Three possible sites named for business building

Three possible sites have been identified for the University's new $12 million College of Business building approved in January by the Legislature and Gov. Blanche. The sites all are within the 1971 Campus Master Plan designation for the location of academic buildings. The possible sites are:

- North of the Fetzer Center and east of the Health Center.
- Site near the parking lot that faces the Fetzer Center.
- On Sievers Avenue across Marion Avenue from Rood Hall and Everett Tower.

The sites were presented to the Business and Finance Committee of the Board of Trustees March 14 as an information item by Robert M. Beam, vice president for finance.

Beam also presented an eight-step site selection plan mandated by President Haeimcke to insure broad campus participation in the selection process. The eight-step selection process includes the presentation of proposals to and discussion with several campus groups. They include the dean and chairpersons in the college; faculty, staff and students in the college; the Campus Planning Council subcommittee on the project; and the council itself.

An administrative review of a site selection recommendation will follow and then a recommendation will be made to the Board of Trustees, beginning with a recommendation to the Board's Budget and Finance Committee. Beam said he expects a recommendation to be made to the Board in May or June.

Meanwhile, the committee was told, an elaborate procedure prescribed by the state for the selection of an architect has been initiated. The procedure could take four months. A committee on the project appointed by Beam and Dean Darrell G. Jones, business, will recommend three finalists to the Board, which will make a recommendation to the state Office of Management and Budget. That office will make the final decision.

Members of the project committee are Nicholas C. Bath, finance and commercial law; Andrew A. Brogowicz, marketing; Thomas A. Carey, management; Thomas M. Cate, associate vice president for operations; Earl E. Halvas, business information systems; and William Welke, chairperson of accounting. Ex officio members are Larry K. Adams, planning and engineering; Michele M. Moe, academic advising, College of Business; and Pamela S. Roomey, assistant dean of the College of Business and Finance.

Construction, which is expected to take 22 months, could begin as early as the spring of 1987. Beam said. More than 50 firms have expressed interest in the project. The building, with about 100,000 square feet, is expected to be a multi-story facility. The state has appropriated $250,000 for the project this year for planning and designing the building by an architect.

Kendall gift of $130,000 caps' campaign for center

Kendall's gift is the culmination of the $2.8 million Printing Management and Research Center campaign. Kendall has successfully completed the capital campaign for the $2.8 million Printing Management and Research Center in the College of Engineering and Applied Sciences.

"This capstone gift, for which we are truly grateful, successfully completes one of the most effective capital campaigns I have seen," said President Haeimcke. "The partnership formed by leaders of the printing industry, state government and dedicated individuals like Mrs. Kendall will enable us to continue through the completed center to the economic development and progress of an important industry.'

"The center is a joint project with the printing industry designed to meet not only the vital need for undergraduate and continuing education but also the critical research needs of the industry," said Dean James B. Matthews, engineering and applied sciences.

"It will become a national and regional resource for printing management and marketing, serving not only the printing industry but the vast packaging and publishing industries as well, further strengthening our region's economy," Matthews said.

The center will make Western's program in printing management and marketing one of the top three in the country. With a paper pilot press already in place, the center will be the only institution in the world that has both printing and paper pilot plants for testing new materials and techniques.

The campaign has been conducted under the leadership of a 19-member advisory committee headed by Homer C. (Scrap) Cox III, general manager of the Container and Container Division of the General Foods Corp. in Battle Creek and Charles (Chub) Thompson, vice president of national accounts of the Sun Chemical Corp. in Archdale, III.

The efforts of Cox and Thompson were recognized by the Board of Trustees at its March 14 meeting.

"On behalf of the industry advisory committee, I want to say how pleased we are to have reached our goal," said Cox, who was present at the meeting. "This will bring the center one step closer to being a marvelous facility.'

"We expect to continue our very positive and supportive relationship with the industry that this center will serve," he said. "I envy the students who will be entering the program in the future.'

"The Printing Management and Research Center represents a giant step forward for our program in printing management and marketing," said Arvin D. Byle, paper and printing science and engineering. "It takes what has been a teaching curriculum and widens its scope to include research and service to the industry and the region.'

Kendall is the owner of Kendall Industrial Supplies Inc., which is headquartered in Battle Creek with offices in Benton Harbor and Kalamazoo. A member of the WMU President's Club of major donors, she has supported the University's prestigious $20,000 Medallion Scholarships for academic achievement. In addition, she has supported the Blodgett Park Zoo in Battle Creek.

The Kendall gift brings to $890,000 including the interest the total given or pledged by individuals, foundations and the printing industry to the campaign, exceeding the goal by $90,000. The total could reach $1 million by April. In addition, in-kind donations will bring the total to $1.2 million.

Board issues statement on academic freedom

In a statement read by its chairperson, Fred W. Adams of Grosse Pointe, the Board of Trutees Monday expressed its "serious concern" over threats to academic freedom posed by such groups as "Ac- 

curacies of ideas and opinions, as defined by the orthodoxies of that organization or any other." 

Cain added that she requested a Board state- 

ment even though "the chapter's executive council believes that Western is secure in its constitutional and contrac-

Contributions sought for 
Kana'an scholarship

The Department of Chemistry is soliciting contributions to establish a 
Kana'an scholarship, named for Yossi S. Kana'an, who died this past January.

A faculty member in the department for 20 years, Kana’an was known as an outstanding researcher in high temperature chemistry and thermonuclear fusion. In recognition of high achievement in chemistry, the department will award this scholarship to an outstanding upper level undergraduate student each year. Contributions will include proficiency in physical chemistry. For more information, please contact the Office of Student Financial Aid at 3- 1373.

Applications available for Denefeld award

The Department of Political Science is accepting applications for the Mark Denefeld Memorial Endowed Scholarship in Political Science. This award was established in the 1986- academic year.

The $500 award is open to students entering their senior year who are pursuing a declared major in the Department of Political Science. This includes persons who are majoring in public administration.

Applicants must meet basic academic re-quirements and demonstrate superior academic performance at Western. They also must have a record of significant extracurricular activities.

Applications are available in the political science department office, 3100 Friedmann Hall, 3-1886.
Board okays changes in Senate constitution

The Board of Trustees March 14 approved amendments to the constitution of the Faculty Senate, establishing "areas of responsibility," President Denendfeld said. The amendments were developed by the Senate Executive, beginning in September 1985, and were the subject of a memorandum to all faculty, hearings, and discussion and debate by the Senate leadership. President Hanninge approved them in February for submission to the Board of Trustees this month.

Board approves new grievance procedure

The Board of Trustees March 14 approved a new grievance procedure for all non-bargaining-union employees for immediate promulgation by the administration, replacing formal procedures. All formal grievances of non-bargaining-union employees will be handled under the new procedure.

Brown scholarship in Science

Members of the Western Brass Quintet surround Russell W. Brown, center, a founding member of the group, after his last public recital Feb. 26. A Brown scholarship for brass quintet in the School of Music was announced at the recital by Donald P. Bullock, director of the school. The program will provide for five scholarships, each with a value of $20,000 over four years, for talented brass students. Brown is to retire June 30 after 35 years as a faculty member here. The program, established by an anonymous donor, begins in the fall of 1986 and the Brown Honors Brass Quintet will be established in the fall of 1987. With him are, from left, Bullock and Stephen Jones, trumpet; Johnny Parberg, French horn; and Robert Whaley, tuba.

NEW PERSONAL

W&M introduces new Personal Benefits Statement

All fringe benefit eligible employees will soon be receiving a new informational Personal Benefits statement. This statement will spell out in layperson's terms the various features of the institution's benefit plans as they apply to each employee. The statement will provide the dollar value of current benefits, based on the person's present age, pay rate and eligibility for the benefit plans.

The major plans described in the statement are: hospital-medical; disability benefits; life, supplemental life and travel insurance; estimated W&M retirement benefits; and estimated Social Security benefits.

Many employee benefits provided by the University are based on the University's contribution to the person's paycheck. "After a careful reading of the Personal Benefits Statement, each staff and faculty members will know the dollar amount and dollar value of these benefits," said Stanley W. Kaimor, director of the Administration's Compensation Department.

The statement also can help with personal financial planning by supplying information that will enable persons to judge if additional insurances are needed to supplement the coverage provided by the University. The estimated retirement and Social Security benefits as listed on the statement are an estimate of benefits provided by the University. The University's retirement and Social Security benefits are currently being updated and the new benefits summary statements will be mailed to employees' homes the first week in April. Watch for them in your mail box or your financial planner. The total current amount received and their cost is manageable, it is the University's intention to provide updated statements annually.

Sports Line/3-GOLD

Media

"The Malpractice Mess!" will be the subject of a special "Newviews" program at 8 p.m. Tuesday, March 25, on WMUK-FM (102.1). Discussions of the topic will be made by: director Tony Griffin will be State Rep. Mary Brown, who is a member of the House Insurance Committee; Raymond D. Swain of Kalamazoo, a physician who has been a risk obstetrician for Ford, an attorney from Kalamazoo; and Victor Adamo, the vice president of the Physicians' Insurance Co. of Michigan.

Listener calls will be welcome after the program on 980-AM.

Zest for Life

Attention Zesters! There seem to be some misconceptions about the Zest for Life Western program scheduled for 5 to 7:30 p.m. Wednesday, March 26, in the Council Education Center.

The events are designed to promote participation and teamworship and not competition. The events are designed to be something for all levels of physical fitness. The races are "time predictions," and the winning team is the one which finishes closest to or her predicted time and not necessarily the person who finishes first.

Come join us for the fun, friendship and teamworship. We currently are setting the "better times," so call soon to sign up at 3-6004. Advance registration is necessary.

Jobs

The listing below is currently being posted by the University employment office. Interested regular full-time or part-time employees should apply directly for position opportunities application during the posting period.

S-01 and S-02 clerical positions are not required to be posted. Interested University employees should apply directly to the office for assistance in securing these positions.

(R) Refrigeration Repairperson II (1 position), M-4, Plant Maintenance & Operations, 85/86-704, 3/18-2/24/86.

(G) Training Coordinator (Term 6/86-8/6), P-01, Consumer Resources & Technical Support, 85/86-710, 3/18-2/24/86.

(G) Outreach Coordinator (Term 6/86-8/6), P-02, Consumer Resources & Technical Support, 85/86-710, 3/18-2/24/86.

(R) Secretary III (Term 6/86-8/6), S-04, Consumer Resources & Technical Support, 85/86-711, 3/18-2/24/86.

(R) Coordinator Term (Term 6/86-8/6), S-04, Consumer Resources & Technical Support, 85/86-711, 3/18-2/24/86.

 replacement

W&M is an EEO/AO employer.
**PROFESSORS OF THE DAY—Persons from several firms were short-tenured faculty members in the Department of History at Western Michigan University during the 1983-1984 academic year. They taught in the area in which they were trained:** (standing from left) Donald R. Parfet, executive vice president at Upland Healthcare Services, accountancy; W. L. Washburn, director of administrative services at Kellogg Co., business information systems; John W. Brown, president of the Stricker Corp.; (seated from left) James H. Walters, executive vice president of the American National Bank Holding Co., finance and commercial law; and Jane Schreuder, director of business development at the Kellogg Co., marketing. They are pictured with Dean Darrell G. Jones, business, standing at far right, and President Haistwick, seated at far right.

**Vocal festivals here today, Saturday**

Two music festivals will be conducted on campus this week, both featuring events that are open to the community.

The sixth annual Gold Company Invitational Vocal Jazz Festival, presented each year in cooperation with the School of Music, will take place Thursday, March 20. The 1:00-voice festival chorus, composed of students from 29 Michigan high schools, will give a free public performance at 6 p.m. in Miller Auditorium.

**Rate hike table**

A recommendation to increase student vehicle registration rates was tabled March 14 by the Board of Trustees until its April 25 meeting to allow for student comment. The proposal would increase the current fee for full-time students with automobiles by $5 each in the fall of 1986, 1987 and 1988.

**Printing center**

(Continued from page 1)
gifts of equipment valued at $700,000 have been or will be received from the industry. The state support of the center totals $1.3 million, of which $900,000 already has been appropriated. The remaining $400,000 is expected to be appropriated by the Legislature in the next fiscal year. The center will be a part of the newly renamed Department of Paper and Printing Science and Engineering. The campaign began in September 1983.

The center will be located in expanded and renovated facilities named for the late Thomas T. Knauss, who has been an active supporter of the department and a member of the alumni board for many years. The building will be occupied by the university's Printing Services Department.
