'WMU Presents' to air on WKZO-TV Sunday

A profile of President and Mrs. Haenicke and their family as well as a feature on the impact of robots are part of the first show to air from Western's public television station.

The program is part of a new series called 'WMU Presents,' which will be telecast from 3:30 to 4:30 p.m. Sunday, Sept. 29, on WKZO-TV Channel 3, Kalamazoo.

The show features a profile of President and Mrs. Haenicke and their family as well as a feature on the impact of robots.

On Campus

IT'S MAGIC—Tina R. Daniels, assistant director of alumni relations, is working to create a "Magic Kingdom" for Homecoming festivities on Friday and Saturday, Oct. 4-5. It's her job to coordinate most of the alumni Homecoming activities. She plans to use these rabbits, hats and wands as decorations to go along with the theme "Create a Magic Kingdom," and perhaps to make a wish or two itself according to plan. Daniels has worked at Western for a year and a half. Besides being involved in Homecoming, she's the advisor to the Student Alumni Association; liaison to Alpha Beta Eta alumniae sorority; co-coordinator of the Office of Admissions Alumni Association Ambassadors Program; and co-coordinator of the annual career assessment for children of alumni. She also plans regional alumni activities, taps money from alumni programs, and takes care of the Alumni Wall of Distinction in Seibert Administration Building, coordinates the 25 and 40 year class reunions, and writes alumni news for the alumnus newsletter in Western, the alumni tablet. Her favorite part of the job is planning the variety of activities and working to make them come off without a hitch. "I like watching a project evolve from inception to completion," she says. Daniels holds a bachelor's degree from the University of Michigan and a master's degree from Western.

The Homecoming '85-a week filled with festivities, football and fond memories—will be celebrated Sunday through Saturday, Sept. 29 through Oct. 5.

The theme for this year is "Create a Magic Kingdom" and a wide variety of student and alumni activities are planned.

Before the week begins, the Student Homecoming Committee will sponsor an information session Thursday through Saturday, Sept. 26-28, on the Kalamazoo Chapel lawn. Information on the competitions going on during the Homecoming weekend, entry forms and pamphlets on Homecoming will be available. The committee also has set up a "Homecoming Hotline" at 3-6160. Money donated by McGonigle's Saloon will be available. The committee also has set up a "Homecoming Hotline" at 3-6160. Money donated by McGonigle's Saloon. The contest is sponsored by the Association for Women Students.

Two September 26, 1985 Western News

Gamson was a member of the study group that authored "The National Institute of Education," (NIE), report, "Involvement in Learning: Realizing the Potential of American Higher Education," and is a member of the Center for Social Research at the University of Michigan. Her visit is part of a series for faculty members at Western on "Involvement in Teaching and Learning." A NIE report states that only half of all college students seeking bachelor's degrees achieve them, and attributed the high dropout rate and declining achievement to the failure of U.S. universities to meet student needs.

Gamson will work with WMU Faculty Fellows and other interested faculty members on how to achieve greater involvement in teaching and learning in a professional development; Philip J. Egan, English; Bruce M. Haight, social science; Lawrence J. Israel, social science; Steven J. LaGrow, blind rehabilitation and mobility; Richard M. Oshandler, Counseling; Johnny L. Phrego, music; Joseph G. Reihs, languages and linguistics; Nancy H. Steinhaus, consumer resource technology; John Tunby, occupational therapy; Thomas L. White, economics; Robert O. Brinkerhoff, educational leadership; and Arthur T. White, mathematics.

The fellows will work with Zelda F. Gamson, a faculty member in the Center for Social Research at the University of Michigan, during her visit here Oct. 2-3. They will also be involved in a two-day retreat on student learning, attend monthly seminars and informal discussions on the theory and practice of good teaching and participate in a series of workshops on teaching.

Applications were selected from 50 applicants by the Faculty Development Advisory Committee on the basis of their sincere interest in and commitment to teaching and their willingness to commit some time and energy to increasing their involvement in teaching and learning.

The contract calls for a first-year salary of $35,000. In other action, the Board tabled for one month a proposal regarding bylaws. The appendix deals with conditions under which volume increases might be done and will not be open to the public.

Three to receive Distinguished Alumni Awards

Three persons will receive Distinguished Alumni Awards from Western's Alumni Association at a dinner Saturday, Oct. 5, in the Fetzer Center.

The fellows were selected from 30 applications by the Faculty Development Advisory Committee on the basis of their sincere interest in and commitment to teaching and their willingness to commit some time and energy to increasing their involvement in teaching and learning.

A total of 19 faculty members have been selected as Western's first Faculty Teaching Fellows.

The fellows will devote a significant amount of time this year to the revitalization of teaching at Western during the "Yell Like Hell/Spirit Banner" competition. Teams will have 90 seconds to show their Bronco spirit. The loudest, most creative team will win official "Yell Like Hell" painted caps. Football coach Jack Daniels has worked at Western for a year and a half. Besides being involved in Homecoming, she's the advisor to the Student Alumni Association; liaison to Alpha Beta Eta alumniae sorority; co-coordinator of the Office of Admissions Alumni Association Ambassadors Program; and co-coordinator of the annual career assessment for children of alumni. She also plans regional alumni activities, taps money from alumni programs, and takes care of the Alumni Wall of Distinction in Seibert Administration Building, coordinates the 25 and 40 year class reunions, and writes alumni news for the alumnus newsletter in Western, the alumni tablet. Her favorite part of the job is planning the variety of activities and working to make them come off without a hitch. "I like watching a project evolve from inception to completion," she says. Daniels holds a bachelor's degree from the University of Michigan and a master's degree from Western.

At 9 p.m. Monday, Sept. 30, in the South Ballroom of the Bernhard Student Center, the "Thrill's Entertainment" magic pantosode will be presented. Prizes worth $100, $75 and $50 will be awarded to the top three contestants in this popular showcase of Western's student talent.

A bar spin, a raw egg toss and an obstacle course are among the events scheduled at the annual Homecoming Car Show. The top 10 cars meeting certain specifications will be in 205 Bernhard Student Center.

Three to receive Distinguished Alumni Awards

Gamson will speak here Oct. 2-3.
Officials to visit Evaluation Center

The Evaluation Center in the College of Education has been informed that it is a finalist to house and administer a $5 million federal research and development center.

One other finalist is the University of California at Los Angeles, which has the center for the past 20 years. Officials from the U.S. Department of Education are expected to make a site visit to Western Tuesday, Oct. 29. President Pritchard has been assured that the University will receive the award.

A panel will be among the final steps in the process by which the center is to be awarded. Stufflebeam, Evaluation Center, Word is expected to receive the award.

Western has developed its proposal in cooperation with Bont College, the University of California, Irvine, and the Independent School District. "We believe such a cooperative arrangement has great potential for the success of such a center," Stufflebeam said.

The proposal is to bring a National Research and Development Center on Social Science Evaluation to Western. The proposal already has the support of the House Republican Policy Committee, O'Neill (D-Mass.) and Senate Majority Leader Robert Dole (R-Kan.) as well as Congresswoman Connie Morella (R-Md.)

The mission of the center will be to advance both the technology and practice of student testing, evaluation and standard setting. The center will assist educators, parents and students in making better use of existing testing and evaluation technology. It also will develop new and improved measurement and evaluation techniques and instruments.

The Evaluation Center at Western is nationally known for the faculty member in philosophy at Ohio State University, will speak on "Creating the Future: Toward Applications for Education." At 8 p.m. Thursday, Oct. 17, Bernhard Ross, a senior member in philosophy at Western State, will speak on "Critical Illness: Is There a Driver's Seat?" At 3 p.m. Tuesday, Dec. 3, Joanne Lynn, a physician and faculty member at Duke University Medical Center in Washington, University, will speak on "Moral Issues in Geriatric Care and the Financial Planner: A Panel Discussion on Critical Illness and TIAA-CREF Retirement." The first talk will be in the Faculty Lounge of the Bernhard Student Center. The second talk will be in 1170 Knuss Hall.

For more information, contact the center for the Study of Ethics in Society by being given an advisory committee of 16 faculty members representing the colleges in the University. The chairman is being led by an executive committee comprised of Pritchard, Bach, natural science, and Roger L. Stufflebeam,ses, of the center for the study of Ethics in government, business and the professions. Some of this renewed interest has no doubt been precipitated by particularly newsworthy events such as Watergate, Love Canal, Three Mile Island, DC-10 crashes, large-scale bribery and fraud and the like.

Pritchard will speak at the first colloquium, Oct. 4, at 3:20 p.m. and at "Communications and the Internet: No Implications for Education." At 8 p.m. Thursday, Oct. 17, Bernhard Ross, a senior member in philosophy at Western State, will speak on "Creating the Future: Toward Applications for Education." - *Workshops, "Assistiveness Training," Red Room A, Bernhard Student Center, 7-9 p.m.

- Homecoming, "That's Entertainment," campuswide talent show, South Ballroom, Bernhard Student Center, 9 p.m.

October

Tuesday/1

- *Workshops, "Starting Your Own Business," Fetzer Center, 8:30 a.m.-3:30 p.m.

- *Workshops, "Search," Betty Thompson, counseling and personnel, A-301 Ellsworth Hall, 9:30-11:30 a.m.

- Workshops, "Gravure-printing instruction, totaling $150,000 for a project in water resources and contaminant hydrology; $99,300 for a project in applied mechanics; and $52,700 for a project in materials innovation and enterprise.

To maintain current levels of operation, increases in the following areas were approved: $300,000 for anticipated utility-rate increases; $37,000 to cover postage-rate hikes; $73,500 for library acquisitions; $179,000 in student aid to cover increases in room-and-board rates, health maintenance and out-of-state waivers; $5,000 to cover costs of a van for handicapped students; and $70,000 to cover increases in property and general liability insurance.

COLD DAY AT THE MARKETPLACE—Despite some rather cool weather Sept. 21, the "Shipshewana of the North" flea market generated about $3,200 for the Mike Gary Athletic Fund. According to Bill Doidt, Gary Fund, more than 1,000 people went through the gates during the day-long event. "It was very successful and we plan to have it again next year," he said. Here, from left, Pati A. Vanderleeck, a volunteer, and Carol A. Morris, Gary Fund, try to strike a deal with Richard J. Patrick of Richland, who was interested in a set of golf clubs.

Budget approved (Continued from page 1)

are also Program Revision Requests (PRR) or initiatives by Western for special funding. They include second-phase funding for the Kalamazoo Consortium for Higher Education, Western's Project EXCEITE Potpourri remodel and facilities for gravure-printing instruction, totaling $240,000.

In addition to these, other PRR projects included in the 1985-86 budget are: $150,000 for a project in water resources and contaminant hydrology; $99,300 for a project in an applied mechanics; and $52,700 for a project in materials innovation and enterprise.
