A large gathering in Kanley Memorial Chapel Tuesday board a moving "Children of Atlanta: a University Observance" that was designed to show a concern and unity at the University for the missing or slain children in Atlanta.

The event was sponsored by the Office of Minority Student Services and the Division of Student Services.

President John T. Bernhard opened the observance by stating, "We need to be aware of the society in which we live and try to learn from the tragedy in Atlanta... that violence, cruel murder and despicable crimes have no place in our world." He noted that our society must change its "outlook on life... and value it, cherish it and protect it...."

Bernhard decries violence in observance Tuesday for Atlanta children

President Bernhard speaking at Tuesday’s observance for the children of Atlanta.

Richard Redden, minority student services, led the observance; the Voices of WMU Gospel Choir sang several stirring selections; Earl M. Washington, communication arts and sciences, and Caren Rothstein, a Southfield sophomore who is president of the Associated Student Government, read the names of the 25 Atlanta victims; and a reading of scriptures was made by the associate pastor of St. Thomas More Parish Church, Fr. Henry Marchese.

Next Board of Trustees meeting to be April 24

The next meeting of the Board of Trustees will be at 9:30 a.m. Friday, April 24, in the Board room of the University Student Center. Public meetings of the Board usually are conducted on the third Friday of the month, except in commencement, which is Saturday, April 25.

25 NAMES—Shown reading the names of missing or slain youths of Atlanta are, from the left, Caren Rothstein, president of ASC, and Earl M. Washington, communication arts and sciences, during an observance Tuesday in Kanley Memorial Chapel. (Western News photo)

Easter Sunday sunrise service to be offered

A community Easter sunrise service will be at 7 a.m. Sunday at the end of Steers Avenue on the hill overlooking Goldsworth Valley.

The outdoor service will include hymns, readings, meditation and a celebration of the sacrament. Participants will be from the University and the community.

Candidate may get their regalia today in center

Registrar Dennis Boyle has reminded candidates who will participate in commencement Saturday, April 25, that regalia may be picked up in the lobby of the Student Center from 10 a.m. to 4 p.m. today and from 10 a.m. to 1 p.m. commencement day.

"Emeriti of the University are cordially invited to attend the ceremony," Boyle said. It begins at 2 p.m. in Read Fieldhouse. More than 1,700 students are eligible to receive diplomas, including Lina Marshall, 85, a religion major, who will make brief remarks.

Campus Planning Council seeks reaction to report of U Transportation Committee

The Campus Planning Council of the Faculty Senate has been asked to solicit and review reaction of the University community to recommendations of the Ad Hoc University Transportation Committee, which are summarized in detail on Page 3 of today’s edition of Western News.

Among the recommendations is the establishment of a counter-clockwise one-way loop comprised of North Dormitory Road to North Hays Drive to South Dormitory Road and returning to North Dormitory Road.

Members of the University community are asked to send comments to Mary L. Taylor, chairperson of the Campus Planning Council, in Waldo Library by Friday.

President John T. Bernhard established the committee last year, charging it with taking "a fresh look" at all aspects of transportation on the campus. A copy of the entire report is available at the reserve desks of Waldo Library, the Music Library, the Educational Resources Center and the Physical Sciences Library.

The abstract of the committee’s report published on Page 3 includes an introduction, with a set of statements of objectives; a series of policy recommendations; and specific plans for traffic circulation, bus route and service changes, signs, intersection changes and parking. It then draws conclusions aimed at reducing traffic in the campus core, making pedestrian and other forms of transportation more attractive and maintaining efficiency.

The Faculty Senate is expected to act on the committee’s recommendations during the spring session.
Faculty and students had MASAL roles

A number of faculty and staff and nine students had important roles in the recent 85th annual meeting of the Michigan Academy of Science, Arts and Letters conducted at the University of Michigan.

The 86th annual meeting will be here March 26 and 27, 1982. University faculty who served as section chairpersons were Robert H. Woodhouse, management; Leonard Ginsberg, biomedical sciences, who also presented a paper; Helenan S. Lewis, political science; and Linda Roue, sociology.

Faculty members who spoke were William M. Cremin and Elizabeth B. Garland, anthropology; James E. Erickson, Joseph G. England, John R. Davey (twice), all biology; Joseph G. Reish, French; Charles F. Heifer and Philip P. Micklin, both geography; Helen Page-Robin, gerontology, who also was vice-chairperson of a section and a treasurer.

The 6:30 p.m. reception in the faculty lounge of the Student Center will precede the dinner.

In addition to the two new secretaries and the treasurer, Ellen Page-Robin, government and sociology, will be installed as president and Claude S. Phillips Jr., political science, as vice-president of the Senate, all to one-year terms.

Student art competition

Award winners in the 1981 Student Art Competition here have been announced by John Link, chairperson of the Department of Art.

The "Best of Show" award worth $100 went to Patty O'Connor, a Chicago senior, who also received the Walter Enz Memorial Award. Her winning work was an untitled oil on canvas. Prizes of $50 went to Benjamin Tammring, a Grand Rapids graduate student, and Nancy Mooney, a West Bloomfield junior.

Other winners received $25 gift certificates from Wheaton Art Supply of Kalamazoo. They were Donna Groote, a graduate student from Grand Rapids and Kathy L. Smith, a Kalamazoo senior, while awards of $25 gift certificates from

LAURA V. SHAW HONORED—From the left, Andrew Young, Escanaba freshman; Daniel J. Fleischacker, acting chairperson of theater; Laura V. Shaw, emerita professor of speech; and President John T. Bernhard discuss last Sunday’s performance of Shakespeare’s “A Midsummer Night’s Dream.” Shaw was a special guest at the play and at a reception afterward honoring her on her 90th birthday. Young, who had a role in the play, was still in costume. Many former students, faculty and friends attended the play and went through the reception line to congratulate Shaw, after whom the University theatre is named. (Western News photo)

Suzanne’s Art Center were given to Judith Betten and Deborah Gendor, both Kalamazoo juniors.

The College of Fine Arts purchases award of $150 and $50 were given by Karen DeBour, a Grand Rapids senior, and Anne Marie Gordon, a graduate student from Kalamazoo, respectively. The $250 College of Education purchase award went to Flint graduate student, James Watkins, and the $200 Honors College purchase award was given to Mrs. Carey, a Portage senior. Robert Murdock, director of the Grand Rapids Art Museum, judged the students’ work and selected the award winners.

Aftercare Symposium will be conducted April 24

"Aftercare Symposium 84.0" will be conducted from 8:30 a.m. to 4 p.m. Friday, April 24, in the east ballroom of the Student Center for persons involved in services to the aftercare population (those recently released from a psychiatric hospital).

The symposium provides an opportunity for mental health professionals who work in aftercare situations to meet and share ideas and personal experiences. A limited number of seats are available; and the format will highlight small group discussion.

The symposium is sponsored by the Kalamazoo Community Placement Program and the Division of Continuing Education (DCE) here. To enroll, persons may call the DCE 3-1860.

Workshop for librarians by Continuing Education

A workshop to help librarians deal with their attitudes toward “problem patrons” will be from 9 a.m. to 3 p.m. Wednesday, May 20, in the Southwest Michigan Library Cooperative (SMLC) building at 200 S. Kalamazoo Ave, in Paw Paw, sponsored by the cooperative and the Division of Continuing Education here.

Class of 1931 to hold reunion here June 5

The University 1931 graduating class will reunite Friday, June 5, for its golden anniversary.

Activities begin with a luncheon at 12:15 p.m. in the Student Center in which class members will be joined by University administrators and emeriti. A tour bus of the campus will follow the luncheon.

A reunion banquet will be at 6:30 p.m. also in the Student Center; selected class members will address the group. A session around the piano, singing school songs and also in the Student Center; selected class members will address the group. A session around the piano, singing school songs and

JOBS

The listings below are currently being posted by the University personnel department for regular full-time or part-time employees. Applicants should submit a Job Applications Opportunity during the posting period.

For information about the reunion persons may contact the alumni relations office here or call 3-6160.

U closed Good Friday

Most offices at the University will be closed Friday in observance of Good Friday.

The University Student Center will be closed both Friday and Saturday, but on Sunday the public cafeteria will maintain its usual hours of 11:30 a.m. to 2 p.m.

The University libraries will be open on a limited schedule Good Friday through Sunday. All emergency services at the University will be maintained.

Flight instructors course is offered

The annual Flight Instructor Refresher Course by the Department of Transportation Technology and the Division of Continuing Education here will be conducted from Friday, April 24, through Sunday, April 26, at the Holiday Inn at The Mill. The course will enable flight instructors to upgrade or renew certification and meet the requirements for the chief flight instructor annual refresher course participation.

Romeo and Juliet to be at Miller Wednesday

The concluding program in the International Concert Series at Miller Auditorium will be presented at 8 p.m. Wednesday with the Western Opera Theater production of Charles Gounod’s "Romeo and Juliet."

Tickets for the opera, sung in English and accompanied by the Western Opera Theater Orchestra, are on sale at the auditorium ticket office.
INTRODUCTION

The Ad Hoc University Transportation Committee was established by President Bernhard in February, 1980. The Committee was charged with taking a "fresh look" at all aspects of transportation on Western's campus. The following abstracts the major recommendations of the Committee. (A copy of the entire report may be reviewed at Reserve Desks at Waldo Library, Business Library, Music Library, ERC Library, and Physical Sciences Library.)

The Committee's investigations and discussions and the recommendations which they make are based on the following philosophical statements and objectives.

1. Transportation on campus must be an integrated system which coordinates elements of that system in a safe, efficient, and cost-efficient manner.
2. The concept of a pedestrian campus, while not wholly feasible, should be pursued, since it would minimize vehicular traffic movements in the core of the campus.
3. Alternatives to automobiles should be encouraged. They must be convenient, efficient, and safe.
4. Policies and procedures developed to regulate the system should be uniformly and fairly applied throughout the University community.
5. While it is important to maintain and to improve campus aesthetics, it should be recognized that it is possible to do so and still provide appropriate transportation facilities.

POLICIES

The Committee identified policy-related problems and recommends the following:

1. A permanent Traffic Committee should be established.
2. On-campus parking is a privilege for faculty/staff, subject to certain regulatory conditions which can also change more conditions of employment and could be grounds for disciplinary action. This policy should be enunciated and adhered to at the highest levels of administration.
3. Student traffic on campus should be reduced substantially. Parking lot assignments must be designed to discourage cross-campus traffic.
4. To assure that it is possible for students to be pedestrians, a twenty-minute pass through the University is perceived to be primarily one of distribution of spaces, especially for student cars.
5. Until a gamed-access system is in place, a limit should be placed on the number of parking stickers issued to any individual.
6. Parking restrictions must be reconsidered, and other possibilities explored.
7. Parking Lot #1 south of East Hall should be upgraded. The present entrance/exit arrangement should be changed to one-way, with the southern end being the entrance. The entrance to the north lot and south lot should be widened to allow better alignment of parking spaces in curving aisles. Parking space layout should be reorganized to eliminate dead-end aisles and gain additional spaces for small cars.
8. Parking Lot #2 west of East Hall should be reconfigured to allow two rows of parking spaces in an island arrangement surrounded by one-way traffic.
9. Parking Lot #49 in front of Sangren Hall should be changed to eliminate the entrance to West Michigan Avenue. A new entrance is gained by re-opening part of Gilkison Avenue. A second stage of improvement should include expansion of Lot #49 into the closed-off section of West Michigan Avenue.
10. Parking Lot #35 south of Kohrman Hall should be expanded by eliminating the perceived to be primarily one of distribution of spaces, especially for student cars.

11. Controlled access to faculty/staff parking should be designed to prevent abuses of permitted areas.
12. A permanent Traffic Committee should be established.

CONCLUSION

Recommendations herein are based on consideration of things as "ought to be" as opposed to what can be done. The resulting recommendations are reasonable, workable, and consistent with the long-term goals of:

1. Integrating the campus transportation system.
2. Reducing traffic in the campus core;
3. Making pedestrian and other alternative forms of transportation attractive; and
4. Maintaining overall system efficiency, even at the expense of minor individual inconveniences.

Here is a map of the campus indicating a proposed counter-clockwise one-way loop at the center of the campus. The loop is one of several recommendations of the Ad Hoc University Transportation Committee that are summarized on this page. Reaction to the recommendations is being sought by the Campus Planning Council of the Faculty Senate by May 1.

WESTERN UNIVERSITY TRANSPORTATION COMMITTEE

The Campus Planning Council (CPC) of the Faculty Senate has been asked to solicit and disseminate action of the CPC, and recommendations of the Ad Hoc University Transportation Committee, which are summarized here. Comment should be addressed to Mary L. Taylor, chairperson of the CPC, in Waldo Library by May 1.

INTERSECTION CHANGES

1. Gilkison Avenue and Dormitory Road
   - A stop sign for southbound traffic should be placed on Gilkison Avenue at the corner of Gilkison and Dormitory Road. A "No Left Turn 3:30 p.m.-5:30 p.m." sign should be placed near the new stop sign. The existing stop sign at that corner on Dormitory Road should be replaced with a yield sign.

2. North VandeGiesen Road and Western Avenue
   - Realign the entrance to one-way, north bound VandeGiesen Road with Western Avenue. Close the existing opening from Auditorium Drive onto Western Avenue and make a new cut at the south end of Parking Lot #33 for movement onto Western Avenue.

3. Wilbur Street and Gilkison Avenue
   - Re-open the east end of Lot #49 and re-introduce an intersection at Wilbur Street and Gilkison Avenue.

PARKING

There are 6,558 parking spaces on campus. Obviously, all students, faculty and staff could not park on campus at one time. Review of parking lot studies done over the past several years show that even at peak times, some lots are not full. Therefore, the problem
Science career workshop for women in June

A two-day Science Career Workshop for women has been announced by the Center for Career Services in conjunction with the Division of Continuing Education on June 3 and 4 in the Student Center.

The program will provide information and methods for planning and developing careers in the mathematics and computer sciences, social, behavioral, biomedical and biological sciences; engineering; and occupational therapy.

Experts in science will outline the current status and recent changes in their fields and identify barriers to careers in science and how to overcome them. Participants will explore how to combine home and family with a career and make plans to resume or begin a new career by practicing resume writing and interviewing skills.

The featured speakers will be W. Ann Reynolds, provost of Ohio State University; and Betty M. Vetter, executive director of the Michigan Manpower Commission (SMC), a private, nonprofit corporation that serves as a focus for common concerns about manpower in Washington, D.C.

The workshop will be funded by a grant from the National Science Foundation. It is designed for women majoring in science, considering a change to a different science career, experiencing a career break because of family responsibilities or who are unemployed or underemployed in their desired fields.

PA grads 7th in national certifying exam grades

Graduates of the University Physicians' Assistants (PA) program scored seventh in the nation out of the 64 programs that had graduates who took the 1980 national certifying examination for PAs.

The difficult test is prepared by the National Board of Medical Examiners, that also prepares licensing examinations for physicians. To be certified, a PA graduate must pass the exam. J. Donald Hare, Kalamazoo physician, and Robert S. Gove, chief of staff at the Health Center here, who are clinical preceptors, along with numerous other physicians involved in training the PA's here, deserve much of the credit for the fine showing of Western's PA's according to Norman P. Johnson, PA program director.

"The University has been consistently in the top 10 to 20 percent in the nation on the national exam," he said.

"The high caliber of the program, coupled with the fact that each year there are three times as many employment opportunities as there are PA graduates, makes this a very attractive profession," he said.

Hastings Fiber Glass Products aids U fund

Hastings Fiber Glass Products, Inc., in Hastings has pledged $25,000 over a five-year period to the "Partners in Progress" campaign here. The money was given in memory of the firm's late president, Earl W. McMullen, a 1965 Western graduate.

In making the pledge, the Hastings firm's board of directors requested that one of the executive suites in the planned University Business Development Center be named after McMullen, who was killed in an airplane accident last summer.

The "Partners in Progress" campaign is the first major effort by Western in its 77-year history to seek support from the private sector.

Elderghostles offered here in June

Elderghostles, the popular on-campus educational program for people aged 60 or older, will be offered here this summer in two sessions—June 14-20 and June 21-27.

The program provides senior citizens with the opportunity to attend a variety of non-credit classes as well as a number of social and cultural events. They are housed and eat in campus residence halls.

Courses offered June 14 to 20 will be "The Art of Listening," taught by Shirley VanHoven, communication arts and sciences; "Three Non-Western Religious Traditions," by Cornellus Loew, religion; and "A Giant on the Line," about television, by Frank R. Jamison, instructional communications and television services.

July program to aid 5-8 grade math teachers

A May 15 deadline has been set to apply for a four-week in-service program to help 40 fifth through eighth grade teachers in southwestern Michigan become better at teaching mathematics problem solving to be offered here in July.

The Department of Mathematics program is supported by a $25,311 grant from the National Science Foundation and no tuition or fees will be charged. Twenty teachers in fifth and sixth grades and 20 in seventh and eighth grades may enroll.

More information may be obtained from Ruth Ann Meyer or Robert A. Laing, mathematics, by calling 3-6165.

European trip sold out

A 15-day trip from June 22 to July 7 to northern Europe and Scandinavia for alumni and friends of the University has been sold out, according to Russell A. Strong, alumni relations. Strong said there is a waiting list for the trip, if there are cancellations between now and June 22.

For more information persons may call alumni affairs at 3-6160.

Ehrle adds two issues to list for Senate response

Elwood B. (Woody) Ehrle, vice president of academic affairs, has added two issues to a list of 10 issues on which he has sought recommendations from the Faculty Senate. The issues are the possibility of a mandatory advising system for all undergraduate students and on the last possible dates on which students may drop courses without penalty.

In addition, the Senate also is to consider strategies to preserve and enhance the University's research activities, and make a recommendation to Vice President Ehrle.

1825-30 COUNTY VEGETATION MAP—A new map locating the distribution and species of trees plus prairies and wetlands from 1825 to 1830 in Kalamazoo County with commentary is shown held by the production crew: from the left, Thomas W. Hodler, geography and project leader, did the cartography; Richard Brewer, biology, designed the vegetation classifications; Lawrence G. Brewer, a graduate student in biology from Holland; and Henry A. Raup, geography. The map has 15 color-shaded areas locating oak forests, beech-maple sugar forests, prairies, swamplands and the like. Taken from survey records back then, the map will be valuable to biologists, botanists, histarians, agriculturists and for ecological and land-use planning and research, Hodler said. It may be obtained for $2 at the Campus Bookstore and the Department of Geography here or ordered by mail from the geography department; call 3-1834. A grant from the Lucia Harrison Endowment Fund here funded the project. She was a geography department faculty member from 1909 to 1946. She died in 1974. (Western News photo)
University helps business be competitive

Western provides many examples of a state-supported school aiding businesses and industry to regain a competitive advantage in the world market.

For instance, Department of Paper Science and Engineering facilities recently proved helpful to a Kalamazoo firm in solving problems of making paper from asbestos. And as an aid to those who plan to take the Michigan Professional Engineering Examination, a member of the Department of Mechanical Engineering faculty who is a registered professional engineer annually conducts a one-night-a-week refresher course for 14 weeks.

A $750,000 gift from the Kalamazoo-based Upjohn Co., pharmaceutical firm, will be used to establish the Upjohn Chair in Business Administration in the College of Business. The gift, the largest ever received by the University, will be used to attract a well-known teacher and scholar to the campus.

The Energy Learning Center (ELC), a home the University bought, has become a laboratory for setting the effectiveness of insulation, roofing material, windows and doors. Solar panels are mounted on the roof and a south exterior wall; the furnace, which burns either gas or wood, is equipped with a heat exchange to heat water; and a wind generator on the roof supplements the electricity. The ELC provides information on alternate energy applications.

The Testing and Evaluation Services staff members test individual employees for some 10 firms in the Kalamazoo area to determine which ones should be advanced and into which areas they should be moved. Another service, which was provided for a major area manufacturer, was the counseling of employees to find positions ideally suited to their skills. Included in the current capital campaign is a $3.2 million University Center for Business Development. Intended to serve as a resource for businesses throughout Southwest Michigan and beyond, the center will be the site of programs for executive leaders, middle-managers, technical personnel and the owners and operators of small businesses and industries.

Darel G. Jones, dean of the College of Business, said, "The Center will be an ideal place for businesses, large and small, to conduct meetings, conferences and seminars. At the same time, it meets a long-standing need for facilities in many areas that interact with business, industry and government."

Staff may grow own vegetables at U farm

The University will provide students, faculty and staff members the opportunity to get good sun tans, lots of exercise and also cut down on food bills at the same time beginning this fall.

Western will rent garden plots to persons here who may grow vegetables and flowers in 20 by 20 feet plots at the U farm, located off Parkview Avenue between U.S. 131 and 12th Street. The cost is $4 for the growing season; water is available at the site.

To rent a plot, persons should contact Robert W. Speck, family housing director, at 3510 Faunce Student Services Building or call 3-4970. The plots will be available May 15.

Greeks help preschool—From the left, Richard Saputo, a Birmingham sophomore, looks on as Patricia Lawellen, a Howell senior, presents a check for more than $550 to Chris Limbocker, director of the Sara Swickard Preschool. The money came from fund-raising events during Greek Week last week, of which Saputo and Lawellen were co-chairpersons, and will help the school meet the needs of student parents here. Four tricycles used in Greek Week competition also were given to the school. (Western News photo)
Free workshops for women in research

Three free workshops for women involved in research will be conducted in the Oaklanders Hotel at 7:30 p.m. on May 12, 20 and 27. Co-sponsors are the Division of Research and Sponsored Programs (DRSP) of the Graduate College, the Center for Women's Services, the Faculty Women's Club and the Commission on the Status of Women here.

The three workshops will give the beginning and not-yet-established researcher a chance to learn basic skills in the preparation and presentation of papers. The three workshops will be: "Preparing Abstracts," on May 12; "Cutting a Paper for Presentation," on May 20; and "Presenting a Paper," on May 27.

The workshops are preliminary events for the Second Annual "Woman Researcher" Conference here Nov. 11-13; the second conference, a session on "Research Management" will be presented by DRSP.

The conference is meant for both men and women. Persons who wish to present papers must submit two copies of abstracts on or before July 15 to Ellen Page-Robin, gerontology.

HONORED AT LUNCHEON—Esther Boles (left), president of University Dames, presents a gift to Mildred Lambe (right) while Opal Klammer and Janet Bendix watch during a luncheon Saturday honoring the wives of faculty members who are retiring this year. The retirees are Cameron Lambe, education and professional development; and Waldemar Klammer and John L. Bendix, both industrial education. (Western News photo)

Area parents get nutrition tips in class

A course on "Parent Nutrition" that teaches parents to be good role models for their children in terms of health and nutrition is being conducted at the University's Child Development Center for parents of pre-schoolers.

Joetta J. Long, psychology, and director of the Children's Center for Nutrition and Education and professional development, will conduct the class, which meets every Tuesday from 6:30 to 9:30 p.m. in the Child Development Center.

The course will cover the basics of nutrition, including what constitutes a well-balanced diet, and will also cover obesity prevention, recommended nutrition for infants and children, and the importance of proper nutrition in children's health and growth.

W. Arnold Johnston, English, appeared in a production of T. S. Eliot's play "Murder in the Cathedral" at St. Malachy's Thespians in New York City. Joseph H Gill, mechanical engineering, has been advising the staff of the General Hospital on methods of maintaining constant temperature and humidity in certain areas of the building.

Sue S. Coates, home economics, was elected vice-president of the National Association of Administrators of Home Economics.

James R. Sanders, associate director of the Testing Center at the University, has been elected to the executive board Michigan Educational Research Association.

Daniel L. Stufflebeam, director of the Evaluation Center, has been elected to the board of the evaluation network, a national professional association of evaluators. Members of the network come from a variety of disciplines, including mental health, government, health-services delivery, social programs as well as education.

Two win business communication awards

Two students in the College of Business have received fall semester awards in business communication.

Debra K. Page, a Saginaw senior, won the first place Bowman-Branch Scholarship and Cathleen M. McCann, a senior from Grosse Pointe, won the second place Business Communication Award for Excellence. Each scholarship pays a portion of the students' tuition.

John W. McCann received her award on the basis of her academic standing, excellence in business communication and outstanding contribution to Alpha Beta Chi, the association for undergraduate students with a professional interest in business communication.

She is president of Alpha Beta Chi. Her current projects include participation in the interviews for the convention of the American Business Communication Association; writing an editorial for the "Wall Street Journal" detailing the importance of communication in the preservation of the free enterprise system; and for promoting Economic Awareness Business Orientation Week.

The 1981 Michigan Dietetic Association (P.S.G.A.) teaching seminar, will be conducted Sunday and Monday, April 26 and 27, in Lawson Ice Arena and in the Kalamaazoo Center Hilton Inn.

The 7th annual Western Michigan University (I.S.I.A.) District 6 meeting will be at 2 p.m. April 27 in Lawson. Registration begins at 8 a.m. April 26 there.

The conference is sponsored by the Kalamaazoo Figure Skating Club and the Division of Continuing Education (DCE) here.

Transportation tech student wins scholarship

Stephen Bruno, a Levitown, N.Y., junior, has been awarded a $600 scholarship by the Lubrizol Foundation of Cleveland, Ohio.

The Lubrizol Foundation was started by the Lubrizol Corp., manufacturer of specialty chemicals.

Stevens designated to investigate cases of alleged sexual harassment of students

Marie Stevens, dean of students at the University, has been given the responsibility of investigating complaints of alleged sexual harassment of students, according to Thomas E. Coyne, vice president for student services.

"We emphasize the necessity of directing a student with a complaint to the dean rather than to the Police Department to handle a sexual harassment complaint through normal divisional or departmental grievance procedures," Coyne said.

At the same time, Coyne said, individuals to whom complaints may be made are asked to "take the further step of making an appointment for the student with the dean, or, if necessary, of accompanying the student to the dean's office."

He continued, "We ask this special consideraton because our experience has been that individuals need moral support on occasions such as this and merely to direct the complainant to the Police Department times viewed as rather callous indifference on the part of the University."

Complaints of alleged sexual harassment of employees are to be directed to Barbara Liggett, manager of personnel services in the Office of Employee Relations and Personnel.

Textbook by Huitema is published by John Wiley

A textbook, "The Analysis of Covariance and Alternatives," written by Bradley E. Huitema, psychology, has been published by John Wiley and Sons, New York.

The 445-page illustrated text was written for graduate students and research workers in the behavioral and biological sciences. It is currently being used by psychology students around the country.

The book is available in the Campus Bookstore for $27.50.

19 students received Cast Metal Awards

The Cast Metal Scholarship Committee in the Department of Mechanical Engineering has named 19 students as scholarship winners for the fall semester.

Sixteen of the students received scholarships from the Foundry Educational Foundation of Ohio, Indiana, and the other three received theirs from the Detroit chapter of the American Foundrymen's Society.

The criteria for selection is a student's interest in the foundry industry as a future career. In addition, the students are screened by a faculty selection committee.

Over the years, the Foundry Educational Foundation has strongly supported the foundry program here, providing financial support for most students interested in the industry. During 1980 the foundation awarded nearly $30,000 in gifts to the University.

Upon graduation, most students enrolled in the foundry program can expect to move into middle or upper management positions in the metal casting industry within a short time.

Persons interested in the program and scholarship opportunities in the field should contact Arden D. Priger, mechanical engineering, at 3-1893.

RESEARCH CONFERENCE—"Research and Development in the 80's" was the theme of the second section meeting of the Society of Research Administrators earlier this week at the Kalamaazoo Center Hilton Inn. Wil B. Emmert, right, senior budget research and program officer in the Division of Research and Sponsored Programs, visits with Peter Tropper, deputy director and senior economist of the Northeast-Midwest Institute in Washington, D.C., who was the keynote speaker Monday. Emmert served as program chairman of the meeting. (Western News photo)

MDA Conference to be April 28-29 in Kalamaazoo

The 1981 Michigan Dietetic Association (MDA) annual conference, titled "Our Link To The Past—Our Key To The Future," will be conducted Tuesday, April 28, and Wednesday, April 29, at the Kalamaazoo Center Hilton Inn, sponsored by the MDA and the Division of Continuing Education (DCE).

The conference is designed for registered dieticians, students of the profession and members of the MDA of the American Dietetic Association (ADA) and the Hospital, Institutional and Educational Food Service Society (HIEFFS).

Persons may obtain more information or register by contact the DCE by Monday, or by calling 3-1860.

"The Significance of Psycholinguistics" was the theme of the second section meeting of the Society of Research Administrators earlier this week at the Kalamaazoo Center Hilton Inn. Wil B. Emmert, right, senior budget research and program officer in the Division of Research and Sponsored Programs, visits with Peter Tropper, deputy director and senior economist of the Northeast-Midwest Institute in Washington, D.C., who was the keynote speaker Monday.
