colorado since 1978, Rodriguez has developed numerous articles in the literature, art and history of Hispanics in this country. He has been instrumental in procuring federal grants for teacher training in bilingual education, as well as for projects to support the Hispanics of Colorado.

Add to his scholarly articles, Rodriguez has written a book, several collections of poetry and numerous short stories. He currently is editor of journal, Confluencia: Revista Hispanica de Literatura y Arte.

The purpose of the Martin Luther King Jr./Cesar Chavez/Rosa Parks Visiting Professors Program is to increase the supply of minority faculty members available at all levels of education. In addition, it is designed to enhance the university's ability to play a leadership role in encouraging minority students to consider careers in post-secondary education.

The president comments

Much of my day is spent studying information on higher education in general and our University and its various divisions in particular. Practically all of my information is published and widely available; but it is onerous for me to wade through official reports, legislative documents or committee proceedings and to try to bring my attention to the attention of larger groups on campus.

Many items are highly interrelated and I must look for trends and statististics and graphs printed in the Western News to try to find any information that can be examined by all those who are interested in a closer look at the information base that is available.

As we all know, the compilation and the reading and interpretation of statistics require considerable sophistication. Seldom do numbers mean much if taken out of context and if left without bases.

Possible in each instance to satisfy the interests of larger groups on campus. Are due soon for two- and three-year period stipend from the Army and a month stipend from the ANTV and a laboratory fees and books. In addition, a follow-up system involving parents or guardians will be developed.

Most of the statistics are presented to facilitate invidious comparisons between campus units. I want to use them to alert our faculty and students to possible in each instance to satisfy the interests of larger groups on campus.

Economist to speak on profit-sharing

A man who has been called the 'guru of profit-sharing' economics at a seminar and a Weitzman

Green named associate to general counsel

The appointment of the President of Michigan State (Vince) Green as associate to the general counsel and vice president for legal affairs was approved Dec. 18 by the Board of Trustees. His appointment was effective Dec. 28.

Green has been a full-time assistant professor at the University of Michigan since 1974. He earned his doctorate of law degree in 1982 from the University of Michigan School of Law, where he was vice president of the Black Lawyers Association, editor of the Law Review and a member of the Michigan Congressional delegation.

Green received his bachelor's degree in communications in 1979 from the University of Michigan. He earned his master of law degree in taxation from the Michigan State University College of Law in 1983.

On campus

PAPERWORK--On a given day, one could find Carl F. Shuster, working with anyone from a student on his or her thesis project to a large company executive. He's the director of the pilot plant in the Department of Paper and Printing Science and Engineering. He supervises all of the operations in the department on the projects in the plant. Or he could be playing host to some paper company executives, showing them what kinds of research the plant can undertake to help with their products. In addition to conducting tours for industry officials, travels quite a bit to paper seminars and conferences to "sell" the new plant to industry. He says that in the 14 years he's worked at Western, the revenue the University takes in each year for work done by the plant has jumped from $65,000 to $900,000 to $1.6 million per year. "I hope that what they learn from us will help them when they graduate and get jobs."

ECONOMY--In it, he maintains that corporate profits should be shared between the firm and the workers. Some have acclaimed his proposal for a "share economy" as the best economic idea since the theories of John Maynard Keynes. But other leaders of organized labor have heavily criticized his plan and dubbed him "the guru of profit-sharing."

Weitzman has taught economics at MIT since 1972. He has also served as a consultant to the World Bank, Stanford Research Institute, International Monetary Fund and a number of foreign governments.

His lecture is part of the Department of Economics Lecture and Series series titled "Organized Labor at the Crossroads." The program is being sponsored by the Department of Economics, the College of Arts and Sciences and the Office of Career Development/Research. It is being organized by Wei-Chiao Huang, economics.

31 faculty members granted sabbaticals

A total of 31 faculty members were granted sabbatical leaves for one semester or the full 1988-89 academic year in action Dec. 18 by the Board of Trustees.

Awards for a sabbatical for the 1989 winter semester were Carol Merchant, electrical engineering; Brian Swenson, economics; and John Weitzman, aircraft and automotive engineering.

These other faculty members were granted sabbaticals for the fall semester of 1989:

Byron J. Edgard, law; Frank J. Enzo, accounting; Donald J. Ericksen, psychology; and Rodney E. Braun, mechanical engineering.

Faculty members receive 75 percent of their base salary for the period of the sabbatical. Sabbaticals are granted only to tenured faculty members and may be taken once every seven years. A total of 34 faculty members were granted sabbaticals last year.
The retirements of eight faculty members and two staff members were approved Dec. 18 by the Board of Trustees.

Among the faculty members approved for retirement with emeritus status were a department chairperson and the University coordinator of academic advising. Robert Jack Smith, head of the Department of Anthropology and an emeritus professor in the last 10 years, will retire July 1. He has been a faculty member since 1963.

Paul E. Holker, professor of chemistry and University coordinator of academic advising, will retire Feb. 28. A faculty member since 1959, he has been in charge of academic advising at the University since 1978. He was acting director of the Chemistry Department in 1987.

Other faculty members approved for retirement with emeritus status, along with their years of service and effective dates of retirement, were: Darwin A. Buhl, professor of chemistry and biomedical sciences, 17 years, effective April 23; Joseph J. Eisenbach, special education, 26 years, effective April 30; Norma L. Hungerford, education and professional development, 19 years, effective April 23; James H. Powell, mathematics and statistics, 32 years, effective April 23; Lawrence B. Schlack, educational leadership, 10 years, effective May 1; and Nancy Y. Stone, English, nine years, effective Aug. 20.

Robert Jack Smith, head of the Department of Anthropology and an emeritus professor in the last 10 years, will retire July 1. He has been a faculty member since 1963.

Several members of Western's chapter of the Collegiate Construction Association will be in Dallas Jan. 15-18 to pick up a plaque and check for $300. The chapter was named the second best in the Outstanding Student Chapter competition of the National Association of Home Builders.

A total of 35 chapters were judged on activities and project work, conducted with their local Home Builders Association, university involvement and community interaction.

Peter J. Strazdas and Neil Opfer, both engineering technology professors, will meet with students as the chapter advisers to the student organization in the College of Engineering and Applied Sciences.
