The Rock and Roll Hall of Fame—Welcome to the Zoo

I have been working as the 5th-8th Grade music teacher at the Gagie School in Kalamazoo, MI for the entire 2012-2013 year. This music program represents not only the culminating project of my work at Gagie, but also a representation of all the skills I have acquired in my years at WMU in the hopes of using them in a variety of possible future careers.

I got the idea for this program from my students. In wanting to make sure they had a say in what music we performed I asked them what their favorite songs were. The overwhelming answers were popular songs on the radio, but everyone almost unanimously agreed on “Some Nights” and “We Are Young” by Fun. “We Are Young” is categorized in the pop and rock category and I began to wonder what other bands today would fall into the rock genre instead of pop. The students then talked about their favorite musicals they would like to do and, although Les Miserables was the clear favorite, many mentioned Rock of Ages. Although I am a big musical theater fan I honestly didn’t know the plot of Rock of Ages. As it turns out, it has a lot of inappropriate subject matter for a middle school concert, but the idea of Rock music still stuck with me. Rock and Roll is a genre that any living person can relate to. My middle school students have parents and grandparents who grew up listening to this music, and yet they all still belt out the chorus to “Don’t Stop Believing” by Journey and “Livin’ On a Prayer” by Bon Jovi. Many of these songs are timeless and keep getting rediscovered by the next generation of music lovers.

After I picked out all of the music I wanted to include in the program, I knew I had to come up with a theme. My mom helped me brainstorm and eventually we settled with the Rock and Roll Hall of Fame being relocated to Kalamazoo. All of the Rock and Roll legends could come back and perform. I could use Kalamazoo-specific references that only people from this area would appreciate. Most of all, it opened up my options for soloists. At the Gagie School, every 8th grader is featured in the Spring program. With 23 8th graders in the class, I had to make sure there were plenty of solo opportunities.

This program also has given me many opportunities to practice choral arranging. I have become very interested in arranging music and have written and adapted a lot of music for my students at Gagie this year based on the voices I have in the choirs and the needs of the students. A lot of the music on the program will have either been arranged or edited by me, simply because I wanted it to be the best fit and most accessible for the students.
**School Mission Statement**

“For over thirty years, the Gagie School has prepared children to become very highly contributing members of society. From the beginning we set out to provide a very basic, strong educational foundation. We enrich the learning experience with wonderful programs in art, music, & Spanish, band, drama & athletics for children in preschool through 8th grade. Our ultimate goal is to help each child discover and achieve his or her own potential and to become a very highly contributing member of society and citizen of the world.”

**Gagie School Music Programs**

Founded over 20 years ago by Kellee Love Haselton, The Gagie School is known for its music productions. The 1st-4th grades and 5th-8th grades put on 4 programs a year, with one of the highlights being Dicken’s *A Christmas Carol* performed in Miller Auditorium each winter.

The Spring program is special because it features the oldest students in each grade level (4th grade and 8th grade). One of my biggest tasks is making sure that every 8th grader is featured in some way during the show.

My job is all 5th-8th grade music. I also teach one Kindergarten class a week, but my main job is:

- 5th & 6th Grade Choir
- 7th & 8th Grade Choir
- 6th Grade Showchoir
- 7th & 8th Grade Showchoir
Spring Program 2013

Whether it is singing, speaking, dancing, or all of the above, every 8th grader has a solo. At the beginning of this semester, I asked every 8th grade student to write to me expressing what type of solo they would be most interested in. Many of them specifically wanted to be given an acting part and not sing at all. Some of these requests I honored, and some I did not (based on the student and what I knew he or she could handle).

The next step is casting the show. I started with way more music than I knew I needed, and played through everything dozens of times. In many cases, I had a student in mind who could sing a certain song and would try to hear that student sing for me. I also wrote the script and had different combinations of students read different lines from the script to determine who would be appropriate for the speaking parts.

From there, I filled in the script with cameos and famous songs and tied everything together with the “newscast” theme, making it easy to shift from song to song. One of the biggest obstacles was finding enough solos for girls. The Rock genre is very male heavy, and I had more girls interested in singing than boys (a common problem in choirs!). Sometimes we had to be creative with songs that are usually sung by men (sung by girls in this show), and many songs I had to change the key to fit a voice, especially if the original singer sang in a ridiculous range or unhealthily.

Something I have been doing a lot more of this year is arranging. I have found that it is very fun to arrange for a choir I actually direct, because I know the voices in the choir and how they can be the most successful. I have three original arrangements on the program and a couple edited transcriptions of popular songs. I also heavily edited already published medleys to fit this theme. Because of this, I had to write out lead sheets for the band I organized so they would be able to get through the Gagie version of the medley without confusion!
